ASSAY OFFICE

Gold Dust Assayed, Purchased or Taken on Consignment.

Quartz Assaying at Reasonable Rates.

RICH IN COPPER

Development on the Laverdiere Group

Proving it to be a Property of Exceptional Value—Hanging Wall Not Encountered at 184 Feet.

Development work has been diligently carried on, almost without intermission, on the Laverdiere copper group on Torey inlet, and the instructions of Mr. John Caplice, of Butte, Montana, who has a working bond on the property, to "continue the drift until the hanging wall was encountered," have been faithfully attended to. To Messrs. Canavan & Brown, Civil Engineers, who have been making a survey of some of the claims, we are indebted for the following account of the work done and the prospects of the property:

"The tunnel, commenced last year and run in 58 feet, has been continued, running in a westerly direction, with a slight bend to the south, and now measures 184 feet in length, 4 feet 6 inches wide and 6 feet 3 inches high. The end of the tunnel is, vertically, 135 feet below the surface of the ground.

"Measurements taken show some 153 feet of an ore body. The tunnel cutting through some 31 feet of diorite. At present no definite hanging wall has been struck, the tunnel now being in mixed diorite and ore, where the ore will probably run out, that being the general experience of copper veins in British Columbia.

"The vein is easily traced where exposed for over half a mile by the copper stains on the rocks, its direction being slightly west of north.

"From recent assays, it is believed the ore will average throughout, a high percentage in copper; at this moment there must be several thousand dollars worth of ore on the dump."

Messrs. Fountain & Clark have just completed their assessment on a group of claims adjoining the Laverdiere group, and although they do not say very much, they are perfectly satisfied with the prospects. In this instance the ore body so far exposed is described as a veritable quarry.

The anniversary to be celebrated by the A. O. U. W. on Thursday evening next, will take the form of a smoking concert, recitations, etc. The concert is free and an excellent programme has been arranged. Everyone is welcome. The A. O. U. W. have always proved themselves to be good hosts and this will be no exception.

DELAYED WIRES.

A Boon for Dawson and for Vancouver.

Royalty on the Yukon Gold Output Practically Cut to Nothing — Vancouver Gets a Scoop on Seattle.

Among the despatches received this week, is one to the following effect: "Yukon gold royalty cut five per cent, to take the form of a rebate sold to the Dominion Assay Office at Vancouver."

According to our interpretation of the telegram, in as much as the royalty on Yukon gold was last year reduced from ten to five per cent, with a rebate of one per cent if the gold were minted at the Dominion Assay Office at Vancouver; the present reduction practically means that there will be no royalty upon all gold put through the Vancouver office, and the new order of things will mean much to that city to the loss and detriment of Seattle and San Francisco. The local Government would lose nothing by making a corresponding concession.

For Love of a Woman.

KAMLOOPS, April 30th. — Louis Paquette was shot and killed by F. Leger at Notch Hill, about half way between Revelstoke and here. He was crazed with love for Paquette's wife, and admitted the deed and gave himself up. He is now in jail in this city, awaiting his trial, which will in all probability take place at the sitting of the Court of Assize on Tuesday next.

Societe Miniere's Development on Boulder.

The result of the last few week's development on the property of the Societe Miniere de la Colombie Britanique on Boulder creek has been eminently satisfactory. This has consisted in running a series of drifts from a shaft up and down and across the channel to determine the extent and richness of the pay channel. The prospects have been so gratifying that similar work will be prosecuted later in the season. The men hitherto employed upon this work have been put upon the work of preparing for the hydraulic operations of the season. The pressure box and pipe line are being moved some 300 feet up the creek. Owing to the previous position of the pressure box, as laid by Mr. Christopher, the present change will give an additional 14 feet of pressure. Sixteen men are now employed upon the work of preparation.

The subscription price is $5 a year payable in advance. No paper will be delivered unless this condition is complied with.

SATURDAY, MAY 3, 1902.

CONSIDERABLE speculation has been expressed as to Mr. Stables recent action in voting against the vote of want of confidence against the Government, proposed by Mr. McBride, in connection with the action of the Council last fall in ordering the shut-down of the Sunrise Co. Mr. Stables, in explanation stated in the House that he accepted the promises of the Ministers to deal fairly in the matter regarding the granting in full of the powers and privileges given by charter to the Pine Creek Power Company.

REPLYING to a letter, over the signature of Mr. John Kirkland, which appeared in our issue of last week, we emphatically corroborate the views expressed in our issue of 19th ulto. It would be needless for us to "enlighten" our readers upon the appointment of Gold Commissioners or their duties when the Placer Act, Part IX, Sections 128 to 132, fully details these matters. But as to the "Judicial Powers" with which Gold Commissioners are asked to be endowed, as prayed for in the Miners' petition, it must be remembered that though the Province may make and does make its own mining laws it has no say in the matter of appointing Judges to carry out these laws, in as far as a Court has to be resorted to for interpretation. As before stated the Act of Union gives almost unlimited power to the Provincial Legislature, but at the same time the Province cannot pass laws which are at variance with Dominion Statutes, viz: The Alien Act and the B. C. Immigration Act of 1900, hence Gold Commissioners cannot be given judicial powers by the authority from which they receive their appointments.

Engineer Directorate.

The Annual Meeting of stockholders of the Engineer Mining Co. was held in Skagway on the 25th ult., when the following directorate was elected: W. H. King, H. E. Nicolai, Oscar Gard, Frank A. McDonald and H. B. LeFevre. An Auditing Committee, consisting of the following, was also chosen: M. A. Covington, E. R. Peoples and A. H. Brackett.

Yukon Winter Mail Service Has Ceased.

