# THE PRINCETON STAR

*A Community Paper, Published In The Interests Of The Resourceful Tulameen and Similkameen Valleys*

Thirty-Second Year; No. 48 | PRINCETON, B. C., THURSDAY, 6th OCTOBER, 1932 | $2.00 Per Annum

## BY THE STAR

### THE WEATHER

PRINCETON TEMPERATURES

| October | Max. | Min. |
|---|---|---|
| 1 | 80 | 37 |
| 2 | 77 | 39 |
| 3 | 70 | 34 |
| 4 | 72 | 27 |
| 5 | 60 | 27 |
| 6 | 60 | 32 |

### LOCAL ORIGINS

**WHEN GREEK MET GREEK**

The Star is an independent, non-party publication. But 'twas not ever thus. Jimmy (or was it Mrs. Jimmy?) Anderson had very marked opinions, and of course in thos days restraint was no virtue in local journalism.

We quote from the Star of Sept. 1st, 1900:

"It is understood that Mr. William McLain, the socialist labor leader, who made such an—not horse—of himself in connection with the fishermen's strike on the Fraser River, is going to oppose Mr. Aulay Morrison, the popular member for New Westminster district in the forthcoming federal elections. He is said to be backed by the fishermen's union. The laboring classes would do well to put such a professional agitator under a barrel.

### BIRTHS

ALLEN—To Mr. and Mrs. Geo. Allen of Princeton, at Princeton General Hospital, on Tuesday, 4th October, a daughter.

## OUR MAIL

**Suggests Retaining Wall**

Editor, The Star:

Dear Sir:—

Will you kindly allow me space in your paer to express an opinion which surely must be shared with others, upon the splendid opportunity for improving the approach to the town, where the road is being widened, by building a retaining wall on the river bank on either side of the bridge. Tons of rock are being blasted out of the side hill and dumped into the river every day, which would be first class material for the purpose.

Has Princeton no civic-conscious citizens, to visualize how much service such a wall would give, both from the point of view of utility and of beauty. And at low cost? It would set off to wonderful advantage the fine wide approach to the town, and, more important, would effectually stop the falling away of the road which has always been a dangerous feature of this approach from either the Coalmont or Hedley side of the bridge.

Has Princeton no "friend at court" to speak up quickly, and secure this great advantage, the possibility of which is slipping away ? It would cost so little if built now, and would be a wonderful asset to the town.

Thanking you,

Yours very truly,
AN OBSERVER

Princeton, B. C.
5th October.

## Vancouver Will Hold Usual Winter Fair

Similkameen exhibitors will likely have a chance again this year to win laurels as they have in the past at the annual national apple show held in conjunction with the winter fair at Vancouver.Present intentions are to hold the winter fair as usual, according to J. K. Matheson of the Exhibition Association, who points out that this function has never been subsidized by the provincial government. Mr. Matheson states that breeders are especially interested in the fair, as blue ribbons stimulate prices.

**IN MEMORIAM**

In loving memory of Andrew Winkler, who passed away Octoober 11, 1931

One precius to our hearts has gone,
The voice we loved is stilled;
The place made vacant in our home
Can never more be filled.
Oru Father in His wisdom called
The one his love had given,
And so on earth the body lies,
His soul is safe in heaven.

—Inserted by his loving sons and daughters,Gould, Anton, Minnie, Ena Margaret, and Christina Winkler.

### *Coming Events*

Come and Go Tea at the Manse, under the auspices of the Ladies' Aid of St. Paul's United Church, Friday, 14th October, 3 to 6 p.m. 1

## *Pattullo Retained As Grit Leader*

HON. T. D. PATTULLO

Who was this week endorsed as the leader of the Liberal party in British Columbia.

## LOCAL SCHOOL REPORTS

**PRINCETON**

Division I
(Miss J. Thompson, teacher)

Grade 8—Not ranked.

Grade 7A—1. Margaret Francis; 2. Clarence Muir; 3. George Wardle.

Division II
(Miss F. Floyd, teacher)

Grade 7B—1. Ed. Mullin.

Grade 6—Gwen Avery, Jimmy Hewitt; Blanche Paul.

Division III
(Miss E. Robinson, teacher)

Grade 5—1. Don Allen; 2. Eleanor McConnell; 3. Ruby Anderson.

