SPIRITED GATHERING ON FRIDAY

Great Enthusiasm Shown at Last Meeting Before the Parade.

The Mass Meeting held last Friday noon, was one of the biggest, best, and most enthusiastic held this session. Brick McLeod, Varsity's yell leader, opened the meeting with Kitsilano, then followed the Arts, Science, and Aggie yells, and "We ain't no government's darling." Mr. Meekison, Varsity's yell king in the past, finished the yell episode with another rendering of "Kitsilano."

Friday's meeting was held to complete the arrangements for Saturday's program. Mr. Richards stated that although Saturday closed Campaign Week, this did not mean our efforts should cease. The campaign work would still go on. He then thanked the student body for the splendid support given throughout the campaign.

Mr. Percy Barr, vice-chairman of the campaign committee, stated that at a meeting of the Women's Liberal Association a resolution in favor of the new University passed unanimously. Premier John Oliver gave a speech, and what he said was by no means discouraging. "There are three problems which will come before the government; (1) the liquor question; (2) the P. G. E. question, and last but not least, the question of a new University," said the Premier.

Mr. J. Allardyce, President of the Alumni stated that the fight had begun in earnest last spring, the campaign had been a strenuous one, but there had been considerable and decided progress made. The Alumni are strongly behind us. Mr. Allardyce in closing congratulated the Executive and student body for the splendid work done; he stated he had never worked with a committee so willing, keen, and energetic.

The Week's Events

Thursday—Vancouver Institute lecture on "The Periclean Age in Modern Athens.

Boxing Club turnout at St. Georges Gym. 8 p.m.

Friday—Alumni Dance. Alexandra at 9 p.m.

Arts '24 Class Party 8 p.m. in Auditorium.

Saturday—Soccer: Varsity vs. N. V. Elks at Con Jones' Park.

Varsity 2 vs. Victoria Road.

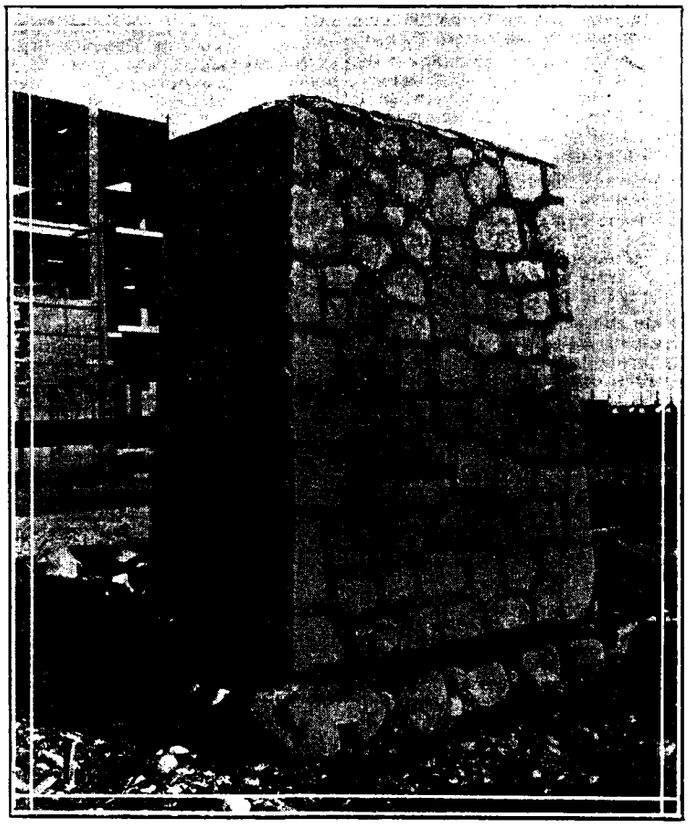
Monday—Rugby: Varsity vs. Edmonton. Brockton Point.

Tuesday—Meeting of the Engineering Discussion Club at noon in the Physics Lecture Room.

Wednesday—Meeting of the Men's Literary Society in Auditorium at 8 p.m.

Badminton Club turn-out at K. E. H. S. gymnasium at 8:30 p.m.

THE MEMORIAL CAIRN.



The Significance of the Cairn

Addresses by Mr. Allardyce and Mr. Richard.

The cairn has been erected, not as a monument either to the Campaign Committee or to the student body, but to mark now and for all time one of the biggest events in the history of our University, the building of a real and permanent home at Point Grey. A mile-stone in the history of our University it is—yes, and something more. It marks one of the greatest efforts ever put forward by an undergraduate body in support of its University, an effort which will only end when our object is attained.

Upon the scholastic attainments of our members, and the researches of our professors will depend the ranking of our University and the development of our province. But if we are to stand among the best, if we are to develop the resources of our province, we must have room for our work and apparatus with which to work. Who should better understand these needs than our Alumni? Let us not be satisfied with a University established in a permanent home. Rather let the cairn be a reminder not only to us but to those who follow of what can be done. Let us widen our objective and make U. B. C. a University among universities.

JOHN ALLARDYCE.

Our slogan during Varsity Week was "Build the University."

We, the students, are building and completing the first unit in the permanent plans of our University.

The work that we are doing is significant of the hope that the people to whom we appeal and the Government who represent them will carry on this work.

We hope that very soon around our Cairn of rock buildings will rise and a University be established which will bring glory and honor to our Alma Mater and renown to our Province and Dominion.

