Our coal unexcelled for heating and cleanliness.

SIMILKAMEEN STAR

Do not try to have the last word.

Dr. Dawson, eminent geologist, explored Princeton District and said that if geology did not go altogether astray this country would prove to be very rich in minerals: That prediction is being verified every day—Capital, smelters, coke ovens, cement works coming.

Vol. XI. No. 34. PRINCETON, B. C., WEDNESDAY, AUGUST 17, 1910. $2 a Year in Advance

THE WATER SYSTEM

Pipes Now Being Laid Down to Business Centre of the Town.

Electric Light is Also to be Installed Princeton then in Limelight of Progress.

The Princeton Land and Coal Co., has recently received the wooden pipe for the waterworks to be installed this fall. Trenches for the reception of the pipe are now being dug along the streets and the reservoirs will be completed with the least possible delay.

To reap the full benefit derivable from a system of waterworks it is necessary for a town to provide the necessary hose and other apparatus required for fire protection. With the pressure which the system will afford and an efficient fire brigade an ordinary fire will have very little chance to spread. It remains with the citizens to take the necessary steps to procure hose, etc., and to reorganize the fire brigade.

It is understood that electric light is also to be furnished the town by the above company in terms of their charter. With the two necessary articles, light and water, on tap, Princeton will be fully uptodate and abreast of much older towns.

LONG AUTOMOBLILE TRIP.

Party Saw Peach Belt, now Strike Great Mineral Zone.

Mr. and Mrs. A. E. Howse. Miss Ruby and chauffeur Charley, their son and daughte , arrived Sunday in their automobile en tour of the Similkameen, Okanagan, Spallumcheen, Kamloops and Nirola districts, covering about 600 miles when they reach home today. Mr. Howse was a delegate to the Irrigation Convention at Kamloops, proceeding from there across country to Enderby. Vernon, Kelowna, Summerland, Penticton, Keremeos, Hedley and Princeton. Mr. Howse describes the development of the Okanagan as marvellous. Residences that would grace any city dot that district all over and are set in orchard plots producing fruit in great profusion and which Mr. Howse believes outrivals anything he saw in Southern Italy. The Baptist college at Summerland is a stately structure and its capacity is taxed with students. Beautiful churches and good school houses are observed, all evidences of wealth, good taste and culture.

The Interprovincial Road.

The whole trip was most enjoyable, interesting and instructive, the scenic beauty of rugged nature far transcending many of the Old World touring routes. With the completion of the interprovincial trunk road by the provincial government Mr. Howse thinks that the natural grandeur of mountain, lake, river and valley which this route will open up to view of automobile tourists will prove to be a big asset and one of the best advertisements the country could have. The roads, on the whole, are in good condition for auto traffic, the very sane suggestion being made by Mrs. Howse that finger boards be placed at the junction of roads, thus saving travellers any doubt or perplexity as to the proper route to be taken. The car used on the trip is the Russell, the only machine made altogether in Canada, manufactured by the Canada Cycle & Motor Co.. who also make the Daimler-Knight Silent Engine. The Russell is geared to run 75 miles an hour, a speed that gives one the sensation of flying and eliminating the proverbial high spot from consideration at all. Such a speed would, of course; be somewhat unsafe making the turn at Death Curve or piercing Hellgate. At a speed of over 30 miles an hour Mr. Howse, sr., and the ladies prefer good, old fashioned walking, even if the road is dusty. The average speed over mountainous roads and maintained throughout the present 600-mile run was 15 miles per hour Not the slightest breakdown occurred on the trip, although between Summerland and Penticton the chauffeur had his skill tested bringing the car across country where there is no road and the hills are steep, a record which other manufacturers may well envy.

VISIT OF EARLY PIONEER.

Hon. E. Dewdney arrived in town last Thursday from Victoria coming via Spokane. He reports general prosperity in the province and an abundant harvest now partially ingathered. Having large timber, sawmill and land interests in this section he is, quite naturally, much concerned in the progress and development of the district. He has always shown his goodwill toward Princeton in furthering any project of public benefit. As a pioneer of this country he has its history in detail and probably no man living has a more intimate knowledge of its resources and general features. A gentleman of the old school Governor Dewdney links the sterling pioneers of forty years ago with the present generation, fiis reminiscences covering that period with the varied phases of frontier life. A host of friends will wish him many long years of active life yet to come.

J. A. Turner, road superintendent, was in town this week securing information re the route of the interprovincial trunk road the final location of which must soon be made. Mr. Turner has a large district to cover and is a very busy official, serving the government faithfully and giving most general satisfaction.

