## GRANITE CREEK PLACER MINING

### GOLD AND PLATINUM

### Copper is Strong at Sixteen Cents—Coal Miners Strike on Island.

The fifteenth general meeting of the Western Branch of the Canadian a joint meeting with members of the Mining Institute will be held in Rossland on Thursday, May 22. It will be Spokane Local section of the American Institute of Mining Engineers.

Following are the outstanding facts in connection with the coal miners dispute with the employers on Vancouver Island: Two thousand men had an enforced holiday since May 1. Eight hundred men have been on strike at Cumberland and Ladysmith for the last seven months. The mine managers declare that the men, having voted against the existing agreement will remain locked out until labor affairs are conducted by an exclusively Canadian miners union. Not a pound of coal is being taken out in the two mines at Nanaimo. Machinery at the mines is shut down, and is being put in shape for a long period of idleness.

**Copper Prospects are Good.**

The following culled from the "Weekly Copper Letter of J. L. Walker in the current issue of the Boston Commercial: Copper is strong at sixteen cents for lake, 15 3-4 cents for electrolytic and 15 5-8 cents for casting brands. The demand continues good both for domestic consumption and export. Producers are sold ahead and the outlook is all that could be desired. Whatever reaction there may have ben thus far in other lines of industry, on account of tariff agitation, no let up is noticeable in copper mining. The producing companies are operating at capacity and are planning to increase their output.

The report of the British Columbia Copper company for January and February, copies of which have been received, state that its smelter at Greenwood produced during the period 1,388,573 pounds of blister copper, 2924 ounces of gold, and 16,703 ounces of silver, valued at approximately $300,000. January was credited with the heaviest output of blister copper, a total of 720,260 pounds having been shipped.

Don't forget to renew your mining licence before midnight, May 31.

R. A. Lambert, the veteran placer miner, has again replaced the dam on Granite creek near the north fork which was washed away by high water last year. He has made the present dam secure as possible having anchored it in the solid rock on either side. The dimensions are: 80 feet long, 10 feet deep, 12 1-2 feet wide, and an apron of 30 feet. Much interest is taken in Mr. Lambert's work, which if proven successful will give an immense impetus to placer mining throughout the district.. Gold and platinum are known to be in the creeks and rivers and it is hoped Mr. Lambert may demonstrate the successful mining of these placers. His flume is 950 feet long, 5 1-2x3 feet inside, which will carry the creek at low water.

E. Marston, of Spokane, was in East Princeton recently, attending a meeting of the United Empire Company.

Princeton Coal and Land Co. have received orders as a result of the big coal strike at the coast.

### MAN SEVERELY CUT.

A serious affray, in which a knife was freely used, occurred on Wednesday last when A. Phelps and J. Orr mixed in a hotel office Phelps is in bed wounded in the neck and near the heart, Orr is in jail and will appear in the police court on Monday if his victim is in condition. The above seven lines of fact could be padded and extended to a column of yellow, sensational matter, throwing the two unfortunates into the lurid limelight. No good can result from undue prominence given crime of any kind, thus leaving its nasty impress on the minds of youths and elders. Notoriety does not aid in the suppression of crime, on the contrary it is a known incentive. It is hoped that whoever may control Star in the near future the elimination of the 'yellow' will not be forgotten.

### ILLUMINATED ADS.

S. E. Whiting and H. J. Lindsay, representing the Northwest Register Co., Limited, Winnipeg, were in town this week soliciting advertisements for an electric settee to be placed in the lobby of the hotel Princeton. The ads. are placed in a circular frame above the seats and illuminated from within by electric lights. In connection with the advertising a library is kept for general use of guests and citizens. This library will be uptoday with the latest literature and will be renewed as the times demand. Messrs. Whiting and Lindsay are bright, progressive young men and have met with a large patronage here.

