TENDERS INVITED FOR MARA-SICAMOUS ROAD

Tenders are being invited by the Minister of public works for the construction of approximately 3.22 miles of the Mara-Sicamous road in the Kootenay district. The bids will be received up to noon of Monday, June 21. Notice regarding the tenders appears elsewhere in this issue.

BUILD NEW SCHOOL AT STRATHCONA HEIGHTS

Architects Twizell, Birds & Twizell, Metropolitan building, have prepared plans for a small, two-room frame school to be erected at Strathcona Heights, Point Grey for the school board. The new school is to cost about $5,000 and work on the construction under the direction of the school board building superintendent is to be started at once.

PLANS MANY CHANGES TO VICTORIA RESIDENCE

VICTORIA—Plans have been prepared by Architect Percy Fox, 3 Brown block, for extensive alterations to the handsome residence of Mr. J. W. Spencer. Architect Fox is now receiving tenders for these alterations and interior changes which will amount, it is expected, to about $15,000. The alterations will make the residence one of the most modern and cosy in this city of beautiful and elaborate homes.

ASKS BIDS ON SECTION OF PROVINCIAL ROAD

In a notice which appears elsewhere in this issue, the provincial department of public works is inviting bids for the construction of approximately 6.75 miles of the Trans-Provincial, project No. 23, Section D., Rossland-Christina Lake highway. This is one of the important highway projects provided for in the year's road-building programme. Tenders will be received by the public works department up to 5 p.m., on Thursday, June 17.

[illegible]ESTMINSTER ASKS BIDS ON TWO HOUSES

[illegible]NEW WESTMINSTER—City Clerk [illegible] A. Duncan is calling for tenders for [illegible] erection and completion of two [illegible]ses under the provision of the Soldier Housing Act. One of the homes is to be on Edinboro street and the other on Richmond street. Plans and specifications may be obtained at the office of City Building Inspector Turnbull. Tenders will close at 5 p.m. on Thursday, June 10. A check for 5 per cent. of the tender must accompany each bid.

QUINSAM RIVER BRIDGE BIDS CLOSE ON JUNE 19

Tenders are being invited by the minister of public works for both the demolition and disposal of the present highway bridge over the Quinsam river, on the Strathcona Park road, and the construction of a new bridge at that point. The location of the new bridge is approximately three miles from the Campbell river wharf, Vancouver Island. Tenders will be received for either project up to Saturday, June 19.

Plans and specifications may be seen at the department of public works, Victoria, at the office of the assistant district engineer, Courtenay, and the office of the district engineer, Court House, Vancouver. The usual ten per cent deposit must accompany all tenders.

BIDS TO CLOSE JUNE 21 FOR NOR. VAN. SCHOOL

On behalf of the North Vancouver district board of school trustees, Secretary H. Martyn Jenkins is calling for tenders for the erection and completion of a 4 room, fireproof school building for the Lynn Valley section of the municipality. Tenders will close at noon on Monday, June 21. Plans and specifications may be obtained at the office of Architects Blackadder & Mackay, 61 Lonsdale avenue, North Vancouver, any time, after today. Each tender must be accompanied by a certified check for at least 5 per cent. of the amount bid. Separate bids will be received for the heating and plumbing contracts, these closing on the same date.

CONTRACT IS AWARDED FOR WEILER BUILDING

VICTORIA—Architect Percy Fox, Brown block, has just awarded a contract to Luney Bros., 508 Sayward building, for the erection of a two-story brick building at the corner of Douglas and Broughton streets. The building is to be of fireproof construc-

HOW DO YOU FIGURE OUT COSTS IN ESTIMATING CONTRACTS?

Last summer a contractor who has had 35 years of experience, and always enjoyed a reputation for good, honest work, and who was well thought of in the community, secured a $50,000 job. But he couldn't get a surety company to go his bond. It was finally necessary for him to go among his friends and obtain the required amount of personal endorsers. Surely a man who has been in the business so long and has done good work should not be in such a position, but should be so situated financially that he would have no difficulty in obtaining bond for at least this amount from a reliable surety company? There must be some explanation for such a condition. And there was; because after this job was completed he admitted he had spent $2,800 more than he had figured on. This instance, together with others which have occurred, showed that this man's main difficulty lies in his estimating.

Another contractor who started in business only three years ago, is working on a cost-plus plan for the last couple of years. Today he is well situated financially and owns considerable property. He is thoroughly reliable and honest. Starting with only a small job, his work has increased enormously and today he has more jobs in view than he can handle. He is sure of a definite profit on his work, based on the cost of the job.

The average contractor forgets a great many things which should be included in making up his estimate. It is true that many of these items are small, and it might seem that they are insignificant, but when several are taken together, the cost increases rapidly. It is probable that on an average about six per cent. of the cost of the job is not taken into consideration when the estimate is made. Such items as surety bond, liability insurance, temporary heating in plastering and concrete work, temporary enclosures, water for building use, fire insurance, watchman and timekeepers, telephone service and travelling expenses are all too rarely properly figured in on a contract.

