PRESENCE OF OIL IN DISTRICT PREVENTS SUCCESSFUL RADIO MESSAGES

During the past decade there have been several excitements in Abbotsford and district. Two of these have been due to oil excitement, and one or two to the report that there was coal in Sumas mountain. Now there is just a possibility that both may exist according to report at the Post office.

The members of the Abbotsford Garage have been active in having a radio station established in town and have spent considerable time in getting it into successful operation. That they have so far failed is not due to any fault on their part, but to conditions locally.

Last week many people in Abbotsford listened to the entertainment provided when Mr. Harrison of Messrs. Cope & Son, of Vancouver, who was here for the purpose of establishing a radio station in Abbotsford.

The result of the test which Mr. Harrison gave here was not as satisfactory as he would have liked it to have been. This started a long list of questions as to the why and the wherefore, and this paper has been reliably informed by one who has spent considerable time testing in the radio to get a satisfactory station in the Fraser Valley. He said that the presence of mineral or oil in the Abbosford district would have to be overcome before a successful radio station could be established here. Of course all would like to see a radio station at Abbotsford, but if either coal or oil is found in the district it would mean much more to the town.

Now the question is where is this oil or mineral?

RASPBERRIES COME ON SLOWLY

HUNTINGDON, July 18.—The berry ranches are at the height of their population with gay pickers from Bellingham, New Westminster, Vancouver and Victoria and many intermediate points.

There are not so many girls as last year, as the crop is below the average and as the berries are ripening slowly, the growers are not so anxious about pickers as they were a week ago. It looked then as if the crop could not be handled while in good condition by the pickers in sight, but many have returned home since then, unwilling to wait on the reluctant fruit. If the vines should get the much-needed rain in a few days, the berries will benefit greatly. At present some of the owners fear that the later fruit will not have moisture enough to mature.

Mrs. J. W. Cain, of Champion, Alta., is visiting her sister, Mrs. J. W. Gray, for a short time.

On Saturday evening of this week the local Masons will entertain the brother Masons of Sedro-Woolley, Wash.

INSTALLS A FAST DOUGH MIXER

This week Mr. Albert Lee, our local baker, who is always looking for something to improve his business, has installed a Peerless Motor, the only one in the Fraser Valley, for mixing the dough for his bread. This does away with the old scheme of mixing the bread by hand, and is very much quicker, also very much better. One thousand loaves an hour is the output of this wonderful machine. As it requires a lot of dough to install this dough-mixer Mr. Lee expects that his business will be such as to bring in the dough faster than ever. He says he had to do it on account of the local demand for his bread, as people are realizing every day that money sent out of town for bread does not make the dough plentiful in Abbotsford.

Alderman and Mrs. R. P. Pettipiece and Harry Taylor have returned from camping at White Rock.

Our popular blind hero, James, Downie, sang at the arena on Friday evening.

VERY SUCCESSFUL GARDEN PARTY THURSDAY EVENING

One of the most successful garden parties in the history of Abbotsford took place on Thursday evening on the spacious grounds of St. Matthews Church. The ladies and gentlemen responsible for the decoration of the grounds had worked hard, and the flags and bunting, Japanese lanterns and electric lights and tastily arranged tea tables and booths made a very pretty scene on the lawn. There were numerous attractions for young and old from the "Aunt Sally," which the boys specially enjoyed, to the clock golf, beloved of the Scotchmen. The guessing contest was well patronized and prizes were won by Miss Alder, Mrs. Saunders and Mrs. Webster. The ladies looking after the refreshments were indefatigable in their efforts to satisfy the inner man; while the home made candy found ready buyers.

A feature of the evening was the dancing of Mlle. Barbes of the Barbes School of Ballet, Vancouver. Mention must be made too, of the mysterious tent at one corner of the grounds where "Madame Wanda" was kept busy telling fortunes until everyone present had heard something of her mystic lore. The Abbotsford band and the Abbotsford local orchestra added materially to the pleasure of all present by their music, both in the early part of the evening and later for the dancing on the green.

The Parish Hall fund to which the entire proceeds go, will benefit considerably by the amount taken. Those in charge of the various departments were: Tea Tables, Mrs. F. S. Thorn; Ice Cream, Mrs. A. S. Conway; Home Candy, Mrs. Wm. Taylor; Guessing Contests, Mesdames Marshall and H. F. Thorn; Golf Clock, Mr. F. S. Thorn; "Aunt Sally," Mr. H. F. Thorn; Decorations, Mrs. T. F. Saunders; Mr. A. S. Conway.

SING SING IS NOT SO BAD SAYS THOMAS MEIGHAN

Sing Sing prison is not such a bad place after all, according to Thomas Meighan, Paramount star, who comes to the Abbotsford Theatre next Satday, July 29th, in his latest starring vehicle, "The City of Silent Men." Mr. Meighan and his company spent more than two weeks at the famous penitentiary, taking scenes for the new picture, and in many of these the warden and the guards and even some of the prisoners, appear.

"Prison conditions are now differernt from what they used to be," said Mr. Meighan. "The men are treated more like human beings. They all seem cheerful, they are not compelled to have their heads shaved, or to wear stripes, and they can furnish and decorate their cells to suit their own fancies. They have their periods of recreations, and their games, such as baseball, handball, etc.; have their own motion picture theatre, publish their own prison newspaper, and have many other means of diversion."

In his new production, Mr. Meighan plays the role of a country youth who is sent to serve a term in Sing Sing, and to secure the utmost realism, the scenes were taken in the exact locale of the story. The direction was by Tom Forman and the supporting cast includes Lois Wilson, Kate Bruce, Paul Everton, George MacQuarrie and Guy Oliver.

