For a clean, high heating fuel use Princeton coal.

SIMILKAMEEN STAR

Mind is eternal, ever active and inspiring, deathless.

The Princeton Coal & Land Company have recently installed new machin ry capable of producing 500 tons of coal per day. The Princeton coal basin is estimated to contain 800,000,000 tons of coal—The coal that will make Pennsylvania jealous.

Vol. XIII. PRINCETON, B.C., WEDNESDAY, FEBRUARY 28, 1912. No. 9

ESTIMATES ARE BIG

Total of $16,000,000, Similkameen Gets $275,000, Largest Yet.

Roads, Streets, Bridges and Trails Receive $190 000—House will Dissolve Today.

The estimates were submitted to the provincial house last Thursday and show a large expenditure warranted by the vigorous policy of development which the government has already begnn and will continue Probably no other province in the Dominion can show such a large increase in the demands for public works and consequent expenditure The estimated revenue is $10.387,830 66 and the estimated expenditure, $16, 270,001.09.

The total appropriation for the Similkameen electoral district amounts to $275,000. This sum is very much larger than any previous appropriation and indicates that the government is fully informed as to the importance of this district and its growing needs The vote for the Similkameen is distributed as follows: Roads, streets and bridges, district vote, $190,000; Hope to Princeton transprovincial road, $75,000, of which half, $37,000, will be expended in Similkameen district; bridges, road machinery, surveys, etc., $47,000—total $275 000. Last year the total vote was about $160,000

Sources of Revenue.

The chief heads of revenue are: Timber leases and licenses, $1,925,0 0; timber royalties, $500,000; succession duties, $200,000; registry fees, $500,000; revenue tax, $300,000; realty tax, $370,000; personal property, $170,000; land taxes, $450,000; income, $230,000; mineral, $100,000; printing office, $100 000; royalty and tax on coal, $250,000; interest, $250,000; Chinese head tax, $500,000; fees under Joint Stock Companies act, $165,000; refund from Shuswap & Okanagan railway, approximately $387,000.

The chief heads of the estimated expenditure are: Public debt, $532,669.11; civil service salaries, $899,852; administration of justice salaries, $37 584; legislation, $72,420; public institutions maintenance, $406,700; hospitals and charities, $426,200; administration of justice other than salaries, $318,300; education, $972, 872; transport, $85,000; public works, $8,236,360; miscellaneous, $4,237,079 98; making a grand total of $16,270,001.

Eight Millions for Public Works

The estimated expenditure for the next year in the department of public works amounts to $8,353,860, an increase of $3,000,000 over the preceding year This very large appropriation is made up of a general vote of $3,389.000 for road work; $60,000 for location of new roads; $140,000 for purchase of road making machinery; $100,000 for road enterprises in the development of Point Grey; $50,000 for wharf building throughout the province; $100 000 for development work at Strathcona park; $75,000 each for the Banff-Windermere and Hope-Princeton roads. The total appropriation for bridge building amounts to $1,026,000. This includes a conditional grant of $400,000 towards the construction of a bridge at Second Narrows on Burrard inlet.

The appropriations for works and buildings amount to $3,140,500 For ferries, bridge tenders, etc., a vote of $48.360 is asked and for contingencies $150,000, making the total appropriations in this department $8,353 360.

RAILWAY POINTS.

Kettle Valley Line Only Hope of Early Connection with Coast.

The Kettle Valley railway will begin construction at Princeton in the early summer. Definite assurance is given that the road will serve this town with good transportation facilities.

General Manager Grueber is expected to inaugurate regular traffic service to Coalmont on the first of March, Friday next.

A T. Kerr, railway inspector, has accepted the Princeton-Coalmont extension of the V. V. & E. on behalf of the department of railways and it is now ready for traffic.

Livingstone & Ferrier, railway bridge contractors, have closed up their business affairs here and will remove to their headquarters in Minneapolis, Minn. During their stay here for the past eight months they have made many friends. Mr. Livingstone is a brother of A. Livingstone, C. E, well known to old timers in the construction of the C P. R., and who has been connected with engineering work in the Peace river country.

Superintendent Colquohoun and Chief Clerk Brookes of the A. Guthrie Co., railway contractors, have wound up the affairs of the company and are leaving shortly for home. Both gent emen are esteemed by the business public for courtesy and tact in all their transactions here.

