Similkameen Residents Celebrate Victoria Day

KEREMEOS WAS RALLYING POINT AND PEOPLE GATHERED FROM ALL PARTS OF THE VALLEY TO ENJOY THEMSELVES

Following their respective baseball teams, the people of Coalmont, Copper Mountain and Princeton journeyed to Keremeos on May 24th in sufficient number to make the annual celebration staged there a complete success. Other places in the valley also contributed their quota, but there were comparatively few from outside points presents at the sports, owing, no doubt, largely to the fact that Oliver was also celebrating Victoria Day. Later, several carloads drove over from Penticton to attend the dance in the evening at which a Penticton orchestra had been engaged to play.

Baseball

As a curtain raiser to the day's sports the Princeton Colts and a combined team from Hedley and Keremeos of junior baseball players took the diamond at 10:30 a.m. and amused the early comers with seven innings of very snappy ball. Though the lower valley boys had a decided advantage in respect to size the game was so evenly contested that at the start of th final innings the score was a tie—13 all. In the final frame the Colts by snappy work, blanked their opponents, and settled the argument by pushing over the plate the first player up, with none out.

As Allenby failed to field a team, and no teams from the outside entered, the tournament in the afternoon was a three-cornered contest between Coalmont, Copper Mountain and Princeton—three of the four teams forming the Similkameen Valley League. As it was the first time this season any of these teams have met, fans were all anxious to see how they would stack up.

If the result of Tuesday's games forms any criterion, the championship of the valley will again almost certainly remain with the hard-rock miners of Copper Mountain. They simply wiped the diamond first with the coal miners, and immediately repeated the performance with Del Young's chosen aggregation. We refrain, by special request, from publishing the scores.

Trapshooting

With the departure of Fred Pope from Coalmont the gun club of that town seems unable to function. At any rate they failed to send down a team to enter the Shatford Cup competition, leaving it to the Princeton and Keremeos teams to battle for possession of the trophy. Princeteam, holders of the cup, were able to retain it by a comfortable margin of points. Ernie Grey, with 23 out of 25 birds, was high gun in this competition and also in the open doubles which followed. In the latter he just missed making a possible when he allowed the last bird to escape.

Chautauqua

An added feature to the celebration this year, but one which appeared to clash rather than harmonize, was the opening in Keremeos the same day of a series of entertainments by the Dominion Chautauqua. With the Victoria Day celebration this week and the school track meet next week, residents of Keremeos had their hands full, and any other time would have proved more acceptable and more opportune, but apparently Chautauqua had the fixing of the dates, and, during the afternoon while baseball fans loudly applauded the efforts of their respective teams on the ball ground adjoining the Victory Hall, a goodly number within listened to the opening program presented by the Toronto Male Quartette.

Splendid Dance

Keremeos Victory Hall Committee has long enjoyed a very favorable reputation for the dances staged by it. But on Tuesday night it is safe to say that it excelled all previous efforts. Never have we witnessed such a gallant gathering of youth and beauty from one end of the valley to the other. Blakeburn, Coalmont, Copper Mtn., Princeton, Hedley, Cawston and Similkameen all contributed their quota to the party of merrymakers, and a fair representation from Penticton followed their popular orchestra which had been secured to provide the music for the occasion.

BLACKLERS HURT IN CAR ACCIDENT

Oroville, May 20.—Mr. and Mrs. J. A. Blackler of Oroville were severely bruised and wounded last Sunday morning when their car left the road on the Penticton highway near Vaseaux lake and turned over twice with them. They were rushed in another car to Penticton where they were confined to bed for several days although they escaped without broken bones or internal injuries.

The Blackler car, a Hudson coach, was said by those who saw it in a garage at Oliver, B.C., where it was taken after the wreck, to be badly smashed up and the Blacklers are considered lucky to have escaped without more serious injury. Mr. Blackler is a driver of long experience and had a local reputation for being a first class driver.

TULAMEEN PLACERS

(Jay Ell)

The Tulameen district is in the Similkameen Mining Division of which P. B. Freeland is resident engineer, representing the B.C. Bureau of Mines. The Tulameen river is a tributary of the Similkameen and is noted for having been at one time the principal source of the platinum supply of North America.

G. C. Mackenzie, secretary to the Munitions Resources Board, who investigated the Tulameen district in 1918, said in his report that both Camsell and Kemp had described exhaustively the occurrence of platinum in the district and it needed no further amplification. Both of these investigators had determined the fact that platinum associated with chromite and magnetite originated with the pyroxinite rocks of the district.

Mr. Mackenzie mentioned that during his investigation in the field no large nuggets of platinum were discovered but he had been shown a very fine collection of nuggets, the property of Mrs. Cook of Coalmont. The largest of these nuggets was about the size of a kernel of corn and the smallest about the size of a grain of wheat.

From March 1916 to March 1918 the amount of platinum bought by the two banks in Princeton was 86 ounces, the approximate value of which was $5200. Last year Garnet Sootheran took 18 ounces of crude platinum off one lease, which shows that the platinum supply is not exhausted by any means.

There are a great number of claims or leases on the Tulameen river which have not been developed and the writer in the following list mentions only those on which a noticeable amount of development has been done.

Sootheran Property

This property is comprised of two bench and river leases. It is seven and a half miles from Tulameen village on the north side of the river. It was on this property that the platinum was produced which created somewhat of a sensation last summer when it became known that Mr. Sootheran had deposited eighteen ounces in the Royal Bank at Coalmont.

