ASSAY OFFICE

Gold Dust Assayed, Purchased or Taken on Consignment.

Quartz Assaying at Reasonable Rates.

A BRIGHT OUTLOOK.

Atlin's First Mining Investment Shows Prospects of Return.

An Excellent Proposition Made to the Shareholders of the Pine Tunnel Syndicate, and Unanimously Accepted.---A Possible Influx of Much Capital.

An important meeting of the Pine Tunnel Syndicate was held last Friday evening, April 19th, at which there was a large attendance, more than two-thirds of the shareholders being represented. Mr. St. Clair Blackett occupied the chair and invited Mr. Brownlee, Trustee of the Race Horse Group Association, to state the object of the meeting. Mr. Brownlee stated that negotiations were under way (through the efforts of Mr. O. T. Switzer) with Easter capitalists to organize a joint stock company to operate the property by hydraulic methods and dredging, with a working capital of $100,000 as a minimum.

The provisional agreement with the Underwriters is for 40 per cent of the capital stock of the company, fully paid up and non-assessable, to be paid to the Trustee, Mr. Brownlee, for the property. Mr. Brownlee presented a document for the signatures of the shareholders setting forth the above facts and it was forthwith signed by nearly all present. So far, Mr. Brownlee has not been refused by a single shareholder, while the Secretary of the Syndicate has since obtained practically all the signatures of the shareholders within reach in the camp.

It is the intention to delegate to Mr. Switzer the necessary powers to complete the negotiations, and for this purpose he will return to the East in a very short time.

Gravel from the dumps of Nos. 2 and 3 shafts is being rocked so that Mr. Switzer will be able to carry back with him samples of the coarse gold obtained.

The Underwriters have already received detailed survey and topographical maps, showing the proposed ditch line, confirmatory reports and estimates of cost of installation by R. C. Lowry, M. E., photographs of the property, etc.

Mr. Switzer will also have abstracts of clear title to the 16 leases comprising the property, and a detailed statement showing that the local merchants and miners of Atlin have shown their faith in this property to the tune of investing an aggregate of nearly $10,000 for the preliminary prospecting and development.

It is gratifying to note that there is a strong probability of the proposed company taking up other ground on Pine creek.

POSTAL CHANGES.

Reduced Rates on Money Orders.

To those who have occasion to use the Money Order department of Postal Service it will be pleasing to note that an important change has been made by the Canadian Postal Department in the form of a material reduction in the cost of Money Orders.

On and after the 1st of April, 1901, the limit for a single order, payable in either Canada or the United States, shall be $100 (formerly only $50 to the United States), and the rates of commission are as follows:

On orders up to $5			03c.
Over $5	and up to	$10	06c.
,, 10	,,	30	10c.
,, 30	,,	50	15c.
,, 50	,,	75	25c.
,, 75	,,	100	30c.

Rates to Great Britain and other countries remain as they were.

It may be well for the public to watch the Notice board, which is put up in front of the Post office on the arrival of the mails, notifying people when the next outgoing mail will close. Owing to the lateness of the season, the condition of the trails have to be taken into consideration, and a time set which will best suit the mail carriers, as travelling can best be done now during the night.

ELECTION OF OFFICERS.

The Church of England Makes its Selection for the Ensuing Year.

At a meeting of the members of the Church of England, held on Easter Monday for the election of officers for the ensuing year, the following were elected:

Rector's Warden, E. M. N. Woods.
Peoples's Warden, J. K. Shirley.
Treasurer, L. M. De Gex.
Secretary, R. C. Triman.
Sidesmen, W. J. B. Pinder and C. Bourne.

The Rector thanked the retiring officers for their services during the past year, and a motion was carried instructing the Secretary to convey the thanks of the congregation in writing to Mrs. E. M. N. Woods and Mr. J. Pilling for their services as organists.

WHERE IS JONES?

In a recent issue of the PROVINCE Atlin's chances of a public library are considered doubtful for want of a champion named "Alfred Allayne Jones." As the Atlin CLAIM is far reaching, perhaps Mr. A. A. Jones will step up.

The Atlin Claim.

Published every Saturday morning by THE ATLIN CLAIM PUBLISHING CO. A. C. HIRSCHFELD, EDITOR and PROPRIETOR. Office of publication Pearl St.

Advertising rates made known on application.

The subscription price is $5 a year payable in advance. No paper will be delivered unless these conditions are complied with.

SATURDAY, APRIL 27th, 1901.

