GET ORE SAMPLES READY FOR VANCOUVER EXHIBITION

BIG MONTHLY BILL OF EXPENDITURE BY COPPER CO.

MINES AND MINING

According to a statement given out at Boston, the British Columbia Copper Co. is spending $20,000 monthly to carry on extraordinary development at properties under option. To date about 1,500,000 tons of ore carying copper values have been developed in these optional properties and indications are that in the next three months 1,500,000 tons more will have been added.

J. W. Bartlett, of Incheleum, Wash., left on Monday for Hedley and Spokane after looking over the mining field, He thinks Copper Mountain a vast mineral area and the future of mining very promising. Twenty years ago Mr. Bartlett was interested in mines at Fairview and he now returns to invest in legitimate propositions of any kind.

Mr. Walz, assistant to F. R. Weekes, resident engineer of the B. C. Copper Co. at Copper Mountain, was recently at Roche River looking over mining prospects in that promising field. He visited the Red Star, held under bond by Nels Larsen, and on which a large amount of prospecting has been done. The ore is high grade copper-gold and about 1500 tons are on the dumps. Work is proceeding on the lead by tunnel all in ore.

The Vancouver exhibition is an annual event of great provincial importance, attracting large crowds of spectators. This year it opens on Saturday, Aug. 30, closing on Saturday, Sept. 6. A feature of the exhibition is a display of the minerals of the province. Princeton district should have a comprehensive show of its varied mineral resources. Samples of ore may be left at the Star.

Robert Cramer has been at Copper Mountain recently and reports extensive operations by the B. C. Copper Co. on the Silver Dollar, Annie L. and Ada B.

W. J. Kager, mining man of Seattle who has been in this section for the past sixty days investigating and examining placer and lode propositions, left on Monday for the coast. He thinks that the mining resources here are proving valuable assets of the country.

Patsy Clark, millionaire mining man of Spokrne, is expected to arrive soon and will make a quick trip to Summitt Camp, Leadville. He will be accompanied from Princeton by Col. Stevenson, guide and explorer.

One hundred thousand dollars will be invested by the British Columbia Copper Company in the erection of a concentrator at the Voigt properties, near Princeton, B. C, according to a Greenwood report to the Spokane Chronicle. Satisfactory results odtained of diamond drilling and other investigations that have proceeded for nearly two years on the Voigt and other properties have promoted this action. These investigations are reported to have shown large bodies of ore carrying 1½ to 2½ per cent. copper and about $2 in gold to the ton. It is calculated that the gold and a small part of the copper will become a net profit. Emil F. Voigt, the original owner of the properties and who had a hard time to keep the claims alive, will be the chief beneficiary through the retirement of the bonds by the British Columbia Copper Company, his contract calling for the payment of several hundred thousand dollars.

Albert Allan, railroad and mining lawyer expert, is expected here in company with P. Clark and will go to Leadville.

Blackburn and Wedell have now got a trail to their claims. They are getting good prospects in Rainger basin, four miles west of Reilly & Jensen's camp. There is snow there yet.

They are working on the main fissure at the Indiana now and have about eight inches of good ore.

ORES WANTED FOR EXHIBITION

Editor Star. Sir:—Will you present to your readers this appeal and allow your office to be made the gathering point for ores of your district? The Vancouver Exhibition Association has been very successful in gathering an exhibit of minerals for permanent exhibit. This year we are to have a new building for the timber and mine interests of the province the finest building of its kind in Canada, and I ask the prospectors and mine owners of the entire Similkameen to aid me to get a collection of ores from all properties that would appeal to the investor or mine developer.

In the Similkameen we have a more varied assortment of the minerals than any like area in the world, let us work to show these to the world.

Vancouver is not a city with funds of its own to invest, but the brokers have conections all over the world, and this city is the gateway for the capital of the world, where it gaihers in other lines is the point to seek it

We are promised a very complete exhibit from the cement works, the Princeton Coal & Land Co. are to furnish a coal exhibit, and a better time could not be had to make a complete show of our natural resources.

With the exhibit give description of your property, and your post office address and drop me a line when delivered in Princeton, I want all exhibits delivered not later than August 1st. at Hedley.

H. B. BROWN,
Director Mining Exhibit.

Vancouver. July 21.

TOURISTS SEE TOWN RAILWAY BUILDERS AT COQUIHALLA

LOCAL AND GENERAL.

