ON FLANDERS FIELD

On Flanders Field the poppies grow,
Between the crosses, row on row,
And in the sky the larks, still singing, bravely fly,
Unheard amid the guns below.

We are dead, short time ago we lived
Felt dawn, saw sunset glow,
Loved and were loved, and now we lie
On Flanders Field.

Take up our quarrel with the foe,
To you, with failing hands, we throw
The torch, be yours to lift it high
If ye break faith with us who die,
We shall not sleep though poppies grow
On Flanders Field.

Mr. P. D. Roe started the ball arolling by asking that his name be not considered by the convention; then came Mr. Manson, and so along the line, leaving Mr. Stacey the lone man and no further need of a further vote.

VICTORY LOAN PRIMER

Answers to questions that may arise in minds of prospective bond purchasers. Facts of great campaign to raise money to finance Canada's share in achieveing success over German arms.

Q. What is a Victory Loan?

A. It is a loan of money by the people of Canada to the Government

Q. By whom is the loan authorized?

A. The loan is authorized under Act of Parliament of Canada.

Q. Why does the government borrow money.

A. To pay all extraordinary military expenditures. To create a credit in Canada by which England can purchase food and munitions. Unless this credit were established, England would be compelled to buy in the United States, where credit would be established.

Q. Are not the ordinary receipts of our Government from taxes sufficient to do this?

A. The admininstration of the country's affairs is being carried on as before the war and at the same expense. Increased taxation meets a portion only of the cost of the war. Extraordinary conditions require extraordinary expenditures and necessitate borrowings to cover same.

Q. How is the Government going to raiset his large amount of money?

A. By borrowing from the people

Q. What is a Government Bond?

A. It is the direct and unconditional promise of the Dominion of Canada to pay upon a certain date a specific sum of money together with interest at a specified rate, payable at specific dates until the bond matures, or is called for redemption.

Q. What are the requisites of a bond?

A. 1st, its safety; 2nd, its marketability; 3rd, its interest yield.

Q. Has our country sold war bonds before, and if so how much and when?

A. $100,000,000.00 in December, 1915; $100,000,000 in October 1916; $150,000,000 in March, 1917.

Security, the Best

Q. Can I change bonds of old issues for new?

A. Yes, at the price of issue of the old bonds. But you cannot take up less of the new issue than the amount of the old issue surrendered, each class of bond taken at its issue price. For instance—if you have $1,000 face value of old bonds purchased at issue price of $96, these are worth for exchange into the new issue $960. You must therefore buy $1,000 of the new issue and pay the difference.

Q. Has Canada issued bonds before and if so has it ever failed to pay all its bonds when they became due?

A. Canada has borrowed money on bond issues ever since Confederation was affected, and has always promptly paid the bonds when due.

Q Could anything happen that would make it impossible to pay the bond?

A. Nothing could happen unless Germany wins the war. Their victory would cause you to lose your bond and probably all your other belongings. But this is a Victory Loan to prevent the Germans having any say in the matter.

Q. Can the Government make me buy a bond?

A. No, but in a Victory Loan everybody should be only too willing As a patriotic citizen you will no doubt do your duty.

Q. I have bought bonds and stocks before from people I did not know and the results have not been satisfactory. How do I know everything is all right in this intsance?

A. The salesman does not ask you to give him money. Any cheque made out in payment is to be made in favor of (Credit Minister of Finance). The cheque cannot be cashed save at the order of the Department of Finance at Ottawa.

Q. If these bonds are so good, why don't the banks and big people take them all?

A. The banks and big people are buying them and still want them.

Q. Why should not the insurance and mortgage companies be made to lend money to the Government?

A. They are voluntary subscribing all they can spare out of the ordinary channels of their business and still maintain their usefulness in the community. To call in loans already made to municipalities, business men and farmers for the purpose of buying Government bonds would seriously embarass the whole country and would not add to the total supply of money.

Terms Easy

Q. Will I have the right to exchange these bonds, if ones at a better rate are issued?

A. Yes.

Q. Are Victory Bonds exempt from taxes?

A. They are exempt from all taxes imposed by the Dominion Government.

Q. Can I buy a bond on the instalment plan?

A. Yes.

Q. If I desire to pay for the bond at the time of subscription, may I do so?

A. Yes.

Q. If I pay in full do I receive the bond?

A. Your own bank will receive the money, give you an acknowledgement, and undertake to procure the bond from the Government and deliver it to you.

