Coal and Ore Tonnage waiting on the railway.

SIMILKAMEEN STAR

It is not beneficence to give unless love goes with the gift.

Most probable a smelter will be operated nigh Princeton in near future—Copper and iron ores abound—Coking coal within few miles of town—Domestic and steam coal under town—Princeton must be Pittsburg of the west—Railroad center—Roads, trails, rivers meet here.

Vol. X. No. 46. PRINCETON, B. C., WEDNESDAY, NOVEMBER 10, 1909. $2 a Year in Advance

OPEN UP MINE NOW

Princeton Copper Mining Co. Begin Work on Their Fine Property.

Spur to be Laid and Ore Shipped to Granby Smelter—Averages High Values.

Robert Stevenson returned last week from Spokane, where he had been in connection with the organization of the Princeton Copper Mining Co., of which he is managing director. Eastern capital is largely represented in the Co., 'Col.' Stevenson and Dr Blair being promoters of the enterprise. Dr. Blair of Spokane stands high in his profession and has a lucrative practice, but he has succumbed to the lure of the Similkameen and will apply time and money to the development and operation of the Princeton Co. 'Col.' Stevenson requires no introduction to the mining world. From the early days of Cariboo to the present he has been an energetic operator and prospector and has made some very handsome cleanups. Withal, he has continuously advocated the claims of the Similkameen to investors and capitalists generally and has proved an important factor in the development of this district.

The mine which is now being put in shipping condition has been owned by Col. Stevenson for the past 12 years. It is on the south side of the Similkameen river about four miles from Princeton, opposite Holmes flat. It is a short distance from the V.,V. & E., to which it will be connected by a spur. The ore is copper-gold, averaging $40 per ton. As soon as Engineer Kennedy of the Great Northern can get the spur built shipments of ore will begin to the Granby smelter at Grand Forks.

'Col.' Stevenson has a force of men at work building bunk and cook houses as well as other necessary buildings. He is personally superintending the work and will augment the force as soon as quarters are ready. Another mine is thus put on the list which eventually will be making regular shipments to smelters. To Mr. Stevenson and the railway the credit for making this possible is due.

ORANGEMEN REMEMBER THE FIFTH NOVEMBER.

Could the ghost of Guy Fawke's, or the old fellow himself, have had a look into the I.O.O.F. hall last Friday night he would have turned a sickly green with envy. Vocal and instrumental music. songs and dancing, together with a fine address by Rev. Mr. Conn, all helped to make the occasion memorable. Then the supper by caterer Semerad in his usually neat and tasty style was enjoyed by all, Among the list of those who contributed to the evening's entertainment were Mesdames Waterman aud Marlow, Miss Carson, Misses Lvall, Miss Allison, Miss Semerad, Messrs. Lumsden, Avery, Thomas, Massonat, Brown. and the Coulthard family musical trio. The Ornnge order is a growing institution here and must continue to do so as its principles become better known. It is not, as many uninformed suppose, an organization to combat any creed or religion. It stands for equal rights to all and special privileges to none. thus it is socialistic and democratic in the highest sense of these terms. The whole affair was a grand success and was the means of bringing to light some new singing and elocutive talent.

COPPER MOUNTAIN ATTRACTS.

Mr. Hines, a mining official of Victoria, now investigating the route of the proposed trunk road from the coast on the west to Alberta on the east boundary of this province, was in town recently. He has had opportunity of seeing something of the mineral resources of the Similkameen and thinks Copper Mountain one of the greatest as well as the most interesting mineral field from a scientific point of view to be found in the world. Opinions of this character are encouraging.

TRACK LAID INTO TOWN.

Line Soon Ready for Inspection—Regular Service in Few Weeks.

