Armistice Celebration Arranged to Extend Over Two Days in Princeton

COMMUNITY SERVICE AT CENOTAPH SUNDAY MORNING WITH CHURCHES, SCHOOLS AND LEGION ASSISTING; SMOKER MONDAY, FOOTBALL SUNDAY

A community service to be held at the cenotaph at 10:30 Sunday morning, will form the chief part of Princeton's commemoration of Armistice Day, 1928.

Both churches, the local branch of the legion, and the schools, will cooperate. The program for the service is given in the next column.

The choir of St. Paul's Church, augmented by other voices, will lead the singing, and will be assisted by a volunteer community orchestra. All having instruments are asked to get in touch with Mr. Goodfellow.

Smoker Monday Night

The annual smoker of the legion will be held Monday night in the Princess Theatre, and this popular event promises to be bigger and better than ever. Arrangements have been fully completed, and a good program is promised.

Sunday afternoon, true to the spirit of the day, the local branch of the legion will stack up against the town footballers in a challenge game, commencing at 3:15.

Arrangements have been completed for the sale of poppies, as stated in the next column. Saturday will be the oficial day for the sale of poppies.

All ex-service men, whether members of the legion or not are asked to meet at the Hotel Princeton at 10:15 Sunday morning for parade to the cenotaph. School children will meet at the school at 10 o'clock.

Keremeos

At Keremeos both churches will be closed Sunday morning and will assist in a united service in Victory Hall at 11 a.m. People are asked to arrive punctually in order that the two minutes' silence may be observed.

FOOTBALL GAME ARRANGED FOR SUNDAY NEXT

Princeton's Armistice and Thanksgiving celebration will not be without its sport, after all. A challenge has been issued by the Legion for a football game between the returned men and the town, and arrangements were completed this morning whereby the game would be played Sunday afternoon, commencing 3:15, on the Race Track grounds.

This is the first football game for a couple of months, and probably the last outside sporting event for the year, outside hockey. Every effort will be made to make the game indeed worthy of the occasion, and an effort will be made to provide transportation for as many as possible to the grounds. It is hoped to make this an annual match, and a realy big attraction.

GOOD HUNTING

A good bag was reported by two Spokane men who returned to Merritt after three weeks on a big game hunting expedition in the north Cariboo. Their car arrived loaded with a grizzly skin, a live cub, comfortably cuddling up against it in the back seat, a cariboo, and a whole moose.

PRINCESS THEATRE

SUMMARIZED PROGRAM FOR ARMISTICE CEREMONIES

Memorial Service Program

1. "O Canada."
2. Prayer, Rev. Williams.
3. Hymn, "O God Our Help in Ages Past."
4. Scripture reading, Rev. Goodfellow.
5. Choral number.
6. Address, Rev. Williams.
7. Hymn, "Abide With Me."
8. 11 a.m., 2 minutes silence.
9. Last Post.
10. Benediction.
11. "God Save the King."

Two Minutes Silence

By a special decree of His Majesty the King the usual two minute silence Armistice morning will again be observed this year. Throughout the empire, wherever men man be or whatever they are doing, they are asked to suspend for a brief two minutes at 11 a.m. all work or other activity, and join in a general Thanksgiving for peace and victory. Scenes of the first Armistice Day flash to mind. It is a great custom.

Buy a Poppy

". . . while poppies blow,
In Flanders fields."

The immortal words willl be revived this week-end when the little red poppy, the symbol of devotion, true patriotism, sacrifice, are again on sale. J. A. Brown, who is in charge of the local sale, has arranged to have poppies sent to Hedley, Keremeos, Allenby, Blakeburn and Copper Mountain, and a copious supply will be kept for distribution. Miss Dolly Waterman and other local girls will sell the poppies. Buy a poppy.

Hoover Sweeps Country In Unusual Election

SMITH FORCES ENTIRELY ROUTED AS REPUBLICANS MAKE ENTIRELY NEW GAINS IN CLEAN SWEEP

Electoral College Vote	
Hoover	444
Smith	87
Popular vote:	
Hoover	15,514,589
Smith	11,215,012
Majority	4,299,577

By an overwhelming majority at the polls Tuesday, the vox publici ruled against Al Smith and alteration of the eighteenth amendment. With 444 electoral votes sure, a republican sweep from coast to coast enveloping the border states and driving a wedge into the solid south was still picking up majorities for Hoover when the latest reports went to press. Governor Al Smith was snowed under the greatest avalanche in fifty years.

At least two southern states, Virginia and Florida, were showing substantial evidence of going Republican for the first time since the civil war while in Texas and North Carolina as well the account hovered on the danger line.

On four occasions the state of New York has conferred on Governor Smith its highest gift, and to capture its 45 votes in the electoral college the Democrats made a bitter fight. And yet, while sweeping New York city, Al and his brown derby went down to defeat in his own state. The farm belt, the Atlantic seaboard and the Pacific were solid for Hoover, and only in the south was there evidence of division.

No such high water mark has ever been reached in any previous presidential election. Even in 1921, when the Republican strength was split between Taft and Roosevelt, Wilson had only 435. Harding had 404 in 1920, Coolidge 382 four years ago.

Charlie Bromfield, who has been employed every day in the week, including Sundays, for the past eight months, without a break, at the power plant of the Princeton Water Works, is taking a well deserved rest, and left yesterday on a fortnight's visit with his son Tommy in Vancouver. Mr. Russell, who has been assisting in putting the pumping plant in ship-shape for winter use, is taking charge during Mr. Bromfield's absence.

Feature Basketball Game In Senior Loop Tonight

STAR'S DEFEAT AT HANDS OF HOTEL MAKES SITUATION INTERESTING; FIVE GAMES ON BILL

Tonight's Games

7:30—Tulameen Hotel vs. Similkameen Garage (junior boys).
7:50—Cash Store vs. Princess (junior girls).
8:10—Cook Estate vs. A. L. White (senior girls).
8:40—Coles vs. Peg White (intermediate).
9:15—Star vs. Hotel (senior men).

Absence of their star men cost the Star basketballer their first loss of the season in the city senior hoop series, when they succumbed to the lowly Garage crew 26-20 in a game that was not much of anything. The whole program was badly disorganized by the uncertainty due to the paralysis situation.

As a result, the Star went into a tie with the Hotel for first place, and the leadership will be at stake when these teams meet tonight. Unfortunately, Thursday's program was below average, but a strong effort will be made to compensate for this tonight, when it is hoped to have the largest crowd of the season on hand. The association needs help if it is to continue providing sport for the youngsters, and the programs usually require no apologies. With the leadership in three divisions at stake tonight, the games should be more interesting than ever.

Results of games played Thursday were:

Garage 26, Star 20.
Dept. Store, All Stars 21.
Cash Store 10, Burns 5.
Burr 10, Similkameen 6.