Q. If I lose my bond can I get another?

A. Yes, if a bond is registered. No if it is the ordinary coupon bond payable to the bearer. The latter is like the case of a dollar bill; if you lose it, it is gone.

Q. What is my security for payment of principal?

A. The whole of the resources of Canada, including all public property and all the property of all the people.

Q. Who is going to guarantee that my interest will be promptly paid?

A. The Dominion of Canada's entire credit responsibility.

Q. Will all the banks take a bond as security?

A. Yes, and it will be guilt-edged security. Every chartered bank in Canada will accept these bonds as excellent security.

Interest Paid Regularly

Q. What percentage will the bank lend me?

A. From 80 per cent to 90 per cent of their par value, or $80 or $90 on each $100 bonds.

Q. When will the interest be paid and how?

A. Interest will be paid every six months and you can have it paid in coupons or cheque—just as you prefer.

Q. Will it cost me anything to collect my interest?

A. No.

Q. How do I collect?

A. There are two methods. With the coupon bond, you merely cut off the coupon every six months. These coupons are payable to bearer and will be cashed at any chartered bank. If bonds are "registered" your interest is sent at the expiration of every six months from Ottawa. Remember that a bond grows a coupon every six months and when this coupon is cut off and spent, your bond is just cut off and spent, your bond is just as valuable as it was before.

Q. Should a married woman use her own name or her husband's?

A. Her own. Mrs. Mary Brown: not Mrs. John Brown.

Q. Do I have to keep the bond until maturity?

A. They can be sold any business day on the financial market.

Q. Can the Government keep my money any longer than the term?

A. The Government has no moral or legal right to keep your money longer than the term of the bond.

Q. Suposing I want to sell my bond?

A. Any bank, trust company, reliable bond dealer or broker will be glad to sell your bond for you at any time.

Q. What would a broker charge me for selling my bond?

A. One-quarter of 1 per cent par value, or 25¢ on each $100 bond.

Q. I cannot afford to tie my money up. I may need it any time?

A. Any bank in Canada will loan on these bonds up to practically the face value, or the value as then quoted on the market. There is no security issued anywhere on which

Our Shibboleth—Neither for nor agin the Government.

FRIDAY, NOVEMBER 16, 1917

The convention held today in our town was a most harmonious one as shown by the result elsewhere.

It is hoped now that Westminster has done the right and proper thing that New Westminster city and district will get down to business and support their Unionist candidate and all will be serene.

Might we mention, without creating a storm of indignation, that the convention today could very well have done without the 'self-imposed' advice of a legal light from New Westminster. As a political peace-maker he might be doing good work in his own city, where perhaps his remarks would have been better appreciated.

The ont great outstanding feature of public life in Canada during the past week has been the great Victory Loan which Dominion Government has placed before the people of Canada. The Government are asking the people of Canada to subscribe to a loan for $150,000,000 in order to create a credit for England so that trade may be carried on with this fair Dominion of ours and the great heart of the Empire.

Should this loan be a success it will be the means of preventing England getting war supplies in the United States where the credit is good for any amount desired. It is a patriotic matter with us all in two ways It is a loan to ourselves to help us carry on the business of war. It is a patriotic loan in the fact that it will help to win the war, probably sooner. It is patriotic also in the fact that it shows the feeling of the Canadian people towards the successful upholding the rights of the Allies. The man who subscribes to the loan —even if only a small amount—has a personal interest in the winning of the war.

The terms of the loan are made so that almost every person can invest. Ten per cent down and the balance spread over until May, 1918, and further, money can be borrowed from the banks at the rate of 5½% the same as the interest on the bonds. This helps in this way, that if a person subscribes and something turns up that he is disappointed in not having the money when the time comes, he can borrow from the bank to make the payment, thus not losing what he has already paid in.

Like the other loans of the government the amount could be easily borrowed from the capitalists of the country, but this is not the idea of the government—they want the money from the common people. It will show to the Government the popularity of the winning of the war is in Canada.