The building of the Cairn to me is full of meaning. It stands for the combined efforts of 1,178 students. Each rock represents a personal contribution in a worthy and just cause. As the mason with his trowel shapes and cements the rocks together into a complete and unified whole so the Campaign has bound the student body together by a bond as strong as the very granite itself.

Let the Cairn stand then, not for dedication, not as a memorial to our efforts but as a landmark for the future.

To our successors let it be emblematic of a united student body. May it bring glory and honor to our Alma Mater.

A. E. RICHARDS.

STUDENT PILGRIMAGE COMPLETED

Student Parade Worthy of the Efforts Involved—Gowns Are Impressive.

On Saturday afternoon every student of the University participated in the construction of what will become the first completed unit in the permanent plan of the University at Point Grey. The Memorial Cairn, made of native rock, will occupy a point at the summit of the hill which overlooks the waters of English Bay and faces the majestic outline of the Squamish Mountains.

Firmly embedded at the base of the memorial tablet a roll of parchment will be fixed recording the efforts of the students in the campaign and the 51,000 signatures of people who desire the immediate construction of the permanent University buildings. The fact that each unit which will enter into the construction of the cairn was handled by a student and represented a personal contribution to the students' drive is not without a certain significance.

The dedication of the cairn marked the close of a Varsity week which for enthusiasm and concrete achievment is unequalled in the annals of U. B. C. The admirable manner in which all details in connection with the pilgrimage were attended to was but characteristic of all undertakings in which the Publicity Committee has been engaged since the commencement of the campaign. Too much credit cannot be given to Buck Buchanan, the Marshall, and his aides, Hugh Russell, Jock Lundie and Bob Hedley for the efficient manner in which they performed their duties.

The women of the University covered themselves with glory. Tramping the whole distance from the end

(Continued on Page 2.)

The CHANCELLOR INTERVIEWED

Considers Student Effort An Achievement to Be Proud Of.

In spite of the many demands upon his time, the Chancellor gave up his entire afternoon on Saturday to go with the student body to the Point. When interviewed by Mr. A. E. Richards, he declared that he was enthusiastic over the whole proceeding, which he considered a splendid achievement. The full meaning of the stone cairn was not realized now, he said. In twenty years when the students who built it had reached full manhood and womanhood, the cairn would bring back many happy and inspiring memories. It was significant of what united effort could do.

STUDENTS COMPLETE PILGRIMAGE

(Continued from Page 1)

of the carline to the Science Skeleton they arrived at the Point only a short time after the men. Their approach was marked by a roar from the men who had by that time climbed the gaping structure known to some as Stonehenge. On their arrival they were accorded a hearty Skyrocket.

The movie men were on the job as usual and shot miles of pictures of the students on the frame building and formed up in the letters U. B. C. on the grass of the adjoining field. No Valentinos and very few Pickfords were discovered on the film when it was developed but the camera man reported that some of the students showed promise.

The parade through town while not demonstrative was effective and created a favorable impression. Here again all plans were carried out without a hitch, although the passage of a C. P. R. train at Carrall street broke the parade in half.

Floats and slogans were all original and constructed with a purpose, to bring home to the people the acute congestion existing at the University today. The Municipality of Point Grey, the City of New Westminster and various clubs also got behind the Committee and assisted with decorated cars and floats. The admirable manner in which practically every student assumed personal responsibility for the success of the parade was above all the most desirable characteristic of the whole proceedings.

Among the hundreds of motorists who travelled to the Point to witness the final ceremonies of the Pilgrimage were many who loom large in the public life of the Province. Through them as well as through the thousands who saw the parade the favorable impression created by the students on Saturday will be spread to the most remote sections of the Province. Miss E. P. Hansford, who with Miss Betty Somerset and Marjorie Agnew undertook to feed the multitude at the Point, won the praise of every student who sought nourishment at the hot dog and coffee house at the side of the road.

Details About the Cairn

The University has a debt of gratitude towards Messrs. Sharpe and Thompson, Architects of the permanent buildings, who designed the cairn at Point Grey, Mr. Thompson giving his services free. The simple and effective design is rectangular, in keeping with the whole scheme of architecture.

Professor Boving who suggested the building of the cairn selected a site in the centre of the main boulevard directly in front of the Administration Building. This choice met with the approval of the University Authorities. Mr. W. H. Powell, Civil Engineer, and Mr. A. H. Finlay, Science '24, spotted the exact position.

The Art Monument Company was given the contract for the building of the cairn on recommendation from the Architects. The stone-mason, Mr. Angus MacRitchie, is to be congratulated on the splendid work he is doing.

The amount, $125, may appear high but for the class of work is very reasonable. The work is permanent and required expert workmanship. Each student bears a share of the cost. From a materialistic point of view it is surely worth this trifle. From its significance as a landmark of United Student effort its value now and in the years to come cannot be measured in dollars and cents.

THE CUB REPORTER OUT CANVASSING

Well I was out canvassing on Wednesday, as I suppose all the rest of you were. I went to one house and the woman came and opened the door, and I says: "I wonder if you'd mind signing this petition to have the University moved out to Point Grey."

"Oh, I don't know," she replied, "where is it now?"

"Well Madam," says I, "it's right between the General Hospital and the Incurable Consumptive Hospital, and what's more my dear lady, we have to have Chemistry Nine in a tent."

She looked at me rather peculiar like, and then she remarked, "Will it cost me anything to sign this thing?"

"No Madam," I answered, "it will not cost you a cent, you can sign it absolutely free."

"Can I though," she murmured, "how about the taxes?"

