Press Representatives Enjoy Mountain Trip

DISCOMFORTS OF FORCED JOURNEY IN SADDLE FAILED TO DAMPEN THEIR INTEREST AND ENTHUSIASM

Physically tired and sore from their long ride in the saddle, to which they were unused, representatives of the leading coast newspapers which left here in the early dawn last Saturday morning with escort provided by the Princeton board of trade, arrived in Hope at 5 o'clock Sunday evening, with plenty of enthusiasm, and with the feeling, that, strenuous as was the trip, they were amply repaid for the effort made.

The party consisted of Cecil Scott, editor of the magazine section of the Vancouver Province; C. Norman Senior representative of the Vancouver Morning Star; James Brown, city editor of the Vancouver Sun; D. Frank Marshall of the British Columbian, New Westminster, and William Rose, publicity agent for the Automobile Club of B.C. Representatives of the Princeton board of trade, which sponsored the expedition, were: P. W. Gregory, E. E. Burr, Dr. J. D. Butler, Gilbert Prideaux and J. A. Brown. George Allison provided the pack and saddle horses and looked after the transportation on the trip. He had as assistants Charlie Bonnivere, Billy Thomas and Bruce McDiarmid. Podunk Davis acted as guide and Mike Gaynor was cook.

On arrival here of the early morning train the visitors were given breakfast at the Similkameen Hotel, and at once left via motor cars for the end of the trail at 9-Mile bridge, where the horses were in waiting. Saddling and allotting of horses to best suit the requirements of different riders, and the taking of pictures of the start, occupied till six o'clock, when the procession lined up in single file and started the trek over the divide that separate Nine Mile and Whipsaw creeks.

The halt for luncheon was made at the summit, which was reached at 11 a.m., 16 miles of up-grade trail having been negotiated in five hours. It had been the intention to while away an hour at the summit, but the day being cloudy and a light drizzle of rain falling this was not done and the party proceeded on its way to Cayuse Flats in easy stages. The pack train arriving a little later camp was soon established, and in the twinkling of an eye that inimitable camp chef, Mike Gaynor, had an appetizing dinner served. And the manner in which every member of the party assailed those eats would have given Dr. McCoy a fit of nervous prostration.

Cayuse Flat fairly divides the distance between Nine Mile bridge and Hope. After a good night's rest the party attacked the second half of the journey with plenty of pep. Fourteen Mile ranch was reached before a halt was called for lunch and it was just five o'clock when the calvacade pulled into Hope. Before dismounting snapshots were taken of the arrival at Hope's leading hostelry.

There was just nice time for the Vancouver men to have a wash-up; secure dinner and catch the K.V.R. train at 7:15 back to the city. Representatives of the Princeton board of trade caught No. 12 K.V. train and were home early Monday morning. George Allison, Charlie Bonnivere and Mike Gaynor did not go any farther than Cayuse Flat, Billy Thomas and Bruce McDiarmid accompanying Podunk Davis into Hope to help in bringing the horses back.

At Hope the Princeton visitors were generously entertained by members of the board of trade until train time. A member of the party, not previously mentioned but one who enjoyed the trip immensely, was Master "Tuffy" Burr.

While the outgoing trip was accomplished without hitch or accident of any kind, the men returning with the horses had some trouble. While in camp near Spencer's camp a number of their horses took French leave and a day was lost rounding them up.

Weather conditions for the trip were all that could be asked; there was plenty of feed for the horses all along the route and the vegetation and flowers were at their best. It was a matter of regret, however, that the trail in places was so badly overgrown with brush as to make progress difficult. It is just five years since the writer was over the trail on a similar trip and while pleased to notice the entire absence of any damage from slides to the trail during that time, we were sorry to notice that it is beginning to assume an abandoned appearance owing to the growth of underbrush and the gradual rotting out of bridges and culverts built long ago.

News items covering the trip appeared in all the papers which sent representatives along, and a descriptive write-up of the journey, illustrated with photos taken en route, will shortly appear in the magazine section of the Vancouver Province.

Citizens of Princeton cheerfully subscribtd the money necessary to cover the expenses of the expedition while the promoters also contributed no little time and effort in putting it over. The general opinion is that the publicity which will be gained well justifies the effort made.

STEAMBOAT MT. ALL RIGHT SAYS BILLY ROBINSON

The wholesale condemnation of Steamboat Mtn. made by Camsell in his 1911 report was not justified in view of the splendid showings of high-grade silver-lead ore recently uncovered by Charley Howlett and Alex Defries in that vicinity, claims Billy Robinson of Defiance Camp, located on the Dewdney trail 22 miles this side of Hope. They have been striking it good there he says. Steamboat Mtn. is located about 10 miles down the Skagit trail from 22-Mile and is close to the border.