LOCAL AND GENERAL

Nelson Requests Big Display of Mineral Exhibits from Princeton.

The Moving Throng, Many of Whom Desire to Locate—Caribooite Passes Away.

Misses Reece and Smedley and Messrs. Ford, Smedley and Nelms of Chilliwack are visitors to Mr. and Mrs. Wilson.

Fred. A. Kribs, of Portland, Ore., is in town, being concerned in a large timber, lumber aud mill deal.

J. Peck Macswain, reported strayed or stolen, was recently seen strolling down the streets of Merritt with a ping-pong racquet over his shoulder and a couple of 'shots' under his belt. Any old game, he plays them all; win or lose, it's all the same to J.P.

The departing dance given to O. J. Bainbridge Monday night, who is leaving for England, was a very pleasaut affair and enjoyed by all. Mr. Bainbridge left Tuesday over the Hope trail, accompanied by Ernest Waterman and Pete John son. They will lure some of the finny tribe from the lakelets into the fry pan, on the way.

The Directors of the Nelson Fair Association urgently request that a mineral exhibit from this district be sent to the Fair to be held there on the 28th, 29th and 30th of September. At the conclusion of the Fair the exhibits would be sent to Spokane Fair. A cash prize of $50 will be given for the best district exhibit.

H. Cowan is still confined to his room, his condition varying little for the better since last week.

'ACROSS THE BAR.'

Death of Old Cariboo Miner After Protracted Illness.

Last Thursday night at 12 o'clock one of the oldest of the pioneers of the province in the person of Angus Lamont took his last long ride over the Great Divide. Deceased had been ill for about two years, gradually declining until he literally fell asleep, apparently without mental or physical pain. His end was peace, for so he lived, without an enemy. An honest and just citizen, good neighbor, his money and his hand were always ready to help. Born at Eramosa, Ont., some 72 years ago, he came to British Columbia as a young man, when the gold fever was at its height. He went to Cariboo in the early sixties mingling in the great stampede of goldhunters which was then taking place, finally, after a

Continued on 3rd page.

IMPORTANT INVENTION.

Charles Howse is the inventor of a device for econmizing power in driving automobiles and has applied for the patent. From a rough description of it a vast improvement is effected in driving mechanism, simplifying movement and reducing waste energy to a minimum. Experts have pronounced the invention practicable and fully up to the claims of the inventor. Mr. Howse will introduce his patent into various conntries from which it is very probable he will add fortune to fame and be enabled to further pursue mining and mechanical research at McGill University.

A PROLIFIC GARDEN.

Maplehurst, the home of Mr. and Mrs. Hugh Hunter, just outside of the suburbs of Princeton, is an inviting and picturesque place at this time of the year. Inviting, because there is an abounding wealth of luscious fruit which one is always welcome to sample; and picturesque owing to the banks of flowers and fruit shrubbery which surround the mansion. Maplehurst is at its best this time of the year, for now the roseate apple, big berry and currants galore are bending limbs with their weight, also corn and pumpkin, squash and citron, vine and stalk, all proclaim the adaptability of soil and climate for garden products. But it is in Irish spuds that soil energy is so apparent; a dozen big potatoes being the average to a stalk. Mr. and Mrs. Hunter are generous hosts, delighting to show appreciative visitors around and always cheering a sick room with ever refulgent flowers. Maplehurst takes its name from a beautiful row of maples along the front of the estate.

RAILWAY CONTRACTOR HERE.

Pat Welch, of the firm of Foley, Welch & Stewart, the big railway contractors, was in town Wednesday of last week in connection with the contract now about completed between here and Tulameen. He expects to have the grading completed within schedule time, 1st October. As to further construction beyond the present end of the grade near Tulameen Mr. Welch had nothing to say. He thinks, however, that railway construction in general will be slackened off in the States as a result of restrictive legislation recently made operative in the American republic. The conclusion of Mr. Welch's contract necessitated the reduction of the laboring force. He did not know when tracklaying would be started.

Chas. Graham, during the past year superintendent of the Vermilion Forks Co's coal mine, is leaving early in Sept.

Jas. Hislop. C.E., formerly of Princeton, attended the Irrigation Convention at Kamloops. He is now retired, having made a fortune in Edmonton 'stuff' (real estate.)

NEW LIQUOR LICENSE ACT.

