The Princeton Star

A Community Paper Published Weekly In The Interests of the Rich and Resourceful Tulameen and Similkameen Valleys

Thirty-Third Year; No. 22 | PRINCETON, B. C., THURSDAY, 13TH APRIL, 1933 | $2.00 Year; 5c Copy.

Court Blotter

Charged under the Railway Act, six transients who were picked up by Princeton Provincial Police were each given the option of $2.00 fine or 4 days in jail and took the latter.

Obituary

The funeral was held on Saturday of Samuel Joseph Spencer, for 33 years a resident of Princeton. He died at his home Wednesday, after a short illness. Though of an advanced age, he carried his 76 years well, and had taken to bed less than a week before his demise.

The late Mr. Spencer was born in Liverpool, England, 11th October 1857. On 13th May, 1881, he married Miss Marion Ambler, also a native of Liverpool ,and who survives him. There were two children, both dead.

In 1887 Mr. and Mrs. Spencer left the Old Land for Canada, and after short spells in Montreal, Rossland and Vancouver, came to Princeton in 1900. Their residence has been continuous. Mr. Spencer was interested in mining, and located a promising property known as the S and M, in the Hope Mountains, where both Mr. and Mrs. Spencer spent several summers, doing the assessment work.

The funeral, which was held from St. Paul's United Church, and conducted by Rev. J. C. Goodfellow, drew a large number of old timers

Pall-bearers were P. Russell, P. E. Rowlands, C. Summers, C. O. Day, W. S. Wilson, and E. J. Thomas.

Corrspondence

Editor, The Star,
Dear Sir—

Please place this in the columns of your paper. I have been informed that Mr. Evans in his speech on Tuesday made the statement that Mr. T. J. Shenton was fired from the position of Government Mine Inspector because he made the statement that Anyox Mine was a death trap. Mr. Shenton was not fired. He was superannuated after his term of years as an inspector was through. Mr. Shenton to-day is drawing his annuity from the Government, and has done for a period of nearyly eighteen months.

I personally wonder why Mr. Evans keeps using Mr. Shenton's name in connection with the strike at Anyox. Mr. Shenton is not a Communist, and he has no wish to take any part in the affairs of this organization. I would not like to see my father lose his pension through Mr. Evans 'continual use of his name. I am asking Mr. Evans to refrain from doing this because Mr. Shenton is too old to be active as a public servant again. I would not like him to lose his pension or his standing with the public the same way as "Blind Bill" lost his.

If my father made the statement that Anyox is a death trap, then it is a death trap. But he did not get fired for it, and anyone who says he did is either mistaken or is deliberately lying.

Anyox may be a death trap, but there are death traps everywhere, and it will take a better man than Mr. Evans to make them safe.

Believe me, Sir,
Yours very truly,
ARTHUR SHENTON

PUBLIC WILL TAKE HAND IN LOCAL AFFAIR

Citizens Will Organize For Welfare Of The Community

THAT the time has arrived for the citizens of Princeton to come forward and squarely face what amounts to nothing less than a deliberate attempt to sound the death-knell of this community was the finding of an augmented and representative meeting of the Princeton board of trade tonight.

Hon. W. A. McKenzie, member for this riding in the legislature, was immediately communicated with and advised by the meeting that it considered it his duty to make himself personally responsible, as the meeting considered that in his position as Minister of Mines and Labor he was peculiarly well fitted to do.

Mr. McKenzie said that he had arranged to leave for the East Saturday, but he promised to give a definite answer Friday morning. Mr. McKenzie has been asked to come here personally and at once if possible, and in any event to send a fully qualified and capable substitute.

When he arrives it is proposed to have representative Canadian citizens meet him, and to give him an adequate first hand intelligence of the local situation. Drastic action will be asked if it is warranted.

CITIZENS' WELFARE ORGANIZATION

Further to this it has been decided to proceed immediately with a citizens' organization with the definite aim to provide a responsible medium for the airing of local differences. This is in no sense a move to intimidiate anyone, or to force any unpopular and unjust regulations upon any member of this community. It is, however, a sincere attempt to give this community fair hearing of its grievances ,and open, frank discussion of its problems. There is to be no restriction and no qualification other than that it's members are sincerely and honestly working for the good of this community. It is in no sense a class move.

It was very definite at this meeting however that there was a strong feeling that matters had been allowed to drift here already too long, and that a situation was rapidly developing as a result of matters that affect the whole community being decided on behind closed doors and at the dictation of unscrupulous outside influences whereby it was becoming impossible to secure a fair and rational consideration of such matters as are the life-blood of this community.

