QUARTZ PROSPECTS.

Rich Lead Struck on the Engineer Group.

The Mother Lode Showing Up Well --- Outlook On the Gleaner Group -- Rich Assays From the White Moose.

This week the most welcome news reaches us concerning the developments upon many of the quartz prospects under exploitation, and we are also pleased to report that several promising groups, at the south end of the lake have been taken up on a working bond by Mr. W. H. Hile, of Philadelphia, whose arrival was chronicled last week. It is understood that the consideration in each case is a good one, and as Mr. Hile is known not to do things by halves, we may look for startling developments when he gets to work next season, provided the properties come up to expectation.

We have today received a report from Mr. M. Clere, Consulting Engineer, that the Engineer Group has just given a new example of its possibilities. Some weeks ago we gave a detailed description of the various ledges upon which work had been done. Since that time prospect work has been continued, and a few days ago, in blasting out the croppings of the Toronto ledge, they have encountered very rich ore, similar to that of the Mill Test ledge, and full of free gold. This ledge had been previously very little prospected, and the news of its richness must be extremely gratifying to the company. Where prospected the ledge is distant from the Mill Test ledge about 2500 feet. It is the intention of the company to continue the development on the Toronto ledge during the winter, and it is to be hoped that the excellent prospects just uncovered will prove even better, if such were possible, in the development.

It is understood that the company has crossed the fault in the Foundation ledge and have cut into the main ore body and are now drifting due east along the ledge in very highly mineralized rock, averaging with the ore found in the main cross cut. The ore shoot which was recently discovered in the main tunnel is very visible on the walls and bears evidence of being a clear cut vein within the ledge, it measures two feet, but as yet no drifting has been done.

From surface indications on the Gleanerville property it was expected that the cross-cut tunnel would strike the lead within ninety feet, but the dip of the ledge became so acute that although they were in over one hundred feet, they have so far failed to strike the ledge. As they are bridging the ledge the rock is becoming very highly mineralized. Work on the property is suspended, but will be resumed early next spring.

Samples have just been shown us from the Mother lode, and they satisfy the desires of the most exacting. On a new shaft, begun about a week ago, the solid ledge matter has been encountered about eight feet below the surface, and shows just as fine free milling quartz as one would wish to see. The quartz is of a grayish-white colour, with visible free gold evenly distributed throughout. The prospects are so gratifying that work will be diligently prosecuted. The stamp mill on Monro mountain has crushed, so far, some three or four tons of ore from the first cut made on the ledge, with, it understood, satisfactory returns. Efforts will be made to keep the mill running constantly from now on. The ledge, where last uncovered, shows a width of three feet of clean ore, though the walls for some distance each side carry fair pay.

Of samples sent to Butte, Mon., some weeks ago, from the White Moose group, the following very satisfactory assays have been received: No. 1. 1.44 oz. in gold; 71 oz., silver; 21 per cent in copper and 10 1-2 per cent lead. No. 2. 73-100 oz. gold; 63 oz. silver; 18 per cent copper and 10 1-2 per cent lead.

Preliminary Hearing.

Henning Committed for Attempted Murder.

Witnesses Bound Over to Testify at Next Court of Assize.

On Monday morning of this week the preliminary hearing in the case of Henry Henning for attempt to murder his wife, was heard before E. M. N. Woods, S. M. C. Dubois Mason acted as Crown Prosecutor. Upon the evidence produced the prisoner was committed for trial at the first sitting of the Court of Assize, and the several witnesses bound over.

It is yet a matter of uncertainty where the prisoner will spend the winter, but instructions are looked for daily.

Mrs. Henning is slowly recovering from her wounds and will be around again in a few days.

The Wires Down.

Last Friday's storm played havoc with the through telegraphic service and communication was only restored on Thursday night. The congestion of private messages has delayed Press Despatches.

SATURDAY, OCT. 19th, 1901.

