Twin Girls Incite Pep At Meeting

We want the Pierce Twins.

We want the twins!

With these and similar loud shouts the Pep Meeting Thursday shook the Auditorium Building so that the soup spilled way down below in the Cafeteria.

A packed house watched the two red-headed tap-dancers, stamp out the blues, and listened to their syncopated harmony, as pep galore was manufactured for the basketball team who so far have lost two games and won three.

Tony Osborne created a near-riot when he led the two popular redheads out as an encore to one of their new harmony creations.

Howie Cleveland and Johnny Grubbe nearly collapsed in their seats when the Syncopation sisters directed their songs to them: in fact Cleveland was seen to be making motions that made it look as if he were asking for their phone numbers.

Tony Osborne spoke for a few minutes asking for the support of the students at basketball games in the future, and stated that every effort would be made to cop the provincial title. Lyle Stewart mentioned the fact that a student section would be reserved at the V. A. C. Gym tonight when the Blue and Gold boys go through the motions.

A new yell, "Yea Team" was introduced and received the favorable comments of a hilarious audience. Gordon Hilker also led the boys in a few songs.

Ottawa Parley Bad Business Says Forum

"The short-sighted self-devotion of the British Empire in raising tariffs against other world powers will certainly be an impediment to progress," declared speakers for the affirmative, in the discussion, "Resolved, that the Imperial Economic Conference of August, 1932, will be a stumbling block in the path of international progress" at the Parliamentary Forum, Tuesday night.

The subject, introduced as a lack of confidence motion against the government of the Forum, was opened by Jim Ferris of the opposition. He was supported by Tom Vance. Their arguments resulted in the defeat of the government by a narrow margin.

The government, led by Mr. Fisher and Miss Eleanor Walker, defended its stand on the contention that the Empire had made a start in world low-tariff co-operation which should be followed by further co-operation of the large world units.

The chief speakers were supported by five minute speeches from other members of the club. Vic Dryer, president of the forum, and member of the U. B. C. international debating team, emphasised the tremendous fighting force of the Empire's tariffs in forcing co-operation of other countries.

The subject for debate at the next meeting will be, "Resolved that Democratic government as understood in Anglo-Saxon countries today is a failure."

Announcement was given of the debate between the British team and the Varsity men, Vic Dryer and Neil Perry, which will be held in the Oak Room of the Vancouver Hotel, November 22nd. Admission is students 25c, public 50c.

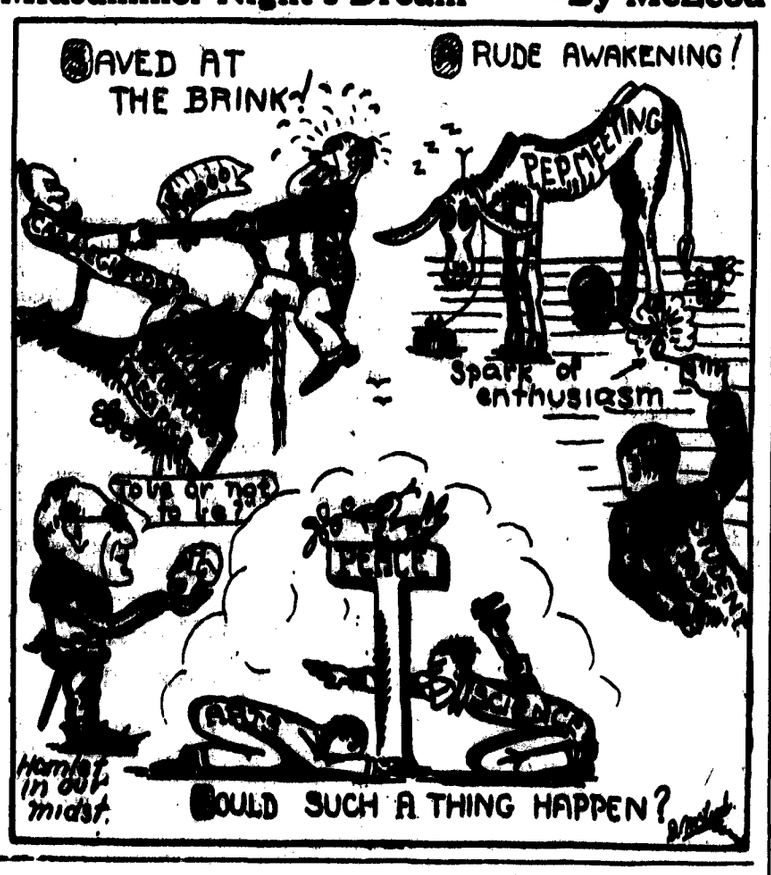
IN MEMORIAN

The brilliant career of John Edward Matheson was cut short 11 a.m. Wednesday, at the home of his parents, Mr. and Mrs. J. E. Matheson, 1836 West 11th Avenue. He attended the University '19-'21 and took an active part in student affairs.

After obtaining his M.D. at Toronto in '27 he became director of the General Hospital Bactieriology laboratory. Last winter he engaged in post graduate work at Cleveland, Ohio, and returned to the General Hispital, Aug. 1st.

His loss will be felt by a large circle of friends throughout the city.

Midsummer Night's Dream —By McLeod



XMAS CASTS CHOSEN BY ADVISORY BOARD OF THESPIANS CLUB

Four Plays To Be Produced At End Of Month — Committees Busy

The Christmas plays will be presented on the 24th, 25th, and 26th of this month according to the decision of the Students' Council.

The parts have all been assigned and rehearsals are well under way. Much talent has come to light and the new members of the Players' Club are expected to uphold the high standard of the Christmas plays set in previous years.

"The Bride" is a comedy of a distracted bride who has lost her dress, and is under the direction of Mrs. Shrum, with a cast entirely of girls. The part of Joyce, the bride, is filled by Odette Ainsworth, with Lois Scott as understudy. Pat Ryan is taking the part of Judith, the bride's sister. The mother is Helen Farris and the maid Mary McGeer. Frances Lucas will be Miss Sparrow.

Risk Directs Again

Sidney Risk, prominent alumnus of the Players' Club, is directing "The Thread of Scarlet." The part of Butters will be filled by Bill Sargent. C. Clarke is in the character of Breen. Migsworth is taken by R. Esler, Smith by Bill Lynott, the traveller by Doug. Smiley, and the landlord by Tom Lea. This play is a melodrama, calculated to raise gooseflesh on the backs of the audience.

Keate and Whyte Still Trying

"The Changeling," a farce, has only three characters, Henshaw, taken by Cyril Chave, Mrs. Henshaw by Masala Cosgrave, and Stokes, which part will be taken by either S. Keate or W. Whyte, the final decision to be made on Monday. Dr. Warren is in charge of this play.

The fourth play, "Smithfield Preserved," takes the form of a boisterous Elizabethan travesty, under the direction of Dr. Walker. J. Provost has the part of Tender, either Verna Shilvock or Frances McIntyre will be Mistress Tender. Brisket is played by Doug Brown, the queen by Mary Griffin, and Vealia by Margaret Cunningham, Asparaggio by Gordie Hilker, and Herbaccio by H. Palmer. Jack Emerson will be seen as the Montebank, and C. Fletcher as the courtier.

Swimming Coach Publishes Book On Speed Laws

A book which every student in this university should read is "Natural Laws of Speed Swimming," written by Norman Cox, the well-known swimming instructor.

This work covers all the questions usually asked by the neophyte in swimming. Particular attention is paid to the difficult leg and thigh action in the "dual beat" crawl, correct methods of breathing, and the principle of "Progressive Emergence" or Hydroplaning which every fast swimmer must have perfected to increase his speed. Numerous illustrations make the most difficult problems seem easy.

