Like Wheat, Princeton Coal Commands a Market.

# SIMILKAMEEN STAR

Truth Never Dies, It is the False which Perishes.

Princeton Does not Need a Booster Club; Its Resources, Its Climate, Its Scenery Speaking in Tones Unmistakable and with a Descriptive Power no Writer can Approach—All Roads and Trails Lead to Princeton—Rails will be laid here in few months.

Vol. X. No. 16. PRINCETON, B. C., WEDNESDAY, APRIL 14, 1909. $2 a Year in Advance

## VALUABLE ORE.

### Copper Mountain Again Shows Up Splendid Sample.

If any mining man or prospector had any preconceived notion that high grade copper-gold ore could be found only in far-off Spain, Mexico, or Butte, he may have his delusion exposed by seeing the latest strike on No. 4, Copper Mountain, development work on which has now reached a shaft depth of 70 feet and the work advancing steadily with the force employed by E. F. Voigt.

No. 4 is located west of Voigt's Camp, toward the Mountain proper and within the zone which has now added fresh fame to the widely known Copper Mountain, with its many hundreds of mineral claims. The sample shown is from a lead which outcrops 180 feet wide and runs 85 per cent copper, and gold, $73. The ore consists of chalcopyrites and copper glance the formation being lime.

It is fully believed that as in the case of ore of this class in other camps and particularly at Butte, depth will show a greater purity of glance deposit. Whatever conditions are met with in developing, thus far the ore has increased in value as depth was obtained.

For exhibition purposes this ore is so subject to oxydization that it cannot be displayed and preserved in all its native prettiness and form. An effort, will, however, be made to have a sample on view at the Alaska-Yukon-Pacific Exposition in Seattle. In the reward which Mr. Voigt seems now about to annex, it has come by patient and enduring struggle. May he long enjoy it.

## BASEBALL SEASON ON.

Princeton ball players have had a little warming up on the Diamond, and feel confident that they can win the Similkameen Valley Championship this season if they are given any kind of support from the people that benefit from these public holiday exhibitions.

The boys should appear in uniforms, like other teams in the valley, and their base ball equipment should be replenished.

Miss Wells, who has been visiting with her sister, Mrs. A. J. Marlow, for several months past returned to her home in Kamloops last week.

Mrs. Peter Swanson left for the coast by the Nicola stage last Thursday, to visit relatives and friends for a few week.

The Hotel Tulameen has received a new coat of paint which adds greatly to its appearance.

Curly Poterson, of Camp No. 6, spent a few days in town visiting with friends, last week.

Rev. A. M. Miller, chairman of the Methodist Okanagan mission field, was in town Monday, visiting Mr. and Mrs Pyman. He is much impressed with the beauty and advantages of Princeton.

# MEMBER ON A TOUR

### Inquires Into Needs of Localities with View to Making Road Improvements.

### Road from Main Trunk Highway is to be Graded and Shaped for Heavy Traffic.

Last week L. W. Shatford, M.P.P., made an official tour of this end of his constituency, being accompanied by Road Superintendent Deardoff. The member stated that his visit was for the purpose of personally studying the wants of the various localities, upon which he would frame estimates for roads or other improvements. This preliminary trip will be followed shortly by another in which the actual works will be undertaken and appropriations used.

Mr. Shatford was successful in obtaining the respectable sum of $60,000 from the House for Similkameen electoral district. With this money fairly apportioned Princeton and adjoining sections will not have cause to complain. Urgent new roads and important repairs are needed, some of which the member has definitely stated he will have done. If one considers the large following which he has here and his repeated majorities at the polls it is a matter of some wonder that so little has been done where so much remains to be done in public improvements. 'Gratitude for mercies received' should be always acknowledged and the representative who fails in this duty will soon lose the confidence of his supporters.

In a week or so work is expected to begin on the road leading through town and which may be considered a part of the Copper Mountain road leading from the main trunk road at the Tulameen bridge. This work has been a long time urged at public meetings and in the press. Its proper completion will redound to the credit of all concerned and remove an outstanding grievance.

