Bituminous coal in Princeton basin—a steam coal.

SIMILKAMEEN STAR

Love all; trust few; wrong none.

A. D. 1911 opens with most encouraging prospects for Princeton and district—Another railway, the Kettle Valley, (C.P.R.) is coming for coal, coke, ore and cement tonnage—Great and Surprising developments of Steamboat camp and Whipsaw.

Vol. XII. No. 4. PRINCETON, B. C., WEDNESDAY, JANUARY 18, 1911. $2 a Year in Advance

THE BOARD OF TRADE

Now in Eighth Year of Existence has Accomplished Much Good.

Brief Account of Work Done—Reciprocity Favored—Board Is For Greater Princeton.

[Concluded from last week.]

The Princeton board of trade was organized Nov. 28, 1903. C. E. Thomas, president, and was the first to be established in the Similkameen electoral district. One of the first propositions for the board to undertake was the extension of the Dominion telephone line from Nicola to Penticton, thus linking Princeton and other Similkameen points with the outside world How successful the efforts of the board were is now attested by the fact that a continuous circuit of 500 miles is now in operation and the important towns of Similkameen, Nicola, Kamloops and Okanagan districts are connected, with an average total of about 5000 messages per month. As a result of the board's long agitation for telephone extension it is evident that unless we ask persistently and urgently for public needs, imp ovements and reforms there is slight chance of obtaining anything, such is the present system of government and the well nigh useless official known as inspector, whose chief 'duty' seems to be opposition to progress and remedy.

Princeton to Vancouver.

The board pressed upon both governments the necessity for a coast to Kootenay railway, a large petition being circulated for that purpose and forwarded to the proper authorities. I may suggest that it may yet become the duty of this board to originate another petition to have the V.,V. & E. completed from Princeton to Vancouver, For, not until this link is welded can Princeton or any other town along the proposed line receive the measure of prosperity to which it can fairly lay claim.

Taxes Come Back.

In regard to street improvements the board took this matter up in recent years, advocating a reasonable return for the taxes collected. At first this proposal met with slight opposition by some who argued that the government had no right to improve the streets of any town. Thanks to L. W. Shatford, M.P.P., the broader view prevailed, the people were accorded their rights and good highways resulted.

Improve Breed of Horses.

The efforts of the board to have the ranges of the Similkameen rid of wild horses has met with general approval and that nuisance has almost disappeared. The establishment of an experimental horse breeding station in this section where grazing and climatic conditions are most favorable for a high type of horse has been advocated by the board and this important matter onty requires frequent periodical resuscitation to ensure success.

Public Convenience.

The time has arrived when Princeton should have modern and uptodate public buildings. If not to be outdone by other places this matter must have concerted attention. The irregular mail service from coast to Princeton by which

Continued on page 2.

FIRST HOCKEY GAME.

The first of a series of five hockey matches was played between teams representing guests of the hotels Great Northern and Tulameen on Monday night, resulting in score of 7 to 5 the latter winning after some brilliant play on both sides. The ice was ideal, if a little foul, and the play swift from beginning to end. Some new players showed good staying qualities, while the older ones were encored by the crowd for their lightning-like swoops and dead shots on the goal. It was a matter of general surprise that Princeton is possessed of such excellent hockey 'timber,' who will, doubtless, in contests with outside teams bring honor and renown to the 'old town.'

The line-up: Gt. Northern—Captain Carmichael, Stevens, Brown, Freeman, Lyall and Waddell. Tulameen—Captain Lawson, Howse, Thomas, Murdock, Wagner and McLean. Referee, J. D. Lumsden; timekeeper, L. T. Joudry; goal judges, Irwin and Huston.

OPULENT OPTIMIST.

Peter Marquart was in town recently from Nicola, where he has resided for many years and is now an opulent and respected citizen thereof. He states that direct rail communication with the coast has wrought a great change with his district and where formerly was stagnation now is bustle and progress. He says that Merritt is a marvel. Large buildings are being erected on all sides and its citizens are boosters, working harmoniously for the common good and end.—Merritt Mr. Marquart has some realty in Princeton and sees a great future for this town when direct railroad service is obtained to the coast.

Princeton v. Granite Creek-Tulameen is the hockey match arranged for Saturday afternoon at the Owl, wind and weather permitting. Go and see how it is done. Dance in the evening.

Mrs. P. Swanson left on Friday last for coast cities and will visit relatives at Nanaimo, returning about March 1st, when she will resume management of the Great Northern dining room.

LOCAL AND GENERAL

Social Functions on Tapis and Throng Moving To and Fro.

Well Known and Highly Esteemed Pioneer Passes Out Into the Great Unknown.

G. C. Tunstall, late gold commissioner for the Similkameen, passed away at Kamloops on the 6th inst., in the 74th year of his age. Deceased had a very wide circle of friends who will miss the genial and affable 'Judge.' Many have cause to remember the kindly help and generous benefactions of the deceased, and his courteous mien won a host of friends. To the bereaved ones Stsr extends sincere sympathy.

W. H. Hagerman returned last Saturday from a visit to Oregon points where he saw dust flying on the roads and garden flowers blooming. He is glad to be back in Princeton where the climate is as healthy as any in the world.

C. O. French goes to Spokane Friday on mining and agricultural business, from thence going on to Chicago. He expects to return when the robins begin to chirrup.

Social dances will be held every Friday fortnight in the I.O.O.F. hall, the next dance being on the 27th inst. The popularity of these sociables is admitted by devotees of Terpsichore. Good music and a good social time. Dances commence sharp at 8 and continue till 12.

