Princeton coal is 'king;' 800,000,000 tons of it.

SIMILKAMEEN STAR

Lift, love and keep sweet: Motto for 1910.

Everything points to Princeton being a divisional and junction terminus of the V., V. & E.; it is the natural converging centre for rivers, roads and trails and its location is admittedly the choicest in the Similkameen Valley as a distributing point—Buy now.

Vol. XI. No. 2. PRINCETON, B. C., WEDNESDAY, JANUARY 5, 1910. $2 a Year in Advance

THE MINING WORLD

First Carload of Coal Direct from Colliery — Deer on Whipsaw.

Plans for Development Work on Friday Creek — Reco Steadily Forging Ahead.

Billy Knight came in from Whipsaw last Friday to attend the masquerade ball in his role as musician. He reports work on the Lucky Pair making good headway and expects to tap the lead soon Deer are very plentiful, wandering about in large herds in the Whipsaw basin Mr. Knight will remain in town a few days on a well earned holiday, returning to his camp for the winter.

The Granby Mining Smelting & Power Co., has declared another dividend of 2 per cent. and $270,000 will be disbursed in this way.

Col. Stevenson is making good progress with the development work on his mineral property opposite Holmes' flat He has about a dozen men at work and hopes to be shipping soon. The mine is located along the V ,V. & E.

E. E. Emmons, M. E., of Vancouver, was in town last week on placer mining business. He thinks this district wonderful in mineral possibilities. Mr. Emmons will return here again soon and intimates that he has clients who are prepared to build a smelter if a site can be procured near the proposed coke works at Granite creek or Welldo.

Gunnysack Murphy, aged 47 years, died in Cranbrook from pneumonia. At one time he owned a group of claims near the Bayonne mine in Cootenay.

Screened coal is now sold by the Vermilion Forks Co. at the mine for $4 per ton, which, with the livery charge of $1 per ton for delivery in town makes the total cost $5. The former price was $3 per ton for unscreened or 'run of mine.'

E. P. Galliac is now drifting for the main coal seam on the United Empire. The new low grade road to the Princeton-Hedley trunk road is about complete.

Work on the Reco, Copper mountain, is progressing favorably and must soon reach the main lead. Some very fine ore has been obtained in the tunnel. Mr. McCauley is deserving of the best results for his perseverance under most perplexing conditions and circumstances. The Reco is known to be of high values and must prove a moneymaker when once the lead is worked.

The Vermilion Forks Co. shipped their first carload of coal from Princeton colliery last week, since when there have been steady shipments made. The industry resulting from coal found here will make Princeton a great mining center and famous for its splendid quality of domestic fuel.

It is understood that freight rates on coal to Spokane are $2.50 and to Keremeos $1.50, Hedley $1.15, other points proportionately.

Petroleum is believed to have been struck in the neighborhood of Sumas and Abbotsford.

Plans are being made for 500 feet of tunnel work on the Columbia Copper Co's mining property on Friday creek The work is expected to begin in the early spring and when completed will put in sight a million tons of ore.

Roche river, Friday creek and Whipsaw offer a large tonnage for any railroad that will give them transportation.

GRAND MASQUERADE BALL.

Excellent Characters, Fine Costumes and Pleasant Time.

On New Year's Eve, December 31 was held the annual Princeton masquerade ball. Shortly before 9 o'clock the ball opened and a large crowd quickly assembled. Sam Gibson was floor manager, and proved an excellent one. Shortly after, the Grand March of Masks began In this a large number of couples participated. Among the best costumes were a Mephistopheles, a nun, several good Scotch costumes, an Indian, and two clowns, whose antics kept the whole crowd in an uproar. After the unmasking, the dancing continued.

From 11:30 to 10'clock supper was served in the three hotels and the Semerad restaurant. About three hundred people were served. After this the dancing continued until about 5 A.M. A pleasant time was reported by all.

A large crowd were present from Hedley and Keremeos, and also many from Granite and Otter Valley. Among these were some of the best costumes.

Excellent dance music was furnished by Mr. and Mrs. Coulthard, Mrs. Lyall and Billy Knight, and Mr. Forsyth rendered several good pieces on the bagpipes.

The ball this year is admitted by all to be the best event of its kind ever held in Princeton.—COM.

TIME TABLE ON V.,V. & E. FOR PRESENT SERVICE.

The time table now in use on the V., V. & E. is as follows, the trains connecting at Oroville for the Boundary and Spokane:

Leave Keremeos for Hedley and Princeton, at 10:30 a,m., arriving in Hedley at 11:30 and Princeton 1 p.m.