What was expected to be the last winter mail from White Horse to Dawson, left White Horse on the 23rd. The trail is becoming very unsafe and before many days will will have to be abandoned till navigation opens, this, it is thought, will be early.

A NEW COMPANY.

The British-American Dredging Company.

To Take Over the Race Horse and Feather Group of Hydraulic Leaseholds.

The Prospectus of the British-American Dredging Co. of Philadelphia, Pa., is just to hand. The company has been organized to take up and operate the Race Horse and Feather group of leases on Pine creek, below the canyon, or the property locally known as the "Poor Farm." The prospectus, unlike others we have seen, is an extremely conservative one, claiming nothing but what can be demonstrated with very little work. The Directorate is composed of men of substance, and, between them have subscribed and paid in to the Treasury of the Company the sum of $22,500. The personnel is as follows: S. A. Chase, President; Col. T. H. Magimiss, Vice-President; A. D. Ford, Secretary; O. T. Switzer, General Manager; B. C. Warnick, Treasurer; R. A. Messler, Senator C. A. Reed, W. S. Lloyd, H. W. E. Canavan and A. C. Middleton. Benj. C. Warnick & Co. are the Philadelphia agents of the Company. The first allotment of 100,000 shares, at 50 cents, has just been put upon the market.

A dredge, having a capacity of 5000 cubic yards every 24 hours is now being constructed by the Risdon Iron Works of San Francisco, which it is anticipated, will be installed upon the ground before the opening of the mining season. One of the commendable features as laid down by the prospectus is that "no salaries shall be paid until the dredges have been placed upon the property showing profitable returns, and that the most rigid economy will be practised in the expenditures of all moneys."

The local shareholders in the Pine Tunnel Syndicate will, doubtless, be pleased to learn that their shares are now liable to obtain at least their face value by the knowledge that the ground is about to be actively exploited.

Come Home to Roost.

Robert McKee, the discoverer and locator of the creek which takes his name, returned to Atlin this week after wandering in other fields for over a year. He spent some time in the Big Salmon country, in Dawson, at Nome and prospected some five hundred miles of the coast adjacent thereto, but found no place with better or brighter prospects than the Atlin district. He is satisfied now to stay with this country and feels assured that those who stay with it will "come out on top."

The things people want to know are usually none of their business.

There's room for everybody in this big world, but we can't all have front rooms.

PROVINCIAL DEFICIT.

A Good Round Sum—A New Loan.

Dunn & Co.'s Heavy Liabilities—The Graham Investigation Still Going on.

VICTORIA, April 29th. — The Provincial budget has just been brought down and shows a deficit of $1,700,000. Contemplating cash subsidies to railroads and other improvements under Government auspices, it is more than likely a $3,000,000 loan will be floated and, if so, New York will be looked to. The Government advocates increasing the head tax upon Chinese to $500 and asserts its ability to carry out its proposal of land and cash subsidies for the Canada Northern and Vancouver, Victoria & Eastern.

VANCOUVER, April 29th. — Thirty-five men left here yesterday for Halifax, N. S., under Lieut. Worsnop, to join the new contingent for South Africa. Lieut. Worsnop is a son of Lieut.-Colonel Worsnop, Collector of Customs at Vancouver, and was one of the B. C. Volunteer representatives at the Queen's Diamond Jubilee in 1897. He has for some years been in the service of the Imperial Bank of Canada in their local branch.

VANCOUVER, April 29th. — The liabilities of Thomas Dunn & Co., Wholesale and Retail Hardware Merchants, who assigned some weeks ago, is stated to aggregate to Ontario wholesalers alone a quarter of a million.

NEW YORK, April 29th. — An explosion was caused by the Conservatives in the military barracks at Managua and 150 soldiers were killed. Party feeling has reached such a pitch that civil war may be the outcome.

LONDON, April 29th.—The Toronto Lacrosse club defeated the Duke of Argyll's team today. The game was played in presence of the King and an immense crowd of spectators.

VICTORIA, April 29th. — Evidence for the defence is now being received in the investigation into the charges made against Gold Commissioner Graham.

CHICAGO, April 29th. — The town of Herkimer, Kansas, is reported to have been wiped out by fire.

SHANGHAI, April 29th. — The Chinese rebels have been dispersed by the Government forces after a bloody battle near Wuchow.

THE U. S. NAVY.

Manifestly Weak in Fighting Strength.

Fatal Fire Nearly Wipes Out a Whole Family — S. F. Street Railroad Strike Settled.

WASHINGTON, D.C., April 29th. — The authorities of the War Department in their naval programme submitted to the Government admit that the United States have few fighting ships of any value and that in the event of war with any of the Powers the naval force would be totally inadequate even for defensive purposes.

QUEBEC, April 29th. — A sad fatality is reported from St. Norbert, Quebec, by the burning of the house occupied by John Baptiste Nouchamp. Five children were burned to death and another so severely that it cannot recover; the father and mother in their efforts to save their children are both severely burned.

VANCOUVER, April 29th.—The firm of the Brackman, Ker Milling Co., of this city and Victoria has contracted with the Imperial authorities for the shipment of 4000 tons of oats for the army in South Africa, shipping will commence immediately. The Edmonton country will materially benefit by this contract.

LONDON, April 29th. — Fifty workmen were injured by the breaking down of a car on the Great Eastern Railway near Hackney Downs.

LONDON, April 29th. — Major Waller and Lieutenant Day have been acquitted in court-martial of the charge of executing natives of Samar.

SAN FRANCISCO, April 29th.—The Street Railroad strike has reached a satisfactory conclusion; the men have gained all they asked.

NEW YORK, April 29th. — Another rebellion is in progress in San Domingo.

ATLIN, BENNETT AND CHILKAT MINING DIVISIONS OF CASSIAR ELECTORAL DISTRICT:
