AWARD MADE IN COMPETITION FOR CHURCH

NORTH VANCOUVER—The trustees of St. Andrew's Presbyterian church have awarded the first place in the competition for plans to Andrew Dewar, 84 Lonsdale ave., and that architect is now estimating the costs. Plans drawn by Alexander & Brown of Vancouver held second place. Whether the bldg. will be of solid brick, or frame with brick veneer has not been decided, but will be within the week. Mr. Dewar is now preparing working plans and specifications, and will call for tenders for the general contract in about three weeks. The plans as accepted show a Gothic design with tower and spire, and open timbered roof. The same architect will design the plans for a manse for the same church.

VICTORIA CHURCH WILL BE FINE STRUCTURE

VICTORIA.—Plans have been practically completed and tenders will be called for the general contract in about three weeks, for St. John's Anglican Church at the N.E. corner of Quadra and Mason sts. The bldg. will be either of brick and stone, or rock faced, coursed sandstone, with copper covered wood spire, 180 ft. high, Welsh slate roof, and with a seating capacity of 700, and with school rooms in the basement capable of seating 400. Indirect system of steam heating will be used, a complete vacuum cleaning system will be installed and the interior of the church will be finished with light grey silica brick and oak trimmings and furniture. Stained glass, echo organ, peal of bells, etc., are among the specif.

LABOR TEMPLE TO BE BUILT IN WESTMINSTER

NEW WESTMINSTER.—Labor men have almost completed arrangements whereby they will commence the construction of a large labor temple to cost in the neighborhood of $10,000. A joint stock company is being formed under the name of the Labor Temple Company, Ltd., with a capitalization of $10,000. About $6,000 worth of stock will be issued, and at least $3,000 of this has been subscribed. The local unions will also take up the stock.

WILL BUILD BIG CULVERT BY DAY LABOR

KAMLOOPS.—All bids received for the construction of a large concrete culvert at this point were found to be satisfactory, and the government will proceed with the work by day labor.

WILL CONSIDER BRIDGES.

A meeting of the civic bridges committee has been called for next Monday afternoon, for the consideration of the proposed by-law for a bridge to connect Georgia and Harris sts, and consideration will be given to two designs which have been submitted by the consulting engineers, Messrs. Waddell & Harrington. One plan is for a 56-foot bridge, which will cost $415,000, and the other is for 66 ft. the full width of the streets, which will cost $485,000.

Another question will be the subway, which is to connect the No. Vancouver ferry with Columbia ave. and Alexander st. Sketches are to be submitted by representatives of the ferry co. The estimated cost is from $25,000 to $30,000. The passage will be seven feet high and wide enough for several people to walk abreast.

TENDER FOR HEATING

NEW WESTMINSTER.—The tender of the Canadian-Buffalo Forge Co., to supply the heating plants of the new 8th ave. and Sapperton schools at $5,788 each, vacuum cleaning plants at $976 each, and oil burning plants for $1,275 has been received and is held awaiting further investigation by the school board.

The general contract includes wharves, mill, planer, dry kilns, decks, all machinery, in fact everything with the exception of one boiler. A small mill is located on the company property, which will furnish all necessary lumber. The plans and specif. may be had at the company's office. When completed, this will be one of the finest and most modern mills in the Province. E. F. Mitchell of Seattle designed the mill.