The book is so written that it is a virtual dictionary of aquatics, and many advance orders by swimming clubs throughout America, including Harvard and Yale Universities, are a proof of its value to increasing our current knowledge of the science of swimming.—M. M.

Women's Undergrad Plan Bridge Party Today For Charity

Tickets for the W.U.S. bridge are on sale in the Quad box office. The bridge is to be held at the Commodore on Saturday, November 12 from 2:30 to 6. Tickets for bridge and tea are 50c apiece. Those who do not wish to play may obtain tea-tickets for 30c.

Patronnesses for the affair will be: Miss Bollert, Mrs. Klinck, Mrs. Brock, Mrs. Clement and Mrs. Buchanan.

All co-eds are requested to come and bring their mothers. Women who have no connection with the University are also very welcome.

Prizes have been donated by Henry Birks, O. B. Allan, Georgia Pharmacy, Christie Barbara and Borlands Ice Cream. The winners from each table will draw for these prizes. Either auction or contract may be played.

The proceeds of the bridge will probably go to some city charity, chosen by the W. U. S.

There is a competition to sell the most tickets between the class secretaries. Each competitor is making a good showing. The winner will be presented with her prize at the general meeting of the W. U. S. on Monday.

More tickets are being sold down town than at Varsity. Get busy Varsity girls, make up a table now and buy your tickets. Tickets will be on sale at the door if you cannot get them before.

Economics Head Talks To Engineers

Professor Angus addressed the Professional Engineers Club, in the Georgian dining room of the Hudson Bay Company, on Wednesday at noon. The talk was the third in a series of five, based on the Kidd Report, and was entitled "Provincial Finance." Other speakers in the series have been Mr. Kidd, and Mr. Machray.

New Formal In Crystal Ball Room

Tickets to be on Sale Monday Noon

Tickets for the University Ball, new formal for the Fall term, will be on sale in the Auditorium Box Office from 11 a.m. to 2 p.m., Monday to Wednesday. The function will be held in the Crystal Ball Room, Hotel Vancouver, Friday evening from 9 to 1.

Arrangements for the affair are in the hands of Vic Rogers, president of the M. U. S. and Dorothy Thompson, president of the W. U. S., who have engaged Harold King's popular orchestra to provide the necessary syncopation.

Tickets are priced at two dollars, and will be open to all students of all faculties. Only two hundred and fifty ducats will be run off the press, so students are advised to visit the box office early.

Refreshments will be served during the course of the evening, althrough finances do not allow a sit-down supper.

Patrons and patronesses for the event are as follows: Chancellor and Mrs. R. E. McKechnie, President and Mrs. Klinck, Dean and Mrs. Daniel Buchanan, Dean and Mrs. Paul Clement, Acting-Dean and Mrs. J. M. Turnbull, Dean M. L. Bollert, Mrs. R. W. Brock, and Dr. G. G. Sedgewick.

Dean's Lecture Is Malvern Festival Of English Drama

Discussing the recent Malvern Dramatic Festival in England, Dean Bollert at the weekly S. C. M. lecture, Tuesday, described each play in the "four hundred years of English drama" annually presented there.

Sir Barry Jackson directed the productions, which opened with Heywood's "Play of the Weather," (1533) one of the earliest farces, followed by "Ralph Roister Doister," one of the earliest comedies.

He next presented "The Alchemist" by Jonson, a realistic comedy of English life, Southerne's "Tragedy of Oroonco," an heroic tragedy, and Fielding's "Tom Thumb," a burlesque on the "Oroonoco" type. These plays represented the periods of 1612, 1695 and 1730.

Preceeding the modern play was

Stamp Enthusiasts May See Collection Says S.W. Mathews

The attention of postage stamp collectors, students of Canadian History, and others, is drawn to the endeavor that is being made by the University to gather together a collection of the postage stamps of Canada and the early British North American Colonies. A number of interested stamp enthusiasts have made valuable additions, recently, to the original nucleus which was assembled about four years ago and already quite a good collection has been made.

The work is being carried on, under the direction of the President, by a special committee appointed for the purpose, and this Committee is commissioned not only to add, regularly, the stamps that may from time to time be issued in Canada,

COUNCIL TO SWITCH W. U. BUILDING BONDS: TOTEM PLAN RATIFIED

Editor's Plan For Cheaper Annual Wins Approval—Caution Money Waivers Acceptable

"A gain of nearly $500 will be realized by the proposed sale and transfer of Council bonds," announced Mark Collins, treasurer of the Students' Council, at the Alma Mater meeting on Wednesday afternoon. $4,500 of Canada 4½%, market 99½, due 1959, and $2,000 of Canada 5% at 101.65, due 1945, will be sold. $4,500 of Saskatchewan 4½%, at 90, due 1945, $2,000 of Manitoba 5½%, at 97, due 1944, and $500 of B. C. 6%, at 103.50, due 1947, will be bought. These bonds are now below par value and a gain will be realized when they are due, the income will also be increased by $30. Though Dominion bonds are theoretically more secure than provincial in practice the Dominion pays if the Provinces default.

Totem Costs

"$1500 is the net loss allowed for the Totem on the Council budget this year," stated Bill Whimster, president of the Council, "and this amount can not be exceeded."

St. John Madeley outlined a plan to reduce expenditures on the Annual.

In 1932, 1000 copies of the Totem were printed while only 426 were sold.

Last year's actual expenditure on the Totem was:

Photography and engraving	$1,075
Covers	500
Printing	1,800

This year it is hoped to be able to cut it down to:

Photography and engraving	$ 800
Covers	200
Printing	1,300

Allowing for 350 sales at $1.50 apiece and $350 worth of advertisements, the net loss on the Totem would only be $1,475.

1933 Plans

The graduating section will now contain 45 pages, there will be ten write ups to each page instead of seven. The frontispiece, faculty, etc., will take up 10 pages, Class write-ups 9 pages, Student Council and Publications Board 5 pages. The L. S. E. will have three write-ups per page except the Players Club and the Musical Society which will be given a page each.

If a better price on engraving can be obtained it may be possible to include small pictures of the club presidents.

In the Athletic Section the first teams of the major sports will have half a page and a half page picture each. Other sports will take up 8 pages. There will be 9 pages of advertising and 3 pages of scrap. If more advertising is obtained an extra page of scrap will be allowed for every two extra pages of advertising.

Further reduction of expenditure will be possible by using smaller type, decreasing margins and having a thinner cover.

The date of publication can not be later than March 1st. This necessitates that all pictures be in by January 15, giving the engravers one month to make the plates. All printing matter must be in by January 30.

Caution Money Again

Two more weeks will be allowed to deposit caution money waivers of $1. These waivers will be redeemed when the Totem is bought. Only the necessary numbers of copies will be printed and it will be impossible for anyone who does not make a deposit to buy a Totem.

The Council is anxious to publish a Totem but has no intention of suffering a loss and has the power to suspend the publication if the required amount of deposits have not been received by November 24.

Davidson Examines Spectrum

Light and Color Fans Of R.A.S.C. See Peculiarities

Almost in the nature of a "day off" was the meeting of the Royal Astronomical Society, Vancouver centre, in Science 200, Tuesday, when Dr. Davidson of the department of physics, assuming the role of showman, aided by two lanterns and a line of unbroken talk to match any "patter," discoursed in what he claimed to be an unrecordable fashion upon Light and Color. At the last meeting the Society grappled with Einstein and Relativity, and now in relaxation the group of scientists—some eighty were present—almost allowed the sensuous beauty of the spectrum to move them to other than intellectual applause.

