WHO ARE MINISTERS?

Instructive Lecture on Duties and Sphere of Ministers of Gospel.

"Sidelights of Married Life" Subject of Next Lecture on Friday 14th Inst.

Monday evening the lecture "The Ministry, Its Nature, Work and Reward" was delivered by Rev. J. T. Conn in the court house to a small but appreciative audience. The lecture was punctuated with many forceful truths and was practical throughout. He did not confine himself to the ecclesiastical meaning of the word but showed how we all were more or less ministers, the nature of which depended very much how we accepted and view life. Life, he pointed out, was a larger word than religion or goodness. In our efforts towards right living we often fail, not for want of a pure and strong purpose, but because we have not in ourselves enough vital force to give effect to our purpose. The ministry is a divine appointment, not of human invention. It is a service of and from Christ. The ministry is a sacred service done with good and pure motives for a high end. Such holy service can, and ought to be rendered by the people outside our churches. The love of Christ, the love of humanity, should constrain us all to use our time and influence to the best advantage.

The work of the ministry was the second point to be considered. The secret of noble and joyful living lies largely in putting ourselves in steady communication with the reservoirs set for the supply of man's soul while he sojourns here in the flesh. We are not here to dream and drift, we, you and I, have hard work to do. The minister guides his people to see visions and inspires them to go forth to meet those visions until they become part of the immediate horizon. He with us in our private, business and home life should be what we wish to appear to the world at large. God is our Good Shepherd. He knows you and you know Him. Work on and work in that assurance and your work will have a savour of life unto life.

The last point to be reviewed was the reward of the minister. Every good word and work has its own reward in the fact of the actor having done what he was convinced was the right word and work to do. The minister speaks for and in the name of Christ to humanity. His mission is to lead men to see how much better life could be lived and enjoyed if we were to live in the service of Him who was love, and love and serve one another. The reward of such noble service is the truth of his message being seen in action in the everyday life of the people and the rest and reward for faithful service at the hands of Him who called him to go forth and teach all nations. The parent who ministers at home—the statesman in his sphere—in the office, in the business house, the builder, toiler, school teacher, all are called to be ministers—that is, to service, to help and to love, and each, according to his or her faithfulness, will be rewarded here in seeing their message believed, their homes holier, business more successful and the world slowly nevertheless surely becoming more like heaven, when peace and goodwill will cover the earth as the waters cover the sea.

The subject of the next lecture, to be delivered on Friday evening, Feb. 14th, will be "Side Lights on Married Life."

GEOLOGICAL REPORT.

Prompt Issue and Free Distribution to Bona Fide Applicants.

The summary report of the Geological Survey of Canada for the year 1907 has just been published and is now on every editor's desk in the country. The promptness with which it has been issued is in striking contrast with the dilatory way in which the report of the minister of mines for B.C. is issued—six months after the year is ended. Under the Hon. W. Templeman, the Dominion Department of Mines, which includes the geological survey, is thoroughly up-to-date. Free distribution of any report of economic or scientific interest will be made to all bona fide applicants in Canada. The report for 1907 covers only a small portion of the Similkameen, at and adjacent to Camp Hedley. This year Chas. Camsell, who was in charge of the surveys here in the past two summers, will work in the platinum field near Tulameen. It will be the first government report issued from Ottawa on this interesting field.

LABORERS IN DEMAND.

A. L. Craig, general passenger agent of the Great Northern Railway, with head quarters at St. Paul, has issued a circular to the agents of the company. In this circular he says just now there are a great many unemployed men and that it has occurred to him that it will be interesting to many people to learn of the demand for laborers and miners in the Tanana district in Alaska.

"Charles E. Peabody, president of the Alaska Steamship Co.," he says, "advises him that the Tanana district is short of between 2,000 and 3,000 men for mining work. The route into this country is by way of Valdez, and the sailings of the steamers from Seattle occur about every eight days."

BURNED TO DEATH

"Dot" Marpole Meets Death in Terrible Manner on January 28.

His Home is Burned and Marpole Perishes in the Flames—Leaves Wife and Child.

