Princeton coal high in carbon—Ideal domestic coal.

SIMILKAMEEN STAR

How foolish are they that try to deceive—Veritas vincit.

Central and surrounded by a wealth of resources, Princeton offers excellent opportunities for establishing industries—Water for hydro-Electric purposes is to be found in abundance in the rivers and streams—Vast coal and iron deposits for Steel manufacturing.

Vol. XI. No. 15. PRINCETON, B. C., WEDNESDAY, APRIL 6, 1910. $2 a Year in Advance

THE BOARD OF TRADE

Communications re Dominion Public Buildings for this Town.

Action Taken Regarding Divisional Location Here—Representative gives Subscription.

Regular meeting of the Board of T ade was held Monday night, the following members being present: Messrs. Avery, Brown, Bell, Conn, Groffman, Lumsden, Murdock, Marlow, Rose, Willarson and Wright.

After routine communications were read from the Canadian Crocker-Wheeler Co., manufacturers and electrical engineers of Montreal, stating that they note the board is contemplating the establishment of a general hospital and asking that they be favored with an order for apparatus required. Referred to the Hospital Committee.

From L. W. Shatford, M.P P., re night watchman stating that the matter would be laid before the Attorney-General.

From Martin Burrell, M. P., Ottawa, re petition fo postoffice building, customs officer, etc., for Princeton, stating that he would gladly present to the minister the petition and press the claims in person, also point out the important position occupied by Princeton. He said it was an excellent thing to have these matters brought to the Government's attention as soon as possible. A vote of thanks was ordered to be conveyed to Mr. Burrell.

From L. W. Shatford, asking that his name be added to the hospital subscription list with $25 contribution. Also stating that he would write the Provincial Secretary re plans for hospital building.

From Hon. E Dewdney, Victoria, stating that he had made an appeal to the Dominion government through the Hon. Mr. Pugsley, Minister of Public Works, the Hon. Mr. Templeman, and the Hon. Mr. Bostock asking them to give favorable consideration to the petition for a public building at Princeton. He further said: 'I trust we will succeed in getting what is really a necessity now that the town is developing rapidly.' A vote of thanks was extended to the Hon. gentleman for his helpful and enconraging message.

F. E. Groffman was elected a member of the Executive Committee.

Hugh Cowan was elected a member of the Board.

Messrs. L. A. Manly and P. Swanson occupied seats in the visitor's row and addressed the Board, Mr. Manly pointing out the great usefulness of boards of trade and the good they may accomplish in building up a town. His remarks contained many usefui pointers, for which he was thanked by the President. Mr. Swanson was pleased to be present and note the effective work of the Board. He will, in all likelihood become an active member.

The question of a daily stage or auto car to connect Otter Valley, Nicola district, including Merritt, with Princeton was debated. No action.

The following motion was introduced and unanimously endorsed: That this Board would greatly appreciate the action of the Great Northern Railway Co. in continuing to retain the town of Princeton as their headquarters and distributing point of construction of their line east of the Coquihalla; also respectfully asking President Hill to early designate the town of Princeton as a divisional and junctional point.

Board adjourned.

BIG COAL LAND DEAL.

Andrew Laidlaw, a Spokane mining man, has recently put through a deal in which 17,500 acres of coal lands in the Jasper Park forest reserve, Yellowhead Pass, on the line of the Grand Trunk Pacific railroad, has been acquired and will be operated by the Jasper Park Collieries Co., Limited. Five strong seams of bituminous coal outcrop on the property. The enterprize is capitalized at $2,500,000. Mr. Laidlaw is expected to shortly become interested in coal property near Princeton.

HOSPITAL SUBSCRIPTION LIST

Following is the list of subscribers with the amount given toward the Princeton Hospital Fund. All subscriptions will be duly acknowledged in this column by the board of managers. The neat sum of $500 has been already subscribed:

Vermilion Forks Mining Co.	$50
C. Graham	10

L. W. Shatford, M.P.P.	25

Miss C. J. Manly is engaged to teach in public school, beginning as soon as she arrives, which is expected any day, from Halifax, N.S. She holds a first class certificate and is a music teacher,

Omigod!

MONEY MAKES ROADS

Liberal Appropriations are made for New and Repairing Old Roads.

Inter-Provincial Trunk Road will be Built in Year or Two—Member Makes Good.

The large appropriations made by the government at the recent sitting of the local legislature for public works is now available for actual service in the construction of roads, bridges, &c. Hon. Mr. Taylor, Minister of Public Works, besides spending $40,000 on improved road making machinery will engage men qualified in the art of road making, so that any construction or improvements will be of a permanent character.

