Mining in B.C. Had Very Successful Year in 1928

Annual Report of Minister of Mines Released; Coal Mining Appears to Be on Threshold of Success; Considerable Capital Invested

PROSPECTORS AGAIN ACTIVE

(Special to The Star)

Victoria, B.C.—Increased production, widespread development and satisfactory profits were the outstanding features of the mining industry of British Columbia in the year 1928 according to the final returns recently reported to Honorable W. A. McKenzie, minister of mines and labor, by the Provincial Bureau of Mines consequent upon the annual check-up of reports from all sections of the province by Mr. J. D. Galloway, provincial mineralogist. The annual report of the department is now ready for issuance.

These final figures show that the past year can be described as the most successful in the history of the mining industry in this province. While, owing the lower level of metal prices, the aggregate value of the output of $65,372,583, was $1,816,239 less than that for the record year of 1926, on the other hand the aggregate output of metals and mineral was the greatest on record the tonnage of metalliferous ore mined and treated in 1928 being 6,241,310 tons compared with 5,416,621 tons in 1927 and with 4,775,173 tons in 1926. In fact the 1928 production valued at 1926 prices would be worth nearly $75,000,000.

Compared with 1927, the production figures for 1928 show increased output for all metals except placer gold, a larger tonnage of coal, and increased valuations of structural materials and miscellaneous metals and minerals. By value, the various products of the mineral industry produced in 1928 are ranked in the following order: Copper, lead, coal, zinc, silver, gold, structural material, miscellaneous metals and minerals. Copper, lead and zinc output were the highest in the history of mining in B.C.

The production and value thereof in 1928 as compared with 1927 and 1926 was as follows:

	1926		1927		1928	
	Quantity	Value	Quantity	Value	Quantity	Value
Gold, placer, ... oz.	20,912	$ 355,503	9,191	$ 156,247	8,424	$ 143,280
Gold, lode ..... oz.	201,912	4,163,859	178,001	3,679,801	188,087	3,888,097
Silver ..... oz.	10,148,536	6,675,606	10,470,185	5,902,043	10,627,167	6,182,461
Copper ..... lb.	89,329,768	12,324,421	89,202,871	11,525,011	97,908,316	14,265,242
Lead ..... lb.	263,028,937	17,757,535	282,996,423	14,874,292	305,140,792	13,961,412
Zinc ..... lb.	142,876,947	10,586,610	145,225,443	8,996,135	181,763,147	9,984,613
Coal ..... tons, 2240	2,330,036	11,650,180	2,453,827	12,269,135	2,526,702	12,633,510
*Coke ..... tons, 2240 lb.						
Structural materials and miscellaneous minerals		3,675,128		3,326,894		4,314,040
TOTALS		$67,188,849		$60,729,358		$65,372,583

*Coke not included in primary mineral production; coal used in making coke included in coal figures.

The aggregate value of the mineral production of British Columbia since the inception of the industry up to the end of 1928 is placed at $1,114,210,411 segregated as follows:

Gold (placer)	$ 78,318,693
Gold (lode)	134,540,016
Silver	92,871,597
Copper	235,757,321
Lead	135,812,146
Zinc	69,493,305
Coal and coke	309,601,778
Structural and Miss.	57,816,335
Total	$1,114,210,411

COPPER EXCELLENT

The report of the minister of mines indicates that copper mining had a prosperous year in 1928, production aggregating 97,908,316 lbs. value at $14,265,248—a record output—but a lower valuation than recorded in the three war years 1916, 1917 and 1918, when the price of copper was nearly double that of 1928. The sharp advance in the price of copper metal towards in close of the year is reflected in the average yearly price of 14.57 cents last year as compared with an average price of 12.92 cents in 1927. During recent years the large copper mines of the province have been brought up to a high state of efficiency, with modern equipment resulting in lower costs.

No expansion of production is looked for in 1929 from the three main producers, but a full years output at the rate shown in the last quarter of 1928 is expected which would result in a production somewhat in excess of 100,000,000 lbs.

A new high record in production of lead was established during 1928, the output aggregating 305,140,792 lbs. valued at $13,961,412.

Coal in 1928 took third place in point of value of output, the value being $12,663,510 compared with $12,269,135 in 1927, an increase of 2.87 per cent. Coal mining in the province has been subject to intensive competition in the marketing of the output from crude oil and hydro-electric power but since 1924 a steady though small annual increase in output has been recorded. Improved conditions in the Crow's Nest Pass field and the amalgamation of the principal producers on Vancouver Island are important factors towards improvement of the coal mining industry, which should result in steady growth in the future, and with the immense coal resources of the province and the gradual perfection of more scientific methods of processing and using coal, the yearly output may be expected to grow.

The silver output for the province in 1928 was slightly greater than in 1927 and slightly less than in 1926, at 10,627,167 ounces valued at $6,182,461.

The outlook for 1929 is that higher metal prices will prevail than in 1928. Copper is in an excellent position and an 18-cent level or higher is anticipated for some time to come and with increasing production of the metals in this province the result will prove of great benefit to the industry.

MORE CAPITAL

Ample capital for development purposes, and a general widening out in new sections of the province in the search for new mineral areas were distinguishing features of the year. Development of the larger properties, including the Sullivan, Premier, Britannia, Hidden Creek and Copper Mountain kept pace with production and in the aggregate this development has been successful in maintaining or increasing ore reserves.

Reports from the various districts would indicate that on the whole, slightly more prospectors were ni the field than in 1927 In some districts, however, very few men were in the field and it is evident that there is need for electrical prospecting methods were tried on several properties. So far the results of this work have not been announced.

The growth of dividends in recent years is strikingly shown by the following figures:

Year	Dividends
1923	$ 2,809,295
1924	2,896,174
1925	6,319,908
1926	9,747,270
1927	10,800,838
1928	11,556,688

A dividend of $11,556,688 from a gross production of $65,372,583, or 17.7 per cent, is an excellent one and shows that mining in British Columbia is a profitable industry.

Company	1927	1928
Consolidated Mining & Smelting Co.	$ 6,358,875	$ 6,366,594
Premier Gold Mining Co. Ltd.	1,601,250	1,300,000
Howe Sound Company	1,984,152	1,984,152
Duthie Mines Limited		50,000
Granby Consolidated M. S. & P. Co.	348,872	1,344,515
Bell Mine	64,629	55,714
Whitewater Mines, Ltd.	10,000	
Cow's Nest Pass Coal Co, Ltd.	372,760	372,696
Clayburn Company	32,000	32,000
Others	8,300	51,017
Total	$10,800,838	$11,556,688

TWO SENT OVER

Arrested Friday in connection with the theft of a watch from a roomer at the Dominion Cafe, two men giving their names as Moore and Conlin appeared before Magistrate Waterman Saturday. The former was given one month for being intoxicated in a public place, while the latter will serve two months for theft The men were escorted to the coast Sunday by Constable W. J. Thomson.

FUNERAL HELD

The funeral of the late Mrs. Catherine Armstrong, who passed away at Keremeos Tuesday, May 21, was held Saturday from the Center & Hanna funeral parlors, Vancouver. Rev. E. McGougan of Chalmers United Church officiated. Interment was made in the family plot. Pallbearers were all old friends of the family.

HELP WANTED

Here's a real chance to be of service. Fully fifty youngsters are just itching to get to Copper Mountain tomorrow to attend the school sports. They must have transportation. If you are in a position to donate a truck, please advise Mr. Affleck. But if you are only taking the family bus and can possibly squeeze another in, please call round at the school as you leave, and you'll have your cargo made up. That's the spirit.