After ten years of weary waiting the track was laid to the Princeton railway station yesterday morning. Men, women and children gathered around the track-laying machine to see the strange thing peddling out, right and left, steel and ties. The glad expression on their faces told of the profound gratitude which welled up from their hearts. Some of the children had never seen a locomotive and were afraid of it, others pranced and giggled, even made faces at it and called it the 'toot-toot.' On the fringe of civilization for many years the old and grizzled looked askant at the puffing, panting monster. They treat the locomotive with derision and fear—fear that it may force them farther over the divides, away from competition, style and form. Uncle Jim has now made his claim good to the Jimhillkameen valley. Will he push on to the coast? That is the question.

The fencing and telegraph gangs are nearing town and will be finished when the bridge is built. Trains now run over the Similkameen river on the bridge false work.

Engineer Kennedy has advised Great Northern officials that the V., V. & E. will be ready for inspection after the 20th inst. Regular train service may be expected about the 1st of December.

UNITED EMPIRE DEAL

Transaction Covers Three Thousand Acres Al Mineral Land.

Spokane Capital gets 'Action on' and will Develop U.E.—Mineral is Everywhere.

The United Empire is the scene of considerable mining activity just now, resultant from the deal put through by F. P. Galliac, representing Spokane capital. A force of nine men at present employed in building a road down One Mile to enable shipments by rail to be made, will be increased to 100 men within a few months as accommodations are provided and the coal and ore properties developed.

Mr. Galliac is thoroughly conversant with the wo.k he has in hand, having conducted many similar deals to a successful fiinish throughout the Pacific northwest. He will reside on the property, occupying the premises now to be vacated by W. C. McDougall and John M. Smith, who have developed the U,E. to its present stage and established its value.

While no figures are available for publication it may be reasonably inferred that a deal including nearly 3000 acres of valuable agricultural land, nearly all of which has a productive capability of either coal or ore, must involve a price consideration of about one hundred and fiftv thousand dollars. There are reports of a smelter and cement works, along with other industries, being in the program of the new owners. The acquisition of important water rights would seem to give some credence to these reports. In any case active and energetic operations have begun, which foreshadow development along businesslike and progressive lines.

This, and other mining enterprises in this vicinity, indicate the growing importance of Princeton as a base and center for trade and commercial transactions generally. Already the investing public appreciate the position of the town and hopes are high after years of depressing delay in railway construction.

DEATH OF OLDTIMER AND LARGE FUNERAL.

The death of George McCoskery on Thursday last, 5th inst., removes from among early day Princetonians a familiar figure. For the past two or three years he had been a partner in the Tulameen hotel until dissolution last winter when he and his brother Samuel withdrew from the business. During his protracted illness, bowel and liver troubles, he was carefully attended and provided comforrable quarters with his good friend Jas. Campbell. He was cheery to the last, his end coming as a sleep. Rev. Mr. Conn was a constant visitor to his bedside, piloting the voyager from over life's billowy main to the end, 'across the bar.' Deceased was generous and whole souled, the regard with which he was held being manifest in a large attendance at the funeral. He was native of Bruce Co, Ont., about sixty years old. His only brother resides in North Dakota.

HOAX AND JOAX ASK BAIL FROM FRIENDS.

'Hello! Princeton. Hello! This is Granite Creek calling. Princeton, will you kindly get some of your 'feller cits' to bail out a half dozen uproarious colts from your town. High Constable Murphy threw them in the skooknm house and they would like to be jarred loose as soon as convenient, or a little sooner.' 'All right, Granite. All right. I will immediately procure the necessary documents to liberate my suffering fellow townsmen.' Exit Princeton in search of bailees. 'Soul of St. Andrew! But there is no magistrate. I'll do my best, anyway.' Bail has not yet been found, five days later, and some persons took it very seriously.

KENNEDY IS KING.

King Kennedy, showman, magician and ventriloquist is billed for Princeton, I.O.O.F. Hall, Tuesday, November 23. He is on his annual tour of the Similkameen, adding each year some features entirely now and fetching. Comic moving pictures with a varied program of ventriloquism, jugglery, &c., affords an evening of real entertainment. Clean and amusing, King can always draw a house and is looked upon as one of the institutions of the country.

TOWN AND DISTRICT.