TIME TO GET BUSY BEFORE TOO LATE

The government is taking gravel and earth out of the St. Nicholas gravel pitt to fill in the ferry slip at the Matsqui-Mission ferry. It is quite a hall, but that is not the only serious phase of the matter. Several large trucks are doing the haul and the road does not appear to stand it. The result will be that in the course of the next week or ten days the Huntingdon-Riverside road between the St. Nicholas pit and the ferry will be full of holes. Are the Abbotsford people going to stand for this? There is considerable business coming to this town from Matsqui prairie owing to the good roads, but if the road becomes impassable this trade will be likely to be cut off for a time.

PERSONALS

Mrs. E N. N. Woods and Mrs. G. Woods of New Westminster are the guests of Mr. and Mrs. J. Brydges.

Mrs. H. J. Fraser visited her daughter, Mrs. J. Steffins of Chilliwack, this week.

Mr. James was a visitor to Vancouver on Friday.

Miss Florence Roberts is spending a holiday camping at Bowen Island.

Mr. and Mrs. H. L. Chittenden of Bradner are rejoicing over the birth of a baby girl which took place in the M.-S.-A. Hospital last week.

Mrs. J. Steffins of Chilliwack visited Abbotsford over the week-end.

Mrs. F. Olding spent Friday in Vancouver.

Master Maurice Brydges is visiting the McMenemy family at their White Rock cottage.

Mr. Wm. Mitchell was a recent visitor in coast cities.

Mr. and Mrs. Wm. Ferris visited friends in Abbotsford this week, coming up by motor from their home in the Delta.

Mr. Frank Rucker was the recent guest of his grandmother, Mrs. Bigger of South Westminster.

Miss Simpson of Calgary, Alta., is the guest of Mrs. Huggins.

Mr. Alan Hill-Tout had the misfortune of having all the out buildings on his farm, including chicken house, barn, garage and pig pen, destroyed by bush fire last Saturday. The house was not damaged.

Mr. and Mrs. J. C. Blair of Vancouver visited Mr. and Mrs. A. Taylor on Sunday.

Mr. and Mrs. George Hart are visiting Mrs. Hart's home in Ashcroft.

Rev. and Mrs. J. C. Alder are spending a few days in Vancouver.

Mrs. Croquet and two sons of Vancouver visited Mr. and Mrs. A. R. Gosling on Sunday.

Mrs. J. Caldwell, Sr. is the guest of her daughter, Mrs. Lithgee in Vancouver.

The Right Rev. Bishop De Pencier of Vancouver was the guest of Rev. A. H. and Mrs. Priest last Friday.

Mr. A. D. Campbell of Sardis and Mr. and Mrs. Issaic Campbell and Miss Campbell of Seattle were week-end guests of Mr. and Mrs. J. W. Wright.

Madame Belates-Barbes and Mlle. Belates-Barbes from Vancouver are the guests of their uncle, Rev. J. C. Alder.

The Rev. W. A. Wilson, D. D., of Vancouver visited the Sikh Temple here on Monday and was also a guest at the Manse.

Miss Florence McPhee of the nursing staff of Mt. Vernon Hospital, spent Thursday at her home in Abbotsford.

The Messrs. Weir have moved into the residence of Dr. Swift on Hazel Street.

Cecil and Leland Hooper of Vancouver were recent visitors at the home of Mrs. J. J. McPhee.

Mr. Weir, Snr. was a recent visitor in Vancouver.

Miss Ina Fraser has returned from a holiday spent in Kamloops.

The anniversary dance held in the Harrop Hall on Friday evening was a great success and much enjoyed by the large crowd in attendance. Exceptionally fine music was rendered for the dance by Heun's four piece orchestra.

Accompanied by Rev. A. Harding Priest, the following officers of the Abbotsford Trail Rangers journeyed to Bradner on Tuesday evening, and initiated the officers of St. Margaret's Church Trail Rangers, Revel Salt, Robert Baker, David Gosling and Archie Conway. Games were played in which the Abbotsford boys won, due in part to the training given them by Rev. A. H. Priest.

Under the auspices of Abbotsford Review, No. 20, W.B.A. of the Maccabees, a whist drive and dance will be held in the Masonic Hall on Friday evening, July 28th, at 8 p. m. An evening's enjoyment is promised all who attend.

Services will be held in St. Mathew's Anglican Church at Abbotsford every Sunday night at 7:30. Rev. A. Harding Priest, vicar.

FRIDAY, JULY 21, 1922

Would it not be a good idea for our town to provide a tourist camping ground where the tourist could avail himself of the luxuries that a first-class small camping ground could be equipped with? It would put the town on the map for the tourist trade for all time to come. When the pavement is completed to Sumas town in Washington there is sure to be a number come to B. C. by that route owing to the fact that Blaine is now quite overcrowded on holdiays and very often on other days. Tourists do not like delays, especially when coming to B. C. and for that reason will probably take the new route, as a few hours in B. C., enjoying the sunny climate of our fair province is all they want.

Many of these tourists leave home with the idea of camping out and will ordinarily go some distance out of their way to a real good camping ground. Let us get busy.

Money brought into this province by the tourists is as good as that from any other source, and as useful. We get accretions of wealth from the precious metals, but they have to be mined; from the forest, but it has to be logged; from the sea, but the fish have to be caught and canned. Tourist money is brought to us; delivered at our very doors without our having had to undergo any of the before-mentioned laborious preparatins. This is the time of year when tourists are coming to us by the hundreds, bringing treasure in both hands. A trip any Sunday along one of our marine drives proves this; one will see a score of automobiles with a Los Angtles or other southern label in one afternoon.

The example par excellence of a country that has scientifically developed the tourist business is afforded by Switzerland, where, before the war, it was a national asset bringing in annually to that country an amount equal to many millions of dollars. The war of course knocked everything endways, and though Switzerland received a greater number than usual of royal guests of one sort or another, the tourist business proper fell off. It is recovering now, and the essential qualifications of caterers to tourists being possessed by the Swiss in a pre-eminent degree it will ultimately resume its former sway. It was the knowledge of what Switzerland has done and is able still to do in this direction that made Mr. Carl P. Huebscher say, when he visited us last year, that we were not living up to our possibilities. As th Swiss consul-general, he told us that we possessed the Switzerland of America, and that by proper management, including the making of roads and the establishment of suitable hotels we should soon find out the benefit of our enterprise and get ample returns from it.

