### BATT-PURVER

The marriage took place on July 4th of Miss Frances Batt, daughter of Mr. P. Batt, of Straiton, to Mr. Glen Purver, of Clayburn. The ceremony was performed at the residence of the bride's sister, Mrs. Todd, Vancouver. The newly married couple will reside at Clayburn.

### BY-ELECTION TO FILL SEATS

The Sumas council will probably make arrangements at their next meeting on August 3rd, for an election to fill the two councillorships at present vacant—That of Frank Munro and Luther Lamson.

Mr. Wilber Ryason and Miss Dona Hamilton of Nooksack, Wash., were united in marriage at Mission City today by Rev. C. McDiarmid. Mr. Ryason wil shortly leave for the front

Miss Ina Fraser who attended the Chilliwack school, headed the list in the junior matriculation examinations. She brought the Chilliwack honors back to Abbotsford.

### SHOULD KEEP GIVING TO PATRIOTIC FUND

**Important Request is Made To All Subscribers**

Contributors to the Canadian Patriotic Fund are asked to continue their contributions and donations to the fund until March 31, 1919, as it is most essential that all promises shall be fulfilled till such time as parliament can pass an act empowering the government to provide for the purpose.

In this connection a circular letter has been sent by lieutenant-governor to all branches of the fund in British Columbia, which says in part:

"At a meeting of the national executive committee of the Canadian Patriotic Fund, held at Ottawa on the 16th of May, it was unanimously decided that after the 31st of March, 1919, no further campaigns would be inaugurated for voluntary subscriptions, but that any additional revenue thereafter required should be sought from the federal government. This cannot be procured until the next session of the Dominion Parliament. It is expected that the contributions in hand, and those which are to come in under promise until the date above mentioned, will be sufficient for the requirements of the fund, and the national executive held, with confidence, the opinion that there will be no abatement during the ensuing nine months of payment from voluntary sources. The various committees are requested to ask contributors to continue until the 31st of March next, all promises which have been made, to expire at the end of this calendar year. An important factor in this decision lies in the fact that the war loan and other government requirements largely monopolize the majority of the sources from which revenue has in the past been derived."

The financial statement of the Canadian Patriotic Fund for B. C. dating from August 1914 to March 31, 1918, has just been published and contains many interesting items.

Out of the $35,000,000 raised in Canada $2,673,683 was contributed in this province.

There were at the end of the fiscal year 6,761 families receiving grants and the disbursements for the year amounted to $1,808,484.96 being $223,620.06 more than the previous year. Up to the present time B.C. has drawn upon the central fund for an amount exceeding our contribution by $1,317,778.51. According to present indications we shall require in round figures $2,000,000. If the contributions in this province are equal to those of the past year B. C. will require to draw on the general fund to the extent of $1,000,000.

In September, 1915 there were in B. C. 51 branches, now there are 193.

Upper Sumas W. I. was voted $25 at the last meeting of the council.

### TO THE MISSION FRUITGROWERS

(By Barry, Our Market Reporter)

(From the Fraser Valley Record)

You are advised by the Market Comissioner at Calgary to increase your acreage of strawberries and raspberries to suit this man's whims and fancies. This injunction was given to you in Market Report No. 6 dated July 13th, 1918.

The dope as handed to the Fraser Valley growers, is to the effect that their strawberries are not wanted on the prairies, when he says "We have recommended that the Marshall berry be not grown for prairie shipment. This is a fine jam berry and can be grown profitably in the Fraser Valley, both for home consumption and the jam factory."

Above this statement he further states that Vancouver Island and the Kootenays should take unto themselves that which is not theirs by publishing the fact that these districts can take care of the growing prairie markets, and the Fraser Valley should keep away from these easy pickings.

Is this dope of the Market Commissioner's sincere,or is he pulling for his home district?

The Kootenays do not conflict with Gordon Head for the reason that this district is two weeks later in getting to the peak of the picking, and between the two would have a very easy time.