Mr. Robinson also showed the Star editor some splendid samples of shelite, running approximately $1,000 to the ton in tungsten, from a very promising vein which he had recently encountered on one of his own claims. Four minerals, particularly in demand during the war—shelite, nickle, molybdenum and manganite—are all to be found in that district, claims Mr. Robinson. He is considerably annoyed over the government's failure to carry out the definite promise made directly to him on two different occasions by Hon. Dr. Young and Hon. Dr. Sutherland, to build the road which would open up the district for development.

Garnet Sootheran Makes Another Strike

NEW FIND MADE ABOUT ONE HUNDRED YARDS BELOW SENSATIONAL STRIKE OF A YEAR AGO

Garnet Sootheran, who made the sensational strike of platinum on his holdings up the Tulameen last year, but interest in which appears to have waned as time passed and no new developments were reported, again stepped into the limelight yesterday when he drifted into the bank at Coalmont Tuesday with another nine ounces of the precious metal.

The display of the valuable metal caused quite a ripple of interest among a large number of the prominent shareholders of the Coalmont Collieries who happened to be in Coalmont that day on a visit of inspection at the coal mine.

The platinum on this occasion was taken from a small island in the river about 100 yards or so below the place where Mr. Sootheran made his remarkable strike last year. This time he believes he has made a strike which will prove to be very important.

HEAR THE BAND

How many children in the Similkameen Valley have never heard a real brass or silver band? Hands up please!

Well, you will have the opportunity next Sunday. The Vancouver Silver Citadel Band will arrive in Princeton on the early morning train; make an early forenoon trip to Allenby; play there for a half hour or so; returning to Princeton they will play for a time at the hospital, provided there are no patients so seriously ill that this would not be advisable; then at the Memorial Park between 10:30 and 11:30. After an early lunch they leave by motor cars for Penticton, playing for a half hour at both Hedley and Keremeos.

All the band ask is what the people choose to contribute voluntarily when the hat is passed around, and their breakfast and luncheon while here and transportation from Princeton to Penticton.

People of Princeton provide the necessary meals, and transportation to Hedley. Car owners in Hedley will pass them on to Keremeos, and the residents there have signified their willingness to take them through to Penticton in time for supper and their evening engagement there.

The band consists of 33 pieces, or three more players than constituted the Australian band which recently played in Penticton. All who have heard them play speak in high terms of their work.

LOCAL MERCHANT INSTALLS FRIGIDAIRE

Mr. John L. Coles has demonstrated his belief that modern methods are the most profitable by installing a new Frigidaire ice cream cabinet. This cabinet, which is a product of General Motors Corporation, facilitates the sanitary preservation of ice cream and is remarkably compact and convenient, restocking it being merely a matter of replacing the empty containers by full ones.

By its use Mr. Coles will be enabled to carry ice cream bricks in various flavors. "Palm" brand ice cream, which he is stocking, is very popular in Vancouver and should prove to be so here.

Another attractive feature of Frigidaire is the silence of its motor, which Mr. Coles has had installed in the basement.

The man who used to dose himself with quinine and whisky for a summer cold has cut out the quinine.

Now that the hiking season is here, isn't it wonderful to get out in the great open spaces where men are men and women try to look like them?

Extensive Development Work at Summit Camp

BUILDING OF MILL WILL BE DEFERRED TILL ORE RESOURCES ARE FURTHER DEVELOPED—WORK DONE ON ROAD

Erection of a mill by the Cascade Consolidated Company on their Summit Camp mineral claims, contemplated recently, is to be held in abeyance for the present, according to District Mining Engineer P. B. Freeland, who has just returned from a visit to that camp. For the present all efforts will be centered on further development work.

Twenty-five men are now being employed at the camp, drifting both east and west on the lower tunnel, No. 3, and cross-cutting on No. 1, which is located about 1200 feet on the dip above No. 3. A raise is also being run on the ore shoot in No. 3.

Dick Welsh is foreman of the work at the mine and Henry Crowther is resident manager. "Scotty" Allen and his road crew have done some good work putting the road in shape for motor cars between Kelly creek and the mine. A drag of "Scotty's" own contrivance proved a very useful instrument for road making. Mr. Freeland is arranging to have the government road grader put over the road between Tulameen city and Kelly creek so as to smooth out the rough spots. It will then be comparatively good going by car right up to the mine. But it is only a one-way road and users must make inquiries and guard against the possibility of meeting cars or trucks coming from the opposite direction.

GAME REGULATIONS FOR 1927

The province is divided into two districts only this year for game purposes, the western district including all territory west of the Cascade Mountains and south of the electoral district of Atlin, and the eastern district including the remainder of the province.