In this matter the extraordinary development of the automobile is a principal factor. Whether for good or ill, gasoline is a force to be reckoned with. The first requirement of the possessor of an automobile is to have somewhere to go. He therefore becomes an enthusiast in the cause of good roads. Good roads are his favorite desideratum, and the haunting desire of the automobilist is to find roads that lead somewhere. He likes variety, and there are times when he is prepared for a long stretch; not a few miles but a few hundreds of miles

A policy of road-building therefore is the first step to attract tourists to this counry of lavish scenic beauty. There should be a road up the Squamish Valley, and a trunk road to Lillooet. Our interior is not opened up as it should be, and its beauties of mountain and sea, river and valley are comparatively inaccessible. The success and popularity of the Island Highway afford an instance of what can be done in this direction.

Some years ago California woke up to the necessities of the case and floated a $20,000,000 loan for internal road building. The wisdom of that course has never been questioned In 1917 the act providing for a statewide system of durable hard roads in Illinois was passed by the Legislature of that state and at the November election in 1918 it was approved by the electors of the state by a majority of 212,405 votes. The act provided for a bond issue of $60,000,000, the work to be under the supervision of the state department of public works and buildings. As a result Illinois is being covered with a network of fine roads, to the great relief of the agricultural population and the delight of tourists. These are cases in point. But neither Illinois nor California have such attractions to present to users of roads as our own province has.—Province.

A GRATIFYING CHANGE

There has in times past been so much bitterness in Canada's party politics, and such a pronounced tendency for the leaders of one political party to refuse to see anything good in the policies and actions of the opposing party, that it is not only gratifying, but decidedly encouraging to note the change for the better which has taken place in recent years and which is becoming more pronounced.

A pleasing manifestation of this was given a few days ago when, addressing one of our Western Canadian Clubs, Hon. H. H. Stevens, who was a minister in the Meighen Government, frankly stated that he believed the King Government was honestly desirous of helping the farmers of Canada in their present difficulties and was earnestly seeking a way whereby practical assistance could be rendered the agricultural industry.

Newspaper despatches reporting the proceedings of the Parliamentary Committee investigating the problem of wheat marketing indicate that the members, in giving consideration to this large and vitally important subject, are not trying to make a party capital for themselves, and to place their political opponents in a false light, but are sincerely striving to evolve a policy and device ways and means which will be practical and provide for the removal of present disabilities imposed on agriculture, and give to the producer of grain a reasonable guarantee that he will receive the largest possible financial returns from his labor.

Both from the purely Western and the larger national standpoint the attitude now being displayed towards agriculture is most encouraging, and holds promise that the same patriotic and business-like views will prevail when Parliament is called upon to deal with the other great national questions, in the wise solution of which is bound up the welfare and prosperity of the people of this Dominion.

And why should this bigger, better, national viewpoint not prevail in our national Parliament? Considered in the mass, the Canadian people while interested as all people living under a democratic form of government must be interested in the organization and policies of political parties, are not rapidly partizan and more concerned in the fortunes of a political party than in the good government of the country and the wise administration of Canada's affairs.

There was a time when it seemed to be the accepted view that when one party announced its policy on a given question, whether that party be in office or in opposition, there was only one thing for the other party to do, and that was to oppose the policy announced regardless of its merits. Fortunately for Canada that time now seems to have largely passed, and today political leaders are becoming more and more willing to acknowledge the good features of their opponent's policy and to show a readiness to co-operate in still further strengthening such policy and carrying it into successful operation.

In these difficult and trying times through which the whole world is passing it is not partizan, super-critical government that Canada requires, but patriotic, constructive co-operation by all members at Ottawa, regardless of the party with which they are aligned with the one common object of giving the Dominion wise, sane, business-like administration. Let there be suggestion, and criticism and even opposition when it is called for in the public interest, but the main guiding motive of Liberals, Conservatives, Progressives and Labor needs to be the advancement of Canada's highest welfare and thes ound development of national policies with a view to the happiness of the Canadian people and the enhancement of the prosperity of the country at large.

We repeat, therefore, that present signs are both gratifying and encouraging, and especially so to the men and women engaged in the banner Canadian industry, agriculture, which in the past has been the chief sufferer among Canadian industries from the old-style bitter partizanship which opposed merely because the ideas and policies emanated from political opponents.

RAISING CAMPAIGN FUNDS

The prorogation was protracted, and it can hardly be said that said session passed out painlessly. The hour for the obsequies was fixed at nine p. m. But the stiff-necked and hidebound Senate failed to see eye to eye with the Government on a couple of bills. It amended the amendment to the Canada Temperance Act in a way that retains to citizens of British Columbia and Quebec the right to import their own liquids, and at the same time retards certain Grit Premiers in their life work of raising campaign funds. It also made more intricate funds. It also made more intricate certain legal requirements in regard to the cancellation of leases of Dominion lands. It was necessary under the management to settle the differences. The Senate won out on both counts.—Toronto Telegram.

Mt. Lehman

Miss F. Wade left on July 10 for her home in Qu'Appelle, Sask. At the close of the holiday season Miss Wade will teach at Revelstoke, B. C., having accepted a position on the public school staff.

Mrs. MacLachlan of Anyox is visiting her mother, Mrs. T. H. Lehman. Master Stuart MacLachlan accompanied his mother.

Mrs. R. Owen and Mrs. L. Coghlan were week-end visitors in Chilliwack being the guests of Mr. and Mrs. L. Brice.

Mr. Jas. McEachern is home from Tynehead and is making ready to build a barn.