WEATHER MAN FROWNS ON KEREMEOS SPORTS

The weather man was in bad humor for Empire Day, and cold, strong winds certainly did not help the good people of Keremeos in their effort to entertain the valley at their annual Empire Day celebration.

Children's sports were held in the morning when a junior ball game was also played. Senior baseball provided the afternoon attraction.

The big event, however, was the dance in the evening, which drew a crowd of fully 200 to the Victory Hall, where Val's Aces dispensed a brand of jazz that could not fail to please.

Mr. Honeywell made a capable M.C. The banquet supper put on by the members of the W.I. was as usual excellent.

IMPROVES ROAD

S. R. Gibson has been giving the Nine Mile road considerable attention as far as Nine Mile bridge, and his gang has greatly improved the road surface. It will likely be much in demand again when the Lynden mine re-opens and the Pacific Slope people get busy.

NEWSY HILL HERE

"Newsy" Hill, who has now become an institution, is again encamped at Nine Mile, preparatory to making his annual trip over the Hope trail. He is employed in Vancouver, and generally hikes from the coast to Princeton and back, but this year he came up by train.

Pioneer Citizen Passes

OBITUARY

The death occurred Saturday morning after a lingering illness of Charles Edward Thomas, pioner Princeton merchant and one of the best known residents of the upper Similkameen.

The late Mr. Thomas was one of the real pioneers; one of the "fathers of Princeton." He conducted the first retail store; was Princeton's first postmaster; first president of Princeton board of trade; with Mr. Ernest Waterman, first local justice of the peace. For many years he was actively connected with practically every community movement in the town, and no doubt a great many other "firsts" could be added if they could but be recalled. It almost goes without saying that a man of such enterprise and character playde a great part in the industrial foundation of the district, helping either directly or indirectly many a new development.

Born in Barnwood, near Gloucester, England, November 1, 1861, the late Mr. Thomas left his native shores at the early age of 20. He first tried Australia, where he remained but four years. Then, no doubt charmed by the reports of free gold in abundance, he crossed to Canada, and figured in the Granite Creek rush of '85. He was associated with the firm of A. E. Howse & Co. in Nicola, and in 1895 he opened a business in Princeton. The firm has continued since that time.

He was unmarried. Three brothers—William and Herbert of Princeton and Ernest of California; and four sisters—Miss Mabel, Princeton, and Misses Constance, Annie and Gertrude, London, Eng., survive.

Funeral

Flags flew at half mast in Princeton Tuesday afternoon when the last remains of the late Charles Edward Thomas were laid at rest in Princeton cemetery. The funeral was very largely attended, and most impressive. A service was held at St. Cuthbert's Church, Rev. A. J. Williams officiating. Foral tributes were beautiful and profuse. Pallbearers were Messrs. Perley Russell, Percy Rowlands, G. G. Lyall and Ed. E. Burr.

Floral tributes were as follows: wreaths—Bruce and Constance, Mr. and Mrs. W. A. McKenzie; broken wheel—China Free Masons; sprays—Mr. and Mrs. W. A. Thomas, Mr. and Mrs. R. M. Irwin, Mrs. E. Doerflinger, L. D. Cafe, E. E. Bur and family, Princeton Brewing Co., J. J. Malone, family 4, L. Sherbauer, Mr. and Mrs. A. D. Broomfield, Mr. and Mrs. R. Levack, Mr. and Mrs. P. W. Gregory, Mr. and Mrs. W. A. Wagenhauser, Mr. and Mrs. A. E. Wilson, Mr. and Mrs. E. Waterman.

Accompanying a party of Princeton golfers to Kelowna at the week-end were Mrs. W. B. Ewart, Mrs. E. Cook and Edward Cook.

AN APPRECIATION

The fast thinning ranks of Princeton's pioneers have lost in Charley Thomas, a very worthy members.

I do not know the exact year when he came to Princeton, but it must have been about 1896—and during the early days when we were fighting for existance he bore his full share of the white man's burden. He took an active part in forming the board of trade, and was, I believe, its first president. He was one of the original members of the hospital board and treated that institution most generously when it found itself in financial difficulties. He was our first postmaster and also a justice of the peace for many years and very frequently sat with me on the bench; he had a very clear conception of right and wrong and his judgment could always be relied upon. When the evidence of guilt was clear he did his duty unflinchingly, when there was reasonable doubt, the accused got the benefit.

He had the confidence of all that knew him, and I do not know any man's trust that he abused, and this is a fine thing to say of a man who lived intimately in a small community for over thirty years. I do not think he wittingly injured any man, and if you went to him for assistance for any worthy object, you were not refused.

He was a man of very sterling honesty, and when you can say that of a man, as I say it, in its broadest sense, because honesty is not entirely a matter of money or money values, and when you say it as I have done, knowing that it is true, you are again saying a very fine thing, and you are giving very high praise indeed, in fact there is little, if any more that could be said, and we should all feel very well satisfied if it can be said of use when we pass over, as we all must pass. So I will not say anything more of his qualities, but having again thought it over very carefully, I will repeat "that Charley Thomas was a man of very sterling honesty," with all that it implies, and leave it at that.

I did not see him during the last months, but when I last talked with him I was much struck with the brave and manly spirit with which he viewed his illness. If it was to be the end he wanted to know it, and he wanted to know it in time to get his affairs set in order. No complaints, no regrets, and I feel sure he bore his final sufferings, and passed away with the same high spirit.

I feel that this brief appreciation of a man I knew and liked well can be fittingly closed, seeing the kind of man he was, by quoting a verse written by the poet Henley:

In the fell clutch of circumstance
I have not winced nor cried aloud.
Under the bludgeonings of chance
My head is bloody, but unbowed.

—E. W.

Princeton, B.C., May 28th, 1929.

Tulameen Black Sands to Be Chemically Treated

B.C. Platinum Company Acquires Many Important Properties in Tulameen Area; to Commence Operations at Once

Reclamation of gold and platinum values from the Tulameen black sanrs by a new chemical process that may revolutionize placer mining in this area is to be undertaken at once on an extensive scale by the B.C. Platinum Company, which has purchased several of the best known placer grounds in this area, notably the Sootheran claims on Eagle Creek; the entire holdings of the Tulameen Placers, Ltd., smaller properties on Kelly Creek; and in addition an option on the Moses lease.

G. C. Bagley, field manager, accompanied by Fred C. Shelly, well known Vancouver capitalist and a leading official in the company, were in Princeton this week. Mr. Shelly had been visiting the property, while Mr. Bagley is now at work making arrangements for the immediate commencement of operations.

This new process, which has been fully proven on a small scale, would enable the patentees to extract gold and platinum vaules hitherto unrealized from the famous Tulameen black sands; would enable them to treat the sands in quantity, extracting values of p to $400 per ton at a cost of approximately $5.00 per ton; and would mean the handling of a tremendous volume of earth at the rate of 300 tons a day.

The process has been devolved by Frank V. Newman, an American chemist, who personally will be in charge of this side of the work. The initial stages of the process are those ordinarily used in hydraulic mining and milling. Careful sluicing and grinding and separating of the rock and sand through different meshes come first, and the finely ground sand then passes through this chemical process which marks a new development at an entirely revolutionary figure in commercial placer mining.

