Developing Market For Princeton Coal

C. P. R. TESTING COAL FOR STEAM PURPOSES—MORE ATTENTION BEING PAID TO VANCOUVER MARKET

Mr. R. G. Foot, of Blairmore, Alta., engineer in the fuel research department of the western division of the Canadian Pacific Railway Company, was in town the latter part of the week for the purpose of sampling and testing the coal from No. 2 mine. He expressed himself as very favorably impressed after examining the coal in the mine and took samples for analysis and testing. Should the coal from this new mine possess the steam qualities which it is believed to and be accepted for use on C. P. R. locomotives a demand would be created which would keep the local colliery hustling to satisfy.

Recently a car load of coal from No. 2 mine was shipped to the K. V. R. at Penticton in order to have a practical test made in the engines there. On Saturday Mr. Foot, hoping to find out the result of the trial shipment, drove over to Penticton with Manager Glover, only to find, however, that the test had not yet been made.

In a recent article A. E. Haggen, editor of the Mining and Engineering Record, says of the Princeton coal mine:

"The new coal seam developed south of the former mine is turning out well. While the coal has been generally classed as a lignite, it is not strictly so, but belongs to the "subbituminous" classification.

Analyis by the Vancouver Gas Company Limited gives this coal from 42.6 to 44 per cent. volatile combustible matter, and 47.78 to 51.7 per cent. fixed carbon, with 4.25 to 9 per cent. ash. Sulphur is from 0.58 to 0.62 per cent. This analysis compares favorably with that of Nanaimo coal.

"During the past winter a series of tests of this coal for domestic use was carried out in Vancouver. It was found to have excellent heating and long burning qualities. The lump coal does not break down readily in handling, making it especially valuable for open grates and fires. These qualities, with its cleanness of combustion, commend it favorably for domestic use. It is non-coking, and can not be used in present gas plants, but if complete gasification plants are installed as proposed it would be an ideal coal for the purpose.

WOULD LIKE TO SEE NEW OFFICES IN TOWN

If the offer of an ideal site for office buildings, free, should prove sufficient inducement it is probable that the offices of the Allenby Copper company, now being organized, will be located in Princeton. The possibility of making such an offer to the new company was suggested at the board of trade meeting on Monday evening by Secretary Gregory and immediately drew from Mr. A. E. Howse the spontaneous offer of a lot adjoining the Princeton Coal & Land Company's office. Adjoining Mr. Howse's lot and extending to Vermilion avenue is a V-shaped lot belonging to the townsite company. While Mr. Glover, manager of the company is not in a position to make a definite promise he expresses the opinion that the Princeton Coal & Land Company would cheerfully donate the lot for such a purpose. He has already communicated with the head office in London asking their approval.

The combined lots would give a frontage of about ninety feet and with the post office and customs office immediately across the street would make the best possible site for such a building. The advantages to the town of having the office here are too obvious to require mention.

UNIFORM HOURS FOR LIQUOR STORES

A regulation of the liquor board published in last week's B. C. Gazette, provides uniform hours for the opening of liquor stores. Heretofore there has been a variance in opening and closing hours that has on many occasions caused grievous disappointment. Princeton patrons of the government's dispensaries, used to the seven o'clock closing hour, have been known to say harsh things on arriving in Keremeos and finding that the store there closed at six. On the other hand Keremeosites, spending a night in Princeton and requiring a little "pick-me-up" the next morning will no longer have to wait an hour longer than they have been used to.

According to the new regulation stores in the smaller places, in which are included Coalmont Princeton and Keremeos, will be open on week days from 10 a. m. till 12 noon and from 1 p.m. till 7 p.m. On Saturdays from 12 noon till 8 p. m. On weekly half-holidays from 9 a. m. till 1 p. m. Penticton is included with the larger centres and the hours are 10 a. m. till 6 p. m. on week days and noon till 8 p. m. on Saturdays.

The suggestion that certain facilities be provided for bathing at Martin's Lake, made by Dr. Lee Smith at the board of trade meeting on Monday night, met with favorable consideration and a committee was appointed to ascertain the cost and the possibility of securing a lease on a portion of the beach.

WATER NOTICE

(Diversion and Use)

TAKE NOTICE that The Kettle Valley Railway Company whose address is Penticton, B. C., will apply for a licence to take and use 30,000 gallons per day of water of Spring Creek, also known as Christina Creek which flows easterly and drains into Five Mile Creek near the S. E. corner of Lot 1506, Kamloops Division Yale District.

The water will be diverted from the stream at a point in Lot 1866, about 175 feet south of and 30 feet west of the S. W. corner of Lot 1506 and will be used for locomotive and railway purpose at a tank at Jura station on the Company's right of way in Lot 1402.

This notice was posted on the ground on the 18th day of April, 1923.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the ofifce of the Water Recorder at Princeton, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

THE KETTLE VALLEY RY. CO.,
Applicant.
By C. B. Gordon, Agent.

The date of the first publication of this notice is Friday, April 20, 1923.
22-4

WATER NOTICE

(Diversion and Use)

TAKE NOTICE that The Kettle Valley Railway Company whose address is Penticton, B. C. will apply for a licence to take and use 60,000 gallons per day of water out of Pass Creek which flows north-westerly and drains into the Coldwater River about Mile 23 on Kettle Valley Railway south of Merritt.

The water will be diverted from the stream at a point in Lot 594 Yale Division Yale District; 2260 feet south of and 130 feet west of the N. W. corner of Lot 659 and will be used for locomotive and railway purpose upon the Company's right of way at Brookmere station in Lot 659.

This notice was posted on the ground on the 13th day of April, 1923.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Merritt, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first apeparance of this notice in a local newspaper.

THE KETTLE VALLEY RY. CO.,
Applicant.
By C. B. Gordon, Agent.