Haying is general now. While the crop is not quite an average one, yet some farmers report a yield per acre as heavy as last year's.

Raspberry picking has begun. The continued dry weather is having a serious effect on this fruit.

Royal Anne and Bing cherries are now being marketed. They are in excellent condition, there having been no rain to cause the fruit to crack.

Mr. H. Fowles is opening his new store at Gifford on July 18.

Mr. R. Owen is having a well appointed house built in semi-bungalow style. Olund Bros. are the contractors.

Mrs. Jas. Livingstone, Murrayville, district organizer of the W.B.A. of the Maccabees, was in Mt. Lehman district lately.

On July 12 a large number of friends met at the home and at the grave to pay their last tribute of respect to the late Mr. Philip Jackman Jr., who passed away on Monday, July 10, aged 59 years. The funeral services were conducted by Rev. H. Priest, Abbotsford, and Messrs. W. Towlan, Ed. White, R. Nichol, G. Bruski, M. Morrison and V. Lehman acted as pall-bearers. Mr. Jackman is survived by his wife, and a family of nine, and also by his aged father, Mr. P. Jackman of Aldergrove. The late Mr. Jackman was for many years and took an active part in its affairs. He was chairman of the Matsqui school board and secretary-treasurer of the Mt. Lehman Farmers' Institute.

TELLS OF SCENIC ATTRACTIONS OF OUR NORTHWEST

"There is no other resort region in the world that has the immense snow-capped mountains and rugged ranges equal to thirty Switzerlands as well as beautiful inland seas, automobile roads, forests, streams, rivers and harbors for aquatic sports, golf links, and sandy bathing beaches as the Pacific Northwest," says the Omaha Evening World-Herald, in a half-column article heading its vacation page entitled, "Nebraska and Iowa people are taking advantage of new summer railroad rates to visit Northwest."

Succeeding paragraphs describe in glowing terms the natural attractions of this region, tell of its civic and industrial development, and praise its climate.

"Its summer climate is the climax of its lure" it continues. "Every hour of the twenty-four is pleasant, comfortable and refreshing. The supreme delight of living in the Pacific Northwest is to be out in the open when every breath brings new life and renewed vigor."

This generous tribute to the charms of the Pacific Northwest—a message of stirring appeal to residents of the super-heated prairie states—is one of the by-products of the advertising campaign of the Pacific Northwest Tourist Association, whose advertisements appear in about 50 leading papers of the United States and Canada, selected to reach the greatest number of people in the districts from which summer tourists are most easily attracted.

This advertising is expected to have a big influence in deciding many summer vacationists to visit the Pacific Northwest, including British Columbia, this year.

WINNIPEG

Jobbers here report business very brisk this past week, and you will note that the car receipts are large and they do not include L.C.L. shipments and part cars, and B.C. cherries are arriving mostly this way. No B. C. raspberries have come on the market so far, and while the first Puyallup berries were poor, the last car was very fair. One car of loganberries arrived from California in poor condition and was jobbed. B. C. cherries are arriving only in limited quantities are cleaning up quickly so far. Ontario sour cherries are also moving better now at a reduced price. Ontario early field tomatoes stalled at $3.00 a basket as Tennessee and Texas tomatoes were much better value.

Wholesale Prices

Raspberries, Puyallup, 24 pts.	5.00
Gooseberries, B. C., 24 pints, small	2.50
Blueberries, Ontario, 11 qt. basket	2.25
Sweet Cherries, B. C., 4 bskt. crate	3.50
Sour Cherries, Ontario, 6 qt. basket, 90¢ to	1.00

Traveller (at remote station)—Have you a "Sporting Life?"

Bookstall Clerk—No—not very.

BOOKS AND MAPS FOR AUTO TOURISTS

Copies of two booklets issued by the Pacific Northwest Tourist Association have been received by the Fraser Valley Record. One is entitled "The Pacific Northwest for your Vacation" and the other "Automobiling in the Pacific Northwest." Both are lications, fine illustrations and with splendid road maps. This association publishes a number of more special pamphlets, pertaining particularly to fishing, golf, yachting and mountaineering. Copies of the various booklets can be had on application to the associaton head offices at 1617-1618 L. C. Smith Building, Seattle.

Coup-House Is Ready

WHITE ROCK, July 14.—The "coop," the lock-up recently built near the approach to the pier, commenced operations Wednesday, though the only ceremony was the opening of the doors of welcome to all who may have business with the police.

Officer McMahon has again been intrusted with the maintenance of law and order, but it is not anticipated he will be called upon to furnish accommodation to many offenders.

RADIO SET MAY VOID INSURANCE

VICTORIA, July 14.—With no desire of unduly alarming enthusiasts the Victoria District Fire Insurance Agents Association has issued a warning against the danger of fire in the careless or amateur installation of radio sets.

The secretary of the association states: "Many people do not realize that the six-volt storage battery such a number of enthusiasts are using to light the filaments of their electron tubes, is capable of starting a serious fire. It has done so more than once. Recharging such a battery from the electric light current in the house adds also to the risk of fire, as do recently ill-considered attempts to receive messages via the house light circuit."

It is stated that the presence of radio apparatus, with the necessary wiring, if installed without expert advice, increases the hazard of crossed wires already existing from lighting installation.

It is pointed out to fire insurance policy holders that any changes in the conditions of the risk, such as an increase in the hazard made without the consent of the insurance company automatically voids the policy.

OPENING ON AUGUST 17

REVELSTOKE, July 17.—J. M. Humphrey, secretary of the Malakwa committee that is carrying out the plans of the official opening of the Revelstoke-Okanagan auto road on August 17, states that the opening of the Revelstoke-Okanagan auto road is going to mean a new era to the entire district from Revelstoke south to Penticton and west to Kamloops. The auto road will be officially opened on Thursday, August 17, at 1:30 p. m. The ceremony will be held at Malakwa, which is midway between Revelstoke and Enderby and only four miles from where the late Lord Strathcona drove the "golden spike" marking the completion of the C. P. R. on November 11, 1885. Hon. Dr. Sutherland will attend.