A distressing fatallity occurred at Dot station, on the line of the Spences Bridge-Nicola branch of the C.P.R., as a result of which Mr. Dalton P. Marpole, son of Mr. R. Marpole, general executive assistant of the C.P.R , was burned to death. News of the occurrence reached Princeton last Wednesday afternoon by telephone. From what can be learned it appears Mr. Marpole and a hired man were the only occupants of the house on the evening of the fire, Tuesday, Jan. 29th, Mrs. Marpole and child being in Kamloops on a visit to friends. How the fire originated does not seem to be known, but the flames spread so rapidly that the employee of Mr. Marpole's had a narrow escape with his life and had no opportunity to attempt a rescue of Mr. Marpole, and it is supposed the latter was suffocated and had no chance to escape.

The deceased was the second son of Mr. R. Marpole and was about twenty-eight years old. He was married some four years ago, taking up his residence at the old Gordon ranch, which lies twenty-two miles out of Spence's Bridge on the line to Nicola. Prior to his marriage Mr. Marpole was a resident of Vancouver where he was prominently identified with out-door sports, especially Rugby football, at which he was an expert.

DUNCAN ROSS, M. P.

Duncan Ross, M. P. for Yale-Cariboo, is making a record at the present session of the Dominion House. His recent speech on the Asiatic question was one of the ablest ever delivered in the House. His more recent speech touching the McBride Government's trickery in dealing with the Oriental problem in this Province and Attorney-General Bowser's duplicity in this matter is a masterpiece and the Star will publish extracts from it next week.

LOCAL AND GENERAL.

Don't forget the firemen's dance tonight. It promises to be the event of the season, and is attracting lovers of the mazy waltz from many outside points. Good music, good refreshments, and a good time is awaiting all those who attend.

H. V. O. Chatterton, local manager for the A. E. Howse Co., Ltd., leaves on Saturday for London, Eng., where he will visit for a couple of months.

Mrs. J. H. Jackson, of Tulameen City, was in town last week on her way home from a visit to friends in Hedley.

Mr. Gosnell, manager of the Nelson Brewing Co., is in town inspecting the company's Princeton branch.

Emil Rasmus, brother of Mrs. Chas. Burch, was moved into town today from Mr. Burch's ranch, suffering from a hemorrhage of the lungs, and is being cared for by Dr. Schon.

Government Agent Hunter went up to Otter Flat yesterday on business.

The Rev. J. Thurburn Conn will attend the meeting of the Presbytery to be held in Kamloops on the 26th inst. The reverend gentleman will probably visit Vancouver before returning home.

POSTMASTER-GENERAL

Reports Gratifying Surplus for Nine Months of $1,082,301.

The annual report of the Postoffice Department covers the period of nine months ending March 31st, 1907, a change in the fiscal year to that date making the amounts much less than if for a full year. The gross revenue for the nine months amounted to $6,535,093; expenkiture $5,452,791; surplus $1,082,301. Prior to 1896, when the present Government was elected by the people, there were continual deficits from year to year and surpluses were unknown. Compared with other departments of the Government the postoffices of Canada are a marvel of simplicity in their operation. The system is so simple that persons without previous experience can manage an ordinary office, which speaks well for those who devised the great plan of operation on such a large scale in this extensive Dominiow. Under the head of gross postal revenue Princeton ranks second among the postoffices of the Similkameen. It is not too much to expect that it will soon rank first.

CANADA INVITING.

British official emigration returns show Canada's unquestioned supremacy among countries receiving British emigrants. In 1906 Canada received 5,300 more Britishers than the United States. and in 1907 she received 16,969 more. The rest of the British empire is nowhere as compared to Canada. Despite the assisted passages, Australasia received only 14,369 as against Canada's 117,586. Of course a large proportion of these are adults. It is probably true to say that Great Britain presented to Canada last year a population hardly less than that of the province of Saskatchewan. A remarkable feature is that this unprecedented British exodus synchronises with the unprecedented large foreign trade.

ORIENTAL IMMIGRATION.

(Nelson News.)

Duncan Ross, M. P. for Yale-Cariboo, in his recent speech at Ottawa, in which he charged Attorney-General Bowser with being cognisant of the contracts to import Japanese coolie labor and with knowing who the contracting parties were at the very time he was declaring from the public platform that the Grand Trunk Pacific Railway Company were importing 50,000 Japanese, has raised a new aspect of the question, one that does not add to the Attorney-General's credit in the case. Whilst Mr. Bowser indignantly repudiates any knowledge of the contracts or any part in their preparation, Duncan Ross holds to his original statement, saying, when shown Mr. Bowser's denial:

When Mr. Bowser says he didn't draft the original Gotch contract, he is saying what is absolutely untrue. It's only in line with his whole policy in connection with this matter. When a lawyer violates the confidence of his client to make political capital against his opponent, the client is absolutely justified in making public the circumstances under which the contract was drawn. Mr. Gotch knows as much about this matter as W. J. Bowser, and a reference to him will prove whether the statements made are true or not.