Division IV
(Miss M. Hillam, teacher)

Grade 4—1. Annie Kobilan; 2. Mary Dzuris; 3. Gwen Allen.

Division V
(Miss L. Madore, teacher)

Grade 3—1. Mary Cavino; 2. Edna Smith; 3. Jean Biggs.

Division VI
(Miss R. Coles, teacher)

Grade 2—Not ranked.

Division VII
(Miss E. Baxter, teacher)

Grade 1—1. Maisie Ewart and Bernice Wardle (tie); 3. Fred Allen.

The Star cup for best attendance of any division of Princeton schools for October was won by Division II (Miss Coles).

**COPPER MT.**

(Miss Mamie J. Gray, teacher)

Grade 8— 1. Bobbie Muir; 2. Margaret Corsi.

Grade 7—1. Alex Corosi; 2. Betty Muir; 3. Florence McKinnon.

Grade 5—1.Chris Corsi; 2. Sandy Campbell.

Grade 4—1. Peggy Muir; 2. Joey Muir 3. Etta Corsi.

Grade 2—1. Jackie McCallum.

Grade 1—Hilda Leed.

Perfect attendance—Sandy Campbell, Chris Corsi, Etta Corsi, Marguerite Corsi, Hilda Leed, Florence McKinnon, Betty Muir, Bobbie Muir, Joey Muir, Peggy Muir.

Best conduct—Marguerite Corsi; Florence McKinnon, Peggy Muir, Hilda Leed, Joey Muir.

School enrollment 12; average attendance 11.89; late 0.

## FOREST PICTURE MUCH ENJOYED

Five hundred Princeton people saw and heard the message of the Canadian Forestry Association in motion picture and address on Tuesday evening.

The feature film impressed the message of forest-consciousness by the subtle method of showing a unique attraction of wild life.It showed the haunts and habits of the beaver, the remarkable close-up studies being the achievement of Grey Owl, noted Indian naturalist. This film was made in Victoria.

Another film showed British Columbia's wonders of forest wealth.

Another was a scenic travelogue, showing chiefly thebe auties of Vancouver and Victoria.

E. V. Ablett, who was in charge of the performance, spoke briefly on the necessity for protection and preservation of western forest resources.

He also praised the work of the local junior fire wardens, Deward Broomfield, and Joe Gibson of Princeton and Walter Corbett of Allenby.

These pictures are shown throughout British Columbia under the auspices of the Canadian Forestry Association.

# Will Develop The Nickel Plate Mine

### PERLEY GIVES COMMAND TO END DEPRESSION

SOME SAY it's to be Princeton's first national bank headquarters; some say it's a hotel; some a place to incarcerate his arch enemy the Printer's Devil; there are even dark rumors that he ha finally gone and done it and is making a nest to do his part to perpetuate the eternal P.R.—P.D. feud. They even hint that he has gone clean cuckoo and is embracing incorporation, and it is to be the city hall. He himself says it is the headquarters for the Union government, but even the P.D. wont give him credit for being as big a liar or an optimist as that.

At any rate, its Perley's, and one of the most famous bits of local real estate is about to be used.

Piles of lumber appearing opposite the Bank of Commerce tell the story.

Perley has had more real estate deals than his old red tabby has had kittens, but neither knows depression.

Just what it is to be you must find out for yourself, or ask the sphinx. Perley isn't telling. Like as not he doesn't know himself. But he has to crop up with something of this sort every so often.

When? Well, it's hard to say. The lumber has been accumulating stick by stick for a week. But it's a cinch it will be ready, says Ged. Lyall, by the time the Union government is.

## NEW CAMP ON HOPE ROAD

Local fears that the Hope-Princeton road construction wa sin danger of suffering from the financial guillotining orgy now being staged by the government should be reassured by the statement credited to Mr. Pat Philip, deputy minister of public works for British Columbia, speaking recently at Nelson.

The government, Mr. Philip is quoted as saying, takes the view that the southern trans-provincial highway is so important that it shall have precedence over all other public works, and that wherever it is possible to allot funds to public works in this section so far as possible this money is being applied to permanent highway work.

This is in line with the government's policy to concentrate on trunk highways of the province.

