Great variety of minerals—Prospector's paradise

SIMILKAMEEN STAR

Truth is constructive, a lie is destructive, demoralizing, death.

Population of Princeton and district increasing normally—Climate is healthy and enticing being in dry belt—When railroad is built Princeton will then be five hours run from Vancouver—Sportsmen's resort and magnificent scenery—Diamonds, platinum and gold.

Vol. XII. No. 18. PRINCETON, B.C., WEDNESDAY, APRIL 26, 1911. $2 a Year in Advance

THE WEEKLY GRIST

Backward Spring Delays Seeding but Good Grass on Sunny Slopes.

Many People Visit Town, Disappear Among Hills in Search of Land and Mineral.

J. R. Cranston, an old timer in Rossland, was a visitor here recently, having been attracted by the diamonds at Olivine mountain.

Get carload prices on barbed wire from the A. E. Howse Co., Ltd.

C. R. Briggs, secretary of the B. C. Portland Cement Co., went to Vancouver last Friday.

No excuse now for not having a beautiful lawn. All kinds of garden hose can be had at the lowest possible prices at the A. E. Howse Co's.

Mrs J. N. Nelson left yesterday for Bittern Lake, Alb., on a visit to her parents.

F. L. Churchill, of Rossland, was in town on a visit this week, and made a side trip to the diamond field at Olivine mountain.

Onion sets 25c. per lb. at the A. E Howse Co's.

E. Waterman, manager of the Princeton Coal & Land Co., went to the coast via Penticton on Monday last.

Mrs. Max Wilson left on a short visit to relatives at Chilliwack on Monday.

Robert McIntosh, architect, Grand Forks, was in town Monday in connection with building the large new hotel for Manly & Swanson.

FOR CLEAN JOURNALISM.

Ill Tempered 'Bruce' and His Yellow Ethics Subject for Reform.

Thanks to 'Bruce' Star is receiving some attention now in such polite and endearing terms as 'potwolloper,' 'nondescript,' 'shrimp,' 'idiot,' and 'pulpy brains.' The other week he was calling the editors of other papers similar names and it fell to the lot of the gentleman who edits the Ft. George Herald to give Bruce his quietus in two words of four letters each. Star has a much better way of dealing with a character like Bruce, who has slandered many persons from the premier of the province and his ministry down to the humblest subject. Star admits that it is belittling to pay any attention to the Sunset man and readers are asked to pardon this enforced offence. Our position is similar to that of the plaintiff in the recent libel suit against Bruce, in which the former won and was awarded nominal damages, thus virtually censuring him for having given any heed to the irresponsible writer. Bruce's unintended humor toward the Star may cause us to smile but there is a serious side to it. The big column of abusive stuff hurled at the Star and others is hardly fit for boys and girls to read and is neither instructive nor elevating for older persons. In the interests of clean journalism, clean home and clean social life no one can afford to countenance a paper which plays the part of a muck rake. Error cannot be remedied by patronizing it. Personally the Star is not concerned about the knocks or praise of scribblers who fortify a weak morale with excessive use of fireworks and firewater, but if Bruce will abandon both he may yet command respect and influence with the thoughtful public. This is said with no intention of provoking another column of virulent abuse in Sunset but with the sole aim of helping to maintain the dignity of the press and making all journals in this province a power for good. Will you help, Bruce, in raising the tone of your paper to the standard indicated, battling for the right in language clean and eloquent, holding high the torch that its rays may dispel all darkness, and carrying the message of cheer and good will to burdened brothers working out the problems of existence?

PROSPECTOR WHO KNOWS.

EDITOR STAR.—Sir: 'Bruce' of Saturday Sunset, has taken exceptions to my communication of two weeks ago. That letter was written for the benefit of the prospector and to tell him the only route to Steamboat mountain on which there was horse feed. I have just returned from that district and the trail is now open so pack horses can be taken over. The feed will be good in about two weeks. 'Bruce' accuses me of boosting for Spokane and not Vancouver. It would be useless to expect any money from Vancouver for development of Steamboat or any other mining camp The so-called capitalists of Vancouver are only a lot of mortgaged real estate speculators. From the heat 'Bruce' has shown in his article one would imagine that he had been caught in a lie. The B. C. Fruit Magazine inelegantly but truthfully depicts him as being a 'pimple posterior to mankind.' Yours truly.

Princeton, April 25, 1911. C. M. SNOWDEN.

THE ATHLETIC WORLD.