There is absoluetly nothing secretive or discriminatory about this movement. It simply is determined to assert fair play here, and to see that matters vital to the community be adequately and impartially discussed; that all those concerned be given a voice in their decision, and that people be given the right to make up their own minds in the ordinary British way.

The move is an entirely spontaneous one, and is the consummation of an enquiry which has being quietly proceeding for some time. A definite decision has now been reached, and it has been decided to make a public stand.

Public sentiment has been guaged in the fairest and most thorough manner possible. A special committee has been making an investigation for some time, the method being to secure the views of responsible people of a representative nature. At to-night's meeting all elements were represented: business and professional men, property-holders and laborers, including mine workers. No policy has been laid down and no organization formed, this being left entirely to the public meeting, which will be fully advertised and entirely open.

One thing is agreed, that the situation is serious, and that something must be done if this town is to escape the fate of Fernie.

SITUATION SERIOUS

This movement has been afoot for some time, but the present crisis has hastened its fruition.

According to what information the meeting had, the Tulameen Coal Mines, Ltd., practically the sole support of Princeton, faces a serious crisis. Some months ago an agreement was signed between the Company and a union. This provided for a wage scale above what the company was willing to grant.

Last Friday the management advised the Union committee that in order to continue operation it would be neccessary for a seasonal reduction. It is stated that in order to prepare for next fall's business it was necessary to do considerable development work during the summer. This would yield little or no revenue, and the company's finances are in such shape that in order to survive, it must arrange to have this work done at less than the wage scale now prevailing. The company offers to show its books to support its contention that otherwise it will be an economic impossibility to carry on. The strike of last winter ,it claims, and the effects of the wage increase have seriously affected its credit, and have ruined its borrowing power. The project has never been a profitable one for the shareholders; they can never hope to recover their investment, and there is no hope of their being able to finance the mine under the present wage scale.

The saving effected in having this necessary development work done will enable them to carry on. The reduced scale will still be better than that obtaining in many larger competitive mines. If the development work is not done the mine cannot profitably operate, and will close permanently. The company expresses its willingness to prove this statement, says that this is a true expression of its attitude, and that there is absolutely no hope of it being able to offer anything better. It is either operate under this condition or suspend, and there is no bluffing.

This situation was made clear to the miners' committee, and they were requested to have the employees ballot on the matter. The committee reports that the men have decided to stand by the agreement. They decline to put the question to secret ballot, and insist on a decision by a mass meeting, where many members vote who are not at present employed, and some who never have been. The management has offered a ballot at the pit-head, the union to appoint the scrutineers and the company to accept the union's count. This offer has been declined.

The citizens are anxious to hear all angles of the situation, but they do insist that they have a right to take an interest in the matter, and that if this is a true state of affairs, it is a public duty of the union to co-operate; and if this is so, they are prepared to stand behind this mine as they so successfully supported the Pleasant Valley mine early this year. They have, however, made no decision on this point or any other, and are simply insisting that fair and intelligent action be taken on this and other matters that vitally affect the community. They are anxious to see the miner get every cent he can, and they do not wish to see the future of the town ruined by irresponsible men who have no interest here, and whose avowed intention is to throttle industry.

The new organization is devoted to the promotion of community welfare, and seeks the sensible co-operation of all who have this at heart, regardless of their opinions or affiliations.

Evans Will Make His Home Here

Agitator Plans To Take Up Residence; Will Bring Wife and Family

ARTHUR H. EVANS plans to make his docicile in Princeton, he told his audience on Wednesday night. He stated he intends to bring his wife and family here shortly and to take up residence in quarters owned by J. Desrosiers.

It is stated that Mr. Evans owns a $6000 house in Vancouver, but that a mortgagee is threatening to foreclose for the sum of $1500.00

EVANS NOT WANTED AT PENTICTON

Arthur H. Evans was refused a hall in Penticton Thursday morning, according to advices received here. He was unable to rent any hall, and switched his meeting to Oliver.

Harrangues Yanks

G. B. SHAW.

IN the public eye as a result of the pertinent suggestions to the American people in his New York address Tuesday night.

ASK MINERS TO TAKE CUT THIS SUMMER

Union Opposed To Seasonal Reduction As Violation Of Agreement

Tulameen Coal Mine employees are again being asked to accept a seasonal reduction in wages of 10 per cent. The Company's proposal has not found immediate favor, but cordial negotiations are proceeding ,and both parties are in hopes of coming to a mutually satisfactory arrangement.