Taxes? well that had me thinking for a while, but in a couple of minutes I got a brilliant idea, why not explain the Kiwanis plan to her.

"Madam," I says, "Madam, do you know what the Kiwanis are?" She said she didn't. "Well," I explained," every Kiwani is a native of this city, and they have a plan which will make it so you won't have to pay any extra taxes at all." "These Kiwanis are going to buy all the land around the University site at Point Grey, and with the money they are going to build our University; every Kiwani has promised to support the thing to the last man." When I has finished she looked rather puzzled; I guess she wasn't very intelligent, because she didn't seem to grasp the idea at all.

"However, Madam," I continued, "we've got lots of other arguments," and I pulled out my special copy of the UBYSSEY. "Here's some sort of a thing that says that with a college education 5768 attained distinction." "Here's another argument up in the corner that says 'students must bring petition form and stickers to the meeting.'" "Now will you sign Madam," I pleaded.

"No sir," she answered, "I certainly will not."

Then I says, "Well Madam if that's the way you look at it, I guess I'll move on."

"O will you," she cried, "all right I'll sign then."

———ZIP.

OUTDOORS CLUB

In spite of the strenuous hike out to Point Grey last Saturday afternoon, a few of the club went up Grouse Mountain in the evening. They had the pleasure of trying out the new bed of boughs and found that it compared very favorably with the Restmore products. On Sunday morning three or four members came up and the day was spent in fixing up the cabin for the coming winter. It is to be hoped that all the members will take advantage of the weather during the next few weeks before and do their share of the remaining work.

ITEMS OF INTEREST.

The Faculty and students of the University will learn with interest that Professor G. Grojean has been awarded by the French Government the title of Officier d'Academie. This is another recognition by the outside world of the high attainments of the members of our modern language department.

The first meeting of the Biological Discussion Club will be held on Tuesday, Nov. 7th, at 8 p.m. at the home of Miss Jessie Caspell, 344 14th Ave. West. Dr. Fraser will speak on "The factors that affect the distribution of plants and animals on the Pacific Coast." Also, Dr. Hutchinson will speak on the life of Prof. John Macoun.

SPORT NEWS

VARSITY VS. WESTMINSTER.

Varsity notched the win column for the second time this season when they defeated Westminster United at Clarke Park, Saturday. Deprived of the support of the usual turnout of rooters, and playing without the assistance of Crute. Varsity scored three goals, and held their opponents scoreless.

Wilkinson, another recruit from the third-division team, played in Crute's place and turned in a very good performance. It is interesting to note that all our thirds play an interesting and heady game, especially those who have been fortunate enough to make senior company.

The game was fast throughout and it was not long before McLeod drove in a hot shot, and beat their goalie for our first counter.

In spite of the efforts of the Westminster forwards, Varsity still pressed and after some pretty passing Lundie went through for the second goal.

In the second half McLeod put the game 'on ice' when be scored another goal for the blue and gold. The playing of the team was far superior to that of last week. Mosher had little to do, and our forward line showed up exceptionally well.

Varsity now has seven points and stands high up in the first division. The teams above us have played two more games than we and are credited with the additional points. Although it is early in the season, Varsity is acknowledged as a serious contender for premier first division honors.

THE SEASON IN BASKETBALL

If the amount of men turning out to basketball can be taken as any criterion, hoop-enthusiasts will have a fine year.

The majority of the men who played last time are available, while to fit the places of those who have left are several recruits from the Freshmen. Last year, although Varsity did not finish the season at the head of any league, our representatives chalked up several victories. The senior team, owing to sickness and injuries, were unable to field a team against the Y. M. C. A. in the final game. This year, with any sort of luck, we should be able to beat our old rivals.

In the senior "B" division, Varsity took eleven straight games. Penwill, Turnbull, McPherson and Stephens are still with us. Mosher, our brilliant goalkeeper in the first division soccer team, is also a fine hoop man. It is safe to say that if he gets baskets the way he saves goals, the scorer will have a hard time to keep track of his scoring.

Carlisle, Gross, Bickell, Lewis and Elliott will undoubtedly form the senior "A" team this year. With "Buck" Buchanan as coach, and an early start, we are well on the way to cop premier honors.

Of the intermediates, Henderson, H. O. Arkley and Stan Arkley will, perhaps, form the body of a fine team. Martin, of Agriculture, is said to be a fine player and may turn out with this division, while Gill, "the Cranbrook flash," will also be "among those present."

With such talent as this from which to pick, the outlook is most encouraging. "Garrison" finishes will no doubt be in order, and the "fans" will undoubtedly be served with many tasty and fast games on the floors of the Normal and Y. gyms.

U. B. C. BASKETBALL.

The Varsity Interclass Basketball League got off to a flying start last Friday at the Normal Gym. when four of the class teams clashed in the first league games. In the first game, Arts '26 triumphed over Arts '24 by the score of 30-12, while in the second encounter Science '24 won from Science '23 by 18-8.

In the first game Arts '24 started off with a rush, and scored directly from the face-off. Buchanan and Lewis were working well together, and the freshies were unable to hold them at first. However, they soon got going and by half-time had rolled up a score of 15 to 8 in their favor. During the second half, the freshies continued to score while they held their opponents down to four points. The team lined up as follows:—Arts '26—Currie, Boomer, Harvey, McKenzie, Gross, Porter, Paulson. Arts '24—Buchanan, Lewis, Elsey, McKay, Marrion.