The April number of that interesting Canadian publication "The Athletic World" has just reached this office. A perusal of its pages and a glance at the many illustrations give free proof that in the covering not only of Canadian but also of universal sports and general pastimes, this magazine is more than fulfilling past promises and marking out a future of certain and unqualified success as a national periodical for Canadian followers of sports of all sorts.

An eastern board of trade has adopted the slogan: 'Boost, and if you can't boost don't knock.'

Be in fashion and wear a Panama hat. See the stock at the Big Store, A. E. Howse Co., Ltd.

Neil Huston made a flying trip to Penticton on Monday.

Mrs. H. C. Schneider left yesterday on a visit to Bangor, Mich.

BUILDINGS GOING UP

Largest Record in History of Town Denotes Busy Times Ahead.

Princeton Must Become Great Distributing Centre for Surrounding Mineral Camps.

Buildings in progress and completed represent a larger expenditure so far this year than for any similar period in any previous year. Hastily gathered information discloses unusual building activity present and prospective, all indicating a big step forward in the life and prosperity of the town and district. Confidence in the permanence and stability of Princeton as a centre and distributing point for all the upper Similkameen country is taking deeper root every day. Other towns may spring up in this section, which every progressivist welcomes in that spirit of healthy boost which says there is room enough for all, but there can be only one centre and that is the natural and logical one—Princeton.

A store block on lot 1, block 9, Bridge St., has been begun by contractor A. E. Irwin, who bought the lot from F. J. Finucane, Spokane, for $1375, through H. H. Avery. The building is 36x66 with a cellar 25 feet square and will be occupied by O. H. Carle, grocer.

Mrs. Allison is having a cottage built 30x36 with verandahs, kitchen, pantry and bath room, on her beautiful plot on north side of the Tulameen river. Contractor Irwin has carpenters at work on it.

The Tulameen hotel is receiving a large addition including septic tanks. Contractors J. A. Knudson and Mr. Garlarneau are doing the work.

The new Great Northern hotel 70x70 feet, for Manly & Swanson, the addition to the Similkameen hotel for J. N. Nelson and the new Princeton hotel to replace that destroyed by fire, are some of the buildings to be erected.

Other buildings are as follows: N. McFadden, 2-storey house; J. F. Waddell, house, 2-storey and attic; P. Johnson, house; W. C. McDougall, addition to supply store; G Freeman, cottage; J. W. Stitt, cottage; C. Day and Bert Irwin, addition to house.

The finest selection of men's summer shirts ever brought to town at the A. E. Howse Co's, Ltd.

PRINCETON AND PROGRESS.

F. E. Groffman returned from a trip to Vancouver last week and reports prosperity and progress very much in evidence. During his short absence he noticed a decided improvement in building and business circles and thinks that Princeton is now fairly launched upon the great wave of prosperity sweeping over the province. It will be learned with regret by many here that Mr. Groffman will be absent again for several months. His time and ability have always been unsparingly given toward anything that pertained to the welfare of the town, therefore he will be much missed.

TRAIL TO STEAMBOAT.

L. W. Shatford, M.P.P., and Road Superintendent Turner paid a hurried visit to Princeton between trains last week for the purpose of considering and executing certain public works required in this section. Mr. Shatford is very optimistic regarding the development of this portion of his constituency and notes the progress observable on every hand. Mr. Turner started a gang at work on the Steamboat trail in charge of foreman J. Snowden. The road superintendent has been busy in the east end of the Similkameen and both he and Mr. Shatford will return here shortly to complete plans for the season's public works.

FAVORS RECIPROCITY.

Assistant Traffic Manager M. J. Costello and V. Kistler, District Agent of the Great Northern, called at the Star office last week and interviewed the imp, who showed them the machinery and dilated on the mysterious functions of the devil and the role he played in the inky art. Mr. Costello is an erstwhile editor and talked freely on reciprocity, which he hopes will become law. He expects railway construction to proceed this summer, thinks our railway laws are superior to those of Uncle Sam and said one railway station would be ample for the needs of Princeton and district.

Mr. and Mrs. G. Murdock returned last Friday from a very interesting trip into the Okanagan as far as Enderby, where they met Mr. and Mrs. Pyman, who wished to be remembered to friends here. The development of the Okanagan is marvellous and land is selling from $50 to $100 per acre. Settlers are arriving in large numbers and hotels and steamboats are crowded. It is not improbable that Mr. Murdock and family may remove to that country, so strong are the inducements for land speculation.