Some days ago the Tulameen Coal Mines, Ltd., gave notice that they would be obliged to seek a modification of the agreement made last December with the local branch of the Mine Workers' Union of Canada under which conditions the mine has operated since that time. A meeting of the Union was held on Sunday, and later in the week the executive conferred with the officials and a number of the directors of the Company. They reported back to a general meeting on Wednesday night.

After this meeting negotiations were still pending.

The move, it is explained, is an attempt on the part of the company to meet a financial situation. It states that in view of economic conditions and production costs, it is necessary to trim wages during the summer slack period.

Both parties appear to be taking the matter very reasonably, and it is expected that a mutually satisfactory arrangement will be made.

At this time the entire matter is in abeyance.

It not definitely learned whether it is proposed to restore the cut at a specific time, or when conditions warrant.

A number of Princeton young people will make a picnic excursion to the Keremeos Columns on Monday

Mr. Evans Back As Mine Pays

Meetings In Princeton In Support of Candidature As Legislator

ARTHUR H. EVANS, alleged Communist agitator ,who is facing a charge of advocating the overthrow of Canadian law and government by force, open his campaign as "C.L.D.L. candidate in the Similkameen riding" Tuesday night, in the Communist headquarters, ordered to be closed 23rd April.

As usual with Mr. Evans, his theories of government were confined to insulting denunciation of Canadian law and of those in office, and of a great many private individuals who have nothing to do with the government. Though he, if there is either sincerity or plausibility in his "candidature", seeks election on a clearly communistic platform, he denied that he was a Communist. He expressed utmost loathing for every recognized political party.

Mr. Evans thinks that any person over the age of 18 who has produced a dollar's worth of any commodity should be enfranchised.

Mr. Evans is a frequent visitor to Princeton these days, though he no longer makes this town his headquarters. He was last heard in the role of a justician, alleging prosecution at the hands of the authorities, and campaigning for funds for his own defense. He has unsuccessfully "demanded" that the state bear this cost.

It is pointed out that Mr. Evans' visits to Princeton invariably correspond with payday at the local mines. Lately the mine from which Mr. Evans draws his principal support has once or twice paid slightly behind schedule, but Mr. Evans seems to keep well informed, and arrives when the money is actually being paid.

As usual, police are keeping a very close check on him. They state that the last two times it has been necessary to look him up, he has been located in the beer parlor.

Princeton experienced something very much akin to winter in the form of a snow storm Tuesday.

REV. CARLYLE ON HOLIDAY

Reverend Father A. F. Carlyle, priest of the Roman Catholic parishes of Princeton and Blakeburn, will leave shortly on a six months' leave of absence which will be spent in Europe .

He will sail from Vancouver 5th May, travelling via Panama, and will spend some time in south-west England and in other parts of the British Isles.

Father Carlyle's departure has been necessitated by ill-health. He recently underwent a serious operation. His visit to his homeland is also inspired by the recent death of his mother in England. He will visit with his sister.

Father Carlyle will conduct his last service before leaving, on Sunday. He will spend some days visiting in the Okanagan before taking his departure.

During his three years' residence in this community Father Carlyle has done signal service for the Roman Catholic cause in this parish, especally in the more remote sections. At Blakeburn he has succeeded in having erected the church of St. Mary's. By his courageous and kindly manner, and his unselfish service, Father Carlyle has endeared himself to a wide circle of friends within and without his own denomination, and his return, in improved health will be eagerly anticipated. Father Carlyle has also a great many well-wishers in the Okanagan where he spent several years of service before coming to Princeton.

A six months' leave of absence has been granted by the Archbishop. During Rev. Father Carlyle's absence, or at least for the present, this parish will be served by a Vancouver man, who will visit here once each month.

WAS PIONEER OF LOWER VALLEY

J. W. Armstrong Died In Vancouver on Sunday; Was A Builder

DEATH on Sunday removed one of the best known and most highly respected residents of the Lower Similkameen in the person of Joseph W. Armstrong a man who perhaps more han any other deserved the title of "the father of the Similkameen."

Superintendent of the land company, he played a large part in the founding of agricultural Keremeos; as an able and enthusastic grower he set an example for others; as sponsor of the irrigation scheme he was largely responsible for Keremeos' remarkable present day fertility; and as a citizen he was one of the leading figures in the laying of the foundations of the town.