Railway News in Brief

Windsor, Ont.—E. C. Rice, C.P.R. ticket agent, has relinquished his duties here, after 11 years' service, and has gone to Florida for a three months' vacation, as he has not enjoyed the best of health of late. He is succeeded by W. A. Armstrong, for 17 years in the ticket service of the railway company in Toronto.

Kentville, N.S. — The Dominion Atlantic Railway has moved 105,000 barrels of apples to Halifax for export. There are still approximately 350,000 barrels left for export. From the beginning of the season 1,490 more cars of apples were moved than for the corresponding period last year.

St. John, N.B.—During the present season the Canadian Pacific has hauled 2,048 cars of grain containing 4,285,903 bushels which have been unloaded to the elevators at West St. John, as compared with 2,063 cars with 3,473,545 bushels during the corresponding season last year. The elevators at West St. John still contain a million and a half bushels of grain.

The new Canadian Pacific Steamship "Montcalm," which sails between St. John and Liverpool, is equipped with motion pictures. The showing of motion pictures on board ship has proven a big success ever since its inauguration last summer, and has met with the same popularity and appreciation by passengers as other Canadian Pacific features. The films are distinctly and characteristically Canadian in subject and treatment.

Victoria, B.C.—There are no better known golf courses in the Dominion than those at Victoria on Vancouver Island, no doubt due to the fact that the game is played every day in the year. It will, therefore, come as a pleasant announcement to know that the Canadian Pacific Railway has completed arrangements whereby guests of the Empress Hotel at Victoria will be accorded playing privileges on the excellent 18-hole Colwood Course.

Winnipeg, Man. — Miss Hazel Tompkins, candidate of the Canadian Pacific Railway employees, is queen of the Winnipeg winter carnival. When the voting contest closed Miss Tompkins had 27,955,000 votes to her credit. Miss Katheryn McTaggart, candidate of the Canadian National employees, ran second with 14,252,000 votes and Miss Esther Cummings of the T. Eaton Company, third with 12,434,000. There were 25 candidates. Bonds were sold to finance the carnival, each bond bearing a voting coupon.

There has been more than usual interest manifested since the announcement, first made by the Canadian Pacific in December, of the next international Eucharistic Congress which is to be held in Rome in May. The Canadian Pacific, associated with La Compagnie Francaise du Tourisme, is organizing a personally-conducted pilgrimage under the spiritual direction of a well-known Canadian priest. The pilgrimage will include the famous shrines of Italy and France, with special optional tours to the Passion Play at Ober-Ammergau and the battlefields of the Great War.

Edmonton, Alta.—Demonstrations on raising of bacon type hogs, the value of dairy cows on the farm and the value of sheep are being given from the train that has been outfitted by the Alberta Government and is now on tour through the province. The train itself is provided by the C. P. R. and has Thos. Atcheson, C.P.R. agricultural representative in charge. Representing the Provincial Government, S. G. Carlyle, live stock commissioner, is in charge of this work. The speakers include Mr. Carlyle, Guy Herbert, Medicine Hat; G. H. G. Hutton, Calgary; Professor A. A. Dowell, Captain Latimer, University of Alberta; W. L. Carlyle, Calgary and Dr. Morrison of the Dominion Live Stock Veterinary service.

Montreal, Que.—J. J. Sullivan, for many years well known here as chief engineer for the C.P.R., was elected president of the Engineering Institute of Canada, at the annual meeting of that body. Mr. Sullivan succeeds the retiring president, J. M. R. Fairbairn, present chief engineer of the C.P.R. In his valedictory address Mr. Fairbairn said the past year had been a serious one for engineers, following the reaction from the feverish war activities, and he hoped the turning point had been reached. The depression had been particularly hard on the younger members of the profession. Despite the deflation period, the institute, for the first time in its history, showed a surplus, $10[illegible] on the year's operation.

Information reaching Paris from London indicates that Lord Northcliffe is not expected to live longer than a few weeks.

Issues Checks Out of Profits

VICTORIA, July 14.—Vancouver will receive a cheque from the provincial government coffers for the sum approximately $175,000, the city's share of the undivided profits from the sale of liquor government control.

This announcement was made on Tuesday by Hon. John Hart, minister of finance, who for several months has been busy with the department officials working out the details of distribution of profits. He stated that the profits for September 30 to March 31 had been $1,231,365 and the profits up to that time were $541,605, a total of $1,772,971.

The government distributed from the profits made up to Sept. 30 the sum of $400,00; retaining the balance until such time as a reserve fund could be decided upon. Of the total profits it has been decided to place the odd $172,971 in a reserve fund and give the municipalities their half of the balance, according to the terms of the Liquor Control Act. This means that $1,200,000 will be divided between the government and the municipalities.

The population of British Columbia is officially given as 543,582 and the population of the municipalities sharing in the liquor profits is 396,541, so that with $600,000 going to the municipalities the distribution works out at almost exactly $1.50 per capita.

Vancouver's official population is 117,217; Victoria's is given as 38,727, so that the capital city will receive about $58,000. The population of New Westminster is 14,495 and her share approximately $28,000. South Vancouver, with 32,000 people, will receive nearly $48,000.

Following is the official population of the various municipalities. By allowing $1.50 for each person it may readily be seen what each municipality will receive.

Alberni, 700; Armstrong, 983; Chilliwack, 1767; Courtenay, 810; Cranbrook, 2725; Cumberland 1043; Duncan, 1178; Enderby, 783; Fernie 4343; Grand Forks, 1469; Greenwood, 371; Kamloops, 4501; Kalso, 950; Kelowna, 2520; Ladysmith, 1967; Merritt, 1721; Nanaimo 8877; Nelson, 5230; North Vancouver, 7652; Port Alberni, 1056; Port Coquitlam, 2148; Port Moody, 1030; Prince George, 2058; Prince Rupert, 6393; Revelstoke, 2782; Rossland, 2097; Salmon Arm, 627; Slocan, 317; Trail, 3020; Vernon, 3685.