IN our news columns will be seen an account of a business meeting of the Pine Creek Tunnel Syndicate, held last week. It is gratifying to observe the unanimity of effort on behalf of the Syndicate and the leaseholders.

We wish Mr. Switzer ever success in this, the first local Atlin promotion. Mr. Switzer has been identified with the property since its inception and is familiar with every detail. The property is one that very strongly recommends itself, not alone on account of its encouraging prospects, but from its natural position as regards water facilities, pressure and dumpage. We are credibly informed that Mr. Switzer is in touch with underwriters of the highest standing in his native state.

In a recent issue while discussing the amendments to the Placer Mining Act, we expressed the hope that the Mining Committee would see the advisibility of incorporating in these amendments a clause which would place the deep placer miner in the same position as the quartz miner, in as much as that when he had performed a certain amount of work, he was entitled to receive a Crown Grant, or Patent, as it is called in the States.

Unfortunately that Committee did not look at the matter in the same light as we do, consequently it was decided to leave that question as it stood. It is an acknowledged fact that Atlin's future, in the main, is dependent upon its deep lead placers, and the question of Crown Grants as against Leaseholds is one of the utmost importance.

Mr. J. B. Hobson, manager of the Cariboo Hydraulic Mining Co., is using every endeavour to bring influence to bear with the object of getting the Government to reconsider its decision. He cites the case of California, where in the early days of its deep placer development it was absolutely necessary to give and make every inducement and facility for the obtaining of capital. Upon the passage of the Act, in 1872, granting the same privileges as obtained to the quartz miner in the issuance of Patents, over $100,000,000 was interested, which in the course of ten years was yielding from ten to fifteen million dollars annually. Under the present conditions existing in this Province the prospector is practically debarred from touching deep placer ground when he is compelled to pay out annually $1000 in work and labour or forfeit his rights, consequently he has to seek other countries where the conditions are in his favour.

We are gratified to learn that a petition was this week presented to the Atlin Board of Trade, petitioning the Government to endeavour to incorporate in the amendments the issuance of Crown Grants on deep placer ground, and that its endorsement has been almost unanimous.

THE HUNT.

Atlin District From a Sportsman's Point of View.

Game, Large and Small, Unlimited Within Its Area--Easy of Access And Expenses no Greater Than Elsewhere in B. C.

"Variety," it is said, "is the spice of life," and truly variety, in the very essence of the word, may be found in our beautiful Province and especially in our surrounding district of Atlin.

We have heard much of its mineral wealth; which is now upon a sure foundation, but as all the world are not miners, Nature has given us treasures with a lavish hand which may fill the desires of all.

In the East our district has been noted as the "Tourists and Sportsman's Paradise." That it is one of diverse scenery, from the picturesquely beautiful to the supremely grand, no one who has seen it will deny, but as a "Sportsman's Paradise"—the term seems incongruous—nevertheless, it is to say the least a very much to be desired country. I have travelled a great deal over the wilds of British Columbia and only in two places have I met men, who professed to be sportsmen, dissatisfied with their field and its contents. Both instances were unjustifiable accusations. One of these was Atlin. We must remember, howeve, that in '98 and '99 the whole country was overrun with invaders of Nature, and for a radius of 12 miles or more from our city the tents of men were thickly strewn. Small wonder is it that the game is driven off, not to be found within half a day's tramp from home, though it is quite within the range of possibility it might be. At any rate abundance of small game is to be had, in its season, within so easy range. A very wise provision it is that Nature so preserves her animals and at the same time cares for one of the great attractions of our country. All men are not seeking gold. There are a few in the world who have plenty and who are willing to spend it freely in the pursuit and enjoyment of sport. In addition to the capitalist who will help develop our mineral resources, I feel sure that if Atlin were brought before the sporting world as a field for big game hunting, we should be able to attract men of means here who would be a great benefit to our tradesmen, and glad to avail themselves of and pay well for the service of those who could act as guides. In life, the greater the difficulties to be surmounted the more highly valued is the prize captured, and the same holds good in the hunt. We have in our district abundance of game and trophies which would excite the admiration of men who are authorities in such matters.

Beyond the noise of the hum of city life, in the land where the echo of the miner's blast is unheard, the forest teams with game, moose, caribou, sheep, goat, bear, lynx, martin, fox (red, cross, silver-gray and

black), wolverine, fisher, etc. Our lakes, which are innumerable, are plentiful in fish and wild fowl in their season; the woods and hills contribute vast abundance of grouse and ptarmigan and the swamps, snipe; and all of this of easy access. What more can a sportsman desire?