Mr. Philip intimated that he would shortly visit this section, and would make observations concerning the Hope Princeton road.

## Princeton Cafe Is In New Hands

Like lemon pie? Not just ordinary lemon pie, but the kind mother used to make. Does boiled salad dressing appeal? Do you agree there is discrimination in steaks?

Then here's how.

With policies of catering to the most fastidious tastes, Mrs. J. Backe has taken over the Princeton cafe. She says her one aim is to please, and she plans to do it by absolutely irresistable cooking. Taking over at the beginning of October, she at once set out to establish the nicest place to eat in town, and she says she will keep on until it is the nicest in any town. Already there have been many favorable comments on her achievement.

## No Forest Fires In The Similkameen

Though a pall of smoke hangs over the valley, the Similkameen is not menaced by forest fires. Ranger Evan J. Thomas states there are no forest fires in the district. On Monday night flames appeared in the north-east, and it was found that the old dumping ground was the scene of a fire. There is only old rubbish and underbrush to burn, however, and the fire is doing more good than harm. Indications are that it was not an accidental blaze.

The fire in the west is not a forest fire but a slashings fire. The open season for fires was ushered in on the first of October.

**Printing—and service—The Star.**

### Power Turned On To Signify New Era of Prosperity For Hedley

The wheels are turning again at Hedley. Power was restored Wednesday, and from this time crews will be steadily engaged in re-opening the famous Nickel Plate property,one of the greatest producers of bullion in the west over a twenty-five year period, but idle for the last two years.

Restoration of power is generally conceded to mean a definite turn of the tide for Hedley. The property was early in the summer taken under option by a prominent eastern American group, and examination of the plant and ore resources has been conducted since that time. Commencement of development work is naturally interpreted as a very encouraging sign, probably eventually leading to a new large scale operation at Nickel Plate.

Development work is under supervision of Mr. Wallace Knowles, formerly mine superintendent for the Hedley Gold Mining Company. Than he no one is better informed on this property.

Just what are the intentions of the new operators has not been definitely ascertained, but their present program calls for investigatory and development work, which, if showings are satisfactory, will undoubtedly lead to the large scale re-opening of the property.

For many years Nickel Plate was one of the biggest producers in the west, but of recent years depletion of high grade ore bodies has brought the property to a turning point, and the problem now is to prove new ore reserves and probably to evolve new methods of mining and recovery.

The present operators are said to have ample capital and to have at their command the best of mining intelligence.

There is an entirely new spirit in the town of Hedley—an optimism that has not been apparent since the decline began several years ago. Hedley is satisfied that a new era of prosperity is about to begin.

## Jas. Corrie Takes Over Nathan Business

A newcomer, yet an old stager, has entered the business field in Princeton in the person of Jimmy Corrie, who was formerly a sort of fairy god-father at Copper Mountain. Mr. Corrie has taken over the stock of the late John Nathan, and will conduct a tobacconist's, news-agent', and confectioner's business. He also takes over Mr. Nathan's wholesale line.

He will continue in the present place of business until the end of the month when he plans a new location.

## COALMONT MAN IN A TANGLE

A Coalmont man giving his name as Alex V. Riper is involved in one of the most unusual matrimonial tangles to be heard in B. C. courts in recent years. He claims he has nothing whatever to do with it.

It is an alleged double bigamy. He is accused of being one Kipryenchuck who, allegedly already married, in December of last year is held to have gone through the marriage ceremony with one Vivian Perry.

At the same time the original Mrs. Kipryenchuck is being held at Oakalla on a charge of having, while the wife of the accused man, having married a rancher at Roberts Creek where she was placed under arrest by police. Riper vigorously denied that he was one and the same with Kipryenchuck, and so vehement did he become that he was immediately taken to Oakalla that the woman might accept or reject him as her rightful husband. The woman immediately claimed him.

The summery fall is not popular with the local coal mining industry. The mines have not yet struck their fall stride, and until coast markets show more activity, are not likely to do so, though they are in readiness for peak production.

## *Minister Will Visit Riding This Week*

HON. W. A. McKENZIE

Member for the Similkameen, who will visit the riding this week-end.