### IMPROVING STOCK.

Realizing that inability to secure the use of wellbred male animals is at the present time one of the greatest difficulties standing in the way of live stock development in many parts of Canada, particularly in the newly settled districts, the Dominion Department of Agriculture, through the Live Stock Branch, is this year undertaking a widespread distribution of pure bred stallions, bulls, rams and boars. The original cost of the animals will be born by the Department and they will be placed in the hands of such local organizations as agree to the conditions governing the distribution. In a word these sires will remain the property of the Department, but the local associations will be responsible

Continued on page 3.

## KETTLE VALLEY CONSTRUCTION

### COQUIHALLA TENDERS

### Strike Retards Progress on 47 Miles—K.V. to Run on the V.,V. & E.

E. E. Coley has moved to Canyon house, near Hellgate on the Nicola road. From there he will work eastward in Roberts Pass, meeting W. H. Burns on a preliminary survey of the Kettle Valley railway line.

Sub contractors are now inspecting the K.V. from Fivemile to East Princeton for the purpose of tendering.

The agreement betwen the Kettle Valley railway company and the Vancouver, Victoria and Eastern railway company, regarding the construction of the line in Coquihalla pass is to the effect that both companies will contribute equally toward cost. The Kettle Valley railway company will receive both the Dominion and provincial subsidies, amounting to about $10,500 per mile. The V. V. & E. does not ask for susidy but will have voice in operating and will have full running rights over the line; also it will have a sayso in awarding of contracts for construction and rights of supervision. Tenders will be called for soon and work is expected to begin about the middle of June.

Grading on the V. V. & E. in Otter valley, from Tulameen to Otter summit, is going on steadily.

W. H. Burns has finished locating on the K. V. to near Semerad's and is now running a preliminary toward Aspen Grove, westward. He is camped at Luke Gibson's ranch.

Steel has been laid to Spuzzum on the C. N. R. and it is expected to reach Kamloops by the end of the year.

The first test hole for the K. V. R. bridge at Hope has now reached a depth of 147 feet. After passing through a deposit of barren matter the pump is again bringing up specks of gold in the gravel. Bed-rock, it is thought, cannot be for away.

The grade is completed on the K. V. to camp 21, near Osprey lake, 34 miles northeast from Princeton. Sub contractors Carlson and Burns are about to tender for some 14 miles of grade between Osprey lake and Semerad's. L. M. Rice & Co. have got the main contract to the latter point.

The big trestle across Trout creek, near Summerland, on the K. V. will be in shape to admit trains over it in early July.

Construction work on the K. V. is completely tied up from Kelowna to Naramata, a distance of 47 miles. One contractor is working a gang of Russians this side of Naramata, but the strikers have announced their intention of sending a delegation to talk to these Russians. Trouble has not yet spread to the Summerland side of the lake, where general conditions in the camps are reported by men to be much better, and where construction is much further advanced.

As a probable forecast of the railroad situation affecting Princeton and district it is said that the Kettle Valley line will have running rights over the V. V. & E. beginning at the cement works at East Princeton and extending to Coalmont. In lieu of this privilege it will give the V. V. & E. running rights over its lines to Princeton and to Copper mountain when completed. The K. V. line to Copper mountain is expected to tie in with the V. V. & E. at the end of spur to the Princeton Coal and Land Co's coal mine.

### TRANSPROVINCIAL ROAD.

The completion of this great provincial artery into town gives one an idea of the substantial nature of its construction. It is doubtful if the old Roman roads, which are the wonder of the world for durability, could have been built any better in the same time.

Following the old Hope road from its intersection with Vermilion avenue the T.P.R. ascends in graceful curve and easy gradient until it gains the first bench at the hospital. Wide roadbed, firm and smooth, gently sloping iuwards, the driver or pedestrian cannot fail to be impressed with the finish and scientific construction of the modern road.

Road building machinery and the trained and experienced surpervisor have made possible the construction of a trunk road that will be creditable alike to the government and all connected with it.

Supervisor W. A. McLean has a payroll of nearly 60 men, which will be increased to about 100 as soon as the headquarters camp is established at Ninemile, to which point movement was made on Thursday. The pay is $3 per day of nine hours. Bridges over Ninemile and Whipsaw are about ready for traffic.

