THE ATLIN CLAIM.

VOL. II. ATLIN, B. C., SATURDAY, AUGUST 27, 1904. NO. 267

Important Announcement

FROM

THE PRESIDENT OF

THE ATLIN TRADING CO.

THE ATLIN TRADING COMPANY at the close of a very successful business year desires to thank its many friends and customers for their interest and patronage. We have been able during the past year to give to our customers certain advantages never before possible in the Atlin Camp: first, absolutely fresh stock, both in groceries and dry goods; second, the very best quality which the markets of the East could furnish; and third, prices which were only possible because of taking advantage of the commodity freight rate, and discounting our bills for cash, instead of paying high bank interest which in every instance must be added to the price of goods, and which the customer of course must pay. Next year we promise even better things. Very attractive arrangements have been made with prominent Eastern manufacturers whereby we become their special agents in this territory for the sale of their goods, thus cutting out the wholesale profit and selling to the consumer direct. This is especially true in clothing, which we can sell to-day at the same price or less than any retailer on the Coast.

Armour & Co., the largest meat packers on the American Continent, have selected as as their exclusive distributing agents in this territory, and their line of canned meats, etc., are especially packed with relation to the changing climatic conditions in this country. These and numerous other connections have been made and our customers will have these special advantages in quality and price.

In order to take advantage of these opportunities in price reduction, it is necessary to pay cash. This we are doing, and in doing so ***we have decided to sell strictly for cash*** and give our customers the benefit of these arrangements.

Therefore, beginning Sept. 1st, 1904, The Atlin Trading Co. will make a general sweeping reduction in every department of their business on goods sold, and feel assured that their present customers and others will heartily appreciate the effort they are making to reduce the cost of living in the camp, where the necessaries of life have always been so high, due to the high freight rates and the long credits which up till now have seemed so necessary.

Assuring you of our appreciation of the patronage which we have received,

We are, most sincerely,

ATLIN TRADING COMPANY, Ltd.

A. S. CROSS. President.

A Little Fun Now and Then Is Relished.

At the Atlin Club on Thursday evening gathered most of the "shining lights" of our community, and notwithstanding the absence of ladies a very appreciable entertainment was enjoyed. Mr. W. J. Robinson could be likened into a solar plexus around whom satellites spun, in the successful effort to keep things moving. Mr. A. D. Taylor and Judge Henderson, reciting, in their usual brilliant style, held the floor for a considerable time. Mr. W. J. Robinson rendered a lively darkey melody and the selections by the Atlin Club will go a long way towards making the names of Messrs. Robinson, Kappelle, Lipscomb and Garrett memorial. A friendly boxing match between Messrs. Spiers and Fisher was one of the chief features of the evening and was watched with keen enjoyment. Mr. H. Maluin and Captain Damon gave an exhibition of fencing in which Mr. Maluin showed himself to be a master of the art. A bout with singlesticks between Messrs. Fisher and Maluin was well contested, the result being: Maluin, 15; Fisher, 14. The billiard tournament of 500 up, between R. B. Jamieson, Discovery, and A. C. Hirschfeld, Atlin, resulted in a win for Discovery's champion by 80 points. Perhaps the most laughable event was a singlestick mux-up between Messrs. E. M. N. Woods and V. Trotman; the latter, when seen Friday morning, was sorely in need of crutches.

MINING NOTES.

Boulder Mountain.

A scheme to amalgamate the "Lake View" and "White Star" mining properties and certain adjoining mineral claims, situate on the eastern slope of Boulder Mountain, is under consideration.

A mining syndicate would follow to develop the properties, including a series of aurilerous lodes, from small leads to deposits of great size, which have been exposed by tunnels or shafts, trenches or strippings. These and similar working may be seen extending from the vicinity of Birch Creek to the head of Boulder Creek. Assays have been obtained varying from traces of gold to $300 per ton of ore. Milling tests would be necessary to obtain an accurate value of the deposits. Iron pyrites, galena and other sulphides are usually associated with the quartz, and free, visible gold is occasionally in sight. To insure economical and profitable mining it is evidently desirable to develop these properties on a large scale. Sufficient working capital is only required to determine the values and productiveness of the deposits in depth, and it is believed that an immense supply of payable quartz would be exposed to view, which could be mined at a low cost and handsome profit.

