ALBERNI ADVOCATE

Vol. 2 | Alberni, B. C., Friday, Oct. 11, 1912 | No. 7

WATER PIPES ARE ON HAND

The first of the consignment of the water pipes for the new system of the Roger Creek Water Works Company was received this week by the contractors, the Canadian Pipe Company. There were two carloads of the pipes, and they will be rushed into position as fast as the big gang can handle them, as it is very desirable that the work progress to a point outside of the bed of the creek before the rainy weather set in. The dam is now about completed and the company has certainly made a good job of that portion of the work.

There is an evident intention to put everything down to stay, and no pains have been spared in order to make the work of the most durable nature.

Those who are working for the contracting company say that all the orders are to make the work good no matter how much time and material it takes to do this. The water company is to be congratulated on securing a set of contractors who approach their work in this spirit. It is safe to say that when the new system is installed it will be of the best, and that Alberni will have a water supply that will be something to be proud of.

That all of this can be accomplished at a cost that is nominal, as compared with that which towns are usually forced to spend in order to get a water supply, is only another of the many features that all combine to make Alberni such an attractive place.

The sight of the freight wagons piled high with the water pipes being conveyed to the works was a frequent one in Alberni this week, and many were the comments on the excellent workmanship and material shown in the consignment.

Let the good work go on.

Football Dance.

A dance and supper will be given by the Wanderers Rugby Football Club on Friday evening, Oct. 11th., in the theatre at Port Alberni. The tickets are one dollar. The Orpheus Orchestra, consisting of four pieces, will provide the music for the occasion.

Read the "Alberni Heights" adv.

Steam Laundry.

The work of placing the machinery for the new Pioneer Steam Laundry has reached completion, and the establishment is now opened for business.

Messrs. Robertson & McDonald, the proprietors, state that the chances for a good line of business appear to be bright, as there have been a large number of inquiries on the part of the prospective customers, and the business is welcomed as one that has been needed for a long time. The new price list shows that the scale will be the same as the laundries outside, so that there will be the saving of the freight both ways, as well as the satisfaction of doing business with a home institution.

The machinery is up to date in every way, and there will be no trouble in turning out first class work once things are in running order.

There is now no need to let the Oriental Magnate mangle the remains of your lone collar, nor yet blandly smile and remark, "You no catchee tickee, no catchee shirt."

Alberni A. I. A.

The annual meeting of the Alberni Agricultural and Industrial Association will be held in the Court House, Alberni, at 2:30 on the afternoon of Saturday, October 19, 1912.

H. Hills,
Secretary.

Mr. A. E. Mainwaring, of Nanaimo, was a visitor to Alberni this week.

Connaught Park.

Among the recent additions to the suburban subdivisions in the vicinity of Alberni is to be noted that of Connaught Park. This property is located on the upper end of the Creamery Road, and has a very commanding situation on the crest of the first hill that fringes the edge of the great Alberni valley. Now that the intervening timber is being taken down there is a grand view of the city, and the head of the canal from this property and this will improve as the clearing of the valley in front progresses.

It is to be noted with satisfaction that the Connaught subdivision is being sold in half acre blocks, and that those are well within the reach financially of the man who is looking for a little home within easy distance of Alberni, and who at the same time desires more land than the usual 33 feet lots that are on the market, often miles away from the city. The park is very little further from the E. & N. depot than the business center of the city, and as the Canadian Northern will also run along the base of the same land Connaught Park will have excellent railway facilities in addition to the first class wagon road that connects it with Alberni.

That the property is being handled by the well known firm of H. V. Winch & Co., of Victoria, and Vancouver, is a sufficient guarantee of a square deal to those who do business in the new subdivision. This firm sent in an expert to carefully examine the property before they would undertake the sale of the land, and it was only after this expert had become convinced that the Park possessed the elements of a high class residential subdivision that the firm took the matter in hand.

Road Inspection.

Hon. Thomas Taylor, Minister of Works, better known as "Good Roads Taylor," will be in the Alberni District shortly on a tour over the Island highways. It is hinted that he is looking for pointers as to just what constitutes a "good road," and we can certainly show him some things along these lines that are a credit not only to the department of which Mr. Taylor is head, but also to those who have the immediate work in hand.

A little crowded for room this week, but will do better next time.

Made Good Time.

Mr. Harold Bishop, who went outside to try his speed in fast company at New Westminster, had a very satisfactory experience. While he only ran fourth in a field of seven he had the satisfaction of leading the field for forty yards, and causing a B. C. record to be hung up by the winner. Mr. Bishop made the 100 yards in 10 1-5 seconds, fast enough time to have won in any ordinary company. He also got some valuable experience as to training methods, and hopes to do better next year.

The Walton Dance.

Mr. Harry Walton, of the "Place Where You Dont Get Lonesome", invites all his friends of Alberni, Port Alberni, and the surrounding district, to attend his dance on October 30th, in Whyte's Hall. Mr. J. J. Burke has very kindly consented to act as Master of Ceremonies. Dont forget the date.

Annual Meeting.