The population of the city municipalities is, therefore, 245,237. The population of the district municipalities totals 151,304, made up as follows (here again the rule of $1.50 per person obtains): Burnaby, 12,873; Chilliwack, 5500; Coldstream, 510; Coquitlam, 2450; Delta, 3200; Esquimalt, 5000; Fraser Mills, 772; Kent, 1100; Langley, 4000; Maple Ridge, 4000; Matsqui, 4500; Mission 3500; North Cowichan, 2987; North Vancouver, 3800; Oak Bay, 5500; Peachland, 501; Penticton, 4000; Pitt Meadows, 422; Point Grey, 20,000; Richmond, 5000; Saanich, 10,500; Salmon Arm, 4250; Smithers (village municipality) 685; Spallumacheen, 1817; Sumas, 600; Summerland, 1837; Surrey, 5500; West Vancouver, 4500.

The reserve fund will protect the government against loss in case there should be a repeal of the present liquor laws. Meanwhile the money will be used for capital expenditures.

THE COUNTRY DOCTOR

A country doctor who has reached his allotted three score years and ten, but is still active in general practice, said the other evening: "When I can no longer respond to the call of my friend in need, then I will take in my shingle." Day and night, in fair weather and foul, this grand old man goes upon his errands of mercy.

Those who have read Whittier's "Snow Bound," remember the attractive picture of the country doctor on his rounds, faithful at the call of duty, and by his sympathetic readiness to serve, endearing himself to the whole community.

The tendency of young doctors today is to locate in the cities because they believe the up-to-date physician must keep in contact with his colleagues, with technical facilities and sources of professional information.

The rural districts must compete with the city to bring the doctors back to country practise by developing hospitals, laboratories and public health organizations.

Still, there are country doctors, general practicioners grown gray in the service of humanity, who would not change places with any city specialist, because of the personal satisfaction they have found in winning year after year the regard, and even the strong affection of an entire rural neighborhood.

All the rewards and pleasures of life are not to be found amid the hustle and bustle of the Great White Way.

FLORENCE AND INDEPENDENT

Glenn H. Florence, formerly manager, Growers' Sales Agency, Winnipeg, has severed his connections at 307 Confederation Life Bldg., Winnipeg, as a fruit and vegetable broker. Mr. Florence is well known to the Fruit trade of Western Canada, having been actively connected with the car-lot fruit business for the past six years. He has retained most of his former accounts and we wish him every success in his new venture.

GOING TO ENGLAND

VICTORIA, July15.—Hon T. D. Pattullo, minister of lands, is leaving today for the old country. The minister states that the objects of his trip is to endeavor to bring to a conclusion negotiations which were started last year for the development of British Columbia. He will be absent two months.

FARMERS SWEEP MANITOBA POLITICS

WINNIPEG, July 18.—Manitoba is to have a government of United Farmers, following the precedent set just a year ago by the province of Alberta.

Yesterday, the Liberal government of Hon. T. C. Norris went to the electors for a vote of confidence and was rejected.

Premier Norris himself was reelected in Lansdowne, his old constituency, and Hon. Robert Jacob, his new attorney-general, will set a place in Winnipeg, but three of his colleagues—Hon. Dr. R. S. Thornton, minister of education; Hon. John Williams, minister of agriculture, and Hon. C. D. McPherson, minister of public works—went down to defeat.

Hon. Edward Brown, provincial treasurer, had intended to run in the deferred election in The Pas, but under the circumstances it is thought that he will retire to private life.

Mr. Norris will find himself at the head of a group of about eight members, one of four opposition groups confronting a Farmer party, which is expected to have the support of a clear majority over all in the new house.

The United Farmers come to the city with 24 members. In Winnipeg their allies, the Progressives, failed to live up to their expectation, and it appears that only one of their eight candidates, R. W. Craig, K. C., will be among the 10 chosen, but he will give his support to the Farmers.

In a legislature of 55 members a government can elect a speaker and carry on with a total of 29 members, particularly when the opposition is divided, as it will be in this case, and there was no thought last night that anything could prevent the United Farmers from entering into control of the administration at an early date.

Premier Norris will undoubtedly place his resignation in the hands of the lieutenant-governor at once.

He will be asked to carry on until the Farmers have a chance to organize, and they will be called together at an early date—elected and probably defeated candidates—to select a leader who will become automatically premier of the province.

It appeared to be very doubtful if George C. Chipman will be elected in Winnipeg, and it is impossible to predict what effect his personal defeat might have on the prospect of his election to the leadership.

Mr. Chipman has been considered in many quarters to be the favorite for the position in the event of a Farmer victory. He has been for years editor of the Grain Growers' Guide, and, therefore, associated with the economic and educational work of the organized farmers' movement in the western provinces. Other names have not been discussed very much in recent weeks.

The following is the net result:
Farmers, 24.
Liberals, 5.
Conservatives, 4.
Independents, 7.
Labor, 2.
Deferred, 3.

Results in Winnipeg's ten seats will not be known for two or three days, owing to proportional representation system of voting.

Ministers elected—Hon. T. C. Norris, premier; Hon. Robert Jacob, attorney-general.

Ministers defeated—Hon. R. S. Thornton, minister of education; Hon. John Williams, minister of agriculture; Hon. C. D. McPherson, minister of public works.

Hon. J. B. Baird, former speaker, defeated.

Only 13 members of old house reelected out of 31 who ran. Farmer group has only six members who were in last legislature.

F. J. Dixon leads Winnipeg vote, more than doubling that of his nearest competitor.

The deferred elections are The Pas Rupertsland and Ethelbert.