The New Dredge.

Our Editor, occompanied by Mr. H. Maluin, paid a visit to the new camp on Upper Spruce this week. The drive itself is certainly one of the prettiest in the country and is full of interest from start to finish. Arriving at the camp, some 16 miles from Atlin, a scene of great activity presented itself. Already the frame of the giant scow is completed and a spacious bunk-house, kitchen, and dining-room has been built. Mr. D. P. Cameron, who is in charge of the construction work, says that the dredge will be finished this fall and ready for operation next spring.

Just above the dredge, Mr. E. Rosselli is operating with six men and is taking out good money.

Our Editor secured some interesting views all along the route, taking in the hydraulic and individual operations.

Spruce Creek Water Question

Miners' and merchants' meeting to be held at Discovery to-night (Saturday) to discuss the water question on Spruce Creek.

Mr. and Mrs. C. B. Coffin and baby left for the coast en route to New York, Monday. Mr. Coffin will return next year to look after his quartz mines which are showing up well.

"Not All That Comes From the Lake Are Fish."

On Tuesday morning, between 7 and 8 o'clock, many people of Atlin who were yet in peaceful slumber were awakened by the strangest and most agonizing cries, such as fancy might imagine could be uttered by a lost soul. On looking out on the streets, people were observed hurrying towards the Lake, and there, about 150 feet from shore, on its cold trembling bosom, could be seen four men frantically struggling around a capsized canoe. Hurridly a fleet of eager life-savers put off from shore, headed by Captain Damon, followed by Messrs. Jim Durie and Hartshorn and several other craft and crews. Mr. Fisher, who boldly strick out swimming for shore, was first rescued; Mr. Harvey, a few feet behind, also striving his utmost to once more reach a natural understanding, was second to be helped; Mr. Stephenson was quietly and patiently doing his best to hold on and steady the canoe when rescued; and with the saving of Mr. Grimes, who was grasping the stern, having lost control of his perpindicular and was much exhausted, the noise ceased. Getting to shore, the icy draughts of the unfortunates were partly replaced by copious doses of stimulants which soon revived their shivering bodies. What might have been a fatal accident is now looked upon as a source of merriment. These four gentlemen had been out practising for Saturday's regatta when they upset.

"It Is Not Good for Man to Live Alone."

The marriage of Mr. Robt. J. Johnston, chef at the Grand Hotel, and Miss Mabel Williams, was celebrated at the Grand Hotel, Atlin, on Monday evening, August 22nd. The ceremony was a private affair, only a few friends of the contracting parties being present. Rev. Mr. Turkington tied the nuptial knot. Miss Ethel Pillman acted as bridesmaid and Mr. Wm. E. Haddon supported the bridegroom. The honeymoon was spent at Discovery and Surprise Lake. Miss Williams, the bride, arrived in Atlin on Saturday from Seattle.

British coal is now shipped to Jerusalem.

The gold production of Cariboo is expected to show a considerable increase this year.

By every boat E. L. Pillman & Co. receive the finest assortment of Fresh Fruits and Vegetables to be obtained in Atlin.

Two negroes were taken from the jail at Statesboro, N. C., August 17th, and burned at the stake. They were the principals in burning a man, his wife and three children near there a short time ago.

The Atlin Claim.

THE ATLIN CLAIM is published every Saturday morning. Mailed free to any part of the world for 50 cents per month; $5.00 per year. Advertising rates: $1.00 per inch each insertion; heading notices, 25 cents a line; special rates on application.

SATURDAY, AUG. 27TH, 1904.

A feature that deserves mention is the fact that at no time during the present summer has freight been delayed between Caribou and Atlin and great credit is due to the captains and crews of both the Gleaner and Scotia, not forgetting the Taku Railway staff. In former years it was a rare occurrence to get all the freight here on the day of the arrival of the Gleaner, but with the present system of scows and the generalship of Capt. Bragg, the whole cargo is delivered on the wharf at Atlin the day it arrives at Taku. It is also pleasing to note the connections, which are invariably made on time. The service is all and more than could be expected, but there is still one drawback, which we trust will be remedied before long, that is, the old kick, "high freight rates."

