SCHOOL ALTERATIONS

Architect Joseph H. Bowman, 716 Yorkshire Building, is receiving tenders up to March 27th for small structural alterations to the Nelson Avenue School, Burnaby. Particulars may also be obtained at the School Board Offices.

NEW RESIDENCE FOR TENTH AVENUE WEST

Contractor A. L. Ramage, 1350 6th Avenue East, has been awarded a contract for the erection of a 2-storey, seven-room stucco residence at 855 10th avenue west for Miss Jukes. Mr. Ramage is receiving tenders from the sub-trades in connection with this work.

ARCHITECTS PLAN FINE HOME FOR PENTICTON

Architects Swan & Augustine of Penticton are preparing plans for a fine new 8-room semi-bungalow to be erected at that place for Mr. A. Sinclair. The new home is one of many that will be erected in Penticton this year. Every modern convenience is embodied in the plans.

PLANS READY FOR RAISING SCHOOL

Architect Joseph H. Bowman, 716 Yorkshire Building, will have plans ready on Tuesday or Wednesday for the raising and remodelling of the school at Kingsway west. The plans call for the raising of the present building, and the erection of a concrete sub-structure for the accommodation of the manual training, domestic science department and two class rooms.

INVITING TENDERS FOR THREE SUB-TRADES

Architect Edwardes Sproat, 403 Dominion Building, is receiving tenders for plumbing, heating and electrical work in connection with two office buildings in the down-town district. One of these is a five-story modern, reinforced concerte structure to be erected at the corner of Gore Avenue and Pender street for a local Chinese society. The other is also on Pender street, near Gore avenue and compriss a three-story structure.

NEW BRANCH FOR BANK OF MONTREAL

We understand the Bank of Montreal has had plans prepared and will award a contract shortly for alterations to a building at the corner of Granville and Nelson streets to be used as a branch bank.

CHINESE MERCHANTS TO ERECT FINE BUILDING

Plans and specifications are being prepared by Architect Edwardes Sproat, 403 Dominion Building, for a three storey business block to be erected for a firm of Chinese merchants on Hastings street, east, between the Royal Bank of Canada and the Empress Theatre. As shown on the plans the ground floor of the building will be used for store purposes while the upper floors will be used for a rooming house. Full basement and separate sanitary arrangements are planned for each floor. The new building will be of fireproof construction throughout. Plans will be completed and tenders called for the latter end of this week.

BOARD APPROVES OF $11,000 IN SEWER WORK

The civic board of works has approved of six separate items of sewer construction work aggregating approximately $11,000, which will be ratified by the city council this afternoon. These sewer jobs for the most part comprise sections required to be completed to link up existing sewers that were laid in portions of various blocks which have now become so settled up that their completion was very necessary from a sanitary standpoint. The largest item of the lot was $3,050 for the construction of a sewer in the lane north of Kingsway, from Inverness to Clark street, which also involves the clearing of the lane.

Tenders for these sewers will be called shortly by the city, after the council ratifies the work today.

ABBOTSFORD TO HAVE BIG MILK PLANT SOON

The Fraser Valley Milk Producers' Association, with head offices in the Rogers building, expects to close the deal this week for a site at Abbots-

OFFICIAL ORGAN.

The British Columbia Record is the official organ of The Architectural Institute of British Columbia, federated with The Royal Architectural Institute of Canada and as such is used by them as the medium through which to make their official announcements to the general public.

By such selection the British Columbia Record is no wise pledged to editorial support of any policy advanced by these societies, but maintains an absolutely independent position on all matters subject to editorial opinion.

PACIFIC COAST TO SEE REAL BUILDING BOOM

It is becoming increasingly apparent that not only southern British Columbia but the entire Pacific Coast is on the verge of a real building boom. This is indicated in an unmistakable manner by the rush of work in the various architects' offices in every city and town along the coast on both sides of the boundary line. Vancouver architects, it is already apparent, are getting their share of small work so far and the big jobs will come later just as surely as sunrise and sunset. The same condition is reported from architects' offices practically all the way down the coast. Seattle is experiencing much building activity, but like Vancouver, it is mostly small jobs as yet. But the number of these in itself indicates what may be expected later when building material prices get more stabilized and investors get confidence enough to start on large undertakings which only await this stabilization of prices.

From Portland and other points in Oregon comes the same reports of increasing activity and architects already working overtime to cope with the rush of small work. Not since the year following the 'quake and great fire have San Francisco architects, as a whole, been so busy, while the same applies to Los Angeles. Most of the prospective work in these two cities is of a substantial nature, such as office buildings, theatres, warehouses and apartments. In the latter class of buildings especially Los Angeles is taking the lead for the entire Pacific coast, as the rush of tourist traffic to that city during the fall and winter months has rendered any sort of accommodation at a premium. Residential work in these California cities, too, shows no sign of a let-up. It seems to be no longer a question of prices but of delivery. A scarcity of building materials has already developed and with the demand greater than the supply, it is not surprising that some of the dealers are unable to guarantee immediate delivery.

One of the naturally resultant effects of this unusual activity on the part of architects is a scarcity of draughtsmen. The demand for draughtsmen in the American coast cities is already much greater than the supply. Coast architects are paying top notch wages, yet despite this fact good men are scarce. As might be expected the demand has attracted some incompetent men into the field but their incompetency is not long concealed. One San Francisco architect is known to have discharged three men in as many weeks, who claimed to be all-round draughtsmen, but who proved to be little better than office boys.