On account of the high water Mr. Sootheran is working on the last bench claim which is a few hundred feet distant from where the rich deposit of platinum was found. The water for sluicing purposes comes down the hill side back of the bench and passes through a ditch into the sluice boxes.

Mr. Sootheran is quite optimistic about his prospects but when asked if he had anything to tell the public he said the only thing is that he is working away and making it pay.

Marks Property

The J. J. Marks property is six miles from Tulameen on the south side of the river. Mr. Marks has been on this bench for fifteen years and has never failed to find platinum and gold in sufficient quantity to make the working of it a paying proposition. The bench is part of an old channel which lies at the base of Olivine mountain. Work is carried on by hydraulicking, pressure being got by using a stream which rushes down the mountain side and passes through a ten inch pipe line with a 2½-inch nozzle. The average yardage value is about two dollars. In a clean-up recently after six days sluicing Mr. Marks realized about $200 in values.

Humphreys' Claim

This is owned by T. Humphreys, who has been placer mining on the Tulameen for the past six years. It is on the south side of the river opposite to the Sootheran claims and has been consistently worked by Mr. Humphreys when weather conditions were suitable. Pay values have been forthcoming regularly and, no doubt, by up-to-date hydraulicking this property could be developed to better advantage.

Christopherson Claim

This claim is also on the same side of the river and adjacent to Humphreys. Mr. Christopherson has always managed to make a good living from working this claim and no doubt the property could be greatly enhanced in value by apply newer methods of handling the gravel.

Tulameen Gold and Platinum Recovery Company

This company has driven two tunnels for the purposing of reaching an old river channel which it is thought underlies the glacial drift. The lower tunnel has been driven about two hundred feet and some cross-cuts made for the purpose of gaining the gravel. The property is at the mouth of Slate creek three and a half miles from Tulameen on the south side of the river. Work was carried on during the winter.

It is not altogether improbable that good paying gravel may be encountered when the tunnel passed through clear of the glacial drift. Norman McCormick is manager of the company with head quarters in Princeton.

Tulameen Placer Mining Company

This company recently acquired ten bench and river leases below Slate creek and has started the building of a camp to accommodate its employees. J. McDowell Grosart is

(Continued on page four.)

New Princeton Garage Is Formally Opened

SPACIOUS ACCOMMODATION OF NEW BUILDING IS TAXED BY CROWD—SPLENDID EVENING'S ENTERTAINMENT PROVIDED

The new Princeton Garage, spacious though it is, was taxed to capacity on Saturday night last by the crowd which accepted the hospitality of Messrs. Hill and Watson, the occasion being the formal opening of the new building. An enjoyable program was offered, in which instructive lecturing and lighter entertainment were nicely balanced.

There were brief and interesting lectures by Mr. D. J. Fraser and Mr. Norman McIlveen, representatives of the Chevrolet Motor Co. of Canada, Mr. Fraser related the history of the Chevrolet, and Mr. McIlveen explained its mechanism and construction, showing the manifold reasons for its power and durability. Following the lectures, a film entitled "Man's Conquest of Time" was presented. It was both interesting and instructive, and in parts decidedly humorous.

The drawing of the tickets to decide the winners of the twenty-five, fifteen and ten dollar credits on the price of new cars caused considerable excitement and suspense. The holders of the lucky tickets proved to be Frank Caruso of Princeton, first, H. H. Messenger of Allenby, second, and J. Sandberg of Allenby, third.

A vocal selection by Bill Mattin was heartily encored; following this refreshments were served, and the floor cleared for dancing. The Princeton Orchestra was there with its usual good stuff and the well-waxed cement made an excellent dance floor, so of course everyone had a good time. During the evening Dr. Hawes of Penticton rendered a vocal solo.

A good deal of credit is due to Mr. Watson and Mr. Hill for the initiative and the faith in Princeton's future which have prompted the construction of a building of such size anl permanency.

The new garage considerably improves the appearance of the business section of the town, and is a symbol of the new spirit of prosperity which has lately infected the community.

JULIAN EMERGES

Tulameen village was in an expectant mood when the Vancouver papers mentioned on Thursday morning that C. C. Julian was flying from Los Angeles to visit Summit Camp on account of a recent strike that had been made in that prospective Golconda.

The only fly in the ointment so far as Tulameen residents were concerned was the mistake made in the Vancouver papers in saying that the Summit Camp is adjacent to Princeton instead of Tulameen. However, that is neither here nor there in a momentous event of this kind. The main thing to chronicle is the fact that the great and only Julian arrived in Tulameen with a sextette of retainers who had entrained in Vancouver and were tickled to death to view the grand and glorious scenery of the Tulameen valley as a pleasant respite from hurting their eyes looking at the sun-dried vistas in California.

Probably Mr. Julian knew all about those snow clad hills on the Hope range and how difficult it would be to make a landing on one of the pinnacles with which those hills are decorated, hence his landing in Vancouver and entraining to Tulameen.

At the MacRae Hotel the retinue was registered as from Los Angeles, but they were not all from that sunny clime. Miss Mona Munroe is acting accountant for the Cascade Consolidated Silver Mining Company with residence in Vancouver. Holding a position of this kind one would expect to meet some austere female wearing pince nez and a stand-off look but it is altogether otherwise. Miss Munroe is young, has a sunny smile and, as a Coalmont benedict put it, she is not hard to look at.

One of the visitors, Russell Boardman, the birdman who piloted the aeroplane from Los Angeles, has the keen, alert look of the typical flyer and without trying to disparage the other members of the company we have no hesitation in saying that he is the only one true to type. C. C. himself is rather disappointing in looks after one has been visualizing him as a big dominant man in the fifties or sixties. Mr. Julian is probably around the forty mark, not a heavyweight by any means, but lithe and athletic looking with no indication of being one who has juggled with millions of dollars.