The date of the first publication of this notice is Friday, May 4, 1923.
24-4

WATER NOTICE

(Diversion and Use)

TAKE NOTICE that William Thomson whose address is Keremeos, B.C., Box 14, will apply for a licence to take and use 140 acre feet and 500 gallons daily of water out of Stirling Creek, also known as East Fork of Stirling Creek which flows North and drains into Similkameen River about at Lot 1925, near Provincial Bridge.

The water will be diverted from the stream at a point about three quarters mile from the South East Corner of Lot 1587-s, as the creek flows and will be used for irrigation and domestic purpose upon the land described as Lot 2186-s, Similkameen Division of Yale District.

This notice was posted on the ground on the tenth day of April, 1923.

A copy of this notice and an applicant pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Princeton, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

WILLIAM THOMSON,
Applicant.

The date of the first publication of this notice is Friday, April 20, 1923.
22-4

CERTIFICATE OF IMPROVEMENTS

Lemon No. 18, Periscope Fraction, Olivene No. 3 Faction, Pearce No. 3 Lowell No. 3, Pen Mar, Snoqualmie, Summit Fraction, Saint Louis Fraction, Seattle, Tacoma, Sliver No. 1 Fraction, and Sidehill Fraction Mineral Claims. Situate in the Similkameen Mining Division of Yale District. Where located: At Copper Mountain, near Princeton, B. C.

TAKE NOTICE that I, P. W. Gregory, acting as agent for The Canada Copper Corporation, Limited, Non-Personal Liability Company, of Allenby, B. C., Free Miner's Certificate No. 50067c, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown grant of the above claims.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 12th day of April, 1923.

The Canada Copper Corporation Passes

ACQUISITION OF PROPERTY BY BONDHOLDERS PAVES WAY TOWARD RESUMPTION OF ACTIVITY ON THE MOUNTAIN

Legal formalities necessary to the securing by the bondholders of the title to the holdings of the Canada Copper corporation in British Columbia and the State of Washington were completed in Vancouver on Monday when the property was put up for sale by auction and bought in by them at the upset price of $2,000,000.

The bondholders are now in a position to perfect their arrangements with the Granby company. Conditions and terms as to the acquisition of the property by the Granby were long since decided upon between them and the bondholders. There now remains to be effected details in respect to the transfer of a clear title to all the various holdings and the work of completing the organization of the new subsidiary company which is to be known as the Allenby Copper Company, Ltd. It is not expected that any considerable time will be required to complete these details as work along those lines has been proceeding since the deal was first decided upon.

Locally, interest centers upon an announcement as to when work is to be started on putting the railway spur to Allenby and Copper Mountain in a state of repair, as that must necessarily be a preliminary to activity at the mine and mill. Enquiry at a late hour last evening of K. V. officials elicited the information that so far they had received no instruction with reference to proceeding with the work of repairing the line.

SEE BRITISH COLUMBIA

(By E. Waterman.)

We can hardly pick up a coast paper these days without having our attention called to the anticipated great influx of tourist traffic during the coming summer—from south, east and west, they will be coming in their thousands, particularly from the south where our American cousins, always anxious to break fresh tracks and seeking pastures new, will be doing their utmost to escape from the southern summer heat. This is all to the good, and the slogan, "See B. C." is a worthy one. And if B. C. simply consisted of Vancouver Island and the districts immediately adjacent to the City of Vancouver it would be easy of accomplishment—paved roads and a motor car, and there you are. But what of the vast interior of British Columbia, the beauties of the Similkameen, Okanagan and Nicola valleys, the fertile farm and fruit lands of Vernon, Armstrong, Enderby, Salmon Arm and Kamloops are entirely shut off from the travelling tourist by the non completion of the transprovincial road. The result is that after he lands on the coast he spends a day or two in Vancouver, then goes to Victoria, takes in the Georgian Circuit and departs whence he came, and we see him no more. No doubt many of them ask if it is not possible to motor into the interior and express astonishment when they are told that there is no road and that the only way they can tour through the interior of the province is by making a wide detour through the States via Wenatchee and Oroville or else drive to Hope and ship their cars over the Kettle Valley railway to Princeton. The expense, inconvenience and delay incidental to this is sufficient to cause the great majority of tourists to give it no further consideration; the same applies to many residents in the coast cities,who in consequence take their holidays in the States and spend their money there, knowing nothing of the varied beauties of their own province east of the Cascades—to their own loss, and ours.

In order to give those who desire it, an opportunity of taking a motor tour through this country I propose to operate a touring car service from Princeton round what is known as the Okanagan Circuit—approximately 400 miles, over good roads and through as varied and beautiful a country as can be found anywhere in the west. It will not be a rush trip and every opportunity will be afforded to the travellers to see the local industries and beauty spots of the localities through which he is travelling. Roughly, the trip will work out as follows: Leave Vancouver 7.30 p. m., arrive in Princeton next morning; leave Princeton at 10 a. m., lunch at Keremeos, staying there two hours in order to see the orchards; then to Penticton, stopping the night there; next morning passing through Summerland and Peachland, arrive Kelowna for lunch, staying two hours; Vernon for dinner, stopping the night; next day, Enderby, Armstrong, lunch at Salmon Arm; then via Grand Prairie to Kamloops; last day, Kamloops to Princeton via Nicola, Merritt and the One Mile road. The details are not yet all worked out, but I propose to make a price for parties of three or four that will cover all transportation expenses — railway fare, sleeper, hotel expenses, etc., Vancouver and return.

The Vancouver Automobile Club have kindly offered their assistance; also Mr. Davison of the Vancouver Publicity Bureau.