Road Superintendent Turner and Engineer Cleveland made an inspection of the completed road this week.

The scenic effect of the road is very striking in its approach to town. Tourists in their cars will have many beautiful views for their mental and pocket kodacks as they near town from either east or west.

### GREAT POWWOW.

Spokane, Wash., May 12.—To promote closer commercial relations between all parts of the Inland Empire a congress of commercial and industrial interests will be held in Spokane during the Pow Wow, June 16 to 21. Among the subjects to be discussed are the expected change in business conditions following opening the Panama canal, Palouse irrigation project, Quincy valley project, logged-off land question, farm marketing, community development and county agricultural agents. The Inland Empire Development league probably will be organized at the conference, which is being arranged by H. C. Sampson, manager of last year's National Apple show.

### TULAMEEN TUMTUM.

L. W. Shatford and road superintendent Turner were here recently. They were beseiged with prayers and petitions for construction of roads and trails.

C. S. Jennings, operating on Cedar creek, is to get an armstrong ferry hung on wire and worked by ropes.

Reilly and Jensen will have the old Sutter creek trail cut out. They have got the mother lode of the belt. It carries all that the fissures do and then some.

Micky McGonigal is cleaning out the Bear creek road. Five men have gone into the Indiana.

The old timers who know the country are still locating.

Prof. Marks is going to build on his property at the mouth of Sutter creek.

Tom Lee has got chrome iron that runs $6 in platinum and diamond dust of great value.

There is no use of strangers going into Leadville to prospect for two months yet.

J. A. Schubert has got the contract on the Indiana tunnel. There is plenty of snow in this district.

### PURE BRED STALLION.

The stallion recently brought to Princeton for service in this district has a certificate of registry as follows: name, Lubbens Captain; bred by D. Kohlen Campe, Berne, Germany; imported by Frank Iams, St. Paul, Nebraska, an Aug. 24, 1905; sire Ruthard (1255); dam, Allida (5032). The certificate of registry is issued by the Oldenburg Coach Horse Association of America. The horse is also registered at Ottawa, Canada. Farmers and others have a good breed with which to improve their stock. This is a long felt want supplied.

### LOCAL AND GENERAL.

The moving pictures at Princess theatre are drawing good houses numerically and the patrons are satisfied and appreciative. The picture illustrating rescue work in a coal mine disaster was interesting and instructive, giving one an idea of the perils besetting underground workers. Then the comical side of life was well illustrated in the great burlesque wrestling match between Hack and Schmidt. The three bouts were full of striking situations and caused roars of laughter. The movies are all right.

Every parent and ratepayer should be interested in school matters before the annual meeting in July.

J. H Jackson has sold his barn, livery and stage business at Tulameen to W. S. Garrison, Princeton. Joe Wigmore holds the ribbons and throws the silk on the new Princeton-Tulameen stage.

J. H. Wagner has taken the clothes cleaning business lately conducted by Henry L. Nelson and will be found in the premises, Britton block, formerly occupied by the latter.

Never mind the knockers—they cannot stop the wheels of progress nor injure their betters.

### DANCE AT COALMONT.

The second annual bachelor's ball was successfully brought off in the Coalmont Hotel on Monday evening, when there was a large attendance of terpsichoreans from Princeton, Tulameen and nearby points and a very enjoyable time was spent in dancing to the strains of the Princeton string orchestra composed of Miss Layton, J. O., Mrs. and Miss Coulthard Dancing commenced at nine o'clock and was continued with spirit till 3.30, when the merry gathering dispersed their various ways. At midnight an excellent recherche supper was served by the bachelors, on whom fell all expenses for the evening. The committee was as follows: T. F. Whiteman, E. Pringle, W. Rossiter and W. Abson. The next dance here has been fixed for June 3rd, the King's birthday, and will be preceded by a lacrosse match for a purse of $100.—COM.

Argentine Fraction mineral claim: situate in the Similkameen mining division of Yale district. Where located, Voigt mountain.