ALWAYS A RAILROAD MAN

Almost, one might say, born to the rails, it was as a railroader that he gained his association with the west—a huer of destiny as he helped extend the ribbon of commercial steel across he continent. He had been employed in the Grand Trunk construction in Ontario, where he was born in Petersborough, 7th March, 1862, of an old Canadian family.

He came west in 1883, as the C. P. R. was building through and first located at "Gastown", the site of modern Vancouver. He became engaged in railway construction work, his brother being a partner in the well-known contracting firm of Armstrong and Morrison. He was present at the historic ceremony of the driving of the last spike at Craigelachie.

FAITH IN KEREMEOS

In 1907, attracted by the soil, climate and scenic beauty of the lower Similkameen, he settled at Keremeos as Superintendent of the Keremeos Land Company, which was at that time putting the Keremeos orchard land on the market. He held this position with the company, now in liquidation ,to the time of his death.

FATHERED IRRIGATION SYSTEM

He recognized that the future of Keremeos depended on the bringing of water to the dry but fertile bench lands. He was superintendent of the irrigation system until its acquisition a few years ago by the Keremeos Water District ,of which he became a trustee.

He had also for the past several years been a director of the Keremeos Growers' Co-operative Association.

He was a charter member of the Western Star Lodge No. 10 (Vancouver) I. O. O. F., under whose auspices the funeral was held in that city Wednesday. Interment was in the family plot, Mountain View cemetery.

Mr. Armstrong's wife pre-deceased him four years ago. He is survived by two brothers, J. J. Armstrong of Keremeos and Robert Armstrong of Vancouver; a sister, Miss Margaret Armstrong of Vancouver; a son, J. L. Armstrong of Keremeos, and a daughter, Mrs .R. G. Brown of Vancouver. The late W. H. Armstrong of the Armstrong-Morrison Contracting Co. was a brother.

Mrs. J. Rosbasky spent the week-end at Blakeburn.

TECHNICAL MATTERS FOR DRIVERS ENFORCED

A warning to automobile drivers who have been careless or parsimonious in the matter of licences is issued by Provincial Police, who advise that they have been instructed to check up very closely on this matter and to prosecute offenders.

This applies chiefly to Motor Vehicle and Salesmen's and Chauffeurs' licences.

Attention is called to the somewhat drastic provision in the act which rules that where person is convicted of an offense under this section he is obliged to post a personal bond of $5000 before being allowed to operate a motor vehicle over a prescribed period.

READING—Mark: 2-8, 17, 18, 25-29.

GOLDEN TEXT—"And the World was made flesh, and dwelt among us, (and we beheld His glory, the glory as of the only begotten of the Father,) full of grace and truth." —John 1:14.

Jesus' unexpected and startling announcement of his approaching death seemed to be the denial of every Messianic hope. The perplexed and saddened disciples needed a glimpse of the divinity that was hidden in their Master—some assurance that the way of the cross was the way of triumph. This assurance they were soon to receive.

★

The roads are in fairly good condition except the "3170" hill which is slightly icy.

KEREMEOS

Mr. L. Innis has returned from the Coast after completing a course in mechanics.

Mr. Ronnie Campbell has returned from Vancouver where he took a course in book-keeping.

Members of he Keremeos Women's Institute were guests of the Cawston W. I. Thursday. Mrs. Shaw as president occupied the chair. Mesdames Sinclair, Lang, and Dunnett gave interesting addresses. A social hour was enjoyed and refreshments were served. The Cawston ladies will return the visit at the June meeting of the Keremeos W. I., which will be held at the home of Mrs. Tweddle.

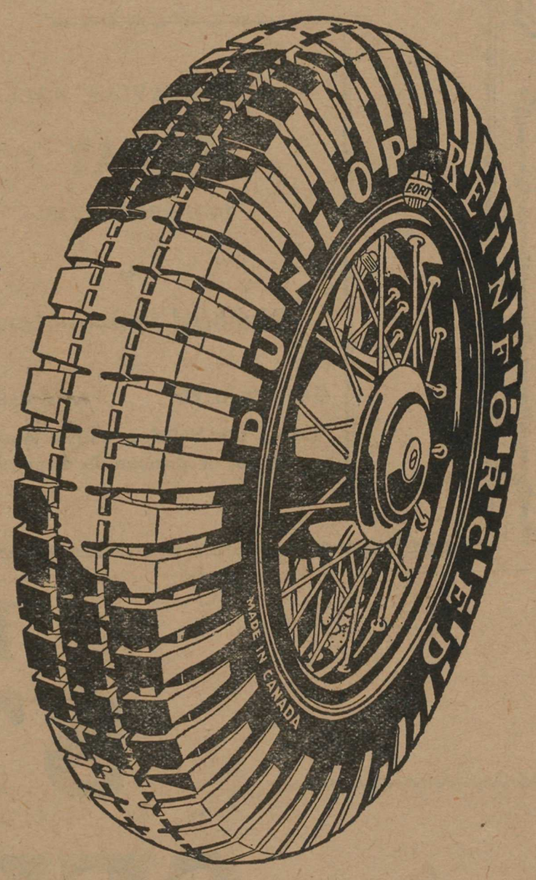
NOW MADE IN CANADA

DUNLOP FORT
"The World's Finest Tire"