Any law or movement tending to mitigate the evils of intoxicating drink and drunkenness must have the approval and endorsation of every right thinking person. No man who entertains high ideals of morality or common respectability and who has any regard for his fellow creatures would resist any honest or conscientious effort to stay the wreck and ruin caused by strong drink. As to the method of reform of our liquor laws and the removal of enticements and social customs leading up to the drinking habit there will always be differences of opinion according to the drinking or non-drinking tastes of those expressing judgment on the question. It is assumed, of course, that no one is hypocritical enough to say one thing and act another.

Of the necessity of drastic regulations regarding the liquor business one has only to look at the prison roll or visit the police courts. Judges and juries and the public generally are aware of the 'awful examples' every community or town affords by reason of the baneful effects of whiskey drinking. Railroad companies object to its use by employees, and positions of trust in governments and banks can only be held by sober persons. The Act now in force prohibits any hotel keeper from selling liquor to a dipsomaniac, or to a man under the visible influence of it, to any minor or Indian, to any man who wastes his wages in drink to the injury of his health, respect or detriment of his family, to any vagrant, tramp or prostitute. A clause forbids the sale of liquor to any chauffeur on duty, this being prompted, no doubt, by the number of accidents due to drunken drivers of automobiles. No woman can be served with liquor in a bar, and no gambling is to be carried on or slot machines used on hotel premises. If a husband drinks to the injury of his wife and family she may go confidentially or secretly to a conable or chief of police who must warn hotelkeepers not to supply him with liquor under heavy penalties. Formerly three licenses were granted in a town with 500 population but now three licenscs cannot be obtained until there are a 1000, but after it has reached one thousand white adult males a fourth license may be granted. Under the old act the license fee in a district of less than 500 people was $75; under this Act it will be $125. The superintendent of police will have absolute power to suspend or cancel a license at any time.

The foregoing resume of the Act would indicate a desire on the part of the government to curtail the evils of strong drink. It remains to be seen whether constables and others charged with the enforcement of the law will perform their duties unreservedly and without fear or favor. At least a fair trial should be given the Act before any measure of the ultra-temperance people is brought into action.

The new Liquor Act now in force since August 1st is good and has a wholesome tendency in regulating the liquor business. That the mantrap saloon has been practically eliminated will afford much relief to anxious mothers who have 'wandering boys,' besides ridding the country of a malignant type of pest spots in which many forms of vice had root. But wherever a bar is found and the treating system in vogue there will certainly be a full crop of concomitant evils. Under the influence of vivacious company and exhilarating drink over indulgence is easy and money loses all value, home and dear ones are forgotten, the mind rendered impervious to good impressions, self respect departs, these and much more germinate and are fostered at the bar. No wonder most parents have a dread of them and the treating practice.

No law made by imperfect man can effectually deal with the moral reform of the confirmed inebriate Saving, permanent reformation in him can only be accomplished by that subtle something within which destroys the appetite. Some call it will power, strong mindedness, self control, environment—we believe it to be nothing short of the spirit and power of God. But as long as men generally, including lawmakers, believe in the dominancy of matter over Spirit and act accordingly, the necessity for liquor laws and all others dealing with moral reforms will exist.

NOTES AND COMMENTS.

A young man crazed with the use of cigarettes was recently arrested in Montreal after violently resisting the police. No wonder employers of labor reject those who have cigarette stained fingers and who make a smokestack of the nose.

Some toper newspaper editors are virulently condemning the temperance Scott Act and pronouncing it a failure. Poor fellows, they love booze, hence their poor logic and fiery squibs.

China is about to adopt decimal currency—other nations must follow.

ACROSS THE BAR.

From First Page

varied run of luck in mining he settled down on his ranch at Ashnola. The deceased sold his ranch some four years ago, which gave him ample to retire on and leaves his wife well provided for in terms of the will, the executors being W. C. McDougall, W. C. McLean and J. B. Wood. The funeral was at 4 o'clock, Saturday, from the courthouse, service being conducted by the Rev. J. Thurburn-Conn, (Presbyterian). Four of the pallbearers were fellow golddiggers in Cariboo, their combined ages stretching back nearly three centuries, viz: Hon. Edgar Dewdney, ex-Minister of the Interior and former Lieut.-Governor of the N.W. Territories and also of British Columbia; Col. Robert Stevenson, Hugh Campbell and Samuel Pearce. The deceased leaves a wife, sister in Ontario and other relatives, to whom Star extends sincere sympathy.

F. Pyman, an esteemed former resident of Princeton is prospering in Enderby, nevertheless he always has a wistful eye on this place.