The other members of the company included H. M. Crowther, Jack Berger, F. W. Gurnsey and Rus. T. Sill. Mr. Sill is remaining at Summit Camp as resident manager and will be in charge of all development work undertaken during this summer.—Jay Ell.

The royal commission investigating charges of corruption in connection with campaign fund contributions by liquor interests has exonerated both political parties in B.C.

Allenby Golfer Heads Second Flight at Vernon

GOW OF VERNON PUTS UP BRILLIANT GAME AND LANDS INTERIOR CHAMPIONSHIP BY EASY MARGIN

Playing a steady and brilliant game throughout, and on one occasion clipping off a 71, Gow of Vernon, who annexed the same honor last year, after a close and interesting struggle with R. W. Levack in the finals, emerged a comparatively easy winner this year at the interior championship tournament played at Vernon the first of the week.

Mr. Levack by doctor's orders, was unable to compete this year, and none of the representatives of the Princeton club who did compete succeeded in qualifying in the first flight. Moore, Sorenson and Lansing were all in the second flight of eight players with score of 98, 99 and 99, respectively.

In the play-off of the second flight, Mr. Lansing, after defeating his first opponent next put Mr. Moore out of the running, and in the final game defeated Mr. Sorenson. Dr. Lee Smith competed in the third flight.

The players made the trip over by motor, arriving home late Wednesday night. All report a splendid outing.

MUST HELP OURSELVES

Asked by a representative of The Star as to what assistance, if any, non-incorporated settlements could expect from the government fire fighting service, Mr. E. C. Manning assistant chief forester for B.C., who was in Princeton yesterday, stated that it all depended upon the settlement in question. The service did its utmost to furnish protection from forest fires to isolated ranchers and small outlying settlements, but did not recognize any obligation in respect to villages of any importance.

These are supposed to work out their own salvation, either by regularly organized or volunteer fire brigades, the local provincial fire warden being at all times willing to co-operate when occasion arises but not expected to take the initiative.

Mr. Manning expressed surprise at the lack of organization in Princeton in respect to this important matter.

Accompanying Mr. Manning on his visit here was Mr. R. Hopping, who combines the duties of Dominion and Provincial Entomologist, and whose efforts have been so successful in combating the ravages of the pine beetle, that wrought so much devastation to yellow pine in certain parts of this district. Mr. Hopping corroborates a statement recently made by our local fire warden, Evan Thomas, that the pest has been practically exterminated in this neighborhood.

LEAGUE SCHEDULE OPENS SUNDAY

Copper Mountain Plays Here and Coalmont at Allenby

The 1927 season in the Similkameen Valley Baseball League will be ushered in next Sunday afternoon when Copper Mountain, last year's champions will tackle the Princeton team on the race track diamond, and Coalmont will make the journey to Allenby.

Judging from the performance at Keremeos on Tuesday, when three of these teams met in a try-out, Copper Mountain should have a comparatively easy time disposing of our local aggregation, but, "you never can tell," Del Young has a lot of very promising material, and the services of a good catcher would doubtless effect a wonderful change in the working of the team, permitting Jimmy Clarke to take his place on first base, instead of trying to do the receiving.

No use denying the fact that Copper Mountain is strong again this year—stronger, if anything than last season. Kimberley is again filling the mound for them, most of the old players are back on the job, and in addition they have Mealey, Halverson, Deane and Meldrum, all of whom are far from being novices at the game.

While the Coalmont-Blakeburn combination of ball players at Keremeos on Tuesday hardly lived up to their advance reputation, they are a likely looking bunch, and we voice the opinion that they are capable of putting up a much better exhibition than they did on that occasion. Allenby team is still an unknown quantity as they did not go to Keremeos, and have not yet been seen in action this season.

STEWART JOHN BARR PASSES TO REST AT TRANQUILLE

Word has been received that Stewart John Barr, after nearly two years of suffering, passed to rest at Tranquille Sanitarium on Sunday last.

Mr. Barr, who was thirty-five years of age at the time of his death, had been for a number of years an operator on the K.V.R., and was stationed at Princeton for several months about two years ago. While here he became too ill to continue his duties and was forced to leave for his home in Vancouver. From there he later went to Tranquille.

The deceased had a circle of friends in Princeton who will deeply regret his death. He leaves at home his mother, five brothers and one sister.

COW CHASES BEAR

Stories of exceptional exhibitions of pluck by usually timid and docile animals are plenty. Here is one which was brought into town yesterday by Mrs. Harry Tuck. The heroine of the story is a very ordinary cow which supplies the Tuck family with their daily rations of butter and milk.

The other evening Mrs. Tuck was an eye witness of the following remarkable incident. Bossy was grazing peacefully off the tender grass on the ranch pasture when a good sized bear emerged from the timber into the opening, also apparently intent on securing an evening meal.

Bossy surveyed the intruder, and resenting the unwarranted trespass on her domain lowered her head and bore down upon the trespasser. Bruin must have had previous experience with the female sex, for he evidently considered argument useless, and promptly beat a retreat to the tall timbers, and, circling the opening made another attempt to poach at the other end.

Nothing doing. The large, limpid eyes of Bossy quickly detected his game, and she again advanced upon him with that "You Can't Play in My Back Yard" expression, and again Bruin exercised diplomacy, and retired with what dignity he could, and stayed retired.