Teams Disorganized

Only five regular players of the two teams took the floor for Thursday's game, and as a result, play was far below the usual standard.

The game developed into a fierce enough battle, but there was little science in evidence. At first the Star looked as if it would continue its triumphant march in spite of its handicap, but, after having a slight margin in the first half, the newsies fell away badly, and the motor men properly applied the jacks. At that, it was anybody's game, and the announcement of the Garage's victory was somewhat of a surprise.

Storemen Too Good

The Department Store, leaders in the intermediate league, added to their laurels when they turned back an all-star team in an exhibitoin tilt but it was not at all a fair criterion, as neither team was at regular strength. Allan Dodd found the basket frequently all night, and played a big part in his team's great fight. Garrison, however, was equally successful, and the grocers came out on top by the margin of a single point. The lead changed several times.

One for Cash Store

Cash Store girls broke their goose egg when they surprised a strong quintette representing Burns & Co., and emerged victors 14-5 in a game that was productive of some good basketball. The work of the Store forwards meant all the difference. Both were in excellent shooting form.

Burrs Again

Burr Motors practically cinched the leadership of the junior boys' division when they romped through Similkameens for a 10-6 win, but they have hardly themselves to thank, as junior players were at a premium, and intermediates did the work for both teams. As a result, play was of a higher standard than usual in this division. The two teams were very well matched. The juniors are coming along splendidly, and if they will continue to pay strict attention to business will have something really good to show in a short time. See them in action tonight.

Teams

GARAGE—Alwyn, g, (4); Lindsay, g, (4); Dodd, f, (10); Muir, c, (4); Clark, f (4). Total 26.

Good Attendance in Schools of Similkameen

KEREMEOS, PRINCETON, COPPER MOUNTAIN, ALLENBY AND BLAKEBURN ALL REPORT GOOD MONTH

Good average attendances are reported by valley sohools for the month of October, and with two months of the school year past, schools are fully into stride.

Princeton public school heads the list in respect to enrollment. With a registration of 201 attendance last month was 96 per cent. With a registration of 37, Princeton high school was nearer perfection, with 98 per cent. The lead, however, goes to Allenby with 98.80 per cent.

Averages of district schools:
Allenby (2 div.) 98.80.
Princeton H.S. (1 div.) 98.
Princeton Public (5 div.) 96.
Keremeos (3 div.) 93.89.
Copper Mt. (2 div.) 89.6.

Princeton figures were given last week. Other schools are Copper Mt., Div. I, enrollment 27, average attendance 25.89, never late nor absent 24, Div. II—enrollment 26, average attendance 23.28, never late or absent 15; Allenby, Div. I—attendance 99.89 per cent, Div. II—98.91 per cent. Keremeos, Div. I—93.19 per cent; Div. II—95.04 per cent.; Div. III—93.53 per cent.

KEREMEOS

Division I

(W. H. Gurney, teacher).

Grade VIII—1, Dorothy Clarke; 2, George Christian.

Grade VII—1, Elspeth Lintott; 2, Dora Mattice.

Grade VI—1, Lawrence Waugh; 2, Phyllis Daly.

Perfect Attendance—Daisy Bell, George Christian, Virginia Christian, Dorothy Clark, Hilbert Cochran, Ross Echlin, Dora Mattice, Marjorie Bell, Lawrence Waugh.

Division II

(Miss Doris M. Newcomb, teacher)

Grade V—1, Ruth Sorge; 2, Reggie Smith.

Grade IV—1, Grant Echlin; 2, Alex Milloy.

Grade III—1, Helen Daly; 2, Billy Sismey.

Perfect Attendance—Laurence Harris, Lorine Daly, Tom Allen, Alex Milloy, Willie La Bounty; Grant Echlin, Gladys Wheeler, Stephen Allen, Clarence La Bounty, Mickey Campbell.

Division III

Grade II—1, Muriel Smith; 2, Thomas Willis.

Grade I—1, Evelyn Lintott; 2, Pansy Milloy.

Beginners—1, Laura Parsons; 2, Myrtle Milloy.

Perfect Attendance — Nita Armstrong, John Derry, Joyce East, Elsie Harris, Norma Etches, Arthur Liddicoat, Wallace Liddicoat, Myrtle Milloy, Pansy Milloy, Norah Mills, Marjorie Mills, Kenneth Smith, Margaret Spall, Joyce Williams, Mildred Jones, Arnold Overby.

ALLENBY

Division I

(Miss S. McNeil, teacher)

Grade V—1, Dixie Taylor; 2, Mildred Joss; 3, Marie Alexandre.

Grade VI—1, Mahlon Williams and Doris Marston, equal.

Grade VII—1, Joyce Goodeve; 2, May Miller; 3, Alec Broomfield.

Grade VIII—1, Bill Pitney; 2, Millie

(Continued on page six).

DANCE BIG SUCCESS

A success socially and financially, the first whist drive and dance held in the I.O.O.F. Hall under the auspices of Princoton Football Club Friday last was well attended and provided an excelelnt evening's fun.

Happily, too, it was the inspiration for a unique plan to stage a number of these events under the same auspices, the willing spirit of several lady helpers gaining the idea of a ladies' supporters' club, which promptly came into being with Mrs. D. Mullin as the leading lady. In future they wil lassist the club with such functions. The next drive will be Nov. 30.

The evening itself was so enjoyable as to ensure goot patronage in the future. Winners at whist were: Ladies' first, Mrs. Williams, consolation, Mrs. Gillham; gentlemen's first, P. Boudrean, consolation, Miss E. C. Thomas.

Refreshments were served, and dancing followed, toes twinkling till long after the scheduled closing time. The event was in charge of Mr. Archie Samuels and Mr. Dave Taylor, with Mr. Norman Hedley as master of ceremonies.

Mrs. Hickey, piano, and Dave Taylor, sax, provided the music, with Mrs. Irwin kindly relieving.

In the drawing for boxes of chocolates, A. MacDonald won first prize with ticket No. 98, and Miss A. Rossi second prize with No. 37. The latter was kindly donated by Mr. H. C. McGuffis.

NOTICE

The postponed invitation dance of the Masonic Lodge will be held in the Orange Hall, Friday, November 16th.

BERNARD—SHAW

The wedding was quietly solemnized at the home of the bride's parents, Coalmont, Tuesday afternoon, of Annie Sinclaire, daughter of Mr. and Mrs. R. V. Shaw, Coalmont, to Mr. Charles Allan Bernard, Princeton. Rev. Jas. G. Reid, B.A., of Coalmont United Church, officiated, and witnesses were Edmond H. Elliott and R. Vincent Shaw.

Following a brief honeymoon to coast points, Mr. and Mrs. Bernard will take up residence here. Both are very well known in the community, and will enter their new life with the best wishes of their many friends. Mr. Bernard is agent at the local depot of the Kettle Valley Railway.