The black sands of the Tulameen have long been famous, and it has for years been realized that the deposits from Olivine Mountain and its tributary creeks contain considerable quantities of gold, platinum, iridium and osmiridium, but hitherto these have been unrecoverable. These sands are freely dissimenated throughout the aluvial deposits along the river. The free gold and platinum values of the gravels stimulated "rushes" to Granite and other creeks many years ago, and have since been the object of itinerant panners and hydraulic mining operations. Past records show a recovery of 20,000 ounces of platinum and several times this quantity of gold, recovered by rocker and sluice, the original primitive methods of the panners. To this point the black sands and concentrates have been thrown away, for lack of means to recover the values they are known to contain.

COMPANY FORMED

A company has been formed in Vancouver which has acquired sole use of the Newman process, and has literally corralled much of the richest placer ground in this section. Modern machinery will be an added facility.

Officers in this company, which is capitalized at $600,000, include: Frederick C. Shelly; vice-president, George C. Bagley; secretary-treasurer, S. J. Castleman; directors, F. C. Shelly, G. C. Bagley, F. V. Newman, S. A. Castleman and Frank A. Jackson.

Holdings consist of four groups of leases situated on Hine Creek, Eagle Creek, Champion Creek and Eagle Creek, approximately 700 acres, which contain, it is estimated, sixty million yards of workable sand and gravel. There are two leases adjoining the Godfrey lease, property on what is known as "Shubert's pool," the Sootheran property, the Tulameen Platinum holdings, and options on the Moses lease.

In view of the well known deposits on the Sootheran property—demonstrated by Mr. Sootheran's own success by primitive methods—it has been decided to commence operations there rather than on Hine Creek, as was originally planned.

Mr. Bagley is in Vancouver arranging for the purchase of a mill, which will be installed at once, with capacity of 50 tons daily; a modern high pressure hydraulic plant, equipped with jigs, table and fine gold saving machinery; all electrically operated by water power developed from the creek.

Mr. Bagley is a practical placer man, with over thirty years experience in Australia. While the company does not propose for the present at any rate, to do customs milling of black sands for others, it will be willing to purchase the black sands, practically worthless to others, and treat them by its secret process. The process should be in operation within six weeks.

Latest reports from Copper Mountain are to the effect that the track will be in excellent shape for tomorrow's meet.

CLOSED TOMORROW

In order to allow clerks to attend, and to assist generally with the Copper Mountain schools sports, Princeton stores will be closed Friday afternoon (tomorrow). They will remain open this afternoon. Though Monday is a bank holiday and school, it will not be observed at local stores.

EVENTS ARRANGED FOR JULY 1st FIRST AID MEET

First aid work has gone over with a bang in Princeton, with classes formed at Blakeburn, Hedley, Copper Mountain, Allenby, and Tula-At the Tualmeen Valley mine a senior team has been picked, and two boys and one girls' teams are also in training. They are practicing every night under instruction of Mr. Hamilton Allan, an experienced coach who has come from Ladysmith, V.I. The local students taken to the work most enthusiastically. Practices are held in the basement of the school. Teams have been selected.

A list of events for the July 1 competition is announced by Secretary Robt. Lindsay of Princeton District Ambulance Association as follows: 5 man open (cup), 2 man event, open, 5 man event (Department of Mines cup), 3 man event for men employed in or around mines. There are also events for boys and girls. Entries must be in by June 15.

There will be a cup for each event, as well as individual prizes. Splendid trophies have already been received, including the Hunter cup, donated by Chas. Hunter, without a peer among local trophies.

LOCAL BANDSMEN TO BOOST FINANCES SOON

Princeton District Band has officially launched its subscription list. While ths flourishing organization is being conducted in an efficient and economical manner, finances are always needed, and the bigger the capital, the more can be accomplished.

The band is taking definite shape and has made satisfactory progress, with some twenty pieces now in line. There is, of course, a good deal of wood-shedding to be done, and for a while the band must remain pretty well in the dark. It will not be long, however, till it can make its public debut, and when it does, it will be in the limelight for good and all.

A good band is an invaluable community asset, whose value cannot be realized until it has been tried. Princeton will have music—and home brewed music—for July 1, and a band for every future occasion throughout the Similkameen.

At a meeting Monday it was decided to get the subscription drive under way. The Similkameen has been divided into districts, and every person in the entire valley is to be asked to help along.

Practice nights are Monday and Friday, and the practice place the Parish Hall. The band is at present negotiating for several instruments, used by the now defunct Hedley band, which would considerably augment its playing strength. z

Looking It Over

[Our own and other people's views.]

CHARACER

A newspaper's place is to benefit its community. In order to do so, it must be just a little ahead of its community; always a half step in advance. There is the class who think the sole purpose of a newspaper is to "boost"; not merely to make its ideal the advancement of the interests of the community, but to be prepetually drumming on its virtues, and to omit its blemishes. It should adopt a "hush, hush" policy on anything that would give offense; should be a bait for outsiders—those with the money, you know. The idea is to get people here; they'll find out its bad points soon enough.

Well, yes and no. What do you think of the individual who is, in his own opinion, the image of the Creator; no faults, no nothing. We sympathize with him, smile, and call him "soft." But the newspaper which stands on a soap box and flaunts to all the world the virtues of its town, real or imaginary, if necessary, is the town's best friend. Why, it's doing noble work.

We may be wrong, but as we see it character is what counts. We'd sooner see an individual with a thousand faults and one principle than a thousand virtues and no principle. We at least know he has what we call "manhood," and after all, our modern ethics hardly call for the rubber-stamped cherubims.

It was many years ago that men laid down their lives for the principle of free thinking. And it was a glorious battle for more than ink that established the freedom of the press. Then who expects that such a noble institution as the press, which has battled trough centuries to establish itself as the champion of free and right thinking, against tyrants and against tyrannical laws, is to be subservient to the personal interests of a certain section of any town whose chief thought let them frankly confess, is to line their own pockets.

When you go to a recognized physician for advice, you expect him to tell you what's wrong. If you have cancer, you won't thank him for saying you have tooth-ache, and "cashing in" a little late. When a person picks up a newspaper, particularly if he is interested in the town of its origin, he has a right to expect to find a frank expression of the truth concerning conditions in that town.

It is a whole lot better to get one new citizen through letting him make up his own mind on well considered reflection of the merits and demerits of a town than to "hook" a dozen by the lure of a paradise, which turns out to be an ash heap. Veracity in advertising whether it be for the individual, the product or the town, is the most sacred and most valuable possession we have. Shatter public confidence in the press, and you have but an empty shell.

Let us face the facts. If Princeton needs new sidewalks, let's not say, "hush, hush," but lets say, "You bet we do, and we're going to get them." And if a criminal ring is broken up in Keremeos—just for the sake of argument—let's not say "hush, hush, don't tell anyone," but let's say, "Well, our town's only human. That's not necessarily a reflection against the town. But we're out to stop that sort of thing, and we don't care who knows it. The better we get at the bottom of it now, the less chance it has of cropping up again. It may hurt our reputation for the time being, but it will make for a better town in the long run."

Vancouver recently had its police enquiry. Sordid stuff. And the press capitalized it. Not to satisfy the cravings of the baser type who delight in that sort of reading; but because it was wrong, and an injustice to the right thinking citizens of Vancouver; and they were entitled to get to the bottom of it even if in doing so they had to let the outside world know about it. And do we blame the city of Vancouver, the Vancouver press, for that? Kelowna recently had a similar experience. They got to the bottom of it, though it proved nothing alarming. Merritt recently had the unfortunate experience of having its paper "get in wrong."