Mrs. Tuck drew her husband's attention to what was taking place, but his bearship had evidently succeeded in enlisting Harry's sympathies, and instead of seizing his trusty .280 and going after the bear's pelt which was in prime condition, he figured that they had received their money's worth in the way of entertainment and allowed Bruin to depart meditating upon the ways of things in general and cows in particular.

OLIVER PROSPECTS GOOD TO GROW TOBACCO

Major Earle of Oliver, B.C., engineer in charge of the Canadian irrigation project in the Oliver district, was a visitor in Oroville Tuesday and stated that he believed the valley would see a prosperous year. The Oliver district was hit some by the frost of a few weeks ago but they are still looking for a profitable crop in most lines of production.

Major Earle said that the growing of tobacco in the Oliver district was frankly an experiment this year but that he could see no reason why it should not be successful as tobacco is grown profitably at Kelowna and Summerland. About 50 acres of the weed will be planted at Oliver this year. Canadian growers have a decided stimulus to the growing of tobacco as the British government allows 50 cents per pound preferential duty on Canadian tobacco exported to Great Britain.

The outlook for the tomato crop is good. The cannery will operate to capacity and Major Earle believes that an increased tonnage of semi-ripes will be shipped this year. Many new settlers are moving into the district he said and the town of Oliver is experiencing a steady growth.—Oroville Gazette.

AUCTION SALE OF JERSEYS

Summerland, May 25.—Considerable interest is being taken in the auction sale of pure bred heifers at the summer meet of the B.C. Jersey Breeders' Association which is to be held concurrently with the Farmers' Institute picnic on June 3rd at the Experimental Station, Summerland. These heifers, ranging from four months to fifteen months of age, are listed in a circular just published by the Association, a copy of which may be obtained from W. T. Hunter, Summerland, district director of the Jersey Breeders' Association. The production records behind these heifers are of the very best and the dairymen of the Okanagan will have a wonderful opportunity to purchase some real top foundation stock at their own prices. The heifers will reach the Experimental Station on Thursday, May 26th, and may be inspected by prospective buyers at any time after that date.

The sale will commence at 3 p.m. on June 3rd with Matt Hassen as auctioneer. Proceeding this event, Mr. P. H. Moore, of Colony Farm will lecture on the use of better dairy sires, and will give a demonstration using individuals from the Experimental Farm herd.

Princeton Business Men Organize Credit Bureau

SEEK TO ELIMINATE ABUSE OF CREDIT SYSTEM—ASSOCIATION STARTS OFF WITH GOOD MEMBERSHIP

As the result of a week's effort here on the part of Mr. C. Worthington of the Canadian Credit Bureau, a district bureau has been established for this valley with Princeton as the headquarters.

Thursday evening last, at the invitation of Mr. Worthington, twenty of Princeton's representative business men met at the Hotel Princeton to discuss with him the advisability of establishing a bureau here.

Mr. Worthington outlined the salient points in connection with the organization, an institution for the protection of the business men and the public alike, the object being to record the names of chronic delinquents that the merchants may have adequate information on who are, and who are not, good payers.

This information is to be supplied in a confidential manner through a local office, reports to be issued monthly and special information to be available at all times. The speaker outlined the work and benefits of similar organizations throughout the world, and showed that there was absolutely no ulterior motive. The aim was the protection of the merchant and honest buyer, and the condemnation of the swindler.

Mr. Worthington also stressed the necessity for co-operation by all merchants, for mutual benefit, and showed by illustration the work accomplished in other places. He urged that everything must be fair, open and above-board, and that the same conditions must apply to all merchants, big and small.

Following Thursday night's meeting Mr. Worthington made a personal canvass around town and secured 19 members who supported the idea of a local bureau. Last evening these met at the Hotel Princeton, and after a frank and free discussion of all phases of the question decided unanimously upon the forming of a local bureau which will be affiliated with the central bureau at Vancouver.

Officers were elected as follows: Chairman, Alf. Sorenson; board of directors, W. B. Ewart, Chas. Watson, Harry Newman, H. C. McGuffie; secretary, P. Schofield.

Firms which have already identified themselves with the movement are: Princeton Departmental Store, Princeton Garage, Princeton Water Works, Princeton Meat Market, Princeton Cash Store, C. V. Prosser, Thomas Bros., Similkameen Garage, Pease & Atkinson, Tulameen Valley Coal Co., P. Burns & Co., A. Sorenson, Ewart's Hardware, Burr Motors Ltd., McDonald Bros., Caruso Bros., Princeton Star, I. McTavish, Coalmont; Al Almstrom, Allenby.

The bureau is open to all business and professional men in the Similkameen valley, and the expectation is that the present membership will be greatly increased as the movement gains momentum.

NEW BRIDGE AT KEREMEOS

The condemnation of the bridge which spans the Similkameen river at Keremeos has resulted in plans being drawn up for a new bridge about half a mile further up-stream, at a point where the river is narrower. The right-of-way is being cleared, and Contractor T. McAlpine, who is visiting in Princeton at present, states that he plans to commence work on the new structure as soon as the high water has abated, which will probably be early in August.

The old bridge is being kept in repair pending the completion of the new one. It connects with the road to Webster's ranch, Quaedvlieg's creamery and other places on the south side of the river, and sustains considerable traffic daily.

REVERT TO OLD TRAIN SCHEDULE

On and after Wednesday next, June 1st, during the summer months, the Great Northern Railway Company will revert to the old train schedule on the branch between here and Oroville. This means that trains will leave Oroville at 7:30 a.m. Mondays, Wednesdays and Fridays, arriving in Princeton 11:35. Trains leave Princeton same days at 1:30 p.m., arriving in Oroville at 6:20.