Dr. Davidson cleared the field for action by plunging the hall into darkness. "Please make your startled or excited ejaculations now," he said tersely, "for we will spend most of our time in darkness."

One of the chief attractions for the audience was a special glass used in spot-lights whereby a heroine can become rosier and rosier with heroism or a villain greener and greener with villainy. The secret is performed by cutting out undesirable bands in the spectrum, such as (in the former case) yellow and green, lights casting a shadow of doubt upon the chastity of the carmine cheek. Dr. Davidson claimed in the light of the latter case: "There is nothing but yellow in my make-up."

He started with a number of demonstrations showing intensities of light, reflected light and color, and finally spectri projected on a screen. The position of the recondite infra red and ultra violet rays were determined and their mysteries unravelled.

Preceeding the address Mr. Teasdel gave a brief summary of the sky sights for the month.

DR. WEIR TO DISCUSS SOCIAL ECONOMIES

Is economic exploitation of the sick doomed? To what extent, if any, should health services in Canada be socialized? Is Canada ready for so-called "State Medicine?" If so, how should it be financed? A discussion of the above, "Vital Social Economics," will take place next Saturday evening by Dr. G. M. Weir before the Vancouver Institute, to which the public are invited. Information used in the discussion of the above and similar problems has been obtained from direct sources during the course of a recent survey of health conditions in Canada.

Another item to be considered is the present status of teachers' salaries in B. C. and of so-called "free" education in leading civilized communities. Ananysis of one good feature, implied rather than directly stated in the educational section of the Kidd Report will also be attempted.

NOTICE

There will be a general meeting of the W. U. S. on Monday in Arts 100, noon.

Georgia Hotel Scene Of Science Banquet

Sciencemen deserted classes, drafting rooms, and laboratories, for the feed bag when they held their seventh annual Science Banquet in the Aztec Room, Hotel Georgia, Thursday evening.

Festivities began at 7:00 and continued till after 9:00. An orchestra was in attendance during the meal, and was ousted later in the evening by the Science Quartet, who rendered several negro and other songs.

Guests of the evening were A. E. Foreman, A.C.R. Yuill, of the E.I.C. and A. Gentles, of the Association of Professional Engineers.

FRIDAY, NOVEMBER 11, 1932

FOR THOSE WHO WEREN'T THERE

Despite the fact that the Alma Mater Meeting of Wednesday, theoretically approved the plan for the Totem on the basis of a net loss of $1475, the publication of the annual is not definitely assured yet.

It is necessary to have an assured income, and that is the reason why the caution money waivers were made acceptable. There is little doubt in the minds of the embryonic Totem staff that three hundred and fifty sales will be made next year, yet nevertheless it is imperative that something more definite than an intelligent guess be the basis of a budget.

In case there should be any doubt about the use of the waivers, we will explain once again, how they are to be used. Every student who intends to buy a Totem next spring, must either pay a deposit of one dollar by November, 25 or sign the caution money waiver provided at the Accountant's office. The waivers are in lieu of a cash deposit. They must be redeemed by cash however, either at the time of purchase of the annual, or some time previous.

On behalf of the Totem staff, the Ubyssey wishes to ask all executives, and particularly the members of the graduating classes for their heartiest co-operation in the matter of pictures and write-ups. Plans and times for picture sittings will be announced as soon as contracts are awarded.

LOOK OUT BELOW

Students at this university are becoming more and more forced to rely upon their own resources. We are beginning to realize what it is to have to live up to our motto, Tuem Est. The faculty, in its present restricted position, is no longer able to serve up pre-digested spoon-fed education to suit every individual. Hard work and personal effort by the student must accompany every lecture.

A truly sincere effort is being made by the faculty, not only to keep this university at the high level it has attained through years of past effort, but also to prepare the ground for even higher accomplishments in the future. Genuine hard work and co-operation on the part of the students can only make this possible.

Perhaps freshies and sophs need not be reminded of the proximity of examinations. However, the average student is too much inclined to think that "sufficient unto the day is the evil thereof." Sincere warning has been made by the faculty this year that exams are going to be devastating. The university wants no slackers in 1933. In the next few years, results must be shown to the people of British Columbia if our grant is to be increased or even maintained at its present level. The drones will have to go.

Letters To The Editor

Editor, Ubyssey,

Dear Sir:

I have been delegated to write this letter to the University on behalf of the graduates and former students of the University of British Columbia who are now living in the vicinity of San Francisco.

Last Saturday night, November 5, we gathered together at the States Hof Brau in San Francisco for a reunion dinner and dance. Notices were sent to as many of the former students of the U. B. C. as were known, and we were very pleased to have forty persons at our reunion. We had several guests, three of whom are graduates of the University of Saskatchewan, one of the University of Dalhousie, one of the University of Southern California and several from the University of California. Dr. Asmundsen of the Agriculture Department of the University of British Columbia was present. We were very sorry that Dr. T. Boggs, now of Stanford, could not be present.

Mr. Harold Offord very ably carried off the duty of toast master. The toasts were as follows:

To the King, Harold Offord.

To the University, Ted Morrison, response, Joseph Denham.

To the Alumni, Alan Buchanan, response, Mary Carter.

After the dinner the evening was spent in songs and yells and dancing. Many old University songs were revived in our memories. It was fortunate that we had a private dining-room because the rafters certainly rang when we started on such songs as "My Girl's A Hullabaloo" and "Mr. Noah."

Since we were unable to attend Homecoming at the University this was our substitute and it was a grand one. It has now become a yearly affair.

We all join in sending our best wishes for the success of the University, and we are behind it in all its endeavors.

As was said in one of the toasts, "The University has lost quite a number of feathers from its hat, we don't want it to lost its hat," at which remark someone piped up, "nor it's shirt." That is putting it bluntly, but we mean every word of it.

Yours sincerely,

The San Francisco Alumni Members of the University of British Columbia.

Editor, Ubyssey,

Dear Sir,

The members of the Pep Club wish to take this opportunity of publicly thanking the Pierce Twins, Jack Duffy and Ted Williams, for their splendid co-operation in the Pep Meeting held last Thursday.

Yours, etc.,
Pep Club.

NOTICE

Students are requested by the circulation manager not to take more than one copy of the "Ubyssey" on publication day, as other students are thus sometimes deprived of their copy.

Class and Club

OUTDOORS CLUB

Celebrating the close of a season of activity unequalled since the erection of the "new cabin" four years ago, the Varsity Outdoors Club held its semi-annual party at the home of Mr. Mills Winram on Monday, November 7.

A lantern-slide display conducted by Mr. Alex Dalgleish, a member of the Alpine Club, featured the earlier part of the evening's entertainment, when pictures taken by Mr. Dalgleish on various mountaineering expeditions, were shown and explained. A number of photographs belonging to members of the V.O.C. were also thrown on the screen, followed by refreshments, games, and dancing.

Impelled by the driving force of the President, Jim Donaldson and the secretary, Pete Fowler, crews of old and new members have succeeded in realizing the club's long-standing ambition for a fire-place. A scientifically constructed ski-shed, with separate compartments for each pair of skis, has also been erected.

One week-end was allowed to prospective members during which to make the long hike required before being eligible for membership in the club. Led by the vice-president, Miss Fiona Sutherland, the women made an ascent of Goat Peak, while the men went farther afield, scaling Crown Mountain and the Camel.

A dozen of the male members of the V.O.C., wishing to try their mountaineering skill in more difficult country, are planning a trip for Armistice week-end to the Lucky Four group of peaks near Chilliwack.