L. M. Hale, C. E., on the V. V. & E., is leaving for Vancouver shortly, having wound up construction work Mr. Hale is an old timer here and has many friends who will be glad to see him back again when the V. V. & E. starts construction to Ashnola and westward to Hope.

Special services are being held at the Anglican church every night this week except Saturday, and conclude next Sunday morning and evening.

UPTODATE COAL MINE

New Tipple and Machinery Installed Marks Epoch in Mining.

Princeton Coal & Land Co. Officials Entertain—Coal Best Domestic in Provimce.

The installation of the new tipple and coal producing machinery was comple ed at the Princeton Coal & Land company's mine last Friday. Everything worked satisfactorily, and the mine is now equipped with modern machinery, putting it on a basis equal to the best for the proper and expeditious mining, handling and shipping of coal. Labor saving machinery has been put into operation wherever necessary, the car loading apparatus effecting a big saving of time and expense as compared with the former hand system.

A new era in coal mining in Princeton is marked by the enlargement of the plant of the Princeton Coal & Land company. Now, orders up to five hundred tons total, can be filled daily. Besides, a better grade of coal can be produced as a result of the improved screening and handpicking system. The mine is now in a position to produce the different grades of coal as the market demands. Recent reduction in railway rates places the Princeton coal mines on a fair competitive basis. From this time forward an increased output is expected.

Due recognition of the importance of the installation of the plant was made on Saturday evening last when a banquet was held at the Great Northern hotel, at which Ernest Waterman, manager, and Arthur Hickling, managing director, officials of the Princeton Coal & Land company, received employees at the festive board. A smoker was also held in the I. O. O. F. hall. Citizens generally will join with Star in congratulations and wishing the Princeton Coal & Land company every meed of success and prosperity.

MINES AND MINING.

Russell S. Bates, delegate from Princeton, B. C., to the Northwestern Mining convention in Spokane, is showing some good placer gold and platinum taken from the property of the Tulameen Gold and Platinum Mines company, which has 24 claims extending a distance of 36,000 feet along the old channel of Newton creek, near Princeton, B. C. A large number of Spokane men are interested in this property. Among them being W. J. Nickerson, ex-Councilman Leonard Funk, Roland H. Schutz; also Mr. Gunn and D. W. Wills of Coeur d'Alene. Mine operations will commence May 1, when a large crew of men will be employed drifting on the bed rock at a depth of from 75 to 100 feet below the surface. A careful examination of the ground shows bed rock values of from $3 to $8 per yard in gold and platinum both of which appear in coarse nugget form.—Spokane Chronicle.

The rise in the price of silver is due greatly to the war in China, more especially as the new republican government has promised a new coinage. If this is carried out immense quantities of silver will be required and the price will in all probability go higher than at present.

Reports from the Mining Convention at Spokane are in high praise of the educative work done. The exhibits from Princeton district were not as representative as desired, but that was to be expected at this time of year.

Foreman Berryman of the B. C. Copper Co., Voigt camp, leaves for one of the company's camps in the Boundary and is succeeded by Foreman Norcross of the Rawhide

PROGRESSIVE GOVERNMENT

British Columbia is now receiving the benefits of progressive government. It had lain dormant long enough under misrule and incompetent political leaders. Thanks to the ability and patriotism of "Joshua" McBride the province is now emerging from its wilderness state into a land of bright hopes and promise. The automobile road, which begins construction from Princeton in the spring, will turn the Hope mountains from a backwoods into one of the grandest scenic resorts for tourists in America. Switzer land will fade into lonely desuetude as the sierras of the Cascade range are known.

BUILDING NOTES

Eric Anderson has built a pretty cottage with porch on Penryn avenue.

T. J. King is building a house on the lower bench near the hospital, 22x30.

J. Turner will build a dwelling house on Fenchurch avenue.

T. C. King, architect, is preparing a design for a large annex to the Similkameen hotel. The present hotel will be remodeled in front, the whole being treated architecturally and given a pleasing appearance. The annex will be on the lot adjoining north.

Carl Morris is building a tailor shop opposite the court house, Vermilion avenue.