K.P.'S HOLD SMOKER

It's bound to be good weather when good fellows get together, and on this, there won't be any winter at all. Members of the Princeton Lodge No. 50, Knights of Pythias, got together in the I.O.O.F. Hall for a smoker last night, and the best of times was enjoyed.

Each person present helped with the program. There were boxing bouts between Ged Lyall and Jack Cadden, Del Young and Geo. Aldous, Hy. Avery and Glen Wick, Bill Legrew and Frank Anderson but Perley could not be invelgled into a bout, though he showed distinct promise in other lines.

Toastmaster Avery was the chief sufferer, as he undoubtedly took a double kayo. Each member of the party contributed entertainment numbers in the form of songs of stories. Of course, there were refreshments.

Solution of Rates Dispute Seen in Company's Request

WEST KOOTENAY POWER AND LIGHT COMPANY WILL SEEK TO EXTEND AREA OF SALES; PLANS NEW WORK

What is regarded as an unusual change of attitude, and taken to indicate a sudden approach to a peaceful settlement in the much agitated interior power rates disput was thrust into the situation las week when, after the executive council of the province had grappled with the question all morning, the West Kootenay Power and Light Company stated that it would ask the legislature to legalize the sale of its electricity outside the present restricted area within a fifty miles' radius of Rossland.

This undoubtedly the chief development in the situation in the past fortnight, and, while the West Kootenay's statement no doubt requires some explanation, it is generally regarded as being an important step in the direction of a speedy settlement. It now appears that the dispute will lie more or less dormant until the next session of the legislature in January.

Ask New Powers

Bearing out this theory would seem to be the gazetting of the power company's application for permission to harness a vast amount of new water power in the Pend D'Oreille River, an apliciation acceded by Hon. F. A. Burden, minister of lands, last week.

A license was granted empowering the company to use falls in the Pend d'Oreille, near Waneta, east of Trail, and not far from the American border.

Planning the Plant

Surveys for a giant power plant on this location are now in progress, and while the size of the proposed development has not been revealed in detail, it will assuredly form one of the largest individual plants in the province.

This project will add enormously to the production of the company, which has been handicapped in the past by being unable to meet all demands. The growing demands of the Trail smelter for power are believed to be reflected in the new scheme, and it would also appear from the Victoria announcement that the Power Company does not intend to lose any of its present business in the interior. Vice versa, the establishing of a new power plant would seem to guarantee a continued solicitation of business outside the Rossland area.

While the Pend d'Oreille crosses into United States territory the consent of the international joint commission on boundary waters will not be necessary it is stated, as the proposed dam will not raise the water level of the river south of the boundary.

While removing the former reserve on this waterway to the extent of

(Continued on page six).

Seven Devils of Keremeos-Hedley Road to Be Killed By Road Men This Winter

APPROPRIATIONS MADE AND ORDERS GIVEN FOR IMMEDIATE COMMENCEMENT OF WORK ON MUCH CRITICIZED SECTION OF ROAD

Orders have gon through, it is anounced in an exclusive official statement to the Star, to District Engineer McKay to prepare at once to put crews to work on the Princeton-Keremeos highway between Keremeos and Hedley. If weather conditions permit it is the intention of the department to carry on work during the winter months in that section.

This project may definitely be regarded as the beginning of active road progress in the Similkameen. The announcement, it is assured, comes as a direct result of the visit to the valley recently of Hon. Nels Lougheed, minister of public works, accompanied by Hon. W. A. McKenzie, Similkameen member and minister of mines.

It will be remembered that these gentlemen, in company with district engineer McKay, made a trip by car from Princeton to Keremeos October 27, and "had the pleasure of riding over the Seven Devils."

Thus is fulfilled the first of Mr. McKenzie's election slogans. It will be remembered that signs were displayed invoking the elctors to "vote for McKenzie and the end of the Seven Devils" and while we have no desire to dig up election baits, we hear too much about broken promises.

And there may be significance in it. Another definite promise was the building of the Hope-Princeton road.

Work Badly Needed

At any rate, the announcement will be received with entire satisfaction by Similkameen motorists. This much used highway, the only connection between the upper and lower valley by road, has long been the object of bitter complaints, and there certainly is room for much improvement, especialy in the bumpy, hilly section known as the Seven Devils.

While it is not permitted to disclose the name, the public may be assured that the selection of the foreman for the work leaves absolutely no doubt as to its being properly done. The man in question has established an enviable local record.

No surprise

It is confidently expected that this will be the start of a considerable amount of road work to be done in the Okanagan and Similkameen ridings, the visit of Hon. J. W. Jones, Hon. W. A. McKenzie, and Hon. Nels Lougheed, being regarded as significant.

It had been hinted that the work on the Seven Devils would be undertaken immediately, and it is stated that between forty and fifty thousand dollars will be spent on Similkameen roads this fall. Of this sum $25 000 is expected to materialize from the allotment for protection work on Penticton Creek, the ratepayers having turned down their part of the proposition.

It has already been announced that Copper Mountain-Princeton road will be kept open this fall, and a snow plow will be used when necessary.

Okanagan Projects

The southern Okanagan has several requests for road work. The survey of the high road between Summerland and Peachland has now been completed. The west side road through to Vernon is being used, but needs repairing, about three miles above the ferry being in poor condition. Good work was done this summer on the lake shore road, badly damaged by high water.

If the suggestion carries that the government take over all trunk roads, the Crescent beach road burden would be lifted off Summerland's hands.

Mr. McKenzie expressed the hope that a start would be made this year on the road between West Summerland and Peachland. The road would follow the Peach Orchard road to West Summerland, then follow a route corresponding with the present upper road as far as Deep Creek, descending for the remainder of the distance to Peachland. This would remove much traffic form a highway continually threatened with slides. Lower Summerland would thus be retained in the through road, and West Summerland would be added to it, or virtually so.

The proposed route via the Experimental Farm is not favored, as it would not include Trout Creek and West Summerland.

The Penticton-Carmi road is also much in demand, and the North Okanagan is assisting in the fight for access to the Beaverdell-Carmi country. Penticton calims that the logical destination would be Penticton rather than Kelowna, inasmuch as a road is already started, and, with rail connections established, Penticton has be-

ELECTRIC LIGHT RATES

In referring to Princeton's electric light service in our last issue, while dealing with the question of village incorporation, we represented the Princeton Light & Power Company as selling their juice at five times the price paid for it. The statement was based on the belief that the company was purchasing its juice from the West Kootenay at a 3-cent rate, and, as is common knowledge, retailing it to the small consumer at 15c.

For a number of years the Princeton Light & Power Company was able to purchase at 3c, but, since active operation was resumed at Allenby, they have had to pay a 4-cent rate for juice used for lighting purposes; the 3-cent rate applying only to the juice used for power purposes.