How about that Totem deposit?

V. C. U.

The Annual Conference of the Varsity Christian Union of U.B.C. with the University Christian Union of the U. of Washington will be held at Lake Whatcom, Bellingham, Saturday and Sunday. "The Firs," a lovely spot near Lake Whatcom is an ideal camp for a retreat, and has been the scene of a number of successful conferences in the past.

The programme for the retreat will include informal hikes and games, Bible Studies, devotional hours, a fireside service, and an open forum. Speakers and leaders will be David Martin of Union College, Robert H. Birch, president of the Inter School Christian Fellowship of B. C., and James R. Wilson, president of the V.C.U.

How about that Totem deposit?

PHILOSOPHY CLUB

The Philosophy Club will meet at the home of Prof. Henderson, 4243 West Twelfth Avenue, Tuesday, November 15 at 8 o'clock. Miss Gertrude Day will give a paper on "The Freedom of the Will."

How about that Totem deposit?

PHYSICS CLUB

Two papers were presented at an open meeting of the Physics Club in Science 200 Wednesday afternoon. The first was given by Ron Smith and dealt with the little known Cosmic Ray. The second was a treatise on the physics of transportation, dealing with the automobile engine, the locomotive, and the aeroplane, given by Doug. Fair.

How about that Totem deposit?

COMMERCE CLUB

A meeting of the Commerce Club will be held in Arts 106 at noon on Monday, November 14. A constitution for the proposed club will be considered. All men of the Commerce classes of '33 and '34 are requested to attend.

How about that Totem deposit?

HISTORCAL SOCIETY

The Historical Society will hold its regular meeting Monday evening, November 14, at the home of Dean M. L. Bollert, 1185 West Tenth Avenue. A paper on Nationalism in Germany will be read by Ottowell Elliot. All members are urged to attend.

Dean Bollert Talkes To S.C.M. On Drama

(Continued from Page One)

Boucicault's "London Assurance", 1841, of the sentimental type burlesqued by "Alice-Sit-by-the-Fire", given here last Christmas. Dean Bollert described this as "a play without ideas but with a clever mention of incidents."

The final production was from the pen of "the patron saint of the festival," Bernard Shaw. "Too True to be Good," received at Malvern its English premiere, although it had previously been shown in Boston and Poland. The play will be presented in Vancouver this season. "Too True to be Good," Dean Bollert stated, departs from all the rules which have governed modern writers, yet the spirit of the time—unrest, uncertainty and a realization of failure are well depicted by the dramatist.

Equipment Issued To Battalion Of Militia

Vancouver's unemployed Militiamen, members of city regiments, received their equipment from the government military stores at Victoria yesterday. Construction of the camp, which is situated on the University townsite lands at the corner of Seventh Avenue and Blanca Street, is going forward rapidly, and it is expected that it will be completed in about a week's time.

Erection of the tents, which are equipped with wooden floors, and the installation of electric wiring has been begun by a work-party of about fifty men.

As the camp will be maintained for several months at least it has been decided to erect a recreation room of timber instead of the marquee, or large field tent, which is customarily used in the temporary camps.

Col. Townsley in Command

When completed there will be three hundred men under canvas who will be under the command of Lieut.-Col. W. A. Townsley, assisted by a permanent adjutant and volunteer orderly officers provided from the various Vancouver regiments, one day at a time, by a system of rotation.

The non-commissioned officers among the encamped men are to attend to the administrative duties according to their rank.

The community is to be governed by military regulations and the regulation fatigue clothes will be worn at work and around the camp itself. On leave for town the men will wear their own civilian clothing.

Policy of Comfort

The materials necessary for the field kitchens, etc., are to be drawn from the military stores as needed.

The policy upon which this and similar camps are being based is to see that the camps are as comfortable and homelike as possible, in order that the men may be kept as contented as possible under the circumstances and in good health and spirits.

Gifts of magazines or books will be greatly appreciated both by the men and the officers in charge.

Lesee of Farm Sells Products On Varsity Hill

Dairy Products And Green Vegetables Easily Sold

The Varsity farm is making progress in spite of the depression. Mr. John Young, who has since the first of April been running the department of Dairy Cattle and Tillable Land, states that he has had a very successful summer. He has found a market in the University Area for all his dairy products, potatoes, etc., as well as filling his contract to grow sufficient feed, etc., for a herd of dairy cattle, approximating forty head. The majority of these cattle, says Mr. Young, are pure bred Ayrshires selected in Scotland by Professor King. The rest of the herd is pure bred Jersey.

Part of the dairy farm is under the management of Ingledew and Tate, who are manufacturing Kingston Cheese. Mr. Young reports that the rainy summer has proved very beneficial to his crops, although the soil of the farm is not very rich in this section. Four men are employed constantly on this section of the farm. Mr. Young is well satisfied with the results of his venture to the present time.

Mr. Frank Garnish, who has been with the Horticultural Department of the University since 1917, is now running a commercial nursery on the same location. He reports that no research work is being done this year, except that the B. C. Electric has installed a hotbed as an experiment. The students have the use of the nursery as usual. "From the student's standpoint," says Mr. Garnish, "I should say there was no great difference, but it means more work for the professors." Cutting, grafting, etc., are here learned by experimenting by the students.

Mr. Garnish, too, is fairly well satisfied with his undertaking, although he says he would rather work with the Varsity, than independently, as at present.

Mr. Garnish mentioned the poor quality of the soil, but said that wonderful results could be obtained if it was well fertilized.

Professor Buck has taken over the bulb collection for the University, and is directing the work of the University in Tulip culture.

Philatelists May See U. Collection

(Continued from Page One)

but also to endeavor to secure, through gifts or otherwise any stamps of Canada that will add to the completeness of the collection.

All contributions of old Canadian postage stamps are welcomed; and those who have stamps that might add to its completeness or who know the owners of old stamps who might be pleased to help build up the University collection are urged to co-operate with the committee in making the collection, especially of early issues, as complete as possible. Those especially who have access to old letters or documents that would otherwise be destroyed are requested to assist the University in saving and gathering together these records of the past. Contributions will not be accepted, however, if they destroy the completeness of collections from which they are taken.

Students and others who are interested may have access to the collection through the registrar.

Additions to the collection will be made in December when the following denominations of a new issue of postage stamps are placed on sale: 1c, 2c, 3c, 4c, 5c, and 8c bearing the portrait of His Majestry King George V. 10c double sized Pictorial stamp.

What People Are Saying

Prof. Angus: With seven sons and five daughters, George III had provided as well for the succession to the throne as was humanly possible.

• • •

Dr. Clarke: You have to be very "un-flu-y" to understand this.

I will leave out the naughty parts as I read this.

The French knocked the "L" out of Aristotle.

• • •

Dr. Evans: They were admitted to the theatre at 3:30 European time.

• • •

Jack Stanton—The twins are not so hot up close. They have freckles on their backs.

• • •

Sid Cowan (pointedly): I don't want that cake, thanks. I was only looking at it.

• • •

Ted Benne: You can't get in W. P. A. S. unless you're a Who's Who.

• • •

Exchange Views

BY NANCY MILES

Straws show which way the wind blows, but straw votes in American colleges, at least, apparently have little significance. In the nation wide straw vote election in the universities in the United States, under the direction of a leading eastern university, Hoover was a three to two victor over Roosevelt, and Thomas, the Socialistic candidate trailed far behind.

Returning officers in many colleges reported a peculiar fact. The vote was oral, and many students, on being requested to choose a candidate said: "I vote for Thomas. Will my name be recorded? Then change my vote for Hoover." The sands of the shores of Italy heave, as Shelley restlessly turns over in his grave.