## IMMIGRANTS COMING.

W. D. Scott, superintendent of immigration, has been abvised by W. J. White, inspector of United States agencies, who is now in Spokane, that the prospects for immigration from the Pacific coast states to Canada are excellent. He says that the Canadian immigration office at Spokane is now crowded with land seekers and their families who are anxious to get land in Canada. For the first three months of this year, 1260 left for Canada, an increase of 50 per cent over the same period of 1908. There has been an increase of over 10 per cent in the amount of settlers' effects shipped into the dominion.

# THE COPPER MARKET

### Fluctuating Prices are Expected Until Demand is Strengthened.

### Another Copper Famine Predicted in Next Two Years--Surplus Copper Going.

A dispatch from Boston says that the United Metals Selling company during February sold between 100,000,000 and 120,000,000 pounds of copper.

**Copper Situation Will Grow Better.**

The bulk of the deliveries will probably be made before Sune 1st. When the Copper Producers' association makes public its statement covering the current month it should show a big reduction in stocks in producers' hands.

It is stated that contracts entered into for the account of American manufacturers greatly exceed general estimates. An officialcof one of the agencies handling over 100,000,000 pounds of copper a year says that of his company's recent heavy sales fully one half were for home consumption.

There continues a fair demand Lake and casting copper; the former grade is obtainable at 13⅛ cents a pound. The The producers of Lake have much of their production taken each year taken by regular customers who, although not running on full time, are taking goodly quantities each month.

**Copper Buying Seems to be Srtonger**

Concerning copper production and consumption the Wall Street Summary says:

The selling agent oi the largest copper producing interest state that most of the western and southwestern producers are well sold up for prompts and are fairly well engaged for futures.

The largest Arizona and Mexico copper mining interests report that their sales within a few days have been well up to the tonnages disposed of in the season that marked the earlier stages of the last boom. One of the southwestern producers has unfilled orders for 26,000,000 pounds of copper to be shipped within a month. Nearly all the producers and consumers believe that prices for electrolytic will waver for a few weeks between 12⅞ and 13¼ cents a pound.

**Says Copper Situation is not so Bad.**

Horace J. Stevens, author of Copper Handbook, takes an optimistic view of the copper situation, although he admits there is no prospect of immediate relief. Mr. Stevens recently said:

"In my judgment, the situarion is not so black as many imagine. There is a considerable accumulation of unconsumed copper in this country and abroad, but return to normal business conditions in the United States will absorb this surplus quite rapidly, and all things considered, I think the cut in price was the part of wisdom, as it will be the better for the metal market to pass into actual use, at reduced prices rather than to pile up furthur.

"From my reading of the statistics of production and consumption, I am led to anticipate another copper famine—or what will be called such—probably within the next two years, as the world's increase in output has been much below normal for three years past. This will mean another great big boom, followed by another smash. It is the same old story over and over again, world without end."

## GRANITE CREEK NEWS.

### Gold Dredge to be Replaced by One of Greater Capacity.

(From Our Special Correspondent.)

Roy Cannon, who worked in Granite Creek last summer for awhile, came in the first of last week and took the greater part of the dredger outfit. The dredge is to be shipped to the northern part of Vancouver island for immediate use. Mr. Cannon stated that the dredge was too light for the work here and that a larger one would replace it in the near future. We earnestly hope so.

J. W. McCann has got back from Spokane and intends to go up Newton creek in a few days to continue work. He has been suffering from a severe attack of la grippe but is very much improved.

C. Debarro and J. Amberty have started active work up the creek where they are driving a tunnel.

Word comes from Otter Flat that Mr. Henderson, of the Otter Flat hotel, is much improved in health. His son Austin, leaves the first of the week to take a position in a Vancouver bank. A stag dance was held at the Granite creek hotle, on Tuesday, April 6th, among those present being R. Cannon, Seattle, W. Garrison, Princeton; B. S. Wilson, Frank Sophie, Keremeas; T. Murphy, D. Ross, P. Russel and R. R. Lawrence. L. Marcotte the geniel host, did the honors.

