Quartz Assaying at Reasonable Rates.

NEW RAILROADS.

The Lake Bennett and Chilcat Railway Bills

Approved by the Local Legislature — Prospects of Early Construction — Backed by Plenty of Money.

The following telegram received this week from our local member is self explanatory:

"The third reading of the Chilcat and Klahini Railway Bill, also the Bennett Railway Co. Bill have both passed the House and now awaits the consent of the Lieut.-Governor. J. STABLES."

Victoria, B. C., April 24th, 1901.

The Lake Bennett Railway most interests us in Atlin, and it is gratifying to know that the charter has been granted, particularly so, when the company will almost immediatey commence construction and push the road through to completion. It is rather a gigantic piece of engineering work, when it is remembered that a tunnel is proposed to be driven through the Chilcoot summit, and this alone will take many months. However, worse obstacles than that in railroading have been surmounted, and as there are brains, energy and money at the back of the enterprise, we may look for material developments in the near future.

This railroad, as far as this Province is concerned, will run from a point on the Dyea river to Lake Bennett; thence to the 60th parallel of latitude. Steamers will be placed on the lakes, in competition with those of the British-Yukon Navigation Co., and in due season we may look for benefits accruing from such competition.

The Chilcat and Klahini Railway is contemplated with the view o. opening up the Porcupine district, and starts from about the junction of the Chilcat and Klahini rivers; thence westerly, along the latter river and northerly in the general direction of the Dalton trail, close to the British Columbia and Alaska boundary.

SHAMROCK II.

Dumbarton, April 20. — Shamrock II. was successfully launched this afternoon at Denny's yard in the presence of a good crowd of invited guests, newspaper men and employees. Lady Dufferin christened the new challenger, which looked extremely spick and span in its coat of white paint, rimmed with green, while the manganese bottom shone like a mirror.

Sir Thomas Lipton says he expects to build a defender, not a challenger, next year.

ATLIN CENSUS.

Assistant Census Commissioner Macfarlane

Has Begun His Work in His District — Men on the Way to Teslin and Glenora — Returns to be Made in June.

Mr. J. W. Macfarlane, whose appointment as Assistant Census Commissioner was noted some weeks ago in the CLAIM, has now been supplied with all the necessary documents in connection with his appointment. His district comprises the Atlin, Bennett-Lake and Teslin districts, and at this season of the year he and his assistants will have earned all that is coming to them. Mr. Macfarlane has dispatched two men to Teslin, Glenora and Telegraph creek, and there is little likelihood we will see them back again before the op i g of navigation. We are confident that Mr. Macfarlane and his assistants will perform their work in a conscientious and efficient manner, and we do not fear that such complaints as have been heard from Vancouver will be registered from this district.

In order to obtain a census it must be done with the greatest care as well as despatch, and we are confident that under Mr. Macfarlane's supervision this will be accomplished.

We have been privileged to examine the different schedules and as we will have to answer the various questions ourselves we would suggest that no obstacle be placed in the way, particularly as all assistants and enumerators are under oath not to devulge the information obtained in the carrying on of their work.

Mr. Macfarlane's assistants in the district are as follows:

Atlin to Half-way House: Geo. Polly.

Half-way House to Discovery and creeks east and south: Harry Brown.

Bennett-Lake and Porcupine: Robert Patrick.

Teslin and Dease Lake: George Cootes.

RUBY CREEK HYDRAULIC MINING CO.

Among the recent arrivals announced in the CLAIM was Mr. P. W. Law of Ruby creek. We learn that Mr. Law this winter organized the Atlin-Ruby Creek Hydraulic Mining Co., with a fully paid-up capital of $18,000, for the purpose of exploiting Ruby creek. The company is now prospecting and developments have warranted the ordering an hydraulic plant.

The Atlin Claim.

Published every Saturday morning by THE ATLIN CLAIM PUBLISHING CO. A. C. HIRSCHFELD, EDITOR and PROPRIETOR. Office of publication Pearl St.