Leave Princeton for Hedley and Keremeos at 2:30 p.m., arriving at Hedley at 3.30 and Keremeos at 4:20.

A direct service without layover at Oroville will, no noubt, be installed soon. H. A. Cook is agent at Princeton.

LOCAL AND GENERAL

Brass Band to Arouse Spirits and Tickle Ear of the Citizens.

Shooting Accident, Without Serious Injury as Yet—First Freight from Vancouver.

District Traffic Manager Kistler, of the Great Northern, was in town yesterday on official business.

J. O. Coulthard is trying to organize a brass band in Princeton, the instruments to belong to the town, and the funds for these to be raised by the citizens of Princeton. Mr. Coulthard has volunteered his services as leader. Everyone here knows his ability as a musician, and he

George M. Heinekey, recently from Victoria, originally from Dublin, Ireland, has accepted a position in the office of the Vermilion Forks Co.

Many friends will regret to learn of the death of Mrs. Alfred Allison in Kamloops on the 3rd inst., after a lingering illness. To the bereaved ones Star extends full sympathy.

School reopens next Monday, the scholars having had a very pleasant holiday season.

School and all other taxes are now payable for the year 1910.

Board of Trade meeting next Monday night at 8 o'clock in the court house.

The following officers of L.O.L. No. 2102 were recently installed: C. L. Cummings, W.M., reelected; P. Russell, R. S.; H. H. Avery, jr., F.S; W. Wilson, D.M. New members are being added continually and the lodge gives promise of much usefulness and popularity.

Born—On the 27th ult., the wife of Walter Martin of a son.

Boost and bustle—don't knock individuals or things.

J. F. Waddell is regaining his health after a long spell of [illegible] and medical treatment. H[illegible] wish him speedy recovery [illegible] dell's mother, brother and aunt are on a visit to his home, having come fro[illegible] Manitoba recently.

C. R. Westgate, a Montreal mi[illegible] capitalist, was in Princeton last w[illegible] He was pleased with the mineral outl[illegible] and took samples. He will return ag[illegible]

BUILDING PROSPECTS FO[illegible] COMING YEAR.

A number of buildings are pro[illegible] tor the coming mon[illegible] being promised for carpenter[illegible] ers. Recent zero weather a[illegible] days have slowed down buil[illegible] tions until there is scarcely t[illegible] a hammer in the town. Bert Irwin has finished two neat cottages recently for the Vermilion Forks Co. and Wilson Bros. will soon have the large livery barn, owned by F. P. Cook, ready for Huston Bros., liverymen and lessees. A lot of building is planned for the V.,V. & E. but the wintry weather has delayed progress. Spring will witness an old fashioned western building boom, or else all signs must fail.

ANNUAL STATEMENT BANK OF COMMERCE.

The Canadian Bank of Commerce, always in the forefront of financial institutions and the most progressive banking concern in the Dominion, has issued a statement of the result of the business of the bank for the year ending the 30th of November, 1909, as under. The branch here is popular and gives the public satisfaction, under the courteous and efficient control of Manager Marlow. The bank is a welcome factor in the development of Princeton district and has a prosperous future in store:

Balance at credit of profit and loss account brought forward from last year...$	161,244 88
Net profits for the year ending 30th Nov. after providing for all bad and doubtful debts.....	1,510,695 86
Recovered from over appropriations in connection with assets realized.	300,000 00
	$ 1,971,940 74

This has bsen appropriated as follows:

Dividends at 8 p.c. per an...$	800,000 00
Written off premises.....	419,801 72
Pension fund (annually)....	30,000 00
Balance carried forward....	722,139 02
	$ 1,971,940 74

Legal notices 10 and 5 cents per line.

Four weekly insertions constitute one month advertising.

No transient advertisement inserted unless accompanied with the cash.

ADVERTISING IS SPIRIT OF THE AGE.

