Coal production will maintain big payroll here.

SIMILKAMEEN STAR

Avoid extremes: On the pathway of life choose the middle course

Mining is the leading industry of the Similkameen and is capable of vast development, not a tenth of it being, as yet, prospected—It is the Prospector's Paradise, easy of access and virtually unlimited in area—Manufacturing facilities are excellent—Healthy climate.

Vol. X. No. 43. PRINCETON, B.C., WEDNESDAY, OCTOBER 20, 1909. $2 a Year in Advance

WHIPSAW ALL RIGHT

Camp Makes Good in High Assays and Inviting to Capital.

Wagon Road would Facilitate Development—Ore May be Hauled to Princeton.

Whipsaw has sprung into public notice purely on its merits and every week is prolific with solid, tangible results which add to the fascination and attractiveness of the camp. There is not a 'wildcat' in the whole camp, ore being traceable to every location. If ever there was a mining camp that could 'make good' on so little prospecting and development it must have been due to the handiwork of nature and not to manual labor. Beginning at the top of the ground and with every mark of continuity as prospect holes are sunk, there is no lack of quantity and quality. The experienced eye readily detects the various and infallible signs which denote a 'poor man's camp.' One has only to look and be convinced that here is both latent and conspicuous mineral wealth. Capital usually follows in the wake of progressive, intelligent labor and Whipsaw is lucky in having little to do to induce this handmaid of labor to invest.

Sam Spencer and associates owning the S & M and M & S mineral claims have recently received assays from the Denver Metallurgical Co. which most satisfactorily settles the question of values thus far on these claims. Assay for five metals resulted as follows: Tellurium, none; gold, 60c.; silver, 310 ozs., $155; copper, 2 p.c., $4.80; lead, 68 p.c. $54.40; or a total value of $214.20 per ton. Other assays from the same unpicked ore give relatively good results with a higher percentage of gold. These claims are on the north side of Whipsaw Creek opposite the well known Twenty Four Hour claim owned by Knight and Day. The ledge is 100 feet wide.

Whipsaw requires a good wagon road to enable the cheaper forwardling of supplies and for the transportation of ore to Princeton. the nearest railway point. This matter ought to command the attention of the Board of Trade at its next session,

GRANITE CREEK NEWS.

(From Our Special Correspondent.)

R A. Lambert has closed down operations on Granite Creek gold lease and gone to the coast.

F. P. Cook is taking stumps out of McBride St., Welldo.

Miller and Hallowell have stopped golddigging for the season.

COAL FOR SPOKANE

Princeton Output will Compete in Market of the Big Inland Capital.

Sunset Man Drops Into Spokane and Says Things to Reporter on Live Subjects.

The following interview in the Spokesman-Review is another illustration of J. P. McConnell's deep interest in everything pertaining to the progress of the Similkameen, and which he has so earnestly set forth in the Saturday Sunset from time to time:

"The working of the rich coal mine at Princeton, B.C., is likely to have the effect of redncing the price of coal in Spokane from $1.50 to $2 per ton," said John P. McConnell, editor of the Saturday Sunset at Vancouver, B.C., who was in the city yesterday.

"I was at the mines only a few days ago and several carloads of fuel were ready to be shipped. The company was waiting only for the cars. It is expected that within a short time train loads of coal will be shipped out.

"All that country around Princeton and Hedley is rich in mineral wealth. Only eight miles northwest of Princeton there are other valuable deposits of coal which will be mined at no distant date I went through the mine with a Dominion geologist and we found seams of great width. This property lately was bought by a syndicate of Vancouver capitalists. They got it for a mere song, paying only $225,000. They have organized the North Forks Coal Mining Company.

"There are also great copper deposits in that vicinity. I went through every copper mine in the district. There has been a general awakening up there since the opening of the Victoria, Vancouver & Eastern railroad. About Keremeos, Hedley and Princeton the country is rich in timber and there are many fine water power sites. Keremeos is the hub of a productive fruit country and above Princeton the dairying industry thrives.

"It is my belief that when the Great Northern builds its line from Brewster to Wenatchee, Spokane will get a vast trade with Princeton and other adjacent Canadian towns. I do not believe that it is the intention of James J. Hill ever to build the V.,V. & E. line into Vancouver. If he should it would give Vancouver a chance to get some of this trade and we are entitled to it.

"When the eastern capitalists who recently bought the Nickel Plate mine from the Daly estate begin to work the property it will produce millions in gold. It is still immensely rich in gold deposits, though it was purchased at a nominal price, about $725,000.

FIRST COAL SHIPPED

Two Carloads for Hedley Gold Mines Co. First Over V.,V, & E. Line.

V.F.M. Co. will be Ready to Supply Consumers Abroad—Spur not yet Completed.

The first shipment of coal from the Vermilion Forks Co's mine is being made now to the Hedley Gold Mines Co. at Hedley. This shipment is a trial order of two carloads and if satisfactory will be used as the motive power in the stamp mill at Hedley, coal supplanting the water power now in use. With the expected enlargement to double its present capacity of the stamp mill a large daily tonnage of coal will be required from the Princeton mines.

Work on the new tipple being erected by the V.F.M. Co. is making favorable progress. Hoisting machinery and other equipment necessary for modern coal mining will be installed as soon as delivery can be effected.

Supt. Graham has miners at work supplying the local coal market and making necessary underground preparations for mining on an extensive scale.

Work on the railway spur to the coal mine is being pushed along with vigor. It is expected to be complete in about two weeks.

HILL AND GRAND TRUNK MAY JOIN.

Rival surveying parties representing the Canadian Northern and Grand Trunk Pacific railways are having a lively time getting a line from Kamloops to Vancouver along the south bank of the Fraser river.