Should this service prove a success it cannot fail to be of great benefit to the district generally, as it will be the means of bringing people into the country and showing it to them to the **best possible advantage.**

Princeton Horses Shipped To Yukon

SADDLE AND PACK HORSES PURCHASED HERE FOR USE IN TRANSPORTING HUNTERS AND TOURISTS IN THE NORTH

This week a shipment of fifteen pack and saddle horses was made from Princeton. Five of these were for delivery in Vancouver. The remaining ten were destined for Carcross, Yukon Territory, having been purchased by A. R. Auston of that place for use in transporting hunters, fishermen and tourists. Mr. Auston was in the valley two years ago purchasing horses for the same purpose. On this occasion he placed his order with Ed. Burr, who made the purchases and arranged with local broncho busters to break the horses, when necessary, to the use of the pack and saddle.

Mr. Auston was in town on Monday to receive delivery and arrange for shipment of the animals. He expressed himself as well pleased with the selection made by Mr. Burr and intimated that future orders would follow.

Mr. Auston has worked up a large and remunerative business in the north country. He provides a 60-day trip for hunters and tourists. For the first six days travelling is by lake and stream in motor boats. At Carcross a change is made to pack trains. These are in units comprising eight horses each—four pack animals and four saddle horses—accommodating a party of two, with two guides to each party.

It is Mr. Auston's intention in the near future to cut out the motor boats and substitute therefor an airplane service between Skagway and Carcross. By so doing the six days' water trip would occupy less than three hours and the novelty of a flight in the air is expected to prove a big drawing card.

SPORTS

BASEBALL

Doc Smith's ball chasers are working faithfully to get into condition for their opening game at Keremeos on the 24th, having already had some four or five workouts. The line-up, so far as decided at present, includes Pete Prest at the broadcasting station with Waddell at the receiving end. Mel's mitt appears to be lined with adhesive plaster—everything sticks to it—and he has the range to second down to perfection. Doc Smith will again take charge of the initial sack and endeavor to repeat his performance of last year when he played the entire season without having an error charged to him. Elmer Burr will fill the gap at short. George Allen will take care of the awkward corner and will relieve Prest in the pitcher's box when required.

Selection of players has not yet been made to fill the outfield and second base. Doc states that he has a number of promising youngsters to pick from and these will be awarded a place on the line-up according to the showing they make at practise.

The boys will appear in brand new uniforms for the opening game. This was made possible by the liberal support accorded the club by the townsfolk. Joe Wigmore, who passed around the hat, informs us that ample funds have been subscribed to fully equip the team and in this connection has asked us to thank citizens of Princeton for their liberal response.

GOLF

Although the entire course has not been put in first-class shape during the week, the official opening will take place on Sunday, May 13th.

With the co-operation of the members next week should see the fulfilment of the executive's ambition, namely, a golf links to which Princeton could welcome any outside talent without feeling in the least ashamed.

Members and prospective members are reminded that a considerable amount of money has been, and will require to be, expended on the course and subscriptions should be paid to the treasurer, H. E. Hansen, as soon as possible.

TENNIS

A very gratifying increase in the numbers playing is observed and the now lengthening evenings are being fully taken advantage of. This is most encouraging and the committee hope from now on to see every member on deck. It is rumored that several members can be seen swinging a mean racquet in the cold gray dawn! Good luck to them and more power to their elbow.

The Saturday afternoon teas are proving an unbounded success and the ladies are to be complimented on the graceful and also practical manner in which they carry out the arduous task of hostesses.

The lack of a roller is now being felt and if anyone has such an article lying idle, its use by the club would be greatly appreciated.

Don't forget tea, with all trimmings (and they are good) will be served on Saturday afternoon as usual, so rally round all you members; and we may here say that the club is always glad to see its friends around at these Saturday meetings.

We wonder why Sunday mornings are proving so popular with the gentlemen players?

After Twenty-three Years

LEWIS YUNEMAN RETURNS TO THE GROUP OF CLAIMS HE LOCATED IN 1900

(By R. W. Northey.)

Last Friday morning at Keremeos there stepped off the train from Oroville two men who had plainly written all over them the word "prospector." The elder of the two was a weather-beaten, white-haired man of 70 or thereabouts, while his pleasant-faced companion had reached an age somewhere between 30 and 40. These two were Lewis Yuneman and his partner, Frank Wedner, and their destination was the group of claims (known as the Yuneman group) situated on the divide between the headwaters of Olalla creek and Fifteen-mile creek which Yuneman had located and soon after sold to E. Bullock-Webster for an English syndicate twenty-three years ago.

Saturday morning I met the twain at Keremeos, where they were outfitting at Coleman's store. The elder man's face seemed to rouse some dormant chord in my memory and I at once flopped down beside him where he was seated on the edge of the wooden sidewalk in front of the store, and after the usual preliminary passages so well known to old timers I was soon interested in finding out who he was and where he came from. He mentioned the group of claims he had sold to Bullock-Webster more than twenty years ago.

"What, the Yuneman group?" I exclaimed.

"Yes," he said.

"Then you must be Yuneman?"

"Sure," he smiled.

And then I recalled to his memory the time he showed some exceedingly rich gold quartz at the Columbia House in Fairview when John Kearns was running it. The ore was literally rotten with gold; looked to be more gold than quartz, and it was a sample from the Yuneman group. "No wonder Webster wanted to buy that property," I thought at the time. I never knew the price Yuneman got for the group, and to tell the truth I did not like to ask. Some prospectors are rather reticent about that and some are rather touchy when it comes to naming the sum they really get. Of course there is always a large-sized fictitious row of figures handed out to the newspapers and it sure does look nice in print; but—well, let it go at that. I never bother very much about getting the exact price, as I am quite likely to get a fancy one which common sense tells me is mostly frills.