THE results shown by this season's development upon the various quartz properties in the Atlin district have been very gratifiying, and go far to show that the permanence of the camp, apart from hydraulic mining, is fully assured. The attention of capital is now being drawn towards this section, and this week we hear that quite a number of promising properties have been placed under bond to a big company in Philadelphia.

Recent advices inform us that the White Horse coal measures are showing up well and that a force of men are being put to work to open up the property in a systematic manner. Adjacent to White Horse there is a very considerable promising mineral belt. With a possible unlimited supply of all kinds of ore, wet and dry, and the likelihood of coking coal within easy reach, what is now more requisite than a customs smelter, which could be erected at Cariboo or some suitable point on the lakes, equidistant from the White Horse and the Atlin mineral zones? In our opinion it would be a matter meet for the consideration of the White Pass & Yukon Railway Company to foster the country's mineral development by the building of such a smelter. The Company by such action would be assisting in the most material manner in opening up the untold riches of this great northern country, and at the same time would be enhancing the value of the stock of the company by increased traffic over their lines and steamers. Many instances could be cited both in this country and the United States where railroads have seen fit to thus assist and foster the mining interests adjacent to their lines, and in every instance the greatest benefits have accrued both to the miner and to the railroads.

We take this opportunity to congratulate Mr. Newell, who has been appointed to succeed Mr. E. C. Hawkins as Manager of the White Pass & Yukon Railroad Co., and would suggest that if he desires to make a name for himself in the future development of this great section of the country he should give the question of a custom smelter, to be erected by the railroad, his most favorable consideration.

IN order that the opportunity to induce capital to Atlin should not be lost, prospectors ought to bear in mind that the capitalist will not pay the price of a mine for what is but a fair prospect, and the miner should ever be willing to sell his property on a working bond to bona fide capitalists. Whether the prospect will make a mine will then be demonstrated and the miner benefit thereby.

AN EDITOR ABROAD.

A. C. Hirschfeld Keeps Atlin to the Front,

Press Extracts From Coast Papers ---The Atlin Exhibit Attracts Favorable Comment.

As is generally known Editor Hirschfeld left Atlin about a month ago, in charge of a very creditable mineral exhibit from this section of British Columbia, and, incidentally, as custodian of a nugget bracelet to be presented to H. R. H. the Duchess of Cornwall and York, at the Exhibition held at Victoria, B. C., this month. We have watched with pleasure the progress of Mr. Hirschfeld's endeavors to place the camp before the public and the manner in which our prospects were received on the outside.

Opinions were locally expressed as to the good that would result from the presentation above referred to, but now that that presentation is a matter of history, the most pessimistic cannot but say that from an "advertiser's" point of view, it has been of benefit to the district in a general way, at least, in that Atlin and Dawson have been placed on a par, in as far as the Royal visit to Canada is concerned, in their "presentations." By this presentation the attention of capitalists is drawn towards this section. The following notices are extracted from the various coast papers:

ATLIN MINERS QUARREL.

DIFFERENCES OF OPINION HINDER THE DEVELOPMENT OF PROPERTY.

Mr. Hirschfeld, editor of the ATLIN CLAIM, who is at present at Victoria, will, before returning to Alaska, take up with the officers of the Government vital questions which will affect the successful operation of mining in the Atlin country.

Private differences are now seriously retarding the work in that district and many misrepresentations are being made to the Government, on the strength of which official orders are issued which hamper development and create bitter feeling.

Mr. Hirschfeld proposes to put matters in their true light before the Government, and will use every effort to have past differences amicably settled. — Skagway DAILY ALASKAN, Oct. 8, 1901.

A PRESENT FROM ATLIN.

The bracelet of gold nuggets, sent by the miners of Atlin for the Duchess of Cornwall and York was presented this afternoon at the Mount Baker Hotel, Oak Bay. Sir Henri Joly de Lotbiniere introduced Mrs. M. E. Hitchcock, who, in a few well chosen words, made the presentation. Her Royal Highness, after receiving the gift, desired Mrs Hitchcock to express to the donors in her name the sincere pleasure she felt in accepting so unusual and beautiful a souvenir of Atlin's loyalty. Her Royal Highness asked several questions concerning the mines, and was intensely in-

terested in the details of mining life.