The Fraser Valley was in this strawberry game many years before Vancouver Island dared take a chance in shipping to the prairies, and also in the game before Kootenay knew that they could grow a berry of any sort.

What puzles the majority of the berry growers here is why Mr. Grant should have the audacity to ask the growers to break away from a business that they are pioneers in.

His suggestion appears to be made in gross ignorance, or else by design.

**Now To The Story**

Ever since the first crate of Fraser Valley strawberries went forword this season, we have been greeted with howls and wails from the Market Comissioner with regards to the pack, the color, the variety, the condition and what not else.

All these ravings happened in sequence or in other words one at a time.

Instead of coming out flat-footed with the information that he did not know anything about strawberries, he made some very caustic remarks to the effect that the growers in this district were not doing the right thing in the way of shipping.

To the outsiders who read this "Bull in the Bulletin" it would appear that there was not an honest grower in this district, and all the honest ones were at Gordon Head.

We received our first bouquet with regards to good berries at the self same time that we were informed that the last car of Gordon Head berries were rolling to the prairies.

This looks too cuf and dried. It sounds like, while our berries are in the limelight, please keep away. See report No. 4.

We know what the trouble is with regard to the condition of Mission strawberries on arrival. It is nothing else but the rotten deal that we are receiving from the transportation company.

Make a comparison of conditions as they exist between Gordon Head and Mission.

Gordon Head is situated at Victoria's back door, and therefore can get all the pickers that are needed. Gordon Head has only a few miles to haul her berries, on good roads with an iced car waiting to pre-cool the berries. From the time the car is loaded, to the time the car gets to Calgary or other points, these berries are under ice and ventilation, and have very few chances of spoiling before being handled by the wholesale trade.

Now, the conditions are very much different in the Fraser Valley. In the first place we have a difficulty in getting pickers when most needed, and when successful in getting a picking gang together along comes the mosquitoes to upset matters.

Notwihstanding the difficulties, the crop is usually picked in good shape, and should get to the prairie destinations in good condition.

In comparison with Victoria we are very much mitigated against. In the first place the roads are not in very good condition; int he second place we have not a decent place to assemble our berries for shipment; thirdly, after these berries are in the hands of the transportation company our troubles only begin to commence. The following is the usual handling that Fraser Valley berries receive before being delivered to the wholesalers on the prairies. At the comencement of the season, when shipments are light, and prices are good, we are obliged to have our berries carried in a line car mixed up with all kinds of miscellaneous merchandise that happens to be in this car on arrival at Hammond. If the shipments from that point are at all large, the shipment is stacked into the car anywhere from twenty high. When Mission is reached, the shipments from here are stacked right up against the Hammond lot, with no semblance of ventilation. The Hatzic stuff is next in turn, and if shipments from there are any where large, it is a job to find room for the berries without having to move the Hammond and Mission stuff and stack it up a little higher.

Now, when this car gets along the line a little, things are very warm. The heat in the car is very often enough to cook these berries and they are in bad shape before they get over the Rockies.

After arrival in Calgary they are subjected to another rough handling The train has about a half hour to unload stuff that took twice to three times as long to load. As the berries are taken from the car, they are mixed up like a pack of cards, and the next handling is to separate the sheep from the goats. This operation takes from one to three hours, and is performed in the hot sun if the shipment is on No. 4. The next handling is to the wagons, then to the warehouse where inspection is made. Can you wonder that strawberries arrive in bad order when shipped to the wholesalers.

There are at least ten handlings before these berries are delivered to the retailers, and if to country merchants the handling will be a duplicate of those above mentioned, multiplied by two.

With the ventilator car the methods are very similar. This car is not put into service until shipments are large enough to warrant it's use. When these shipments are heavy the car is invariably overlooked, and decidedly overheated. Records will show that these deductions are correct.

