Princeton, Portal to Steamboat Camp.

SIMILKAMEEN STAR

Great minds glory in another's success; only small minds envy.

No better indication of the nativ wealth of Princeton district than the number of companies about to operate—Mining and allied industries will make Princeton large centre—Real estate will never be cheaper than now—Opportunity knocks at your door.

Vol. XII. No. 6. PRINCETON, B. C., WEDNESDAY, FEBRUARY 1, 1911. $2 a Year in Advance

BIG WORKS PLANNED

Princeton Collieries Co. have 18,000 Acres of A1 Coal Land.

Plans for Large Coal Output, Townsite and Pithead, want Railroad to Connect.

To anyone familiar with the resources of this country the great possibilities of the Princeton Collieries Co., owning the coal and surface rights of 18,000 acres of land in Princeton district, are virtually unlimited. Leaving the coal deposits in four or five seams varying from six to fifteen feet in thickness out of considera tion there remains the very valuable land suitable for grazing and grain growing purposes. Cut up into small holdings of five or ten acres suitable for apple or chards, it would be capable of sustaining a population of many thousands. The soil is good and the climate, less in altitude than parts of the Kootenays where fruit is grown successfully, is favorable An irrigation system and abundance of water supply at hand will work the change and turn what is now wild land into a garden. All this land would have been settled upon long ago but for the coal rights. A townsite, probably known as West Princeton, in no sense a rival of central Princeton, will evolve from eligible ground already secured. As soon as steel is laid on the V.V. & E. extensive operations will begin. With cement works in East Princeton, mine development in West Princeton, all near 'the Princeton' with its mine and other industries in operation, there is promise of great growth. The following is sub s ance of a Province interview with the energetic president recently in Vnncouver:

Vancouver Capital Looks Good.

'Andrew Laidlaw of Spokane, president of the Princeton Collieries, Limited, was recently in Vancouver where arrangements have been made by which Vancouver capital underwrote a considerable block of treasury shares, the proceeds of which will be applied to the carrying out of a comprehensive program of underground development and the installation of surface works, including a modern tipple to handle 500 tons of coal per day.

Rich in Soil and Timber.

The property in question embraces more than 18,000 acres of coal lands at Princeton, this tract, it is estimated, comprising 75 per cent. of the Princeton coal basin. Many expert engineers have examined these coal fields and it is estal lished beyond shadow of doubt that in

Continued on page 4.

GOLDHUNTERS HERE

Placer Drill in Operation on the Tulameen River in Town.

Systematic Prospecting will be Carried On—Gold, Platinum Mined in Early Days.

Messrs. Fry and Tener have, after some delav, received the placer drill which is to be used in prospecting the rivers for platinum and gold. The drill is run with a gasoline engine and is of similar type to a well boring machine. F. S. Clark has charge of the drilling and is an old Yukonner.

It is the belief of placermen that good pay will be struck along the rivers at depth the surface of the bars and benches having been skimmed over in the big stampede of '86. Should the prospect ing prove favorable the foundation of a great industry will have been laid.

The gentlemen interested in the enterprise are experts and deserve to have their plucky efforts crowned with success. Gold dredging requires large capital and the profits are immense where the ground is easily worked and the pay dirt of good value. The placers here are known to run high in platinum, some large specimens having been recovered. It is worth $35 an ounce.

The arrival of the drill is synchronous with the coming of the boom. Our extensive and varied resources certainly warrant any such optimistic forecast.

ARCHITECT ARRIVES.

T. Clark King and wife, whose daugh ter is Mrs. Gibson, Fivemile, will shortly take up residence here, the former to follow his profession as architect. Mr. King has 35 years' experience, 25 of which were in Desmoines, Ia., and 10 in La combe, Alb., where, among other build ings, he designed the high school, cost ing $50,000 and supervised the erection of the Adelphi hotel with cement blocks. Mr. King was educated in Kensington, London, England, and is a member of the Architectural Association, Alberta. He is the pioneer architect of Princeton and will no doubt remedy any defects of the past by more ornate design, in con sonance with the surrounding beauties of nature.

An order affecting all postoffices in the Dominion issued from the Public Works department commanding the national flag to be flown every day from sunrise to sunset over the P.O. If the provincial government would do the same on its public buildings it would help some.

Bargains in baby sleighs at White's.

NEED OF PUBLICITY

Mining Man Pushes Similkameen Into Glare of Public Gaze.

Matter Descriptive of Our Vast Mineral and Other Resources is Required.

EDITOR STAR—Sir: For the last month I have had an exhibit of ores from the Similkameen in the Tourist Association windows in this city and it has put me in touch with the people, and I find there is need of work to give more publicity as to what we have to offer capital. The old timer here knows the Similkameen but the new man is the one who is putting out the money in mines and many of them do not know the Nickle Plate mine and Princeton coal fields are located so near Vancouver.

Have Got the Goods.