## WILL DISCUSS LOCAL PROBLEM

Matters appertaining to the welfare of the district will be discussed in round table conference between the council of th Associated Boards of Trade of the Similkameen and Hon. W. A. McKenzie, the local representative in the Victoria legislature, on Saturday evening.

The Associated has been grappling for some time with a number of problems, and has not made as much progress as it would have liked. It came to the conclusion that a great deal more satisfaction would result if it could discuss matters face to face with its own representative of the government than by exchange of letters. The minister agreed with the suggestion.

Wednesday forenooon he telephoned from Victoria suggesting Saturday as a suitable date, and this was satisfactory to Mr. Geo. Murray of Blakeburn, the president of the council.

It is not a public or a political meeting in any sense.

While no definite draft has been prepared of the matters to be discussed, roads will likely be one of the major considerations. The government's road policy with regard to this end of the riding will be sought, with especial reference to the Coalmont road and no doubt the Hope-Princton road.

The question of Cawston lands will also be certain to come up for discussion, and there will no doubt be other matters, among them possibly that of re-distribution. Each of the affiliated boards has the right to instruct its two delegates to seek what information it wishes. The component boards are Coalmont-Blakeburn-Tulameen, Hedley, Keremeos, Cawston and Princeton. Geo. Murray of Blakeburn is president and Dave Taylor secretary.

## FIRST AID WORK IS ORGANIZED

Ambulance affairs for the coming season were set in preparedness at the annual general meeting of the Princeton Center St. John Ambulance Association held in the Mine Rescue Station Tuesday evening.

Arrangements for classes are in the hands of the executive, and an announcement concerning them will be made at an early date.

Election of officers formed the chief item at Tuesdays meeting, as a result of which there is an admixture of old and new blood.

Officers are as follows:

Hon. President—Hon. W. A. Mc Kenzie.

Hon. Vice Presidents—Messrs W. R. Wilson, Jas. Dickson, A. D. Broomfield R. Dixon, L. Ecker.

President—W. Strang.

Chairman—J. G. Biggs.

Vice-Chairman—J. Gillham.

Secretary—F. Mottishaw

Executive—Messrs T. Lloyd J. Rintoul, L. Samaan, W. Lewis; Mesdames R.Hargrad, E. Pringle, A. Gould, J. D'Angelo.

Auditors—A. Gould, Miss G. Foster.

Delegates to the Princeton and District Association—W. Strang and J Brown.

## No Successor Yet

St. Cuthbert's church, and the local parish of the Church of England, is to be without a minister meanwhile, pending the appointment of a successor to Rev. A. W. Robinson, who has left to take up mission work in land. It is expected that occasional services will be held here, and the Sunday school will be conducted regularly as usual.

## SANITATION TO BE DEMANDED

### Dr. J. R. Naden Issues Warning That Regulations Must Be Complied With

That Princeton will require to give more attention to sanitary regulations was made apparent by Dr. J. R. Naden, medical health officer, in a statement to th Star. The following is based on observations by Dr. Naden after an inspection of the town in compliance with the provisions of the sanitary regulations of the provincial board of health.

Dr. Naden's investigation substantiated complaints made by J. Horrocks, who is in charge of local garbage collections that violations of these regulations were such that they must be taken seriously. The idea is not one of persecution, but rather to safeguard the public health. It is hoped to avoid prosecution, but offenders are warned that the matter is being viewed seriously. The provincial police are cooperating in the compaign ,as are also the board of trade, at whose request Dr. Naden made his investigation. Citizens are warned that much less laxity will be tolerated in future.

Dr. Naden's remarks chiefly aply to wells and outside closets, though disposal of garbage in general is concerned also.

Contamination of water is in the opinion of Dr. Naden a serious matter, and he intends to see that owners of private wells do not endanger their health and that of others.

According to the sanitary regulations private wells are not to be tolerated where a proper service is available. This need not be taken to mean, however, that owners of wells will be proceeded against, unless such wells are objctionable.

Wells, howver, must be at least 100 feet from any probable source of contamination, and twenty feet from any dwelling.

Inspection of all new buildings or alterations to any buildings are required, and it is the responsibility of the owner to arrange with the health officer for such inspection.