When we come to look at this question as a whole and to size up the things done that really make for a white Canada, we find that the credit rests wholly with the Liberals. A few plain, indisputable facts bear this out to the letter.

The best that a Conservative Government could be persuaded to do to limit the influx of Chinese was to institute a $50 head tax. When the Liberals took office this head tax was almost immediately raised to $100 and that not proving adequa,e to stay the influx, the tax was shortly afterwards raised to $500. At that time there was no very serious anti-Japanese question, but in deference to the report of the Royal Commission the Dominion Government entered into negotiations with the Japanese Government and secured the passage of an order restricting the number of Japanese permitted to migrate from Japan to Canada. Recently the Japanese immigration question became more acute, owing to the importation of coolies by the C. P. R. and James Dunsmuir, and thereupon the Dominion Government appointed a commission to investigate the facts. The other day we published Mackenzie King's report, which showed that whilst the Japanese Government had lived up to their agreement, the real blame for the large influx of Japanese must be placed upon the shoulders of certain big corporations, who were taking advantage of the Hawaiian situation to import them wholesale. Concurrently the Dominion Government had sent Hon. Rudolphe Lemieux to Toyko to negotiate a settlement satisfactory to both countries. Undoubtedly, one result of Mackenzie King's report was the passage of the order-in-Council authorizing rejection of immigrants arriving from ports other than those of their native land, thus effectually closing the door from Hawaii.

Since then Mr. Lemieux has returned from Tokyo and has reported the very satisfactory arrangement concluded with Baron Hayashi, the final result qeing that any large influx of Japanese is no longer to be feared. Briefly these are the steps taken and the results obtained. The Liberal Government have acted, and acted effectively, in putting a stop to the Oriental influx. It is no more than they should have done, but it has been done, and that too whilst the local Conservative Government was playing with the question, by the introduction of faulty legislation and by the Premier smilingly assenting to the Lieutenant-Governor vetoing the measure supposed to have been enacted for the express purpose of excluding Orientals. Whilst it may not have been constitutionally necessary for Premier McBride to have resigned on this occasion, such a course would have proved beyond doubt his sincerity in the matter, as it is no one can regard the action he did take as being otherwise than cynically contemptuous of public feeling in British Columbia. He told a Dominion official at Ottawa a few days before the Bowser bill passed the Legislature that it would not be assented to by the Lieutenant-Governor, and yet knowing this, he neither expressed disapproval, nor suggested to the Dominion Government that Dunsmuir should be otherwise instructed.

Whilst the Tories were in office at Ottawa they did little or nothing to stem the tide of Oriental immigration and the same may be said of the Tories in office in this province; they made great promises and threatened all manner of achiements that would bar out the Orientals, but all their protestations amounted

(Continued on page 3.)

Weak Kidneys

Weak Kidneys, surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Brights or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell

ARE YOU SCOTCH?

To be born a Scotchman is to be born with a silver spoon in the mouth. It is to born, as it were, into the governing family. We English are the hewers of wood and drawers of water for our Caledonian masters. Formerly they used to raid our borders and steal our cattle, but they kept to their own soil. In those happy days an Englishman had a chance in his own country. Today he is little better than a hod-carrier. The Scotchmen have captured not our cattle but the British empire. They sit in the seats of the mighty. Westminster is their washpot and over Canada do they cast out their shoe. The head of the English Church is a Scotchman, and his brother o York came out as a Scotch Presbyterian manse. The Premier is a Scotsman, and the Lord Chancellor, the Keeper of the King's conscience, is a Scotsman, too London has become an annex of Edinburgh, and Canada is little more than a Scotch offhand farm. Our single satisfaction is that whenever we want a book to read we have only to apply to Skibo Castle and Mr. Carnegie will send a free library by return. It is a pleasant way he has of reminding us that we want educating.—London Daily News.