Individual instances are not what count. The editor may be wrong in assuming something, or playing up some angle of something else unnecessarily; but it's the principle that counts. If the editor has erred, let him frankly say so. And as a unit of the great institution of the press, we must subscribe to the attitude these papers have taken; to stand out for what will really do most good even at the expense of giving temporary or individual offence.

A paper's purpose is to do its community good. How can it if it lacks the basic quality itself—character?

WELL DONE

The following epitaph was found in an old English churchyard:

"Sacred to the memory of
Eben Harvey,
who departed this life suddenly and unexpectedly by a cow kicking him on the 15th of September, 1853.
"Well done, thou good and faithful servant.'"

PARLIAMENTARY JOTTINGS

What nice things the boys do say of one another at Ottawa. It is quite unparliamentary to accuse a member of being a "d——d liar," so you have various expediences. In the post office squabble recently H. H. Stevens believed the Hon. Post Master general had deceived the house in the matter of postal returns.

Mr. Bennett very kindly admitted that "Mr. Veniot's charity covered a multitude of sins;" but it was sarcastic.

But Mr. Veniot had an answer, "I do not see any of it in you."

Kind words no. 667: Mr. Stevens—He (Mr. Veniot) is particularly proud of his ability to bluff. He has been bluffing his house for three years.

That explains it (Mr. Veniot, giving explanation): He died about midsummer, and she was replaced ——."

An Hon. Member: "By another cripple."

But glory be—we have Harry Stevens and some Tories actually voting in favor of one Liberal motion.

But they even disagree over divorce bills, even though the good natured members would grant them all; but some want to hear all the evidence. Blame 'em?

FAST SCHEDULES

New fast schedules on the Pacific Northwest and Chicago, Great Northern service, go into effect early in June. Low excursion rates are now in effect. Eastbound running time will be 61¼ hours, a reduction of nearly 7 hours over present time; westbound running time will be 63 hourse, nearly 5 hours less. A record volume of traffic is expected.

LIQUOR CHARGE

Detected at the Empire Day celebration in Keremeos Friday, a well known Keremeos man was charged with illicit sale of liquor. He had been released from Oakalla only a short time ago on a similar charge. Constable Thomson is at Keremeos today attending the trial.

T. H. Crump passed through on today's train.

Mr. Webb of Vancouver, interested in the Tulameen Valley Coal Mine, was a Prinecton visitor tiday.

COAL AND PETROLEUM ACT

NOTICE

Take notice that I, P. W. Gregory of Princeton, B.C., acting as agent for W. R. Wilson of Vancouver, B.C., intend to apply to the Commissioner of Lands for a licence to prospect for coal and petroleum over the following described lands in the Yale Division, Yale District:

Commencing at the South-east corner of Lot 86, thence North 80 chains, thence West 80 chains, thence South 80 chains, thence East 80 chains to the point of commencement.

Located this 9th day of May, 1929.
W. R. WILSON, Locator.
29-5 P. W. GREGORY, Agent.

Have Princeton People Pride in Their Town
Sometimes we think they have, and then again when one property owner says we can wait ten years and another one five years for a cement sidewalk, because by that time they may put up a new building, we have our doubts. If we have no pride in our town, then we will hinder its growth but the natural resources of the surrounding country are going to make a good town here in spite of the pessimist.

HEDLEY NOSES OUT OLD RIVALS IN JUNIOR BALL

Coming from behind in a fighting finish after they had seemed a beaten team from the first inning, Hedley boys crowned a succession of rallies with a five-run bee and stemmed a frantic attempt of the home team in the last inning at a single run, to nose out Keremeos 11-10 in the junior holiday baseball attraction at Keremeos Friday.

It was a tight and exciting contest all the way, with honors evenly divided.

Score by innings—

Hedley	0	0	3	0	1	2	5	—10
Keremeos	2	0	3	0	1	3	1	—11

Katteries. Hedley—H. Neal and Baxter; Keremeos—Smith and Echlin.

Teams: Keremeos — Echlin c; Smith, p; Crooker, 1b; Campbell, 3b Prentice, ss; LaBounty, cf; J. Christian lf; Harris, 3b; S. Christian, rf. Hedley—Wallace, H. Neal, Corrigan Neal, Willey, Loomer, Baxter, Gladish.

WOULD PLAY HERE

Thomas Garage baseballers, present leaders of the Wenatchee, Wash., city league, may be seen in action locally this summer. They have been engaged to play Tonasket at Penticton in connection with the July 1 celebration there this summer, and want to meet some Canadian teams to defray expenses. Their open dates are July 2, 3, 4 and 5. They are, it is claimed, noted for their seriousness in playing the game, and their sportsmanship.

COLD CONTROL

The result of many years specialized research, the new cold control has quite reformed sales of the Frigidaire. By this wonderful new control, a complete choice of temperatures is afforded the housewife. Not only is the temperature controlled in the food compartment, but the freezing speeds can also be regulated in the dessert and ice-making trays.

Lowest Price in Frigidaire history

THE new Frigidaire represents the greatest value ever offered in electric refrigeration. It embodies every essential Frigidaire feature—including the famous Cold Control. It is offered at the lowest price in Frigidaire history—and with General Motors easy payment terms. It operates from farm electric plants or central station current. See it right away.

Large Entry List for Annual School Sports

STRONG TEAMS PLAY TO THRILLING DRAW

Standing

	P	W	L	D	F-A	Pts
Copper Mt.	3	2	0	1	11-3	5
Blakeburn	3	1	1	1	7-4	3
Princeton	2	0	2	0	2-13	0

In a game that provided much good and thrilling football, Copper Mountain and Blakeburn finished all square at Coalmont Sund y, the score standing at 2-all. Both teams were at top strength, and fought every inch. A terrible clip was maintained.

Copper Mt. were first to score, through Parker. Blakeburn evened up through McGregor, and went ahead when McGregor was brought down heavily in the penalty area and made no mistake about the spot kick. Copper Mountain equalized soon after, through Parker.

The hard rock miners continued to press, and may be considered unfortunate in not keeping their record perfect, as a neat side-shot dropped through just too late. The final whistle caught it in its flight. However, to offset this Blakeburn claimed a penalty for hands in the first minute which Referee Samuel was unable to give any decision on, as he was unsighted.

The wind, the rain, and the heavy ball made the going difficult, but failed to damped the enthusiasm of the spectators or to dull the keenness of the players.

Teams

Copper Mt.—More; Taylor and Thomson; Devlin, Slogar and Luxon; Thompson, Craigen, Foster, Parker and Kelly.

Blakeburn—Craig; Miller and McIntosh; Dixon, Rae and White; Craig, McGregor, Lewis, Smtih and Hackwood.

Referee—A. Samuel.

COPPER MT. LOSES FIRST BALL GAME OF SEASON

A four-run lead was insufficient to tide Copper Mountain over one disastrous inning, and the miners quite unexpectedly dropped the verdict to a wobbly team from Okanogan, Wash., in the Empire day tournament at Keremeos. It was Copper Mountain's first game of the year, and it was quite obvious that they had not struck mid-season form.

Kimberley had a hard day. He got along well enough for a few innings, but was never really his cheery old self, and in the sixth he went to pieces. When Kelly Callahan came in to relieve him, it was obvious that Kelly, too, was not his confident self, and it took him a little time to locate the plate and to get to understand his wing; but when he settled down he pitched magnificent ball.