It frequently happens too that the general specifications are glanced over in a superficial manner, the contractor immediately taking the plans and specific specifications and estimating all materials and workmanship. When the materials and labor have been figured from these, ninety-nine per cent. of the contractors think that nothing remains to be done except add the usual ten per cent. for profit. The trouble is that the general specifications are not carefully enough observed and studied.

ROYAL CITY'S PERMITS STILL MOUNTING UP

NEW WESTMINSTER—The monthly report of City Building Inspector Thos. Turnbull shows that the total value of the building permits issued for May was $24,050, which is more than double the amount of building authorized in the same month last year when the total of the month's building permits was only $11,175. The aggregate value of the permits issued for the first five months of the year so far, amounting to $184,365, also shows a very satisfactory increase over the first five months of last year when the value of buildings commenced in the Royal city in that period was only $63,150.

GOVERNMENT TO BUILD WHARF AT KUSKONOOK

Tenders are being invited by the federal department of public works at Ottawa for the construction of a floating wharf at Kuskonook, B. C., in the district of Kootenay on Kootenay Lake. The bids on this work will be received up to noon of Friday, June 18th. Plans and forms of contract can be obtained at the office of the district engineer at Nelson and at the post-office at Kuskonook. No tender will be considered unless made on official forms.

INVITES TENDERS FOR CHANGES AT BARRACKS

Tenders are being asked by the Dominion department of public works for certain alterations and additions to the main building occupied at present as the Fairmont Barracks of the Royal Canadian Mounted Police, also for the conversion of one of the existing outbuildings into a garage and store building. Tenders will be received by R. C. Desrochiers, secretary of the department of public works, Ottawa, until 4 p.m., June 11.

Plans and specifications and forms of contract on which tenders must be sent in, can be obtained at the office of J. C. Wright, Superintendent of Dominion Buildings, room 32, post office building, Vancouver. Each tender must be accompanied by the customary marked check for ten per cent. of the amount of the tender.

PLANS ARE READY FOR E. & N. RAILWAY DEPOT

VICTORIA.—Mr. C. E. Firth, local agent of the Esquimalt & Nanaimo Railway, received and now has on display the plans for the new depot which the C. P. R. plans to erect soon on Fitzwilliam and Franklin streets. The building will be quite an imposing one of brick veneer and rough cast exterior, a length of 150 feet and a width of 38 feet. It will be two stories in heighth with two double revised wings to make provision for future extensions. Ample platform space is also provided in the plans, nearly all the area between Fitzwilliam and Franklin streets outside of the building being laid out for platform. It is expected that tenders will be called for the new depot shortly.

You may have observed that a bachelor can hold a baby almost [illegible] awkwardly as a woman can [illegible] stone.

TENDERS WANTED
NOTICE TO CONTRACTORS

The Board of School Trustees, Municipality of North Vancouver, invite tenders for the erection and completion of a 4 room fire-proof building.

The Plumbing and Heating will be separate from the Contract.

Sealed tenders endorsed "Lynn Valley School," or "Plumbing and Heating, Lynn Valley School," must be delivered to the undersigned at School Board Office, Municipal Hall, Lynn Valley, B. C., not later than 12 o'clock noon, on the 21st. day of June, 1920.

The Board of School Trustees do not bind themselves to accept the lowest or any tender, nor pay any fees in connection with tenders.

Each tender to be accompanied by a certified cheque on a chartered bank to the amount of five per cent (5%) of the tender, which shall be forfeited if the party tendering fails to enter into contract when called upon to do so.

Special forms for tendering will be supplied and no tender will be considered unless made out on same, signed and enclosed in the envelope furnished.

Plans and specifications may be obtained from the office of the Architects, Blackadder & Mackay, 61 Lonsdale Ave., North Vancouver, B. C., on and after June 7th, 1920.

A deposit of $25.00 will be required for each set of plans and specifications issued, which will be refunded when plans and specifications are returned to the Architects.

VANCOUVER IS THE LOGICAL POINT FOR THE ESTABLISHMENT OF A WALL BOARD PLANT

THE Pacific Roofing Co., Ltd., has made a thorough investigation of this subject. Its opinion as above given may be taken as authoritative because of its position as a manufacturer of building products and consequent close touch with the general market for building materials, the wide selling organization through which it has obtained accurate knowledge of the merchandising possibilities and its complete acquaintance with the natural resources of British Columbia.