When the ventilator car was first put into use this year, fruit from here arrived in good shape, for the reason that there was plenty of room and sufficient ventilation, but immediately the tonnage was heavy, complaints came from every point of the compass. The market commissioner comes out with a lot of second rate information every week, and denies that the fruit is spoiled in transit.

Transportation is the only obstacle between failure and success so far as the fruit growers are concerned, in this or any other section of the country, and if the market commissioner would bend his efforts in this direction and get us better facilities he would have something to brag about after fulfilling this object. He has been barking up the wrong tree for two years now, and it is pretty nearly time that he arrived at some definite conclusion, instead of harping on a new theory every week in his report.

The Red Cross forwarded on July 11th to Ward. II., Vancouver 56 pair of socks, 28 suits of pyjamas, the work of two months. This society is doing good work and should be well supported not only by help but by funds, and the secretary will be delighted to receive donations to carry on the work. When the war is won you will probably wish you had been a little more liberal with your money Don't give yourself and chances for regrets as the money is needed now.

Arrangements are being made to open another brick yard near Kilgarde at the Indian reservation.

### PERSONALS

Mr. McDonald of A. P. Slade & Co has been in the Vancouver hospital for some time.

Mr. Alanson and Jean were in Abbotsford last week. Hard to keep away from Abbotsford.

Miss Annie McPhee is spending some of her holidays in Ladner.

BORN—To Mr. and Mrs. Jones, July 15th, a daughter.

Mrs. King and Irvine returned from Crescent on Sunday after spending two weeks with Mr. and Mrs. H. Alanson.

Mr. Parton was taken suddenly ill on Monday evening and had medical assitsance. He is better again again.

The Ladies Aid meeting will be held at the home of Mrs. John McCallum on the Yale road.

Mrs. Albin Johnson has returned to her home after a lengthy visit in Los Angeles with her sisters.

Mr. C. R. Edwards from Calgary spent a few days with his brother in-law last week.

Mrs. Lee and family are holidaying at Birch Bay.

Rev. Mr. Fraser of Aldergrove occupied the pulpit last Sunday during the absence of Rev. Robinson.

The raspberry social under the auspices of the Ladies' Aid given at the home of Mr. and Mrs. McMenemy last Friday night was a great success. The house was filled with a bunch of merrymakers. A splendid programme was rendered. Among those taking part were: Violin, Mr. Williams; Hr. Tapp, Miss Jessie Coogan; Song solos, Mr. Martin, Mrs Cootes, Mrs. John McCallum, Dr Chalmers; Piano solos, Miss Steede, Miss Helen McCallum, Miss Evelyn McMenemy and some duets and recitations. Collections amounted to over $13.00.

Mrs. McGowan, with her two daughters, Marguerite and Maude, have gone to Tacoma to visit Mr. and Mrs. Scotsvold.

Flight Lieutenant Wm. Hill-Tout who is flying in France, is about to get a three months' holiday and is likely to take a trip home.

### EXCELLENT WORK IN OUR PUBLIC SCHOOL

A perusal of the results of the entrance examinations and a comparison of Abbotsford public school with others will show that the principal of our schol, Miss Urquhart, has been doing faithful work, as no matter how proud we are of the ability of our boys and girls, the guiding hand in the studies is an important factor. The marks obtained by the pupils not much range between the highest and lowest, shows that all were taught systematically.

We all congratulate the boys and girls and their teacher, and it is hoped Abbotsford will have her services next year.

### COMMEMORATION SERVICES

Commemoration services will be held in the Gazley Hall on Monday August 5th and an interesting programme will be given, of song, music etc., but the principal item on the programme will be Rev. C. C. Owen of Vancouver, who recently returned from the front, who will give a talk on the work that is being done there

The French Red Cross has sent out an urgent call for needed funds to all points and a collection will be taken up for this purpose, and it is hoped that all will come prepared to give a little—as much as you can—to assist one of our Allies.

Sunday it is probable special services will be given in all our churches to commemorate a date which not many of us will forget, and the next day, Monday, will be an excellent day to give aid to the French Red Cross.