Both teams clouted lustily, but on batting form, Copper Mountain had the edge, for Murphy, though he threw a deceptive ball, was none too safe. Fielding features were provided by Morris and Ferko. In Lorne Campbell Copper Mt. have acquired a real star.. He covers a tremendous lot of territory, and showed excellent judgment on some difficult chances. Ferko and Kimberley hit the ball for terrific clouts. Callahan showed rare form on first base.

SUMMARY

Home runs, Ferko, Morris; three base hits, Kimberley, Murphy, Hildebrand; two base hits, Kelly, L. Campbell, Callahan; earned runs—Copper Mt. 6, Okanogan 9; bases on balls—off Murphy 1, Callahan 1, Kimberley 1; struck out by Murphy 12, Kimberley 5, Callahan 3; stolen bases, Callahan, L. Campbell; sacrifice hit, Callahan; left on bases, Copper Mt., 8, Okanogan 4. Wild pitch, Kimberley. Hit by pitcher, Thompson by Kimberley; time of game 2:25; umpire, J. Clarke.

KEREMEOS TO MAKE STRONG BID FOR McKENZIE CUP ONCE MORE — HEDLEY IS A DARK HORSE

Everything is in readiness for the fourth annual Similkameen schools sports meet which will be held for the first time at Copper Mt. Friday. No pains have been spared by the committee to provide the best possible accommodation for athletes and the large crowd expected to attend. A dance has been arranged for the evening. Considerable work has been done on the track and water has been laid to the athletic grounds.

ENTRIES HEAVY

Entries are expected to be heavy, and wi h the promise of ideal weather and a fast track, records are expected to fall. The large schools will compete in every event, but many surprises may come from the small schools, especially in the individual championships. Jura looks especially good in this respect. The Native Sons cup seems to lie between Princeton, Keremeos and Hedley, with Copper Mt. a possible candidate. Chief interest will again lie in the destinaton of the McKenzie cup, for the 220 senior race, the feature event.

Keremeos has held both trophies since the annual meet was inaugurated, but having lost their two stars, who last year garnered over half their total points, they can hardly hope to romp home so easily for the aggregate cup, especialy considering the close run Princeton gave them last year. They can, however, they claim, equal the record for the relay, and figure on keeping the silverware. Princeton are also doing this event in record time, and it looks like a much closer contest than has ever been witnessed in the past.

Keremeos had their tryouts Saturday and will have two athletes in every event, as will Princeton, who held their tryouts Monday. Copper Mt. will also be strongly represented and Hedley, under the coaching of Ralph Thomas, will be the dark horse. Jura may also be expected to come in for a large share of points than usual.

Allenby and Cawston will have good representations, but little has been heard from Blakeburn, Coalmont, and the small schools, though it is certain that the first two will have a fair number of entries.

Sprint records and possibly the high jump may be bettered, with an odd chance at clipping time off the distance runs and a good chance in the relays. Almost all the records in the girls' section are in danger, as considerably more attention has been paid to this section this year.

TO KEEP SCORE

There will be a first aid tent, and stop watches will be provided. Arrangements have also been made for the keeping of an up-to-the-minute score board during the entire meet.

EXECUTIVE TO MEET

According to an announcement at the annual meeting, a meeting of delegates of the Similkameen Schools Athletic Association will be held at Copper Mt. following the track meet. The important question of centralization of the meet will be discussed.

KAMLOOPS WINS

Kamloops carried off the lion's share of the honors at the schools meet at Merritt Friday, winning the aggregate, with Merritt second and mon Arm third. Waggett of Kamloops took the senior boys' championship.

RESULTS OF KEREMEOS EMPRIE DAY SPORTS

Under 6—1, David Innis; 2, Dick Green.

Under 6—1, Mary Parsons; 2, Marjorie Mills.

Under 8—1, Margaret Colwell; 2, Alice Wheeler.

Under 9—1, Bryan Colwell; 2, William Liddicoat.

Under 10—1, Bryan Colwell; 2, Arthur Liddicoat.

Girls under 11—1, Dorothy Sorge; 2, Lucy Carboneri.

Boys under 11—1, Gordon Clifton; 2, Grant Echlin.

Girls under 12—1, Dorothy Sorge; 2, Lucy Liddicoat.

Boys under 12—1, Walter Parsons; 2, Gordon Clifton.

Girls under 13—1, Ruth Sorge; 2, Elspeth Lintott.

Girls under 15—1, Dora Mattice; 2, Bertha Mills.

Boys under 15—1, Walter Parsons; 2, Gordon Clifton.

Married men—1, L. O'Grady; 2, W. Beasley.

Boys under 17, 100 yards—1, Harold Parsons; 2, George Echlin.

Quarter mile—1, Harold Parsons; 2, George Echlin.

Sack race—1, Gladys Harris; 2, Laurie Harris.

The FORD CAR has established new driving standards

The Ford

THE Ford car excites admiration as it passes, on account of its fine lines and its attractive color harmonies. It is entirely smart and modern.

The full nickeled radiator shell, acorn type headlights and one-piece full crown fenders add a touch of elegance to a look of power and speed.

What the car will do is a revelation. It has sixty miles an hour speed if needed, with exceptional acceleration and ease of control. There is smoothness at all times and you may touch thirty-five to forty miles an hour in second gear, when traffic emergency demands.

Four Houdaille hydraulic shock absorbers smooth rough roads. All steel bodies and windshields of shatterproof glass make for greatest safety. Low initial cost, low depreciation and typical Ford reliability, long life and economical upkeep are your guaranty of motoring satisfaction.

Come in and take out a Ford car. Put it through its paces. We know you'll like it and we think you'll want it.

NOTICE

Mining officials are asked to note the provisions of Section 16, "Mineral Survey and Development Act," which are quoted herewith, and to govern themselves accordingly:

"(1). When a corporation, other than a private company under the 'Companies Act,' acquires an interest in, or title to, or engages in work on any mining property situate in a mineral survey district, it shall forthwith notify the Resident Engineer of that district, and the Provincial Mineralogist, and file with them full particulars thereof, and shall also file with them, as soon as it is issued, a copy of every prospectus or statement in lieu of prospectus which is required by the 'Companies Act' to be filed with the Registrar of Companies.

"(2). Where a corporation, other than a private company under the 'Companies Act,' issues, publishes, or distributes, or causes to be issued, published, or distributed, any pamphlet, bulletin, circular, advertisement, or publication relating to any mining property situate in the province in which the corporation has any interest or on which the corporation is engaged in work, the corporation shall forthwith file a copy of the pamphlet, bulletin, circular, advertisement, or publication in the office of the Resident Engineer of the mineral survey district in which the mining property is situate, and shall also forthwith file three copies of the same in the office of the Department of Mines at Victoria.

"(3). If a corporation makes default in complying with any requirement of this section, it shall be liable, on summary conviction, to a fine not exceeding twenty-five dollars for every day during which the default continues, and every director and every manager of the corporation who knowingly and wilfully authorizes or permits the default shall be liable to the like penalty."

For Information Regarding British Columbia Mines apply to the Department of Mines, Victoria, B.C.

Special Bulletins, Annual Reports, etc., furnished free of charge on application.

LAST CALL At MacDonald's

Final Big Drive! Great Cash Raising SALE

WE NEED money and have a harvest of bargains at new and unheard of low prices.

Sale starting Saturday, June 1st, 9 a.m.