IN ALL THE WORLD

No tire compares in dependability and distinguished patronage with the DUNLOP *FORT* Tire

The DUNLOP *"FORT"* Tire is the Empire's supreme achievement in tire building.

It is new to Canada — but it is the very symbol of distinguished dependability in Great Britain and the other Empire countries. It enjoys the patronage of His Majesty the King, and of world-figures in government, industry and society. It will inevitably take a like place in Canada.

The *"FORT"* Tire is the highest standard in tires. A *new* standard — entirely beyond comparison. In its construction there is no single element which might restrict perfection — only the determination of its builders to create a tire worthy in dependability and appearance of the finest cars of today.

You will gladly pay a trifle more for the DUNLOP *"FORT"* Tire than for any other tire — not alone for the satisfaction there is in ownership of fine things — but because *"FORT"* dependability gives you confidence and freedom from the haunting fear of possible tire failure at today's terrific pace.

• • • •

Now made in Canada in a limited number of sizes, the *"FORT"* is the leader of a complete line of DUNLOP Tires which offer you unsurpassed value in every price range.

VALLEY TOWNS LIKE CONCERT

Spreading the gospel of optimism and good-fellowship through the community, the happy entertainers from Princeton's federal airport camp invaded Keremeos and Blakeburn last week, where they gave repeat performances of a show that was very popular in Princeton.

At Blakeburn that success was more than duplicated, the reception being royal; but at Keremeos the effort was discouraging.

At Keremeos the attendance was small, and the appeal of the program apparently limited; but at Blakeburn every number was well received.

The program was much the same as rendered at Princeton, the only new artist being Mr. W. Francis, whose toneful violin solos have made him a big favorite with many local audiences in the past. He has never excelled—if indeed he has touched—his most recent performance, two numbers from the classics which he interpreted with rare appreciation, fine technique, and splendid tone.

The work of other contributing artists was also of a high order, Mrs. J. A. Brown being very well received, and Mrs. R. M. Irwin again proving herself a most painstaking and efficient accompanist. At Blakeburn each was presented with a box of candy.

Syncopators' orchestra assisted in the program, and was well received by dancers after the concert, especially at Blakeburn.

BIRTHS

PLECASH—To Mr. and Mrs. M. Plecash of Princeton, at Princeton General Hospital, on Thursday, 13 th March, a daughter.

THAT EVERGREEN SNOW-WHITE FLOWER

April showers bring May flowers, but when the showers are the white, flaky kind we had on Tuesday, about the only kind of flowers they are likely to bring are snow-drops. However, the U. S is on beer again, and as Louis is still brewing, we may be able to get by after all, if we can think up a good excuse to give the missus.

April showers bring May flowers, but every month brings FIVE ROSES Flour

TWO STAR SERVICE

Printing

Advertising

★

Printing saves time, adds convenience, and increases sales. It is cheaper by far to have it than to do without it. Never hesitate to have it printed. This is a finding that efficiency experts will pass on to you.

The advantages of buying your printing locally, as applied to you, are many and obvious. Besides, in spending your money at home you are helping your local business unit, and yourself.

We are equipped to handle **all** your work, and we guarantee satisfaction .

Printing That Talks
Advertising That Pulls
Service That Counts
A Paper That Is A Community Force

We are slowly but surely buliding up—for you—one of the finest typographical services to be found in any community of corresponding size anywhere. Your patronage will help to improve this service—and you will benefit.

THERE IS NO NEED TO SEND ANY PRINTING ORDER OUT OF THIS COMMUNITY

There is no business that can afford to be without advertising. The day is long past when advertising was considered a privilege or a luxury. Business after business has proven this. Salesmanship to-day is an exact science, and advertising is its biggest agent. Because it increases business all around the cycle **advertising costs no one anything, and yet it makes money for all.**

The newspaper ranks first among advertising mediums, the local paper first among newspapers.
