Coal & coke need the wider market—Reciprocity helps

SIMILKAMEEN STAR

Free trade within the empire and with United States is the goal.

The effects of high Protective Duties are seen in huge trusts, mergers and multi-millionaires in Canada and the United States—Protection makes the rich richer, the poor poorer—Reciprocity or free trade permits one to buy in the cheapest and sell in best markets—Protection fosters food trusts

Vol. XII. No. 37. PRINCETON, B.C., WEDNESDAY, SEPTEMBER 6, 1911. $2 a Year in Advance

ANNEXATION BUGABOO.

Hollowness of Flag Waving and the Truth About the Silly Question.

Conservative speakers and press are endeavoring to obscure the real benefits of reciprocity with the greatest bugbear that was ever foisted upon the public, which they term annexation, loss of political identity, absorption, &c. There was no cry of annexation when the great Tory leader, Sir John A. Macdonald, proposed reciprocity with the United States but the moment a Liberal prime minister advocates reciprocity he is denounced as annexationist, traitor and what not Such opposition to reciprocity is silly and opposed to the best interests of the people of the Similkameen and all Canada.

It may be well to quote President Taft's own words on the subject of annexation. They are open to no misconstruction or misrepresentation. Even R. L. Borden cannot distort them. Mr. Taft, in his address to the American Newspaper Publishers' Association at New York on April 27th last made use of the following words:

'It is amusing, and I am not sure that it has not some elements of consolation in it, to find that all the buncombe and all the exaggeration and misrepresentation in politics and all the political ghosts are not confined to our own country and that there has entered into the discussion in Canada, and as a reason for defeating the adoption of this contract by the Canadian Parliamen, a fear that we desire to annex the Dominion; and the dreams of Americans with irresponsible imaginations, who like to talk of the starry flag's floating from Panama to the pole, are exhibited by the opponents of the Canadian pact in Canada as the declaration of a real policy by this country and as an announcement of our purpose to push political control over our neighbor of the north.

'Why should we not have a closer union with Canada? Think of the absurdity of separating Manitoba and Minneapolis by so great a distance as Manitoba and Liverpool when certainly Providence intended that their separation socially and commercially, should only be that of their geographical distance. Canadians have furnished us a large number of our best citizens. We are giving them a large number of the pick of our young farmers. Let us open the gateways between us.

'The talk of annexation is all bosh. Every one who knows anything about it realizes that it is bosh. To make the possibility of the annexation of Canada to the United States a basis for objection to steps toward their greater economic and commercial union should be treated as one of the jokes of the platform, and should not enter into the consideration of serious men engaged in solving a serious problem Canada is a great, strong youth, anxious to test his muscles, rejoicing in the race he is ready to run. The United States has all it can attend to with the territory and trade that God intended between us. Let the political governments remain as they are. Let us abolish arbitrary and artificial obstructions to our association with our friends upon the north and derive the mutual profit that it will certainly bring.'

Is that language not plain and honest and straighforward enough to suit any Canadian? Where in history is there an instance of annexation following improved and friendly trade relations with a neighboring nation? The Tory cry of annexation is so shallow that it has not a leg to stand on.

CONSERVATIVE PLATFORM.

1. A thorough reorganization of the method by which public expenditure is supervised. The increase in what is known as ordinary controllable expenditure from $21,500,000 in 1896, to nearly $74,000,000 in 1911, is proof of extravagance beyond any possible denial.

2. The granting of their natural resources to the prairie provinces.

3. The construction of the Hudson Bay Railway, and its operation by an independent commission.

4. The control and operation by the state of terminal elevators.

5. The necessary encouragement for establishing and carrying on the chilled meat industry.

6. The establishment of a permanent tariff commission.

7. The granting of substantial assistance towards the improvement of our public highways.

8. The extension of free rural mail delivery.

9. The extension of civil service reform.

10. The granting of liberal assstance to the provinces for the purpose of supplementing and extending the work of agricultural education and for the improvement of agriculture.