Parties from Keremeos and the lower valley having occasion to travel to the coast, will find the connections improved going, but not as advantageous returning from Vancouver.

The reversion to the old schedule is understood to be only temporary, and placed in effect for the benefit of fruit shippers.

Trains will leave Curlew Tuesdays, Thursday and Saturdays at 11 a.m., arriving Oroville 5:30 p.m. Leave Oroville Tuesdays, Thursdays and Saturdays at 6 a.m., arrive Curlew at 10:35.

Frank Wilson of Hedley is now eligible for membership in the "hole-in-one" club of golfers. He is reported to have made No. 1 hole on the Hedley links in one. Rumor also states that he took ten on the second.

WHAT WAS DOING HERE
TWENTY-FIVE YEARS AGO
From the Similkameen Star of May 24th, 1902

Chinamen are making some good catches of trout in One Mile creek.

Ben Baker leaves today for Aspen Grove, where he goes to do an assessment on the Royal Fraction.

The diamond drill belonging to the Similkameen Valley Coal Company is reported to be down over 100 feet.

Prospectors killing grouse on the hills at this time of the year should be careful to select the males. Every hen killed at this season means a dozen less next fall.

M. Silverthorne, proprietor of the Hotel Jackson, and Chas. Revely, drove to Keremeos Thursday. We will bet dolalrs to doughnuts that Charlie cleans up everything in sight on the 100 yard dash.

On Wednesday the 20th, two claims, the Copper Cliff and Copper Bluff, situated on the Copper Mountain side of the Similkameen, were sold to D. R. Young of the Ashnola Smelter Company. Van Mills, J. H. Jackson, and Geo. W. Aldous were the owners of the two properties. Ten per cent. of the purchase price was paid, the balance being payable in three and six months.

It is reported that the Olalla Company now offer to build the railway to Kootenay with a Dominion subsidy, commencing work on both ends at once, and placing a forfeit of a million dollars in the banks. They also agree to commence construction within a month of being assured of the subsidy. The president of the Olalla Company is said to be on his way to Victoria.

THE MINING ENGINEER

I have had practical mining men tell me they could not afford an engineer and that they would employ one from time to time to do some particular piece of work when called for, says R. W. Nicholas writing in Mining Truth. This is a prevailing notion and is wrong in that it places the engineer is sort of a mechanical status to perform some mere mechanical part of the operation.

The engineer's proper place is to conduct the whole operation as manager or superintendent from the beginning. The mining man who refuses to accept this proposition is trying to place himself in the engineer's job. He cannot and will not work for any less pay and therefore he is not saving any money.

He seldom has his project planned out in any systematic way, or not at all, and does not know how to analyze his costs and gather data which he needs.

Would-Be Leaders Who Fail

All men under certain conditions aspire to duplicate the achievements of Henry Ford; mining men sometimes have ambitions to soar to the heights of a Guggenheim. "Mute and inglorious Miltons" are always stepping forth as leaders, but as a rule they fail.

The miner who seeks assistance from others financially should have his plan of operation and procedure carefully worked out as an engineering project. He should have some theory on which he is working and other ideas of developing, and at least an acquaintance with the principal ores, the probable cost of installing machinery, and the cost of mining and milling.

Mining is a problem in engineering, construction, operation, chemistry, milling and extracting values; it is a problem in excavating and moving quantities of earth and rock and processing them, and the man who furnishes capital for doing this is betting his money against whatever values he might obtain therefrom.

Engineers' reports are often passed around like an abstract as though they were a guarantee of the merits of the properly. These reports always approve of the property and seldom discuss its disadvantages. There is no property that is free from criticism or without some unfavorabe conditions, and the owner or promoter who has a report made for selling purposes does not employ an engineer to criticize.

"WATER ACT"

(Chapter 271, R.S.B.C. 1924.)

NOTICE is hereby given that a schedule of the tolls that the Princeton Water Works Company, Limited, are making application to charge and collect has been filed in the office of the Comptroller of Water Rights at Victoria and of the Water Recorder at Princeton, and that the application for approval of the schedule will be heard at a time and place to be fixed by the Board of Investigation.

Any person affected may file an objection in writing with the Board within thirty days after the first appearance of the notice in this paper.

Dated May 26, 1927.

PRINCETON WATER WORKS COMPANY, LIMITED

This notice first appeared on the 26th day of May, 1927. 28-4

Synopsis of Land Act Amendments

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subject over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B. C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i. e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on bers ranged, priority being given to timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a compnay.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numestablished owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

he will give you a lift

IT will pay you to get acquainted with the Confederation Life Agent in your vicinity.

He has information freely at your disposal of a plan that will be a sure help in time of trouble, a real benefit to you and your family.

To be assured of a Guaranteed Monthly Income for the full term of life, secured by very moderate deposits in your productive years, is surely something much to be desired.

Get acquainted with a Confederation Life Agent, and find out all about this plan.

An interesting pamphlet, "A Monthly Income for Life," freely sent upon request.

Princeton Paragraphs

June 9th has been set as the date for the by-election in North Okanagan.

Try White for Screen Doors, Windows, Wire Cloth, Poultry Netting, Fly Swatters.

S. J. Cadden of Merritt has accepted the position of manager in the Princeton Meat Market.

George Aldous is the delegate from Princeton Lodge No. 50 to the Knights of Pythias convention at Penticton this week.