Well, the old man had certainly altered some in the course of twenty-three years, but he was hale and hearty yet, and with the exception of rheumatic pains in the knees he felt just as young as he did thirty years ago. He told me of some of the hardships he had undergone down in the hot mining states of California, Arizona and New Mexico. They all seem to stick to the mining sections wherever they go. He told me he had often felt the call of B. C. and the Similkameen, but circumstances had postponed his return until now, and so he was very much like a boy coming back to the scene of his one and only success and triumph after years and years of hopeless quest in barren deserts and monotonously hot climatic conditions.

And there was one other thing that had always been turning his thoughts to his old stamping ground up Olalla creek. It has been his bosom secret for twenty-three years. He had made what he thought at the time was a fine discovery some distance from the group he sold to Webster, but had not opened it up and of course he was not sure that it would come up to his expectations. But he was going back to see. When he received his money for the group he sold he went to California to have a good time and he intended coming back to open up his secret find. But time flew by so swiftly that he did not realize that he was growing old, till now this is his last effort to carry out his unceasing desire for twenty-three years.

Picking up his present partner—one of the best an old prospector could wish for—he soon filled him with enthusiasm as to the delights of prospecting in the Similkameen and particularly with the fact that he knew of something really worth while in the vicinity of the old group—a discovery he had made so long ago and had not been able to go back until now, and now he was determined to go back and see if he could find it again.

So later in the day the Coleman delivery car brought them and their outfit up to Olalla, and here they stayed until to day, Monday, May 7th, one of the most magnificent May days this magnificent climate can produce, and left this morning with two packhorses in charge of Packer Billy Cohen for the old cabin on the Yuneman group up Olalla Creek near the head of Fifteen-mile. I daresay there is two or three feet of snow up there, but that isn't going to cut any ice with an enthusiastic old timer hunting for a lost discovery. Here's success to them. May they be the forerunners of long strings of prospectors and pack-horses winding up Olalla Creek this summer.

Mr. Wilson, secretary of our local hospital, has requested us to state that the hospital would appreciate donations of preserved fruit from any of our readers who may have any surplus on hand. Donations of eggs would also be welcome.

Unveiling Memorial Impressive Ceremony

PRINCETON BRANCH, BANK OF COMMERCE HONORS MEMBERS OF ITS STAFF WHO SERVED IN THE GREAT WAR

At noon on Sunday last there was unveiled in the office of the local branch of the Bank of Commerce a bronze memorial tablet "commemorative of the 1701 men of the Canadian Bank of Commerce who served in the Great War, 1914-1918." The tablet which is circular in form and carries on one side the caduceus of the bank (with the wings folded in token of peace) has inscribed in the centre the names of three men who enlisted from the Princeton office. They are: Lt. E. Hamilton, Pte. W. H. Lyall, Pte. C. Marten.

Mr. T. W. L. Mutch, who is acting manager of the bank during the illness of Mr. Lucas, briefly explained that the Bank of Commerce was placing similar memorials in all its offices. While two of the men who had enlisted from Princeton had made the supreme sacrifice he was pleased to be able to state that the third, Mr. Marten, who though wounded, had returned and resumed his work with the bank, being now in the main branch, Vancouver.

Mr. A. E. Howse very feelingly referred to the sterling qualities of the young men whose names were inscribed on the tablet and to the loss sustained by their removal. He also spoke of the obligations which the citizens of our country are under toward the dependents of the fallen and the men who, though fortunate enough to return, are unable, through the effects of their war service, from discharging efficiently the duties upon which they may be engaged.

Mr. E. Waterman lucidly sketched the circumstances leading up to the war and the terrible and world-wide destruction which was wrought.

On behalf of the returned men's organization J. A. Brown placed a spray of flowers over the tablet and said a few words of appreciation regarding the attitude of the Bank of Commerce towards members of its staff who had served overseas.

The union jack, which veiled the tablet, was removed by Mrs. Lucas after the Rev. Mr. Herbison had opened the ceremony with a few words of prayer followed by an appropriate reading from the scriptures. Mr. Herbison also added a few words of sympathy to those who had suffered bereavement owing to the war and closed the ceremony by pronouncing the benediction.

Regret was expressed that Mr. Lucas, though progressing nicely toward convalescence after his severe illness, was unable to be present. Mr. Mutch was one of those who did not hesitate when the war started and there was a call for men. He enlisted with the 50th Gordons on the 10th of August, 1914. Was transferred to the 30th battalion for overseas service on October 1st and later to the 15th battalion (48th Gordon Highlanders) with whom he had over four years' service in France. He was in hospital at the time of the armistice and as a consequence did not receive his discharge till some time after demobilization had commenced.

KEREMEOS TOM. GROWERS MEET

Keremeos, May 9.—A meeting of the Keremeos Tomato Growers association took place in Coleman's hall on Monday evening last. Mr. Stonehouse of Kelowna, came in to explain the new conditions of the contract, and also the arrangements made with the canning companies.

The new contract calls for a five year term, instead of one year, though no grower obliges himself to grow a crop unless he wishes, but, of course, comes under the conditions of the contract if tomatoes are grown during its term. The contract is signed by both the canning companies and the growers of the association. The price set for this year is $17.00, of which the growers receive $16.75. The canners agree to deduct the amount of twenty-five cents per ton from all tomatoes received, and to pay this into the association for current expenses.

The price for future years will be set on or before the 10th day of February each year, under the following conditions: Two members of the association will meet two members of the canning companies, and endeavor to agree on a fair price. Should they be unable to agree, the matter will be placed before a member chosen by the associated boards of trade of B. C. and someone selected by the department of agriculture, these two having the power to select a third if necessary.

The tomato growers control the sale of semi-ripes, which in turn will be marketed by the United Fruit Growers association, who will set the price for all semi-ripes sold under the contract. The tomato growers only bind themselves to such canneries as sign the contract.