And, lastly, it pledges itself to a course of policy and administration which will maintain independent and unimpaired the control of our own affairs by the parliament of Canada; a policy which, while affording no just cause for complaint to any foreign nation, will find its highest ideal in the autonomous development of Canada as a nation within the British Empire.

Carle, the grocer, has a large vegetable garden at Keremeos from which he will harvest 30 tons of tomatoes this season. And such tomatoes, great, big, red, luscious, meaty ones, that are appetizing and healthy. Try them.

E. B. Hall and family left on Thursday for the coast, where they will in future reside. Mrs. Hall and children will visit parents at Napanee, Ont., this fall.

PATHFINDING BY AUTO.

Party Reaches Princeton on the Way North to Hazelton.

Whst is probably one of the most important pathfinding tours undertaken on the Pacific coast in several years, was inaugurated on Monday, August 28, when a Flanders "20" carrying a party of three Seattle men left that city on a trip of nearly 1,000 miles into the heart of the wilderness of northern British Columbia. Carrying a message from Mayor Dilling, of Seattle, to the mayor of Hazelton B. C., E. F. Sands, manager of the E M-F Northwest Company of Seattle, has set out to win the handsome gold medal hung up a year ago by the Pacific Highway Association for the first car to reach Hazelton by the overland route. This little city, only about sixty miles from the Alaskan boundary, for more than fifty years has conducted all its traffic with the outside world through the medium of boats.

For some time the government of B.C. has been preparing to build a road to Hazelton and much interest is taken in the progress of the car which arrived in Princeton Tuesday evening on its way through the northern wilds to Hazelton. In Snoqualmie Pass, Wash., the road was so bad that it took 13 hours to get through the car answering all demands for the rough work. Mr. Sands is accompanied by D. F. Batcheller, mechanician; W. T. Curtis, photographer; the expedition being taken for the purpose of opening up a new auto touring route.

EAST PRINCETON NOTES.

East Princeton, September 5.—S. Murphy and family have moved into their new residence on Eighth Avenue.

W. J. Budd returned on Saturday from Calgary.

The brick machine for the B.C. Portland Cement Works which was received last week will be set up at once and within two weeks will be turning out large quantities of brick.

The United Empire Co. are busy at work on the tunnel on their copper mine. The tunnel is now in 480 feet.

MARCOTTE—SCHISLER.

At the home of the bride's parents, today, at 11 o'clock, the wedding of Miss Myrtle Schisler to Louis Marcotte was celebrated by the Rev. Father Wagner, of Kamloops. The ceremony was performed in the presence of immediate friends and relatives of the contracting parties, the bride being attended by her sister, Miss Mildred Schisler, while the groom was supported by Mr. Geddes Lyall. The bride was beautifully attired and looked charming in white satin trimmed with white sequin banding and was the recipient of many affectionate gifts. The bridesmaid wore creme satin de chene. The groom is well known to the public as hotel keeper, formerly at Granite Creek, now of Coalmont, both of the nuptual principles being social favorites in Princeton and district. The left on a honeymoon trip, via Great Northern, through Washington, and, on return will settle at Coalmont. The Star joins with a host of friends in wishing the happy couple a joyous and prosperous married life.

FOOD PRICES REDUCED.

Among many reductions in the price of food made by reciprocity the following are striking examples. Bacon, lard and many other articles have also received substantial reductions:

Cheese, per lb., present day, 3c; duty under reciprocity, free.

Sweet potatoes, per bushel, present duty, 10c; duty under reciprocity, free.

Salmon, prepared, present duty, 30 per cent: duty under reciprocity, free.

Oysters in bulk, per gallon, 10c: duty under reciprocity, free.

Lobsters, fresh, 25 per cent; duty under reciprocity, free.

BEATS SWITZERLAND.

H. B. Fryberger, a leading lawyer of Duluth, Minn., and A. H. Featherstone, a prominent attorney of Wallace, Idaho, were in town recently on their way to the Skagit where they have large land holdings, with which they were very much pleased and for which they contribute a large amount annually to the public treasury. They were piloted by C. O French, whom Mr. Fryberger says is the champion camp biscuit builder of North America. The party went over the sky trail to Skagit valley and both Mr. Featherstone and Mr. Fryberger, who have seen the Alps and the Himalayas, declare that the scenery of the Skagit surpasses all.