The Western Canada Irrigation Association will hold its seventh annual convention in the city of Lethbridge, Southern Alberta, August 5th, 6th and 7th. The meeting will convene on the morning of the 5th at 9:30 o'clock.

At Sardis last week the daughter of Robert Stevenson, Clarinda Elizabeth, was married to John Kerr of Steveston. The bride is a very popular young lady and Mr. Kerr made many friends there while engaged as railway agent. Star extends congratulations to the principals and to our fellow townsman father of the bride, on the consummation of the happy event.

Mr. and Mrs. G. P. Jones, their children, Avonia and Gomer, Mr. and Mrs. Beam, Miss Beam and A. Megraw, editor of the Gazette, were a car party from Hedley last Sunday. They went on to the road camp at Nilemile where they were the guests of chief constructor W. A McLean. The trip was one of pleasure and the sightseers were treated to the natural beauties of town and woodland, mountain and valley, unsurpassed in the world. Their splendid Cadillac car took the grades and sandy stretches with an ease and grace that bespoke the marvellous achievements of inventors in perfecting these time and distance annihilators.

R. M. Man field, manager of the Bank of Montreal in succession to B. L. Smith, arrived from Nelson on Wednesday. He has been three years in B. C. and originally came from Woodstock, N. B.

The Ladies Hospital Auxiliary collected $79.35 on Tag Day, 1st of July. They are very thankful to the public for their hearty response to a charitable cause.

J. A. Schubert, merchant of Tulameen, was in town Tuesday going on to Hedley.

A jaunting party left in the Voigt-Garrison car yesterday morning on the grand tour of Nicola, Kamloops, Okanagan and Similkameen districts among whom were Peter Swanson, J. B. Wood, J. T. Ryan and Victor Voigt. This route is said to be magnificent on account of its scenic fruit and farm attractions.

Miss Sadie Heron of New Westminster B. C., arrived last Thursday on a visit to her parents Mr. and Mrs. J. Heron, Vermilion Av.

Mr. and Mrs. A. J. Marlow of Salmon Arm, B. C., were week-end visitors here coming via Kamloops in auto. Mr. Marlow was former manager of the Canadian Bank of Commerce in Princeton and notes the striking progress made during his absence of some two years. Mr. and Mrs. Marlow have many friends in this districl.

Mr. and Mrs. A. W. Beise, of Saskatoon Sask., are visiting Mr. and Mrs. A. Bell, having arrived on Tuesday. Mr. Beise is superintendent of agencies for the Universal Land Co., and, with his wife, sister of Mrs. Bell, is making a business and pleasure trip in B. C. He reports the grain crop of the prairies as looking very good.

W. Kynoch bought a lot of house furniture at a recent sale and placed it in a house on Billiter Av. He——

B. L. Smith left for St. Catherines yesterday where he is to be manager of the Bank of Montreal.

J. J. Malone, of Kirkpatrick and Malone was burned on his hands and arms while putting out a fire on his launch at Nelson last Tuesday.

RAILWAY POINTS.

S. Benson and W. Welsh, contractors, were in Hope and went up the Coquihalla pass last week.

Chief Engineer Hogeland of the Gt. Northern and J. H. Kennedy construction engineer, arrived at four o'clock yesterday morning on a special and the latter left for Coquihalla pass by auto at 6.

L. M. Hale, construction engineer on the V. V. & E. was in town Tuesday.

Messrs. F. C. Hitchcock and J. W. Colt of New York, prominent railway contractors are in this city, and it is understood that their mission here is the inspection of the proposed routes down the Coquihalla pass of the Kettle Valley the contract for which will now be let in a short time. These gentlemen will in all probability make a strong bid for this piece of work. They went up to the summitt this morning and will make the trip down the pass to Hope.—Merritt Herald.

The false work on the Trout Creek bridge, K. V. railway is complete and the steel span, 250 ft., will be ready about the 1st October, which will enable track-laying to proceed to Osprey Lake, 40 miles.

Possibly owing to the financial stringency Jim Hill has laid off two steam shovels working on the V. V. & E. grade near Tulameen. Is this not enough to start an epidemic of profanity. By the great Horned Owl something must be done to enliven the railroad situation in the Similkameen! Damnable delays and waste of time have reached a limit where patience ceases to be a virtue. Railways or revolution, which?

The Carbonate on Sutter Creek now shows small stringers of quartz heavily impregnated with galena and brittle silver. It is expected that when this lode is crosscut it will show large veins of good ore.