The meeting was well attended and considerable interest shown by the growers. With this start the growers should have a satisfactory year, and the doubts and uncertainties that they have experienced this year, will in this way be done away with for at least **five years to come.**

PRINCETON FARMERS HOLD MONTHLY MEETING

Princeton Local U. F. of B. C. held their regular monthly meeting on Saturday last. In the absence of the regular secretary Mr. H. Trehearne took the notes. President Hardwick occupied the chair. A communication was read from the minister of agriculture stating that the matter of appointing fence viewers would be attended to at an early date.

Should present plans all materialize the local has an interesting list of events for the coming months. May 24th a basket picnic, open to the public, will be held at the junction of One Mile and Summers Creek. A letter received from Mrs. McLachlin, secretary of B. C. Women's Institute, stated that on Saturday, June 9th, motion pictures, representing all industries, would be given here together with an entertaining address, free of charge. An offer by Miss Annie M. Van Kleek of Vernon, sister of Dr. Van Kleek, to address the wives and daughters of this district on any phase of domestic economics which they wished, was accepted; date to be announced later. Mr. Townsley, district agriculturist, Vernon, is also arranging to address a meeting here during the season.

A vote of sympathy was extended to ex-president, George Aldous on account of his recent serious loss by fire.

FINDS CROPPING OF RICH QUARTZ

C. Hartman, better known as "Joe Busch," dropped into town early this week bringing with him a piece of quartz that fairly dazzled the eye with the gold it contained. Joe had been up Granite Creek on a visit to the bench claim held by Wm. Daly, of Keremeos, and himself and on which they worked with very satisfactory results last year. On the return trip to Princeton he decided to do a little prospecting and scaled the hill above their claim, following the old Roany channel for a considerable distance. It was at a point about 700 feet above their placer claim that he found the cropping of ore from which he took the sample. He also brought with him a nugget to which was adhering about an equal weight of quartz similar to that taken from the cropping above. The unpolished condition of the nugget and others secured from the claim last season indicates that the gold could not have travelled any great distance and would seem to justify Joe's belief that he has located in the croppings above the source of the gold found in the placer claims below.

CANCELLATION OF RESERVE

NOTICE IS HEREBY GIVEN that the reserve existing over the lands formerly covered by Lots 245, 247, 374, 380, 381, 382, 384, 385, 388, 697, 699, 700, all in Yale District; 1785 s, 1787 s, 1788 s, 1789 s, all in Similkameen District; Lots 3176 to 3181, inclusive, Osoyoos District, and also a strip of unsurveyed land bounded by Lots 1785 s, 1788 s, 2262 s, 3176, 3178 and 1838, Similkameen District, is cancelled.

G. R. NADEN,
Deputy Minister of Lands.

Lands Department, Victoria, B. C., 11th April, 1923. 22-8

OSOYOOS DIVISION OF YALE DISTRICT

NOTICE is hereby given that the under-mentioned tract of land, situated in the above-named district, has been surveyed, and that a plan of the same can be seen at the Department of Lands, Victoria, and at the office of the Government Agent, Vernon:—

N.W. ¼ Sec. 7, Tp. 4.—B.C. Government.

Persons considering their rights adversely affected by the above survey must furnish a statement of their contention to the Minister of Lands within sixty days from the date of this notice.

J. E. UMBACH,
Surveyor-General.

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND.

Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head

You Make No Mistake
WHEN BUYING YOUR GOODS FROM THE
F. P. Cook Estate
...GENERAL... MERCHANTS
Stores at Princeton & Coalmont
(Established 1886)
WE HAVE WHAT YOU WANT WHEN YOU WANT IT

To Our Customers
Dear Madam:
Do you realize the tremendous importance of sound, restful sleep.
Such sleep is not possible on a worn out and lumpy mattress, a spring which sags like a hammock or a bedstead which rattles, creaks and groans every time you move.
Won't you take a few minutes tonight to study your sleep equipment and then come down to the store tomorrow and see this special Simmons' bed outflit, which we are offering for thirty days only, at a price lower than an outfit of similar quality has ever been offered at, even in that much talked of pre-war period. The reason for this remarkable value is found in the fact that the Simmons people are producing this outfit in large quantities, and have requested their dealers to sell it to the public at an extremely low price, in order to bring it within the reach of as many people as possible.
This is an outfit that will give you many years of sleep comfort at the cost of a few cents a night.
Yours for a perfect night's rest,
A. L. WHITE.
P. S. We forgot to tell you that this exceptional outfit can be bought for $36.00.

LIFE INSURANCE FOR YOUR HOUSE
Unpainted wood means decay. Not to paint your house, means a constant expense for repairs. Paint protects against wear and weather. When you take out our "100 % Pure Policy" your house is insured against decay.
Such paint protection resists the destructive effects of climate and temperature, besides adding beauty and distinction to the home and value to your whole property.
MARTIN-SENOUR "100% PURE" PAINT
means life insurance for your home. The genuine White Lead, Oxide of Zinc, Pure Colors and Linseed Oil ground to extreme fineness by powerful machinery, form a combination that protects against decay.
"100 % Pure" Paint makes protection sure. It spreads easily, covers completely and is the cheapest in the end because it covers more space per gallon. We have it in all colors to serve your requirements.
Call and get a copy of our amusing book "The House That Jack Built" It's full of pictures, rhymes and reason, that you will enjoy as well as the children. Free to all.

COALMONT NEWS

(By "Jay Ell.")

Miss Dolly Waterman, of Princeton, was the week-end guest of Mrs. Hugh Holmes.

* * * *

Mrs. H. Larsen, Gus Larsen, Mr. and Mrs. Hans Christensen and A. O. Johnon motored to Princeton Sunday.

* * * *

"Judge" Murphy, of Tulameen, is the guest of Mrs. James, of Granite Creek.