Well folks, here is the last call. If you have not already bought your every want and need---opportunity is now ringing the last bell. Soon the saving of 15 to 20 per cent. in such high grade merchandise will pass into history. We wish to thank all the people of Princeton and vicinity for their generous patronage. It has been a pleasure to give you these great savings. Profits are gone, but cash money is what we needed, and indeed are very grateful to you all. You will now find even greater savings on all broken lines; many sizes left, maybe you can still be fitted---come back now. Buy and save!

PRAISES SKI HILL

Princeton's ski-hill is as good as anything in the West, according to Albert Helland, well known coast jumper, who has seen them all. Mr. Helland, a brother-in-law of A. Stenvold, president of the local ski club, took advantage of the opportunity to visit the site of the prospective hill while on a visit here last week.

He is quite sure that Princeton will have a better hill than Hollyburn, or any coast hill. Mr. Helland's opinion correspondents with those expressed by many other exponents of the sport who have looked over Princeton's ski hill. Two men are now at work clearing the hill and erecting the run-way, and by the first snow fall Princeton should have a ski hill comparable to any in the country. This will give the new sport—launched only this spring—a real chance to forge ahead, the plans calling for the holding of a big tournament to which prominent outside jumpers will be invited.

Mr. Helland is a member of the Grouse Mountain ski club, and though a veteran, managed to carry off fourth place this year.

MRS. E. DOERFLINGER

WOMEN TIE IN FAST AUTO RACE IN NEW FORDS

Thirty-seven cars piloted by as many women started Friday morning from Los Angeles in the first annual Gilmore-Wrightwood economy run and thirty-seven cars rolled into the final control late the same afternoon, having made the 170-mile circuitous run from the Gilmore refinery to the finish at Wrightwood Mountain, 6000 feet high, without mishap.

Te contest was held under the sanction of the American Automobile Association and only stock cars were permitted to enter. The records established are a demonstration of comparative economical performance as each car used Blu-Green Gasoline and Monogram motor oil observed the same rules, ran under the same weather conditions and could take advantage of no accessories other than those which were on the car as part of factory equipment. Mr. George Stephenson and Joe Nikrent, representatives of the A.A.A., handled the weighing in, filling and checking the figures become official records of the Association.

Mrs. Paul Lawrence's Ford coach won not only the trophy for the best showing in Class 1-A, but took the grand sweepstakes trophy by making the highest score regardless of size oror class. This car consumed only seven and one-half gallons of gasoline, setting a ten-mile average of 35.5 miles per gallon. The Studebaker driven by Mrs. Zada Petit and the Franklin sedan piloted by Mrs. Margaret Harmon won second and third places respectively. The new Chevrolet six cylinder sedan, with Mrs. Bertie Wiruth behind the wheel, used nine gallons of gasoline, averaging 27.6 ton miles per gallon.

TIE RESULTS IN MIXED FOURSOME PLAY SUNDAY

A tie resulted in the mixed two-ball foursome medal play at the Princeton Golf Club's course Sunday. Mrs. H. R. Taylor and J. L. Coles and Mrs. E. Doerflinger and H. R. Taylor finished level with a net score of 41 for 9 holes.

Other teams were: Mrs. H. C. Smith and R. Levack; Miss D. Smith and Ted Moore; Mrs. V. G. Field and A. Clark; Mrs. A. Sorenson and V. G. Field; Mrs. A. W. Smith and A. W. Smith; Miss R. Coles and R. Lloyd; Mrs. J. A. Brown and Alf Sorenson; Mrs. L. Smith and H. W. R. Moore; Miss A. Knowlton and J. Coles, Jr.

TOURNEY THIS WEEK

This week will see the local golfers engaged in a match play tournament. There will be an 18-hole qualifying round, eight lowest scores to qualify. Play will continue over Monday the King's birthday.

PRINCETON PLAYERS HAVE FAIR SUCCESS AT KELOWNA

While they failed to bring back any silverware from the new commercial men's tournament at Kelowna Empire Day, local golfers did quite well, in that two reached the competition proper, one the first flight and one the second flight.

With scores of 91 and 96 respectively, Ernie Gray and Rod MacDonald were in the last sixteen, but were defeated in the first round. The qualifying score was 96. W. B. Ewart had 120 and S. Ewart 122. Each was eliminated in the second round of the flight. Over sixty competed.

The tournament was won by Vernon Claridge with Don Carroll runner-up. H. Todd won the consolation competition with T. Syer runner-up, while H. Morrow took the first flight.

SON OF HEDLEY PRESIDENT IN REMARKABLE PERFORMANCE

Hedley gained so mereflected glory recently when Isaac L. Merrill, twenty-year-old son of the president of Hedley Gold Mining Company, romped home at the head of a very large field to win the Maryland State Association championship a clear four strokes ahead of his nearest rival, and to help his school, Tome, lift the aggregate title.

His 78 was shot in brilliant style. He got off badly, taking a 6, two over par, for the first hole, but made a fine recovery to make No. 2 in 4, one under par. He did the next six in par, the ninth in one over, making 39 for the turn. He made the return in 35, just two over par, despite a bad 7 on the fifteenth. This included birdie two's on the eleventh and fourteenth.

Last year young Merrill won the amateur championship of the State of Maine.

(Miller Bros.)

A New Dress For Your Home

Cover the scars of wear and tear on walls and floors and furniture.

A wall re-tinted—a floor varnished—a hall painted—a chair or dining room set re-stained—the whole house made fresh and bright, spic and span. There are

SPIC AND SPAN FINISHES

for every surface—for everything you want to "do over".

"NEU-TONE"—the washable sanitary, soft tone Wall Finish, in pleasing tints.

"WOOD-LAC" Stains make soft wood look like expensive Mahogany, Walnut, etc.

"MARBLE-ITE" Floor Varnish—for hardwood floors. Won't mar or turn white.

"SENOUR'S FLOOR PAINT"—the hard-drying paint for the floor that wears, and wears, and wears.

"VARNOLEUM" brightens up and protects Oil Cloth and Linoleum.

These Finishes have proved their worth and wear and economy in a great many homes. We have handled them for years and can guarantee results. N-64

Princeton Paragraphs

All white help at Sinclair's Cafe.

W. C. McDougall of Olalla is in town today.

P. W. Gregory is on a motor trip to Salmon Arm.

"Chuck" Tupper is again driving a truck locally.

For good eats go to Sinclair's Cafe.

G. G. Lyall is enjoying a few days outing in the hills.

Mrs. W. J. Thomson is spending a few days in Victoria.

Mrs. M. A. Jensen of Tulameen is in Princeton today.

Charlie Watson is a business visitor to Coalmont today.

Burr Motors report delivery of two more cars this week.

W. R. Wilson of Fernie was a Princeton visitor Saturday.

Mrs. G. M. Thom of Penticton was a Princeton visitor Friday.

Jno. Hosey, well known Tulameen oldtimer, was in town Friday.

Mr. and Mrs. P. Berkman of Hedley were Princeton visitors this morning.

Every day in every way, business is getting better and better at Sinclair's Cafe.

Mrs. R. McKelvie has taken a position as stenographer at the government office.

The post office wicket will be open from 12 to 1 Monday, the King's birthday.

Mr. and Mrs. Ivor Knudson have taken the McConville property, about five acres, near Stenvold's and will move shortly.

Mrs. D. Ferguson, who has been taking surgical treatment at Vancouver, has returned to Princeton.

Try our special dinners, you'll like them. It's the cooking that counts at Sinclair's Cafe.