T. Lavalley will erect a rooming house, two storeys, on Vermilion avenue, near the Hope road.

R. Gourlay is building an addition to his house on Tapton avenue.

P. W. Gregory has the foundation laid for a dwelling house on the first bench.

E. B. Hall will build a house as soon as spring permits on the first bench.

THE ESTIMATES

Reading the budget speech brought down by Hon. Price Ellison last Friday one cannot fail to observe the ringing note of optimism running through it from first to last. Figures are not usually susceptible of eloquent treatment, but they are eloquent in themselves when they present a record of unbroken prosperity and progress. The finance minister has had no brain-racking problems, which like some hideous nightmare haunt those ministers who have accruing debts and deficits, with grinding interest to meet, and who have to square themselves before an inquisitive electorate. Star congratulates the hon. minister for his ability to successfully manage the monetary affairs of the province and present them in such lucid form that all may understand. The estimates total $16,000,000, half of which will be allotted to public works. The total appropriation for the Similkameen is $275,000, of this amount $190,000 will be used for roads, bridges, trails, and other public utilities. In obtaining this very gratifying appropriation, Mr. Shatford, M. P. P., has again proven his ever vigilant care for the constituency he so conspicuously honors in the house of assembly and in his daily private life. No eulogy of him is required; his works are loud in praise and speak with an eloquence which must convince even those who oppose him for mere party reasons. There is much to be accomplished in the Similkameen and the everwhelming voice of the people is in favor of that work being done by the present representative.

THE RAILWAY POLICY

It only requires a moment of honest consideration and application to the railway question, as propounded and announced by Premier McBride, to endorse the legislation giving effect to it. As in 1909, when the Premier made a new departure respecting a vigorous policy of development for the province and launched his bold scheme of encouraging railway construction, so now there will, no doubt, be crass criticism from the Liberal press and party. One can fully meet all criticisms, however, by pointing to the onward march of the whole province, the renewed confidence and hope in its future and the contentment and prosperity in such general evidence wherever the eye may turn. The railway policy of 1909 gave such mighty impetus to the progress of the province that capital at once foliowed in the promotion of thousands of enterprises, population and wealth took the place of business depression and discouragement until today British Columbia is one of the most attractive provinces in the Dominion for the homeseeker and investor. As stated above it only requires a momentary review of the past three years to convince the most doubtful by the logic of results and figures that that policy was sound and statesmanlike from a business standpoint. In the railway policy announced last week still more inviting is the program of assistance and encouragement. Scarcely a section or district but will receive especial benefit from actual construction of some line of railway, while the province as a whole must gain immensely. Of vast interest to Princeton and district is the settled fact that the Kettle Valley railway will be built and completed within the next three years. The time limit, while ample, will admit of no delay. Continuous construction may be expected from the date of beginning within six months from the enactment of the subsidy bill. Provision for fair wages and white labor have been made, thus protecting the vital interests of workingmen and encouraging those of our own race and habits to make British Columbia a province of happy and prosperous homes.

NOTES AND COMMENTS.

It now looks as if the Kettle Valley railway will be first to link the Similkameen district with the coast. It will also give direct communication with the great Okanagan fruit district, affording a big market for our coal and cement. Not until this railway and the V. V. & E. are completed will the expansion of the district have unhampered play. Meantime the wise and prudent will annex as much of Similkameen earth as they can afford.

The railway policy will shortly be submitted to the people for their consideration and a general election is probable about the middle of April. Definite announcement will be made today when the house dissolves. All registered voters on the last revised list of November will be entitled to vote.

United Empire Co.: Coal and Copper.
Princeton Coal & Land Co.: Coal.
Princeton Lumber Mills Co.; Sawmill.
B.C. Copper Co.: Copper.
The Platinum Gold Fields Co.: Placer Mining.

One thousand men will be employed inside of year.

A RAILROAD CENTER

The Kettle Valley railroad, which will soon be the main line of the C.P.R. system, brings Vancouver 300 miles nearer Winnipeg, passes through the townsite. Final survey is now being made.

The Great Northern has tracks on two sides of the townsite and will soon be finished to Vancouver. These two roads give transportation in all directions from East Princeton.

Natural centre, ranching country, fruit growing. Huge deposits of copper, gold, silver, platinum and other minerals. Has big water power development. Lots in such towns as Grand Forks, Kamloops, Blairmore, Alta., Baker, Wash., are worth 5 times what is being asked at East Princeton and the payroll is not as large.