* * * *

Alec. MacDonald and "Scottie" Crombie, late residents of the district, are now located at Surf Inlet.

* * * *

Col. J. G. MacKay, of the purchasing department of the G. N. Ry., is in Coalmont for a few days looking after coal supplies for the railway.

* * * *

J. J. Malone returned from Nelson Wednesday, after visiting for some weeks in the Kootenays.

* * * *

Evan Thomas, ranger of the B. C. Forest branch, is on an inspection trip in the Coalmont district.

* * * *

Mr. Smoker! Are you aware of the fact that I get in fresh tobacco every week? A. O. Johnson, pool hall. 251

* * * *

W. E. Gill left on Tuesday morning for Spokane, U. S. A. "Gilly" was an esteemed resident of the district for the last two years and his numerous friends, while missing his genial presence, wish him success in his new location.

* * * *

It may be of interest to the public to know that, according to recent instructions from the Control board, the liquor store will be open at ten o'clock instead of eleven, excepting on Saturdays, when it opens at twelve o'clock. The closing hours will remain as in the past.

* * * *

Mr. and Mrs. O. S. Mabee, of Kelowna, have been spending a few days between Coalmont and Princeton, Mrs. Mabee taking the opportunity of visiting her parents, Mr. and Mrs. McCulloch at Blakeburn, while Mr. Mabee is prospecting for sales for Studebaker and Star cars.

* * * *

The second weekly shoot of the Coalmont Gun Club was pulled off on Sunday morning, six members taking part. Fred Pope, Duncan Fraser and Colin Malcolm tied for first place, the shoot-off placing Pope first, Fraser second, and Malcolm third, followed by Dr. Sheffield, Ernest McKay and Jack Rhodes Sr. The next shoot will be held on Sunday morning, May 13th, at 10.30 a. m., and it is hoped that a full turnout of members will be promptly on hand.

* * * *

Mr. A. D. Worgan, D. J. Buckley and Col. J. G. MacKay visited the Roany mineral springs on Tuesday. The springs are located between Coalmont and Princeton, and according to official analysis the water has some fine medical properties. Col. MacKay was impressed with the location for sanitarium purposes, and he intends to draw the attention of G. N. railway officials to its possibilities as a resort for invalids. Apart from the medicinal value of the water, there is the climate to be considered—a climate which for its bracing effect cannot be beaten in any part of Canada or the U. S. A.

* * * *

The scribe stood on the village street
Whence all but he had fled.
There were no bosom friends to greet,
The place was nearly dead.

He started on his weary way
To rustle up some news,
But, no one had a word to say;
They all were in the blues.

He got cigars and cigarettes
And Copenhagen snooze
And heard some sighs and sad regrets
But ne'er a jot of news.

And day by day, in every way,
There was less news to tell,
So said the scribe, "If I'm a JAY
My job is surely 'ELL."

Princeton Paragraphs

Mr. Emil F. Voigt left on Monday on a business trip to the coast.

Mr. E. Barr Hall returned the first of the week from his trip to the coast. Mrs. Hall is remaining in Vancouver for a rest and change.

Born.—At 866 Homer street, Vancouver, on May 5th, to Mr. and Mrs. Robert Skinner (late of Princeton), a daughter.

Mrs. Swanson, of the Hotel Princeton, was the guest of Mrs. E. F. Voigt at Voigt's Camp for a few days this week.

Gus Murchy, who entered the Princeton hospital in a critical condition last week suffering from appendicitis, is convalescing nicely after his operation.

Three for the price of one—a Simmons bed, spring and mattress at the usual cost of a bed. A. L. White.

Large sheet bils are out for the big celebration at Keremeos on May 24. Included on the program are baseball matches between both senior and junior teams from Princeton and Keremeos.

While there was only a very light fall of rain in Princeton on Tuesday night the river made a rapid rise of about a foot on Wednesday, indicating that the rainfall in the mountains must have been heavy.

"The Sky Pilot" is the screen attraction at the Princess theatre his week with "On Patrol" as comedy. The picture is of the same high standard as Manager Dignan has been presenting to his patrons right along.

Jack Malone, who has been spending the past month in Nelson, was in Princeton on Tuesday. He left the same evening for Coalmont where he is interested in some mining proposition, the nature of which we could not induce him to disclose.

Mr. Frank Anderson has received word from Mrs. Anderson that she is rapidly recovering after her recent operation in the Vancouver General hospital. Before returning home she will have her tonsils removed, thus requiring another minor operation.

The joint annual roll call of Princeton Lodge No. 52 and Vermillion Rebekah Lodge No. 24 will be held in the I. O. O. F. hall Monday evening, May 21st, at 8 p. m. All sojourning Brothers and Sisters are cordially invited. 25-2

Friends of Rudolph Gorsulowsky, who last week entered the Vancouver General hospital for examination and treatment will regret to learn that as a result of an operation he was found to be suffering from cancer and his condition is considered quite serious.

H. K. Whimster, of Penticton, district agent for the Maple Leaf flour, was in Princeton last week. He announces that toward the end of the month a demonstration in the use of this popular brand of flour will be given. The exact date will be announced later.

The loading platform for autos in the K. V. R. yards here is being repaired. There is a growing desire on the part of the people at the coast to see the interior and in the absence of a highway the shipment of cars over the Hope-Princeton section of the K. V.R. is expected to be heavy this year.

Two carloads of stockers recently purchased by Kit Summers in Calgary were given the Summers & Wardle brand last week-end and turned out to range up the One-Mile. They were a husky hungry looking bunch and during the summer should convert a considerable quantity of bunch grass into prime roasts of beef.

Nothing will be done toward providing a tourist camp site at Princeton. The question was brought up at Monday night's meeting of the board of trade but shelved for the present. It was stated that the idea of segregating tourists in allotted sites was losing in popularity; that the majority of tourists prefer a secluded spot and like to make their own selection.