Stop that tickling cough! Dr. Shoop's Cough Cure will surely stop it, and with perfect safety. It is so thoroughly harmless, that Dr Shoop tells mothers to use nothing else even with very young babies. The wholesome green leaves and tender stems of a lung healing mountainous shrub furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough and heals the sensitive bronchialmembranes. No opium, no chloro form, nothing harsh used to injure or suppress. Demand Dr. Shoop's. Take no other. Sold by J. R. Campbell.

to absolutely nothing. Possibly this was inevitable, but had they gone about the matter seriously, instead of being actuated solely by the idea of making political capital against the Liberal Government at Ottawa, it is conceivable that things only recently accomplished might have been obtained earlier.

Whatever has been done to limit Oriental immigration has been done entirely by the Liberal Government at Ottawa and no amount of gallery play now by McBride and Bowser and their followers in the Local Legislature can change or disprove these facts. neither can it be honestly said that any action of the local Tories has hastened in the slightest degree the results obtained by recent Liberal enactments and negotiations.

TO REGULATE COAL LANDS.

A bill has been introduced by Hon. Mr. Tatlow in the Provincial Legislature for the purpose of making uniform throughout the province the coal regulations. The regulations with regard to tax and royalty are not the same; for instance, at the mines of the Crow's Nest Pass Coal Co. the Governmental charges amount to 5 cents per ton for all coal mined and 5 per cent. royalty. Under the laws of the province there are certain holdings the usufruct of which is enjoyed free of al royalties. The measure, it is claimed, will do away with all enabling legislation and will leave to the province the right to impose such taxes as it sees fit. The measure is especially important in view of the development of the various coal measures of the province. The numerous new grants which have been made recently and the move to develop others will doubtless receive an impetus. With all coal measures in the province placed upon the same footing, the revenue will doubtless ultimately be greatly augmented.

I wish that I might talk with all sick ones about the actual cause of Stomach, Heart and Kidney ailments. To explain in person how weak stomach nerves lead to stomach weakness, I am sure would interest all. And it is the same with weak heart or weak kidneys. This is why my prescription—Dr. Shoop's Restorative—so promptly reaches ailments of the stomach, heart and kidneys. It is wrong to drug the stomach or stimulate the heart or kidneys. These weak inside nerves simply need more strength. My Restorative is the only prescription made expressly for these nerves. Next to seeing you personally, will be to mail you free, my new booklet entitled, "What To Do." I will also send samples of my Restorative as well. Write for the book today. It will surely interest you. Address Dr. Shoop, Box 8, Racine, Wis.

If you have catarrh, rid yourself of this repulsive disease. Ask Dr. Shoop, of Racine, Wis., to mail you free, a trial box of this Dr. Shoop's Catarrh Remedy. A simple, single test, will surely tell you a catarrh truth well worth your knowing. Write today. Don't suffer longer. Sold by J. R. Campbell.

Grippe is sweeping the country. Stop it with Preventics, before it gets deeply sdated. To check early colds with these little Candy Cold Cure Tablets is surely sensible and safe. Preventics contain no quinine, no laxative, nothing harsh or sickening. Pneumonia would never appear if early colds were promptly broken. Also good for feverish children. Large box, 48 tablets, 25 cents. Vest pocket boxes 5 cents. Sold by J. R. Campbell.

SMILES.

An Englishman, an Irishman, and a Scotchman were one day arguing as to which of the three countries possessed the fastest trains.

"Well," said the Englishman, "I've been in one of our trains and the telegraph poles have been like a hedge."

"I've seen the milestones appear like tombstones," said the Scot.

"Be jabers," said Pat, "I was one day in a train in my country, and we passed a field of turnips and a field of carrots, also a field of cabbage and parsley, then a pond of water, and we were going that quick I thought it was broth,"

An old country gentleman returning home rather late discovered a yokel with a lantern under his kitchen window, who, when asked his business there, stated he had only come a-courting.

"Come a what?" said the irate gentleman.

"A-courting, sir. I'se courting Mary."

"It's a lie! What do you want a lantern for? I never used one when I was a young man."

"No, sir," was the yokel's reply; "I didn't think yer 'ad, judging by the missis."

Helen — There goes that handsome bloude out sleighing. She used to be a beach belle.

Howard—Ah, I suppose now she is a sleigh belle.

"Now," said the physician, "you will have to eat plain food and not stay out late at night."

"Yes," replied the patient, "that is what I have been thinking ever since you sent in your bill."