In the second game, Science '24 won from Science '23 in a fast and furious encounter in which a great deal of rough playing was noticeable, especially in the first half. Science '23 opened the scoring and seemed to have the better of the game for a time until their heavier opponents got going. Science '23 led at half-time by the close score of 6-4.

The second half was featured by some long shooting, Ternan tying the score at 8 all with a nice long shot. From then on, Science '23 went scoreless, while their opponents collected 10 more points, and finished with the score at 18-8 in their favor. For the winners, Ternan and Bickle showed up well. Rex Cameron for the losers, was untiring in his efforts, but had extremely poor luck in shooting. The line-ups: Science '23—Gregg, McVetie, R. Cameron, Gunning, Mathews. Science '24—Wallace, Bickle, Elliot, Carlisle, Ternan.

COMMENTS.

The playing of the men on the respective teams, although very good at times, could still be improved. Many good passes were dropped, and many easy shots on the nets were missed. However, practice will soon remedy these faults. It might be said that team rooters were conspicuous by their absence, only a few supporters being present. Each class should make a point of having its quota of rooters to back its team at every game. The brand of interclass basketball will be good, and deserves the support of everyone.

GOVERNORS' CUP

A week has elapsed since competition for the Governors' Cup began. In that week the athletic class of Science '24 have become prime favorites in the race for the silverware.

Science '24, has, to date, won two pulls in the tug-of-war, and two basketball games. Their hoop game artists are a hard quintette to beat, but they may yet taste defeat in trying to heave over some of the other years. Science '23 may prove a hard team to beat.

INTER-PROVINCIAL COLLEGIATE RUGBY.

Correspondence has been going on for some time, between W. McKee, president of the Rugby Club, and Alberta University, in connection with the inauguration of English rugby as a Varsity sport at Alberta University. The game is played in a senior league, and is further played in the high schools, but as yet Alberta Varsity does not field a team. The correspondence that has been carried on is to encourage the English game, thus making inter-provincial collegiate rugby possible.

FOR THE DEFENCE.

When any project is as intrinsically sound as the Point Grey idea, and has won as much enthusiasm in almost every quarter, the role of devil's advocate is an exceedingly undesirable one. No one likes to point out any flaws in a plan that appeals so strongly to himself and his fellows. Yet it is only by considering the arguments of the opposition that we can most effectively make out a good case for ourselves. Therefore, we hold that it casts no doubt upon our loyalty to the Student Campaign if we remind our readers that somebody is certain to bring up an argument against the Kiwanis plan, or against any proposal to change our present conditions. For example, even among those friends of the University who signed the petitions, there prevails an idea that further expenditure without additional taxation is impossible, and that the Kiwanis plan is too good to be true.

Several thousand dollars are to be spent in procuring "expert advice" before the Government takes any real action. For a small fraction of such an appropriation many so-called experts would be willing to prove the Kiwanis project entirely unsound, nor would they always be without approving listeners in certain places; if such an audience did not exist, we should be out at Point Grey now. "Audi alteram partem" is always a safe motto, and it is good to hear the other side when one has a thesis to prove: each objection answered is an asset to our cause.

To those who say that considering the arguments against the Point Grey plan is harmful to the Campaign, let us answer with an historical example: the travelling friars of the mediaeval Church, who found that thorough knowledge of a particular heresy was an excellent weapon in stamping it out. The modern missionary also studies the arguments that may be brought against him. Was the zeal of the friars lessened, or is the success of the missionary hindered by a study of possible objections?

OUR HERITAGE.

Something has happened to this University—something not easy to describe—and yet something that should receive mention here. It is only now, in the presence of the genuine, that we have come to recognize the futility of those florid phrases in which we were wont to congratulate ourselves upon our college spirit. That immaturity is passed; but in its place we have a consciousness—and a pride—too genuine to dress in purple patches. "We have come into our heritage."

• • •

THE CAMPAIGN AND PUBLIC OPINION

The avowed object of the student campaign has been to present the facts regarding the University to the people of British Columbia that they might judge for themselves whether the college should be properly established or not. It was felt that once the public was in possession of the true facts of the case it would demand in no uncertain terms that the work of construction at Point Grey be undertaken without delay.

Yet he would be sanguine who would venture to state at the present time, after the conclusion of the most successful effort that students of this University have ever made, that the establishment of the University was an accomplished fact; or even that public opinion in this province had been converted altogether to making an immediate start in that direction. A passionless view of the situation leads us to come to a less optimistic yet decidedly hopeful conclusion.

It is simply this—that a great many citizens of British Columbia who favoured the establishment of the University in principle have been strengthened in their belief in our cause; that thousands of others, who knew little or nothing of our difficulties have been turned from indifferent observers to active supporters; and that the campaign has brought forth in certain quarters active opposition. As to how many supporters the campaign has gained for us it is impossible to state; all we can say with certainty is that the number of friends greatly exceeds the number of enemies.

This latter fact is full justification for the campaign having been undertaken. Whether the rising tide of public opinion forces the government immediately to change its policy of apathy in the matter or not, the students have done a great work in having helped to form that tide; and they may rest assured, in any event, that their work has not been barren of result.

ARTS DANCE

On Thursday, October 9th, the Arts Men's Undergraduate Society will be hosts at their Annual Dance in Lester Court.

The following have kindly consented to act as patronesses: Mrs. Klinck; Mrs. Coleman; Mrs. H. T. Logan; Miss Bollert and Miss MacInnes.

The few remaining tickets will be on sale during the next few days at the Students Council offices at the noon hour.