Mr. and Mrs. C. Saunders have moved to the United Empire camp, their house in town being engaged for Mr. and Mrs. W. C. McDougall.

A. Megraw, editor of the Hedley Gazette, was in town Saturday and paid this office a fraternal call. He is quite optimistic as to the future of the Similkameen and very pleased with the prospect of a sweeping Liberal-Conservative victory in the forthcoming provincial election.

A. L. White ihtimates to the public that he will not be able to open with his stock of house furnishings until the 15th inst. See ad. on 3rd page.

Mowitch are more plentiful now and no table need be without this succulent and toothsome meat.

Sweet peas and pansies may be seen in full bloom in Mrs. Hagerman's garden. Nothing wrong with this climate.

The Similkameen Star.

CRITICS AND CANDIDATES.

Wild criticism and critics gone mad is about the only way to express opinion of those who have tried to condemn Premier McBride's railroad policy. A very learned lawyer in Vancouver says of it that it is revolutionary and subversive of representative government. True to his profession he must take opposing views. Even at the risk of losing the respect of intelligent voters he makes outlandish statements to win, if possible a few 'floaters.' Another prominent Oppositionist says that the country will be utterly ruined if the bargain with the Canadian Northern is allowed to become law. Criticism is very lame that does not include a scheme of its own, of which the public may judge and compare with that which is criticized. Men who cannot originate anything better, or who through fear of failure and exposure dare not, will never make politicians, much less statesmen—they must be classed with the common, everyday knocker that one may hear on any street corner. Electors of the Similkameen may simply and readily test the genuineness and fitness of any Opposition candidate by his ability to formulate a railway policy and present it in detail to an intelligent public for their consideration.

Any man who aspires to political honors should have not only the ability to draft a railway policy in criticism of the government, but he should have the ability to intelligently discuss any phase of politics which concerns this province; have an honorable and successful business record; a resident of the district, and of that moral fibre which stands for all that builds up instead of destroys, ennobles instead of degrades, who by word and example will command the esteem and respect of the people. The candidate who has already represented an electoral district for two terms and is without stain of any kind; whose hands are clean from the pollution of graft, whose business-like conduct of public affairs may be guaged by large appropriations of money and consequent progress and development of the country; should not be lightly tossed aside for an inexperienced, untried person. Wisdom suggests the continuance in position of any employee or representative who has been faithful, honest and industrious.

NOTES AND COMMENTS.

Let Shatford continue the good work of building roads and trails. Since the railway has been completed to Princeton it is apparent that more and better roads will be required for shipping ore.

At this writing (Nov. 6) there has been no candidate suggested in opposition to Mr. Shatford. It is probable that some difficulty will be found in procuring a victim, as no aspiring candidate, be he ever so ambitious, would care to shoulder the stigma of sure and certain defeat, beside bearing the onus of having put the country to the needless expense of thousands of dollars for an election.

Mr. Shatford received the unopposed and unanimous nomination of the Liberal-Conservative convention at Keremeos on Thursday last.

Election by acclamation does honor to the givers as well as the receiver While it is a graceful recognition of an opponent's merit it also betokens a generous and honorable foe. There are, however, always a few disgruntled and self-seeking persons who want to override popular opinion and gain the fleeting prominence of local political wiseacres. They have not sufficient foresight to warn them of the humiliation in store for them for the next four years, following on their dire defeat on Nov. 25. If these raw politicians ever had any 'influence' it will have vanished into thin air after the closing of the polls on the 25th inst. For the lesson it would teach them and kindred 'sprigs' one could wish that a contest would occur.

If the taxpayer wants railways now is his opportunity. With three big lines pointing coastwards there will be 'something doing' in the next three or four years.

Premier McBride is the first premier to discover British Columbia. It took a native son to do it.

Princeton will have two railways if McBride's railway policy be endorsed on the 25th. Who could be so lacking in loyalty to his town and province as to vote against a reasonable railway policy? Only the party blind.