Take notice that I, George W. Aldous, Free Miner's Certificate, No. 60892B, intend, sixty days from date hereof, to apply to the Mining Recorder for a certificate of improvements for the purpose of obtaining a crown grant of the above claim. And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 20th day of March, 1913.

### IMPROVING STOCK.

From Page 1.

for their proper maintainance and management under the general supervision of Officers of the Live Stock Branch. In the case of stallions, the members of the associations will also be required to pay a fee covering an annual insurance premium.

All animals distributed will be bought from home breeders and will be Canadian bred. As far as possible, they will be purchased in the province in which they are to be placed. In this way Canadian breeders will receive encouragement and their market will be increased not only directly but also indirectly through the emphasis given throughout the country to the value of pure bred sires. It may be added that it is not the intention to place the animals in districts where suitable male animals of the same class are already owned by private individuals. The aim is rather to aid sections where pure bred sires are lacking and as well to encourage new communities in following a proper and intelligent system in breeding.

All bulls distributed will be purchased subject to the tuberculin test and only stallions which have passed a rigid veterinary inspection for soundness will be selected.

In order to take advantage of this form of assistance, it will be necessary for interested parties, in any section, to undertake the organization of a local association in whose hands such sires as are required may be placed. Complete information regarding the rules and regulations governing the distribution may be made upon application to the Live Stock Commissioner, Ottawa. Whenever possible an Officer of the Branch will render assistance in the perfecting of the necessary local organization.

### LOCAL AND GENERAL.

Kirkpatrick and Malone have let the contract to Wilson Bros. for an 8-roomed cottage next the Tulameen hotel.

Rev. A. H. Cameron, of Keremeos, is visiting friends in town. Next week he leaves to attend the Presbyterian General Assembly at Toronto.

Mrs. G. Knight and Miss Knight, mother and sister of Mrs. J. D. Andras, arrived from Montreal last Saturday on a visit.

Wilson Bros. have been recently improving and decorating the Similkameen hotel, giving this house an excellent appearance inside.

Mrs D. J. Campbell and Mrs. A. Archibald, mother and sister of Mrs. F. A. Howse, arrived from Edmonton, Alta., on Monday and are the guests of Mr. and Mrs. Howse.

T. C. King is named as the probable first postmaster for East Princeton. The appointment would give very general satisfaction.

The posters announcing the celebration at Keremeos on Victoria Day are up. Baseball and athletic sports are the features. Prizes amounting to $1000 will be awarded.

The Ladies' Auxiliary serve one of their regular teas this afternoon between 3 and 5 o'clock in aid of the hospital. Patronize the cause by your presence and by your assistance.

L. S. Petrie was in town from Copper mountain yesterday and reports a baseball team in practice there. He says the team will issue and accept challenges as soon as time and terms can be fixed. It is probable a game can be arranged with Princeton. Our boys are willing but they are not quite ready since last Sunday.

John Dalby and son arrived from Victoria this week.

Mrs. P. Swanson entertained the ladies of the hospital auxiliary at tea recently and a very enjoyable occasion it proved.

## NOTES AND COMMENTS.

The improvement of the breed of horses has long been a recognized necessity in this section. Some years ago the matter was brought to public notice through the board of trade. Through the commendable enterprise of a few private citizens a pure bred stallion has been imported recently for service in this section. The stock sired by this horse have won great favor in the states. Farmers and other horse breeders in this district have now a fine opportunity to better their stock with a splendid type of animal suitable for general use. The days of the horse are by no means numbered, as some predicted when the chug-chug, buzz wagon and guzzy-fuzzy came with their bad odors and villainous eyes darting through space by night. The horse responds to man's voice and kindness forming a bond of mutual affection utterly absent in the gasoline go-devil. The horse is here to stay and he must be beautiful, strong and fleet.

