Your Ad. in This Paper

Will Find the Right People

BECAUSE THE RIGHT PEOPLE ARE LOOKING FOR YOUR AD.

If you COULD (although, OF COURSE, you can't) stop every man you meet on the streets asd ask: "Do you want to buy a pair of shoes?" (Or any other kind of goods) You might find half a dozen who would say "Yes." Perhaps not one of these, however, would want to buy the article you want to sell.

If your advertisement, however, were to be printed in these columns this week, it would "stop" EVERY MAN IN TOWN WHO WANTS TO BUY SHOES, OR CLOTHES, OR ANY OTHER ARTICLE—and it wouldn't "stop" **anyone who didn't want to buy-** That's the beauty of the advertising way of finding a buyer. The ad. finds the buyer through the simple process of being easily and readily found BY the buyer - And if, among the prospective buyers of goods, there is one to whom your goods would be a bargain, and your ad. is a convincing one, you'll sell what you want to sell.

J. A. BATES, - - Editor and Proprietor

FRIDAY. FEBRUARY 18 1916

Mr. Arthur Nasner of Steelhead has just returned from Nevada where he went to visit his father. Coming through the State of Washington he says he noticed 'how dry' it was.

$2.50 buys 1000 printed Envelopes; $1.75 pays for 500 Envelopes. These prices are good for balance of this month.

What Has Happened to Our Dollar?

The average individual is perplexed because the Canadian dollar does not buy as much as it did years ago, nor does it buy now as much as it did one year ago. In 1899 the goods then purchasable by one dollar, today will cost $1.49. A year ago they cost $1.35. A record of prices kept officially enables The Financial Post to determine with accuracy the purchasing power of the dollar.

In July, 1914, the purchasing power had been reduced by 25.7 per cent, and in October 1915, by 23.73 per cent., as compared with the prices in 1889, so that at the dates mentioned the equivalent value of one dollar in goods was 74 cents and 67 cents respectively.

For the same reason that the baker now gives less daily bread for a dollar, the investor wants more for lending a dollar. This is shown by the fact that the Dominion and provincial governments and other borrowers have had to pay more for loans in the last few years than they had around 1909.

On the basis of the present purchasing power of the Canadian dollar, an investor who bought a 30-year bond in 1899, making a similar purchase today would expect something like the following increase in the rate of interest:

4 per cent in 1889 should expect 5.95 per cent now.

5 per cent in 1899 should expect 7.44 per cent now.

6 per cent in 1899 should expect 8.93 per cent now

The following table illustrates some fluctuations in the investment value of the Canadian dollar between 1905, 1910, 1914,and October 1915, on the basis of the average wholesale price of commodities, as ascertained by the department of labor:

4 per cent in 1905 equivalent to 5.20 per cent now.

5 per cent in 1905 equivalent to 6.50 per cent now.

6 per cent in 1905 equivalent to 7.80 per cent now.

6 per cent in 1905 equivalent to 7.80 per cent now.

4 per cent in 1910 equivalent to 4.78 per cent now.

5 per cent in 1910 equivalent to 5.98 per cent now.

6 per cent in 1910 equivalent to 7.17 per cent now.

4 per cent in 1914 equivalent to 4.42 per cent now.

5 per cent in 1914 equivalent to 5.53 per cent now.

6 per cent. in 1914 equivalent to 6.63 per cent now.

This is another illustration that gold is not wealth in itself but simply a commodity like wheat or coal and derives its value chiefly because it is a good means of exchange of their commodities, fairly easy to handle, and hard to get, except by some such exchange. Capital is symbolized by gold, and demands its wages equally with labor—an increase in time of stress, a decrease when times are slack.—The Financial Post.

"London will gain a great orator and British Columbia will lose one by the advent of 'Dewdney Dick,' as Sir Richard McBride is called by his friends in British Columbia. He is coming to represent the province of which he has been Premier for twelve years. He might have been Prime Minister of the Dominion, but he has always had an eye on Imperial politics, so perhaps the Mother of Parliaments will see him one day."—Mirror.

Macdonald, the Liberal candidate of Vancouver may be elected to represent Vancouver in the provincial house—defeating Tisdall in the bye-election. It is possible if the two run. But it is said that Joe. Martin and L. D. Taylor want to again test the public feeling in the bye-election—got so used to running that they cannot resist the temptatin when oportunity affords itself. But should Macdonald be elected, he will have a great time boosting for his leader, Mr. Brewster; or will he do as Brewster did usurp the leadership for himself? He would be foolish if he did not. Is that not how Brewster got it? He would be a real live linguist, and if talking was of any avail he sure would talk the whole Liberal party into thinking he was the right man in the right place.

Again comes up the subject of the Canadian enlisting. A Toronto man says he is ashamed to be a Canadian as they are not coming to the front to fight for their country as quickly as the English in Canada are. It is different in British Colubia, with a population of about equal British and Canadian born, the recruiting looms up about equal for both.

Things are never right in Toronto anyhow. They are always quibbling or boasting.

Germans imagine they will induce neutrals to believe that all trade should continue in spite of the existence of a state of war. The immediate effect of any such international arrangement as this would be to paralyze forever the power of the Maratime nations. Seapwer is exerted to embarass the enemy's trade and to compel economic difficulties which in time will shatter the morale of a people. If Great Britain were mad enough to give up in the Council Chamber what three generations of British sailors have fought to gain and keep the end of the Empire would be in sight. German opinions on "Freedom of the Seas" are no more dependable than German opinions on the origin of the war, or the Prussian ancestry of Shakespeare.—Ex.

It is time now for the fruit grower to be planning for the next summer disposal of his fruit. What about thorough organization for the year? Will it be shipping in car load lots or the individual marketing of the fruit at the mercy of the middleman?

Meet in the Matsqui Hotel Parlours on Friday Evening Last—Enjoyable Evening.

A pleasant event took place at the Matsqui Hotel on Friday evening last when some forty residents of the district met in the parlours of the hotel at the invitation of Mr. G. A. Watson, local P. G. M., of the Ancient Order of Old Sports to spend the evening in song, music, smoking, etc. Mr. W. J. Manson occupied the chair, supported by Messrs G. A. Watson J. A. Catherwood and Rev. Mr. Weatherdon.

Among those who contributed songs were Messrs E. Osborne, A. B. Stewart, Archie Wilson, 'Dud' Bryant and Paul Bray the versatile artist who was very much in evidence in song and overture; Violin Solos were given by Messrs J. McCamey and J. Fennell; Mr. Joe Granger played the piano and also sang some of his well known and much appreciated songs.

Those who were not able to take part in song or music were asked to contribute to the evening's entertainment by telling a story or to dance. They heartily responded and their contributions resulted in many a hearty laugh.

Affair closed at 11:30 p. m. with a hearty vote of thanks to the chairman and Mr. G. A. Watson for his indefatigable exertions in bringing the smoker to a successful issue.

A collection was taken up for the Canadian Patriotic Fund amounting to $18.40 which was passed over to the secretary of the Mission branch.

As last year they did not receive enough strawberries or black currants, they are getting to work early and have already had promises of far more than they took of these fruits last season. They advise growers to call and make arrangements as soon as possible.