TOWN AND DISTRICT

Born—On the 18th inst. the wife of J. Heron of a daughter.

The Sunday school picnic held Wednesday afternoon proved an enjoyable affair for the scholars who were refreshed with ice cream and pastimes.

Spiritualism—Mrs. Laura E. Hill will shortly give spiritual demonstrations at which one may communicate with friends and loved ones. Watch for handbills.

Born—On the 14th inst., the wife of B. S. Peck of a son.

Trout strings are being caught freely' one of 23 was taken last Sunday. One trout weighed a half pound and measured 11¼ inches.

Abraham and John Knight and Mr. Vallance of Vernon were visitors to Princeton this week.

C. Schisler, wife and daughter, and W. McAdam left for Hope on Tuesday going over the trail.

TEN YEARS AGO.

(From The Star, 1903.)

The Vancouver board of trade has promptly responded to the Princeton board asking cooperation in securing early construction of the Coast to Kootenay railway.

A public meeting was held at Olalla on Dec. 2 to endorse meetings held at Princeton and Hedley on behalf of Coast to Kootenay railway,

Bushytail rats are plentiful this year, a bachelor rancher having killed seventeen in his cabin on a wet day last week.

To work on earth and board in heaven are among a missionary's trials in the Similkameen. Lay up treasure above, brother, then the grub question will be settled.

A. E. Howse drove in Monday from Nicola bringing the new manager of Princeton store, W. C. Lyall, late of Clinton, B. C.

Judge Murphy is in town arranging trouble for the Prior government.

Geo. E. Winkler, for the past eighteen months associated with the Star resigns and is succeeded by a man named Wrong.

Joe Wigmore, of the Wigmore Minstrels, in town.

J. Hislop found a mushroom on Five-measuring 52½ inches in circumference.

HORSEMEN!

FOR SALE—Celebrated hackney stallion 'St. David.' Prizes Toronto and Chicago. Splendid mover, Cheap for cash. Apply William Thompson, Veterinary Surgeon, Keremeos.

CARPENTER AND UNDERTAKER

The undersigned has followed the above lines of business for the past dozen years in Princeton and will continue the same. I will be glad to receive orders and will give them prompt attention. Residence and shop at foot of BILLITER AV. on Tulameen River.

W. S. WILSON

LOCAL AND GENERAL.

The Granite Creek Hotel with all its furniture will be sold on Monday next by W. Rossiter, bailiff, in satisfaction of certain mortgages.

Ninety-seven degrees in the shade is giving the mercury a sort of speed trial a only a few days ago it stood at fifty-two in the middle of the day. The vagaries of weather this summer is giving the thermometers some violent exercise.

Animal photography is a most interesting art and requires skill of no ordinary sort in catching the bird or beast by the fraction of a chance. A local man recently got some excellent photographs of mountain sheep and goat. Pleasure and profit could, no doubt, be attained by snapping bear, cougar, etc. in their native lair.

At the Princess on Sunday evening last at nine p. m. a large audience viewed the Pathe special three-reel colored feature, Notre Dame de Paris, and other illustrated events of the day. The performance was full of thrilling scene and adventure and held the audience spellbound throughout the entertainment. An electric fan giving ventilation and cooling the air has been installed in the Princess ensuring the comfort of its patrons.

Farmers are now having splendid weather for haymaking.

WHO IS TO BLAME?

The socalled 'financial stringency' of the day is used as a plea by individuals for the non-fulfillment of promises to pay honest debts and it is also used by millionaire magnates and railway presidents to postpone certain bublic works which they had undertaken. They are only too ready to seize any excuse for delay and probable release altogether from an honest debt or obligation of any kind. The innocent are made to suffer for the wrongs inflicted upon them by unscrupulous debt dodgers and promise breakers. So the moral effect of the cursed cry of hard times is most baneful and far-reaching. While it is possible for a few financial operators and stock manipulators to plan and carry out nefarious designs no one seems capable of framing legislation that will curtail the powers of these monied interests. Possibly these monied interests control the legislators. It is time for the people to awaken and avert these disastrous depressions by public ownership and control of the money market. There should be good times all the time, especially in a new country like Canada. In the Similkameen the main cause of the depression is the lack of railway construction and coast connection.