Joseph Martin, K. C., political exile in England, sends Star his business card. Just now we are not anxious to break into court or jail. If we did have a case Joe looks as good to us as anybody, His address is as follows: 'Joseph Martin, K. C., Canadian Barrister and Solicitor Practising before the Privy Council, 218 Caxton House, Westminster, S.W. London, Eng.

Lord Charles Beresford says that Canadians are the best specimens of the British race he has ever seen. He is Irish.

LOCAL AND GENERAL

As a divisional point plans for a round house have been made for Princeton.

Princeton is working hard to procure a public hospital. This is a necessity to every mining town and one that should appeal to the community, who are asked to help.—Gazette.

Wilson Foster, a Yukon mining man, has presented the Dominion Geological Survey with a collection of gold and topaz opal stones valued at ten thousand dollars, which were taken from the gizzards of partridge, grouse and other ground birds found in the Yukon.

Divine service on Sunday: morning at 11 A.M.; euening at 7:30 P.M.

The Granby smelter at Grand Forks is the second largest in the world.

The Bank of Ottawa will erect a $250,000 building at Vancouver.

The Caribou stage was held up and robbed of $4,000 recently.

Dancing class Monday, Wednesday and Saturday nights in I O.O.F. hall from 7.45 to 9 p.m. Assemblies Saturdays from 9 to 12 p.m., to which everybody is welcome—Gents 50c., ladies free. Lesson rates: Gentlemen, $10 for 12 lessons; Ladies, $6 for 12 lessons; Children 16 years and under, $6 for 12 lessons. Gentlemen who do not wish to take lessons but wish to practise may bring a partner and come during lesson hours for 50c. Only those attending the class will be allowed in the hall during class hours. *

Ladies' Aid will meet at the home of Mrs. Swanson on Thursday at three P.M.

The Guggenheim dredges have cleaned up over $2 000,000 of gold in the Yukon this year.

The Crow's Nest Pass Coal Company now mine 3,000 tons of coal per day.

SITUATION WANTED.

Working Housekeeper desires situation on or about the 20th of November.

Apply at Hotel, Allison.

THE PHILOSOPHY OF LIFE.

Not what a man WAS, but what he IS, that counts. It is the highest recommendation to reform. Some people never reform and they hate those who do.

In all free countries title, birth, class have no place. Age and good character are the governing orders of precedence where there is no aristocratic rule.

The men who look for the crooked will see the crooked, and the men who look for the straight will see the straight. The maligner and backcapper thinks he is admired, when in fact he is the most despised of all creatures.

War is a disgrace to civilization. It has a brutalizing effect and brings endless sorrow and misery.

PROVINCIAL ELECTIONS ACT.

Take notice that I have received objections in writing to the undermentioned person's names retained on the list of voters for the Similkameen Electoral District.

COPPER HANDBOOK

(New Edition issued March, 1908.)

SIZE: Octavo.

PAGES: 1228.

CHAPTERS: 25.

SCOPE: The copper industry of the world.

COVERING: Copper history, geology, geography, chemistry, mineralogy, mining, milling, leaching, smelting, refining, brands, grades, impurities, alloys, uses, substitutes, terminology, deposits by districts, states, countries and continents, mines in detail, statistics of production, consumption, imports, exports, finances, dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book on Copper.

The miner needs the book for the facts it gives him regarding geology, mining, copper deposits and copper mines.

The metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelting and refining.

The copper consumer needs the book for every chapter it contains. It tells what, and explains how and why.

The investor in copper shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

PRICE: $5 in buokram with gilt top, or $7.50 in full library morocco.

TERMS: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

ODDS AND ENDS.

One thousand dollars in cash prizes have been offered by James J. Hill for the best specimens of dry farming products grown in Montana, Oregon and Washington. Mr. Hill is a friend of the farmer, and offers these prizes to stimulate interest in the possibilities of the arid regions of the northwest.

John Houston will shortly commence the publication of the Tribune at Fort George. He may be the first mayor of that town.

Wood yields about one-fifth as much heat as coal.