Neither should our readers infer that the 15c rate represents the average selling price. It is considerably lower, than that owing to the fact the larger users get a substantial reduction in rates.

Neither should it be inferred that the spread between the purchasing and selling price represents all profit. Electric juice cannot be distributed without a heavy leakage, and the cost of building and maintaing a distributing system is considerable.

However, it is not our intention to pass judgment, one way or another, on the lighting charges made in Princeton. We think we made that quite clear in our editorial last week. The point we do wish to drive home to the people of Princeton is that under village incorporation we would have a set of commissioners whose duties it would be to thoroughly inform themselves with all details relating to utilities such as light and waterworks, and be armed with authority to act, as occasion demanded, in the interests of the public.

STILL WAITING

"The time is not yet ripe for village incorporation in Princeton. Wait till Copper Mountain gets going," said opponents of the measure some years ago. Later, it was "Wait till we see what the Wilsons are going to do." Copper Mountain has been running full capacity for some time now, and the Wilsons have amply demonstrated that they mean real business. Still the waiters are waiting.

Some two months ago our board of trade appointed a committee to secure data on incorporation, present the same to the citizens, and arrange for a public meeting for the full discussion of the question and decide what further action, if any, would be taken.

We are still waiting for the president of the board, who is chairman of that committee, to call a meeting of the members.

Are we to wait for another year for incorporation and allow upwards of ten thousand dollars to slip away which could be spent to such good advantage around our town?

HOUSE SHORTAGE

Our chief opponent to village incorporation has brought up the question of the shortage of dwelling houses in Princeton—with a boom just around the corner.

Why not give citizens an incentive to build? Building lots may be held high here, with the result that assessments are high and taxes correspondingly so. That, however, would not discourage building were it not for the fact that improvements may be assessed at their full value and taxed accordingly. And that these taxes, to the last cent, go into the provincial exchequer instead of remaining in town and being used to build sidewalks to new residences, and in improvement to our fire fighting service, thereby assuring the new owner of a lower rate of insurance on his property than now prevails.

Under incorporation, Princeton would naturally follow the system in vogue in other municipalities and assess improvements at half value—possibly less. Would not this be a real incentive to citizens to build?

PARLIAMENTARY JOTTINGS

That Game Board

To be or not to be, that is the question, concerning the game board. Whether he said it or not, the Hon. Attorney General was widely reported to have announced the complete expulsion of the game board as part of his "economy" campaign. Then with the next breath he comes back with a flat denial that the game board has been expelled, but states that a reorganization is under consideration or something.

Mr. Pooley was reported as having the whole re-organization planned out when he allegedly made his mandate of dismissal. Instead of making game regulations, from Victoria for the whole province, three divisions would be set up, each under a chief game warden, with three deputies under them. The work calls, Mr. Pooley says, for sportsmen rather than lawyers, and the new organization would be composed entirely of sportsmen thoroughly conversant with actual conditions. These sportsmen would also be required to superintend the execution of the regulations; in the opinion of Mr. Pooley this is something quite outside the compass of the police.

The present game board consists of a chairman, a secretary, and eight members. The district representative is Major Alan Brookes of Okanagan Falls.

* * * *

Skeena Election

T. D. Patullo, Prince Rupert, representative for many years of the north coast in the provincial legislature, and, with the departure of Hon. J. D. McLean to Dominion politics, logical leader of the Liberal party in British Columbia, may also quit the realm of provincial politics for federal, if we are to accept the good wishes of his supporters.

It has been stated by a prominent Rupert man that he will propose Mr. Patullo at the Skeena nominating convention Tuesday. Geo. Nicholson, Olaf Hanson, and Fred W. Stork, are also in line.

* * * *

Opositon is Government

Sir Richard Squires' opposition is now the government in Newfoundland. Both leaders were elected after a strenuous campaign, but four of Hon. G. C. Allerdice's cabinet ministers were overthrown.

* * * *

New Role for McLean

The last name to be considered for the honor, Dr. J. D. McLean was selected to bear the Liberal banner in the coming federal by-election amid scenes of enthusiasm at the Victoria nominating convention last week.

His name was the only one proposed.

Thus a curious situation arises. Dr. S. F. Tolmie quit federal politics to usurp the place of Dr. McLean in British Columbia political life; now Dr. McLean would take the place vacated by Dr. Tolmie. It will be no easy thing for the genial Greenwood medico, for he himself went down to defeat in Victoria July 18, when four Conservatives were returned.

Victoria Conservatives vigorously deny that they will consider according Dr. McLean acclamation, and are proceeding about the selection of a strong candidate.

Bowser Is Out

It will not be Mr. Bowser. The grand old man is through with politics, that is quite clear, and it is quite evident that he feels his position keenly. He made the simple announcement last week, following much agitation to have him run, that he would not consider the nomination.

* * * *

Overthrown twelve years ago on the ascension of the Liberal government, after enjoying a service of 25 years as justice of the peace, Mr. Marcus Woodward, one of the earliest pioneers of the Nicola Valley, has been reappointed justice of the peace, on recommendation of the Conservative Association of Lower Nicola.

* * * *

President Hoover has some avowed changes to make, chiefly in connection with an up tariff on agricultural products and while this will not be directed specifically against Canada, she will be hardest hit, and will have to re-consider her relations. Next year's budget should be interesting. Then, too, as a result of recent Australian elections, there will be tariff treaty arrangements with that country.

* * * *

Highway Assistance

British Columbia will be making a strong fight to have the plan renewed for subsidizing of highway costs by the federal government. Under the federal highways plan 531 projects have been attempted, 8,688 miles of road built. Allotments by provinces were: Alberta, $1,344,433; British Columbia $1,259,705; Manitoba, $1,747,082; New Brunswick $1,180 240; Nova Scotia, $1 490,908; Ontario $5,369,727; Prince Edward Island $630,739; Quebec $4,748,420; Saskatchewan $1,806,255.

MINING NOTES

The Similkameen and Nicola coal fields were again well to the fore in production for July and August, according to official figures released from Victoria. For July the total output of four mines in this district was 15,140 tons, and for August, 20,351 tons. The total for the entire province was 183.901 tons in July and 204,969 tons in August.

Detailed figures are:

July	tons
Nicola-Princeton—	
Middlesboro	3,062
Coalmont	10,414
Tulameen Valley	481
Lynden	1,183
Total	15,140
Vancouver Island	88,733
East Kootenay	80,028
Province	183,901

August	
Nicola-Princeton—	
Middlesboro	3,037
Coalmont	14,348
Tulameen Valley	1,117
Lynden	1,849
Total	20,351
Vancouver Island	97,367
East Kootenay	87,202
Province	204,969

* * * *

Lynden Meting

To consider raising capital for the completion of the railway from Princeton to Nine Mile mine next spring, a special general meeting of the shareholders of the Lynden Valley Coal Company has been called for Princeton Saturday morning, Nov. 10th.