The senseless opposition to 'votes for women' has its foundation in selfish uncharitableness and egotistic superiority of man—'lord of all creation.' He has an unholy fear of woman sharing in the glories and honors of national achievements in the betterment of humanity. Moreover he fears that woman may supplant him in the field of legislation which he now so jealously and exclusively monopolizes. Coward! Is not woman the better half of humanity? At least she is man's equal, both created in God's spiritual image and likeness. Is that not enough to forever settle the question of equality of the sexes? Woman's sphere is so indissolubly bound up with that of man that it is impossible to legislate without both being affected. No man with either chivalrous or generous principles would refuse his mother and sister the same liberty he enjoys. Therefore, the right of woman to use her voice and to vote is inalienable. As a part of the human family woman is entitled to a voice in everything that concerns her personal welfare, her home, her children, her property. To treat her as if she were incapable, irrational, or unfit, stultifies and retards the progress of humanity. Wherever woman hears the call of duty no act of parliament should stand in her way. Star is not in sympathy with riotous militancy, but it has more respect for the one who is ready to suffer, aye die, for a cause than the chicken-hearted premier who recently denied equality of right to woman.

The ever changing view obtained from the roads in and around the town are a source of delight and surprise to all. Beautiful perspective stretching miles away to the green hills and the everlasting snow bound peaks, surprising vistas through the trees, the music of the rippling rivers, the ground covered with lovely wildflowers, the appetizing breath of the pines, all make man thankful to still be permitted to be on 'deck.' The views put in illustrated folder would not only be an attractive advertisement but would be a souvenir worthy of presentation to one's close friend or to the king. Now that the town is emerging from primeval conditions to citified ambitions it would not be amiss to assist nature in her elaborate beautification. Planting of ornamental trees along the streets and the fitting out of a public square are readily suggested to minds of citizens favoring attractiveness and beauty.

Strides toward universal peace are long and swift these days. Peace conventions, peace centennials and peace conferences are events of the passing day. Men high in the world's esteem, those gifted in statecraft and all 'who seek peace and pursue it' are in some measure contributing to the rising of the sun of universal. War is a wicked humbug. Anything born of jealousy, malice or greed is evil, hence war is an evil; it is a huge crime from beginning to end. The encouragement of the military spirit is a wrong. Physical training, discipline, bravery or anything good soldiers are taught can be learned by peaceful methods and without the use of sword, knife, bayonet, gun or other weapon. Canada is about to contribute a huge sum of money which she must borrow from those she presents it to and which she must stagger under for years to pay, to be used in building warships soon to be relegated to the scrap heap. A contribution of $15,000,000 toward the cause of universal peace would be of permanent benefit and something our children would bless us for, but invested in emergencies and war scares to please the jingoes that blessing would be turned to cursing. Canada for peace!

# B.C. Portland Cement Co.

## LOCAL AND GENERAL.

Rev. John Stewart, of Toronto, will conduct Presbyterian service in the courthou e at 7.30 p.m. Sunday evening next. Mr. Stewart was ordained at Pittsburg, Penn. and leaves his wife and family at Parry Sound, Ont., until he has settled here.

Erratum —Instead of any other notice, please read: 'Anglican service on Sunday morning will be held at th 5-Mile schoolroom at 11 a.m. No service at 11 a m. at Princeton; but full service at 7.30 p.m.' All kindly invited.

Major T. E. Naish, H. Richardson, J. Kay and A. W. Thompson were visitors from Penticton during the week.

R. Pritchard, late of Phoenix, has bsen appointed constable for Princeton, taking the place of the late Mr. Rogers.

Peterson's auto line will operate to Princeton every Wednesday evening from Merritt, leaving every Thursday morning at 6:15, landing passengers over the C. P. R. in Vancouver the same day.

The baseball match last Sunday at Hedley, Princeton v. Hedley, did not result as our boys thought it would. However, they will have time for a second 'think' before the next match is played. What they want is practice, dilligent practice.

C. H. Thomas, senior, is making good headway toward regaining his normal health. His great vitality and sound constitution at more than fourscore years will with the Similkameen sunshine re store him to renewed vigor. That it may be so is the wish of numerous friends.