NEWSPAPER ADVERTISING

In the North Grey by-election in Ontario the liberal candidate stood on the chief plank in the party platform 'abolish the bar.' He was defeated by a substantial majority by the conservative candidate which was to be expected in a province where so many religious and secular journals as well a ministers and clergy do not oppose liquor licences. In the campaign recriminative speeches and editorials were plentiful, among them the oldtime Methodist Christian Guardian accused the Toronto Globe of inconsistency in its advocacy of 'the abolish the bar' plank. The Guardian pointed to beer and liquor ads in the Globe alongside of its temperance editorials. Every newspaper has space to sell and it does not refuse licenced hotel ads any more than that of the dry goods merchant. So long as there is no obscenc or immoral wording in the ad. the newspaper crnnot refuse space for its life depends on advertising. Free and independent expression of editorial opinion, to be of any value, must be dissociated from the question of patronage given in the advertising columns of a newspaper. Because a paper receives patronage from a hotel or railway company is that to be a reason for suppressing criticism or news when the interests of the public demand it? Nonsense. Instead of the Guardian accusing the Globe or any paper of inconsistency on the grounds mentioned it ought to remove the beam or mote it complains of and which affects its own vision so markedly. When its minister-editor goes abroad does he patronize the licenced hotel or will he stay at the temperance house? Ninety-nine per cent. of all preachers when travelling patronize the licenced house in preference to the temperance hotel—they preach temperance but they do not practice it, preferring to eat and sleep where booze is handy for guests. Editors, as a rule have no quarrel with preachers, they only want them to be consistent, keep in their spheres and stay put.

NOTES AND COMMENTS.

There is enough devolpment in sight and permanent industry now going on within a radius of a few miles of Ashnola to warrant the extension of the government telephone line to that point. Mining in the vicinity of Ashnola and along the transprovincial road now building to Whipsaw, Friday creek and Roche river will afford considerable revenue for a telephone line and will greatly assist in the transaction of business.

During last session of the provincial legislature a bill was introduced by W. J. Manson entitled 'An act respecting street lighting in rural distrtcts.' Its provisions are for the purpose of assisting unincorporated towns to obtain the necessary lighting to ensure safety of life and convenience for pedestrians. The measure is wise and liberal and can be put in operation by citizens in any town.

This year to June 24th the Granby Co. has shipped a total of 9,920,697 pounds of copper.

The Granby Company is building some 62 miles of trails connecting their different groups of mining claims at Granby Bay.

Rossland has produced a total of $55,577,452, according to the Rossland Miner and is still producing at the rate of $2,700,000 a year.

Two cars of silver-lead ore, running $50 a ton, have just been shipped from the Sunnyside, at Rock Creek, by E. Williamson.

B.C. Portland Cement Co.
United Empire Coal Mining Co.

Thse Companies will Shortly Operate on Extensive Scale and Establish Permanent Payroll.

EAST PRINCETON

The manufacture of cement will begin in a few weeks. A permanent payroll and a growing town with electric light system, waterworks and cement paved streets, will result from the industries now in formative stages. According to the history of progress in this province investments made now in East Princeton real estate must double and treble in a short space of time. This is the experience in other towns, why not the same in East Princeton? Two railways will serve transportation.

THE WIDE WORLD.

Germany's new increased taxes, necessitated by the extraordinary increased annual army expenditure and now certain to become law, are arousing a great storm of protest all over the empire, especially those on the income of property ann inheritance. Enormous public meetings are being held everywhere. Opposition is daily growing, especially in the agrarian centers. Already no fewer than one hundred and eighteen petitions protesting against the imposts have been received by the government from powerful associations of all kinds in every part of the country. Such a number of petitions on the subject has never before been known in Germany.

With the purpose of taking the last step necessary to crush out the international traffic in smoking opium, cocaine, and other noxious and habit-forming drugs, representatives of nearly all the natoins of the world gathered at The Hague last week to continue the international conference which adjourned in that capital on Jan. 23, 1912. The purpose of the gathering is to ascertain whether a sufficient number of powers will join in ratifying the international convention looking to the suppression of the opium traffic, drafted by that conference, to ensure its successful operation.

The German army bills have passed in the Reichstag. They were opposed to the last by the Poles and Alsatians, but the Socialists, while opposing an increase of the army, voted in favor of the special war levy on the ground that, falling on the propertied classes, it would tend to make them less anxious to indulge in militarism Herr Hasse having declared that the army bill having passed, a finance bill was necessary to pay for it, and the people to pay for it were the propertied classes who had supported it.