An inquirer wants to know if that '60 ton' safe recently installed in the Bank of Commerce is for diamonds from Olivine mountain. We opine that the bank will not overlook these gems if they are brought in quantities not exceeding the weight of the safe.

The Similkameen Star.

Four weekly insertions constitute one month advertising.

No transient advertisement inserted unless accompanied with the cash.

NOTES AND COMMENTS.

Princeton and district have been so often extolled by visitors that it seems superfluous to further quote from them. An early resident of Rossland, and one who knows the Boundary and Kootenays well says that this section has all the earmarks of a vast mineral camp, and, better than all words he is coming here to locate and invest.

The reciprocity bill has passed the United States house of representatives by a vote of 265 to 89. It is altogether likely that the bill will pass the senate and be ratified by the President, becoming law as soon as the Dominion has passed it. It is a step on the long road to universal free trade and, it is hoped, to universal peace and disarmament.

Star is in receipt of a circular from the Vancouver Political Equality League which aims to obtain the ballot for women. It says: 'We are anxious to enlist your sympathy and financial assistance in this noble cause: the welfare of woman in particular and humanity in general.' They are welcome to both. Any person knowing the corruptive influences at work in much of the politics of all countries having origin at the ballot box will have small excuse to refuse women the ballot and their purifying tendency in every walk of life. Politics will be that much better by the presence of the leaven of womanly influence at the ballot box, heightening the present standard of representation and adding respectability and moral tone to government generally.

Critics and opponents of Christian Science who predicted early dissolution of that body after the passing of the revered leader, Mrs. Eddy, will probably be amazed to know that there is not the slightest sign of decadence. In fact there is abundant proof that the Scientists are gaining in influence and numbers every day. Churches are being erected all over the land, members are flocking to its fold, even in Princeton where, until recently there was not a Scientist, a real intrest is observed in its teachings by those brought into touch simultaneously with the Bible and the wholesome Christian Science literature. Dr. W. F. W. Wilding, M. R.C.S., with a number of medical doctors, has abandoned medicine for divine healing. In Edinburgh, Scotland, he recently in public stated that he had spent many years in medicine, twelve of which were in Lancashire. He says: 'A careful study of the teaching of Christian Science revealed the method and law by which such healing is accomplished, and gradually I became convinced that it was the same method as that taught and practised by Jesus. Further study and examination of the healing works of Christian Science eventually led me to give up medical practice. * ' Christian Science is attracting the multitude because it does the work the Master did in healing suffering humanity of sin and disease—failure to do His work must result in religious atrophy, the empty pew and national corruption. Sin and disease are twins, as taught by the great Physician, and the multiplication of diseases now observed is but a reflex of the low spiritual condition of humanity. Hope lies in Christian Science to spiritually uplift and divinely heal rather than trust in idols made of syrup, oil, extracts, 'dope' and the thousand inventions of man. Evidently a new era in Christianity is dawning and surely it ought to be welcome by all who pray 'Thy kingdom come.'

NOTICE TO

Railroad Grading and Bridge Contractors.

TENDERS will soon be called for by the B.C Portland Cement Co. Ltd, for building a railroad bridge across the Similkameen river and the grading of about two miles of spur track to the works of the Cement Co., and the coal mine of the United Empire Co.

Watch papers for further information as tenders will be called for on short notice.

Notice is hereby given that all vacant crown lands not already under reserve, situated within the boundaries of the Land Recording Districts of Cariboo and Lillooet, and the Kamloops Division of Yale Land Recording District, are reserved from any alienation under the "Land Act" except by pre-emption.

ROBT. A. RENWICK,
Deputy Minister of Lands
Department of Lands,
Victoria, B. C., April 3, 1911.

PUBLIC NOTICE is hereby given that, under the authority contained in section 131 of the Land Act," a regulation has been approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second class lands at $10 and $5 per acre respectively.

This regulation further provides that the prices fixed therein shall apply to all lands with respect to which the application to purchase is given favorable consideration after this date, notwithstanding the date of such application or any delay that may have occured in the consid ration of the same.

Further notice is hereby given that all persons who have pending applications to purchase lands under the provisions of sections 34 or 35 of the 'Land Act" and who are not willing to complete such purchases under the prices fixed by the foresaid regulation shall be at liberty to withdraw such applications and receive refund of the moneys deposited on account of such applications

WILLIAM R ROSS,
Minister of Lands.
Departmeut of Lands,
Victoria, B. C., April 3, 1911.