Similarly, in a town where water is available, water closets are recommended. While other forms are not under ban, there are certain very definite regulations. Especially, no pits are permitted. Watertight receptacles must be placed above the surface, and so arranged that they may be emptied or removed through a hinged door or lid. The following are quotations from the sanitary regulations. A copy is being left with the board of trade, and is available for reference.

41. All wells which are in use, whether public or private, shall be cleaned out on or before the fifteenth days of March and October each year; and in case the local board certifies that any well should be filled up, such well shall forthwith be filled up by the owner of the premises.

42. Every well sunk or dug shall be located at least one hundred feet from any probable source of contamination such as a privy-vault, manure heap, cess-pool, stable or pig-sty, and at least four hundred feet from any cemetary or dumping ground. Any like source of contamination existing within the aforesaid distances from any will now in use shall be removed where poossible, or in default the well shall be abandoned and filled up; but this rule shall not apply to wells situated less than twenty feet from a dwelling house unless other good cause than proximity to such dwelling house can be shown why such well should be abandoned.

54. The person erecting any building or constructing any house, drainage, or plumbing shall from time to time notify the local board when any work is ready for inspection, and all such work shall be left uncovered and convenient for examination until inspected and approved of by the board, or some person competent to make the inspection apointed by the board; and no such work shall be proceeded with or finished until such approval in writing has been obtained.

**DWELLING HOUSES.**

57. No person shall let or occupy or cause to be occupied, as a dwelling or lodging, any room which—

(a) Does not contain at all times at least 384 cubic feet of air space for each person occupying the same.

(b) or has not a window made to open in the manner approved by the local board.

(c) or has not appurtenant to it the use of a water closet or earth-closet constructed in accordance with these regulations.

And every room in which a person

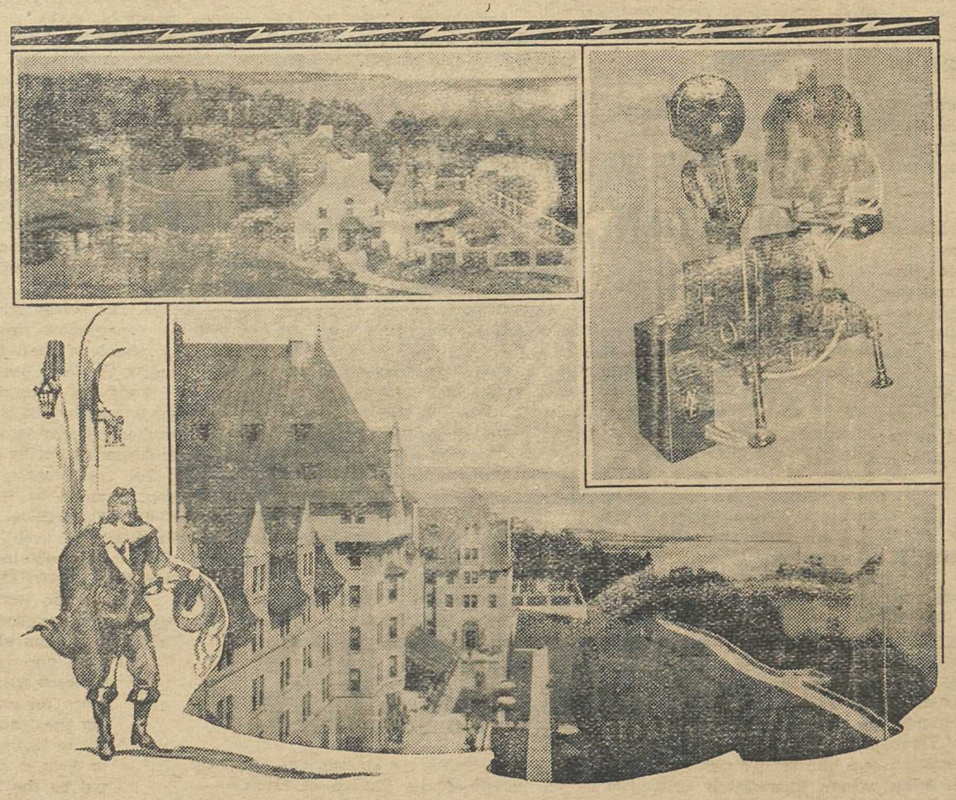
## Where Four Centuries Meet



Uniting the sixteenth and twentieth centuries as typified in the lower left hand and the upper right hand corners of this group, stands the lordly Manoir Richelieu, the fashionable holiday resort at Murray Bay on the north shore of the St. Lawrence and the site of the activities of the "One Hundred Associates" of New France. The Casino, shown at the upper left, designed after the famous Chateau de Ramezay built in Montreal in 1705, now houses one of the most complete sound and talking picture installations on this continent.