Bargains in used goods—read our ad., better yet, call and see. A. L. White.

The weather continues cold and backward. Last night there was sufficient frost to form a thin coating of ice.

Princeton Colts have an invitation to play at Allenby on Saturday afternoon which it is expected they will be able to accept.

Mr. A. L. Mulford returned to his home at Everett, Wash., today, after spending a week here as the guest of Mr. and Mrs. Del Young.

Mr. Chas. Bocking, general manager of the Granby Company, spent a few days at Allenby and Copper Mountain during the week. He was accompanied by Mrs. Bocking.

Owing to the prevalence of weeds on their own course Princeton golfers are again taking advantage of the hospitality of the Hedley club for an odd game on their links.

Jimmy McKinnon of Copper Mountain is minus about one inch of the middle finger of his left hand as the result of it becoming entangled with a mucking machine at the mine.

A number of residents from Hedley and Princeton are still trying to figure out where the dance at Five Mile was held last Friday night. Better ask the police, they might know.

Rev. I. D. D. Daimpre, a graduate of the Theological College at Vancouver, is the guest of Mr. and Mrs. Hotson of Allenby, and will conduct the evening service at St. Cuthbert's Church next Sunday.

Friends and neighbors of Mrs. Wm. Martin of One Mile celebrated the 76th anniversary of her birth by gathering at her home last Thursday evening when a very pleasant evening was spent at whist.

W. S. Garrison has volunteered to supply a flag pole for the memorial park here, and it is understood the school children will contribute a flag and have it unfurled with fitting ceremony on the diamond jubilee celebration, July 1st.

Mr. and Mrs. William Thomas, of Princeton, were in town this week, visiting friends. They were all well known in the valley, Mrs. Thomas being a daughter of the first white woman, Mrs. Alison, to settle in the Okanagan.—Penticton Herald.

Fred Buse of Kamloops, who operated the Princeton-Merritt stage last year, made the Okanagan loop during the week and stopped over here for a night. Fred states that between sickness and accident he has had rather a rough time of it since leaving here last fall.

J. L. White, deputy provincial secretary, Victoria, is spending today in Princeton, a guest of his old-time friend, Mr. John Coles. They were close neighbors in earlier days in Greenwood. Mr. White had been in Tranquille on official business and made the trip over here by motor stage.

Mr. Collas, manager of the Bank of Montreal here, will leave tomorrow for Lake Louise, where he will have charge of the branch there during the summer months. During his absence Mr. R. S. T. A. Shaw of Vancouver will fill the position of manager here. Mr. Shaw is not a stranger in Princeton, having relieved Mr. Collas during his holidays two years ago.

Mr. Hugh Hunter returned yesterday morning from Vancouver where he attended the annual conference of the United Church. He states that Rev. Ashford is to sever his connection with the church here at the end of June, and after a two months' holiday report for mission work in China. Rev. Mr. Goodfellow has been chosen to fill the vacancy that will be created here.

Among those who attended the meeting of members of the Eastern Star lodge at Penticton last night were Mr. and Mrs. H. H. Avery, Mr and Mrs. Geo. Joss, Mrs. Alice Moore, Miss Helen MacKenzie, Mrs. J. A. Brown, Mrs. H. C. McGuffie, Mrs. D. Atkinson, Mr. P. Russell, Mrs. W. Williams, Mrs. Doerflinger, Miss Cook and Mr. H. McConnell. The Salmon Arm, Enderby, Kelowna and Penticton lodges were also represented.

Mr. Jack McLaughlin, mine superintendent at Copper Mountain, accompanied by Mrs. McLaughlin, left on Friday on a holiday motor trip. After spending a few days in the Okanagan and taking in the Victoria Day sports at Keremeos, they left for points south of the line. They expect to be away about six weeks. Mr. Healey, assistant superintendent who recently left Copper Mountain for Anyox, has returned to fill Mr. McLaughlin's place during his absence.

The proprietors of the new Princeton Garage and Mr. Broomfield of the Hotel Princeton have shown commendable public spirit in having substantial concrete sidewalk constructed on our main street along the entire length of their properties. This is the more noteworthy because it has been done without any assurance, and little hope of financial assistance from the department of public works. Mr. Broomfield has also extended the concrete the length of his hotel on Harold avenue, thus accommodating patrons of the cafe and telephone booth.

E. C. Armstrong of Keremeos was in town Saturday selecting a shield which is to be donated by the Keremeos Assembly of Native Sons of Canada for permanent competition at the annual school track meet in the Similkameen. The school scoring the highest aggregate of points will hold the cup for the ensuing year and have its name suitably inscribed thereon. The committee in charge of the track meet are sparing no effort in their determination to put the annual event over big. A race track is being prepared in the park alongside the river.

EXPERIMENTAL FARM PICNIC

Summerland, May 25.—Plans for the big annual picnic at the Experimental Station at Summerland on June 3rd are progressing very satisfactorily and a record attendance is anticipated. Mr. F. M. Black will speak at 1:30 p.m. sharp and his talk will be followed immediately by the baseball tournament and live stock demonstrations. The sale of Jersey heifers is called for 3 p.m. sharp.

The fun will start at 10:30 a.m. with the children's sports and the first ball game. These will be conducted by the Summerland Sports Committee, and ball teams from Vernon, Summerland, Penticton and Oliver are entered. Keremeos did not enter a team. A great baseball tournament that will be a treat is on tap for the entertainment of those interested.

Demonstrations will be given in the orchards and in the vegetable division during the day to those interested.

An interesting day is promised. The usual basket picnic will be held at noon.

