SIMILKAMEEN STAR

Think all you speak, but speak not all you think.

In the centre of a vast ore and coal producing district, where the soil and climate do not despise the big rosy apple or the succulent berry, stands pretty Princeton, which nature has designed as a great distributing point—No social class distinctions here, the simple life prevails.

THE BOARD OF TRADE

Ore Samples in Urgent Demand for Display at the Expos.

Resolution Urging Necessity of Good Mineral Displays — Better Court Facilities.

At the regular meeting of the Board of Trade Monday evening there were present Messrs. Avery, Brown, Conn, Groffman, Murdock, McDougall, Marlow, Wyllie and Wright.

Communications were read from H. B. Brown, Bulldog Mines, Hedley, re collection of ore samples for the Expo at Vancouver on the 15th to 20th insts., and at the Provincial Exhibition to be held at New Westminster October 4th to 8th. Mr. Brown stated that the Traffic Manager of the Great Northern Railway Co. had made him a proposition to collect such ores as might become tonnage producers. He will visit the best camps in Princeton district and endeavor to procure large samples.

From L. K. Armstrong, Superintendent of the mineral department of the Spokane Inserstate Fair, saying that he would be very much disappointed if advantage was not taken to advertise the mineral resources of Princeton and district and thus secure the necessary capital to develop and produce. The Fair will be held from October 3rd to 9th.

From Heaton's Agency, Toronto, asking for revision of the writeup of Princeton as it appeared in the Commercial Handbook of Canada, 1910 edition.

The Board passed a resolution urging residents generally of the district, mine owners and prospectors in particular, to contribute mineral samples to be placed on exhibition at Spokane, Vancouver and New Westminster fairs. With the combined efforts of everyone interested in the progress of Princeton and district it is hoped that a good, representative display of ore will be forthcoming.

The Board recognized the importance of a horse and cattle fair being held in Princeton in the Fall and endorsed the movement now being made for that purpose.

A reminder was tendered the Board in regard to the action already taken for the erection of Dominion public buildings and the necessity for continued vigilance in relation thereto, especially as the next session of parliament now approaches.

The question of holding county court quarterly instead of half yearly as at present was discussed by the Board and the secretary instructed to write registrars in Okanagan for information.

Board adjourned.

CEMENT CAPITALISTS

Visit of Large Stockholders to Property Located Near Town.

Plant will Cost Quarter of Million : Initial Output 1000 Barrels Per Diem.

L. W. Shatford, M.P.P.; John George, capitalist; J. A. Harvey, K.C., and L. W. Stone, financier, made up a quartette of heavyweights arriving by Crockett's fast auto line last Wednesday. Business of importance necessitated a quick run, the magnates covering the distance from Vancouver in about 15 hours of actual travelling time, coming via Spences Bridge and Merritt. Ordinarily, this route requires nearly two and a half days' travel, so, it will be observed, the coast is gradually drawing nearer to the Similkameen.

The party came to look over the property of the new formed company to manufacture Portland cement in the suburbs of Princeton. All the gentlemen are interested financially in the proposed works which will involve an outlay of $250,000.

It is understood a sawmill will be put into commission to supply the lumber for erective purposes and for mining.

Certificate of incorporation will shortly issue, when further particulars of public interest will be known. It is stated that the initial plant to be erected will have a capacity of 1000 barrels of cement per day, to be doubled as the market demands. A spur will be built from the main line of the Great Northern to the works, abont a mile and a half.

The establishment of this large industry near Princeton means much for the town and district. The large payroll and the cheaper cement for building purposes are factors of great importance to a growing town such as Princeton is.

POPULAR AND SUCCESSFUL.

The member for Similkameen riding during his short visit to this portion of his constituency last week inspected the public works being carried out by Supervisor Turner. Princeton and district have no cause for complaint in the matter of road appropriations, Mr. Shatford having lived up to his pledges and all present and prospective improvements will be carried out. His interest in the welfare of this district is manifest by the splendid appropriation of $2000 he obtained from the government for the hospital and his own generous donation although a non-resident. Mr. Shatford is a director of the new bank of Vancouver besides having large investments in various companies and private enterprises.

DALLYING WITH TIME

President's Procrastinating Policy Building Railway to Coast.

Slow Methods have Characterized V., V. & E. Construction All the Way.

As to the truth of the report that all work would stop on the railway between Princeton and Tulameen as soon as the grade was completed 1st October, there are no means of verifying. If it should be true and the final completion of the railway to the coast be delayed in consequence there will be a strenuous howl of objection offered from one end of the province to the other. It is easy for a dilatory railway president to manufacture spurious excuses for delay in construction, but he will find it hard to convince the people of their genuinity Must the Similkameen and the whole of southern B.C. languish in the throes of business depresssion, see its enterprises killed and development delayed because some railroad autocrat wants to play a waiting game? Star warns President Hill that he is playing with Greek fire and inviting both opposition and competition by his dallying policy.

Three coal companies and a large cement works are looking forward through their officials to the early completion of the V.,V. & E. The market for their products is largely dependent on this road.

The Nicola Valley News says that railway contractors on the Kettle Valley line would put 1000 men to work if they could get them.

J. F. Floyd is at work in Coquihalla Pass with a survey party trying to reduce the V.,V. & E. grade.

TOWN AND DISTRICT.

C. O. French was suddenly summoned to Spokane today on a large mining deal.

'Davy' Crockett's anto line has adopted the motto: 'Be sure you're right, then go ahead.' He is usually right and goes ahead some, as passengers testify who travel to Merritt with him.

Gordon Murdock has finished China creek bridge, and has made a very substantial job of it.

Arlington Briars, an English pipe, in 18 styles, 75c. †

From World: A company known as the Columbia Coal & Coke Co., on Granite creek and Tulameen river, has finest bituminous coal of which there are estimated 100,000,000 tons. A town will be laid out named Cardiff. Coking ovens will be installed and plant to mine 2000 tons of coal per day.

COPPER HANDBOOK

(New Edition issued March, 1908.)

SIZE: Octavo.

PAGES: 1228.

CHAPTERS: 25.

SCOPE: The copper industry of the world.

COVERING: Copper history, geology, geography, chemistry, mineralogy, mining, milling, leaching, smelting, refining, brands, grades, impurities, alloys, uses, substitutes, terminology, deposits by districts, states, countries and continents, mines in detail, statistics of production, consumption, imports, exports, finances, dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book on Copper.

The miner needs the book for the facts it gives him regarding geology, mining, copper deposits and copper mines.

The metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelting and refining.

The copper consumer needs the book for every chapter it contains. It tells what, and explains how and why.

The investor in copper shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper miuing shares.

PRICE: $5 in buokram with gilt top, or $7.50 in full library morocco.

TERMS: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?