RECIPROCITY RECIPES.

Reciprocity demands an intelligent vote and no true citizen will submit to the dictation of any fraternal organization, political boss or party. Vote for the good of the country and not for the Manufacturers' Association and millionaire trusts.

Political flag-waving and lip loyalty are never practised by the true patriot; they are the hypotritic weapons of those void of all principle and honor on election matters.

Oh, my country and my flag, what political crimes have been commttted in thy name.

All workingmen know that it is extremely difficult to obtain an advance of wages in proportion to the rise in food prices. When bacon jumps from 20 cents per lb. to 35 cents per lb. there is no corresponding increase of wages. The big millionaire Chicago and Toronto pork packers get the huge profits, and many poor consumers are obliged to leave out bacon from the breakfast.

The Similkameen Star.
J. M. WRIGHT

NOTICE TO PATRONS.

All the right, title and interests of A. E. Howse in the Similkameen Star having been purchased by the Princeton Printing and Publishing Co., notice is given that all accounts due up to the 1st of September, 1911, are payable to the said A. E. Howse. The new proprietors will be pleased to retain the patronage of all subscribers, advertisers and customers, and solicit further continuation of past favors. It is the intention of the publishers to enlarge and improve the Star as the requirements of the public demand. Subscriptions from now until the end of 1912 $2.00, cash. Cheques to be made payable to J. M. Wright.

TAKING STOCK.

There are reasons for the general impression that a great mining centre will be the future of Princeton and its environs. And in mentioning Princeton it is always understood that East Princeton is included and is a full partner in the work of building up a large industrial and commercial centre. The Princeton Coal & Land Co. are now increasing their plant to an output of between four and five hundred tons daily, which means a payroll of not less than a hundred from the day of installation forward. The B. C. Portland Cement Co., now in the initiatory stages of a large and permanent industrial enterprise, will employ a big number of workingmen and thus create a city which once established will go on increasing of its own momentum or importance. The Princeton Collieries Co. holding some 18,000 acres of coal land, including the productive surface, is not likely to waste any time in obtaining dividends from its large investment and there is indication of an early start by this company in the real work of coal mining. The United Empire Co. has both coal and copper to mine and will be large producers in the immediate future. The Platinum Goldfields Co. will employ considerable labor prospecting placers in and near Princeton preparatory to intended dredging on a large scale. The sale of Voigt camp to a large mining and smelting syndicate is the beginning of what promises to be a very big and important industry. The Princeton Lumber Mills, Ltd., is a well managed industry, expanding as the local requirements demand and having a field all its own which will require a vast quantity of lumber. The Columbia Coal & Coke Co. at Coalmont, though fourteen miles from Princeton, will act as a great impetus to business here in the future, even as it has already done. The Princeton Chilliwack Coal Co. own a fine property near town and which is bound to be a producer in the front rank along with the Osoyoos Coal Co., owning land near the promising Ashnola townsite. Great Northern railway officials have large coal holdings in this section which it is reasonable to suppose will be operated soon. In thus taking stock the least attentive reader will see at a glance that mere mention of these living enterprises impress one as to the great future in store for this section and that now is a good time to buy real estate and farm lands.

PAST AND PRESENT.

A distinct forward movement is observed in the industrial and commercial institutions which are the life of Princeton and district. Looking backward over a period of eight or ten years there is striking contrast with the dull, lethargic times which prevailed then and the brisk business conditions which now impress one at every turn. Princeton and its allied town of East Princeton are undoubtedly on the high road to prosperity. In the older town, where the grass grew in the middle of the streets before the railway came and footpaths wound through the jungle that secluded the thieving coyote, where lovers courted, the night owl hooted and froggies sang their simple lay, all that was romantic and virginal has been swept away by the gladdening hand of progress. Now we see new buildings everywhere and the regular going and coming of miners and other workingmen indicate a great revival and the dawn of better days.

NOTICE TO CREDITORS.