C. O. French, one of Princeton's pioneers, came up from Greenacres, Wash., last Saturday and will be here for a week or ten days.

The Princeton band is making long strides toward complete and competent performances. New talent combined with the old favorites are leading up to perfect harmony of time and mind. Citizens should give tangible proof of their appreciation of the band as an asset of the town. Soon the open air concerts will begin, when the latest music will be presented by Prof. Gibson and his able corps.

A bee will take place next Sunday on the Athletic Association grounds to put them in shape for sports. All are cordially invited to come and help the good work along.

Constable Sproule of Hedley was in town this week.

Mrs. E. B. Hall will not receive again during the summer. Mr Hartley

The Princeton Dairy has begun delivery of milk, having purchased the cows belonging to the Jackson Dairy.

A public meeting will be held in the courthouse tonight to appoint committees and otherwise arrange for the Dominion Day celebration.

Married.—On the 14th inst., at East Princeton, by the Rev. W. H. Mayers, William Carsley of East Princeton to Mrs. Ainsley of Chesaw, Wash.

## WATER NOTICE.

For a licence to take and use water.

Notice is hereby given that I, Thomas Rabbitt of Tulameen Valley, will apply for a licence to take and use 250 acre feet per annum of water out of a small Creek, which flows in a southerly direction through Lots 391 and 151 and empties into Tulameen River on Lot 151. The water will be diverted at Lot 391 and will be used for irrigation purposes on the land described as Lots 151 and 101, Yale Division of Yale Distrrct.

This notice wes posted on the ground on the 21st day of April, 1913. The application will be filed in the office of the Water Recorder at Ashcroft.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.

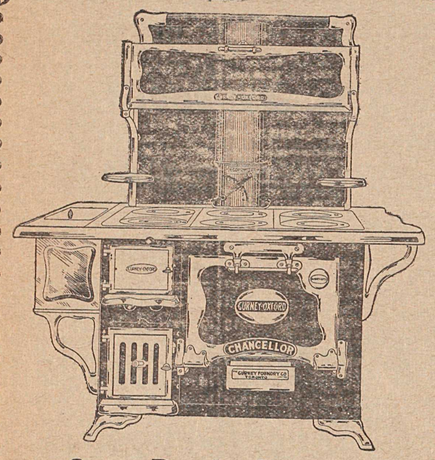
GURNEY-OXFORD



## Oven Results From A Gurney-Oxford Range

The value of a stove to a woman is measured by the successful results in cooking obtained from the oven. With this primary object in view, stove experts have invented means of absolute control over the distribution of heat to every part of the range.

The Gurney-Oxford is constructed with a Divided Flue that carries the heat to the back of the stove through two different divisions. By this scientific arrangement the two back lids of the stove are given equal cooking value and the oven is thoroughly surrounded by a steady even heat.

With a Gurney-Oxford, it is never necessary to open the oven door several times during the baking of a pan of biscuits to turn them around next the heat.

Biscuits, pastry, cake, or bread all bake evenly, rise evenly, and brown evenly without any attention whatever from the cook.

A simple device aptly called the Economizer regulates the exact temperature of the oven by moving a small lever around a series of six notches. A woman soon learns the important value of each notch, one of which immediately checks the hottest fire and keeps it low until she requires it again.

A wonderful cooking reputation is made and lived up to through a Gurney-Oxford range.

### Certificate of Improvements.

Copper King Mineral claim, situate in the Similkameen mining division of Yale district. Where located: On Kennedy mountain.

Take notice that Charles Bonnevier for himself and agent for Gustaf Pouwels F.M.C. No. 53823B, Free Miner's Certificate No 53824B, intend sixty days from date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 7th day of March, 1913.

### THE WIDE WORLD.

From Page 1.

Hon. R. L. Borden, Premier, will introduce a government anti-cigarette bill in the Dominion parliament.

The fruit trees throughout the Okanagan were not affected by the cold snap which passed over that district in April.