Advertising rates made known on application.

The subscription price is $5 a year payable in advance. No paper will be delivered unless these conditions are complied with.

SATURDAY, MAY 4th, 1901.

WE are compelled to announce to the public that we are not well enough "healed" to place ourselves on record as philanthropists for the good of the camp, nor can we conduct the CLAIM on "jaw-bone." We have liabilities to meet and we have always paid for what we got, but we expect others to do the same with us. Our time is valuable and we expect the same treatment as is accorded to others and not to be told "the CLAIM can wait," when we look for settlement of our accounts.

We are stating no more than the truth when we take credit to ourselves for having done a great deal of good to the Atlin district, and as a reward the CLAIM is entitled to the support of the public. It is the DUTY of everyone with any interest in the camp to support a live paper, whose motto is "Atlin *first*," and which has never yet failed to unfurl it. We have tided over a long, hard winter on a beggar's allowance, but now with the advent of a prosperous season before the camp we respectfully ask the unqualified support of the citizens of the district. We are alive, but it requires the combined assistance of the merchants, business men, miners and others to keep the CLAIM alive. We extend our grateful thanks to those who assisted in its revival and kept the paper alive during the winter, but there are some we might have looked to but they turned us down, while there are others whose promises are very poor pay. This town has always had the name of being "good pay" surely the public would not have us think otherwise.

With this issue we are reducing the weekly subscription of the CLAIM to 15 cents per copy and 50 cents a month. We sincerely hope that this reduction will, ere the 1st of June double our subscription list. This price is within the reach of all, and we have that confidence in the public that another appeal will be unnecessary.

IT must be with genuine satisfaction that the recent material change in the weather is noted by all in camp. The long continued dominance of Jack Frost has held snow and ice with a master hand and we had almost despaired of a spring at all this year. Practically all work on the creeks has been delayed fully three weeks, but the mild weather and southerly winds this week have carried off the snow like a mist, and now that it has begun to go we would like to see it all go. The weather prophets say that the probabilities are strong for a continuance of mild weather, judging by the phase of the moon—we hope their prognostications may prove true. Preparatory work on hydraulic ground, especially that on the higher elevations, will be very late this season, and unless the change is prevalent all over the district, many of the companies intending to operate will be delayed from three to five weeks over last year before they can begin piping.

To the outside world Atlin is thought to be a place "way off" from civilization and especially during winter, where the hardships to be undergone in getting here are thought of with awe. Last week we announced the arrival of two little girls, the elder but 14, who came all the way from Indianapolis, Indiana, U. S. A., to Atlin alone. To use their own words "They had a splendid time, and had no trouble at all." This week we note the arrival of a well-known gentleman from Victoria, who left Vancouver by the C. P. N. Co.'s S.S. Danube, Thursday, April 25th, at 2.30 p.m. and arrived in Atlin on Tuesday, 29th inst., at 11.30 a.m., thus making the trip in four days and 22 hours, the ocean trip occupying three and a half days. This is a record breaker, but, nevertheless it can be done. The mails from Vancouver for the last three or four weeks have reached here in from four and a half to five and a half days. We are not aware that the "hardships" have killed anybody, nor have we heard of anyone applying for admission to the hospital in an "exhausted condition." With many other things we might instance to the uninitiated, the thought of the trip is a thousand times worse than the reality.

Weather Report for April.

Through the kindness of Mr. A. G. Lear of the Record Office, we are permitted to publish the weather statistics for the month of April:

The mean temperature for April was 28.73 above zero. The highest recorded was 45° above zero and the lowest 11° below zero. The prevailing winds have been southerly and the weather shows 26 fine days out of 30 days in the month. Snow fell on the 3rd accompanied with a gale of wind from the north, and a slight fall on the 23rd. Slight rain fell during the afternoon of the 6th and heavy rain during the night of the 30th. An earthquake shock occurred on the 28th, about 11.10 p.m. This making the third shock recorded since the 1st of January last.

