WEDDING BELLS.

PLUMBE — McLAREN.

The new bell at St. Martin's Church was put to a happy use on Thursday afternoon, when it announced to the citizens the marriage of Mr. S. H. Plumbe of the Atlin Mining Co. Ld., to Miss McLaren of Ottawa.

The bride looked exceedingly well in a dark blue travelling dress, and was attended by Miss Bone as bridesmaid. Mr. E. Rosselli ably supported the groom.

The wedding was a quiet one on account of the indisposition of the brides sister Mrs. Fetherstonhaugh.

The happy couple will take up their residence at the house on Second Street formerly occupied by Mr. and Mrs. Christopher.

A BIG NUGGET.

As is well known, Atlin leads all British Columbia in the production of big nuggets. We were shewn one this week, round, yellow and beautiful, with a circumference of twenty five inches and quiet two pounds in weight. The nugget in this instance is a cauliflower, ripe and perfect in every particular, grown in the garden of our enterprising pioneer baker, Mr. Meyerc.

Atlin's products, from nuggets down to potatoes lead the van. Talk of the frozen north! rubbish!!

HON. COL. PRIOR

Gives His Opinion on the Needs of the Miners.

What the Owners and Miners Want.—The Two Per Cent Tax.

Lt. Col. the Hon. E. G. Prior, in an interview at Vancouver, said.

"What does the country need to encourage mining development?"

"Well I think it can all be summed up into one word, viz., 'stability.' I'll admit that it would be well to alter the two per cent. tax if possible, whilst at the same time getting a fair revenue for the government, but the great wish of the mining men is to know that no changes are going to be made in the laws, so that they can plan ahead and know the conditions under which they must work. I have talked with owners, managers and miners by the dozens and all are agreed as to that."

WRECKED.

P. C. S. S. Co's Steamer "Cottage City" Wrecked.

Passengers and Crew Saved and Brought Back to Skagway by The "Spokane."—Is Probably A Total Loss.

The P. C. mail Steamer Cottage City which left Skagway last Saturday, with about 100 passengers, is now lying a probable total wreck on the point of an island near Petersburg, in the Wrangle Narrows.

The accidnet occurred on Sunday night, after she struck, the pumps kept her afloat long enough to allow all the passengers and crew to land, and we understand that the valuables aboard were also saved.

The Spokane brought the passengers back to Skagway, and the latest report states that nothing but the pilot house of the Cottage City is above water.

ROOSEVELT.

Escapes Without Serious Injury in Fatal Collision.

Special Agent Craig Killed — Private Secretary and Coachman Seriously Injured.

President Roosevelt miraculously escaped death or serious injury in a terrible and fatal accident near Pittsfield on the 3rd inst. Returnidg from a visit to Senator Dawes at Pittsfield, the presidential carriage whilst on its way to Lennox was struck by an electric car travelling at a high rate of speed. The carriage was completely wrecked and occupants buried in a mass of debris. Special Secret Service Officer Wm. Craig was killed instantly; the coachman D. J. Pratt sustained a fractured skull and other injuries likely to prove fatal. Gov. Crane and Secretary Cortelyou were badly cut and bruised. The President escaped with trifling injuries and refused surgical treatment, but directed the doctors to give their first assistance to his unfortunate companions.

James Kelly, conductor and Madden and Burke, motormen are under arrest, charged with manslaughter.

President Roosevelt is at Oyster Bay, and is none the worse from the terrible accident.

The injuries sustained by George H. Cortelyou, though not dangerous are serious enough to cause him to keep his bed.

SATURDAY, SEPTEMBER 13, 1902.

The official close of the mining season takes place on Monday next the 15th., but work will be prosecuted on the creeks right along all winter, and much more gold will be won before the end of the year.

Data is scarce and at present we are unable to give a correct estimate of the output but what we do know is that it is much greater than that of last year.

Atlin has a reputation for this year that few camps can boast of, work plentiful, wages from $5 to $6 per day and not an idle man in the district; all the creeks and benches yielding more gold than heretofore.