FREE CEMENT walks with each lot sold—cleared streets. Water main to be laid in streets this summer.

BUSINESS LOTS $450 up: Terms 10 p.c. cash, 5 p.c. per mo. Residence lots, $200 up: Terms, 10 p.c. cash, $10 per mo. 7 p.c. on annual balances. (¼ of all lots are to be reserved) for future sale. Get full particulars at once.

C. R. BRIGGS, Gen. Agent, 615 Hastings W., Vancouver. D. G. McCURDY, Resident Agent, East Princeton, B.C.

LOCAL AND GENERAL.

The Ball—tomorrow night—that's all.

In the case, Hagerman vs Olrich, damages, before Judge Brown, jury disallowed damages for plaintiff.

A long communication to the Star and much local matter is crowded out of this issue.

J. L. Huston writes from Soap Lake, Wash., that he is doing well and will be home in a short time.

J. E. Thompson, of Morin & Thompson, merchants, Phoenix, was in Princeton last Thursday and Friday. That firm is looking for a branch location and this district looks good to Mr. Thompson.

The copper metal situation is really stronger and more satisfactory to all concerned than at any time for five years past. A sharp advance of two cents per pound has stimulated buying while giving the mines needed relief. The leading producing interests are using their full force to prevent unduly high prices, which inevitably would be followed, as always, in the past, by a collapse in the price of the metal and serious disturbance of the entire copper industry. Apparently a market price of between 14 and 15 cents per pound may be expected for the next few months, at which figure there is a good profit to the good mines.

RELIGIOUS SERVICES.

Anglican church services for second Sunday in Lent, March 3: 11 a.m., matins, holy communion and sermon. Subject: "Perseverance and difficulties." 7:30 p.m., evensong and sermon. Subject: "What is the good of the church."

Christian Science lesson-sermon subject for Sunday next: "Christ Jesus." We have seen and do testify that the Father sent the Son to be the Saviour of the world.—I John 4:14.

Methodist church service, Sunday, March 3. In Oddfellows' hall, at 7:30 p.m.; cement works at 11 a.m.

Presbyterian church services—Sunday school, 11 a.m. Evening service in the court house, 7:30. Coalmont—Morning service, 11 a.m.

Subject for next Sunday: "The Immorality of Princeton."

BIAS CORSETS

The Bias principle of construction is quite different to the average, being boned on the bias instead of straight up and down like other corsets. It is this difference in the way they are made, which makes them so strikingly easy and comfortable, and those who have never worn a Bias Filled have yet to know what the right corset will do for them. Its bouings and clasps will not rust, and the fabric will not tear with the hardest and most constant use. Every yard of material is accurately tested for strength, and everything about them is guaranteed by the makers.

COALMONT

The Town of Opportunity

The rails have been laid into the town and Coalmont is now the new terminus, the base of operations for the next forty miles of railway building.

Before six months have passed there should be a payroll in Coalmont of between 350 and 400 men: This means population, which naturally means good business.

IF YOU ARE WISE YOU will invest in a little Coalmont real estate now while the choice is still good.

Don't let this opportunity slip along with the others which have got past you. Write for our circular and price list; a post card will bring it to you. There are still some 50-foot lots left

Two blocks from the centre of town at only $225, $55 cash, bal. in 18 months to suit.

Williamson & Turner

AGENTS, COALMONT, B.C.

NEWSPAPER'S GOOD WORK.

Mineral Resources of Similkameen Given Due Publicity.

So seldom do the Vancouver and other coast newspapers publish anything in the shape of a readable and informing article regarding this district that it is with pleasure the following extended notice is reproduced from the Province. And, while Star is in the humor of giving advice, it may not be improper to suggest to our big daily cotemporaries that as a means of increasing their circulations there is nothing to equal a collection of news notes from the various mining camps and agricultural centers of the interior. It is not cheap advertising Princeton wants, but a fair and truthful description of its vast and varied resources. The big dailies have a duty to perform in making kuown the great wealth of minerals which is to be obtained within 150 miles of their doors, and if they wish to divert toward Vancouver trade now going to eastern and foreign cities they will require to give generous space for writeups of the district. The good work has begun in the Province. May it continue:

'The Similkameen, it has lately been discovered, has still another asset in mineral wealth in addition to its gold, silver, copper, iron and other ores, and that is its platinum deposits. Only latterly has this precious white metal, over twice the value of gold, been discovered Already many miles of the Similkameen and its tributaries have been located and sufficient platinum deposits have been found to warrant the installation of thousands of dollars of machinery and with the opening up of the spring, operations will commence in real earnest.