Student Risks Life and Limb; Science Causes 'Ghastly Din'

Word has reached the Muck Page of a section of the University known as the Sciencemen. On hearing of the horrible conditions in which they live, we decided at once to organize a Sciencemen's Uplift Movement.

This has now been done, and one of the bravest of modern missionaries has been sent over to their domain. This courageous person—by name Rev. J. H. Stanton—is a mere youth, and it speaks well for his indominitable nature that he has consented to undertake this hazardous venture.

He will leave Vancouver on a specially chartered boat on November 14th. It is rumoured that these Sciencemen are living in comparative isolation, and may be reached only at certain intervals of the year. Cap'n Damitall, well known to members of the Muck staff, declares that he himself has visited this tribe.

"Landing in the face of severe opposition," he says, "which I overcame only with the utmost difficulty and a broken beer-bottle, I wandered over their territory for several days, observing their manners. At first glance one would assign to them alliance with the Latin races, but careful study revealed that the vast majority are of Celtic or Nordic origin. They make an awful noise," he concluded.

When the good ship "Hope, Faith, and Charity" leaves Vancouver Monday morning, it will carry with it a cargo of provisions for the Rev. Stanton, several cork-screws (just in case they meet Chang Suey, and pursue him down a drain), some tracts for distribution to the natives, song sheets—on the principle that "music hath power to charm the savage breast" or somep'n. Several can-openers will also be taken, for no good reason at all.

It is expected that the weather will be suitable for the growth of plants peculiar to that climate, and the Rev. Stanton has a case of wheat, corn, rye, etc., which he intends to plant.

"I am not neglecting my flower garden," he states, "I shall take various roses, bulbs, turnips, and chrynath—chrysnither—crythna—er, sweet peas."

It is expected that the journey will take from two to four days. No reliable maps can be obtained, but a taxi-driver downtown says that it is situated about $3.27 away.

If communication permits, letters will be received from time to time from the exile, acquainting us with his adventures.

This issue we present to you a new character. Cap'n Damitall is the hero of many an incredible adventure. We present herewith the first of these. It may be possible to secure further tales.

Cap'n Damitall is an old sea-dog who has been wrecked in every corner of the globe. He is getting on in years now, and no longer roams the world's wildest paths. He sits at home, smoking in his library. There one can sometimes lead him to tell his adventures.

Glancing up at the walls of his room, he will see some trophy brought back from Heaven knows where—probably a second-hand store—and spin you a tale as wild as any of the Arabian Knights.

Just a word of warning. Don't take anything he says too literally. He is quite fond of a drop too much.

Under editorial confidence, a student on this campus is giving us his views of it under the title, Kampus Bolshevik. Having been refused space by the Senior Editor, he came to me. But the man is in all seriousness—so don't read it as Muck!

Contrary to popular opinion, the Muck staff had two entries in the Arts '20. Here they are. They both won the race in a dead heat; dead beat. They were so far ahead of the rest that they passed the winning line sometime last October.

Kampus Bolshevik

About these Christmas exams. Does it never occur to you that our present day system is utterly unfair? Why should one student pass and the rest fail? It is entirely against the Communistic principle of "What's good enough for you is good enough for me."

If one student passes, then obviously the course is such that at least one man can understand it. Therefore, merely because the mass has not got enough brains to pass, why should they be flunked? It is comparable to the question of the uneven division of wealth. All wealth should be divided up evenly, and in theory so should brains. But this is obviously impossible, as it would rather injure a man for further thinking if his brains were removed and given to someone else.

Thus each class should select the brainest man and allow him to write their exams. for them. The class should, of course, attend lectures.

Neither do I think it right that the work of any class as a whole should be divided up so unevenly. I mean to say, the Professor lectures, and the class takes down notes. Now it should be arranged so that the Professor lectures one week and a member of the class the next week should give his views on the subject. The Professor, of course, should be compelled to take the Student-Lecturer's notes for that period. He would undoubtedly learn something new about the subject, whatever it was. The Professor would then understand the difficulties of taking his course, the amount of work it entails, and so forth. Too many Professors do not realise this.

On the other hand, the students, if they all lectured in turn, would realise the difficulty of preparing the lecture, the amount of work it entails in getting over the ideas of a bunch of dumb gazabos that aren't interested in it, and so forth. Too many students do not realise this

1st Scienceman: Say, bo, wheah did yo' accumulate dat black eye?
2nd Drunk: Dat ain't no black eye, dat's a birthmark.
1st Adonis: Birthmark?
2nd Venus: Yeah, I clumb into the wrong berth.

SAD STORY OF A MAN WHICH DRANK

Recently I had twelve bottles of home-distilled whiskey in my cellar and my wife made me empty the contents of each and every bottle down the sink. I proceeded to do as my wife desired and withdrew the cork from the first bottle, poured the contents down the sink with the exception of one glass which I drank.

I then withdrew the cork from the second bottle and did likewise with the exception of one glass which I drank. I extracted the cork from the third bottle, emptied the good old booze down the bottle, except the glass which I devoured. I pulled the cork from the fourth sink and poured down the glass when I drank some. I pulled the sink out of the next cork and poured the bottle down my neck. I pulled the next bottle out of my throat, and poured the cork down the glass, all but one sink which I drank.

I pulled the next cork from my throat and poured the sink down the bottle and drank the cork.

Well I had them all emptied and I steadied the house with one hand and counted the bottles which were twenty-four, so I counted them again when they came around, and I had seventy-four, and as the house came round I counted them and finally I had all the houses and bottles counted and I proceeded to wash the bottles, so I turned the houses inside out and washed and wiped them all, and went upstairs and told my other half all about what I did and Oh Boy! I've got the wifest little nice in the world.

The 42nd Return of Chang Suey

When we made our way into the Pub a frightful scene met our eyes. Typewriter ribbons were strewn all around the room, hanging in great festoons from the electric lights, and looped over the radiators in bunches. On the floor were great masses of extinguished cigarette butts. "Chang Suey has been in here," said Duncan Eetit, turning pale with horror.

Racing into the Pub we fled to the typewriters. "The scoundrel!" gulped Eetit, "He's trying to wreck the Ubyssey. He's taken all the x's." As we stood gazing at each other in consternation a fiendish laugh came to our ears. "How did he get out of the drain??" cried Eetit turning to me in bewilderment. "I'd rather be shot than gassed," came the mocking voice of Chang Suey, and as we turned we saw him disappearing through the door.

We dived through the door after him, and reached the quad just in time to see him disappear into the bus station. When we reached there he was well on his way to the Science Building and going strong. "We'll get him yet!" shouted Eetit as we dashed in pursuit. We dashed into the building and dashed out again. We dashed hither and yon. "Dash it all," cried Duncan. The man in the moon looked down at us with a grin. "Lend me a match, I've gone out. The wife's gone out. The kids've got the limousine."

"Next train for England leaves yesterday!" I shouted. "Give us four tickets," shouted Duncan. "Why four?" I shouted back at him. "Well, we gotta come back, don't we?" was the snappy come-back.

"Time for a new paragraph!" shouted Duncan. "Whizzz!" and a swingjing slid past our ear. "Bang!" and a bullet slid past the other ear. "Zip!" and the wingjing returned over our hair, parting it neatly in the middle. "( )", meaning to say, no noise.

We stood and meditated. Suddenly the room rang with the zoom of a boomerang. On its third trip around the room Duncan grabbed it and was carried into the ventilating shaft. I was carried along in his wake, and when I woke up there was the evil face of Chang Suey. I swung madly at it. But he eluded me. In another instant he had crossed to the window. Then with a rattling noise he disappeared. With a gasp I realized he had rolled himself up in the window blind.

