10203—F. W. Galbraith, garage, 1986 14th Ave. W., $100.

10204—John Dixon, garage, 171 Lorne St. W., $50.

PLANS ARE PREPARED FOR SHAUGHNESSY HOME

Architect Edwardes Sproat, 303 Duncan building will have plans and specifications ready on Wednesday morning and will receive figures from selected contractors for the construction of a residence for Dr. R. L. Pallen, to be erected on Shaughnessy Heights.

CONTRACTS AWARDED

Architect A. E. Henderson, Davis Chambers Building has awarded contracts to J. K. Sinclair, 601 12th Ave. E., for the erecton of an addition to the Alexander Orphanage Camp at Crescent beach, also for the erection of a home for Mr. Henry Doyle at Point Roberts.

NEW HATCHERY IN SKEENA WATERSHED

Plans for a new hatchery to be built by the government at a cost of $30,000 at Lakelse Lake, near Terrace on the Skeena river, have been submitted to the department of marine and fisheries by Lieut.-Col. F. H. Cunningham, Dominion inspector of fisheries.

HOUSE CONSTRUCTION ACTIVE

A very noticeable feature of the building permits issued by the city building department during the last couple of weeks is the number of new dwellings that are under construction. During the last three days alone permits were taken out for four new dwellings, none of which were under $2,000 in cost, while one was nearly $5,000. This evident activity in house construction, as well as the additionally significant fact that many of the architects of the city are busy on plans for new houses, gives every indication that the property-owners of the city intend to make a strong effort to cope with the demand for houses.

TIMBER CONTROLLER HERE

With the object of winding up in a some satisfactory manner the obligations and contracts assumed by the timber department of the British Board of Trade, Sir. James Ball, timber controller for Great Britain, arrived in the city on Sunday morning. He is accompanied by Montague Myers, who represents timber purchasing interests in Great Britain. They will be here for some time, as there are many problems connected wth the airplane spruce cut and the disposal of that timber, as well details of large timber orders for Great Britain that these officials will have to settle.

ARE GOING TO OTTAWA ON HARBOR MATTERS

Being decidedly skeptical regarding the probability of the members of the Harbor Commission arranging a satisfactory settlement with the Dominion government regarding a programme of development, for Vancouver, a delegation thoroughly representative of Greater Vancouver intends to leave for Ottawa tomorrow to take up with the federal cabinet the matter of immediate port development here. The delegation will be headed by Mayor Gale and will comprise representatives of the various municipalities, Boards of Trade, Manufacturers' Association and other civic and semi-public bodies.

The various interested bodies take the position that the harbor commissioners are not the only ones who have gone carefully into this important question, and are not the only ones who should be consulted when the question is taken up by the government.

GOVERNMENT RED TAPE

NEW WESTMINSTER—As a striking example of the time and money that is sometimes wasted in unravelling government red tape, there is the case of the B. C. Manufacturing Company which after a year's effort on the part of the management, has just been granted a permit to erect a factory for export at Queensborough on the south shore of the Fraser River, opposite New Westminster. The Company leased the waterfront site over a year ago but then discovered that the foreshore came under Dominion jurisdiction. Application was made to Ottawa for a permit to erect the factory but it was only last week that the permit came to hand after hundreds of dollars had been spent in correspondence and telegraph tolls.

Changed conditions and scarcity of tonnage now have resulted in the company's plans being much upset, although they were prepared to bui'd immediately a year ago, in order to have a much larger factory in operation to make box shooks and similar articles for export. At present they intend to erect three large drying sheds on the site and will go ahead with the factory as soon as tonnage is available at lower rates so they can compete with foreign concerns.

PRODUCTION DEPENDS ON CONSTRUCTION

Cutting down production, producing less food, less clothing, less fuel, never has and never will reduce prices. Increased production is the answer to the question of how we can reduce living costs.

We must have production if we are to have lower living costs. In modern industry production is stimulated by construction. Building is a basic industry. If you build a home you make business for more than a hundred correlated and contributing industries. Each building erected sends its wave of demand through the industrial organization, from the ditch diggers to the bank presidents and back, and, by way of pay envelopes, to the ditch digger again.

An immediate resumption of building activities will do more than any one thing to stimulate general business and accelerate the transition of industry from war demobilization to the peace normal.

Construction stimulates production—it createst the demand—and production must increase until it reaches the volume production necessary to decrease unit costs before prices are lower.

Assist business and serve your own and the nation's interest—build now.