The motor road over Hope mountains will prove a great help for us in an investment way, for the man with the car is the one with money to mine and our camps will be in easy reach. I had a card that read: 'The Similkameen from Nicola to the Okanagan has more varied mineral possibilities than any like area in the province.' I was challenged, but made good. On the top of a pyramid I had 3 blocks of coal, lime and shale marked 'Raw material, B.C. Cement Co., Princeton, B. C., all from 1500 feet of ground.' It drew attention. Next came Princeton domestic coal, sub bituminous, then coal and coke from Nicola Coal Co., marked 'Coke lowest in sulphur and 2nd for strength in North America' and I had the papers to prove it. Next came the ores, platinum, gold, silver, copper, zinc, iron, graphite, antimony, gypsum, lime, fire clay, last of all, Epsom salts from the Bitter lakes, inscribed, 'if in doubt, try them.' The papers gave some space but some of them found it easier to write of 'Bulldog' Brown than the rocks. People here take much interest reading my Star and Hedley Gazette. Could you send me extra copies of Star for distribution.

Yours truly,
H. 'BULLDOG' BROWN.

THE LYCEUM PLAYERS.

The Lyceum Players will give a comic and dramatic entertainment in I.O.O.F. hall next Wednesday night, Feb. 8. In the cast of this company Walter McRaye will appear in tabloid drama and Habi tant Stories. He is a general favorite with playgoers and presents wholesome amusement. The young and beautiful Miss Hunt sings soprano sweetly and Miss Noxon has a genuine talent for comedy. Sig. Romanilli is a marvel harpist.

$2,000,000 IN THE DEAL

Voigt's Camp Transferred to Boston People, of Vast Local Benefit.

Will Soon Smelt with Coal Gas and the Coal is Here—Coal in Big Demand.

E. F. Voigt has virtually concluded his big deal for Voigt's camp, Copper mountain, involving $2,000,000 and a smelter in vicinity of Princeton.

German mining engineer says that zinc ores of this province will shortly be smelted with gas made from eoal screeuings.

The Princeton Coal & Land Co. are working full force at their mine and producing to the limit of capacity. A large number of orders are always on fyle and the payroll numbers some fifty workingmen.

During the year 1910 the mineral production of British Columbia amounted to $26,183 553, showing a steady increase and the largest yearly output on record.

Steamboat camp is said to have ore which is the cheapest treated and a good profit can be made on $5-ore.

W. C. McLean, local manager of the Osoyoos coal mine, is increasing the output and this week he ships a carload of 'All-Coal' to Hedley, the market gradually widening as the fuel becomes known to consumers. Through Mr. McLean's energy and business acumen considerable money has been diffused in town by the employment of men and teams.

J. E. McCauley is reported to have formed a new company to work the Reco. He is expected from Spokane tomorrow.

WHAT DOES IT MEAN?

The Kettle Valley railway has been located to Missoula lake, which gives another 30 miles to the contractors for grading. Survey work on the west end has been closed down for the present but grading will continue vigorously all winter. It is too soon to predict when the K.V. will be in Princeton but it is a great satisfaction to know that it is coming 'right smart,' and without the child's play methods which characterize the construction of the V., V. & E. Railroad men now say that the Kettle Valley line will give Princeton first direct rail connection with the coast. A party of K. V. surveyors arrived in Keremeos today—what does this move mean?

F. P. Cook was down from Granite last week. The report that Welldo was sold to a German prince on which to establish a sauerkraut factory is denied.

The Similkameen Star.

No transient advertisement inserted unless accompanied with the cash.

THE WEEKLY GRIST

The hospital is being put in shape for the reception of patients by Nurse Thomas and Orderly C. Crisfield. It is expected that a formal opening will be arranged for soon.

Messrs. Cross and Marston of the B.C. Cement Co. arrived from Spokane today.

'Judge' Wood arrived from Spokane yesterday where he had not been for 15 years. He was surprised at the growth and the tall buildings, whew! they just natcherly break a fellow's neck looking to the top. He saw Col. Robert Stevenson, Sam Pearce, Jim McCauley and left C. O. French doing some effective missionary work with a reporter of the Spokesman-Review.

W. C. McDougall and J. F. Waddell have returned from Vancouver.

Hugh Campbell, through a fall, sustained fracture of ribs. He is able to be about and a host of old tillicums hope that he may long continue so.

Board of trade meets Monday night at 8 in court room.

Plan of hall and tickets for Lyceum Players at Willarson & Co's.

Claud Snowden knows the mountains of this district thoroughly and has never seen big game more plentiful at this time of the year.

Jim Cameron has returned from the Kettle Valley locating survey party, disbanded until early spring, when he will rejoin as packer.

Nurse Thomas has arrived from Vancouver and will enter upon her duties at the hospital from the 1st inst.

Dr. Jackson, dentist, arrived yesterday and will be in Princeton for a few days to attend the needs of patients.

WATER NOTICE.

Notice is hereby given that an application will be made under Part V. of the 'Water Act, 1909,' to obtain a license in the Kamloops Division of Yale District.

A. The name, address and occupation of the applicant, Robert Wilfrid Allison, rancher, Princeton, B.C.

B. The name of the lake, stream or source is Summers Creek.

C. The point of diversion is on Lot 819, close to south boundary.

D. The quantity of water applied for is two cubic feet per second.

E. The character of the proposed works is a ditch.

F. The premises on which the water is to be used is Lot 964.

G. The purposes for which the water is to be used is irrigation.

H. If for irrigation describe the land intended to be irrigated, giving acreage: Fifty acres on the north end of Lot 964 and on east bank of Onemile Creek.