Assessment Work

Billy Wilson went out to the Whipsaw country this week and did assessment work on his four claims, the Virginias, on Canada Mountain.

Work Molyodenum Property

With 2000 feet of work already accomplished, it has been decided to carry the dvelopment work for this season over an additional three months at the Molybdenum Corporation of America's mine, Aeneas Mountain. The main tunnel is now in 1100 feet. O. R. Whittaker, consulting engineer of the company has been spending considerable time at the property. Assays are not very high, but the company is evidently determined to thoroughly investigate the possible existence of commercial ore.

* * * *

Report on Snowflake

A special bulletin all engineers' reports on file covering the property is in course of preparation and will be issued early next week in connection with the much discussed Snowflake situation, Hon. W. A. McKenzie announces. Mr. J. D. Galloway, provincial mineralogist, who recently visited the property, is in charge of the work.

WATER NOTICE

Use and Storage

TAKE NOTICE that VANCOUVER POWER COMPANY, LIMITED, whose address is 425 Carrall Street, Vancouver, B.C., will apply for a licence to take and use 930 C.F.S., and to store 196,500 acre-feet of water out of Coquitlam Lake, also known as Coquitlam River, which flows Southerly and drains into Fraser River, about five miles East of New Westminster, B.C.

The storage-dam will be located at outlet of Coquitlam Lake.

The capacity of the reservoir to be created is about 196,500 acre-fee , and it will flood about 722.85 acres of land. The water will be diverted from the stream at a point about 800 ft. Northeasterly from the S.W. corner of Lot 11, Section 7, Township 5, Range 6, West of the 7th Meridian, and will be used for power purposes at Power Houses located in Section 16, Township 5, Range 7, West of the 7th Meridian.

This notice was posted on the ground on the 10th day of October, 1928.

A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at New Westminster, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

The territory within which its powers in respect of the undertaking are to be exercised is within a radius of 100 miles of the aforesaid power-houses.

A petition for approval of the undertaking will be heard in the office of the Board of Investigation at a date to be fixed by the Comptroller, any interested person may file an objection thereto in the office of the Comptroller or of the said Water Recorder.

VANCOUVER POWER COMPANY, LIMITED.
(SEAL).

George Kidd, E. H. Adams, Directors.
J. V. Armstrong, Secretary.

The date of the first publication of this notice is 23rd October, 1928.

50-4

GREENDALE FOX FARM

The writer of this story had the opportunity of seeing this week what can be accomplished by pluck and determination by two settlers in this British Columbia dry belt.

Fourteen years ago Messrs. W. W. Green and John Oleson located 320 acres on Five Mile Creek 18 miles northeast of Princeton. It was virgin forest, but with vigor they wielded their axes, biting into the trees, and soon made a celaring for a home. Up to the present time they have cleared twenty-five acres free of stumps, and there are abundant evidences of the richness of the soil; a big stack of clover and timothy hay; horses, cattle and a large flock of pure bred White Wyandotte fowl.

They now have a splended, well painted, two-storey house, with full cement basement, besides a detached summer kitchen and good stables and other outbuildings. The premises are warm and comfortably equipped with modern conveniences, including an electric light and water system. The current is generated by batteries of thirty light capacity.

An irrigation system is supplied with water from up the creek for all uses.

The above mentioned are well worth while accomplishments in themselves, but the most valuable feature of the ranch is the rearing of silver-black foxes.

Seven years ago Messrs. Green & Oleson imported from Prince Edward Island a pair of black foxes, at a cost of $1100. They now have forty-three splendid specimens, twenty-one of which are this year's pups. A pair were exhibited at the Vancouver Agricultural Show where they carried off first prize. Their equipment and housing is of the most up-to-date completeness, each pair having a separate pen, all being arranged on a systematic plan giving facilities for extension. The genial hostess, Mrs. Green entered the different pens and stirred the foxes to activity for the benefit of the visitors. Their value can be estimated by the current prices of black-fox pelts, to say nothing of their added value for breeding purposes.—Contributed.

NEW RAIL CONNECTION

A railway from Proctor, on the West Arm of Kootenay Lake, to Kootenay Landing, is said to have been decided on by the Canadian Pacific Railway, closing up a considerable gap in the service. The essential view is to give better service for shipment of ore from East Kootenay mines to Trail.

At the present time ore—including that of the famous Sullivan mine, is shipped to Proctor from Kootenay Landing by barge. Considerable time could no doubt be saved by direct rail shipment to Trail, and it is also believed that an all-rail route from the prairies to Vancouver via the Crow's Nest Pass would result in increased grain shipments to the Pacific port via the Kettle Valley Railway.

The survey for the proposed route along the lake shore has been completed, it is reported, and engineers are now on the ground to make a final decision on the route to be utilized. It is believed that the line would leave the lake shore and extend south-easterly into Proctor.

GERMAN SETTLERS COME

There has been a considerable influx of German settlers into the boundary ditsrict in the last two months, reports E. Richter of Midway. They seem a good type, and should develop the country. While many are now working out for farmers or lumbering, they express a desire to take land for themselves when better prepared.

C.N.R. CAR SLIPS UNDER CONSTRUCTION AT PENTICTON

With T. J. McAlpine, Summerland, contractor, well known in this district, in charge, work has commenced on the Canadian National Railway's Penticton program, which includes the building of a long double track slip into the lake, opposite the cold storage plant; the laying of a spur from the present government wharf west along the lakeshore to Penticton Creek, and also considerable future spur and warehouse development.

When the work is completed, within two months, it will mean that the Canadian National will send freight cars directly into Penticoton for all business available. Heretofore it has been only possible to handle C.N.R. freight out of Penticton on the Pentowna, with transhipment to freight cars at Kelowna.

Having it is understood, purchased the Verrall property between the government wharf and the cannery, it is understood that the railway company will establish freight sheds here as well as providing sites for warehouses.

ROB DRUG STORE

Three boys have been arrested in Coeur d'Alene on a charge of burglarizing the Omak Drug Store and taking about $100 in cash and merchandise. The culprits, evidently youths, had taken advantage of a broken window to play their game. The glass of the front door had been broken in the afternoon, and piece of veneer board pasted over for temporary protection.

Both the cash register and a drawer were emptied, about $20 being found. The intruders then entered the jewellery department and pillaged a showcase of two ladies' wrist watches but overlooked $1,000 worth of diamond rings alongside. They made their exit by the back door.

Two of the lads arrested have similar offenses against them in the past. They had used the car belonging to the parents of one of the lads. The parents had not missed them, as the boys were working at a camp.