THE PHILOSOPHY OF LIFE.

The world is a wheel, and it will all come around right.

A knocker is not an asset in any civilized country, he is a liability.

Once there lived a woman who admitted that her husband was too good for her—but she died several centuries ago.

No man can be a gentleman without humility, and this applies to women also.

Christian Science demoustratas the truth of the Bible by works—healing disease, curing the sin-sick and taking away the desire for evil—it is the Bible demonstrated, proven.

Be to yourself as you would to your friend.—Shakespeare.

The friendship of worldlings is enmity against Life, Truth and Love.

You can't buy happiness at the bargain counter.

LICENCE TO AN EXTRA-PROVINCIAL COMPANY.

COMPANIES ACT, 1897.

CANADA:
Province of British Columbia.
No. 585.

THIS IS TO CERTIFY that the 'Princeton Coal and Land Company, Limited,' is authorised and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legisiature of British Columbia extends.

The head office of the Company is situate at No. 15, Great Saint Helens, City of London, England.

The amount of the capital of the Company is two hundred thousand pounds, divided into two hundred thousand shares of ono pound each.

The head office of the Comyany in this Province is situate at Princeton, and Ernest Waterman, Agent, whose address is Princeton aforesaid, is the attorney for the Company.

Given under my hand and seal of office at Victoria, Province of British Columbia this twenty-third day of May, one thousand nine hundred and ten.

[L.S.] J. P. McLEOD,
Acting Registrar of Joint Stock Companies.

The objects for which this Company has been established and licensed are:

To carry on in British Columbia and elsewhere in any part of the world, the trades or businesses of land owners, landed proprietors and agents, coal masters, coke manufacturers, miners, smelters, engineers, steel converters, iron founders, brick and tile manufacturers, proprietors of works for the supply of water, gas, electricity (either for power or lighting) or other power (in all their respective branches), ship owners iron masters, and to undertake the purchase or sale of lands of every description (either improved or unimproved), or agents for the same, and to lend money on the same by way of mortgage or otherwise, and to act as mortgage or discount brokers, bankers, financiers, capitalists, and to make, purchase, hire, let and sell railway or other plant, fittings, machinery, and rolling stock, or any portions or parts of such articles, and to carry on any other operations or business which the Company may from time to time deem expedient in connection with its main business for the time being, and with a view thereto to enter into the agreement referred to in article 3 of the company's articles of association.

To purchase, take on lease or in exchange, hire or otherwise acquire, (either with or without the surface), and to make sale or otherwise dispose of the same from time to time any lands, forests, coal mines, iron mines and other mines, mining properties or rights, water rights, patents or other rights or claims (whether absolute, exclusive, optional, conditional or limited) and any lands, buildings, or other kind of property whatsoever, which the company may think necessary or convenient for the purposes of its business, and minerals, clay, brick-earth, sand, and any lands or other property necessary to the advantageous possession and use of the railway, mines or works for the time being owned or worked by the company, or any interest therein respectively, and to search for, get, work, raise, win, mine, quarry, convert and manufacture, use, crush, wash, smelt, reduce, refine, or otherwise treat, and render marketable and sell, dispose of, and otherwise deal in coal, ironstone, clay, brick earth, sand and other ores, metals, minerals and mineral substances of the earth whatsoever, and to carry on any other metallurgical operations which may seem conducive to any of the Company's objects.

To purchase and sell, as merchants, timber, coal, ironstone metals, bricks, tiles and any other materials, articles, or things relating to any of the above businesses, either on commission or otherwise, and to sell, improve, manage, develop, or otherwise turn to account or deal with all or any of the property and rights of the company.

To purchase, take in exchange, or on lease, hire or otherwise acquire in any part of the world, for any estate or interest, any lands, buildings, easements, rights, privileges, minerals, machinery, plant, implements, conveniences, provisions and other things, stock-in-trade utensils capable of being used in connection with the operations of, or by workmen and others employed by the company, and real and personal property of any kind necessary or convenient for the company's business.

To construct, erect, establish, maintain and improve or aid in and subscribe towards the construction, erection, maintenance, and improvement of railways, tramways, roads, shafts, wharves, canals, harbours, buildings, machinery, and other works and appliances which may be necessary or convenient for the purposes of the company.

To promote, make, provide, acquire, take on lease or agreement, lease, let, grant running powers over, work, use and dispose of railways, tramways, and other roads, ways and means of access to any part or parts of the property of the company, and to contribute to the expense of promoting making, providing, acquiring, working and using the same.