The only exception is that for migratory bird seasons in that portion of the Lillooet electoral district to the east of a line drawn north and south of Alta Lake railway station will be considered within the eastern district.

In the eastern district the deer season will be from September 1 to December 15, inclusive, bucks only being shot. This open season will not apply to white tail deer in North and South Okanagan and Similkameen and Grand Forks-Greenwood, west of the summit of Midway Mountain.

All fur-bearing animals, except beaver and muskrats, will be open for trapping from November 15 to April 30, 1928, inclusive.

Muskrats will be open from March 15, 1928, to April 30, 1928, in the eastern district.

Ducks, except wood and eider, Wilson snipe, coots, geese and brant, will be open throughout the eastern district from September 15 to December 31.

Blue Grouse

Blue grouse only will be open in that portion of the eastern district including Grand Forks-Greenwood riding and that part of Similkameen east of Allison Creek, South Similkameen River and the Pasayton River from Sept. 15 to October 15, inclusive. Blue and willow grouse and ptarmigan may be shot in the Cariboo from September 1 to November 15, and in the remainder of the eastern district except Omineca, Skeena, Fort George, Atlin, North and South Okanagan from September 15 to October 15.

The open season for ptarmigan in Omineca, Skeena, Fort George and Atlin will be from September 15 to November 15. Prairie chicken or sharp-tailed grouse may be killed in Fort George north and east of the Rocky Mountains from September 1 to October 15. In Cariboo and Lillooet to the south of the fifty-third parallel these birds will be open from October 15 to October 31.

Quail may be killed in Similkameen and South Okanagan from October 15 to November 15.

Pheasants

Cock pheasants will be open in South Okanagan and in Similkameen east of Allison Creek, the South Similkameen River and Pasayton River, and in North Okanagan except east of Coldstream Municipality and in Salmon Arm Municipality from October 15 to November 15. It is provided further that cocks may be shot in that part of North Okanagan comprising the territory lying within the drainage area of Duteau, Harris and Bessette creeks and bounded on the north by the Creighton Valley Vernon road, on the west by Coldstream Municipality and on the south by the boundary of the electoral district from October 15 to October 31.

European partridges may be shot in Similkameen and North and South Okanagan from October 15 to November 15, and in Salmon Arm Municipality from November 1 to November 31.

It used to be that a parent had to buy toys for three or four years before the young hopeful finally outgrew the toy age. Fifty cents will buy all that are necessary now to bridge the gap between a rattle and a hip pocket flask.

Extensive Alterations In Government Building

OLD COURT HOUSE WILL BE ALTERED IN APPEARANCE CONSIDERABLY WHEN PROPOSED CHANGES ARE MADE

Alterations in the old court house here, provided in the plans and specifications, and for the carrying through of which tenders are being called, will greatly alter the appearance of the building both outside and inside. the tower, which now graces the front of the building, will disappear, a gable roof being carried forward in its place and providing space in the front of the upstairs for a cosy sitting room commanding a view of Vermilion.

Two bedrooms are provided for on the south side of the building and two smaller ones in the rear. Pantry, kitchen and bath-room will occupy the northern side of the building upstairs. When completed it should prove a very comfortable modern dwelling apartment.

On the ground floor there will be a general shifting around with the exception of Mr. Beech's office, which will remain where it is. The large room on the south side of the building, formerly used for high school purposes, will be divided by partitions into three parts. The front room will be used for police office and court room; the rear room as sleeping apartment for a policeman; and the smaller one between these two as a cell for prisoners.

Mr. Evan Thomas, fire warden, will move his office into the one now used as police office, and the small one now occupied by him, will be available as a store room for supplies and documents.

Plans and specifications may be seen at Mr. Beech's office. July 25th is the limit of date fixed for receiving tenders. The changes are being made for the double purpose of providing suitable living accommodation for the mining recorder and better office accommodation.

RUNNING TIME OF SICAMOUS CHANGED

Changes in the time table of the Sicamous are announced from Penticton. In future and until further notice the boat is to leave for the north at 7 o'clock in the morning instead of 7:15 o'clock. She is due to leave Kelowna northbound at 10:20 a.m. and arrive at Okanagan Landing at 1 p.m.

Southbound, the Sicamous will leave the Landing at 2:15 p.m., leaving Kelowna at 4:30 p.m. and arriving at Penticton at 7:45 p.m. The present arriving time of the boat is 8:40 p.m.

There is no Sunday boat for the summer as had been reported around town.

MANY AMERICANS VISIT PENTICTON

Penticton, July 8.—More than one thousand Americans visited Penticton over the week-end holidays, most of them coming up for Sunday to take in the Fourth of July here.