Acoustic engineers of the Northern Electric Company have been working for some time with engineers of the Canada Steamship Lines, to effect the necessary treatment for the perfect reproduction of the best products of the moving picture studios, thus affording visitors to the Manoir Richelieu still another addition to the many attractions of this famous pleasure paradise.

# Princeton Paragraphs

Tony Kovich injured an ankle at school on Monday.

Mr. W. R. Wilson paid Princeton his first visit since his illness, this week.

Mr. James Corrie was a business visitor to Vancouver at the week-end.

Mr. Gordon Scholfield has returned from a vacation spent touring eastern British Columbia, and Alberta as far north as Edmonton. Mr. Dick Harris, also of the Bank of Montreal staff, is now on holiday.

## BLAKEBURN

Miss Stella Olsen returned on Sunday from a month's vacation spent at Penticton, Nanaimo, and Vancouver.

* * *

Mr. Cuthbertson returned on Sunday after having spent a few days on Bob Cuthbertson s ranch near Princeton.

* * *

Mrs. McDonald of Copper Mt. was a Blakeburn visitor last week.

## KEREMEOS

Mr. and Mrs. J. F. Heap are rejoicing over the arrival of a son.

*

Mrs. M. Clarke is substituting at the Keremeos school for a few days, vice Miss Davidson, who is away at the coast

*

**FORESTRY SHOW ENJOYED**

A full house saw the forestry pictures shown here on Saturday evening. Nearly 300 people came to see the instructive and enlightening pictures of some of Canada's streams and forests.

Keremeos and district was complimented on having three junior fire wardens who take their work seriously, in Masters Smith of Keremeos, Marcell of Olalla, and Beecroft of Cawston, in whose hands arrangements for the show were left.

* * *

**CIRCUS IN TOWN**

A circus put up its tents on the baseball grounds for a few days.

* * *

**WEDDING BELLS**

The engagement is announced in Vancouver of Miss Joane Hardy, R. N., a well known former resident of Keremeos, who is to be married in that city on October 6th to Lieut. T. A. Miller, who halds a commission with the Fifth Canadian Light Horse.

* * *

Mr. Marsden has adapted his lighting plant to 110 volts for house wiring. Power is generated by two diesel engines of 2300 volt capacity.

* * *

Word has been received in Keremeos that Haliburton Tweddle has lost the sight of his left eye, which was recently injured by splinters of wood.

It was thought for a time that it would be possible to save the optic, but complications have set in which necessitated its removal. Mr. Tweddle is a patient in St. Paul's hospital.

* * *

Mr. D. R. Morrison is home from Vancouver to superintend harvesting operations.

* * *

Mrs. E. Bell and daughter Maud have returned to their home in Vancouver, after visiting with their sister, Mrs. J. C. Cameron.

* * *

Mrs. Sutherland, Miss Sutherland, and Mrs. Carman are visiting at the Willis home.

Mr. and Mrs Jack Parker, now of Corra Linn are visiting with Mrs. Parker's parents, Mr. and Mrs. Mc Kinnon of Copper Mt.

## COPPER MT.

Mrs. A. Corsi was a visitor to Princeton on Wednesday.

* * *

Mrs. J. McDonald has been spending a few days in Princeton.

* * *

Miss Melba Truax was the guest of Miss Vera Powell in Princeton on Saturday.

* * *

Visitors to town on Saturday included: Mr. W. Harrison, Jr., Mr. J. Corsi, Mr. Alex Corsi, Mr. J. McDonald Mr. Geo. Rodgers, Mr. and Mrs. D. A. McKinnon and daughter Florence, Miss M. J. Gray, Mr. and Mrs. J. T. Langridge and daughter Joanne, and Mr. and Mrs. Munro.