By the Way

At the great crowded rush on Friday, it would have looked rather more realistic if the students apparently going to a lecture in the Commercial Building had not been carrying their banners. Some literal-minded people will wonder just what a University lecture is like.

Besides, everybody looked too cheerful. It doesn't do to appear too happy in our present cramped quarters.

Nor too plutocratic. Those automobiles ought to have been removed out of the line of fire.

AIMLESS ABUSE

I hate the grim repressors
Who spoil our pleasant days,
Pedantic old professors,
With their despotic ways
And academic leaning
For dictionary-gleaning,
And looking up the meaning
Of every stupid phrase.

More than the loathsome vulture,
More than the carrion crow,
I hate the Lords of Culture
Who think you ought to know
Each obsolete expression
Of poets whose discretion
Was quite a lost possession
—But I daren't tell them so!

NANCY LEE.

INTER-CLASS BASKETBALL

Science '24 is leading the race for the Governor's Cup. By winning their games against Science '23 and Agriculture on Friday and Saturday, they have attained first place. They defeated the "Aggies" 26-3. The latter, who were handicapped by the absence of several players, put up a game fight, but were no match for the Ternan, Bickle, Carlisle combination.

In the first game Saturday evening, Arts '25 won from Arts '23, 29-17. Play was fast and snappy with the Arkley brothers showing up well for '25.

Science '25 took the second game from Science '26 by the close score of 12-9 in a fast hard-checking game. Both teams played well, with Bassett starring for Science '25.

Correshondence

This column is maintained for the use of students and others who wish to express themselves on any topic of general interest. The Ubyssey does not assume responsibility for any of the views expressed.

All contributions must be written legibly, in ink, on one side of the paper only. They must not exceed two hundred words in length, and must reach this office not later than noon Monday, in order to appear in the issue of the following Thursday.

EXTRAVAGANCE?

U. B. C.,
October 30th, 1922.

Editor "Ubyssey,"

Dear Sir:—I would like to take advantage of the privilege offered by your paper to express my opinion, and that of many other Freshettes, on the subject of Arts '26 class fees.

Why were we not, as a class, consulted about them? Are we such infants that we cannot decide for ourselves about such matters? I have not met anyone, either Freshette or Freshman, who had any "say" in that question. Surely we should settle such matters as a class.

Then isn't $1.50 and $2.00 too much per person? Arts '26 has promised $50 to the campaign fund—true, but is there need to increase the fees so exorbitantly to do that? Last year the Freshettes had to pay fifty cents each, and there was a surplus of $30. Why triple the amount to add another $20?

This year there are four hundred and fifty people in first year. Taking the average fee per person as $1.75, the total is $787.50. Fifty dollars from this leaves over seven hundred and thirty dollars for entertainments, etc. Is this right when we are advertising our poverty throughout the province? Moreover is it necessary?

From my point of view it is not right to ask so much from those who never attend the dances, as well as from the devotees.

I think, dear editor, you will agree with me, that it is not a square deal all around.

Yours sincerely,
A FRESHETTE.

SCULLERS WIN FROM VARSITY SECONDS

Last Saturday's game at Brockton Point ended in the worst defeat Varsity has suffered in Senior Rugby.

Rowing Club fielded what was probably the strongest team they have produced this season. The Oarsmen got over on the left wing in the first five minutes after a run by Winch. This was not converted. A little later Winch himself scored and the kick gave Varsity's opponents a goal. The College seemed unable to get together in any converted opposition to Rowing Club's continued attack. Thom got a try and made a successful kick. Right at the end of the half Pinkham scored and another five points were added. During the first half Varsity got within scoring distance once, but were unable to get over the line.

The second half produced another goal for Rowing Club and in addition a free kick sent neatly over the bar brought the total score to 26-0. Thom piled up many points against Varsity by his splendid place-kicking. He only failed to convert one try and three of his successful kicks were extremely difficult ones. Rowing Club's three-quarters were also working very well, Winch being a great asset.

ALBERTA COMING.

Varsity's first string rugby fifteen will play their first game of the season on Thanksgiving Day, when they take on the visitors from the prairies. Edmonton is reputed to have a strong team lined up, but definite information is somewhat lacking. The visitors play their first game against Vancouver Rep. on Saturday, November 4, and so Varsity players will not be meeting an altogether unknown quantity.

The McKechnie squad will lack the the services of Gross and Penwill, both of these men being incapacitated at present. Though this constitutes a decided loss, Varsity will still be fielding a strong team and there is every reason for confidence. The match is an important one quite apart from the actual result of the game. This is the first inter-provincial series ever played here and the visitors will carry back with them impressions of the game as it is played on the coast. The visitors also will naturally do their utmost to show their prowess on a new field and an interesting struggle is almost certain to result. It may cause the University of Alberta to adopt the English game. The report they take back therefore will undoubtedly have a direct bearing on this question. Should Alberta University adopt the game, as played here, U. B. C. at once will be able to find competition, with the only Canadian University near enough to permit of an interchange of visits.

INTERCOLLEGIATE DEBATES.

The final tryouts for the intercollegiate debates were held in the auditorium Friday afternoon. Of the nine students who tried-out the following were chosen: Mr. L. T. Morgan, Arts '24; Mr. A. E. Grauer, Arts '25; Mr. C .W. Hodgson, Arts '24; and Mr. J. C. Wilcox, Agriculture '24. Mr. T. H. Goodwin received honourable mention.

The judges were Professor H. F. Angus, Dr. T. H. Boggs and Dr. W. L. MacDonald. All the speeches were of a high standard, which made the judging extremely difficult.