"He's hung!" cried Duncan. "Well hung," I returned laconically, and we moved forward to effect the capture.

Prof.: When two bodies come together, is heat generated?
T. H.: Not always. I hit a guy yesterday and he knocked me cold.

How about that Totem deposit?

You're Telling Me!

"It was winter, and me and a couple other fellers was stranded. We had nothing to eat, but worse still we had nothing to drink—we were in the middle of the Sahara, where water costs more than whiskey in the States.

For fourteen days we had been trudging along the burning sands. Not a drop to drink had we had all that time. The only means we had of getting wet was to take a bath every Saturday night in each other's perspiration.

Then one morning I woke at dawn—and to my horror saw a horde of Afridis creeping up on us! Hesitating not a moment, I leaped out of bed, summoned my comrades, and immediately set about strengthening our position. We dug a trench, and built a wall of granite around it. When the wall was about five feet high, we discovered we really had no granite, and were merely building castles in the air.

I was so mad that I jumped down the trench. The jolt gave me an idea. Feverishly we dug the hole deeper—and deeper! Four hundred, two thousand yards we went. By now the sand had caved in on us and we were walled in. Entombed in the Sahara! But did that faze me? Nossuh. We just kept right on digging. And bimeby we came out in Australia. But it was just another desert to us.

For days we trudged along. Then it clouded over. "Rain!" I horsed gasply. But it didn't. What a blow! What a man! What a life! What the h . . . ?

In another week or two we came to a cliff. I glanced over. There, two thousand feet below, was a river meandering through rich fields of wheat, roses, tsuppinachee, callots, tsellery, eplicots, califo'nya glapefruit two for a quarter . . . pardon me, I appear to wander.

By this time I hadn't had a meal for two months. I decided to dive from the cliff into the river. I said good-bye to my pals, who—the cowards—would not accompany me. Then I dived.

Can you imagine my horror when, five hundred feet down, the clouds parted, the sun came out, and before I had reached the thousand foot mark, dried up the river? I had visions of smashing myself against the river-bed for two hundred feet.

But then the sun was again obscured. It started to rain. I had only three hundred feet to go—two hundred—what am I offered for this—one hundred! Thank you.

I closed my eyes in horror. But a sudden roaring filled my ears. The river was in full flood once more! Thankfully I dived gracefully into the fifty feet of calm water, and was safe!

MORE SPORT

Preachers Lose To Teachers

Education and Science '35 were victors in the only inter-class soccer games played this week. The teachers proved themselves superior to the Anglican Theologs, and won by a score of two to nothing. The issue was doubtful during the first half, but the would-be-pedagogues showed the way during most of the second half and broke through for Roper to score two goals.

The Science game played on Tuesday was more even, and produced much hard football although the brand was of a somewhat doubtful quality. Science '35 beat the Science '36 goalie in the first half to take a 1-0 lead into the second stanza. However, the Second Year men decided to take a hand in the second half, and tied the score. With but five minutes left to play, the '36 goalie, in avoiding a puddle, also avoided the ball, and it rolled into the net for the winning counter.

Games for next week are as follows:

Monday, November 14, Arts '35 vs. Education.

Tuesday, November 15, Arts '33 vs. Arts '36.

Wednesday, November 16, Science '33 vs. Science '36.

Puckmen Meet Cubs In Friendly Contest

Next Monday night Varsity's Intermediate Ice Hockey team will play the Westminster Cubs Juniors in a friendly game. This match was arranged through Art Schuman, and the Cubs state that they will down the students by two goals. Art and our boys think differently however, and are confident that the conditions will be reversed.

The contest promises to be a closely-fought one, with the odds in favor of the Blue and Gold team. There is nothing official about the contest, it has nothing to do with League fixtures at all, which are going to get under way about the middle of this month. It will mean valuable practice for the Varsity pucksters, who are just rounding into form and beginning to work together as a whole.

The Hockey Club was sorry to hear that King McGregor would be unable to play for U.B.C. this year. King is going east to Calgary for the winter but promises to be back next year.

There was a brief meeting of the club on Wednesday when a few business matters were taken up. League practice hours at the Arena and Forum have not yet been divulged, but will be in the hands of the various teams in the Leagues by next Monday at the latest, it is expected.

Divines Dabble In Football Contests

(Continued from Page Four)

shortly before the interval when Thompson beat Addison in the Anglican goal.

The second half produced keen play on both sides, with the Anglican forwards and halves combining to tie the score through Thain. Play was even for the rest of the game, with Valentine scoring the final goal of the game to give the English Church Theologs the victory. The contest was a return meeting of a game played last March in which the Union College were winners.

The teams: Anglican College: Addison; Silva-White, Disney; Humphrey, Faulks, Thain; Cockburn, Harris, Loat, Ellis, Valentine.

Union College: Selder; Golightly, Stobie (J.); Gorrie, Stobie (R.), Boothroyd; Hetherington, Horsman, Latimer, Thompson, Pringle.

Sid Swift Captures First Place In Annual Arts '30 Road Classic

Good Weather Conditions Draw Large Audience — Mystery Runner Takes Fourth Place — Sinclair Threatens Throughout Race

Running with an effortless style, resembling that of the great Paavo Nurmi, Sidney Swift of Arts '34, on Wednesday won the Arts '30 road race from a large field, under perfect weather conditions. Content with third place during the first three laps, behind George Allen and George Sinclair, Sid early took the lead in the last lap, and won by thirty yards, after closing with a powerful sprint.

A mild November sun and clear frosty air drew a large entry list, and an enthusiastic audience. Before the race started, many small wagers were made between rival supporters, and the outcome of these bets kept interest at fever pitch throughout the race.

Mystery Man Fourth

The "mystery man" revealed himself as R. McArthur of Science '36, and ran a strong race to take fourth place. His finishing burst, which brought cheers from the crowd, came just too late to nip George Allen, but he finished a scant foot behind his Science rival.

George Sinclair, last year's winner, ran a heady race to capture second place behind Swift. Never worse than second or third he was a threat from start to finish.

George Allen led for three-quarters of the way, and looked unbeatable for a while, but faded at the finish. Alfie Allen disappointed his many supporters, and was the cause of plenty of potatoes changing hands, doing no better than 5th place.

Divinity Men Give Creditable Performance

The Theologs were strong, all their men placing in the first ten. Loat was best with sixth, closely followed by Dobson, while Humphrey took tenth place with a fine sprint. Hamersley, of Science '36, competing in his first road race, ran a nice eighth, and Edwards of Science '34 finished in ninth place.

Final results give Science '36 2 points towards the Governors' Cup (McArthur, A. Allen and Hemersley), and Science '34, 1 marker (Sinclair and Edwards).

Doctor Shrum officiated as Chief Judge, assisted by Bob Gaul and O. Forsythe, while Max Stewart handled the starter's gun. Professors Boving, Knapp and Lighthall acted as timers.

First Lap

The boys started evenly, and were bunched for about two hundred yards, the two Allens sticking together, and Swift in the rear. Half-way around Dobson took the lead with George Allen at his heels. At the end of the first lap the placing stood Dobson and G. Allen leading, then A. Aller, Sinclair, Swift, McArthur and Hammersley in that order.

Second Lap

George Allen lengthened his stride somewhat in this circuit, moving into the lead ahead of Dobson. Swift and Sinclair ran amiably side by side in third place, moving up behind G. Allen just as they passed the Cairn for the second time. McArthur and A. Allen displaced Dobson.