The Alaska-Yukon Mining Journal.

One of the latest aspirants for the suffrages of the public in "these northern wilds" is the ALASKA-YUKON MINING JOURNAL, published monthly at Skagway, Alaska, by Messrs. H. C. Diers, Editor, and O. M. Kinney, General Manager. We have been favoured with a copy of the second number. For a review of the mining industry in this northern continent it very strongly commends itself. All the districts, Canadian and American, are taken up in an interesting manner. We commend the publication to all who are interested in this northern country.

DANGEROUS JOKING

Causes Rumours of Small-pox in Atlin

To Be Spread Abroad.---Caught in Time And the Disastrous Effect Counteracted.

Our attention was this week called to the fact that reports and rumours of "Small-pox in Atlin" were beginning to get outside, and as we were well aware there was absolutely no foundation for such reports we took upon ourselves to telegraph Skagway, with the view of forestalling the arrival of the report in that town. The telegram, which was addressed to the two daily papers and to Mr. Busby, Inspector of Customs, was as follows:—

"Deny positively rumours of small-pox in Atlin. One mild case of scarlet fever; patient now convalescent. Authorized by Gold Commissioner.

"THE ATLIN CLAIM."

Atlin, B. C., April 29th, 1901.

On inquiry we are led to the belief that the report originated from a "joke" which was made on a rather credulous individual, who failed to see it. As bad news, like fire, travels with the wind, when not immediately suppressed, the report came back to us off the trails as a "fact."

Atlin, as a health resort, has few if any peers in the country. The best proof of this is the fact that there is barely a living for one doctor, and when it is remembered that we were without a physician from November 4th last year till February 24th of this year, have we not cause to feel that Atlin is without a peer. There was, a few weeks ago, a slight epidemic of "la grippe," the germs of which were undoubtedly brought in by people coming in from the coast towns. Now, about two weeks ago, the scarlet fever patient arrived here from Seattle. The moment it was discovered the Health authorities took steps to isolate the patient and all the men with whom he had been in association. Commissioner Graham deserves credit for the active steps he took to prevent the spread of the disease, in the erection of an Isolation Hospital, and the housing of the suspects outside of Discovery, where the disease first showed itself. The most timorous need have no fear of the spread of the disease as the first case is convalescing, and the suspects have spent the necessary time in quarantine, so that all danger is now at an end.

MINING MACHINERY.

An English Company Has Taken Over the Business of Armstrong & Morrison of Vancouver.

By recent advices from Vancouver, B. C. we note the change in the ownership of Armstrong & Morrison's engineering works in that city; the business will now be known as the Vancouver Engineering Works, Ltd. The new company is registered in Liverpool, and is already considerably increasing the capacity of the works. The old firm has done quite a large business in this district, and as far as we know no complaints have been made by those who have placed orders with that firm. The new company has an immense field in this camp for the sale of hydraulic and other mining machinery, and we have every reason to believe that with their modern machinery they will be in a position to compete with any of the large works on the Pacific coast.

GRAHAM CREEK.

News comes from Graham creek of what is being done there now by the few miners who have faith in the creek. The Ronayne brothers have been busy whipsawing lumber and have supplied the wants of all hands, thus avoiding the necessity of transportation from Atlin over difficult trails. Some prospecting has been done by the discoverers, but owing to the rise of the water it was difficult to obtain a satisfactory pan. However, what little has been done shows that coarse gold is to be found on the lower ground, but whether in paying quantities or not, remains to be seen. It is expected that pay is to be found on the discovery and a few adjoining claims, but on the lower ground, which is deeper, little can be said. It is hoped the results with further prospect work will be satisfactory.

Notice to the Public.

The Editor begs to announce, in response to numerous wellwishers on the creeks and elsewhere, that the CLAIM will be sold at the following rates, strictly payable in advance:

One year,	$5.00
Six months	3.00
Three months	1.50
One month	.50

postpaid to the nearest local post-office. To outside yearly subscribers, .50 cents, and for six months or less, .25 cents extra. Single copies, .15 cents.