The City of Toronto may buy out the Street Railway Company and also the Toronto Electric Light Company for $27,000,000. The companies have offered to sell out at that price and the city is securing legislation to enable it to take over the two systems. The Electric Light Company is a competitor of the City's Hydro-Electric enterprise and there have been years of controversy between the City and the Street Railway Company. Sir William Mackenzie wields the control in both companies. The legislation provides for the issue of debentures by the City without a vote of the ratepayers.

The will of the late Mr. J. Pierpont Morgan began with a strong expression of religious belief and of absolute confidence in 'the blessed doctrine of the complete atonement for sin through the blood of Jesus Christ once offered, and through that alone.' The amount of the estate will not be known until the completion of the valuation for fixing the State inheritance tax. There are bequests and trusts for specific sums totalling about twenty millions and all the rest of the huge fortune is left to Mr. J. P. Morgan, junior, who will also represent the deceased in connection with his many charitable and artistic activities.

The Provincial Elections in Alberta resulted in the return of the Sifton Government by a majority of about 38 to 16, the returns not yet being complete. Ex-Premier Rutherford, who ran as an Independent Liberal, was defeated, and the election of the Hon. A. G. MacKay, former Liberal leader in Ontario, is in doubt.

Mexico is still in a very unsettled state, with the possibility of the Huerta Government being overthrown by the insurgents. Manw foreigners are leaving the country. The Government is desperately in need of money but the non-recognition of the present administration makes the flotation of a loan very difficult.

### Synopsis of Coal Mining Regulations.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1. an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-division of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5. which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five per cent per ton.

The person operating the mine shall furnish the Agent with sworn rerurns accounting for the full quanity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lease may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secrtary of the Department of the Interior, Ottawa. or to any Agent or Sub-Agent of Dominion Lands

W. W. CORY
Deputy Minister of the Interior.

**Gasoline Benzine or Carnations**

Which do you prefer?

Nice to have people sniffing gasoline or benzine when you come near them.

Gasoline and benzine will clean soiled clothing, gloves, etc., but it will also explode and is most inflammable.

NYAL'S KLE-NEM will do all that Gasoline or Benzine will do in the way of cleaning but it will neither burn nor explode.

It also leaves a dainty odor of carnations.

Anyone who ever used Kle-Nem will never go back to the old fashioned way.

Kle-Nem is only a quarter a bottle.

### TIRED OF MILITARISM.

Public opinion in Italy, at least among the lower classes, shows signs of weariness at the increasing expenditure by the government on military armaments and colonial expansion. It had been stated at the beginning of the Tripolitan campaign that the treasury was in a position to meet the exigences of the longest war without having recourse to increased taxation. The people have found, it is stated, that though no direct taxation had been imposed on them, the government has obtained the money it needed by means of disguised loans the last one amounting to four hundred million lire, and by the appropriation of the excess of income tax until 1930. The cost of living has increased rapidly and unemployment is rife. The discontent which these conditions have fostered has added many supporters to the ranks of the Socialists, whose party program includes the strongest opposition to militarism and imperialism.

### THE SINS OF WAR.

The Socialist leader, Liebknicht, in the German Reichstag accused a Berlin armament firm of sending emissaries to provide a certain section of the French press with material for agitating against Germany. He also accused the Krupps with employing secret agents to corrupt German officers and officials of the Prussian war office in order to obtain information of forthcoming contracts and also an insight into the offers of competing firms. The Minister of War admitted that one of the Krupp officials had bribed some Government officials to reveal certain information. He expressed disbelief in the charge of stirring up trouble between France and Germany. The feeling caused by the charges, however, has overshadowed every other subject before the public.

### RELIGIOUS SERVICES.

Anglican services will be held on Sunday at 11 a.m. and 7:30 p.m.

Christian Science lesson-sermon subject next Sunday: 'Mortals and immortals.' See that ye love one auother with a pure heart fervently: Being born again, not of corruptible seed, but of incorruptible, by the word of God. which liveth and abideth for ever. I Peter 1: 22. 23.