Many more men than in previous years will remain here all winter tapping the old channel of Pine, and drifting on Spruce, Boulder, Gold Run and Otter, in fact there is now no reason why men should not get employment the whole year round thus avoiding the general exodus which takes place every fall to the detriment of the camp.

The hydraulicing so far has been highly satisfactory and will improve with each year, the returns from the companies now working will speak for themselves and an era of progress will commence.

Much developement has been done this year on the quartz propositions in Atlin, both in gold and copper, and fine showings have been made; some of the mines are already shipping ore and many more will soon follow suit. When results become known Atlin will forge right ahead and those who have shown faith and stayed with the camp will reap the benefit they richly deserve.

THE INQUEST.

Coroner's Jury Render Verdict, Found Drowned.

No Evidence to Show That Deceased Took His Own Life.

At the sitting of the Jury in the inquest into the death of William Joyce, no evidence was produced to show that deceased took his own life. The origin of the fire is not known, it is now supposed to have been caused by accidental overturning of a lamp. The condition of the body and the burned hands and face tend to indicate that deceased attempted to extinguish the fire, failing which he ran to the creek and there met his death.

The following verdict was rendered by the jury:

"That William Joyce, aged 63, came to his death by drowning on the 5th day of September 1902, at about 11 a. m. in Pine Creek opposite the Junction Hotel, in the District of Atlin, County of Vancouver.

Signed, Alonzo Nickerson, Foreman.
H. W. E. Canavan.
E. P. Queen,
W. Blaikie,
E. D. Rorke,
Frank Link."

Quartz Mining on the Big Horn. Looks Like a Paying Proposition.

Messrs. Olsen and Bushart have purchased a large ore wagon and team of horses, and have commenced hauling ore from their mine on the Big Horn for shipment to the Tacoma smelter for treatment.

They intend shipping fifty tons this year and if result is anything near the latest assays, ($400 per ton,) they will nett a tidy sum.

Fantail Cutoff Greatly Improved.—Wagon Road to Otter Lake.

The Government has done good work on the Fantail trail this year and a wagon road has been built from Taku to Otter Lake also the road from Otter Lake to Log Cabin has been greatly improved and properly flagged. Several substantial bridges have been put in and altogether it looks as if the "mushers" will have easy going this winter.

The Man on the Wing.

J. T. Wilkinson, (Wings) is with us again for a short stay. He has a special contract with the New York Life, and is making a remarkable record. He is more cheery than ever, especially as he received news at Cariboo Crossing that one of his two year old colts had won the British Columbia Futurity race and purse, at the recent Vancouver meet.

Lipton Will Try Again to Win The America's Cup.

Yachtsmen are pleased to hear that Sir Thomas Lipton will build a new yacht and again challenge for the America's Cup next year.

The New York Yacht Club will probably be satisfied to leave the defence of the Cup to the Columbia and Constitution.

Twenty Villages Buried in a Landslide.—Great Loss of Life.

An immense landslide from Mt. Kashel, in Transcaucasia, by which twenty villages were totally destroyed, occurred on the 17th of August last. Over 700 lives were lost and much property destroyed.

A QUARTZ DEAL.

Interest Sold in the Lulu Mine, Otter Lake.

Purchasers Will Put up a Stamp-Mill and Concentrator.—A Promising Property.

Messrs. Fenn, Halferty and Lunderlin, owners of the Lulu mine, sold an interest in the property to Messrs. Anderson and Beets, of Spruce Creek, on Tuesday. The consideration, which was partly cash also binds the purchasers to furnish a Quartz Mill and Concentrator to be erected next June.

The mine is situated about ¾ of a mile up the Otter River from the South end of Otter Lake. The ore assayed from $80 to as high as $840. The ledge is 4½ feet wide, well defined and exposed for 400 feet.

Little can be learned from the many other properties being opened up round Otter Lake, but there is no doubt that it is a well mineralized country and it would not surprise us to hear of more deals being made in that part of our District.

Big Quartz Deal Made by J. Ladue in Dawson.

Joseph Ladue sold a one third interest in a quartz property on Gold Run for $40,000 cash and $250,000 shares in a company now being formed.

Extensive development work has commenced and orders for machinery been placed, the plant will be taken in this winter.