The Annual Meeting of the Alberni Agricultural and Industrial Association will be held in the court house at Alberni, at 2:30 o'clock on the afternoon of Saturday, October 19th. It is understood that this will be a very important meeting as there has been a large influx of new members since the last meeting, and several changes in the routine programme have been suggested by the new members. The Port has taken a much greater interest in the association this year than ever before, and between forty and fifty new members are reported from that town. This must bring the present membership to well over 150, and it is only reasonable to think that those who live in the Port will demand some representation on the new board. It is to be hoped that all the old members will turn out in force to the annual meeting in order to take a hand in any changes that are suggested.

Bad Mixing.

That a chemical formula for making a harmless mixture of the red man and firewater has yet to be discovered was proved by Government Analyst Rayson a few days ago. The mixture, which consisted of several Indians well soaked with rum, was submitted by the Chief of Police for inspection, and on investigation, found to be a highly explosive compound and dangerous to the public safety. One was given four months in which to work the rum out of his system, while fourteen days was handed to another for a similar purpose. A fine of thirty dollars was assessed on the third. So far no trace has been found of the person who had a hand in making the mixture in the first place.

Public Warning.

It has been brought to the attention of the Chief of Police that certain parties have made a practice of fouling Roger Creek by depositing filth in that stream near the new bridge. As this is against the law, and a matter that might well be punished severely, it is to be hoped that the practice will be discontinued. A warning notice has been placed at one spot where the dumping occurred, and a watch will be kept in case of any further infraction of the law along those lines.

Alberni Conservative Association.

It will afford pleasure to many to know that the A. C. A. has arranged for the fixing up of permanent quarters in the Hoselip building suitable for all general purposes of the association. Several members have promised to contribute toward the furnishing of the rooms, and a committee has been appointed to deal with this at once. A small assessment is to be levied on all members of the association, so that all can feel they are directly interested. At the same time there is still room for any more opulent friend to make any special contribution towards the necessary funds.

J. F. Blandy,
Hon. Secretary.

Football League.

A meeting of the West Coast Football League was held on Wednesday last, representatives from each contesting club being present. The following officers were elected for the coming season:

Mr. and Mrs. A. McKee, of Bamfield, were called upon to mourn the loss of their little daughter Norah, who died this week. The body was brought to Alberni for burial.

A. O. F.

The regular meeting of the Foresters will be held on Monday evening next in Whyte's Hall.

The new by-laws will come up for consideration.

BOARD HANDLES MANY MATTERS

A very lively and interesting monthly meeting of the Alberni Board of Trade was held in the Court House on Monday evening, Mr. J. R. Motion occupying the chair. The secretary read the minutes of the previous meeting which were adopted, and the consideration of the business before the board opened with a report of the publicity committee on the special edition of the Advocate used at the Victoria fair. Secretary Whyte reported that many more could have been used. A resolution was passed thanking Mr. Whyte for his services in connection with the fair and the Alberni District exhibit. The chairman remarked that a wealthy gentleman had already come in to Alberni as a direct result of the exhibit. There would no doubt be many others.

The Clayoquot Development League asked to have the board join in a request to reserve all land on Vancouver Island for pre-emption purposes.

This caused considerable discussion, Mr. Rayson was of the opinion that 160 acres was more than one man could cultivate. He thought that all the land should be surveyed and a less amount given to the pre-emptor. After some further discussion the request was received and filed.

The matter of lighting and buoying the Alberni Canal was then taken up. A communication was read from the Port Alberni Board of Trade suggesting the manner in which this should be done and asking for endorsation.

It was pointed out that no range lights were called for on the Somass river up to Alberni. It was then resolved to endorse the resolution of the Port board provided this addition was made and the lights extended to the Dominion Government wharf at Alberni.

It was moved that copies of the resolution be sent to the department of Marine and Fisheries, the Dominion member and to the Master Mariners Association at Vancouver.

A letter was read from J. H. Holdcroft in regard to civic engineering. Received and filed.

The matter of finances were then discussed and sundry accounts were presented.

The motion of Mr. Wilkinson, which was presented some time ago, to the effect that the monthly dues be advanced to one dollar per month was discussed, and an amendment carried making the dues fifty cents per month.

Under the head of new business Capt. Hall drew attention to the application of the Alberni Land Company for the foreshore rights from the government wharf down to the mouth of Roger Creek. He was of the opinion that the entire community was interested. If these privileges went to the land company they could hang up the shipping business of Alberni. His own rights were granted 21 years ago. Privately he would protest but the public should also object.

Capt. Croll thought that the city should own the waterfront, and that the government should be approached with this end in view. This was the best thing to do, and it should be attended to at once.

Mr. Bishop thought that a committee should be appointed to investigate and report on the applications, and hand in a protest to the department. Carried.

Mr. Tolmie pointed out that he had bought certain land on the river as waterfront, and now the man who sold him the property had staked this same waterfront.

It was resolved to instruct the committee to notify the property owners along the river, and ask them to send in their protests to the government office at Alberni. Capt. Croll, Mr. C. F. Bishop and A. F. Hudson were appointed a committee to handle waterfront matters.

It was resolved to appoint a committee, consisting of Messrs. Riddell, Gibson and Pinso to look into telephone matters with a view to improving the service so far as Alberni is concerned.