Chas. Law has secured from Mr. A. S. Black an option on the Horn Silver mine. The engineer is expected to begin an examination of the property within a few days. Work is to commence not later than June 1st and the first payment falls due sixty days from that date. Mr. Law was anxious to bond the property last fall but could not, at that time secure terms to suit.

Mr. E. E. Gibson, of the West Kootenay Power & Light Co., accompanied by Mrs. Gibson, motored over from Penticton on Monday. Mr. Gibson intended spending several days on company business here and at Allenby but had to leave Wednesday in response to a message stating that his presence was required at Kelowna. He expects to return at an early date to complete his work here.

E. E. Burr reports the sale of automobiles this year as "the best ever." Altogether he has sold this season fourteen cars in which was included a car load of new Fords. The 1923 Ford is as attractive in price as it is in appearance to the man of moderate means who buys a car because he needs one. Among other deliveries which Mr. Burr has made was a Ford, complete with all the trimmings, to Mr. S. L. Smith, of Hedley.

It was rather a coincidence that on Tuesday, while the sole topic of conversation in town was "Copper Mountain," that "Sunset" Brown, the discoverer and first locator of claims there, stepped off the train on his way through to Granite Creek. He has been living in Grand Forks of late years. The object of his present trip up the Tulameen is to search for Col. Bob Stevenson's lost platinum mine. It was way back in '89, when Mr. Hugh Hunter was mining recorder at Granite Creek, that Mr. Brown recorded his first claim on Copper Mountain.

Mr. Zimmerman, of the Summerland Lumber company, came down to Princeton on Wednesday morning's train bringing with him Roy Salter who, while working at the company's new mill at Myren, had an accident on Monday which resulted in rather painful injury to his face and neck. Mr. Zimmerman reports operations as proceeding smoothly at the mill and a ready market in the east for all the lumber they can produce. At present they are shipping about ten carloads a week and the output will shortly be nearly doubled as another boiler is being installed and will soon be ready for use.

Mr. and Mrs. R. T. Parham returned the first of the week from a short holiday trip to the coast. Mr. Parham has resigned his position in A. E. Howse Company's store and he and his wife are resuming the work they were engaged in last year—demonstrating and selling "Wear Ever." They will tour the Similkameen and lower Okanagan valleys in their own car. This (Friday) afternoon they are giving a demonstration at the home of Mrs. C. V. Prosser and an open invitation to attend is extended by Mrs. Prosser to the ladies of Princeton.

CAWSTON NOTES

(From our own correspondent.)

Rev. J. F. Millar, of Penticton, held services in the Community hall last Sunday afternoon.

* * * *

A. Prentice has purchased a car from J. Martin and is getting acquainted with the ins and outs of running it.

* * * *

R. B. Sheridan and Geo. Wainwright who are employed at Ashnola with the G. N. bridge crew, spent Sunday with their families in Cawston.

* * * *

R. Moulton, who has been acting as collector of customs at Similkameen, left for Vancouver Wednesday. M. R. Smith, of Vancouver, arrived Tuesday and will act as customs collector. Mr. Smith's family will arrive later.

* * * *

Mrs. Harvey Hall was the guest of Mrs. Pearl Thomas at Keremeos on Wednesday.

* * * *

Mrs. Geo. Lewis, of Keremeos, called on friends in Cawston last week.

* * * *

The Cawston Girl Guides will hold a picnic on Friday, May 11.

* * * *

D. W. Sutherland, of Kelowna, is in Cawston on business connected with the Cawston cannery.

* * * *

Mrs. J. McDonald, who has been ill with gall stones, is improving.

* * * *

Mr. and Mrs. A. Prentice, Mrs. P. M. Madden, Mr. and Mrs. Roblin and daughter Gladys, motored to Penticton Tuesday.

* * * *

Mr. Stonehouse, of Kelowna, and A. J. Dommett, of Keremeos, were in Cawston on business Monday.

* * * *

Mr. and Mrs. Victor Quaedvlieg, of Keremeos, were in Cawston calling on different ones to find out the number of milch cows, as Mr. Quaedvlieg expects to start a creamery soon.

* * * *

D. Campbell, road foreman, moved his crew to Cawston Tuesday, and is camped near the Cawston ranch.

* * * *

Mrs. E. M. Crooker, of Keremeos, spent Tuesday with Mrs. F. M. Wright.

* * * *

H. Silvester made his regular trip to Penticton Tuesday.

* * * *

The Cawston Women's Institute held their regular meeting in the hall on Saturday afternoon. Mrs. T. Rooney and Mrs. Geo. Wainwright acted as hostesses.

* * * *

The Keremeos and Cawston Union church board met at the home of Mrs. F. M. Wright Tuesday.

* * * *

A. Prentice went to Kelowna to attend the district church meeting on Wednesday.

* * * *

R. J. Armstrong was in Oroville on business Tuesday.

HEDLEY NOTES

(From our own correspondent.)

Dr. McEwen and family motored to Penticton Saturday and spent the week end.

* * * *

The Hedley Gold Mining Co. have this week started shipping concentrates to the Tacoma smelter.

* * * *

The storekeepers of Hedley are starting this week to observe Thursday afternoon half-holiday, so do your shopping in the morning.

* * * *

Jack Smith and family, of Coalmont, were visitors to Hedley Sunday. They were accompanied by Jack Hardman, who spent a few hours at his home here.

* * * *

Mr. Harry Tidy, of Keremeos, has been a frequent visitor to Hedley of late. He seems to be interested in the potato business.

* * * *

Friends of Mrs. Thos. Knowles will be sorry to hear that she has been suffering from an attack of appendicitis for the last week or so, and is still quite sick. She expects to have to undergo an operation in the near future.