The bracelet is a unique bit of bijoutrie, being composed of a double row of nuggets, to which are suspended five larger nuggets, on each of which is a letter in relief forming the word A T L I N. It is the work of the jewelry firm of Jules Eggert & Son, of Atlin, B. C.—COLONIST, Oct. 2nd.

The Atlin exhibit gives a good indication of what that section is likely to be when it is fully developed. A collection of photographs of mines and mining scenes adds interest to the exhibit. Government reports, catalogues and mining magazines can be obtained from Mr Hirschfeld.

The Atlin mineral exhibit attracts the public and, for so young a camp, is certainly very encouraging. The Gleanerville, Engineer and White Moose group exhibits go far to show that Atlin has not to depend wholly on her placer diggings. Mr. Hirschfeld, who is daily at the exhibition, very kindly volunteers any information to the many enquiries. — COLONIST, Oct. 2nd, 1901.

UNDER NEW MANAGEMENT

The White Pass Company Appoints a Successor

To Late Manager E. C. Hawkins—A. B. Newell, of Chicago, the New Incumbent.

A new head now controls the operations of the W. P. & Y. Ry., as far as the Alaskan business is concerned.

On October 1st, Vice-President A. B. Newell assumed charge, and now all letters are signed by him as Vice-President and General Manager.

Since the resignation of Mr. E. C. Hawkins the railroad officials could find no worthier or better man than Mr. Newell. He has been in the railroad business for many years, and the progression, as started and executed by his predecessor, will be continued under the management of Mr. Newell.

Copies of the new Placer Act of 1901, consolidated with the Acts of 1898 and 1899, for sale at the CLAIM Office.

"ROCK OF AGES" Mineral Claim, situated at Discovery Camp, Pine Creek.

To J. H. MALLALEU AND W. HOLLINGSWORTH OR OTHER THEIR AGENT OR AGENTS:

WE, the undersigned, W. G. Mitchell, and F. A. Wise, part owners of the above mineral claim, hereby give notice to the above-named J. H. Mallaleu and W. Hollingsworth or other their Agent or Agents, that we do hereby request the said J. H. Mallaleu and W. Hollingsworth to contribute their share of the assessment work done on the said claim, viz.: Two years' assessment work and survey, from May 22nd, 1899, amounting to the sum of $250. Unless the said amount be paid to us on or before the 12th day of January next we shall proceed under and by virtue of the powers conferred by Section 4 of the Mineral Amendment Act, 1900, repealing Section 11 of Cap. 45 of the Statutes of 1899.

W. G. MITCHELL.
F. A. WISE.

Atlin, B. C., Oct. 12th, 1901. so-7-3m

PART IV.

"WATER CLAUSES CONSOLIDATION ACT, 1897."

(1.) This is to certify that the "Pine Creek Power Company, Limited," established with the object of carrying on the business of a "power company" within the meaning of Part IV. of the "Water Clauses Consolidation Act, 1897," in the Atlin District, Province of British Columbia, and incorporated on the 28th day of June, 1901, has submitted its undertaking to the Lieutenant-Governor in Council for approval, and that the said undertaking, as shown by the documents and plan filed, has been approved, and that the same is as follows:—

To make available water for the working of a large area of placer mining ground which is at present unworkable. Beginning at a point approximately 18,000 feet above the Discovery Claim, on Pine creek, to be known as "point of diversion of water," and proceeding thence westerly along Pine creek to its mouth, and extending laterally on either side of Pine creek so as to embrace the Pine creek water-shed, the Sunrise Gulch, Twin Gulch, and the lower portion of Spruce creek below the Discovery Claim, embracing that part known locally as the "Stevendyke."