SEATTLE LETTERGRAM

Seattle, July 13th.

This market is slowly recovering from the heaviest glut of cantaloupes in the history of Western Avenue, Standards selling at $1.20 to $1.75 a crate.

The peak of the Eastern Washington cherry shipments is passed. Apricots are coming on. Elberta peaches from Hanford are due the first week in August. No new potatoes are arriving from Eastern Washington, as they cannot compete with California. New locals are quoted at 2 1-3¢. All commodities have a downward tendency.

SASKATOON

The following is report on wholesale prices for week ending this date:

Raspberries, per crate	$5.00
Strawberries, per crate	3.00
Cherries, Bings, per crate, $2.50 to	3.00
Lamberts, per crate, $1.75 to	2.50

COLD STORAGE

Our meats, of all kinds, are now kept in our cold storage plant.

CONDITIONS ON THE MARKETS INTERESTING TO GROWERS

WEEK IN CALGARY

The volume of produce as well as the variety is increasing weekly. The prairie demand is decidedly off. The market has been falling in price with very little demand, notwithstanding the fact that the crop is short. There is no control of distribution at the shipping end. Consignments are coming in far heavier than usual. Some of the retail merchants are receiving more than they can dispose of, and we know of cases where wholesalers are helping retailers move their surplus consignments rather than sacrifice the stuff. The larger wholesalers have been waiting for the poorer grade of berries and cherries to clean up, but as the lower price of poor goods prevents them from doing business they are beginning to threaten to sacrifice their No. 1 goods in order to secure their share of the trade. We conclude that consignments of staple commodities has broken this market. There is no doubt a slack supply of money, and the consumer is trying to make it go as far as possible. If growers are going to get a fair return for their labors they will have to agree to control the distributions rather than pass it along to a number of dealers here.

Some fine Apricots have arrived in Calgary from Osoyoos. They are large in size and baskets fairly well filled.

Bing and Lambert cherries are rolling in faster than the demand. The quality is excellent, but for reasons given above, prices are down.

Celery is arriving in car lots from Armstrong. The pack and quality is excellent.

A few crate of strawberries are still coming in L.C.L.—mostly soft and of poor quality.

Rasps are being sent to Saskatchewan and Manitoba in car lots. The Alberta market will not pay the price for pre-cooled stuff, owing to heavy consignments of L.C.L. berries coming in sufficient volume to place the price below what is asked for car lot stuff.

Some of the jobbers are tryng to bring in a car of rasps from Puyallup to arrive here Monday. There is no need for this, as B.C. is fully taking care of their needs. If such a step is taken we predict a loss to those involved in the deal as well as reflecting a sympathetic loss to B.C. shippers. We will publish the facts of this deal should it materialize.

Crops continue to improve, and there is every indication that a bumper harvest will be repeated.

Calgary Wholesale Prices

Cherries, B. C. Bings, 4 bxs., $2.50 to	$3.00
B. C. Windsor, 4 box, $2.00 to	2.35
B. C. Royal Annes, $1.75 to	2.25
Preserving Cherries, $1.50 to	2.00
Black, Red and White Currants—slow sale.	
Gooseberries, 4 boxes	2.25
Gooseberries 24 bxs.	2.50
Strawberries, per case	3.75
Some fine local stock from Strathmore, per case	4.00
Rasps, $3.50 to	2.50

VANCOUVER PRODUCE

The weather has continued dry during the past week, but has been some what cooler. There has been no appreciable rainfall since May 21st.

Trading has been rather listless during the week.

A few strawberries continue to arrive on the market and go out at prices ranging up to $2.75. Monday arrivals from Haney were of exceptionally good quality for this season and brought the top price.

Raspberries are now much in evdence and wholesale at $2.50 for good stock.

A few White Currants are offered at $1.25 per crate, but go out very slowly. Red Currants move better at $1.75. Very few Blacks have been offered so far, $3.50 per crate is the price asked for good fruit, but poorer stock has been offered as low as 13¢ lb.

Loganberries are now on display at 10¢ per lb.

Cherries are very plentiful and are offered at various prices according to variety and quality. Some Okanagan Bings have come in of good quality and have sold at the top prices. This variety sells up to 20¢ per lb.

During the week three cars of of Mississippi rolled in, but owing to infection from Black Spot it was necessary to pick the whole lot over. The shrinkage was heavy. Picked over stock wholesales at $1.75 per crate.

California plums, peaches and apricots will displace California's during the coming week.

Local green and yellow beans have now displaced the imported product and are selling from 15¢ to 20¢ per lb. No broad beans are on the Row, but are offered on the curb market at 4 lbs. for 25c.

Old potatoes show an increase of $5.00 over last week's prices. Three more cars have rolled in from Washington during the week. They were all Yakimas, one of them being cold storage stock.

New potatoes are down to $2.50 per sack.

Poultry is unchanged from last week. A premium is offered on good springs which will stand feeding. The attention of poultrymen is called to the inadvisability of milk feeding unless they thoroughly understand it. Shipments have arrived recently which were unskilfully fed and as a result could not be primed up. The prices realized must have been disappointing.

Butter is unchanged with a firm market. Eggs show a tendency upward and some houses the now asking 33¢ for B.C. Fresh Standards.

Veal remains at 13¢ for country dressed tops. Light prime hogs are unchanged also at 17¢.

EDMONTON

Edmonton, July 13, 1922.

Business since the 1st of July has been rather more dull than it was in June. During the past week a couple of cars of Creston and Wynndel berries have landed in good shape. An L. C. L. shipment arrived yesterday, but was practically useless, as all berries showed heavy decay.

Our cherry market has been more or less demoralized by consignment cherries. There has been an opportunity to get part cars of cherries here, but it was almost useless to bring them in, as the price asked for them would not permit the regular jobber to compete against competition he had.