### THE FRASER RIVER!

Even yet old Father Fraser backing up to Sumas Prairie is bothering the farmers. It would be a good idea to use some of that $10,000 to put in small dykes for some of the farmers; or now that the provincial government has some good land along the P. G. E. to offer equal value there for lands on Sumas for those who would take it.

FRIDAY, JULY 26, 1918

The question of good roads is more important now than ever it was. It is a fast age and people travel over the country roads faster than they ever did. But our roads are not yet equal to the pace made over them and the cost to the fast travelling public cannot be estimated.

The life of a pair of auto tires is very short travelling over rough roads, and tires cost good hard cash. If our roads were smoother the abuse to the tire would not be so great.

The suggestion that autos be taxed for the purpose of building roads looks good no doubt to many who are seeking for a method of raising money to meet the demand of better roads. $25 per auto is not much as compared with the price of a set of tires, and together with the $12 or more dollars now collected from autos should provide quite a sum, if added to that was an amount from general funds. And if all this were put into roads that were roads there is little doubt it would eventually met with the approval of all auto owners. But why not begin with the amount already collected, some $200,000 annually?

There are some 15000 autos now licensed in the province, which at $10 license fee brings $150,000, and taking the average taxation of $3 a car (which is letting the amount down easy, would make another $45,000, and then there is the $10 each new owner has to pay for the privilege of buying a license at 400 new autos per month, or say 4000 a year, would be another $40,000. This totals up to about $235,000 per annum now for autos—a nice tidy little amount in itself. And do the auto owners get much benefit out of this? Or is it used to buy office furniture at the parliament buildings at Victoria?

## WOULD TAX AUTOS TO IMPROVE ROADS

Government maintenance of the bridges connecting Lulu Island and Sea Island with the mainland and the raising of funds for continuing the hard-surfacing of the principal roads in the province particularly on the Lower Mainland were the principal subjects of discussion at a conference held on Saturday last between Mr. Gerald G. McGeer, M. L. A., and the reeves of Point Gray and Richmond and Commissioner Gillespie of South Vancouver.

Among other things that Mr. McGeer said that he had taken up with the government the matter of providing good transportation between Vancouver and its agricultural environs, so as to assist the farmers and the city population in marketing and securing agricultural produce.

Mr. McGeer also took up with the reeves and commissioner the question of hard-surfacing the roads leading into Vancouver from the agricultural districts. He pointed out that the difficulty usually facing any member of the legislature who tried to obtain an appropriation for this purpose was lack of funds. He suggested that there was a source for raising money for the hard-surfacing of roads, that being a tax on autos—a tax which, he said, he believed would meet with the approval of all auto owners, provided they could be assured that the money would be expended on the improvements of roads Mr. McGeer sugested that the levy be on the percentage basis, which would work out at about an average of $25 per car per annum and would raise approximately from $250,000 to $300,000 a year. If this means were adopted, Mr. McGeer pointed out, it would mean that with money from the ordinary sources an amaunt of about $500,000 a year would be available for the hard-surfacing of the main roads of the province.

## TAKES OFF DANDRUFF, HAIR STOPS FALLING

**Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.**

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

## SYNOPSIS OF COAL MINING REGULATIONS

Coal Mining Rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated such returns shall be furnished at least once a year.

The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any agent or sub-agent of Dominion Lands.

## GIRLS! WHITEN YOUR SKIN WITH LEMONS

**Make a beauty lotion for a few cents to remove tan, freckles, sallowness**

Your grocer has the lemons; any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, add three in the orchard white and shake well. This makes a quarter pint of the best lemon skin whitener and complexion beautifier known. Massage this delicate grant, creamy lotion daily into face, neck, arms and hands and in a few days freckles, tan, sallowness, redness and roughness disappear and how clear, soft and clear the skin becomes. It is harmless, and the beautiful results will surprise you.