The question of better postal facilities was discussed, and the Thursday half holiday came in for considerable criticism. It was resolved to ask the Dominion member to take steps to secure a new post office.

It was also resolved to request the postal inspector to cancel the Thursday afternoon holiday.

After some general discussion on minor matters the meeting adjourned.

Mr. M. A. Ward was a visitor to Alberni this week. He reports that he has bought a home in Vancouver where he will locate his family this winter.

INCORPORATION.

THE announcement made last week with regard to the incorporation of the City of Alberni came from a source that can be considered authoritative, and the general terms of the limitations proposed by the government are no doubt as stated in the article. There is, however, several questions that are not answered by any information that was given in the report from Victoria, and it is to be hoped that these matters will be submitted to the citizens of Alberni before the government proceeds to the making out of the exact terms of the charter.

In the first place a map of the territory to be included in the city limits should be sent in for our inspection. Where any changes are made in the terms of a contract, or undertaking, it is necessary for all parties to assent to the changes.

In the second place it is up to the government to give the people a chance to say just what are the terms under which they wish their first election to take place. There are a number of people who are of the opinion that every holder of an agreement for sale is just as vitally interested in the welfare of the city as those who are registered owners, and that in the initial stages of the incorporation all property owners, registered or unregistered, should be given a voice in the direction of affairs. Those who hold this opinion say that the first term is short and that by the time the regular election comes along a number of these agreements will fall in and the ownership be registered. There are others who hold that only registered owners should have a say in these matters. A public meeting should be called for the purpose of settling this question, and the government should yield to the demands of such a meeting as far as can legally be done. It is a well known fact that the registration of titles is away behind, and it is scarcely fair to a property owner to be punished because the work of a department is in arrears.

It is up to the Civic Committee to call a meeting to consider these matters.

This should be called at an early date, and should be largely attended. Nothing can be gained by delay. It is the duty of every citizen to take part in laying the foundations of our future prosperity.

ANSWERS TO QUESTIONS VERY OFTEN ASKED ABOUT ALBERNI

Alberni is reached by train from Victoria. Connections are made with Victoria running through to Alberni on Monday, Wednesday and Friday. Passengers from Vancouver City can connect with this train at Nanaimo.

Alberni is also reached by steamer from Victoria, and in the summer months there is no more delightful trip than this up the west coast of Vancouver Island and along the picturesque Alberni canal.

Land prices as to acreage varies from $20 to $100 per acre for bush land, and from $100 to $400 for land that has been cleared and brought under cultivation. Prices are governed by quality and location and can be had in any quantity.

It has been found that mixed farming pays best. On plots of from ten to twenty acres fruit growing, dairying, poultry raising, hogs and cattle will all pay well.

There are no free homesteads to be had. Land will have to be purchased.

In Alberni will be found the usual advantages of a progressive Western Community that has faith, and the courage of its convictions. There are a number of good stores carrying a wide range of goods, schools, churches, the newspaper in which you are reading this, and a number of athletic and social clubs.

The climate is as fine as can be found on the Pacific Coast, taken the year round. The rainfall is less than that of the City of Vancouver, the frosts are light. There is seldom frost enough for skating or snow enough for sleighing, and when either of these comes it only lasts a few days. For the summer and autumn months there is nothing in the world to excel the Alberni weather.

Alberni is the outlet of one of the largest and most fertile valleys on Vancouver Island. In the District will be found a vast wealth of timber of the finest kind, coal, iron, copper, marble and other commercial stones, brick clays and other materials.

There are numerous attractive opportunities for the manufacturer and investor. The Alberni Board of Trade will be glad to take these matters up with you. Write to them for particulars.

PROVINCIAL LEAGUE HAS BEEN FORMED

A movement has been launched at New Westminster which may prove of much benefit to various sections of the province. Delegates representing several commercial and publicity organizations assembled at the Royal City and decided on taking steps to form an allied organization, to the end that the work of local bodies may be given endorsement and support in matters which have more than local concern. None of the Island organizations were represented at the meeting, but it is to be assumed that they will be included if they so wish. Among the general questions with which it was thought the provincial league could deal are the following, which are of importance to the Island as well as the mainland:

Land settlement—Devising means of aiding and abetting in the settlement of the rural communities.

Labor—Importation of the right class of settlers and providing a medium whereby the settlers and employers could be brought together.

Transportation—Assisting settlement by the building of railroads and reduction of the present passenger and freight tariffs.

It was decided at the meeting to appoint a committee to draft a letter covering the general purpose of organizing such a league as proposed and showing how various commercial bodies of the province could co-operate for their mutual benefit. These commercial bodies will be asked by the committee to consider the advisability of holding a convention with this purpose in view at a place to be decided by the committee.

Several of the delegates from the mainland coast cities and the interior took part in the discussion, the majority holding the opinion that a provincial organization could do good work along the lines indicated, while some were inclined to be sceptical.

Some discussion took place as to whether or not it would be well to limit the organization to Boards of Trade of the province, but the decision was to include all commercial bodies of the province. The motion to draft the letter to the various bodies was passed and the Provincial Development League was successfully launched.