* * *

The debates this year will be triangular in character; the University of Washington will send a negative team to the U. B. C., the U. B. C. will send a negative team to the University of California, and California will send a negative team to Washington. This is the most ambitious debating program that the University of British Columbia has ever undertaken.

AGGIE NEWS.

The Aggies are sending two stock judging teams, who leave for Portland to-night at midnight. One team is a Dairy judging team and consists of G. Barton, H. Steves, and E. Hope. The other team have several classes of livestock to judge, Horses, Beef Cattle, Swine and Sheep. The latter team is as follows: A. Blair, L. Bennett, J. Pye, H. Fulton and C. Barry.

Both teams will judge on Saturday down at Portland against various other teams in the exhibit there. Each student is required to place the animals of the various classes in order of merit and to give reasons for his placing. A. Blair, L. Bennett and J. Pye went down there last year and made a very creditable showing, but it is expected that this year's team will do even better.

The Agricultural Livestock club will hold its first meeting of the year at Braemar on Thursday night, 8 o'clock. President J. Pye will address the meeting and Mr. Tolmie will give a lecture. All Aggies and any others interested are cordially invited to attend. John Pye, the hard working President, deserves much praise for his untiring efforts in organizing the club, and on account of his extensive knowledge on all classes of livestock, makes an ideal president.

Cliff Barry, Charles Rive and others connected with the building of the Aggie float were the recipients of many congratulations and thanks of all the Aggies and Faculty for the splendid display that they made in the parade; they went to considerable pains in their decoration and work of the Aggie float.

* * * *

56,000 NAMES.

Even the most optimistic will be surprised to learn that 56,000 names have been added to the Varsity Petitions. This means that 56,000 people have been asked to express a personal opinion on the University question. Others will be reached during the Thanksgiving recess, and by the time the petition finally reaches Vancouver it is hoped that 75,000 citizens will have signed. Each student realized his or her personal responsibility; Arts '23, for example, consisting of only a hundred members, obtained well over 6,000 signatures.

• • •

THEY HELPED THE VARSITY CAMPAIGN

Those who donated advertising in the newspapers were:—O. B. Allan; Claman's Ltd.; Thos. Foster & Co., Ltd.; Wm. Dick Ltd.; The Hudson's Bay Co., Ltd.; David Spencer's; Norman Herman; The Famous; Saba Bros.; J. W. Foster Ltd.; The Colonial Theatre; Woodwards; C. D. Bruce Ltd.; Goodwin's Good Shoe Co., Ltd.; The Mikado; Miller & Coe Co., Ltd.; Kirk & Co., Ltd. and W. C. Stearman.

Window displays were arranged by the following:—Spencers; Hudson's Bay; Norman Cull; Thomas & McBain; Walter F. Evans; Mason & Risch; Lisle Fraser; Purdys; Birks; Bridgman's Studio; Orpheum Haberdashery and Spaldings Ltd.

The committee is indebted to these companies for trucks which were used in the parade:—Western Motors; Federal Truck Co.; Evans, Coleman & Evans; Central Creameries; National Steel Car Co.; Maple Leaf Truck Co.; The Vancouver General Hospital and others.

VARSITY WEEK.

Varsity Week is over but,—when the nail has been struck upon the head it is some time before a distant observer hears the "noise:" Vancouver is 80 miles from Victoria. The only thing left to round out the Campaign, is direct communication from the Government to the effect that the University will be "completed" as soon as possible.

Even the ether waves helped in the Campaign. On Wednesday, Varsity Week, Mr. Jack Grant spoke over the radiophone for seven minutes to 7000 people on the needs of the University.

On the same evening Mr. H. M. Cassidy spoke on the Campaign at the Colonial Theatre, and Mr. Percy Barn at the Orpheum. Wednesday, October 25, was not the regular Varsity Theatre Night, but on that night a number of students presented a little skit in aid of the Campaign. On Thursday night Miss E. O. Ormrod presented the University problem to a prohibition meeting at Wesley Church, and on Saturday night she spoke in the K. of C. Hall, North Vancouver. Mr. G. S. Livingstone addressed the University of Toronto Alumni on Thursday evening. Mr. C. A. Kelly spoke at the Broadway on Thursday and Friday nights, and Mr. A. G. Brunn at the Maple Leaf on Saturday night. Mr. K. A. Schell delivered impromptu speeches at the Fairview Theatre on Wednesday and Thursday nights and as a result succeeded, after the performance, in adding some 125 names to the petition.

The University owes a debt of gratitude to the merchants of the city who offered their windows for Campaign advertising. Spencer's and the Hudson's Bay presented particularly fine windows. Those who took the trouble to go around and look at these windows will realize what a boon they were to the Campaign. First of all you may have noticed a disinterested observer step up and begin looking at the photographs of "our buildings." When his eye was well focused upon those garbage cans, so evident in the picture, a student with a petition would rush up to him and—well you know the rest. Another great aid to the Campaign was the advertising space which the merchants contributed in the dailies.

WOMEN'S LIT.

A debate between Arts '23 and '24 was held in the auditorium yesterday. The subject, "Resolved that Moving Picture Productions in their Present Conditions are a Menace to Society," promoted some very interesting discussion. Miss Mildred Osterhout and Miss Jean Straus of Arts '23 spoke on the negative side, while Miss Greta Mathers and Miss Dorothy Holmes of Arts '24 for the affirmative.

The judges were Prof. Wood, Miss Ross and Mr. Norman Robertson.