* * * *

Mr. H. E. Hansen and family, of Princeton, were visitors to town Saturday evening. They were accompanied by Robt. Clare, of Coalmont. Bob says they have lots of holidays now, as the mine is only operating four days a week.

* * * *

A number of townspeople took advantage of the bright Sunday to enjoy an outing in the car; car loads going both up and down the valley. While in Princeton, Mr. McKenzie looked up Mr. Dyson; they had not seen one another since parting in France at the close of the war.

COMING EVENTS

2c per word each insertion; minimum 25c

Big Celebration—Keremeos May 24th. Baseball, tennis, dancing and entertainment.

* * * *

Dance—Under the auspices of the Princeton hospital, Oddfellows' hall, Friday, May 11. Gents $1; ladies 50c.

* * * *

The annual statutory meeting of the below association will be held in St. Cuthbert's Parish hall on Monday, May 14, at 8 p.m. A Dominion Day celebration will be discussed. Princeton Rating & Athletic Assn., Ltd.

KEREMEOS NOTES

(From our own correspondent.)

Mrs. C. H. dePfyffer and Mrs. G. S. Loudon spent Friday in Penticton visiting friends.

* * * *

Harry Tidy returned last Wednesday from a trip to the coast.

* * * *

Mr. H. C. N. Etches, our genial postmaster, drove to Otter lake for the week end. He reports having a thoroughly good time.

* * * *

Dr. P. D. Van Kleek, of Armstrong, District Deputy Grand Master of the A. F. & A. M., last week visited the local lodges at Hedley, Keremeos, West Summerland, Princeton and Merritt.

* * * *

Competition for the two places on the Keremeos Tennis team for the men's doubles tournament on the 24th is very keen. Both Hedley and Princeton intend making bids for the championship of the valley.

* * * *

The Saturday night dance was attended by a large number of people. These weekly dances promoted by the Victory Hall committee and the Keremeos orchestra are attracting larger crowds as time goes on.

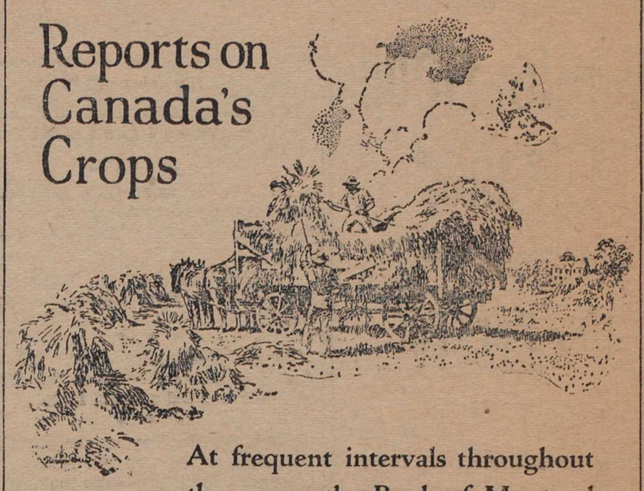
* * * *

Messrs. Ramsay and Baldwin made a quick trip to Penticton last Saturday morning on business. During the afternoon Messrs. Armstrong, Sharp and Pearce motored to the same point. All these gentlemen report good trips and declare that the scenery was magnificent.

* * * *

Friends of Mr. Jack Daines, former manager of the Keremeos Packing Company's cannery, will be pleased to hear that he has received the appointment of superintendent of the Broder Canning Co., Ltd., of New Westminster. This is one of the largest canneries in B. C., every variety of fruit and vegetables grown in the province, being canned.

Reports on Canada's Crops



At frequent intervals throughout the season the Bank of Montreal issues reports on the progress of the crops in Canada. These reports, telegraphed to headquarters from the Managers of the Bank's 600 Branches, cover every Province and form a reliable index of crop conditions.

The reports are furnished free. Upon request at any Branch of the Bank your name will be placed on our mailing list.

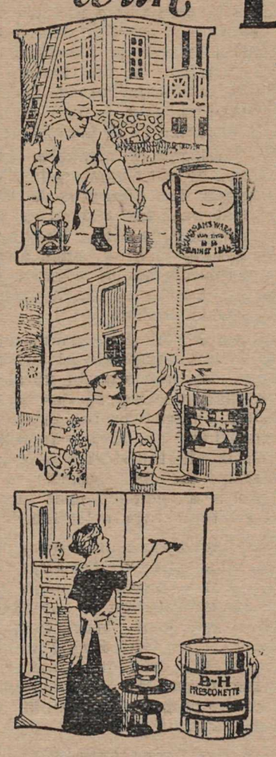
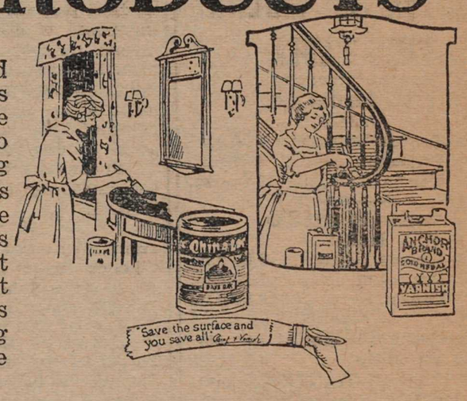
Protection and Preservation with B-H PRODUCTS





PROTECTION and preservation are as necessary to the tree that is moulded into new form, for building purposes, as it was when it stood in the virgin forest. Paint is that protection. Paint will preserve but, just as Nature protects with ever-renewing bark, so must paint be renewed.

Brandram-Henderson's products — and there is one for every painting purpose — bring real protection and preservation, no matter for what purpose they are used. And, to this protection, is added the economy of long wear and the beauty that comes from quality.