There were 220 American visitors at the tourist camp, all the hotels were full and many arrivals slept in their cars.

One estimate has it that they expended nearly $10,000 in Penticton, more than half of it with the local merchants.

VET INJURED BY RESTIVE HORSE

Doc Sinclair, a veterinary from Cannington, Ont., one of the party touring this province purchasing horses for the Soviet government, is reported to have had his hip dislocated by a restive cayuse at Joe Brent's ranch.

The report does not say what excited the horse but it must have been either the idea of being sold to the Bolsheviks or the price of $20 per head which they were offering for horses which were able to meet certain exacting requirements.

So far as we can learn no horses from this district were sold to the commission as the prices offered would not leave sufficient to pay for a halter after deducting expenses in connection with round-up and delivery.

BIG ROAD BUILDING PROGRAM LAUNCHED

Victoria, B.C., July 12.—The biggest road building program ever undertaken in British Columbia is under way now, but it will only begin to satisfy the demand of British Columbians for more good roads.

In every part of this province big gangs of men are at work improving existing highways and building new ones to provide travel facilities for isolated communities or to create new routes for cross-country travelers. This work is at its peak now and is being pushed ahead with speed which seemed impossible earlier in the building season. Work which was expected to take from two to three years will be completed before the end of this summer. A program of several years in fact, is being compressed into a single year of concentrated effort.

IMPRESSIVE CEREMONY FOR MRS. A. C. MacKENZIE

Friends from all parts of the valley were assembled at St. Paul's Church on Sunday afternoon last to honor the late Mrs. A. C. MacKenzie, while the members of two lodges, the Rebekah and the Eastern Star, attended in a body to pay their last respects to their beloved sister.

There were numerous lovely floral tributes, betokening the respect and love which so many held for the deceased. The service, which was impressive and beautifully conducted throughout, opened with the grand old hymn "Rock of Ages." Later Mrs. A. Wilson sang "God That Madeth Heaven and Earth."

Rev. Goodfellow made a few well-chosen remarks, speaking of the beauty of character of the one who had passed on, and offering condolence to those left behind.

Interment took place at the Princeton cemetery, Mr. P. Rowlands, Mr. J. Huey, Mr. H. H. Avery, Mr. Wm. McLean, Mr. P. Rowlands and Mr. W. Garrison bearing their old friend to her last resting place. The graveside ceremony was conducted by the members of the Rebekah Lodge.

To Work Placer Claims At Slate Creek

SIMILKAMEEN PLACERS LTD. AND SLATE CREEK SYNDICATE BOTH MAKING PREPARATIONS TO BEGIN SLUICING

Tom McElroy arrived on Tuesday from Vancouver to take charge of operations which are to be carried on this season by the Similkameen Placers Ltd. on their leases just below Slate creek, situated a few mils up the Tulameen river from Tulameen City. He drove in to Tulameen via the Fraser Canyon route accompanied by his wife and two daughters.

Mr. McElroy will have a gang of eight men employed and it is expected arrangements can shortly be completed so that sluicing can begin.

At Slate creek itself, according to Mr. Norman McCormick, the Slate Creek Platinum Syndicate have four men employed under Jim Fraser. Before sluicing operations can be commenced here, there remains to be completed a tunnel which is being run through the old channel to intercept the bed rock beyond. The pay dirt will then be brought out through the tunnel and sluiced at the creek.

EASTERN CAPITAL TO OPERATE HORN SILVER

Penticton, July 7.—A. C. McDougall of Vancouver, managing director of the Horn Silver mine, south of Keremeos, in the Similkameen, arrived in Penticton this morning, and reports that arrangements have been concluded in the east for the underwriting by Stobie, Furlong & Co. of stock to the value of $800,000 for this mining company.

Of this sum, $300,000 is available, and will be spent immediately for the installation of the latest machinery and in development work. This means the employment of from 25 to 30 men steadily, and arrangements are under way for commencing operations at once.

Recently a four-foot seam covering a wide area was struck on the Woodrow claim. The Big Horn Silver Mines Ltd. is the name of the concern formerly known as the "Horn Silver."

In mentioning a recent visit to Princeton of Mr. Francis Glover, of Vancouver, we stated that he had recently been in the employ of the Duthie Company at Smithers. This was an error on our part. Mr. Glover had been at Smithers, but in the employ of the Canadian Anthracite Syndicate, not the Duthie Company.

Penticton municipal council has ruled that the public is entitled to the free use of the diving stand erected in front of the Aquatic Club.

Observance of the Twelfth of July this year by Princeton Orangemen was confined to a dance in their new hall in the evening, which was well attended and much enjoyed by all present.