The leaves are coming out on the trees at Welldo and the soup spring is merrily bubbling.

The Princeton milk dairy, Gordon Murdoch, proprietor, has installed a swift delivery for their customers, the milk buggy supplanting the old style hand method. It is another evidence of the revolutions of the wheels of progress in town.

The Ladies Aid will meet at the home of Mrs. A. J. Marlow.

Max Wilson and wife arrived from Chilliwack last week and will reside here.

A number of strangers have arrived in town recently, looking at real estate.

## NOTES AND COMMENTS.

Luther Burbank, the plant wizard, has now 517 distinct varieties of plums with which he is experimenting, any one of them, he believes, superior to any now known to the world. Will he be good enough to now turn his attention to political plums, by which every constituency, or part of it, will receive its just apportionment of money without having to barter its independence? A plum for Princeton in the shape of a telephone exchange would be very acceptable and proper.

At least one act of real statesmanship will live in our memories and that is the manifest earnestness of the member for Similkameen riding to leave something in return for the taxpayer's good money and which he proposes shall be the improvement of the road between the two rivers from bridge to bridge. Many a footsore and eyesore person and the tugging, stumbling horse, will welcome the member's proposition.

Have we seen the last of Joe Martin in his recent departure for England? A political exile from his country, sour and disappointed. Not a tear drop or a sigh follows him. Well, that is the reward of a man who will not try to make friends. Good-bye, Joe. With all your faults, the Star extends best wishes.

Athletic grounds are a necessity in every large or small community, for, it is physical recreation and healthy amusement which lay the foundation for a sound mind. The young and growing bodies of boys and girls are never so healthy as when in sport their energies are allowed vigorous play. Then the adults must also have athletic enjoyment, for all work and no play would produce a lot of dullards. So the evidence is overwhelming or the providing of such ground or field where sport may be held. Princeton is sadly deficient in these requirements. Some steps should be taken to secure good grounds before some of the available flats or benches are in the hands of the speculator. An Athletic Association would give form and purpose to any project for the encouragement of athleticism and this is one of the first steps for Princeton to take.

"Ashcroft, the Gateway to Northern British Columbia," is the title of a handsomely illustrated booklet published by the Ashcroft Print Co. It is brimful of valuable information concerning the resources of Ashcroft district, as well as Cariboo, Quesnel, Fort George, Buckley and Nechaco, the famous interior districts to the north, to which Ashcroft is the gateway.

Farmers' Institutes are common in every part of the province where agriculture is an industry. There are some forty farmers in Princeton district, which number is required to form an institute. A letter to R. M. Palmer, Deputy Min. Ag., Victoria, will bring all information.

## Provincial Elections Act.

Take notice that I have received objections in writing to the undermentioned person's names being retained on the list of voters for the Similkameen Electoral District.

**COPPER HANDBOOK**

(New Edition issued March, 1908.)

SIZE: Octavo.

PAGES: 1228.

CHAPTERS: 25.

SCOPE: The copper industry of the world.

COVERING: Copper history, geology, geography, chemistry, mineralogy, mining, milling, leaching, smelting, refining, brands, grades, impurities, alloys, uses, substitutes, terminology, deposits by districts, states, countries and continents, mines in detail, statistics of production, consumption, imports, exports, finances, dividends, etc.

The Copper Handbook is concededly the

**World's Standard Reference Book on Copper.**

The miner needs the book for the facts it gives him regarding geology, mining, copper deposits and copper mines

The metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelting and refining.

The copper consumer needs the book for every chapter it contains It tells what, and explains how and why.

The investor in copper shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

PRICE: $5 in buckram with gilt top, or $7.50 in full library morocco.

TERMS: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?