That for this purpose the Company will acquire by purchase three thousand five hundred miners' inches of water, to be diverted from Pine creek, using the present channel of Pine creek to the point of diversion, 18,000 feet above Discovery Claim, and thence by ditch and flume along the north side of Pine Creek to and below the Sunrise Gulch, and thence by a system of steel pipe line to reach Pine Creek at and along parts approximately 9,500 feet below the intake, and again at the Discovery Claim 13,000 feet below the intake, and again at Sunrise Gulch 26,000 feet below the intake. To siphon across Pine Creek with a 30-inch steel pipe line approximately 8,000 feet above the Discovery Claim, and thence by ditch and flumes along the south side approximately three miles and to return all of the said water into Pine Creek at an elevation below the intake varying from 85 feet to 400 feet.

(2) And this is further to certify that the Company propose to begin their undertaking by extending the ditches and pipe lines.

(3) And this is further to certify that the amount of the capital of the Company, which will be duly subscribed and paid up before the Company commences the installation of additions, or exercises any of the powers of the "Water Clauses Consolidation Act, 1897," Part IV, in that behalf, is hereby fixed at the sum of one hundred and fifty thousand dollars ($150,000.00), and the further amount of capital to be subscribed and paid up, above the cost of the first mentioned portion in respect of the remainder of the undertaking, before the same is commenced, shall be fifty thousand dollars ($50,000.00).

(4) And this is further to certify that the time within which the said capital, namely, fifty thousand dollars ($50,000.00,) is to be subscribed is fixed at three months from the date hereof, and the time within which the said undertaking and works are to be commenced is fixed at six months from the date hereof, and the date by which all the proposed undertaking shall be in operation is fixed at two years from the date hereof.

Dated this 29th day of August, 1901.

J. D. PRENTICE,
se 28-1m Clerk of the Executive Council

CERTIFICATE OF THE REGISTRATION OF AN EXTRA-PROVINCIAL COMPANY

"COMPANIES ACT, 1897."

I HEREBY CERTIFY that the "Societ Miniere de la Colombie Britannique" has this day been registered as an Extra Provincial Company, under the "Companies' Act, 1897," to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in Paris, France.

The amount of the capital of the Company is 600,000 francs, divided into 6000 shares of 100 francs each.

The head office of the company in this Province is situate in the Town of Atlin, and Emile Janne de Lamare, explorer, whose address is Atlin aforesaid, is the attorney for the company.

The time of the existence of the company is fifty years.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 17th day of August, one thousand nine hundred and one.

S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The following are the objects for which the company has been established:—

Exploration, options and purchase of all mineral concessions, gold or otherwise, in Alaska and the Klondike, and more particularly in the Atlin District, British Columbia; the development of the said concessions; the option by concession or purchase of all industrial enterprises, commercial or agricultural, the sale or exchange of said concessions or properties; the publication and sale of circulars, reviews or papers treating interesting questions in the above named regions; the organisation of affiliated societies for all undertakings of the above-mentioned nature; the sharing the said societies, or in others to be formed or already existing; the sale, purchase and exchange of all minerals or gold-bearing mineral matter, silver, copper and other metals; the forming of the means of transport of merchandise or passengers in Alaska Klondike and British Columbia; and all other industrial, commercial, agricultural or financial operations which could directly or indirectly be incident to the principal objects of the Society

NOTICE.

"ANNA MABEL" and "VICTORIA" Mineral Claims, situate about 3½ miles north of Atlin.

To J. S. FERGUSON OR OTHER HIS AGENT OR AGENTS:

I, the undersigned, Patrick Donovan, part owner of the above mineral claims, hereby give notice to the above named J. S. Ferguson or other his Agent or Agents, that I do hereby request the said J. S. Ferguson to contribute his share of assessment work done on the said claims, viz.: one year's assessment work from 11th August and 8th September, 1900, respectively, amounting to the sum of $200. Unless the said amount be paid to me on or before the 23rd day of November next I shall proceed, under and by virtue of the powers conferred by Section 4 of the mineral Amendment Act, 1900, repealing Section 11 of Cap. 45 of the Statutes of 1899.

