Princeton coal is precious, hence the term 'black diamonds.'

SIMILKAMEEN STAR

To All: A happy New Year.

Coal is the backbone and mainstay of Princeton and six different coal companies are wise to this fact—Thousands of miners will yet be employed in this district in the production of coal and the manufacture of coke—Metalliferous mines in the vicinity.

Vol. XII. No. 1. PRINCETON, B. C., WEDNESDAY, DECEMBER 28, 1910. $2 a Year in Advance

MINES AND MINING

Kettle Valley Railway (C.P.R.) Wants Share of the Coal Tonnage.

Pure Bituminous Coal Expected to be Produced from Mines in this Basin.

Thirteen-cent copper is the ruling price on the Boston market This is the first big rally from a long slump. It is expected to move still higher.

By advertisement of the Kettle Valley Railway Co. it will be observed that this company is also after the coal tonnage to come from Granite creek basin.

Nelson is moving to have a school of mines in Kootenay. What is Princeton doing along this line?

The B.C. Copper Co's smelter made a profit of $35,000 in Nov.

There is every reason to believe that bituminous coal will be struck in Princeton basin. Further development is expected to prove this as the indications are very favorable. Sub-bituminous is the classification of the coal now produced but it is certainly changing to a pure bituminous quality.

Manager W. Wilson of the Chilliwack-Princeton Coal Co., is making good headway with the shaft, although water is an obstacle now in considerable quantity. A good workable seam of coal has been passed in order that a much larger vein may be tapped. The shaft is now down about one hundred feet.

HOSPITAL MASQUERADE BALL

The big social event and feature of the season's gaieties is the masquerade ball to be given by the Ladies Hospital Auxiliary Friday night, 30th inst., in the I.O.O.F. hall. Everything is in readiness for the occasion. The Ladies have put energy and real enthusiasm into the preparatory work and that spells success for any undertaking. Having done their part it remains with the public to show their appreciation in the purchase of tickets, and if possible by personal attendance. The hospital building is completed and is a credit to the town and district. Patrons of the ball will help a worthy cause besides enjoy the pleasures which usually accompany a first class masquerade. Come!

ONE OF THE PIONEERS.

Col. Robert Stevenson is enjoying Christmastide with his family at Chilliwack and will probably spend the winter there. On his way out he was interviewed by the editor of the Oroville Gazette, with the result that he occupies large space in the columns of that paper. His reminiscences are full of thrilling incidents and hardships bordering upon the tragic. It is Star's ambition to publish a biographical skitch of Col. Stevenson, relating incidents in the polite, yet expressive if unvarnished language of the frontier. As pioneer, goldhunter and reconteur, belonging to the old school and generation of sterling men, Col. Stevenson has borne his part well in helping to lay the foundations firmly of a great province and by his discoveries in the mineral field he has been an important factor in making known to the world the vast riches of this country. Star wishes him many happy and prosperous New Years.

NEW HOTEL MANAGEMENT.

The Similkameen hotel has recently changed proprietorship, J. N. Nelson now being sole owner and manager. This house is new and well furnished and affords every convenience and comfort. The house is plastered, which ensures quiet and repose for the tired traveller and weary worker Spacious reading and sitting room, supplied with the current products of the press. Mr. and Mrs. Nelson are popular hosts, giving that unreserved attention to patrons which makes them feel at home. Sample rooms in connection. Read the ad. in next issue.

DEATH OF EARLY SETTLER.

The death of Frank Xavier Richter at Victoria on Christmas day removes one of the first settlers in the Similkameen valley and one who was probably most identified with its history and development. He had reached the allotted three score and ten years, at last passing away from the effects of heart trouble. He was on his way to California accompanied by his wife but was taken seriously ill at Victoria, from which he never rallied. Deceased was married twice and leaves a large family. His home at Keremeos consisted of a large estate of meadow and orchard, also large herds of cattle and sheep and bands of horses. Land held by the deceased in the vicinity of Prineeton is valuable. The estimated value of the whole estate is a little more than a million dollars.

CHURCH SERVICES.

There will be but one service held at 7:30 p.m. in the schoolhouse next Sunday by Rev. A. E. Bruce. Christmas carols and hymns will be sung. Service will be held at Granite Creek next Sunday at 10:30 a.m.—Christmas celebration of the Holy Communion.

Public worship and Sunday School in courthouse, Sunday, by W. T. Mills.

W. Garrison, violin; W. Knight, piccolo; pianists and other local talent will furnish music at the masquerade ball. Supper will be served in the Britton bl'k.

LOCAL AND GENERAL

Superb Weather adds to the Pleasures of Holidays and Festivities.

Christmas Trade was Good and the Day Observed with Time-Honored Customs.

Monday being a holiday the regular meeting of the board of trade will be postponed until the following Monday, January 9th.

Mrs. Garrison and Mrs. Galletly have collected the sum of $59,00 as a turkey fund for the hospital ball, the former lady also has sold some hundred dollars worth of tickets to the masquerade.

W. H. Hagerman is spending holidays visiting daughters in Rossland and Washington.

Mr. and Mrs. E. Watterman and Dolly, left yesterday, the former for Spokane and the two latter for California on an extended visit to relatives.

Mr. and Mrs. J. Holden spent Christmas in Hedley.

The Owl skating rink is running night and day and has become a fashionable resort for the youth and beauty of Princeton. Skating is the best exercise and developer, sending the blood tingling through all the body, giving that cherry coloring which denotes perfect circulation and vigorous health.

O. H. Carle went down to Keremeos on Saturday to spend Xmas.

Contractor Irwin is spending holidays at home in Kamloops.