Afterwards, delicious coffee and cakes were served, while the audience was given an opportunity of informally discussing the debate.

REMEMBRANCE.

"Why should I weep the waning days foredone,
The days we might have known, had Fate been minded
To mock our importunities. Alone.
I can remember her, (I said), unblinded,
By the slow mask of change; can watch again
Her shadowy smile,—her hands,—the backward fling
Of the pale, gold hair!" Proud as an exiled king,
I turned to enter memory's domain.

It lay beneath the light of other days,
Atlantis-like. No breath of summer's air
Could stir the shadows down those shining ways,
Nor twilight deepen them. Each song, each wreath—
Hung frozen in it's hour—And you were there
Smiling, and timeless, and secure as Death.

G. B.

CONFETTI AND BALLOONS AT CLUB RECEPTION

In honour of the new members, the Players' Club of the U. B. C. held its Annual Reception in the Auditorium on Friday evening.

Gay Chinese lanterns and multicoloured maple leaves adorned the walls; while on the platform, decorated with Hallowe'en novelties and Jack-o' lanterns, a four-piece orchestra produced irresistible dance melodies.

In one corner, shaded lamps, cushioned easy chairs and rugs made a cosy spot for the Patronesses, Mrs. Wood, Mrs. Coleman and Miss Bollert.

In Room X a daintily appointed table, centred with a large bowl of golden chrysanthemums was presided over by Mrs. Wood and Mrs. Coleman.

Confetti, serpentine and balloons served to heighten the gaiety of the party. During the evening numbers were distributed among the dancers and cigarettes and chocolates were awarded the couple who held the lucky number. The hour of midnight came all too soon and the dancers left for home with much reluctance.

CLASS NEWS ANNOUNCEMENT

Owing to the class reporters laying down on the job this week there is no class news.

Henceforth the "Ubyssey" will feature a Class Notes column and if the class reporters will either work or resign every class will have space.

The "Ubyssey" is the only place that classes can find out what other classes are doing. If it is worth while it should be told.

Your doings should interest others. The "live" classes will be in the "Ubyssey" so get in your news.

Reporters, leave it in the basket in the reporters room. Give "initials with names."

WEATHER—Liable to Change Without Notice. POLICY—DITTO.

EXUBERANCE

(With apologies to all except "G. B.")
Why should I weep? My flaming days
are done.
The days I might have known had
Kate been minded
To grasp her opportunities. "A bone"—
I can remember her, "a rag"—unblinded
By the swift flow of change. My
watch and chain
My sober pile, her hands, did out-ward
fling.
From that pale "hank o' hair, proud
as an exiled King
I turned.————To enter Mary Ann's
domain.

It lay beneath the light of carbon rays.
O Croesus—Tight, my breath of Highland air
Could stir the shadows down the
dusty ways
Where skylights deepen them. I long
more breath—
A dozen quarts an hour—Then Kate
was there
Smiling and timeless and demure as
death.

* * *

When Science '26 displayed its "sardine can" float in the parade, many people took it as an open confession that the old charge was true that Science men were poor fish.

CAMPAIGN COMMITTEE STILL WORKING

A meeting of the Campaign Committee was held Tuesday. At this meeting an acknowledgement of the $20 received from Science '26 was made.

A letter from Jim Lawrence, who is looking after the Campaign in Victoria, was read and showed that the students there were anxious to help. It asked questions, that Percy Barr will answer, regarding the Campaign.

The Grandview Parent Teachers Association and the Gyro Club of New Westminster are among the latest clubs passing resolutions backing the campaign. F. A. Busby, Mayor of Nanaimo, in a letter stated that he was behind the students. It was announced that the Lynn Valley Ratepayers Association, Mayor of Kaslo and the Fernie Rotary Club are also backing it.

A Reception Committee was appointed to act tomorrow, which is Visitors' Day at the University. Marjorie Agnew was appointed convenor of the Committee which will include 15 students.

In Other Colleges

University of Nevada, Reno, October, (P.I.P.A.)—A rifle team for Co-eds has been organized by the school military authorities. A large turn out for the initial practise shows the popularity of the step. Some very good scores have been made thus far, over half the members of the team scored over 75% in the first 'shoot.'

Evidently the Women of University of Nevada have Amazonian Tendencies.

* * *

Willamette University, October 19, 1922.—Junior sisters have been chosen by all freshmen girls of the University. The mail box in the Administration Building served as introduction, according to the custom, the freshmen girls finding there the pictures of their junior sisters.

Why not adopt this idea! Next year before the Freshman Reception have pictures of the girls of the three upper years posted in the lower hall. Then let the Freshmen choose the escorts they wish for the Reception. This plan ought to promote good-feeling between the Freshmen and Seniors.

* * *

University of California, October, 1922.—Student body presidents of the Pacific coast colleges will hold their annual conference at Berkeley during the later part of November.

This association which represents student body presidents of all Pacific coast colleges that have student body organizations meets each year to promote better relations between the colleges, to adjust any differences that might have occurred, and to elect new officers.

This year the convention will take up a general investigation of student government based on the results obtained in the different colleges.

Mr. J. J. Scott, Arts '26, wishes to thank those students who assisted in procuring signatures for the petition at the Pan-O-Rama. Over 7,300 people signed our petition.