COMING EVENTS

Dance—At Copper Mountain under the auspices of Athletic Association, Friday, June 10; Princeton Orchestra. Gents $1.00, ladies 50c. 28-3

REV. H. E. D. ASHFORD, B.A.

SENSATIONAL SILVER STRIKE NEAR MERRITT

Merritt, May 23.—Engineer W. S. Bacon in charge of the Thelma Mines on Swakum Mountain, about eight miles west of Merritt, was in town the other day exhibiting some of the finest silver-lead ore ever shown in British Columbia. These samples were taken from a recent strike of native silver they encountered at the bottom of the shaft. The ore exhibited was so rich that you could take a pen-knife and peal off great flakes of native silver from the samples. The Thelma group of calims are the property of Oscar Schmidt and associates, lying a short distance east of the "Lucky Mike" group from which considerable ore has been shipped to the Trail smelter, and also owned by Mr. Schmidt and his associates. The Thelma group, is at present under bond to a Vancouver syndicate and six men under the supervision of Mr. Bacon have been carrying on development work during the past winter. Asked as to the recent strike and the development work now being carried on, Mr. Bacon stated that they were continuing the sinking of the shaft, that the results obtained so far were perfectly satisfactory to his principals.

Mr. and Mrs. Jas. Langridge, of Penticton, B.C., wish to announce the engagement of their eldest son, James Thomas, of Copper Mountain, B.C., to Miss Ethel Deane, youngest daughter of Mrs. H. Deane, of Port Moody, B.C.—Penticton Herald.

FRED PILKINGTON, Manager.

From now On

make it a plan to have your brakes inspected regularly.

60% of automobile accidents are due to faulty brakes—proving that few motorists have their brakes properly attended to. You can hardly expect ragged, worn brake lining to stop your car in an emergency.

Why take risks when it is so easy to have your brakes adjusted; or relined with

Silver Edge Raybestos BRAKE LINING

You don't have to "break in" Raybestos brake lining. It grips from the start—takes hold firmly, steadily. What's more, it wears out slowly and evenly until worn thin as cardboard. It is woven solidly.

A few feet of Raybestos on your car—plus occasional inspection and adjustment— will mean that you have done your part to make motoring enjoyable and *safe*.

"The Raybestos Way is the Safe Way."

WATER NOTICE

(Diversion and Use)

TAKE NOTICE that the F. Richter Estate, whose address is Keremeos, B.C., will apply for a licence to take and use 1000 acre feet of water out of Keremeos Creek, which flows southerly and drains into Similkameen River, near Keremeos, B.C. The water will be diverted from the stream at a point at intake S, Map 6933, and Intake N and P and R, Map 6933, and will be used for irrigation purposes upon the land described as South ½ of 107 and Lot 114. The said water will be used from the 1st day of April to the 15th day of July. This notice was posted on the ground on the 29th day of April, 1927. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Princeton, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

F. RICHTER ESTATE, Applicant.
By F. ELIZABETH TWEDDLE,
25-4 Executor.

The date of the first publication of this notice is May 5th, 1927.

Similkameen's second annual field day, Keremeos, June 3rd.

CAWSTON NOTES

Homer Agar of Watrous, Sask., is visiting his father, Geo. Agar.

* * * *

H. W. Silvester was in Penticton over the week-end, where he was called on account of the death of his niece.

* * * *

Mr. and Mrs. S. M. Layton of Penticton were guests of Mrs. C. Tickell and family Tuesday.

* * * *

Guy Leppingwell and Frank Manery left by auto for Seattle.

* * * *

A large number of Cawston people attended the sports in Keremeos on the twenty-fourth.

* * * *

Misses Agnes and Jean Lang of Penticton spent the week-end with their parents, Mr. and Mrs. W. D. Lang, in Cawston.

* * * *

Mr. and Mrs. W. B. Rolls of Penticton were guests of Mrs Rolls' mother, Mrs. R. B. Sheridan, Tuesday.

* * * *

Clair Loomer, who has been teaching the primary school, left Wednesday for his home in Hedley. Mrs. R. H. Carmichael of Similkameen will teach the primary grade until the return of Miss E. A. Baxter, the regular teacher.

* * * *

C. Advocaat and daughter Minnie went to Penticton Wednesday.

* * * *

Mr. and Mrs. W. J. Manery and daughters, Birdie and Etta, visited S. R. Manery and family this week.

* * * *

Miss Patricia East was the guest of honor at a miscellaneous shower given by Mrs. Thos. Daly at her home, "Hillcrest," on Thursday afternoon. About fifteen ladies were present.

* * * *

Mr. and Mrs. Neal Carter and Mr. and Mrs. Carter sr. of Vancouver arrived by motor and are guests of A. E. East and family.

* * * *

Mrs. D. McCallum entertained about twelve ladies at luncheon on Saturday in honor of Miss Patricia East, whose marriage to Jas. Clark will take place shortly.

* * * *

Miss E. A. Baxter, who was operated on at Princeton Hospital recently, is reported as doing well.

COALMONT COLUMN

(By "Jay Ell")

The Coalmont Collieries Company is electrifying the narrow gauge railway between No. 4 mine and the upper terminal of the tram line. Frequent break-downs of the locomotive running on this mile strip of line have been a source of trouble to the management and the installation of an electric motor is expected to speed up production.

* * * *

Recent visitors to the coast included Steve Freeman and Miss Gillespie of the Blakeburn school staff.