W. Garrison and N. Huston have each added stylish sleighs to their liveries and with a span of light-steppers, the 'bells, beautiful bells,' keeping time to them, a joy ride may be taken that beats the odorous auto all to pieces. The roads are perfect now for sleighing parties.

The world has a certain admiration for a booster, even if his enthusiasm carries him beyond the lines of exact veracity. The knocker has been defined as a thing which hangs on the outside of a door, and when it comes to his obsequies few are to be found to do him reverence.—Province.

STITT—LUCAS.

The marriage of Mr. William J. Stitt of Princeton to Miss Mary Lucas, of Belfast, Ireland, was celebrated on Tuesday evening, Dec. 27th, the Rev. Arthur E. Bruce officiating. The groom is well known in these parts having been shift boss on the big railway tunnel and latterly holding respousible positions in mines. A number of tillicums of the groom gave a charivari in the evening making much noise and hilarity with implements of musick, notably the cow bell, tom-jon and guzzy-fuzzy. The bride last saw 'Jim' Stitt nineteen years ago but her love never faltered through the long, waiting years and she crossed the 'western ocean' that she might prove her constancy. Star wishes the happy couple many years of happiness and prosperity.

MUSIC AND DRAMA.

For years G. C. Eckhardt, the comedian of the Musical Eckhardt family, has been recognized as one of the most versatile performers on the entertainment platform. A natural comedian, his good humor seemed to bubble over in whatever he did. Others in the organization are Mae George, comedienne; Matt. Grieg, comedian, and Leona Repine, vocalist. Princeton playgoers know the Eckhardts to be clean and clever. The program is refined, interesting and full of innocent fun. This is one of the Walker attractions you cannot afford to miss. In the I.O.O.F. hall on Thursday, Jan. 5th, 1911.

BEST OF HOLIDAYS.

Christmas day was duly observed by religious services in both the Presbyterian and Anglican churches, appropriate hymns and sermons being given in commemoration of the world's greatest event. Monday being the statutory holiday the day was given over to feasting and social enjoyment. The roads being in fine condition sleighing parties were plentiful, one load with Piper Forsyth and his bagpipes enlivened the occasion with soul-stirring Scotch music. The weather was inspirational, i.e., it made the heart glad and thankful that we live in such a glorious elimate.

PUZZLES THE MEDICOES.

Charlie Day received word recently that his brother D. O. had gone to Rochester, Minn., for specialist treatment after experimenting with almost every remedy from boiled sand to the most mysterious concoction in materia medica. Thus far his case has baffled all the medicine men consulted. The surgeons at Rochester have already disagreed in their diagnoses and it seems that reliance now hangs upon the revelations of the scalpel. D. O. has many friends here who will be very glad to hear of his recovery from a long and most distressing stomach complaint.

The cigarette heart, moving picture eye and boozey hand cause the rejection of more than 75 per cent of recruits offering for the Canadian navy. Are we as a people drifting to premature graves?

The most important elements in our life are those which we, generally speaking, regard as trifles.

1910—1911.

The year 1910 is fast fading away and in these its dying hours it is fitting that a look backward be taken for the purpose of estimating the relative positions of Princeton now and a year ago. During the year a marked increase in every line of business is recorded and there has been a corresponding advance in land and real estate values. A tone of positive optimism is expressed by all who are engaged in any business enterprise and by those who are in any manner contributing to the advancement of the town and country. Last year there was no railroad into Princeton and consequently small inducement was held out to promoters of industrial enterprise. Since, however, the first train arrived, just a year ago, there has been a steady advance in everything that goes to make a country prosperous and 1910 marks the beginning of a new era. Without railway transportation the town and district had scarcely anything more substantial than hope to build upon and everything was stagnant from a business standpoint.

The year now dawning, 1911, is full of promise. New mining and manufacturing industries, the generation of hydro-electric power, the establishment of a cement works and the inception of a smelter are all within the range of certainty, now that the railroad affords the all needful transportation. With these leading enterprises in the foreground there are also many lesser projects which will take form and mature into producing factors, contributing to the general wealth and prosperity of the whole country.

To all Star extends the sincere wish that 1911 may be happy and prosperous.

NOTICE.

The Kettle River Valley Railway Company will apply to the Parliament of Canada at its next session for an Act.

1. Changing its name to the 'Kettle Valley Railway Company,'

2. Authorizing it:

A. To construct branches (1) from Penticton by the most feasible route to a point on the international boundary at or near the shore line of Osoyoos Lake; (2) from a point on the Company's line already authorized, by the most feasible route, to a point at or near Allison or Princeton; (3) from a point on the Company's line already authorized from the Coldwater River to the Fraser River, by the most feasible route, to Steamboat Mountain Mining Camp.

B. To carry on the business of an Express Company.

C. To construct and acquire steam and other vessels and operate them on any navigable waters tributary to the territory traversed by its railways.

D. To build, acquire or lease buildings for hotels and restaurants along the line of its railways.

E. To purchase, lease, acquire or construct lands, water lots, wharfs, docks, dockyards, slips, warehouses, coal and ore storage and hand line plants, elevators, offices and other buildings and to carry on the business of warehousemen, wharfingers and forwarders,

F. To generate and acquire electric or other power or energy, and to distribute the same in any form and to dispose of the surplus thereof.

G. To issue securities for the construction or acquisition of any vessels, properties or works, other than its railways, and to execute mortgages securing the same.

And for other purposes.

Dated at Toronto, the 1st day of November, 1910.

C. B. GORDON,
Secretary.