WEEK'S BUILDING TOTAL

Last week was an exceptionally busy one at the city building inspector's office and the number of permits taken out reflects the increasing activity in the local building trade. The 43 permits issued during the week had an aggregate value to $80,910, and when it is considered that no single job in these 43 permits amounted to over $10,000, the amount of moderate sized building under way may be judged. City Building Inspector Bird expects an even busier time for the coming week, for among the permits to be issued early in the week—the plans having already been passed—is a $13,000 store building for Granville street, to be erected adjoining the Globe Theatre.

APPOINT COMMITTEE TO PREPARE MEMORIAL

The first steps towards deciding on some suitable form of war memorial to be erected on Victory Square were taken at a meeting of the war memorial committee held in the city hall Friday afternoon. Representatives of about forty local public and semi-public bodies attended and widely divergent views were expressed and many suggestions made as to just what would be the most suitable form of memorial. The suggestions ranged all the way from a simple monument to a huge memorial city hall and big auditorium that would cover the whole of Victory Square. It was finally decided to leave it to a committee of seven experts to be appointed later by the chairman, Brig.-Gen. Odlum, to bring in a report with some concrete, practical suggestion for a memorial at a meeting to be called later.

WHO'S WHO, WHERE AND WHY, IN LOCAL BUILDING CIRCLES

Architects Maclure & Lort have moved their offices from 405 Credit Foncier Bldg. to 816 of the same building.

Mr. H. H. Reid, prominent Calgary building material dealer spent last week in Vancouver on business—while here Mr. Reid placed an order with the Pacific Roofing Company, Industrial Island, for several cars of "Neverleak" Asphalt Roof products.

SHEET METAL FIRM HAS BIG INCREASE IN WORK

The resumption of building activity all over the province is reflected in an equally marked manner in the allied trades and one of the busiest of these building trade firms in recent months is the Pacific Sheet Metal Works, Industrial Island. Manager Little states that the volume of work undertaken by his firm already shows an increase of more than 400 per cent. for the first two months of the present year as compared with the same period in 1919. A considerable proportion of the contracts they have carried out in this period has been in outside points, while a goodly share of their work has been non-competitive, as received from owners for whom the firm had previously done work.

Among large contracts in outside points for sheet metal work which this firm has carried out or has under way at the present time are the Gregory Tire & Rubber Company's factory at Coquitlam, Canadian Bank of Commerce at Courtenay, C. N. R. roundhouse at Victoria, and the award of the sub-contract for the sheet metal work for the new Boys Training School at Coquitlam.

Other local work recently completed was the re-sheathing with galvanized iron of the Vulcan Iron Works and Wallace Shipyards plants on Industrial Island, the Japanese Methodist mission school and gymnasium and a large amount of mill-work, both in the city and vicinity.

BUILDING VERY BRISK AT POWELL RIVER NOW

POWELL RIVER, B. C.—Building promises to be very brisk for the next few months in this growing paper-manufacturing town. One of the numerous construction projects which is to be undertaken immediately is the erection of a two-story store building by Mr. J. M. McIntyre, proprietor of the Powell River Hotel. He has had plans prepared and will award the contract shortly for a two-story frame structure to cost $8,000 to be erected adjoining the hotel.

A couple of the local banks are contemplating either seeking larger premises or having them erected. It is also rumored that a couple of other chartered banks not represented here at present, intend to open local branches soon.

With the constant increase in the population and numbers of new workmen and their families coming in all the time, the Powell River Company has been compelled to revise and considerably extend their original housing plans which contemplated the erection of 15 cottages as dwellings for their employees. The company started the erection of these cottages a couple of months ago and already nine have been completed—and occupied just as fast as the plasterers finished. Finding it evident that 15 cottages will not be enough, the company now plans to double that number and will build 30 of these cosy homes within the next few month. The remaining 21 cottages will be of a generally uniform type and will represent a total cost of about $55,000. They will all be built in the residential section which the company has laid out in what is conceded to be a model industrial town.

ford on which will be erected a large factory for the handling and distribution of milk supplied the association by its members in Abbotsford and vicinity. The final details of the new factory have not been finally decided on yet but it is expected that instructions will be given local architects to prepare plans shortly. The plant which the new factory will house will manufacture powdered milk and canned cream from the surplus milk secured by the association.

INDUSTRIAL ISLAND SOON TO HAVE BRICK WORKS

That growing hive of industrial activity, Industrial Island, is soon to have another line of manufacture added to the many which are already represented on that man-made reclaimed area. This newest addition is to be a brick works where special facing brick as well as the usual commercial lines is to be manufactured in a new building to be erected by the Ceramic Industries Ltd., which has secured a lease of two lots on the Island. A permit was issued by the city building inspector's department on Saturday for the erection of the main building of the brick making factory which is to be of mill construction, covered with galvanized iron, 50 by 130 feet in size and will cost about $8,000. The plans were prepared by E. Evans & Sons, Molsons bank building, and the building is to be erected by the owners by day labor. The firm expects to be ready to supply the local market by the middle of summer.

CALGARY TO HAVE TECHNICAL SCHOOOL

Tenders are being invited by the Minister of Public Works of Alberta, up to April 5, 1920, for the erection of a Normal School and Institute of Technology, at Calgary, Alberta.