FRESH NEWS.

Wheat harvesting is now in full swing in Manitoba.

Revolution has broken out once more in the Argentine.

Lord Curzon will serve another term as Viceroy of India.

A fire does $35,000 damage at the Electric R. R. car shops, New Westminster.

The Grand Trunk Pacific organization is now complete, but no construction will take place this year. The directors are now on the Pacific coast to settle on a terminus for the new line.

The steamer Penduin has been wrecked and 25 persons drowned. She was chartered to search for "Kruger's millions," alleged to have been sunk with the steamer Zululand off the coast of Natal three years ago.

DISCOVERERS OF ATLIN

Engage in Hotel Business at Discovery City.

The Balmoral Hotel has changed hands and under its new management bids fair to rival the best of them. Messrs. Miller & McLaren, who have the proud distinction of being the cause of our being here, intend to give to all a hearty welcome, the best of everything and the "tip" if a new discovery is made. Mr. Miller says that he is here to stay and even if the hotel does not pan out rich, he has a pay-streak in Discovery which will keep some of the boys for some time to come. We wish our pioneer discoverers every success in their new venture.

New Arrivals.

WAR NEWS.

Chefoo, August 26th:—A leak in the wireless telegraph with Port Arthur discloses the fact that half the garrison are dead and wounded. The continuos attacks by the Japanese are rapidly reducing the fortifications and the remainder are in desperate straits. A military hospital in the middle of the city was destroyed by three shells which struck it in rapid succession. One thousand persons were killed. Three gunboats in the harbor have been destroyed by Japanese shells. The ships in the harbor keep constantly shifting their positions to avoid being hit.

Last night the Russian forces concentrated to repel an assault on the center. The guns of all the forts were focused on the advancing columns and were mowing them down.

The Japanese assault upon the center entrenchments and Pothai Fort progressed fiercely all day yesterday. The Japs were repulsed several times, but always returned again.

Russian officers in Chefoo claim to be in wireless touch with the besieged.

Chefoo, August 24th: — Latest advices from Port Arthur by Chinese refugees state that the Japanese are hotly pressing the Russian center along the railway and the Russian right near Golden Hill. A refugee from Tai Pangtze, one mile from Port Arthur, says the Japanese occupied that place on August 27st. Information received, and accepted as confirmation of previous reports, states that Russians have been driven from Itzshan and that Japanese are close to southern forts.

Resident Japanese in Mukden are subscribing money and preparing to celebrate the fall of Port Arthur, which is expected daily.

St. Petersburg, August 24th:—Despite the popular feeling that Port Arthur is doomed, the success of General Stoessel, in beating off the enemy's assaults and the heavy losses suffered by the besiegers, offers considerable encouragement to the war office.

Tokio, August 22nd:—Japanese troops occupied Anshanshan on the 19th, the Russians retreating towards Mukden.

London, August 22nd:—A despatch from St. Petersburg says the missing Russian cruiser Novik had arrived at Korsakovsk, Island of Sakhalien, and the cruiser Diana had been seen off Hong-Kong.

Chefoo, August 23rd:—The first news of the general assault on Port Arthur indicates that a tremendous conflict is raging and that victory is hanging in the balance. After forty-eight hours' bombardment, the Japanese drove the Russians from Pigeon Bay and captured the northern-most fort of the western line of inner defences.

Mukden, August 20th:—A big battle is imminent. The Japanese on the Russian east front are only 20 miles from Liao Yang. The advance posts are not more than four miles apart and small skirmishes occur daily.

Tokio, August 20th:—A Russian gunboat of the Otvajni type struck a mine and sank off Loati Promontory.

Liao Yang, August 20th:—Heavy deluges, caused by rains for the past week, have washed roads away in many places. The Japanese army is not making a move, so far as is known from here.

St. Petersburg, August 20th:—The Russian press says: "Had Russia taken advantage of Great Britain's pre-occupation, during the South African war, to cross Persia, the Baltic fleet might now have a base on the Persian Gulf from which to operate."

St. Petersburg:—The war department has announced that Port Arthur may fall and other reverses on land and sea may follow for Russian arms, but that Russia will eventually win.