The holidays are over and everyone has set sail with the prospect of a fair and prosperous voyage on the sea of life during 1910. With the continuous shipping of coal by rail, so recently begun, the nucleus of a great mining camp has been established. The all important payroll is now a fact, small at first it may be, yet giving evidence of most probable expansion For, it is beyond all question that the mineral surroundings of Princeton are sufficient to sustain a large population. Without straining the optimistic faith born of experience and years of calm calculating when the tendency of the times was depressing, Star has neither hesitation nor reservation in stating that no other town has as bright future as Princeton. Nature has provided everything that makes towns and cities. Coal, ores, placers, agriculture, timber, unlimited water power and superb climate, the eternal snow capped sierras of the Cascades, the everlasting hills beautiful and rich, big game, fishing and shooting, all combine to make this place attractive for homeseekers and inviting to investors. But, with all these inducements, it is possible to stultify and retard growth by a lack of public-spiritedness and indifference on the part of citizens. The wor'd must be made aware of our own confidence in the abundant latent wealth of resource and alluring prospect. The universally recognized medium through which a people express their faith in the present and future of their town and district is the local newspaper. By their support of it in paid advertising and subscriptions they tell the world that they have faith in their town and co[illegible] oth[illegible] trade, business and superior advantages which by right are ours, to drift otherwhere. No valid excuse, therefore, can be offered for withholding advertising patronage to the home paper. Many thousands of dollars have been spent on the upkeep of the Star since its birth, without which Princeton and district would have remained an unknown, uninviting land. The publicity afforded through its columns has been, and is, of direct benefit to every person in the town and district. The consistent advertising of a few is sincerely appreciated and while they have sown the whole community, including the non-advertiser, has reaped the benefit. Some who have been continuous advertisers since the Star first emitted light now think that the burden of maintaining a local newspaper should be distributed more generally. Nowhere in the world is there a newspaper run with as little expense as the Star with its payroll of one. It has never been able to increase its staff or the number of its pages for want of more liberal support. As soon as the people respond to this call an enlarged staff and paper with better reading matter will result, along with a well equipped job plant. If, however, there should be no interest manifested even its present precarious existence may terminate as suddenly as that of our late lamented cotemporary at Keremeos. But the future prospects of Princeton and district are so bright that everyone interested in the country will be glad to have the Star continue, even with all its imperfections, failures and errors of composition, judgment, and many other of the frailties to which poor humanity is heir. Star will be pleased to receive a big bunch of new subscribers and settlement in full of long overdue accounts for advertising, subscriptions and printing. It is the aim of the manager to have subscriptions fall due on the first of each year, running with the current volume of 52 numbers.

NOTES AND COMMENTS.

One of those events which beclouds a district and reflects unfa[illegible]rably upon the progressiveness [illegible]mmunity was noticed last [illegible] death of the Keremeos [illegible] Lack of support on the part of those who were able and [illegible]ught to have given it resulted in [illegible]angulation. The Chronicle was [illegible]editable publication, faithful and [illegible]al to the interests of the people [illegible]erved—but it was not appreci[illegible]d. It will be many moons be[illegible] Keremeos is again as well [illegible]d. Bro. Brown will now turn [illegible]ttention [illegible] fruit culture, a [illegible] pleasant and independ[illegible]ition. May the blossoms [illegible]herry, the apple, the plum [illegible]peach never fail him.

Dec. 29, 1909 is the centenary of the birth of Gladstone, the great Liberal statesman and orator, and his admirers here will endeavor, in some fitting manner, to remember the occasion.

Star would gladly publish names of all in attendance at the masquerade ball but the printing committee did not provide a list—this is a gentle reminder for next year.

A young Austrian now lies in the lockup with both legs wounded by a bullet accidentally hitting him while passing within range of a rifle being discharged by a friend at a mark. The bullet penetrated above the knee, lodging in the other leg, where it was located and extracted. The patient is doing well and no serious results are anticipated. Using the lockup for the patient is a reminder of the necessity for a hospital.

Work on the coal property west of Midway, has been going on uninterruptedly since September 1, with very gratifying results.

COPPER HANDBOOK

(New Edition issued March, 1908.)

SIZE: Octavo.

PAGES: 1228.

CHAPTERS: 25.

SCOPE: The copper industry of the world.

COVERING: Copper history, geology, geography, chemistry, mineralogy, mining, milling, leaching, smelting, refining, brands, grades, impurities, alloys, uses, substitutes, terminology, deposits by districts, states, countries and continents, mines in detail, statistics of production, consumption, imports, exports, finances, dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book on Copper.

The miner needs the book for the facts it gives him regarding geology, mining, copper deposits and copper mines.

The metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelting and refining.

The copper consumer needs the book for every chapter it contains It tells what, and explains how and why.

The investor in copper shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

PRICE: $5 in buckram with gilt top, or $7.50 in full library morocco.

TERMS: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it DA[illegible] Can you afford not to see the book and judge for yourself of its value to you?