TOO MANY ARRESTS

So rapidly are arrests for violations of the motor vehicle act increasing that the average city driver has only one chance in five of escaping the summons of the law each year, according to a report o fthe American Automobile Association. While the percentage is somewhat smaller in rural districts, this is due rather to the lack of policemen than virtue of the motorists. The greatest need, the recommendation of the A.A.A. is, of a uniform traffic code for cities, such as has been prepared by the National Conference on Street and Highway Safety.

The Family Herald and Weekly Star of Montreal with its wonderful improvements is recognized as the greatest money maker for farmers in Canada, while the magazine section is a gem unrivalied.

IN THE LEGISLATURE

NOTICE IS HEREBY GIVEN that an application will be made at the next session of the Legislature of the Province of British Columbia for an act to incorporate a company under the name of Provincial Telephone Company with an authorized capital of five million dollars with its head office in the city of Vancouver and with the following powers:

To operate telephone, wireless telephone, radio-telephone and similar services, including services for the transmission of sound, pictures, writing or signals; to hold and dispose of lands, tenements and hereditaments of any description; to provide and maintain all such buildings, works, plant, apparatus, materials, offices and exchanges as may be necessary for its business; for the purposes of its business to provide and operate steamships and other vessels; to acquire and use any privilege granted by any Federal, Provincial or municipal authority; to acquire and use patent rights; to advance money to any corporation, company or person for providing building or operating any telephone system; to do anything as contractor for others which it might do for its own purposes; to invest and deal with its surplus funds; to enter upon and break up highways, streets, and public bridges and to construct telephone lines along, across or under the same, or in, under or over watercourses, rivers and lakes, subject to the approval of the city or municipal council where the proposed works are to be situated within a city or municipality, and in other cases subject to the approval of the minister of lands; to construct works on its own property; subject to obtaining consent under the Navigable Waters Protection Act of the Dominion of Canada, to construct, lay and operate submarine telephone cable or cables in any lake, river or water to which that Act applies, also between any islands in Britsh Columbia and between such islands and the mainland; to cut a passage for its lines where such lines pass through woods subject to compensating the owners thereof for damage, and to trim trees on or extending over highways in order to prevent interference with good telephone service; to purchase the whole or any part of the undertaking of any other company having objects in whole or in part similar to those of the company, or to amalgamate with such other company, and to transfer to the company or to the amalgamated company, as the case may be, all or any of such franchise or statutory powers as may be possessed by such other company; to enter into and carry out any agreement with any company whose undertaking is purchased as aforesaid in the nature of assuming the payment of or guaranteeing the payment of principal and interest, or either, on bonds, debenture stock or debentures, or assuming or guaranteeing the carrying out of its obligations or any part thereof; to enter into agreements for connecting its system or lines with those of other telephone operators; to expropriate lands under the powers of the Lands Clauses Act; to make regulations for its internal management; to fix from time to time a tariff of charges for its services, and to collect, sue for and recover the same; to borrow money; to issue preference shares, debentures or debenture stock, either redeemable or irredeemable; to issue shares with or without nominal or par value; to change its name pursuant to the Companies Act, and other incidental powers.

DATED the 1st day of November 1928.

McPHILLIPS, DUNCAN & McPHILLIPS,
525 Seymour St, Vancouver, B.C
52-6 Solicitors for the applicants.

NOTICE of INTENTION TO APPLY TO LEASE LAND

In the Kamloops Land District, Recording District of Yale and situate at Teepee Lakes.

Take notice that I, Gunnar Backstrom of Mazama, B.C., occupation farmer intend to apply for a lease of the following described lands:

Commencing at a post planted at the south-west corner of Lot 4539, Kamloops Division, Yale District, thence 40 chains north; thence 40 chains east; thence 20 chains north; thence 100 chains west; thence 20 chains south; thence 20 chains west; thence 20 chains south; thence 60 chains east; thence 20 chains south; thence 20 chains east to point of commencement and containing 400 acres more or less.

GUNNAR BACKSTROM,
52-9 Applicant.
Dated 19th October, 1928.

BEAR BREAKS BOY'S ARM

Wrestling with a circus black bear cub, fourteen year old Hank Rader of Velmer, Wash., sustained a broken arm. The boy went on the mat in answer to a challenge of "Billy the Bear" and in some manner the boy's arm was doubled under the bear, though spectators say the animal was not to blame.

Don't Under-Value Self

WHY does a man insure his property for its full replacement value yet feel satisfied with a few thousand life insurance often representing at most two or three years' income? The fire policy *may* become a claim, the life policy *must*, either by death or maturity. Are you adequately insured?

Princeton Paragraphs

Alex Smith is a business visitor from Kelowna.

The condition of Alex Adams was far from favorable today.

Mrs. E. Doerflinger is spending a few weeks in Victoria.

Heated storage. We will be glad to arrange for storage on your car for the winter months by the night, week or month. Princeton Garage. -1

We have a good stock of anti-freeze—it's getting cold—better put some in now and save a radiator. Princeton Garage Ltd. 52-1

Allan Clark, operator with the local branch of the C.P.R. telegraphs, will spend the Thanksgiving holiday at his home in Agassiz.

The Madore family expect to move into their new residence next week. Mr. Evans, who was in charge of construction, has returned to Keremeos.

Let us bring one of the Sparton eight-tube electric machines to your own home for a trial. We don't need any outside aerial for a trial. Princeton Garage Ltd. 52-1

Allan MacDonald, who has been at his ranch in Oliver on leave of absence, is back at the local K.V. depot, and as acting agent pro tem.

Mr. Eric Mallet Paret is able to be about again after being under the weather for the past week, but is not able to be at work and is at present on sick leave.

Mrs. A. E. Malcolm arrivde back in Princeton on Sunday after spending two months visiting friends in Vancouver and Victoria, and is again residing with her daughter, Mrs. J. L. Coles.

Harold Pughe will next week assume a position with the Kettle Valley Railway company in connection with the local telegraph service. John Coles is rejoicing over his appointment as assistant freight agent. Mr. Beatty had better look out.

Among the local men who will go down to the coast to spend the holidays with friends and relatives are Bill Lucas, teacher at Jura; W. Lovell, of the Princeton Departmental Store; H. Hahn, of the local branch Bank of Montreal, and E. Mallet Paret, of the Commerce.

Announcement was made by Burns &Co this week of the transfer to Calgary of Harry Newman, popular manager of the local branch. Mr. Newman is through here now, and will shortly leave for their new home. Mr. and Mrs. Newman are at present on a motor trip to Washington.

Ab Garton, now of Chelan, with the Princeton baseball club this season, is spending a few days in town. Ab has quite recovered from the broken ankle he sustained in the final league game here, and walks without a limp. He is not just decided as to where he will canter next year, though it is certain he will be in the game again.

