SHIPBUILDING AND MARINE NEWS

WAR TYEE TO OUTFIT AT HUTCHISON BROS.

VICTORIA....The first vessel of the wooden shipbuilding programme to be outfitted by the Hutchison Brothers Company, at their newly-extended plant in the Inner Harbor will be the War Tyee, which will arrive from Coquitlam in the course of the next few days.

The War Tyee was built by the Pacific Construction Company at Coquitlam.

SHIPS REPORTED TO BE UNSINKABLE BEING BUILT IN THE STATES

WASHINGTON—A type of unsinkable ship is being shown in the United States. It became known today that contracts for ten of the vessels have been let by the French Government to an American yard. The design is the work of a Frenchman and embodies principles hitherto untried, details of which are being kept secret.

LAUNCHINGS.

HOQUIAM, Wn.—One of two wood vessels under construction at the plant of the Chilman Shipbuilding Co., will probably be launched here July 4.

The launching of the War Nicola from the yards of the William Lyle Shipbuilding Co., North Vancouver, will take place tonight at 8 o'clock.

Canada is in its infancy. With a population not very much larger than greater New York, scattered over an area of over 3,700,000 square miles, it is impossible even to imagine the possibilities of this Dominion. The United States has a population per square mile four times as great as that of Canada.

Mining News

Canada Copper's new mill at Princeton will be 2,000 tons daily capacity instead of 3,000 tons as originally intended.

Work is being resumed at the Bannockburn group, Hall Creek, Upper Duncan.

In the Slocan, aerial trams are under way for the Wonderful and Sovereign.

The Sappho, near Midway, will ship a carload of copper ore this month.

Development will be done on the Anaconda group of iron claims near Merritt.

A Penticton syndicate, composed of J. W. Mulhern and others, has a lease and bond upon the Homestake, a property close to the Sally in Beaverdell camp.

This spring the Inter-Mountain Company has shipped several carloads of copper concentrates from Iron Mountain, Montana, to the Greenwood smelter.

Coal output in the province of British Columbia for the first four months of the present year shows an increase over the corresponding period of last year amounting to 77,272 tons.

Some more diamond drilling will be done at Copper Mountain by the Canada Copper Corporation from the lower level downward, as there is reason for belief that additional ore may be developed.

Trouble has arisen between the employees of various mines at Silverton as to whether support should be given to the New Denver or Silverton hospital. J. D. McNiven, of the Provincial Labor Department, has been trying to adjust matters.

WALT MASON'S FRANKLIN.

One of the most noteworthy features of automobile buying this season is the greatly increased interest that is being shown in enclosed cars, particularly the sedan type.

The Franklin Automobile Company, which has been a pioneer in enclosed car manufacture, gives some very illuminating figures concerning the tremendous increase in sedan sales during the first eight months of the 1917-18 season, as during the entire fiscal year of 1913-14. Franklin sedan sales so far this year already equal the total sedan production of last year.

The shipping records of Franklin cars to dealers in 23 cities throughout the United States from September 1, 1917, to April 25, 1918, show that an average of 26 1-3 per cent have been sedans. In five cities in Ohio practically one-third of the business of Franklin dealers has been in sedans.

Walt Mason, the famous author of "Rippling Rhymes," recently introduced his new Franklin sedan as a car that is "No drunkard on gasoline." "My Franklin," he says, rolls along so easily, it doesn't seem to care whether it has gasoline or not."

W. H. Granger, late proprietor of the Auto Tire Shop, is now in charge of the tire department of the Begg Motor Company.

G. G. Barons, the B. C. distributor for Franklin cars, will be in his new quarters at the corner of Granville and Pacific Streets, on the 20th of this month.

The Jarvis Electric Company has taken over the agency for Philadelphia Starting and Lighting batteries. They are opening a service station which will shortly be in operation. This will link up Vancouver in the chain of Diamond Grid Battery depots throughout America. It will be well for motorists to know that a guarantee of 18 months is given on every battery sold.

A. B. Ward of the Ward Motor Company, Kamloops, representing the Begg Motor Co., Ltd., has just let a contract for a modern garage building to be erected in the centre of the business section of the city. The new building will have a frontage of 74 feet and a depth of 108 feet, one storey in height, and equipped with a machine shop, the entire structure being fireproof. The new building will be one of the largest garages in the interior.

VERY LIKELY

"Well, old man, how does it feel to be married to an heiress?"
"Just like working in a subtreasury."

The Last Straw.

Lord Reading, the brilliant super-ambassador, was talking at a tea about Lord Rhondda, the food controller.

"Our poor food controller comes in for a good deal of chaffing," he said. "I heard him addressed one day as 'The gay Lord Queue,' and another time a lady called him 'the lord of the manna.'

"He's never really minded, though, though it's true he got rather angry once when a flapper told him that her butcher's queue was a very popular Rhonddavous."

Convicts released from German prisons for military service, will feel quite at home in their new surroundings. The environment and social associations will be much the same.