The new Ford town sedan is just the car you are looking for. Place your order now and assure delivery. Burr Motors Ltd. 29-1

Miss Veda Beer was visiting her mother and sister here this week. She returned to Salmon Arm, accompanied by Mrs. Beer, who is on a business trip.

Mr. A. Helland, wife and family, paid a visit to Mr. Helland's sister, Mrs. A. Stenvold, last week-end. They motored up, coming Fraser Canyon and returning via Wenatchee.

Mrs. E. W. Cook and son Edward motored to Kelowna on the 24th to visit her daughter, Mrs. Ray Waniess, who returned with them and is spending the week at her home here.

C. R. Malcolm, formerly manager of the Coalmont branch Royal Bank, now of Quesnel, was in town Friday.

Jack Davies of Blakeburn was in town over the week-end and left on Wednesday on an extended trip to the prairies.

Mrs. D. Walker and young daughter are visiting at the home of Mrs. Walker's parents, Mr. and Mrs. H. B. Meausette, having motored up from Seattle as far as Keremeos with friends. She was met at Keremeos by her parents.

Adjustable front seat; longer and wider body; wide doors; exceptional leg and head room; arm rests; these are some of the features of the new Ford town sedan. Body comforts of the big cars have been added. Enjoy a ride in it. Burr Motors Ltd. -1

Mr. and Mrs. W. McEwen and family motored up from Glendale, Calif., last week on a visit to Mrs. McEwen's parents, Mr. and Mrs. Martin of Martin's Lake. Mrs. McEwen will spend the summer here while Mr. McEwen after a ten days' visit will return to Glendale.

George Alwyn, teller at the Bank of Montreal, is spending a fortnight vacation at Victoria. He is being relieved by J. W. Harris, who is, by the way, a brother of Dr. Allan Harris, now of U.B.C., who gained world-wide fame as the discovered of a new chemical element, "illinium."

The presence of a big Pierce-Arrow car in town Tuesday caused a considerable stir. It was driven by Mr. F. C. Shelly of Vancouver. He was accompanied on the return trip to Vancouver by C. G. Bagley of the B.C. Platinum Co. and Garnet Sootheran. While on the the highway the Pierce is the thing, for the road to Eagle Creek, a Ford would have been preferred, they say.

COMING EVENTS

Annual meeting of Princeton Racing and Athletic Association Friday, June 7, in the Parish Hall, at 8 o'clock, to be followed by a meeting for the purpose of organizing the July 1 sports. 28-2

* * * *

A meeting of all interested will be held in the One Mile Hall Sunday, June 2, at 2 o'clock, to arrange for the upkeep of the hall. 28-1

TO WHOM IT MAY CONCERN

I, Robert Miller, have severed all connections with Miller Bros. of Coalmont Hotel, therefore I will not be responsible for any debts in connection with the said hotel.
29-1 (signed) ROBERT MILLER.

Society

LOCAL HOSTESS RECOGNIZED

The Vancouver Province this week carried on its society page a portrait of Mrs. W. A. Wagenhauser of Princeton, who entertained the Lieutenant-Governor's part at dinner on the occasion of their visit here.

* * * *

ENTERTAINS TONIGHT

Mrs. A. L. White will entertain the women of St. Paul's Church Ladies' Aid and their friends at one of the aid's social evenings tonight.

Church Notes

LOCAL CHURCHES

Church programs at both St. Cuthbert's and St. Paul's are being continued to the end of June. The next meeting of St. Cuthbert's Guild will be the last for the summer.

The Ladies' Aid of St. Paul's will hold a social get-together tonight at the home of Mrs. A. L. White. The regular meeting of the board of managers will be held Monday. Rev. Father Anthony of Penticton said mass at St. Peter's Sunday.

* * * *

LOWER VALLEY

The lower Similkameen is to lose both its popular ministers. Rev. W. A. B. Clementson is to leave for England, and will likely be succeeded by Mr. Field Yolland, formerly of Trail, Rossland, and Summerland; Rev. T. C. Colwell is to leave for Michel and is to be succeeded by Rev. G. H. Findlay, who has been in the Yukon.

* * * *

FILLED PULPITS

Both Rev. T. C. Colwell of Keremeos and Rev. J. C. Goodfellow of Princeton were honored while in Vancouver attending the United Church conference. Rev. Colwell filled the pulpit at St. Giles, formerly Mount Pleasant Presbyterian; while Rev. Goodfellow preached at Robson Memorial. Both are leading Vancouver churches.

At the Theatre

Winsome Marion Davies appeared in a new and sparkling role Friday and Saturday at Princess Theatre in "The Fair Co-ed," a refreshing tale of college life, mixed with romance. Ken Maynard as a "red coat" did deeds of valor Monday and Tuesday to the delight of the younger generation.

This week-end Milton Sills, an actor of unusual capacities, stars in "The Hawk's Nest,'" a gripping detective story of the oriental quarters of a big city (First National). Rin Tin Tin, the super dog is the star of Monday's picture, a crime story, "Rinty of the Desert (Warner Bros.).

TOURISTS' PARADISE

Tulameen Lake, the "Palm Beach" of the Similkameen, is again attracting delighted visitors this year. The camping site, beach, cabins, and other facilities have been improved by the new owners, Miller Bros. of Coalmont Hotel. With excellent swimming, boating, fishing and hiking Tulameen Lake is unsurpassed for campers or picnicers.

KEREMEOS NOTES

Mr. and Mrs. Karl Keeler and little son arrived in town on the 23rd to spend a short holiday, the guests of Mr. and Mrs. O. H. Ring.

* * * *

The Rev. Mr. Yolland, from Summerland, who will probably take over the work of this parish when Mr. Clementson leaves, was in town last week meeting Mr. Clementson and the wardens.

* * * *

Surpise for Scout Master

The Boy Scout troop of Keremeos and Cawston paid a surprise visit to Mr. Clementson on Monday evening. Mr. Gilroy made a short speech and on behalf of the boys, presented Mr. Clementson with a cheque for $20 which they had collected amongst themselves, as a token of appreciation of his work as scout master. Mr. Clementson, who was very surprised and delighted, made a happy little speech in reply. The mothers' auxiliary of the Boy Scouts Association served supper, which brought a very pleasant evening to a close.

* * * *

Mr. Colwell Leaving

We regret to hear that the Rev. Mr. Colwell is being moved from Keremeos and is to take charge of the parish of Michel. Mr. and Mrs. Colwell will be greatly missed from amongst us. We understand the new minister for Keremeos is coming in from the Yukon about the first of July.

* * * *

Mr. J. L. Armstrong returned from Vancouver on Tuesday.

* * * *

Peony Show and Tea—to be held on Thursday afternoon. June 6th, from 3 to 6, at Langside Gardens. in aid of the Crippled Children of B.C. Under the auspices of the Cawston Women's Institute. 29-1

* * * *

More good people going away. Mr. Echlin, our genial telephone lineman has had his headquarters moved back to Penticton and takes up his duties there on June 15th. Mrs. Echlin and the boys will move over after school closes. There will soon be a regular colony of Keremeos people living in Penticton—which is very nice for them—but what about us?

CAWSTON NOTES

Mrs. R. L. Cawston returned to Peachland last Saturday after spending a week at her home here.

* * * *

R. Hutsel and G. Lobb, who recently motored in from Winnipeg with A. McIntosh, left on Wednesday for Vancouver.

* * * *

Miss Elsie Wainwright came in from Vancouver on Sunday and is spending a few weeks holidays with her parents here. A Wainwright motored to Princeton Saturday evening to meet her.