* * *

Mr. Geo. Rodgers and Mr. J. N. McKinnon made a trip to Princeton on Monday.

* * *

Mr. Charles "L" Pitt is spending a few days here, where he contemplates doing the "odd bit' of hunting.

*

BobbieMc Kinnon spent Sunday at Copper Mountain with his parents, Mr. and Mrs. D. A. Mc Kinnon.

## HEDLEY

Mr. and Mrs. McGuire and daughters motored up from Molson to spend the week-end with their daughter, Mrs C. Turner.

* * *

Mr. and Mrs. H. McLean and family were the guests of Mr. and Mrs. Wm. Lowe over the week-end.

* * *

Miss Winnie Fewtrell and Mr. Horace Clark spent the week-end with Mr. and Mrs. Kirkpatrick.

* * *

A small crew of men started work the first of the week repairing the dam and power house. We hope to have lights some time this week.

* * *

Mrs. Wes Lyons gave a very enjoyable farewell party for her aunt, Mrs. G. P. Jones, who leaves shortly with Mr. Jones for Australia, where they will visit their daughter, Mrs. P. Prior.

## SANITARY REGULATIONS MUST BE OBSERVED

(Continued from Page 1)

passes the night ,or is found between midnight and five o'clock in the forenoon shall be deemed to be occupied as a dwelling or lodging within the meaning of this rule.

60. All privy-closets, privy-pits or vaults, cess-tanks or cess-pools now in use, unless constructed in the manner specified, are hereby declared nuisances, and the same shall be thoroughly emptied, cleansed, and disinfected and filled with clean earth. The contents of suh privy vaults or cess-pools shall be disposed of as provided by these regulations.

It should be noted that where the term local board is used, in the case of Princeton this authority rests with the local medical health officer.

# STAR SPORT REVIEW

## ATHLETIC ASSN. MEETS MONDAY

Behind the curtain the stage is being set for winter sport The annual meeting of the Princeton Athletic Association will be held on Monday.

The Association's chief function is the administration of the skating rink, which is publicly owned, or rather was financed by citizens who purchased shares, though such shares have never been issued, as the Association has not been registered under the act.

Election of officers will likely be the chief item of business for Monday, together with consideration of plans for the handling of the rink during the coming winter. During the past two years the Association has followed a new policy, and instead of running the rink itself has rented it out to private operators. This policy has at least been a financial success as far as the Association's funds are concerned, and together with the able handling of the Association's affairs by the officers, it has been the means of taking the Association out of debt for the first time since its inception. A highly successful dance last season helped considerably, though the rink did not bring the specified revenue.

The Association's path has not been one of roses, and it has come in for some severe criticism in the past.

There are many of the opinion that the opportunity was never better for the Association to assume its real place aas the parent body for all local athletic activities, and they are hoping that this year's meeting may see this idea consolidated.

Present officers are Wilfred Madore, president; W. B. Ewart vice-president; R. D.Affleck, secretary; and C. V. Prosser, H. C. McGuffie and Dave Taylor, executive.

## No Football Game Here On Sunday

There will be no football game here on Sunday. Penticton were billed to play Princeton, but after stating that they would be over, they wrote to say that they could not come. Lack of finances is their complaint. They staged a benefit game last Sunday to raise funds, but the ball burst, and they were unable to finish the game, and so got no collection.

Their attitude is far from popular with the Princeton boys, who went to the Okanagan early in the summer with a scratch team in order to keep their promise, each man paying his own way. They have been endeavoring to arrange a return match all summer, and now Penticton advise that they are through for the season. In basketball two years ago Penticton were guilty of the same offence.

## Forsyth Again Wins Monthly Medal

J. B. Forsyth capped a fine season's play by again annexing the club's monthly medal in the final competition of its kind for the season, at the Princeton golf links Sunday.

In spite of the fact that he paid the penalty for success by having his handicap cut by three strokes, Mr. Forsyth led the field with his net score on Sunday. His gross was 81, and his net 70. Another high handicap man in Sam. Ewart finished runner-up, three strokes behind, with the same handicap.

In the ladies' section, another tie was the result, Miss M. Garrison sharing the honors with the club champion, Miss A. Freeman. Each had a net of 86, Miss Freeman's gross being 98, and Miss Garrison's 110.