Mrs. Kate Davis, grand worthy matron of the order of the Eastern Star, was a guest of honor at the session of the local lodge Monday night. She was accompanied by Mrs. Loomer of Penticton, a past matron of the Penticton chapter. Following the initiation ceremony in which Mr. and Mrs. R. Clare were admitted to membership in the lodge, a banquet was enjoyed, a pleasing feature being the presentation to the grand worthy matron of a beautiful silver cake basket and to Mrs. E. Doerflinger, grand warden, of a lovely bouquet of flowers.

Mrs. J. A. McLellan informs the Star that a bone grafting operation has been performed by Dr. P. A. McLennan in Vancouver General Hospital consequent to her injury here in an auto accident August 1, when she sustained a broken leg. Healing had been prevented through the nature of the injury. It has been found that the break had stripped back the smooth, firm covering of the bone for a distance, and so torn it thta a small layer had lodged between the ends of the bone, preventing them from knitting. A graft of bone from above the injury to aid the break in growing new bone material is expected to assure a complete recovery.

CHURCH NOTES

Bazaar at Hand

The deft and willing fingers of the ladies of St. Cuthbert's Church Guild are turning out many fine articles which will be ready for sale at the bazaar. Many beautiful Christmas gifts will be found in the selection. It never seems possible, no matter how diligently the ladies work, to make the supply equal to the demand, so it may again be a case of first come first served.

* * * *

Real Spirit

One of the out of town ladies who will not get in for the event showed the right spirit when she struck the idea of sending in a sum of money to a friend to make purchases on her behalf. The last sewing meeting in preparation for the bazaar was held at the home of Mrs. McGuffie Wednesday evening.

* * * *

No Sunday School

Owing to special Armistice service there will be no Sunday school at St. Cuthbert's this week, but morning prayer, armistice service, will be held at the church following the cenotaph service.

Indications are that Princeton will be well represented at the grand masquerade ball being staged in Shatford's Hall, Hedley, this evening under the auspices of the Hedley hospital. The committee in charge has spared no pains with the decoration of the hall and lighting arrangements and the affair promises to be a particularly brilliant one. It is announced that the masquerade ball recently held in Keremeos in aid of the Hedley hospital netted the very gratifying sum of $185.85.

ROCK CREEK ATTRACTS MANY SETTLERS

Rock Creek is facing a boom. Newcomers are entering the district every day, and not since the days of the gold rush in the '60's has the population been as great. But whereas then it was the shifty Chinese who sought riches from panning the sands of the creek, it is now slow-minded Europeans—German Lutherans, Russians, and Poles—content to till the soil and wait for certain harvest.

Nearly every vacant farm has been rented. The newcomers have been given a cordial welcome. It is said that over 600 of the immigrants will settle between Christian Valley and Midway, with Rock Creek the chief center of population.

They are all devout Lutherans, and are led by Rev. Mr. Toyne, who organized the colony, and has been in the district about six months. They hald a three-hour service in the church Sunday, and a long choir practice Friday night. Such things are unusual in Rock Creek.

The newcomers are very anxious to learn the language of their new country, and night school has been opened by a local teacher with an enrollment of 20. The students are mostly young men, who have finished serving terms in the army. They are very fond of shooting and good shots, though they do not seem to understand the game laws of the province.

COMING EVENTS

Balloon Dance—At dining hall, Allenby, in aid of school funds, Friday evening, Nov. 9th. Princeton orchestra. Gents $1.00; ladies 50c.

* * * *

Through Rose Colored Spectacles

Too often Life Insurance is regarded solely as a means of protection for dependents. It is that. But a more sensible way to look at it is to regard it not only as the means to insure protection for dependents in the event of death, but in addition to provide for one's own comfort in later life.

The Confederation Life Association provides this dual insurance in the form of a Peerless Policy which has been found to meet the requirements of the business and professional man.

We should like to send you a booklet entitled, "The Peerless Policy." It describes this dual plan of insurance precisely. Write for a copy.

KEREMEOS NOTES

Mrs. E. M. Daly left on Saturday for California, where she intends to spend the winter. En route she will visit friends in Vancouver and Seattle, spending one day with Mrs. Keeler. We should have mentioned in last week's notes that the gift subscribed by friends took the form of a white gold wrist watch. This was presented to Mrs. Daly by Mr. Clementson at the masquerade held on Friday, Oct. 26th. Mrs. Daly will be greatly missed in the valley, especially at the W.I. meetings and in social events, in which she always has taken great interest and pleasure. Best wishes for a pleasant stay in California go with her, but we all hope she will keep her promise to come back to visit Keremeos next summer.

* * * *

During the week Mr. and Mrs. Tom Daly moved down town, into the Carmichael house.

* * * *

Born—On Saturday, Nov. 3rd, to the Rev. and Mrs. T. C. Colwell, a daughter, at Hedley hospital.

* * * *

Are Moving

The "moving bug" is badly affecting the people on the bench. Now we hear that Mr. and Mrs. Crooker and Fred are the latest victims. They are going to the lower Richter ranch, in the Richter Pass. We are glad they are not really leaving the valley and we hope they will often come back up to town. Mr. and Mrs. Crooker will both be greatly missed, especially in the work of the United Church, in which both have taken very active parts.

* * * *

Mr. and Mrs. Howard Smith from Beaverdell have been visiting Mrs. Mac Clarke. They returned to their home on Wednesday, Mr. R. C. Clarke going with them for a few days' visit.

* * * *

The dance last Saturday night was most enjoyable. At the request of the dancing crowd these Saturday night dances will be continued for some week more. The new lighting plant at the hall is working well and the lighting arrangements are now so much more satisfactory.

* * * *

Mr. Clementson is spending a few days in Kelowna.

* * * *

G. Morton and Garney Willis returned to the valley last week with 12,000 sheep. These are at present at the Willis ranch. Several of the rams escaped one day and roamed about to various parts of the valley, keeping several people busy rounding them up.

CARD OF THANKS

Mrs. E. M. Daly desires to express her sincere thanks for the kindness shown her by her many friends through the valley, especially of Keremeos, on her departure for California. She especially thanks the Keremeos folq for their beautiful gift. 52-1

COPPER MOUNTAIN

The children of the school entertained their parents and friends, in fact a great number of the camp to a Hallowe'en party last week. A great deal of fun for all had been prepared and everybody had a good time.

* * * *

Mr. Prideaux, our genial life insurance agent, was up this week. We understand there are now a fair number who are worth more dead than alive.

* * * *

Mrs. Gould and Milner have gone to Princeton where Milner is to leave behind some troublesome tonsils. His many school friends wish him a speedy recovery.

* * * *

Women's Institute sale of home cooking, candy, needlework, grab bags and afternoon tea in the W.I. room on Saturday, Nov. 10, at 3 p.m.

* * * *

Hold Debate

Copper Mountain school experienced an active month. A visit by Inspector T. R. Hall and a debate in the senior room were the features. The budding Demosthenes argued the respective merits of horses and cars, and the horses won by a neck. Several parents were present.