Third Lap

George Allen in front with Swift and Sinclair still tied for second place, waiting for their chance. McArthur looked best in this lap. Hammersley and Dobson dropped back a bit, and Loat moved up. An expected spurt by Alfie Allen failed to materialize.

Final Lap

A quarter of a mile from home, Sid Swift moved up rapidly to pass George Allen for the first time and looked like a winner from that time on. Then came Sinclair, and for a while it seemed that McArthur too would beat out George Allen, but the latter had just enough left to stave off McArthur's challenge.

Following gives the finishing order for ten places:

1	Swift	Arts '34
2	Sinclair	Sc. '34
3	G. Allen	Sc. '33
4	McArthur	Sc. '36
5	A. Allen	Sc. '36
6	Loat	Ang. Theo.
7	Dobson	Union Theo.
8	Hammersley	Sc. '36
9	Edwards	Sc. '34
10	Humphrey	Ang. Theo.

BADMINTON CLUB

Members of the Club are requested to note two things.

1. Fees for the fall term must be paid immediately to Hope Palmer or Ken Atkinson.

2. A ladder has been started. Those players whose names do not appear there should get in touch with any member of the executive as soon as possible. A person may challenge the person above or the person two rungs up on the ladder and if he or she wins they move above the other person and may then go through the procedure again. If a person challenges and is beaten he may not challenge the victor for one week.

Sr. Ruggers To Oppose Ex-Magee

When Varsity meet the Ex-Magee's in the second English Rugby game of the new series, at Brockton Point, 3:15, tomorrow, Yeo's fifteen will be minus their star captain, Art Mercer, who is out with a bad knee.

The loss of Art Mercer, this year's captain and star of three seasons of McKechnie Cup battles, will prove quite a blow to the team.

Despite this handicap, Buck Yeo is optimistic and the boys with a week of pretty tough practicing behind them should prove real competition to the Magee Club.

Fans can expect a good fast contest between the two clubs, as Ex-Magee are leading the Miller Cup Series while Varsity on the other hand is leading the Tisdall Cup League.

Brent Brown To Pilot Team

Brent Brown who was out last week with a touch of flu is back in there again, and will act as captain in place of Art Mercer while either Milt Owen or Strat. Leggat will play Mercer's position. It, however, has not been decided which one of these men will take the place.

The forward line will suffer the loss of Vic Rogers, who on account of heavy studies will be out until after Christmas.

Dery Tye will fill his regular position as half with able assistance from Ken Mercer at five eights. The wing berths will be covered by Dalton and Cleveland while Brand is placed at fullback.

The forward line consists of Gross, Robbins, Senkler, Brent Brown, Morris, Ruttan, Pearson and Doug. Brown, which is the same as last week's line-up with the exception of Rogers.

Here is the Varsity line-up: forwards—Gross, Robbins, Senkler, B. Brown, B. Morris, Ruttan, Pearson, D. Brown. Five-eights—K. Mercer, and Young. Wings — Dalton and Cleveland. Fullback—Brand. Centre —Owen or Leggat.

"B" BASKETBALLERS LOSE TO MERALOMAS-NEED MORE PLAYERS

More new men are needed for Varsity's Intermediate B Basketball team. If you are under eighteen, or did not have your eighteenth birthday before October of this year, you are eligible to turn out. All players eligible under these regulations are urged to turn out, no matter what your previous experience has been.

Last Monday night the Intermediate B's were soundly trounced by a fast stepping Meraloma quintette by a score of 64-25 at the King Edward gym.

This is due to the fact that our bunch lacks the necessary experience, and has so few men. On the night of the game Varsity had only six men in strip, while the opponents had the full ten which they are allowed under the regulations. Come on out you hoopsters! Blue and Gold needs you! Look on the timetable posted in the gymnasium for the practice hours allotted to the B's and be on hand.

Freshettes Beat Arts 35 In Hoop War

The Arts '36 lassies went about things in the right way last Wednesday afternoon to run up a 32-6 score against the maidens of Arts '35 in a Women's Interclass Basketball war in the gymnasium.

The freshettes got under way right from the first, and held the lead throughout the whole fray. By half time the Sophettes had only two (2) points, scored by Enenia Parks; while their younger sisters led by Kay Bourne and Addie Thecke had sent the ball rolling for 16.

In the second half Arts '35 scored twice as many points as in their first attempt, but as their first attempt was only two (2) points, this 100 per cent increase didn't count for much.

Arts '36 proved the old proverb that what can be done once can be done yet a second time (or something like that) and scored 16 more points to end the game 32-6.

It has been rumored that after watching the excellent broken-field running of Marnie McKee when she had the ball, managers of English and Canadian Rugby teams are trying to sign her on.

She and Margaret Cunningham were the pick of Arts '35. Kay Bourne and Molly Locke just about ran the show for the freshettes, scoring 14 and 10 points respectively. Bob Osborne tooted the whistle.

Education Wins Over Arts '34

Last Tuesday afternoon the Education team eked out a 16-10 win over their Arts '34 rivals. Mary Fallis and Murial Clarke played best for the school teachers, while Betty Creighton and Ferdina Anderson showed well for Arts '34.

Next Wednesday the Seniors and Education will hook up in what promises to be an epic struggle. The time is 4 p.m. and the place the Varsity gymnasium.

The week following Arts '34 and Arts '36 play together in another major attraction.

Senior B Hoopers Invade Courtenay To Show Prowess

Varsity's Senior B basketball squad, under the capable care of that old maestro, Randy Tervo, are travelling to the Island today to engage the Courtenay "Pepe" in an exhibition encounter.

The Courtenay lads have been playing together for three or four years now, and are rated as one of the smartest teams on the island. Apparently they grow 'em big and tough over there and when Tervo's travellers step on the floor, they will be up against tough opposition.

However, the Blue and Gold outfit have been under strict training the past while, and are expected to be in prime condition for tonight's battle. Those who are making the trip are Wood, Sutton, Pringle, Stokvis, Lucas, Webster, McLeod and Coach Tervo.

Wood and Sutton, two of the best players, will be playing in their home town and are expected to sway some of the rooters to support Varsity.

Pringle, who will be jumping centre, is an ardent devotee of the game, and is expected to start lots of plays. Stokvis is a Westminster lad and has held down a berth on the Highway Fur outfit. Lucas is captain of the team, and Webster and McLeod are both players of experience.

Plenty of good basketball will be dished up in this game before the final score is settled.

Golfers Headed For Collegiate Tourney

Bill Castleton, the genial president of the Golf Club, brought good news to those who have ambitions of making the golf team. He announced that in all probability the annual match with the University of Washington will be held in the near future. This was certainly good news as up to date it was thought impossible to hold this match.

Those who have been victorious in their first encounter are as follows:

J. Sturdy defeated D. Fraser; H. Horsman defeated P. Sharp; G. Strong defeated K. Wright; K. Bremmer defeated M. Share; W. Castleton defeated A. Wood; G. Johnston defeated G. Prevost; K. Hentig defeated P. Parry; J. Berry defeated A. McIntosh; L. Teetzel defeated D. Shaw; S. Shurbett defeated J. Carr; T. Wilkinson defeated B. Sharon; A. Hall defeated H. Landois.

Varsity Beats High School Grid Squad

U.B.C. Interscholastic gridders added another scalp to their count by trouncing the Prince of Wales aggregation 8-3 in their fourth Canadian Rugby game of this series at Heather Park Wednesday.

The first period opened with a series of bucks and end runs by the Yellow and Black, which resulted in a kick to the deadline for 1 point for P. W. To offset this attack Symonds of Varsity kicked a field goal for 3 points, the count being left at 3-1 for the Blue and Gold.