To make build, purchase, acquire, lease, sell, exchange, hire, charter, use, or let, piers, harbours, steamers, ships, tugs and other shipping appliances, or contribute to the cost of the making or repairs thereof for any of the purposes of the company.

To make and carry into effect arrangements with land owners, railway companies, shipping companies, carriers, and other companies and persons, for any of the purposes of the company.

To acquire any concessions, grants, rights, licenses, powers, privileges, or contracts from any Government, authority, company, firm or person in any part of the world which may seem to the company capable of being turned to account in connection with the business of the company, and to work, develop, carry out, exercise and turn to account the same.

To carry on and transact the trades or businesses of merchants, contractors, carriers by land or water, farmers, graziers, traders in and manufacturers of all kinds of merchandise, goods, provisions, and articles, managers of estates, farms, mines, railways or other properties, commercial, and financial agents and brokers in all their respective branches, and the businesses of engineers, builders, miners, and any other businesses directly or indirectly connected with or capable of being conveniently carried on in connection with any of the businesses for the time being or objects of the company.

To establish and regulate, whether in the United Kingdom or abroad, agencies for all or any purposes of the company, and to establish and support, or aid in the establishment and support, of associations, institutions, funds, trusts and conveniences calculated to benefit employees or ex-employees of the company or the dependents or connections of such persons, and to grant pensions and allowances and to make payments towards insurance, and to subscribe or guarantee money for charitable or beneficial objects or for any exhibition, or for any public, general or useful object, and generally to pay any sum or sums of money, whether the same be paid for good consideration or not as may seem directly or indirectly calculated to benefit this company.

To establish, form and subsidise or otherwise assist in the establishment promotion or formation of any other companies having for their objects, or some of them, any of the objects mentioned in this memorandum, or the prosecution of any other undertakings or enterprises of any description having objects which may advance directly or indirectly the objects of this company and to secure, by underwriting or otherwise, the subscription of all or any part of the share or loan capital o any such company, and pay or receive any commission brokerages, or other remuneration in connection therewith

To purchase or otherwise acquire and undertake all or any part of the business, property and liabilities of any person or company carrying on any business which the company is authorized to carry on, or possessed of property suitable for the purpose of the company.

To amalgamate with or enter into partnership or any joint purse arrangement, or any arrangement for sharing profits, union of interests or cooperation with any company, firm, or person carrying on or proposing to carry on any business within the objects of the company, and to acquire the goodwill of, or any interest in any business similar to any business which the company is authorised to carry on.

To sell, exchange, let on rent or royalty, share of profits or otherwise grant licenses, easements, and other rights of and over, and in any manner dispose of the whole or any part of the undertaking, business, and property of the company, and in consideration to accept cash or shares, stock debentures or securities of any company whose objects are to include objects similar to those of the company.

To cultivate lands and property, whether belonging to the company or not, and develop the resources thereof, by building, reclaiming, clearing, draining, damming, ditching, farming and planting, upon such terms, system or systems as may be considered advisable, and to stock, cultivate and farm lands, and to breed, grow and deal in all kinds of stock, cattle, sheep, horses and produce.

To contract with or aid any sovereign or other power, government or state, or any municipal or other body, politic or corporate, or company or persons for or in relatton to capital, credit, means or resources, for the prosecution of any works, undertakings, projects or enterprises; also to contract for and act as agents or otherwise in relation to loans or securities issued or proposed to be issued by any government or state, on municipal or other authority, or company or corporation, or persons or person.

To lend or advance money on the security of any kind of property, rights, stocks, shares, bonds debenture stock, mortgages, debentures obligations, bills, notes, or other instruments or securities, or on the undertaking of any company or any part thereof

To negotiate loans of all descriptions, either alone or jointly with any other company or person, to any state, country, municipality, railway company or any other company, or corporate or other body or any person or persons and to act as trustee or trustees for any such loans.

To advance money for or otherwise assist in making explorations and surveys of every kind, and in promoting immigration into any country, colony or state.

To guarantee the performance of any contracts or engagements, and to become liable or responsible for money, or for the fulfilment of contracts entered into by others.

To pay all expenses of, or incident to the formation, registration, and advertising of the company, and the issu of its capital, including brokerage and commission for obtaining applications for or placing shares.

To buy, sell, enter into contracts, either absolute or conditional, issue on commission or receive brokerage, or other remuneration or consideration, upon the issue or re-issue, or for guaranteeing the issue of, or the payment of interest on any stocks, shares, debentures, debenture stock, bonds, obligations, or other securities of any company or public or local authority.