PRINCESS THEATRE

Friday and Saturday
JULY 15th and 16th
NORMA SHEARER in
"THE WANING SEX"
A gay, fast-stepping novel of what happens when a girl goes in for a career and stubs her toe in pursuit of romance.

Monday and Tuesday
JULY 18th and 19th
"Desert's Toll"
The thrill gripping drama life.

Increased Appropriation For School Purposes

SMALL ATTENDANCE AT ANNUAL MEETING—HUGH HUNTER IS SUCCEEDED BY MR. EDWARDS ON SCHOOL BOARD

It was left for a handful of ratepayers at the annual school meeting on Saturday evening to vote the heaviest appropriation that the Princeton school district has ever been called upon to provide. Not only were this year's estimates required to provide for the erection of increased school accommodation, but the additional increase which would naturally follow in the way of upkeep had also to be taken care of.

Despite the efforts of the school board to expedite matters, owing to delay in connection with the preparation of plans, the time for the annual meeting found them without any very definite proposition to submit. The plans had finally been received from the architect and forwarded to Victoria for approval. But, though a telegram had been received from the department stating that some changes would have to be made before the plans could be approved, the covering letter, explaining these alterations did not arrive till Sunday morning, or too late to provide any information at the meeting.

In the absence of definite data the meeting based its calculation on a two storey, four room building costing $16,000. As one-half the cost of this would be met by the government, there would be $8,000 for the district to provide, and this amount was accordingly voted with re-payment spread over a period of four years. For ordinary purposes, last year's appropriation of $7,000, was increased to $8,500 to provide, as referred to above, for the increased cost in upkeep which will necessarly ensue with the larger building accommodation.

This brings the amount to be raised for the coming year to $10,500, but as the item of architect's fees appears to have been overlooked the amount is expected to reach $11,000.

On receipt of the letter from the government Sunday it was found that its architect's objections to the plans were primarily to the provision for lighting one of the rooms and the fact that the stairway leading to the upper rooms was located directly over the heating plant.

It is learned since that in order to have the plans made to conform with the requirements of the government, with as little delay as possible, Architect Lyon of Penticton, who was employed on the job, left on Tuesday's train to consult with the architect employed by the department of education. Just as soon as an agreement is reached tenders will be called for.

Election to fill the vacancy on the school board caused by the retirement of Mr. Hugh Hunter, after many years' service, resulted in Mr. F. C. O. Edwards of the Bank of Commerce being chosen. The board is now comprised of Mrs. Wright, secretary, and Messrs. Hall and Edwards. The secretary has taken up the question of financing a loan for $8,000, repayment of which will be divided over four years. This will likely be effected by the issuance of bonds.

MUCH ROAD WORK NOW UNDER WAY

Penticton July 7.—Much of the improvement work on the highways south of Penticton has already been carried into effect. Important among these is the widening of the bad sand turn two miles out, near the southern end of the Indian reserve on the Kaleden road. This turn has been widened to a minimum of twenty feet.

Under the direction of Foreman Simpson, the diversion of the south road at the Marron lake junction is now under way. The grade at this point will be cut from twelve to eight per cent. Other changes are to be made at the Junction ranch hill, where a diversion will eliminate the present steep grade and turn, insofar as the south road is concerned.

Work in connection with eliminating six bridges on the Keremeos road in the Shingle creek canyon is to be commenced this month. Engineer Gwyer states that the road will be closed for just as brief a time as possible. Large gangs are to be employed. During the progress of the work, the road up to Horne lake from the Keremeos highway, the road from near Clark's east towards Kaleden along the Kaleden ditch, and the Shingle creek road to Summerland will be used as diversions.

Improvement work on the Anarchist Mountain highway is now under way.

A survey has been made for road diversion on the Copper Mountain road over Wolf creek and covering a distance of approximately five miles. R. A. Barton was in charge. It is planned to reduce the grades. In the Princeton district the grades on the One Mile road are also being revised.

The cutting off of sharp rock corners on the Penticton-Peachland road is still continuing. Gangs will be at work on this highway all summer.

The house of P. Antonick, section foreman, Merritt, was entered by a burglar one evening last week, and $117 in cash taken from Mrs. Antonick.

CONFIDENCE OR INDIFFERENCE ?

The ratepayers of the Princeton school district on Saturday evening displayed either wonderful confidence in their school board or else a most deplorabe lack of interest in one of the most important problems with which they have to deal, and one which touches the pocketbook of every ratepayer as well.

It was left for a handful of eight ratepayers to vote a matter of $11,000 for school purposes. Strange that people who view with so much consternation the remote possibility of a slight increase in their taxation, when other matters of public improvements are concerned, should view this so philosophically.