Another shipment of those fine chickens has arrived for Fraser & Co. Come early and get your choice at 30 cents per pound.

The Kootenay Hotel has now received its finishing touches. The rooms are well and comfortably furnished, and the hotel has not an equal in this northern country.

Dockrill has full line of fishing tackle and flies.

WANTED—Restaurateur to run first class dining-room business. Premises fronting Discovery street. Apply Hotel Metropole.

For disinfectants go to Dockrill's.

The Billiard table has arrived at the Royal Hotel and Rosselli will give an exhibition to-night of "How to handle the Cue." The show will be worth seeing.

Group of Seven Bench claims for sale. Best part of Pine creek.—Apply CLAIM Office.

A real estate deal of some importance took place this week, whereby Bob Dixon became the owner of the lot adjoining the Russell Hotel, having bought the property from Jack Letherdale. It is Mr. Dixon's intention to build a first class livery and feed stable. He is now bringing in a new four-horse stage which he is going to run between Atlin and Discovery. The Gold House will be the headquarters of the stage at Discovery.

The latest maps of Atlin district at Pillman & Co's.

Baths Hot, Troy Laundry.

To the miners on Boulder creek and vicinity it will be pleasing to note that J. B. Norton & Co. are opening a general merchandise store where they will be able to purchase their supplies at Atlin prices.

Oranges, $1 per dozen, at Pillman & Co's.

Mr. T. S. Bryce, representing the Ross, Higgins Co. of Skagway, spent a few days in town this week. His firm have been doing considerable business with Dawson and Yukon merchants and Mr. Bryce has been looking over the situation here. The Ross, Higgins Co intend making a specialty this year of handling perishable goods, eggs, fruit, dairy produce, etc., and are prepared to guarantee all consignments for Atlin.

Hot Baths, Troy Laundry.

Just arrived! Fresh potatoes and onions and strictly fresh Eggs. Best Creamery Butter, Oranges, Lemons and Apples at Pillman's.

H. H. Fraser and J. Taylor came in from Skagway yesterday. They have a lay on No. 18 below on Boulder.

Are you going to build or make alterations?—If so, see Olive. Men always on hand.

Store to rent in best part of town—20 x 38.—Apply CLAIM Office.

C. Doelker will be in his new quarters—Hotel Northern—to-day.

Furnished rooms to rent—apply Hotel Northern.

Cummings and Richardson have received another large consignment of Ladies' and Gents' Furnishings, Carpets, etc.

Try Hot Baths, Troy Laundry.

We learn that P. Burns & Co. have a drove of cattle on the way here. It is a comfort to think we may have a chance to taste some fresh killed beef, and if the cattle have not been working their way over the trail we may get a real tender piece of steak.

The largest circulating library in Atlin; only 10 cents exchange, at Pillman & Co.'s.

A. K. Munro, of Victoria, made the record trip in to Atlin for the winter. He left Vancouver on the 25th of April on the C. P. N. Co.'s steamer Danube at 2.30 p.m. and arrived in Skagway, Monday morning, covering the distance in 3½ days; arrived in Log Cabin on the same afternoon and was in Atlin before noon on Tuesday, April 29th.

Orders taken at the office of the CLAIM for the latest picture of King Edward VII.

A dance will be given at the Nugget Hotel, Discovery, on Tuesday next, 7th inst. Our Atlin friends are cordially invited and a good time for all is assured.

The Elkhorn French Laundry will be open for business on Monday next. Orders may be left at Pillman's. Mrs. J. D. Skinner is proprietress.

S. H. Plumbe is once more at the Halfway House where he will be pleased to meet any of his friends in an 18-foot ring, a barroom or a barrel.

LOST—A black cat; answers to the name of "Tommy Atkins;" any person returning same to The Club, will be suitably rewarded.