The inter-provincial trunk road program will have the snug sum of $50,000 to spend in beginning this great road across the province to Alberta. The Colonist says regarding it: 'Passing first through Delta and Chilliwack the trunk road in question will primarily utilize the famous Westminster-Yale highway to the historic town of Hope. Thence access is gained by the old Sappers and Miners' road, still in good condition, to the Hope mountains. There is then a slight hiatus in the plan, in consequence of the necessity of obtaining further informative data as to the lowest possible gradients on the east side of Hope mountains, the department having already secured its necessary information with regard to comparative snowfall and kindred essential details. The section thus requiring a further prosecution of engineer's investigations during the approaching summer, lies between Hope and Princeton, from which latter embryo city connection will be had with Trail by roads already constructed.'

That Mr. Shatford, the member for Similkameen, fully deserves the congratulations that he is daily receiving from his constituents upon his success in securing adequate appropriatious for the development of his great district is evidenced by the apportionments for roads alone, which include $5000 for the Princeton-Copper Mountain road; $2000 for a road from Five-Mile creek to Princeton; $3000 for the Granite creek road; $6000 for the Nine-Mile road; $5000 for the Princeton-Fish lake road.

THE PLAYS BY ECKHARDTS.

The Eckhardt Theatrical company played two nights last week in the I.O. O.F. hall to large and appreciative audiences. The first play, 'Brown's in Town,' evoked continuous laughter and was thoroughly enjoyed. 'Paid in Full' is rather heavy and serious, with a long drawn out plot too suggestive and too realistic where a mere hint would have been ample. Human depravity needs not to be flaunted from the stage, enough of that is observable in any town. The play was well staged and admirably acted. The Eckhardt's are a clever, clean company and when they come again it is hoped they will present comedy and vaudeville specialties.

NIGHTHAWK NOTES.

Miner's Last Deal of Cards then Takes Revolver Route over Big Divide.

(From Our Special Correspondent.)

Nighthawk, Wash., March 24.—Almost all the cattle ranchers at the boundary and lower Similkameen have turned their stock out. The range is in fine condition, grass being quite five inches high. Ploughing and seeding are in full swing now.

As the suspension foot bridge across the Similkameen river at Nighthawk was being repaired and tightened up on Tuesday last it suddenly turned turtle Luckily no one was on the bridge at the time. Pedestrians have to resort to the ferry again.

Measles have been prevalent lately at Oroville, but patients are now nearly all convalescent.

The Similkameen river has raised considerably and is very muddy, consequently mosquitoes are beginning to show, and make themselves disagreeable.

Archie McDonald, a miner who worked at the Nighthawk mine, killed himself at Loomis Saturday night by a revolve shot through the head. He had received a letter from his sister earlier in the day and seemed depressed after reading it. While playing cards in the afternoon he remarked that he would never deal again. He was unmarried. The body will be sent east, where relatives live, for burial.

It is to be regretted, if the rumor be true, that the Okanagan Electric Railway from Nighthawk to Conconully is likely to fall through, as some of the people are asking too much for their right-ofway. Indian Edwards, who lives about six miles from Nighthawk, demands $4000 for the rightofway through his orchard, which consists of 83 bearing fruit trees. I have the abeve on good authority.

Bert Irwin was a welcome visitor to the lower Similkameen recently.

L. W. Shatford, M.P.P., has arrived at Penticton from his parliamentary duties at Victoria. He is expected to come to Princeton in a few days.

L. A. Manly, of Coleman, Alb., is a guest at the Great Northern.

Dr. Westwood, of Coleman, Alb., is in town on a few days' visit in connection with his fruit ranch interests.

The Similkameen Star.

J. M. Wright,

NOTES AND COMMENTS.

The announcement that there will be no tariff war between the United States and Canada will be received with gratitude by every intelligent and peace-loving subject in both countries. It is a great triumph of diplomacy on the part of the Hon. Mr. Fielding, the Canadian representative, to have presented his case at the conference with President Taft in such a way as to give no cause for offence and at the same time firmly uphold the rights of his country. On the other hand it is a tribute of wisdom and great statesmanship, as becomes a powerful and enlightened nation, for President Taft to treat the whole question in a spirit of friendship and fair play. He says: 'The relations between these two countries have been all wrong. Instead of indifference or suspicion or unfriendliness there should be as much freedom of trade between our two peoples as is consistent with the fiscal policies of the two countries. I do not ask who was in the wrong in the past, but for myself and my Administration I can say that we have nothing but respect and admiration for the way Canadians are taking hold of their problems and developing their status in the Empire.'