True, it may be argued, that the holding of these meetings on a Saturday evening makes it difficult for merchants to attend, but that circumstances can scarcely form a satisfactory explanation of the attendance at the meeting in question.

HOPE-PRINCETON ROUTE

Three irrefutable arguments in favor of building a highway between Hope and Princeton cannot fail to register themselves on the mind of a person making a trip over the route.

First—the directness of the route and the tremendous saving in distance which it would mean to people from the populous southern interior of British Columbia who have occasion to travel to Vancouver, and, conversely, people from the coast having occasion to make a trip to the southern interior.

Second—The low cost of building such a road as well as the low cost of up-keep. With the exception of a few miles the route leads over ground where road-making would be of the easiest possible description, and for a distance of 34 miles a road already exists which could easily be converted into an auto road. That the up-keep would be trifling in comparison with some other roads is evident by the entire absence of any damage from slides to the present trail after the lapse of many years without any attention.

Third—Such a road would open up a large territory very rich in timber and mineral resources, and at present not served by any means of communication.

The magnificent scenery which could be enjoyed from a safe roadway; the splendid fishing; the park-like places through which the route runs and the advantages of an alternative route, within the province, over which a tourist could make a return trip, are perhaps equally appealing but need not be dwelt upon.

FEW WOMEN USE PARLORS

Vancouver, July 12.—According to reports from leading hotels throughout the city, women are again frequenting the beer parlors but so far in limited numbers only. Several of the parlors have separate rooms where women only are served, while others are perpermitting male escorts to accompany ladies into the latter's section.

According to an agreement reached at a meeting of the Hotelmen's association on Saturday, it was decided to permit women in parlors, under strict supervision. Several licensees stated today that while they did not expect so large a women's trade as formerly they looked for steadily increasing patronage from the fair sex.

Mr. J. "Wingy" Jackson of Copper Mountain is in the hospital suffering from a very severe injury in the right thigh, and Mr. Jack Collins has an injured arm as the result of an auto crash last evening on the Similkameen river bridge. They, with three other companions, were riding in a Chev touring car driven by Bobby McKinnon who failed to negotiate successfully the turn on to the bridge. A piece of wood, apparently from the railing of the bridge, was driven into Johnson's thigh a depth of six inches.

MINERAL ACT
(Form F.)

Certificate of Improvements

NOTICE

THE BALSAM FRACTIONAL MINERAL CLAIM

Situate in the Similkameen Mining Division of Yale District. Where located: On Copper Mountain, adjoining the Lemon No. 15 Mineral Claim on the south.

TAKE NOTICE that I, P. W. Gregory, F.M.C. No. 6378D, acting as agent for the Granby Consolidated Mining, Smelting & Power Company, Ltd., Free Miner's Certificate No. 99423C, intend, sixty days from the date hereof to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 12th day of July, 1927.

Princeton Paragraphs

Mrs. W. J. Standfield of Superior, Wn., is the guest of her sister, Mrs. Wm. Forsyth.

Mrs. Lena Spencer of Virginia is making a fortnight's visit at the home of Mrs. D. Fergusson.

Miss Marion Rennie of New West-minster is making a holiday visit at the home of Miss Evelyn Bell.

Miss Gwen Carmichael of Similka-meen has been a guest at the home of Mr. and Mrs. Del Young for a few days this week.

Stanley McClay, who has been the guest of his aunt, Mrs. Gellatly, for the past ten days, leaves tomorrow for his home in Vancouver.

Miss M. Wilkie, who held a position on the teaching staff here four years ago but now in Trail, has been spending the past fortnight the guest of Mrs. Elmer Burr.

Miss Eva Gibson, of the local tele-phone staff, left on Thursday on a month's holiday, the greater portion of which she will spend with relatives at Dawson City.—Merritt Herald.

A Star reader asks what is the speed limit for autos on the streets of Princeton? The only answer we can give, gentle reader, is that it all depends, apparently, upon the pitch to which your car is tuned.

The New Westminster British Co-lumbian was represented on the trip over the Dewdney trail by Frank Marshall. Mr. Marshall came in a day ahead in order to get acquainted with our town and the various activities of the district.

Mr. J. L. Coles has recently taken over the agency for the well known Eastman Kodak Co., formerly held by the Princeton Departmental Stores, and is prepared to cater to the requirements of local photography enthusiasts and to do their developing and printing.

The many friends of Bob Forsyth will regret to learn that, owing to injuries received at Blakeburn, he was brought to the Princeton Hospital last Friday night, and thence to St. Paul's Hospital, Vancouver, on Saturday. Word was received this morning to the effect that he is progressing as well as can be expected.