The prospectors of the early days were ignorant of the real value of platinum and in every instance it was thrown away. Since the discovery of platinum in the rock bottom of the Similkameen and Tulameen rivers, many of the old placer workings have been worked over again for the platinum values they contain, and they have yielded large profits.

Just as Dawson was the center of operations in the world-renowned Yukon, so will the town of Princeton be the center of the Similkameen. An ideal townsite, situated at the confluence of the Tulameen and Similkameen rivers and right in the heart of a coal basin of approximately eighty square miles, Princeton should with the opening up of its long-sought after railroad communication with the Pacific coast, become the largest of our inland towns in a very short time. Today the town of Princeton has that snap and go that forms the nucleus of great achievements The advent of the Great Northern will hasten development The prosperity following this development will not be short lived either, for every ounce of ore that will be taken out of the Similkameen district must necessarily be shipped from this point or vicinity (Granite, Coalmont and Tulameen.) Princeton is the center of a mining district that cannot be surpassed anywhere on the continent, but in addition to the numerous gold showings that have been made the real wealth and future of the Similkameen valley lies in the extent of its platinum deposits'

Real Estate, Finance, Mines
The Door of Opportunity is Wide Open.
The 'West' affords many examples of fortunes made from ground floor investments. Winnipeg, Calgary, Edmonton and Vancouver had a similar beginning to that of Princeton. Fortunes have been made in real estate from a very small investment. Princeton, which includes East Princeton, has undoubtedly the best prospects of any town on the map. Invest while the town is yet in its infancy and see prices steadily rise.

FOR SALE:
Lot on Bridge Street, within 100 yds. south of Vermilion av.
Townsite Welldo. Two railways—gold-platinum placers, ore and coal mining.
Ranch 1½ miles west of Princeton, 192 acres, $3,000.

C M. SNOWDEN.
February 14th, 1912.

NOTICE.

Yale land division, Yale district.

Take notice that George Laurie Fraser, of Coalmont, B. C., occupation mine manager, intends to apply for permission to purchase the following described lands. Commencing at a post planted at the southeast corner of lot 378, thence running south 40 chains, west 60 chains, north 40 chains, east 60 chains to point of commencement, containing 240 acres more or less. G. L FRASER,
Coalmont, B. C, Jan. 24, 1912.

Notice to Delinquent Co-Owner.

To T. C. REVELY—Take notice that unless you do pay, within 91 days from the date hereof, the sum of $231.95, being your proportion of the expenditure required for the years 1903-4-5-6-7-8-9 10-11 by Section 24 of the Mineral Act, upon the Transvaal Fraction Mineral claim situated on Copper Mountain in the Similkameen Mining Division, together with interest and all costs of this notice, to the undersigned your co-partner in the said claim, your interest in the said claim shall become vested in the undersigned who has made the required expenditure.

A. E. HOWSE.

Dated this 29th day of January, 1912.

LIQUOR ACT, 1910.

Notice is hereby given that, on the 7th day of March next, application will be made to the Superintendent of Provincial Police for the transfer of the license for the sale of liquor by retail in and upon the premises known as the Tulameen Hotel, situate at Princeton, B.C., from L. C. Barnes to James Malone, of British Columbia.

Dated this 7th day of February, 1912.

PRINCETON

According to the laws of industrial progress and the experience of founders of western towns, there must be a tangible, genuine basis on which to establish the future city. No amount of coaxing can bring blood out of a stone, nor can the greatest scientist extract sunbeams from a cucumber. Every man makes his own destiny--his own fortune--nothing comes by so-called good luck. The door is wide ajar for all who have pluck and a little capital. Investigate Now!

Princeton

With Its Unequalled Mineral Resources
Its Healthful Climate and Pretty Site

Is destined to be the Largest City in the Interior of British Columbia.
Five hours' run to Vancouver when the V., V. & E. is finished.

Your Opportunity Is NOW!