BLAKEBURN NEWS

Mrs. R. N. Caulfield returned on Sunday from Penticton where she has been in the hospital for the past few months.

* * * *

Mr. F. M. Barnes motored to Vancouver on Friday last, accompanied by Miss M. Barnes and Mr. W. Waller. Miss Barnes returned to Blakeburn on Monday morning.

* * * *

Mrs. Bob Cuthbertson accompanied by Miss Beth Cuthbertson left on Saturday last for Vancouver where they will spend a short holiday.

* * * *

Mr. W. Mills left for Nanaimo on Sunday last.

* * * *

Baseball club are holding a concert and dance in the Blakeburn dining hall on Saturday, November 10.

Miss Sarah Angstadt of Aspen Grove is at Blakeburn visiting with her sister Mrs. P. J. McDermid.

GOOD ATTENDANCES IN SCHOOLS OF SIMILKAMEEN

Grade IV—1, Jimmie Bond; 2, Willard Gilmour; 3, Henry Vaton.

Grade III—1, Edith Cuthbertson; 2, Isabel Sim; 3, Mary Gibson.

SOLUTION OF RATES DISPUTE SEEN IN COMPANY'S REQUEST

(Continued from page one.)

allowing the West Kootenay Company to apply for a water license, the government is at the same time continuing to make a close study of the interior rates situation.

In Line With Request

The solution, then, appears to be just over the horizon. The application for increased power carries with it the intended application for an extension of the company's selling area. Grand Forks was in effect urging the government to do the very thing the West Kootenay Company is now suggesting.

Such a ruling would counteract the dictum of Mr. Justice Murphy that the company has no right to sell power outside a limited area around Rossland, a subject on which the appeal court reserved decision a fortnight ago.

Grand Forks Case

Grand Forks points out to the executive council that unless it finds that it has control over the West Kootenay Company in the present case it will mean that every company or municipality would be required before making a contract, to investigate through the courts the business integrity and honesty of a utility company before i can deal with it with any degree of safety.

Twenty one years ago the city of Grand Forks agreed with the West Kootenay Light and Power Company to buy power at one cent per kilowatt hour. For ten years the company continued to sell power at this rate; then the original city plant dismantled, the rate was raised 250 per cent, and the company was trying to raise it 300 per cent.

That the company was allowed to operate in this territory inferred that it had the government's approval in so doing, and that the government accepted responsibility for the arrangement. It is a matter of consternation that a quarter million dollars has been illegally collected by the company with the apparent knowledge and passive consent of the government.

It is hard to understand that the government can possibly condone and allow to continue the practice by any public utility corporation of such questionable methods as making contracts with municipalities and companies and then flatly repudiating them when it suits their financial convenience.

"Are we asking too much," the city of Grand Forks asks," in arguing that the government becomes responsible for the legality as to jurisdiction of a public utility corporation, or is it reasonable to suggest that municipalities must be forced to seek the courts for an interpretation of the statutes before they can negotiate with utility corporations?"

"BLIND BILL" ROBBED

An unscrupulous thief is reported to have entered the premises of "Blind Bill" Nicholson Sunday morning and to have taken $160 of the poor old man's money. So far as cen be learned, no clue was left.

A number of Blakeburn boys were down to attend the football club's dance Friday night.

Today is pay day at Copper Mountain and Hedley, and the harassed bankers quite realize it.

BIG HAUL OF CONTRABAND LIQUOR MADE

Twenty-one sacks, containing 262 bottles of expensive bonded liquor were aken about a mile south of the international boundary by U.S. customs officers between Molson and Chesaw. A Paige coupe was seized and the driver arrested.

The seizure was made about 5 a.m. Another car accompanied the Paige, but turned and sped off, managing to escape the fire directed at it by the preventative officers. One of the two men in the seized car also managed to escape when he jumped and ran into the bushes.

Details of the seizure are: 24 qts. Sandy McDonald whisky; 2 pts. Chas. Heidsick champagne; 24 quarts Glenmoor Bourbon Bond; 24 qts. H. and S. Scotch; 156 qts. Kirby Special Canadian whisky. Ferguson the man taken, was placed in Okanogan county jail pending the arrival of a guard to take him to Spokne, where he was released on a bond of $2 000.

This is the biggest haul of bonded liquor made in Okanogan county for several months. The district where it was captured is off the main line of travel and give the runner his choice of several roads into the valley or to the east.

Billy Wilson returned from the coast last week-end, and has been busying himself with his local mineral claims.

FEATURE BASKETBALL GAME IN SENIOR LOOP TONIGHT

(Continued from page one.)

Cooper, g; Barton, f; Lindsay, f, (8); Vaydo, f, (2). Total 10.

SIMILKAMEEN GARAGE—Cooper, g; Caruso, g; W. Garrison, c, (4); Burr, f (2); Dodd, f. Total 6.

Referee, Dave Taylor.

SEVEN DEVILS OF KEREMEOS-HEDLEY ROAD TO BE KILLED BY ROAD MEN THIS WINTER

(Continued from page one.)

come the distributing point for this teritory. A trail has been cut through, and the district engineer is to make an examination.

Demands are also being made for improvements to Fish Lake road which serves chiefly sportsmen and tourists. It has been more or less promised that attention will shortly be given to this road.

Summerland next year plans considerable improvements to roads in its charge. A larger appropriation will be made next year, and new equipment bought. Penticton plans to shale the road to the K.V.R., and to improve some bad corners.

Requests have also been made for improvements to Clearwater Lake road, and other less important roads. The government is also asked to consider a road from Naramata to Kelowna, a decision on the Yellow Lake road from Penticton to Keremeos to give an easier grade and more open winter conditions than the Green Mountain road.

In the course of their tour the ministers went over the high road from West Summerland to Deep Creek, and also over the Penticton-Kelowna road. The district engineer is to estimate the cost of putting the Summerland-Deep Creek road into a permanent condition, and also the cost of building a new road.

Hope-Princeton

Then,too, there is the Five Mile road, giving direct access between Peachland and Princeton, a really great need. And last but by no means least is the question of the Hope-Princeton road looming up ahead, in the immediate future, we hope. The ministers have been made acquainted with all these conditions and if they actually are planning to start off in the Okanagan-Similkameen, they have a big program ahead of them.

Stationed in Penticton

Donald McCallum of Keremeos, newly appointed road superintendent for Similkameen riding under District Engineer McKay, has assumed duties. His office is located in Penticton and he has moved his family to that town after several yaers' residence in the lower valley.

LAND REGISTRY ACT
(Section 160)

In the Matter of Lot 2261 "S" Similkamen Division Yale District.

PROOF having been filed in my office of the loss of Certifice of Title No. 38112F to the above-mentioned lands in the name of Hugh Gillespie and bearing date the 14th.