Mr. and Mrs. H. C. Smith, Miss Dorothy Smith, Miss Lillian Scott, Mr. Nye, Mr. McLean and Mr. and Mrs. H R. Taylor of Allenby motored to Penticton for the week-end. Miss Muriel Wagenhauser and Mr. Eric Mallet Part also motored to Penticton last Saturday and brought back with them Miss Ruth McCulloch, who will visit at the home of Mr. and Mrs. Wagenhauser.

Rev. and Mrs. H. E. D. Ashford and little son, Ray, left on Wednesday, July 6, for Mr. Ashford's home at Newcastle, N.B. Mr. M. Irwin drove them to Penticton, where they boarded the Sicamous. Rev. J. C. Goodfellow also accompanied them to Penticton, going from there to Victoria the next day and returning to Princeton at the end of the week accompanied by Mrs. Goodfellow and three children.

Dr. Allen Harris and Basil Wright of Summerland and Wilson Knowlton of Vancouver were visitors in Princeton last week-end, motoring from here to Merritt and Kamloops, and thence home. Dr. Harris, the famous discoverer of Element 61, plans to leave in October for Paris, where he will study this winter. Next year he will resume his position as assistant professor of chemistry at the University of B.C. Mr. Knowlton is a nephew of Miss Knowlton of our hospital staff, and is spending a holiday at Summerland.

CLOSED—The dress making rooms of Mrs. Gerow will be closed for the next few weeks, but will reopen on her return from a holiday trip to the coast. 2-np

FOR SALE—Building on main street of Princeton, suitable for business or office use. Furnished with counter, register, barber outfit, pool table and other furniture; splendid site. What offers? Gus Vladetich, Princeton. 31-tf

As will be noticed in our advertising columns, Mr. T. J. Guinan has accepted the local agency for the Guaranty Savings and Loan Society of Vancouver. He is prepared to receive savings and negotiate loans. So far as possible this company make a practice in each district of placing loans to the approximate amount of the savings deposited with them—a reciprocal arrangement which should commend it to patrons.

CARD OF THANKS

Mr. A. C. MacKenzie, Miss Helen MacKenzie, Miss Ida Huston, Mrs. Wm. Forsyth and Mrs. W. J. Standfield wish to thank the many friends for their expressions of sympathy during their recent bereavement.

Loyal Order of Moose

Princeton Lodge, No. 1663, L.O.O.M., meets second and fourth Wednesdays, Oddfellows' Hall, Princeton. Visiting brothers cordially invited to attend.

BOARD OF INVESTIGATION UNDER THE WATER ACT.
J. E. LANE, Chairman.
35-4 J. C. MacDONALD, Member.

a reservoir

LIKE the camel which stores up large quantities of water when it can, because the opportunity may not occur soon again, it is wise for mankind to store up some provision for the future during productive earning years.

The safest and easiest way to do this is to purchase a Confederation Life policy—a Guaranteed Pension Bond, for instance. Then you have a reservoir that no future hazard of fortune can empty.

An interesting pamphlet, "The Key to Happiness," will be sent upon request.

One single cord is made up of 15 small cords. These small cords are made up of cotton fibers, all saturated in rubber by process of dipping cords in rubber solution.

Gum-Dipped Tires

Help You Save Money

The Firestone process of saturating the cords in rubber solution, insulates every fiber of every cord with rubber, minimizing internal friction and wear.

It gives stamina to the cords and makes possible the strong, flexible sidewalls of Firestone Full-Size Balloons, that give you full cushioning on rough roads—absorbing the bumps and bridging the ruts. The scientifically designed Firestone Balloon tread grips the road—resisting skid and giving traction in slippery places.

Firestone Balloon Gum-Dipped Tires on your car will deliver greater safety and comfort and materially lower your tire costs. The nearest Firestone dealer is equipped to serve you better with these better tires. See him now.

Synopsis of Land Act Amendments

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subject over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B. C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i. e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on bers ranged, priority being given to timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a compnay.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numestablished owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

CAWSTON NOTES

Mr. and Mrs. S. Hughes and daughter Audry of Copper Mountain passed through Cawston Thursday en route from a week's motor trip to the coast.

* * * *

Mrs. R. J. Armstrong and children are camping at Copper Mountain for a week.

* * * *

At the annual ratepayers meeting Saturday evening C. Tickell was returned to the school board by acclamation.

* * * *

The auxiliary of the Cawston United Church held a very successful sale of ice cream Saturday evening.

* * * *

Mrs. G. Cole of Vancouver has been visiting at the home of Mrs. A. Whyte and renewing old acquaintances.

* * * *

Mrs. L. V. Newton returned home with daughter Dorothy from their visit with Mr. Newton at Kamloops Thursday evening.