Through the Fraser canyon, east of Yale, where the Canadian Pacific runs along the west bank, there is room for only one line on the eastern side, and this has been taken by the first survey of the Canadian Northern. For this reason the Grand Trunk is now looking for a line running directly south from Kamloops across country between Nicola and the Similkameen and finally striking the Fraser west of the Hope mountains.

Three survey parties are now in the field running trial lines for a proposed route via Nicola and Similkameen. This route might possibly indicate a plan of the Grand Trunk Pacific to join forces with the Vancouver, Victoria & Eastern, a Hill road, and unite with it in building a joint line across the mountains and thence to Vancouver.

Dell Young and wife are going to Minneapolis on a visit.

LOCAL AND GENERAL

Buildings Projected and in Construction in Various Parts Town.

Deer not Down from Higher Altitudes Portends Late and Moderate Winter Season.

Remember the Thanksgiving dinner to be served by the Ladies' Aid Monday evening from 6 to 8 p.m. Dinner, 50c. for adults; 35c. for children. All welcome. Mr. Coulthard's splendid gramophone will afford best selections of music.

Died—Caroline Marion, infant daughter of Mr. and Mrs. J. M. Wright, on 16th inst,, aged 8 months 5 days. 'Asleep in Jesus.'

Died—On 19th inst., infant daughter of Mr. and Mrs. Thomas Hughes, Endcliffe Avenue.

D. O. Day left yesterday for Portland, Ore., there to receive sanitarium treatment. Everybody hopes to see him return as good as new before the robins nest again. He expects to be absent during the winter.

Bert Irwin is building a workshop in the rear of his dwelling near Halliford Avenue.

Albert Johnson has moved into his new dwelling on Tapton Ave. and is as snug as any bachelor could be.

Eben Vans is preparing to fence his property on the corner of Bridge street and Endcliffe Av., other improvements having been made recently.

Mr. and Mrs. Wright wish to express sincere thanks for many kindnesses, in word and deed, for flowers and other tokens of sympathy in the loss of their dear little one.

Hunters from the hills say that deer are scarce on the lower ranges, due to the absence of snow higher up. Weather wise Indians and whites predict an open winter.

At the sale of the Burkslead estate the ranch of 305 acres on One-Mile was sold for $1400 to Jno. Hedley.

J. Smith has begun sawing wood with his gasoline engine.

T. J. Sutherland, of Prince Rupert, has been examining Voigt's camp recently.

Ballast and lifting gangs are working steadily on the railway. Work on the bridge across the Similkameen has not yet begun.

Star, with its one-man power, has again to ask forbearance of subscribers for unavoidable delay beyond usual time of publication and shortage of reading matter.

NOTES AND COMMENTS.

The Fruit Magazine, a publication devoted exclusively to the fruit industry, issued monthly, has been received. It will be of interest to all engaged in fruit cultivation and is creditable in matter and makeup. It is published at Vancouver and is $1 per year.

The total output of Ontario mines for the past six months of this year was $10,649,923.

The silver deposits of Cobalt were discovered by Walter McQuat in 1873. The Similkameen is not so old but has as great possibilities.

Next Tuesday, 26th inst, a Local Option Convention will be held in Vernon and will be addressed by a big array of prominent temperance workers.

W. J. Bryan, late Democratic candidate for U. S. presidency, received a very flattering welcome in Vancouver on the occasion of his recent lecture on behalf of the Y.M.C.A. Mr. Bryan is the greatest singlehanded uplift among the moral forces of the day and that is why Canadians so heartily welcome and admire him—he is not exclusively American, he belongs to the world.

What is this hideous thing called 'death' that steals the little flowers from us and turns home from smiling sunshine into utter gloom? Why are these innocent and spotless white torn away by this ruthless monster? It may be to wean those left behind from earth and create the desire to be with the departed little ones. But for the preciousness of love and sympathy of the living the lonely mother would gladly fly away to her darling. It is as plain as noonday that earth is not our home; beyond the grave is the blessed hope of meeting never to part.

Midnight; sorrow and loneliness;
Darkness and fear my soul distress;
Dread lest never the morn again
Shine on the darkened ways of men;
While for the light I sigh and yearn—
Lo, overhead the white stars burn;
And darkness is beautiful—all the night
Smiles in their sweet and tranquil light.

Now the battle cry of political war is heard throughout the land. Guaging Mr. Shatford, M.P.P. by his promises and performances very few will want to exchange him for an untried representative. He has made good and stayed good.

COPPER
HANDBOOK

(New Edition issued March, 1908.)

SIZE: Octavo.

PAGES: 1228.

CHAPTERS: 25.

SCOPE: The copper industry of the world.

COVERING: Copper history, geology, geography, chemistry, mineralogy, mining, milling, leaching, smelting, refining, brands, grades, impurities, alloys, uses, substitutes, terminology, deposits by districts, states, countries and continents, mines in detail, statistics of production, consumption, imports, exports, finances, dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book on Copper.

The miner needs the book for the facts it gives him regarding geology, mining, copper deposits and copper mines.

The metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelting and refining.

The copper consumer needs the book for every chapter it contains. It tells what, and explains how and why.

The investor in copper shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining share.

PRICE: $5 in buckram with gilt top or $7.50 in full library morocco.

TERMS: The most liberal. Send no money, but order the book sent you, carriage charges prepaid, on one week's approval, to be returned if unsatisfactory or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

And take notice that at the Court of Revision to be held on the 1st day of November, 1909, at the Government Office, Fairview, at 10 o'clock in the forenoon, I shall hear and determine the same, and unless they or some other Provincial voter, on their behalf, satisfy me that the objection is not well founded, I shall strike the names off said Register

Dated this 4th day of October, A.D. 1909.

JAMES R. BROWN,
Registrar of Voters, Similkameen Electoral District.