By Corporal Jack Turner

When the cold is making ice cream of the marrow of your bones,
When you're shaking like a jelly and your feet are dead as stones,
When your clothes and boots and blankets, and your rifle and your kit,
Are soaked from Hell to Breakfast, and the dugout where you sit
Is leaking like a basket, and upon the muddy floor
The water lies in filthy pools, six inches deep or more;
Tho' life seems cold and mis'rable and all the world is wet,
You'll always get thro' somehow if you've got a cigarette.

When you're lying in a listening post 'way out beyond the wire,
While a blasted Hun, behind a gun, is doing rapid fire;
When bullets whine above your head, and sputter on the ground,
When your eyes are strained for every move, your ears for every sound—
You'd bet your life a Hun patrol is prowling somewhere near;
A shiver runs along your spine that's very much like fear;
You'll stick it to the finish—but, I'll make a little bet,
You'd feel a whole lot better if you had a cigarette.

When Fritz is starting something and his guns are on the bust
When the parapet goes up in chunks, and settles down in dust,
When the roly-poly "rum-jar" comes a-wobbling thro' the air,
'Til it lands upon a dugout—and the dugout isn't there;
When the air is full of dust, and smoke, and scraps of steel, and noise,
And you think you're booked for golden crowns and other Heavenly joys,
When your nerves are all a-tremble, and your brain is all a-fret—
It isn't half so hopeless if you've got a cigarette.
When you're waiting for the whistle and your foot is on the step,
You bluff yourself, it's lot of fun, and all the time you're hop
To the fact that you may stop one 'fore you've gone a dozen feet,
And you wonder what it feels like, and your thoughts are far from sweet;
Then you think about a little grave, with R.I.P. on top,
And you know you've got to go across—altho' you'd like to stop;
When your backbone's limp as water, and you're bathed in icy sweat,
Why, you'll feel a lot more cheerful if you puff your cigarette.

Then, when you stop a good one and the stretcher bearers come
And patch you up with strings, and splints, and bandages, and gum
When you think you've got a million wounds and fifty thousand breaks,
And your body's just a blasted sack packed full of pains and aches;
Then you feel you've reached the finish, and you're sure your number's up,
And you feel as weak as Belgian beer, and helpless as a pup—
But you know that you're not down and out, that life's worth living yet,
When some old war-wise Red Cross guy slips you a cigarette.

We can do without MacConnachies, and Bully, and hard tack,
When Fritz's curtain fire keeps the ration parties back;
We can do without our greatcoats, and our socks, and shirts and shoes,
We might almost—tho' I doubt it—get along without our booze;
We can do without "K.R. & Q." and "Military Law,"
We can beat the ancient Egyptians at making bricks, sans straw;
We can do without a lot of things and still win out, you bet
But I'd hate to think of soldiering without a cigarette.

RULES AND REGULATIONS AS REVISED BY BOARD OF DIRECTORS, APRIL 10th, 1918

1. All entries to be in the hands of the Secretary two days before the Exhibition.

2. All Exhibits, except Live Stock, must be in position by 11 o'clock a. m. on first day of Exhibition, and all Live Stock to be on grounds by 10 o'clock a. m. on second day of Exhibition. All Exhibits to remain in place until 5 o'clock p. m. on last day of Exhibition.

3. Members of the Society are entitled to free entries to the amount of $1.00.

4. The price of membership tickets is $1.50 and they may be obtained on application to the Secretary.

5. In the Horses, Cattle, Sheep, Pigs and Poultry Classes the entry must in every instance be made in the name of the bona fide owner, and unless this rule is observed, no premium will be awarded; or, if awarded, withheld. If any person shall exhibit any animal or bird, of which he is not the bona fide owner, he will forfeit any premium which may be awarded him.

6. In all other classes, entries must be made in the names of the producers or manufacturers only, and by such producers themselves or their agents, who must have special authority for doing so, and produce the authority in writing, if so required by the Judges. Those who are not manufacturers or authorized agents may exhibit, but cannot compete for the prizes offered.