The second quarter resulted in a kick to the deadline by Moffat, both teams holding their own.

Canto the third saw another kick to the deadline by Ross for P. W., and with Varsity retaliating with a kick to the deadline by Symonds, leaving the count 3-2.

The fourth period saw an undisputed march down the field by the University. The vigor and the freshness of the Yellow and Black succumbed to the spirit and strength of the Collegians, which resulted in a field goal by Symonds. The score being left at 8-2 for the U.B.C.

The enthusiastic followers of the Collegeans were thrilled many times by the marvellous work of Symonds, Holden and Moffat, Symonds' fine kicking was the means by which the winning points for the U.B.C. were scored.

Lineup: Moffat, Hauser, Crysdale, Lipson, Snelling, Clapperton, Akhurst, Martin, Bower, Senkler, McInnes, Ashby, Lynott and Lydiatt.

Second Division Ruggers Oppose Marpole Fifteen

After a lay-off of two weeks the Varsity Second Division Ruggers take the field at 3.00 p.m. Saturday, Nov. 12, at Douglas Park East against the league-leading Marpole aggregation.

Since Marpole needs this game to retain its lead and Varsity to keep in the running, it is sure to be a very hard-fought game. Marpole has been turning out regularly and expects to field its best possible line-up; while the University boys have worked in several new men including Jack Steele and Paul Clement. With the help of these first-rate players and the return of Max Stewart and the captain, Roy Stobie, Varsity's chances of mounting this important step towards the trophy appear good.

In this game Pyle will again play the wing forward and much of the result depends on him.

Team: J. Grubbe, J. Steele, D. Pugh, M. Stewart, G. Sanderson, B. White, R. Stobie, McDonald, Pyle, R. Wood, P. Clement, G. Weld, G. Stead, D. Davidson, J. Sumner. Spares: Arkwright, Wilson and Carey.

The Third Division team is also playing a very hard game at Douglas Park West when it meets the second Marpole team at 2:00 p.m. Saturday.

Team: H. Hammersley, Sladen, P. Colthurst, Dayton, L. Shelling, Craig, C. McQuarrie, Walsh, D. Black, P. Ellis, A. Johnson, H. Nemetz, McTavish, Goumeniouk, R. J. Wilson. Spares: Moody, Armstrong and Crichman.

Second String Gridders Battle Ex-Magee Today

The Varsity pig-skin carriers will meet the Ex-Magee gridders in their fifth Senior City Canadian Rugby game of the series, at 2.30, Douglas Park, Saturday.

This game should be one of the deciding factors of the final standing in the league. As it now stands, U.B.C. have lost one game, tied another and won two. If University should win, it will give them a chance to be in the cup play-offs. The Ex-Magee have a very heavy line, and show evidence of a tricky backfield. However, the U.B.C. make up in spirit what they lack in weight, and with enough of Doc Burke's sage football strategy, Varsity should have no difficulty in taking the league.

Those cheering for the Blue and Gold should watch with care, the playing of Symonds, Snelling and Holden, as these men are likely to show some of the fine points of the game.

Lineup: Holden, Crysdale, Snelling, Bower, Clapperton, Thompson, Lipson, Akhurst, McInnes, Lynotte and Martin. Beaumont, Ashby, Odlum.

Varsity Hoopmen In Decisive Victory Over V. A. C. Squad Wed.

Bardsley and Osborne Lead Attack — First Half Close — Varsity Battles Sparling's At V.A.C. Saturday in Important Game

After playing mediocre ball for 20 minutes against the V. A. C. squad at New Westminster Wednesday night, Varsity's scrappy Senior "A" squad, led by Jimmy Bardsley and Bob Osborne, went on a scoring rampage that gave them 20 points and the game, by 38-17.

From the first whistle Varsity showed their superiority over the Clubmen, but couldn't drop their shots. Laurie Nicholson got through for two baskets and with about ten minutes gone Varsity led 7-2. Jimmy Bardsley, who was decidedly "on" all night, counted 7 points for the students in this half, but after twenty minutes of play the students were out in front by a scant two baskets, 18-14.

Varsity In Good Form

In the second half the Point Grey crew literally toyed with the opposition, running up 20 points as against 3 for Coleman Hall's cohorts. Greater condition did the trick for Varsity. Time and again, on "center plays" Laurie Nicholson would take the ball, whip it to Bardsley or Osborne who would break through to score. Early in the second half Coach Allen sent in his second string line, and the rookies had the Vac's tongues out with their fast pace. Rann Matthison scored twice, "Horses" Douglas got one basket, and Dick Wright, playing his first Senior "A" game for Varsity, converted a foul shot. Jimmy Bardsley came back on to score 6 points on three loop shots. As a whole, the team showed great improvement in their shooting.

Play Sparlings To-night

Every man on the team scored at least one point, and with a five-threat shooting team, Allen is confident that his boys will stop the league-leading Sparlings team when they play at V. A. C. gym. Saturday night. Varsity is at present in second place in the league standings.

The team: Bardsley (13), Osborne (10), Nicholson (4), Campbell (2), Ken Wright (2), Dick Wright (1), Matthison (4), Douglas (2).

Varsity In Important Contest

The Varsity Senior Soccer team faces the strongest team in the league, North Shore United, in a V. and D. League game at Cambie Street at 2.30 Saturday afternoon.

A win over the North Shore outfit will place Varsity in an enviable position in the league, besides greatly increasing the prestige of the team, and the boys are taking this game seriously. This was evidenced by the best turn-out of the year at practice Wednesday.

The Varsity crew will still be without the services of the cherubic left half, Ernie Costain, whose injury, received two weeks ago against Cowan-Dodson, will keep him out of the game until the following Saturday. However, his place will again be taken by Cy. Manning, whose experience and skill will be a great advantage.

The rest of the team is in good shape, and will probably line up as in former games. Frattinger will be in charge of the goal again, and will have Millar McGill and Max Legg in front of him at full-back. The half-line will have Capt. Kozoolin at centre and Russell Stewart and Cy Manning in the wing positions.

The forwards, who seem to combine best on the Cambie Street grounds, will have Hughie Smith and Bud Cooke on the right and left wings respectively. Laurie Todd will play inside to Smith, while brother Dave will work with Cooke on the left. Otie Munday, who has not failed to score at Cambie this year, will be in the centre-forward berth.

As North Shore reached the finals of the Dominion Championship series this spring, football fans are promised a fine exhibition of the round ball pastime.

The team: Frattinger; McGill, Legg; Stewart, Kozoolin, Manning; Smith, L. Todd, Munday, D. Todd and Cooke.

Shuttle Stars Defeat Militia

The University "B" Badminton team again showed its mettle when it tied the score 8-8 in its league fixture against the first B. C. Regiment on Monday, November 7, at the Varsity gymnasium.

The team of I. Ramage and Ken Atkinson starred for Varsity for the third successive night by taking both their mixed doubles matches handily. This team has played together for three consecutive nights and has garnered a total of 6 points by winning all its mixed matches. In the Men's doubles Varsity did not show any score but the Ladies' doubles brought 3 points out of a possible 4.

Teams: I. Ramage, H. Palmer, M. Lock, K. Atkinson, O. Lacey, P. McT. Cowan, and R. Moore.

Theologs Engage In Football Rivalry

In an Interdenominational Football game played Tuesday afternoon, the Anglican College emerged victors over the Non-Conformists by a score of 3-2.

The Union College team had the better of the play in the first few minutes, and assumed the lead through a goal by Latimer. However, Ellis equalized for the English Churchmen a few minutes later. The Unionists regained their advantage