The vegetable market is also badly demoralized as there is a very large stock of new B. C. vegetables in here at present. The approximate prices are as follows:

Strawberries, best, $4.00 to	$4.50
Raspberries, best, $4.00 to	4.50
Royal Anne Cherries, consignment.	
Bings, $3.00 to	3.75
Gooseberries	2.25
Black Currants	2.25

The Abbotsford-Sumas Prize List is now in the hands of the printer, and in the course of the next ten days or two weeks will be ready for distribution. The prize list is bigger and better than ever and the officials have informed this paper that much more interest is being taken this year than in any previous year. The president is delighted and has made the boast that the Abbotsford-Sumas fair will be the best fair on the south side of the Fraser between Chilliwack and Westminster. The endeavor is to put all the other local fairs in the shade. If you are not boosting now get busy and do your part, is the wish of the directors.

WANT COLUMN

Advertisements under the above heading cost 25 cents per issue.

FOR SALE—Four lots and seven roomed house with bathroom and pantry. Good well water in house all furnished, woodshed, chicken house, chickens, fruit bearing trees, electric light. All fenced, in town. Apply to Box 120, Abbotsford, B. C. 2-9-16-23*

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 25th August, 1922, for the conveyance of his Majesty's Mails, on a proposed Contract for four years, six times per week over the Abbotsford Rural Route, No. 2, from the 1st January next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Abbotsford, B. C.

District Superintendent
of Postal Service,

Acting District Superintendent.
District Superintendent's Office
Vancouver, B. C.
14th July, 1922.

WHAT WOULD YOU DO?

Should an innocent man who has been sent to prison on circumstantial evidence seek escape or should he resign himself to fate and serve the term? That is the question which confronts Thomas Meighan, Paramount star, in his latest picture, "The City of Silent Men," which will be shown at the Abbotsford Theatre next Saturday, July 29th.

Jim Montgomery might have chosen the latter alternative, had it not been for the fact that his mother was dying from grief. He makes his escape, but arrives home just in time to see his mother's funeral cortege leaving the home. He goes west, and in a new land, builds his life anew. He is tracked by a detective, and he knows that he can be identified by his finger prints. How does he win his freedom? The answer is one of the strongest and most sensational climaxes ever viewed on the screen. Lois Wilson is the leading woman, and Kate Bruce, Paul Everton, George MacQuarrie and Guy Oliver round out the cast.

STARCH PLANT IS BEING ERECTED AT NEW WESTMINSTER

A new industry for New Westminster and one which will greatly benefit farmers of the Fraser Valley is the potato starch plant now being erected by the Pacific Starch Products, Limited, at the southern end of the Fraser River bridge.

The plant will have a capacity of 30 tons of potatoes daily and will give employment to between 25 and 30 men and women, the major number being men.

To the farmers it will be a decided boon because it will enable them to dispose of their cull potatoes or their second grades, which, heretofore they have had no market for.

The plant to be erected, it is estimated, will cost from $35,000 to $40,000. It will be of wood construction and in two sections, one and two stories high.

It is anticipated that the plant will be completed by the early fall when production will begin at once.

Of great significance to the farmers of the Fraser Valley is the company's determination to buy its potatoes entirely from white men, and particularly from stockholders of the company. Already there are 150 farmers of the valley holding stock in the company, and it is expected that those and others who join them will supply the plant.

That the field for such a plant in Canada is a good one is shown by statistics indicating that Canada has been importing 10,000,000 lbs. of starch and starch products per annum, with the United States the biggest exporter.

Lack of initiative of starch making plants, alone is responsible for this condition. Canadian farmers grow potatoes cheaply enough to meet this competition and supply them at a profit to the starch factories above the border. But hitherto there have been very few starch factories, the present one, to be located here, being the only one west of Ontario.

Approximately 50,000 tons of potatoes are produced yearly in the Fraser Valley, of which 35 per cent. or 21,000 tons, even under the most favorable conditions will be graded No. 2. At present the potato growers have no means of disposing of these except by feeding them to stock, but No. 2, or cull potatoes are just as satisfactory for manufacturing purposes as No. 1. This vast supply of No. 2 potatoes the Pacific Starch Products proposes to use.

While it is not expected to limit the output of the plant this year to starch, next year the manufacture of starch products will be begun. These products include dextrine, glucose, potato flour, edible starch, sago and tapioca.

Dextrine is used in large quantities by textile manufacturers as a dressing, and also in gum, paste and sizing.

Glucose is used most extensively in the candy and jam industries.

Potato flour is a valuable aid to the baking trade. It is rich in vitamines and improves the flavor of products.

For edible starch, sago and tapioca products there is an immense market. For food uses, starch made from potatoes is far superior to corn starch, being asbolutely tasteless, and not having the unpleasant flavor of corn oil, as starch made from corn always has.

Potato starch for laundry purposes also, is declared to be far superior to other varieties.

Such is the range of products of New Westminster's forthcoming new industry. That it should be welcomed by the farmer is apparent. Eventually, it is the dream of the organizers of the company, that the whole Fraser Valley may be linked up, all potatoes for local consumption being brought to the factory and there graded. From thence the No. 1's will be sent to Vancouver on regular days and, with proper administration of this business, eventually oust the Oriental as a competitor in this market. From that time on if not before the potato industry of the Fraser Valley will be on a paying basis.

HOSPITAL WANTS MORE MEMBERS NOW

Every person who pays an annual fee of $5.00 is entitled to a vote at the annual meeting. This does not mean that the amount which you subscribed at the time of building the hospital gives you the annual vote. That is past, and the district has benefitted by the support of those who have contributed so generously to the building fund. The hospital is a credit to the district being one of the best and most up-to-date in the Fraser Valley.

Now however you are asked to keep the institution going and have a vote in the affairs of the hospital. This means that you have to become a member, and that will cost $5.00 each year. It is worth it and the institution should have the support of every resident of the district.