Notice is hereby given that, pursuant to the "Creditors' Trust Deeds Act, 1901," and all amending acts thereto, Henry B. Meausette, of Bridge Street, Princeton, B.C., has this day made an assignment to me of his estate, real and personal, credits and effects which may be seized and sold under execution for the benefit of his creditors. A meeting of the creditors will be held at the office of the assignee, Princeton, B.C., on the 12th day of September, 1911, at the hour of 3 o'clock, p.m., to receive a statement of affairs for the general ordering of the estate, and you are hereby notified to attend either in person or by representative.

All claims must be filed with the undersigned, verified by statutory declaration, and to entitle any creditor to vote his claim must be filed on or before the date of the meeting.

All persons indebted to the said Henry B. Meausette are required to pay the amount due by them to the said assignee forthwith.

And further take notice that, on and after the 12th day of October, 1911, the said assignee will proceed to distribute the assets of the insolvent amongst parties entitled thereto, having regard only to claims of which then he has received notice, and that he will not be liable for the said assets or any part thereof to any person or persons of whsse claim notice shall not then have been received by him at the above last mentioned date.

Dated at Princeton in the Province of British Columbia, this 29th day of August, 1911.

J. B. WOOD,
Assignee.

Rich Resources
SURROUNDING
EAST PRINCETON
The New City With The Payroll

Give you the opportunity for one of the

SOUNDEST INVESTMENTS

In British Columbia.

CITY LOTS ARE BEING OFFERED FOR SALE FOR THE FIRST TIME.

IT IS INEVITABLE THAT THE VALUE OF THESE LANDS WILL GREATLY INCREASE

Here are some of the Reasons:

East Princeton is surrounded by huge deposits of Coal, Cement, Copper, Gold, and other important Minerals.

The British Columbia Portland Cement Co. is erecting a half a million dollar plant, which will employ between 300 and 400 men.

The United Empire Co. is shipping a lignite coal of the besl quality and is developing immense copper deposits, requiring large reduction works and several hundred employees. The Princeton Coal & Land Co. is increasing its daily shipments to 300 tons of coal, providing employment to about 150 men. Other coal companies are spending over $2,000,000 in development, and will give work to at least 1,000 men.

For transportation, East Princeton will have, in the near future, the Great Northern and the Kettle Valley lines, both of which, will pass through the towwnsite.

East Princeton is beautifully situated on the Similkameen River, with an abundance of water power available. The new city has every facter for growth into a big industrial centre.

It presents a rare opportunity for investment. Get full particulars immediately.

D. G. McCURDY
RESIDENT AGENT.
Or write RAYMOND E. WARD, Pacific blk, Vancouver.

Owing to change in Star ownership this week, the publication was delayed in order to make the necessary business arrangement and announcement on the 2nd page of this issue.

J. Wilson, of Rossland, arrived here on Thursday from Vancouver to take a position on the Similkameen Star.

Herbert Thomas has been appointed a commissioner to take affidavits under the provincial elections act.

Coalmont
A legitimate Investment Today

MOST PEOPLE want to invest their money where they are reasonably sure of a good return. If the investment is to be made in real estate there are severa things to be considered: The situation of the town, climatic conditions, transportation facilities, and primarily the amount of the monthly payroll. When these questions are asked regarding Coalmont they may all be answered to the credit of the town. The situation and climatic conditions are ideal; the main line of the V.,V. & E. railway runs through the town on its way to Vancouver.

The Columbia Coal & Coke Co. operating here have practically an inexhaustible supply of a pure bituminous coal.

They are installing immediately a plant which will handle 2000 tons of coal in 8 hours—this means employment for between 800 and 900 men all told.

Figure out this payroll and see how many coal mining towns in B.C. can beat it.

In a very short time Coalmont will necessarily have a population of from 2000 to 2500 people. Will this cause real estate to rise? We all know the answer. Then take the opportunity that presents itself now—buy first hand and reap the benefit of this increase.

The prices and terms are such that anyone can afford to inves to the extent of one or two lots. They range from $175 to $550, on terms of ¼ cash, balance over 18 months.

Address all communications and remittances to