K. This notice was posted on the 9th day of January, 1911, and application will be made to the Commissioner on the 13th day of February, 1911.

L. Give the names and addresses of any riparian owners or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet: P. E. Rowlands, Princeton, B.C.

LOCAL AND GENERAL

Hugh Kennedy recently gave the Ross land Miner a long interview regarding the Similkameen, in which he predicts a big boom this coming summer.

The A. E. Howse Co received a carload of hardware yesterday. The big store is a hive of industry these days.

The solid mahogany Westminster chime clock presented to Mr. Marlow by the citizens of Princeton was procured from L. T. Joudry, jeweler, who makes a specialty of presentation watches, clocks jewelry, etc.

Warren S. Stains is installed at the Great Northern depot as operator and one of the army of assistants to Jim Hill. Mr. Stains is also a member of the fourth estate.

Did you say you wanted an Oliver type writer? See McCurdy about one. *

Preliminary notice is given of the play and dance to be given in the I.O.O.F. hall, Wednesday, Feb. 22nd. when the farce, 'Pepperbox, or the Area Belle' will be presented. Admission 50c. Proceeds to be devoted to the funds of St. Cuthbert's church.

Pump, in good working order, for sale cheap. Enquire at Star. †

Const. Ewart returned last week from Kamloops and the coast, whither he had taken in custody persons committed to his charge.

See the hockey match Saturday at the Owl.

Advertisers and others will kindly forbear if Star is somewhat slow. It is not easy to get a printer, besides the 'devil' is getting old and fingers a little stiff.

NYAL'S

One kind friend told another kind friend that

Nyal's Face Cream

was the best preparation to use on the face and hands; that is why there is such a demand for it.

Greaseless and dries into the skin without a trace.

Large and Small pots.

BIG WORKS PLANNED.

From First Page.

every particular the conditions are especially favorable for the establishment of a highly profitable coal mining enterprise on a very large scale. The Vancouver underwriters sent in their own expert to go over the ground and his report entirely corroborated the statements made in previous reports on Princeton Collieries' holdings.

A start has been made on the actual underground development of the colliery. The work is under the personal supervision of J. F. Coats, M.E., a Pennsylvanian of experience in the great coal industry of the eastern field. The extended program of development and equipment under which the property will be opened up is the work of R. H. Morris, M E., also a coal mining engineer of ripe experience in eastern and western coal fields. Conditions at the property are most favorable for economical operation, and the engineer's aim has been to promote and facilitate this object to the greatest degree.

The development of this remarkable coal field has been retarded for many years because of the lack of transport. This has been remedied by the extension of the Great Northern railway system whose line crosses the company's properties, and will be further solved by the construction of the Kettle Valley railroad, which will cross the property, and, it is said, will be completed into Vancouver this year.

Princeton Collieries, Limited, will have an exceptionally wide market for its product. Over the Great Northern line an entrance is effected to the populous districts of eastern Washington, where there is an enormous consumption of domestic coal, increasing annually by leaps and bounds. This fuel supply is now drawn from mines in Montana and Wyoming, in large part the railroad haul being very great as compared to the haul from Princeton. With the advantages of excellent quality, much shorter haul and low mining costs the Princeton coal will have an almost impregnable position in the vast market of eastern Washington. The same railroad affords entry to the Canadian Boundary market. Over the Kettle Valley line the Princeton Collieries will secure an entrance to the Vancouver market.'

MODERN WOODMEN OF AMERICA

Meetings second and fourth Wednesdays, in the Similkameen Hall.

Visitors welcome.

BOUNDARY ADVERTISING.

The newspapers of Phoenix, Grand Grand Forks and Greenwood have adapted the follcwing scale of prices for legal advertising for the year 1911:

Application to purchase land notices, 60 days, $7.50; Certificate of improvement notices, 60 days, $7.50; Delinquent co-owner notices, 90 days, $10; Water notices, 30 days, $15.

All other legal advertising not included in the above, 12 cents per single column line for the first insertion and 8 cents a line for each subsequent insertion.

THE PHILOSOPHY OF LIFE.

'Twould save us a vast many squabbles and cares If we'd trouble our heads with our own affairs.—Eliza Cook.

Not content with self-important criticism, sneering and a stab at the reputation of their superiors, knockers even try to knock one of their own profession. Instead of looking for the good in their neighbor they search with infinite pains for a fault and then proceed to peddle it about. These are the excresences on the face of humanity.

There is no place in the scheme of things for the disagreeable man or woman except to serve as a warning for others not to become so.—Herald.

CHURCH SERVICES.

St. Cuthbert's Church—Rector, Rev. A. E. Bruce. Services—Morning prayer and holy communion at 11 a.m., 1st and 3rd Sundays in the month; morning prayer and litany, 4th Sunday. Evening prayer every Sunday at 7:30 p.m. Mr. Bruce officiates at Granite second Sunday in month.