It seems painful that there is so much difference of opinion these days about the advisability of supporting Canada's Union government. The return of the Union Government to power at Ottawa at the coming election is of the utmost importance to Canada. It means for a certainty that Canada will continue in the war, uninterruptedly, and that soldier will be on their way to France at an early date. The return of the Laurier party to power at Ottawa may be in the end all right but the boys now in the trenches will have to wait a great deal longer, according to our reading of the manifesto, to be relieved. We read of our boys being "killed" "gassed" "wounded and missing" yet we talk of supporting a government that will not take quick action in sending men to their relief. The lines are clear cut. The duty in the matter of voting are also clear cut. There was never such a clear cut issue placed before the people of Canada as there is today. We are given the outlined path which the one party will carry out, and the other is a dim issue, with great possibilities of the main issue, the war, being lost sight of altogether owing to local jealousies and selfish aims.

Have You Bought a V. B. Yet?

TO WOULD-EXEMPTIONISTS

It may not be yet too late to consider the following questions:

Do you realize that our country is at war fighting for the ideals Christ gave us—fighting against hate, cruelty, beastiality?

Do you realize that the early Christians, the true Christians of conviction, if alive today—would be the first to be fighting for those ideals our saviour bade us cherish and preserve?

Do you realize that, if you are granted exemption, you will ultimately be forcing a married man, of maturer age, to leave his wife and children to uphold the honor of YOUR country and (save the mark) of yourself?

Do you realize that the reasons you put forth for exemption are selfish?

Do you realize that your place can very well be filled by a returned soldier, who has already done his bit for your country?

Do you realize that our "boys" whoh ave been doing such noble work at the front "cannot get furlough if reinforcements are not sent forward?

Do you realize that if, unhappily, our cause is not successful, you would be a slave for life to our foes?

VICTORY LOAN PRIMER

(Continued from Page One)

at the present time and in future the borrower can secure a loan nearer the face value, or more readily.

As Good As Cash

Q. Where does the money go, the proceeds of the sale of war loan bonds?

A. The money stays in Canada. It does not go to England nor to the United States nor any other foreign country. It goes into our banks, into our pay rolls, into business generally. It goes back into farming and is in general circulation. The wage-earner gets a great deal of it.

Q. Assume a good business deal is put before me calling for ready money and my funds are tied up in the war loan?

Q. What will happen if I do not buy these bonds?

A. One result would be that the orders sent to Canada by Great Britain would be curtailed. The volume of our exports would immediately suffer, as we cannot export to any other country on account of lack of shipping and the danger of the submarines, and you can't buy wheat or any other commodity without money.

Q. Why should women buy Vittoyr Bonds?

A. The women have the same reason for buying Victory Bonds that the men have. Perhaps as a class they have a greater reason, because the amount of their individual savings will not have reached so much as those of the men, and paying by instalment s and in small amounts they can at once obtain the rate of interest allowed on the Victory Bond, instead of first depositing their moneys in a savings account at small interest and having to wait until there enough to lend upon a house or farm mortgage.

Q. How does the purchase of Victory Bonds express the patriotism of the Canadian people?

A. Every citizen of Canada who buys a Victory Bond registers his approval of our defending ourselves against Germany. Every citizen who buys a Victory Bond testifies to his love of country. Every citizen who buys a Victory Bond contributes towards Victory, and thus saves the lives of hundreds of his fellowmen.

SURPRISE PARTY

A number of friends undertook to surprise Dr. Swift last Friday evening. Six tables of whist was played. Mrs. Scotvold won the Ladies first prize: Mr. Peele and Mr. Zeigler had to cut for gentleman's first. Mr. P. R. Peele was the lucky one. Mrs. Coogan got the consolation prize. A nice lunch was served. All voted it a pleasant evening.

If you desire any information about the big Victory Loan, further than you can read elsewhere, see Mr. P. R. Peele, J. A. McGowan of Abbotsford or Mr. Plummer of Clayburn. Any of these gentlemen will be pleased to see that your application is filled out if you so desire.

YOU CAN IMPROVE YOUR OWN TELEPHONE SERVICE?

Leading telephone engineers have made the following statements:

When speaking into a telephone the best results are obtained with the lips very close to the transmitter—just so that they do not touch it. Removing the lips from the transmitter has the same effect as lengthening the line in use as follows:

One inch lengthens the line 57 miles.

Two inches lengthens the line 128 miles.

Three inches lengthens the line 179 miles.

Four inches lengthens the line 218 miles.

Co-operation by subscribers is earnestly requested in everything which will give to them BETTER AND MORE EFFICIENT TELEPHONE SERVICE.