Publishers' Announcement.

Some weeks ago we intimated that we were entering into arrangements with the view of having a telegraphic service in connection with the CLAIM, and that we would issue a Special Telegraphic Bulletin every Wednesday evening and the regular issue, with the latest telegrams, every Saturday morning. As the contemplated service cannot be entered into without the liberal support of the public, we respectfully desire that the people of the district will show their willingness to have the service inaugurated by liberally subscribing. We do not look to make any money out of the deal, but the sum of $20 a week is required to pay telegraphic services.

It is intended to start the service on the first week of next month and the Publishers would appreciate it if intending subscribers would kindly call and have their names placed on the list before Nov. 1st.

Notice to the Public.

The Editor begs to announce, in response to numerous wellwishers on the creeks and elsewhere, that the CLAIM will be sold at the following rates, strictly payable in advance:

One year,	$5.00
Six months	3.00
Three months	1.50
One month	.50

postpaid to the nearest local post-office. To outside yearly subscribers, .50 cents, and for six months or less, .25 cents extra. Single copies, .15 cents.

For lounges and mattresses, go to J. D. Durie, next to Kirkland Hotel, Atlin.

Avoid all aches and pains by taking a Thermal bath at the Troy Laundry.

Giant Powder at Fraser & Co.'s.

There is more solid comfort in a cup of Blue Ribbon Tea than in a gallon of most beverages.

"Japs for Atlin."

So Say Skagway Rumours---They Will No Doubt Have a Warm Welcome.

The following is taken from the SKAGWAY NEWS of 15th inst, and may be taken for what it is worth: "The coming of the Japanese laborer to Atlin is threatened as a laboring man's calamity for next season, if we are to believe a report which has reached this city. A former employee of Mr. Skinner, associated with George A. Brackett in hydraulic enterprises in Atlin, told a representative of the 'Daily Skagway News' that Mr. Skinner has given out that next year he will employ Japanese labor in working their property. Both parties interested are in Atlin, so that it is impossible today to obtain any expression of opinion from them."

Rumours to the same effect have for some time past been circulating in this camp, but it is to be hoped, if there is any foundation for such rumours, that "Davy Jones" will claim no more victims on the Alaskan run until these Japs are shipped. Then ——.

Placer Act, 1901, consolidated, for sale at this office.

Wall-paper at Fraser & Co.'s.

WALL PAPER:—House-keepers and others are hereby advised that Fraser & Co. have a considerable stock of wall-paper on hand, which will be sold very cheap to clear.

GIANT POWDER:— Fraser & Co., having acquired the stock of Giant Powder, etc., formerly handled by F. E. McFeely & Co., are prepared to dispose of the stock on hand at the same or even lower figures than were formerly asked.

TO WHOM IT MAY CONCERN: Know all men by these presents, that We, THE ATLIN CLAIM PUBLISHING CO., have now on hand a full and complete stock of Commercial Stationery and that we are prepared to execute all orders with neatness and despatch.

We always wish our friends success; This week we hear that Mrs. H. F. Lucas has come into a "million," and we fear we may see her no more, nevertheless we hope the world will go well with her.

NOTICE:—The dynamite, fuse and caps, formerly handled by us, has been transferred to J. A. Fraser & Co., who will supply all demands. F. E. McFEELY & Co.

An unexpected, but welcome, donation was this week made to the Fire Fund, by W. Dundas Fraser, of Edinburgh, Scotland, of the sum of $25. This will go far to make provision for putting runners on the new fire engine.

Make no date for the evening of 30th inst. Ireland, political, industrial and educational, will be dealt with by Rev. J. Russell that evening.

Tomorrow's boat will take out a big batch of our migratory birds: W. H. Hile, Jack Letherdale, wife and child, H. Malnin, M. M. Clere and many others.