7. If any person other than the authorized agent shall enter an article for competition as produced or manufactured by himself when it has not really been so, he shall forfeit any premium which may be awarded the article.

8. No person will be allowed to enter for competition more than one specimen in any one class of a division. This rule not to apply to Live Stock.

9. Every article must be entered under some one of the headings in the regular list.

10. On the entry of each animal or article, a card will be furnished the exhibitor, specifying the class, the division, and the number of the entry, which card must remain attached to the animal or article during the Exhibition.

11. Horses must be shown uncovered, or in such a manner as the judges may require or allow, and if their exhibitors refuse to submit to the proper requirements of the judges, their animals will be ruled out of the Exhibition.

12. All animals competing for prizes must be brought out for the inspection of the judges, or for exhibition, whenever called out by the official appointed to attend to that duty.

13. No animal or article exhibited shall have about it any prize colors or cards until the awards have been made in their respective classes.

14. No person shall be permitted in the horse or cattle rings during the time of judging, except the judges, the grooms or persons in charge of the animals, and members of the press.

15. No animal or article shall compete for more than one prize, unless otherwise mentioned, or in the case of special prizes or sweepstakes. This is to be rigidly enforced.

16. The President and Board of Managers shall have supervision of the grounds and Exhibition generally.

17. Should there arise any dispute or misunderstanding not governed by the By-laws or Rules and Regulations of the Society, it shall be referred to the Board of Managers, whose decision shall be final.

18. All protests or appeals must be handed to Secretary in writing twenty-four hours after the awards have been made, accompanied by a deposit of $1.00. If, after the matter has been investigated by the Executive, the protest has not been sustained, the deposit shall be forfeited.

19. The judges shall have the power of classifying and shall not award a prize to any animal or article against which there is no competition if such animal or article is unworthy of a prize.
worthy of a prize.

20. All special prizes shall require a special entry unless classed as a sweepstake.

21. No person shall be allowed in the exhibit rooms while judging is in progress except the judges and their assistants.

22. Any exhibitor making a false entry shall forfeit all prizes.

23. All manufactured articles must be the work of the exhibitor and must not have been awarded a prize before at any exhibition of the Society; but any manufactured articles may be shown for exhibition purposes only.

### NAME

Sec. 1. This Society shall be called the MISSION CITY AGRICULTURAL AND ARTS ASSOCIATION.

### OBJECT

Sec. 2. The purpose of this Society shall be to encourage the cultivation of the soil, and the general development of all the agricultural resources of the Province.

Your Ad. in This Paper

## Will Find the Right People

BECAUSE THE RIGHT PEOPLE ARE LOOKING FOR YOUR AD.

If you COULD (although, OF COURSE, you can't) stop every man you meet on the streets asd ask: "Do you want to buy a pair of shoes?" (Or any other kind of goods) You might find half a dozen who would say "Yes." Perhaps not one of these, however, would want to buy the article you want to sell.

If your advertisement, however, were to be printed in these columns this week, it would "stop" EVERY MAN IN TOWN WHO WANTS TO BUY SHOES, OR CLOTHES, OR ANY OTHER ARTICLE—and it wouldn't "stop" anyone who didn't want to buy. That's the beauty of the advertising way of finding a buyer. The ad. finds the buyer through the simple process of being easily and readily found BY the buyer - And if, among the prospective buyers of goods, there is one to whom your goods would be a bargain, and your ad. is a convincing one, you'll sell what you want to sell.

The Kaiser having read so much in the papers about the British exploit in blocking Ostend, recently honored that town with a visit to see just what damage had been done. Judging from his peevish expression, he saw it.....The German naval officers, shown here "at heel" have doubtless just finished explaining to his Majesty how the regrettable incident was allowed to occur. Note the sign at the left offering shelter for two hundred people, indicating that Allied airmen have made the garrison at Ostend at least apprehensive.