At a recent meeting the London County Council considered the education estimates for the current financial year. Expenditure on capital account was estimated to amount to at least one million pounds, which is considerably in excess of the expenditure in previous years.

The United States Steel Corporation has been granted the rights to enter Canada and to operate under letters patent of the Dominion of Canada issued to a corporation to be known as the Canada Steel Corporation, Limited. The capital of the new concern is twenty million dollars.

The existence of serious forest fires in the Chugach national fore t in Alaska, recently, was taken by the forest service as a text to answer critics who have contended that there is no fire risk and no timber worth protecting in Alaska. The service pointed out that in the Chugach forest alone there are twenty eight billion feet of lumber, and that its destruction was prevented only by the timely action and work of the forest service rangers.

Postmaster-General Burleson, of the U. S., has ordered through the secretary of the Treasury, 12,071,481,000 postage stamps for the fiscal year beginning on July 1.

On June 11th, the Storthing of Norway unanimously voted in favor of granting universal political suffrage to women, both marired and unmarried. As a result of this important decision all Norweigan men and women over twenty-five years of age are now enfranchised.

Minnesota creameries, 883 in number, produced 116,500,000 pounds of butter in 1912, adding thirty-five million dollars to the state's wealth. This is an increase of about six million dollars over 1911.

THE DEADLY DUMP.

Cleanliness is Next to Godliness and Laws Should be Obeyed.

Cleanliness has not advanced very far in some parts of Canada. The town dump with all its tin-cans, waste-paper, old rags and ash conglomerate is frequently as much a public institution as the town hall or the town council. For the sake of economy in cartage the dumps are frequently placed much too close to the residential districts, and civic apathy permits them to remain there, and to grow in bulk and unsightliness.

Garbage must be disposed of, but why our authorities should not insist upon the burning up of much of the house waste upon the premises, either in the furnace or the kitchen stove, is something to be marvelled at. If there were more domestic tidiness in Canadian towns and cities by way of destruction of many articles of house waste by home cremation, the gross saving to the municipality would be considerable and the town dump would be less in evidence.

Then, too, the festering, stinking, fly-breeding dump at the back door or the civic "dump" should be supervised and men should be employed in burning all such materials as paper, cardboard and other boxes, discarded matting and so on. This would result in the saving of space and prevent the scattering of the lighter materials by the wind. Further the destruction by fire of as much as possible of the material brought to the dump would prevent to some extent the fly nuisance from that quarter. On the completion of the burning operations, the health department should insist that all garbage should be covered first with a layer of lime, and then with clean earth, the latter to a depth of at least three feet. Of course in cities and large towns incinerators should be installed and the dump should only be used as a repository for ashes and clean earth. Scrap should be sold.

The spring time is a good season to declare war on the town dumps and on filthy back yards and lanes. If the citizens can be aroused to demand action, the civic officials will very soon supply it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Vancouver, B. C." will be received this office until 4.00 P. M., on Thursday, August 21, 1913 for the construction of a Wharf at Vancouver, B. C.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department and at the offices of C, C. Worsfold, Esq, District Engineer, New Westminster, B. C.; J S. MacLachlan, Esq., District Engineer, Victoria, B. C., The District Engineer's Office, Confederation Life Building, Toronto, Ont.; J. L. Michand, Esq., District Engineer, Post Office Building, Montreal Que. and on application to the Postmaster at Vancouver, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to five per cent. (5 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works,
Ottawa, July 8, 1913.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—4466I.

Synopsis of Coal Mining Regulations.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1. an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applitcant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-division of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5. which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five per cent per ton.

The person operating the mine shall furnish the Agent with sworn rerurns accounting for the full quanity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being oprcated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lease may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secrstary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY
Deputy Minister of the Interior.

Can we get along on my salary?

Let's see, said the girl. We'll need theatre tickets, flowers. candy, taxicabs will be an item and your club expenses will amount to something.

Don't overlook clothes, food, rent, light and fuel, called her father from the next room. They are items that always come up.

He—I got it hot and heavy from my wife this morning.

She—How was that?

He—She made some biscuits for breakfast.

A country youth travelling in a railway carriage proudly exhibited upon his breast a large silver medal. A military gentleman sitting opposite, noticed the medal, and, curious to learn the nature of the gallant deed for which the brave lad been rewarded, ventured to remark: Pardon me, my friend, but may I ask what decoration it is you are wearing? Oh, ay, was the proud reply, that's the prize oor coo won at the cattle show.