Only one more competition remains to be played on this year's golf schedule. It is a flag competition set for Sunday Oct. 16.

**MONDAY IS THANKSGIVING DAY**

Monday, 10th October, is the official Thanksgiving day in Canada this year, and a legal holiday. It will likely be observed by most local places of business

The anniversary of the signing of the Armistice, November 11, will be separately observed.

## WRESTLING AND BOXING CARD

Princeton fans will have the opportunity to sit in on their first fight card in some months on Saturday, and judging by advance advertising, the card promises to be one of the most attractive ever staged here.

It marks the return of Sandy Sandeson to these parts, and he has in his wake a small army of ferocity.

Returning to the fold also is Bruce Belanger, the shifty French Canadian lad with the permanent smile, who showed in the local ring a few months back. Belanger has been on the road all summer, and has apparently been active. His friends say he has come on by leaps and bounds, and is now a fighter above the ordinary. He is of the same opinion himself, and now lays claim to the junior welter title of western Canada, which means that he has evidently taken in a lot of territory in more ways than one.

Belanger meets Joe Kennedy of Trail and as Kennedy is apparently a man with ideas very similar to Belgie's, the latter will no doubt have a chance to show his home folks just how good he really is. This is of course a boxing bout, as Belanger has definitely decided to concentrate on one form of sport. He gained the nickname of "Two Round Belanger" during the summer, and is figuring that this will be ample time for him to dispose of the smelter city boy.

If the advances are lived up to, there is real class in the squirming department ,for the visitors who take on the two local men—Sandeson and Curly the Wop—are Jack Strong and Ed Kruse.

Strong is billed as the champion of Australia at his weight, an dof course the name Kruse means a lot in any company. Ed is a cousin of the notorious Bob.

Strong is that in name and in fact, for one of his little side-shows is to drive spikes through boards with his hands, and pull them out with his teeth.

Kruse is a name in pachydermic diction synonymous with "tough bebe" and as the bout is to be fought under Australian rules (?) there should be no lack of high-jinks, as Sandy himself is in his second heaven when the cave man stuff is on tap.

The local men have been on the road all summer, and claim to be the better for it. This no doubt accounts for these ambitious clashes. Sandeson is keen on making a good showing point of view, while a win for Curley would make a great deal of difference to his ring future. Strong has a draw to his credit against Jack McLaughlin so that Curley has his work cut out.

If the bouts turn out as one may reasonably expect, it is safe to say that this triple main event card will provide as much talent as has ever been presented in Princeton in a single showing.

What price Bobbie McKinnon to take charge of the rink this winter? How about it, Bobbie?

**NOTICE**

On October 15th

All Electric Service will be cut off from any customer whose August Account is unpaid.
A charge of $1.00 will be made to restore the service if required.

**Youthful Strength**

Dr. Magnus Hirschfeld, the world-known authority on Sexology and Director of the Institute for Sexual Science of Berlin, Germany, created

**TITUS - PEARLS**

to help millions of men and women who have lost or are losing their vital physical power. In his 35 years of practice and research, however, he realized that the weakening of man's glands was also responsible for other troubles: **High blood pressure, hardening of the arteries, physical exhaustion** after work or exercise, **dizziness, depression, neurasthenia** etc.

All these troubles can be removed with **Titus Pearls.** Numerous cases were treated by Dr. Hirschfeld in his Berlin Institute.

L. S. (State Official; 60 years old, married) complained of physical exhaustion, dizziness and tremors. Was easily tired. Mental powers dull and slow moving. Physical powers had been incomplete for previous five years. Blood pressure too high. Given 2 Titus Pearl 3 times a day. 2 weeks later the medical report on this man was.- General health better, more vigor; dizziness much less and returning of power. Treatment continued, and 2 weeks later L. S. reported again, this time to say that all weariness and exhaustion had gone; he felt fresh and buoyant. His blood pressure had fallen, and at 60 years of age he had regained the physical power and virility that he had known in the prime of his life.

Start regaining your youthfulness now! To-day! In 2 weeks time you will be aware of the new, virile force within you. Send $5.00 (cash registered or money order) for 2 weeks treatment.

Write for booklet. C.O.D. Orders accepted