The Pacific Roofing Co., Ltd., has decided to expand its present successfully operating business in the manufacture of Roofing Products and Building Paper and establish a plant for the manufacture of

EMPIRE BRAND WALL BOARD

AS WELL AS DEVELOP ITS PLANT FOR THE MANUFACTURE OF THE RAW MATERIALS FOR ALL THE PRODUCTS IT MARKETS

THE Company has already arranged for a site on Granville Island for its new plant, engaged as Superintendent of its Wall Board department an expert who formerly served as Factory Superintendent for the Beaver Board plant at Buffalo, N. Y., and tentatively arranged for the marketing practically its entire initial annual output of Empire Wall Board. Inside Facts about the Manufacture of Wall Board

The Product As every builder knows, Wall Board is "manufactured" lumber, free from knots, cracks, or other defects and marketed in a form which makes it highly desirable for interior work, either in old or new buildings. It is made from hemlock and spruce wood, shredded and pulped an dturned out in single ply sheets. These sheets are scientifically glued together with silicate of soda, pressed into four ply thicknesses and dried, the product being about 3-16 in. thick and weighing only about one half pound per spuare foot.

Present Manufacture Wall Board, under its names of Beaver Board, Neponset Board and other brands, is now obtainable only from Eastern plants. It costs jobbers $35 per thousand at the factory or $48.50 delivered in Vancouver.

The Demand Wall Board is today extensively used in British Columbia. A survey of the market in the Northwest provinces shows an annual consumption of approximately 30,000,000 feet. In New Zealand and Australia one Wall Board plant last year did a business of over $2,000,000. This enormous demand is now served entirely by Eastern factories, all of which are booked up with orders far ahead of their output.

NOW CONSIDER THESE FACTS!

1. *Every form of raw material demanded for Wall Board is a natural resource of British Columbia. More—the standard of B. C. forest products is such as guarantees that Wall Board in which it is used is superior in quality to any Wall Board now on the market.*
2. *Investigations have shown that the cost of manufacturing Wall Board in Vancouver will not exceed $25 per thousand. This will enable us to market our output at a good margin of profit and still meet competition.*
3. *A heavy and rapidly growing demand for Wall Board exists in the fields which are directly in touch with Vancouver—British Columbia, the Northwest provinces, New Zealand and Australia—in all of which sections we have well organized selling connections.*
4. *Our annual initial output will be 8,000,000 feet. Of this amount four British Columbia jobbers will contract for 6,000,000 feet, and a ready market for everything we can turn out is assured.*

HOLY TRINITY CHURCH TO BUILD NEW RECTORY

The congregation of Holy Trinity church, Kitsilano, having recently wiped off the last instalment of a debt of $6,000 on that Anglican edifice, is now planning a start in the immediate future on the erection of a cosy rectory for the popular pastor, Rev. Charles B. Clarke. The plans for the new rectory were prepared by Architect A. E. Henderson, and after some minor revisions as a meeting of the church building committee last week, were finally adopted. The building would cost about $7,500, but under existing arrangements will be constructed for considerably less. Thanks to a generous offer of Mr. E. G. Baynes, of the firm of Baynes & Horie, who is a member of the building committee, the building is to be erected at cost by that firm. The offer of Mr. Baynes to do so was received and accepted with hearty thanks. Another donation which will materially reduce the cost of construction was that of a generous quantity of lumber from a well known local lumberman. Work on the new rectory is to be commenced in a couple of weeks.

CITY'S FIRE LOSS FOR MAY WAS ONLY $5,320

The monthly report of Fire Chief J. H. Carlisle for May shows that the fire department is still keeping the city's fire loss down to very small figures. The department had a total of 147 calls for the month of which only 28 were fires where actual damage occurred. Of this total 63 were bush fires, which is in itself an indication of what a dry month it was. The total fire loss for the month, outside of one loss not yet finally adjusted amounts to $17,884. The total insurance paid was $12,564, leaving the actual property loss above insurance at $5,320. The total value of the property at risk was $666,000.

Up to the end of May the department has had 468 calls for its services and the total fire loss for that period was $90,826. The total insurance paid on these losses was $80,368, leaving the total property loss over insurance so far this year at only $10,485, which is conceded to be a very creditable record for the department.

tion and will cost approximately $40,000. It will have a frontage of 70 feet with a depth of 105 feet. The contract for the heating will be awarded separately by the architect shortly.

The ground floor of the new building will be occupied by Mr. Otto Weiler for the sale of motor accessories, and a gas and oil service station. The second floor has been leased by the Sprott-Shaw business college. The building has been designed to carry an additional story if it should be required later. Work is to be started at once on the building by the contractors.

A NEW GAS SERVICE -- HEATING --
YES, you can heat your home, office building, store or factory with GAS economically, conveniently and satisfactorily—without the dirt and dust of a furnace—without the work of carrying ashes or shoveling fuel.
There are gas-heating systems that fit any type of house or building from the hot air system that uses your present registers and pipes to the automatic unit radiator system that controls your heat to a nicety.
Think of the convenience of a gas-heating system—think of the clean basement and the freedom from work that gas means—and then call up our New Business Department. Seymour 5000.