LETTER TO THE EDITOR.

DEAR SIR:—In the last issue of the CLAIM I noticed a copy of a letter bearing the signature of "W. J. Partridge," alias Sailor Bill, alias Fakir Bill, as he was commonly called by experienced miners in this camp, during his stay in Atlin. I see by this letter that Faker Bill is trying to get some free advertising by attacking the Atlin Mining Co.'s property on McKee creek. This does not surprise me, nor will it those who know anything of him.

Through the medium of your columns, with your kind permission I should like to put a few questions:

1st. Who is this W. J. Partridge, with the many aliases.

2nd. What has he ever done to help this camp in any way? except, perhaps, to help Bob Florman float the Anaconda group, which he sold to Lord Hamilton.

3rd. Where has he ever made any discoveries or where has he opened up any property?

4th. Where has he ever benefitted the citizens of this town financially or professionally?

Answers to these questions will undoubtedly be appreciated by the citizens of Atlin.

After he got through with Lord Hamilton he looked for new fields to work on, he came up to McKee and introduced himself to me as a mining promoter, as a man with unlimited means. He further gave me to understand that if there was any property on McKee creek to be sold it would have to go through his hands or it could not be sold at all. I told him then that McKee creek was no "fake" property, and that it would sell on its merits at any time, I finally informed him that I, personally, had no need of his services on the creek. About a year ago he managed to get in some stakes on the creek in the following manner: I was running a tunnel all winter and drifting on the hill, prospecting my ground, and as the work was costing me a good deal of money I swore my men to secrecy as to the result of the work. When I got through with the work one of my men, named Bob Brown, betrayed me to Fakir Bill and told him I had struck good ground under the hill, I had intended—if the the ground warranted—to stake a lease, but Fakir Bill, on Brown's information, sneaks up, and stakes it out before I got a chance. Then he staked two more leases and came to me and told me I could have a fourth interest in them. I thanked him, but advised him I did not wish him for a partner and that he could keep it all to himself. His scheme was to pool with me on the creek and let him sell the whole property. On my refusal to co-operate with him he was prepared to abandon the ground, but chanced on Mr. C. Christopher and eventually sold his interest to him.

In the letter, above referred to, Fakir Bill "thoroughly prospected" the creek, he says. He brought one man with him, whom he started to work sinking a shaft—this shaft was sunk on one of my creek claims No. 7 below—he worked a couple of days and each day he would bring up a big prospect in the pan; the last day that he worked he brought up a pan containing about 60 cents, which he stated he got off the bottom of his shaft. On this man's return to Atlin I sampled the dump and found nothing in it, as I well knew there was little or nothing above bedrock. I got bedrock in the shaft about two feet deeper with as good an average prospect as on any part of the creek. This is the "Thorough" prospecting Fakir Bill has done on McKee creek—one hole, 5 feet deep!

I have prospected the creek from No. 10 below Discovery to Eldorado, which is 39 above, and every claim above Discovery has been worked with an average of an ounce per day to the man. My estimate of the gold that has been taken out of these claims is $150,000, and that with the crudest methods of working.

If the man referred by Partridge, is meant for myself, who got into debt at the bank, I emphatically deny it. By way of explanation I might say that Brogan & Langley contracted a debt of $4070 on some ground they owned and I bought them out by paying off the indebtedness, making money out of the same ground. Apart from this, the third day I got bedrock—while making my drain ditch—I took out $80; from that day on every man represented a dividend, and I was paying my men $5 a day, too, I considered it a poor clean up when I did not get 20 ounces for 4 men's work of six days, and I cleaned up in one week of six days no less than 61 oz. 10 dwts. During my stay on the creek I took out over 800 oz. from Discovery, and made good money, in fact, in the two years I cleaned up, after paying all my men and my personal expenses, $7000—this does not include the sum I sold out for, but actual working profit taken out in gold.

If Fakir Bill could have got in on the deal as he wanted to McKee creek would have been the "biggest thing" in the world, but circumstances alter cases. Thanking you for your space, I am, dear Sir, Yours sincerely,

ROBERT MCKEE.

Atlin, B. C., April 22nd, 1901.

P. S.—Since the above was written, I have returned from McKee creek, and am surprised at the amount of work already accomplished by Mr. Featherstonhaugh. I have no hesitation in stating that with everything now in his favour the ground will pay dividends from the very start. R. McK.