Posters are out for a grand ball to be held in the I.O.O.F. hall in the evening of St. Valentine's Day, Feb. 14th. It will be given under the auspices of Rebekah Lodge, an institution which is doing much to promote social intercourse and the welfare of the community generally.

Rev. G. R. B. Kinney was unable to reach Princeton last Sunday being storm stayed en route from Alameda Saskatchewan. It is now learned that he was snowbound in Paradise, Montana, a place that does not, evidently, bear any analogy to that place where only a few of the 'best of us' will take up their transmundane abode.

R. Hewat of Fairview, assessor for Kettle River district, was in town recently.

E. E. Emmons, of Vancouver, is a visitor to Princeton.

During the recent cold snap the Osoyoos Coal Co. delivered considerable quantities of coal in town, hauling it some five miles in sleighs.

Negotiations were recently completed by which A. E. Howse of Nicola became owner of the Murk lot at the corner of Voght St. and Quilchena Av. Upon this corner Mr. Howse will erect a 3-storey brick building, to cost when completed about $36,000.—Merritt News.

J. B. Wood goes down to Spokane Friday on mining business.

The truly noble and good are not disturbed by the ill reports of the envious.

WHERE ORANGES GROW.

Arthur Reith writes from Ontario, Cal., that he and his wife and daughter are basking in beautiful summer weather amid orange groves, vineyards and blooming flowers. The orange crop is ready to harvest and is estimated to reach the enormous total of 4,600 carloads for that section alone. The climate is warm all the year around and is monotonons. It is doubtful if one accustomed to Princeton climate, with its whetting, appetizing ozone, would care to exchange for the languid south. Mr. Reith expects to return in March.

TOKENS OF GOOD WILL.

One of those, all too few, pleasant occasions which serves to remind us of the fact that man in the generic sense is appreciative and usually glad to recognize in his fellow citizen evidences of true worth and probity, was afforded last Tuesday afternoon at the home of E. Waterman, where a beautiful clock and address was presented to A. J. Marlow, who is leaving Princeton for Salmonarm. Mr. Waterman, in well chosen and felicitous words made the presentation, humorously alluding to the similarity of condition of both the clock and recipient: 'They were both going.' Mr. Marlow replied feelingly, expressing his sincere thanks and high appreciation of the tokens of friendship and good will. The presentation was made through the board of trade, of which Mr. Marlow was an active and attentive member, on behalf of citizens. Those present were: President Lumsden, Vice President Murdock, Secretary Groffman and Messrs. Hunter, Willanson, Marlow, Waterman and Wright.

RENEWS ACQUAINTANCES.

T. J. McAlpine and wife arrived last Friday on a visit to Mr. and Mrs. Young, Billiter Av. The visitors reside at Summerland in the heart of the peach belt, a town and district that are growing by leaps and bounds. Mr. McAlpine is engaged with the firm of Ritchie Bros. in laying out the townsite of Kaleden, providing it with water and supervising the development of large tracts of fruit land. The Ritchies have already made big money out of investments and their generous dispositions found expression in the gift of a college building to the Baptist denomination at Summerland. Mr. McAlpine is busy shaking hands with the early residents of this section, himself a pioneer in sawmill and bridge building here.

The Similkameen Star.

THE BOARD OF TRADE.

From 1st Page.

newspapers and other matter 'bunch up' and access to the office here during lawful hours; the improvement of the court house grounds, &c., are all subjects for governmental consideration. The people pay for good service and proper convenience and it is the duty of the board of trade to protect them in their rights, as well as advocate measures and remedies tending to a greater and better Princeton.

Reciprocity, Proper Thing.

The board in 1903 took np the question of reciprocity with the United States and I am glad to say that negotiations now in progress point to an early solution of this great international problem. I can only recommend to the board favorable consideration of this question as tending toward the ultimate goal—universal free trade and universal peace. Apart from the high moral sentiment involved in it the business phase of it has to be considered with refereuce to the greater good to the greater number. It is the board's privilege to strengthen the negotiations now under way by resolution and to take for its guide the lofty example set for all nations and peoples by free trade Britain.

Conservation of our forests has demanded the attention of the board, sug gestions from it having been passed on to the proper authorities

Trunk Road and Trails.

The importance of the interprovincial trunk road has engaged the attention of the board and a resolution urging its early completion was passed; also the trail to Steamboat and road to Whipsaw have received the attention which their importance demands and work is expected to begin as soon as possible, affording means of travel for the expected inrush of prospectors to the goldfields.

The board has already issued pamphlets descriptive of Princeton district, but further publicity on a large scale is now necessary if full advantage is to be

BOARD OF TRADE, PRINCETON, B.C. Meets first Monday in each month.

J. D. LUMSDEN, President. F. E. GROFFMAN, Secretary.

THE BOARD OF TRADE.

From 2nd page.

taken of passing opportunities.

Incorporation of the board, according to Dominion Act respecting same, can be made when there is a population of 2500 and a paidup membership of not less than 30. This is a matter for your early and earnest attention.

Mining School Wanted.

The quarterly sittings of the county court, fire protection and school of mines, are matters already considered by the board. In conclusion I respectfully urge every interested resident of the town and district to join the board and work in harmony for the general good. Thanking you for support during the past term, wishing all prosperity, and to my successor a loyal and hearty measure of your assistance,

I am, yours respectfully,
J. M. WRIGHT.

The board voted thanks to the ex president for his address, ordered it to be embalmed in the minutes, and published.

The question of fire brigade reorganizatio was laid over until next meeting on Monday, Feb. 6th.

Board adjourned.