* * * *

Mr. and Mrs. J. MacDonald were guests of Mr. and Mrs. A. Felhauer on a motor trip to Penticton Friday, July 8.

* * * *

The regular meeting of the Women's Institute was held at the home of Mrs. W. J. Dunnett Thursday afternoon, twelve members being present.

* * * *

Mr. Percy Cass was a visitor in Cawston during the week.

* * * *

Mr. Percy Pettipiece is spending his summer holiday at the home of his parents, Mr. and Mrs. T. Pettipiece.

* * * *

Mr. S. R. Manery was in Penticton on business Monday, July 11th.

KEREMEOS NOTES

Mrs. James Innis returned to Vancouver on Wednesday, accompanied by her daughter-in-law, Mrs. Dave Innis, who plans to spend a holiday with her son, Leonard, at Powell River. The four-year-old son of Mr. Hilliard Innis of Hedley will also accompany Mrs. Innis sr. to the coast and will make his home with her.

* * * *

Mr. and Mrs. Jas. Clarke, Miss Madge East, Miss Grace Pilkington and Mr. Doug Campbell spent the week-end at Lake Skaha.

* * * *

Mr. and Mrs. Tom Daly were Penticton visitors on Monday.

* * * *

There will be a free dance in the Victory Hall on Friday evening next in honor of Miss Madge East, Wilfred Madore and Orphir Meilleur, all of whom are planning to leave Keremeos soon.

* * * *

Messrs. Arthur, Curly and Tui Mattice, Miss Olive Mattice and Miss Mabel Schuman motored to Penticton on Monday.

* * * *

Mr. and Mrs. G. G. Keeler, Mrs. Karl Keeler and Miss Mary Ring motored up from Seattle last week, arriving in Keremeos on Friday. Miss Ring plans a visit to Rossland, and Mrs. Karl Keeler one with her sister, Mrs. Pedy, at Coquihalla. Mr. and Mrs. G. G. Keeler will spend the week with friends here.

* * * *

Mr. Lorne Coleman and Mrs. Kirby were visitors in Penticton on Monday.

CARD OF THANKS

The undersigned, on behalf of himself and young son, wishes to thank the people of Hedley and district for their kindly sympathy and assistance during their recent loss of a loving wife and affectionate mother.

J. H. INNIS.

Hedley, July 13, 1927.

LIGHT FRUIT CROP

Estimates were issued from the horticultural office at Vernon covering the anticipated crops of apples, crabapples, pears, plums and prunes. Apples, which totalled 3,569,295 boxes last season, will reach only 2,679,507 this year, according to the figures. Crabapples show a reduction of from 171,150 boxes to 126,500, with pears declining from a yield of 144,993 to 96,500. Plums and prunes produced 325,044 boxes last season; this year's estimate is 231,944.

Soft fruit estimates issued from Vernon in June showed an estimate for cherries this year in the Okanagan district of 54,100 boxes as compared with 133,474 in 1926, 64,000 boxes of peaches compared with 166,934, and 40,850 boxes of apricots as compared with 124,433 boxes last season.

ESCAPED LUNATIC RECAPTURED AT PENTICTON

Penticton, July 7.—Great excitement was caused in town upon the arrival of the westbound train at 11 o'clock when it was reported that a lunatic had escaped from the train and was at large in the outskirts.

He was a patient for Essondale and was being taken from Rossland to the coast. As the train was coming down the spur from South Penticton to the wharf he escaped from his attendant and leaped off near the Union Oil tanks. When seen later he was crossing the school grounds and apparently heading for the brushy district along Penticton creek.

Municipal police, Mounties and provincial officers, with volunteers, scoured the bench and town in search of him. About three o'clock he was taken by the officers near the Wallace Mutch orchard after a slight tussle. The man's name was John Williams.

Your Children — *and* the Years to Come

Jack Intends

If Dad can finance it, Jack intends to go to college next year. He's a sixteen-year-old, keen on sports, intensely alive, interested in everything that goes on . . . man-size in all but years.

Every year he's learning new buying habits—stepping-up his spending power. It means that Dad will have to do some figuring to give the boy his start.

Edna Hopes

As soon as Dad can manage it, Edna hopes to begin that special training course. She's going out more—wears evening dress—*has* to have more clothes. More than ever, each dollar counts . . . must be well spent.

So Mother plans and saves to keep expenditure within bounds. Her son and daughter have earned the right to be well-equipped to face life's battles, so that they may have every chance of success.

What plans are *you* making for the future of your children? It is important that they should be enabled to follow their natural bent. Guarantee them a good start in life by providing for their future no matter what may happen to you. A Manufacturers Life Endowment Policy will do it.

THE
MANUFACTURERS LIFE