* * * *

A. H. Cameron was in town last week and paid a visit to his claim on Granite Creek.

* * * *

Mrs. J. L. Burton Lewis of Olympia, Wash., was the guest of Mr. and Mrs. A. B. Lloyd for the past three weeks. Mr. Lewis is editor of the Morning Olympian, one of the well known interior Washington papers. Mrs. Lewis was a college friend of Mrs. Lloyd.

* * * *

At a meeting of the Canadian Legion held in the Legion rooms on Friday evening C. R. Malcolm was appointed secretary in place of Eugene Modin who recently resigned. A hearty vote of thanks was accorded Mr. Modin for the efficient way in which he had carried on his duties during his tenure of office.

* * * *

J. McDowell Grosart, manager of the Tulameen Placer Mining Company left on Saturday on a business visit to the coast.

* * * *

Peter Caldwell of St. Mary's, Idaho, has been here for the past week looking over some of the properties in which he is interested.

* * * *

Stuart Nutter of Vancouver visited the A. H. Cameron claim on Granite creek last week. Mr. Nutter expects to return shortly and size up some of the other Granite creek claims with a view to interesting outside capital.

* * * *

Mr. and Mrs. C. R. Malcolm motored to Merritt on Monday and spent the holiday in the coal metropolis.

LEAVES MERRITT FOR NANAIMO

Merritt, May 20. — Government Agent W. H. Boothroyd left today for Nanaimo to which point he has been transferred. The transfer is a well merited promotion and is a reward to Mr. Boothroyd for the ten years' faithful service in the local offices, part of the time as assistant and for the past five years as government agent. Mr. Boothroyd's successor in the local offices is Mr. R. C. Cooper, who has been assistant for the past few months. Mr. Cooper, who has been a resident of Merritt for the past seventeen years is very popular both in Merritt and throughout the valley and those having business to transact at the local government offices will find Mr. Cooper very courteous and obliging.

Mr. Boothroyd will not assume complete charge of the Nanaimo office until July 1st, but during the next month will familiarize himself with the assessment rolls and other routine business. Mrs. Boothroyd and family will remain in Merritt until July 1st.

Mr. and Mrs. Boothroyd have been residents of Merritt for over eighteen years and have a very wide circle of friends who regret their departure from our midst but at the same time are greatly pleased at Mr. Boothroyd's promotion.

JAIL FOR DRUNKEN DRIVER

Vancouver, May 25.—Fifteen days in jail was the sentence imposed by Police Magistrate J. A. Findlay on Harry A. Acton, who pleaded guilty to being intoxicated while driving an automobile on Monday.

Magistrate Findlay declared that a number of people had been killed recently by drunken drivers, who were sentenced to long terms.

'I think it my duty to prevent people being killed and drivers from going to the penitentiary."

TULAMEEN PLACERS

(Continued from page one.)

manager and C. M. Snowden, foreman.

Ruby-Nelson lease

This property is four miles below Coalmont on a high bench west of the river. The partners have worked this lease for the past three years and have taken out a considerable quantity of platinum, most of which they shipped to London, Eng. The bench is the highest that is being worked near the Tulameen river and the values recovered lends weight to the assertion of some mining authorities that the higher benches will eventually prove to be the richest in gold and platinum.

National Holdings Limited

This property is comprised of a number of leases on the lower Tulameen river about three miles from Princeton. Last year considerable work was carried on by the use of a drag line outfit and elevated sluice boxes. At present writing nothing is definitely known as to the intentions of the company regarding further development. The location has all the appearance of being one in which good placer values should be found and it looks as if the company would be justified in continuing operations.

Tulameen City

The village of Tulameen is probably the most picturesque of the many small towns which dot the interior of British Columbia. Situated in a wide valley through which flows the Tulameen river it has an appeal to anyone who is looking for a home far from the madding crowd while at the same time being able to board a train for the big centres when one feels like it.

Flanked on two sides by rugged mountains which are far enough away not to give one a closed-in feeling the scenic outlook never becomes tiresome. In the west it is bounded by the Tulameen lake, a nice expanse of water with a sandy bathing beach rarely equalled in western Canada.

Being the centre of a mineral district is naturally has a good proportion of bachelors in its population, men who have travelled the hills and searched the creeks, animated by the lure for gold or platinum. To see log houses as they should be built one has to visit Tulameen. One log bungalow which has a prominent location is said to be one of the finest structures of the kind in Canada.

Places of business include a hotel, a restaurant and a general store. During the summer season there are many campers at the lake and visitors come in daily from the nearby towns of Coalmont and Blakeburn. There is a well equipped camp at the lakeside with boating and swimming facilities, dressing booths for swimmers, tents for campers and cooking utensils and general paraphernalia enough to take the rought edges off the campers' troubles.

"STILL SERVING"

What the Red Cross is doing for the Good of Canada

For the Veteran
Befriends 3,500 soldiers still in hospital . . . relieves sickness and need in their families . . . cares for the soldier settler . . . provides sheltered employment for the disabled in three Veterans' Workshops.

For the Children
Through Junior Red Cross, has aided 5,000 crippled children and has pledged over 137,000 school children to practice health habits and to serve others.

For the Pioneer
Brings nursing service to those in frontier districts through 39 Outpost Hospitals and Nursing Stations.

For the New Canadian
Welcomes and gives needed attention to immigrant mothers and children at three Seaport Nurseries.

For the Mothers and Daughters
In Home Nursing Classes, has taught principles of nursing, diet and home hygiene to over 12,000 women and girls.

For the Disaster Victim
Is organized to afford prompt relief to sufferers from fire, flood and epidemic.