* * * *

Mr. and Mrs. P. Madden motored to Penticton on Monday, bringing their daughter Beatrice back. Beatrice had been ill in Penticton hospital for a few days.

* * * *

Misses Sine and Marie Nielson spent Saturday with friends in Penticton.

* * * *

Peony Show and Tea—to be held on Thursday afternoon, June 6th, from 3 to 6, at Langside Gardens, in aid of the Crippled Children of B.C. Under the auspices of the Cawston Women's Institute. 29-1

HEDLEY NOTES

Gomer Jones, Jr., left for the coast Tuesday.

* * * *

Tom Daly was a recent visitor doing some life insurance for his company while here. He reports business good.

* * * *

Hill Innis has completed his improvements to hsi first class garage.

Mrs. S. L. Smith is rapidly recovering from her recent operation.

ARRANGE PEONY TEA

Always willing to lend a helping hand in aid of a good cause, the Women's Institute of Cawston are aiding to assist the Crippled Children's fund by a peony show and tea in the beautiful Langside Gardens, now in their beauty, June 6.

PLAY MUCH ENJOYED

"The Beantown Choir" given before a packed house in the Frase Hall, Hedley, Tuesday evening, proved a rare and much appreciated treat. Songs, sallies, quaintness and oddities in the old-time characters called forth round upon round of laughter and sent the audience home in the best of humors.

Nothing but praise was heard of the performance, and indeed the cast deserve great credit for interpreting so well this refreshing glimpse at New England life.

CARD OF THANKS

We tender our sincerest thanks to our many friends for sympathy expressed in the death of our brother, Charles Edward Thomas, and the many beautiful floral tributes received.

MABEL THOMAS,
WILLIAM THOMAS,
HERBERT THOMAS.

Consistency...

ROBINSON CRUSOE affords an excellent example of what consistent advertising will do. He hung his shirt on a pole—his "ad" for help. He did not despair. He changed his "copy" as soon as the garment became worn. If Crusoe hadn't advertised we wouldn't have had this fine story.

Henry Ford provide one of the best modern examples of consistent advertising. Then think of Wrigley's gum, Listerine, and a thousand other best known lines.

Get in the swim and stay in it.

A. SINCLAIR, Prop.

They wouldn't give up until they got the party

Mystery surrounding a reported long - distance telephone call recently caused five hours' work and a telephone search through two provinces; and when the conversation was finally held the telephone company derived only 15 cents from it. But, true to their tradition, the operators had refused to give up until they had solved the problem and put the call through.

A New Westminster subscriber reported that a man at Grand Prairie, Alberta, had been calling him. Operators learned that there was no telephone connection with that point, so numerous other places with similar names were called, but to no avail.

An inspiration: Perhaps the Grand Prairie man was calling from a nearby point, Vancouver for example. Success! A call to a well-known Vancouver hotel revealed that the party was there, and the call was finally put through.

B.C. TELEPHONE CO.

FOOTBALL FRIDAY

Copper Mountain and Princeton football teams will provide an interesting attraction to supplement tomorrow's school sports at Copper Mt. when they meet in a league fixture at 6 o'clock. The game has been shoved ahead to accommodate the school sports committee and provide something to fill in between the sports and the dance.

BASEBALLERS AWAKE

The latent germ of baseball is beginning to germinize locally. A number of intermediates are turning out nightly at the local park and the diamond has been put into shape. There is talk of organization, and various schemes have been suggested, so that it looks as if Princeton were not to be without its baseball this summer after all.

CLUB REGISTRATIONS

New registrations in the Similkameen football league for the week are: Blakeburn—Rae, Andrew; Copper Mt.—Devlin, J.; Taylor, Fred.

MINING NOTES

SOOTHERAN CLAIMS SOLD

Notable among local mining deals of importance which have been made this spring is the sale of the Sootheran property, one of the best known bits of placer ground in the Tulameen area. Mr. Garnet Sootheran has sold out for $25,000 to the British Columbia Platinum Company.

Mr. Sootheran has held this property, which is near the mouth of Eagle Creek, for about 5 years, and since 1926 has recovered $10,000 by hand work. Especially rich diggings a few years ago brought him the title of "the platinum king" and last year he made some particularly good strikes. He has worked the ground annually.

Garnet is well pleased to sell out so favorably. The Stines interests were also negotiating for his holdings last year, and many others have made enquiries.

Garnet intends to settle down somewhere—possibly near Port Alberni on Vancouver Island, where he has gone to investigate. He has been a real figure in local mining.

* * * *

DORNBERGS RE-OPEN

The Dornbergs are again actively interested in this section. They have extensive holdings back of Tulameen, on the summit, and some years ago did considerable work. A force of men are already at work, and it appears that considerable development will be done this summer. There is a good road to the property. Mr. Dornberg has of late been concentrating on the development of the Silver Cup mine at Hazelton.

* * * *

HARD ON PANNERS

According to reports from the upper Tulameen area, there is a decided shortage of water in the small creeks which may prove a serious detriment to small scale placer mining.

* * * *

START JUNE 10

Ashington Coal Company, recently formed to operate the Wilson and Gregory coal property on the north side of the Tulameen River will formally open up the property June 10, according ot Edward Floyd, managing engineer.

* * * *

MAKE PROGRESS

Excellent progress is being made by the Slate Creek Consolidated on its tunnel workings on Slate Creek, according to Norman McCormick, manager. Gravel is being taken out at good rate.

* * * *

BILL DALY IN

Bill Daly is in town from a trip in the hills. He is now working in the Lillooet country, with headquarters at Keefers, and is prospecting with Geo. Allison in the Bridge River area, where he believes there are real possibilities.

* * * *

DR. WENTWORTH VISITS

Dr. Charles Wentworth of Stites, Idaho, an official of the Summit Mines, Tulameen, was in town this week. Work has been resumed and a contract let for driving the tunnel farther.

* * * *

Coal production for British Columbia for the first quarter of 1929 was considerably decreased by comparison with the corresponding period for the previous year, 622,301 long tons compared with 688,145 tons in 1928. The falling off is chiefly accounted for by decreased production of the Crow's Nest Pass Collieries, of 72,689 tons. Vancouver Island and Nicola-Princeton both showed substantial increases, the former 3,547 tons, the latter 5,534 tons.

Detailed Figures

	1929	1928
Nicola Princeton—		
Middlesboro Col.	12,037	12,695
Coalmont Col.	44,226	41,277

Here and There

194A

"An average of 1.888 cars per day have been loaded with grain by the C.P.R. since the middle of September," said J. G. Sutherland, head of the transportation department at Winnipeg. This means about 2¾ million bushels moved daily—a record never before approached.

The International Dog Sled Derby that is one of the outstanding attractions of the winter sport season at Quebec City will take place from February 21 to 23, it has been announced. The course is 120 miles in length and famous 'mushers' from all parts of the country compete.

President Calles of Mexico, has purchased 176 prize British Columbia hens for stocking his farm near Mexico City. He paid $5,550 cash for these birds, all of which have a record of more than 300 eggs a year and all of which are White Leghorns. The purchase was made through two agents of the president who came up from Mexico for this purpose.

An ingenious machine for the repair and maintainance of railroad tracks has been experimented with for some time by the Canadian Pacific Railway, it is reported. A gasoline motor generates power for an electric metallic arc welder and a grinder. These in turn build up and smooth out worn sections of rail near joints. It can operate anywhere on the lines, quite apart from any outside source of electric power.

Systematic saving provides the money for family "good times."