With a common language, common aspirations and common interests regarding trade there is every reason for the friendliest relations between Canada and the United States. If ever two nations had good reasons for razing the tariff wall between them it is these two countries. The adoption of reciprocal free trade between the United States and Canada would wipe out the cause for nine-tenths of the friction now occurring and would place them on a basis tending toward everlasting peace. With such a President as Taft and the conciliatory spirit of Sir Wilfrid Laurier and his cabinet, who in the past have gone more than half way to meet the U.S. in settlement of tariff and other international disputes Star commends to the consideration of both governments the early adoption of reciprocal free trade, giving to the world a real lesson in neighborly friendship and good will and exemplifying the doctrine of universal free trade and with it follows universal peace. There is no doubt that with free trade between the Anglo-Saxon nations of the earth they would become the dictators of peace to the world and thus bring to pass that prophetic condition when all nations shall be one brotherhood. In this great consummation there is range for the highest and noblest diplomacy, scope for the most high minded statesman and an unfading reward for all who help to establish it.

It is useless for any person, no matter what his calling, to sermonize the people if he does not put into practice what he preaches. The business man who does not patronize home industries is not entitled to any sympathy when citizens send their cash to eastern department stores. First do the thing that you want other people to do then you have the double leverage in power of example and forcible argument.

The B.C. government, in line with its usual progressiveness, is about to establish a bureau of publicity and appoint a publicity commissioner. The object is to attract settlers, investors and industries. That the government appreciates advertising it is proposed to establish publicity offices in Winnipeg, Toronto and Montreal, in charge of competent officials, who will advertise the resources of the province. Here is an opportunity for the Princeton board of trade to place some literature regarding this district where it will do most good and obtain wide distribution.

Two auto stages, capable of carrying twenty passengers each and making an average of 15 miles or more an hour, will begin service on the Cariboo road about May 1st. In ten hours these autos will travel to Soda Creek, which now takes two days by horse stage. This is a pointer for some of the stage lines operating into Princeton.

The Dominion government has appropriated $50,000 to be used in experimenting with the smelting of zinc. Through unscientific methods of treating zinc ores great loss is experienced and it is to avoid this that experiments are to be made, the outcome of which will be awaited with interest by owners of zinc propositions in Princeton district.

To Dr. Macdonald, editor of the Globe, Toronto, President Taft recently said: 'I want you to tell Sir Wilfrid Laurier that if this tariff difficulty is bridged I shall be prepared to take the responsibility for reopening negotiations for reciprocal free trade, which he opened years ago. * * If he'll meet me I'll go more than half way to find a better basis for trade.' Well said, Peacemaker Taft. A few more like him and tariffs and war will vanish

TOWN AND DISTRICT.

G. L. Fraser, manager of the C.C. & C. Co., North Fork, near Granite, left for Spokane, last Thursday.

The dance given by Louis Marcotte at Granite Creek, last Friday night was well attended by his many friends in Princeton. The music and everything connected with the occasion was much appreciated by the merrymakers.

T. Day went to Spokane recently on a visit. Ramor says that he is not coming back alone. Much joy, Tommy, and a thousand welcomes from citizens.

H. Massonat, jeweller, is reported to be somewhat better since his removal to Hedley hospital, where his symptomatic condition is said to be favorable for appendicitis.

Church of England choir practice will be held in the school house this (Tuesday) evening.

Gus Pouwels and Charlie Bonniver are in town for a few days, having wintered in the Nine-Mile country, where they have been trapping. They report plenty of snow but fur is scarce.

Mrs. S. L. Smith of Hedley was in town recently on a short visit

THE PHILOSOPHY OF LIFE.

When a person's patriotism or loyalty to their town does not reach the pocket it is shallow stuff and does not amount to much.

In your own little sphere and in your own modest way help to make someone better and brighter—life is too short and too serious to be lived without making an effort to uplift the fallen, comfort the sick and afflicted and generally to make the burden lighter.

If your room is well lighted some glimmers of it, however faint, will penetrate into the outer darkness.

The man that dares not venture an opinion is either a coward or else has no opinion to offer.

Say nothing, do nothing, be nothing and you will die and be lost to memory.

Respectability is nine parts clothes and one part imitation of other people's manners by the rude and raw.

A religion of dollars and cents follows the body to the grave after it has killed the spiritual life and maimed the cause of christianity.

The exemplary life is expected from those who proclaim it to the audience, without it there can only be st ivings and dissensions.

Honor comes by honesty and dilligence.

PLATINUM IN TULAMEEN DISTRICT.

Tulameen and its tributaries have long been noted for its platinum products and many scien ists from different parts of the globe have been here since 1900 looking for its source. Last summer was the first time it was found in place in paying quantities In three different places, or ledges on Coutney mountair, the mother rock of platinum has been found. Coutney mountain is volcanic, in which pyroxene predominates, there being also magnetite of iron, copper and nickel. The rock in which the platinum has been found is in characteristic dikes, after the manner of veins. It is a dark looking pyroxenite containing magnetite of iron, nickel, cobalt, 3 p.c. copper, and from ½ to 2 ozs platinum, 1 oz. osmiridium, also $3 in gold and 6 ozs. in silver per ton. Further information will be given as development proceeds.