To borrow or raise money with or without any security, and to secure the payment of money borrowed or raised, and in particular by the issue of debentures or debenture stock, perpetual or terminal, bonds, mortgages or any other security upon such terms as to priority or discount or otherwise, as shall be thought fit, and to secure the same if thought fit by mortgage or charge upon the undertaking of the company and any or all of its real and personal property, present and future, and all or any of its uncalled capital, or in any other manner, and to purchase or redeem, at a premium if deemed expedient, any debentures, debenture stock or securities of the company.

To sell, lease, charter, or otherwise dispose of, absolutely, conditionally or for any limited interest, the whole or any part of the undertaking, property, rights, concessions or privileges of the company for such consideration in cash, shares, royalties, or otherwise, as the company may think fit, and to abandon any part of the business for the time being of the company, and to carry on any of the objects mentioned in this clause, to the exclusion of the others, and to acquire or institute any new business, falling within the objects of the company, or any of such objects

To subscribe for, purchase, or otherwise acquire the shares or stock, whether ordinary, preferred or deferred or the debentures, bonds, or other securities of any company, and to accept the same in payment of any property sold, or business undertaken, or services rendered by this company, and to hold, sell, or otherwise deal with the same.

To pay for any rights or property acquired by the company or any services rendered to the company, in fully or partly paid shares or stock, debentures or other securities of the company, and to make such payments or gifts by way of bonus or otherwise, and either in money or in any other value as may from time to time be deemed expedient for information or advice given or for services of any kind rendered to the company, or in connection with which the company may be directly or indirectly interested, and generally to make any payments or agree to pay any commissions with or without any consideration moving to the company, if it is considered by the directors in the interests or directly or indirectly to the benefit of the company to do so.

To promote any company for the purpose of acquiring all or any part of the undertaking, property and liabilities of the company. Also to acquire the undertaking and assets, and undertake the liabilities of any now existing or future company, and to conduct, liquidate, or wind up the business of any such company.

To enter into partnership or into any arrangements for sharing profits, cooperation, reciprocal concession, or otherwise, with any person or company and to remunerate any person or persons, joint-stock or other company, by fixed salary or specified remuneration, or by a share of profits present past or future, or part one way and part the other.

To make and carry into effect or determine arrangements with British, Colonial or foreign manufacturers, railway and shipping companies, proprietors or charterers of shipping, carriers, proprietors of steam, electric, petrol propelled or other mechanical power, and other persons or company.

To carry on, work or develop any property or business of any kind, either as principals or agents, or to concur with others in so doing, or employ others to do so, as may be found expedient.

To pay any commission or brokerage for the purpose of securing the subscription of any part of the share or loan capital of this company, or of any company promoted by this company, or in which this company is or intends to be interested, provided such commission shall not exceed 75 per cent., and generally to remunerate any persons for underwriting such capital, or for services rendered in placing, or assisting to place, or guaranteeing the placing, of any shares, debentures or other securities of the company, or for promoting or guaranteeing the raising of capital for any other company, and to underwrite or otherwise guarantee the subscription for or placing of the share or other capital of any other Company.

To procure this comdany to be legalised, domiciled or recognised in any foreign country or colony, and to procure its incorporation in a like character, or as a Societe Anonyme in any foreign country, and to carry on the business of the company or any part thereof, in any foreign country or colony, or dependency of the United Kingdom or in any part of the world, under any other style or name.

To draw, accept, make, indorse, discount, and negotiate bills or exchange, promissory notes, warrants and other negotiable instruments other than bank notes.

To distribute among the members in specie any property of the company, or any proceeds of sale or disposal of any property of the company, but so that no distribution amounting to a reduction of capital be made except with the sanction, if any, for the time being required by law. To issue any shares of the company at par or at a premium or as fully or in part paid up, and to transfer to or otherwise cause to be vested in any company, person or persons, all or any of the lands, mines and property of the company, to be held in trust for the company, or on such trusts for working, developing, or disposing of the same as may be considered expedient.

To exercise the powers given by Sections 34, 35 and 79 of 'The Companies Consolidation Act, 1908.'

To do all such acts and things as are incidental or conducive to the above objects.

MINES AND MINING.

To prevent coal dust explosions in mines Germany is experimenting with water pumped into borings under pressure. It is thus forced into fissures, and after being pumped out the coal can be mined without blasting.

The North Star Mining Co., of Cranbrook, had a net profit of $11,759.64 for the past year.