S. C. M. ACTIVE.

"An important meeting of the S. C. M. will be held at noon on Wednesday, November 8, in Room "Z." The speaker will be Miss Lowe, the Western Student Secretary of the organization. The general topic to be discussed will be the prospects of sending delegates to the National Conference of the S. C. M. to be held at Toronto, December 28 to January 3rd. The purpose of the conference is to draw up a new constitution for the S. C. M. and to discuss various international problems. One of the special speakers will be Dr. Gray, a prominent English Young People's Worker. As this is the first conference of its kind, much interest is anticipated both from the point of view of students and professors.

All those interested in international problems are urged to attend this meeting."

GEORGE M. DAWSON CLUB

An interesting meeting of the George M. Dawson Club was held Tuesday, October 31, at the home of Dr. S. J. Schofield. Mr. T. Guernsey gave a paper on "The Glaciation Phenomena of the South West Yukon" and Mr. D. H. Rae spoke on "The Geology of the Drumlummon Mine."

REPORT RE MEN'S LITERARY SOCIETY

The meeting of the Men's Literary Society which was to take place last night was postponed until next Wednesday. Next Wednesday's meeting promises to be the liveliest and most interesting of meetings for some time. Several Campaign speakers will be present to address the meeting on the present Campaign. During their addresses the speakers will be heckled from the audience and subjected to all the conditions experienced in a regular "free-for-all" meeting. An interesting discussion will then ensue in which the whole audience is requested to take part.

Thus the Campaign speakers will go forth armed and prepared for the worst. Every undergrad will do well to be present as this is an excellent opportunity to assist the Campaign as well as to "boost" for one of the livest societies in the Varsity.

Alumni Notes

Miss Meiriona Griffith '18 has recently returned from Europe where she has been since graduation. After teaching for a time in Wales, she was with the British Chamber of Commerce in Paris.

A. L. (Junk) Marshall '18, has been appointed Professor of Chemistry at Princeton. After graduation he spent two years at Toronto, where he took his M.A. He then went to the University of London on the 1851 Scholarship, being granted his Ph.D. this spring.

According to recent letters from Rossland, C. A. F. Clark '22, and Van Wilby '21, who are teaching in the High School there, are getting along nicely. They see George Clark '22, who is working at Trail, quite frequently. O. A. E. Jackson, Sc. '22, N. W. McLennan, Sc. '22, and Harold Doyle, Sc. '22 are all with the Consolidated Mining and Smelting Co. at Trail. Miss T. A. Pollock '17 is also teaching in Rossland High School.

Leroy Wright, '17, was married last month to Miss Dorothy G. Leckie of Kelowna. They will live in Vancouver. Harry Andrews, Sc. '20, was in town the other day to see about a ring. Harry is the chemist with the Powell River Company.

Two more Arts graduates have come back to study Agriculture, J. C. (Lefty) Nelson and G. R. (Joe) Martin, both of Arts '20. Miss Lillian Reid '22 is taking post-graduate work in Economics, and Miss Burnie Bain, '19, in Bacteriology. Miss Marjorie Agnew, '22, is also registered for work in biology.

VALEDICTORY GIFT OF ARTS '23.

The graduating class in Arts, Arts '23, is behind the campaign. At a meeting last week the class decided that $400 be given to the Campaign Committee as the Valedictory Gift of Arts '23.

The Committee will use this present for campaign purposes and some acknowledgement of the gift will be made so that Arts '23 will be remembered by the future students as being one of the chief supporters of the Campaign that carried the U. B. C. to its permanent home in Point Grey.

LAW FACULTY

A Faculty of Law in the U. B. C. may, before long, be something more than an "Idle Vaunt" to be placed upon a Campaign banner. Members of the legal profession here, have placed before the Board of Governors a plan for the formation of a Faculty of Law.

Upon previous occasions the Board of Governors have stated that they would do nothing towards the institution of new faculties until the old ones were better housed. The benchers, however, have overcome the housing difficulty by securing for the University, permission to use the City Hall as quarters for the prospective faculty.

At present, there are a number of lawyers in the city who are delivering free lectures to law students. These men upon the establishing of a Faculty of Law in the University would be willing to carry on this instruction practically free of charge. Members of the legal profession have, moreover, promised to contribute money towards the establishment and upkeep of the new faculty.

The matter will be referred to the Senate on December 20, and it will rest with them whether the University shall have a Law Faculty or not.

Pass the Sardines Please

It was certainly some parade, fellows, and we nearly fell out of the window in the excitement, as being Scotch we didn't want to miss anything. We heartily endorse the "Build the University" campaign, and agree with you it is time to change, and by the way it is time you were thinking about your new fall suit or overcoat. Clelland's a man you can go to feeling confident you'll be treated just right. There's a style for every figure and a price for every pocket.

Opposite Switzer's Music Store, up a few steps, and you're there in less'n a minute.

Tailoring Specialist
311 HASTINGS ST. W. PHONE SEY. 7280

"Meet Me at Gordon Drysdale's"

'Twas at a party the other night. Mrs. F. knows a good place for ladies' wear, but she knows something else. "Dave," she said, "meet me at Gordon Drysdale's an' we'll go down to Bruce's and select one of those Wool Gabardine Coats—I want you to have something real nice."

Say, leave it to a woman to know; she'll search the town untiringly till she finds what she wants, and she knows what her husband should want.

We'll say it, Dave—you will look fine in a pure wool Gabardine, it's fully cravenetted, and you'll only need to spend $25. And you'll see the special line of Shirts at $2.45—they're something to talk about. Take a good look round, anyway, even if you only buy the coat—you'll learn something.

You've got to say it about Bruce—he's got the prices right for good things.