NEW PRICE LEVEL ESTABLISHED

After an extended study of prices, it is the opinion that a new price level has been established by the economic conditions attending the world war; and that economic forces appear to have already acted to stabilize prices at a level below which they are not likely to fall by any appreciable amount in the near future. It is believed that the growing confidence in the future of business in this country, evidence of which is seen on all sides, is well justified by the facts that have been learned through the study of the price situation. Evidence of the stability of business today is the fact that during a five months' period of stagnation, the number of business failures has been unusually low.

At the present time there is less concern over high prices than there is with regard to the stability of prices. It appears that the wisest business men are those who decide now to go ahead with the construction of buildings and the production of goods; the need for both forms of activity are more imperative now than ever before.

SO. VANCOUVER PERMITS

BUILDING NEWS ALONG THE COAST

NEW CONTRACTS TOTAL BIG SUM

PORTLAND—The State Highway Commission Saturday awarded contracts for paving totalling $1,061,631.10, and for grading and macadam, totalling $118,379.10.

PAVING AND ROAD WORK

TACOMA, WASH.—Two contracts for the construction of three miles of pavement near Orting and South Prairie were awarded to Lee Walter and T. M. Morgan by the country commissioners. T. M. Morgan bid $26,000 for the construction of one mile near Orting.

SPOKANE CONTRACTOR WILL BUILD BIG STATE INSTITUTION

SPOKANE, WASH.—S. G. Moring, Spokane contractor, has been awarded a state contract for the construction of two wings to the state cusodial school a Medical Lake. The contract covers a recent legislative appropriation of $190,000 for the Medical Lake institution.

MANUFACTURERS TO MEET

The British Columbia branch of the Canadian Manufacturers' Association will hold its annual general meeting next Wednesday afternoon, when a number of important matters will come up for discussion as well as the election of officers.

GAS HEAT YOUR BUILDING
Gas heating by means of a system like the Rector has been the dream of engineers for years.
It does away with dirty, smoky furnaces, dusty basements filled with fuel, and the necessity of constant stoking.
Each radiator is a unit—you can cut as many of them out as you wish. You pay for your gas after you use it, not as you pay for coal, in advance.
We will be glad to give you figures on a gas-heating installation.

BRADSTREET'S WEEKLY REPORT
CANADIAN CITIES.

TORONTO — Wholesale dry-goods houses report a slight improvement, but business is inclined to be dull. Retail lines are selling well, and all reports are to the effect that business was never better. Easter trade was in keeping with that of other years. Boots and shoes continue active at high prices. There is more demand for hardware, groceries are normal and provisions are high. Live hogs are selling at record figures. Manufacturing is slow. Collections were very good through April.

MONTREAL—Wholesale trade is quiet, retail trade fair, industry irregular and collections good. Trade in this city during the past few days has been practically at a standstill, owing to the carters' strike. Every line of business is affected, even those firms using their own teams not being allowed to operate their rigs, so that no merchandise is moving at all. Some large orders for flour have been given out to the milling trade by the government for export to the European markets, about 1,500,000 barrels having been placed among the mills. The first ocean steamer will be here in a few days.

Nearly all property on Easy street is mortgaged.

B. C. INCORPORATIONS.

During the past week the following companies were issued certificates of incorporation:

Port Clements Box and Lumber Company Ltd., $50,000, Port Clements.

Sechelt Timber Company, Ltd., $25,000, Vancouver.

Exchange Club Ltd., $10,000, Vancouver.

ASSURE CONTINUANCE OF SHIPBUILDING BY GRANT OF $30,000,000

Welcome news was received from Ottawa last Saturday in the announcement that an appropriation of $30,000,000 had been passed by the Dominion House in committee for the government's shipbuilding programme. This substantial grant, taken in conjunction with the positive and emphatic statement of Hon. C. C. Ballantyne, Minister of Marine, that the government intended to place orders for more ships and did not intend to see some 40,000 employees of Canadian shipyards thrown out of employment for this year anyway, assures a contnuance of activity in the leading local shipyards.

FOUR MILLS INCREASE OR TAX IMPROVEMENTS

The city council will meet today for a final session on the civic estimates for the year and incidentally to endeavor to arrive at some approximate estimate of what the tax rate for the current year will be. The aldermen face the alternative of either increasing the 24-mill tax rate of last year by four mills, making it 28 for the current year, or keeping it at 24 mills net on land by placing another 25 per cent. increase on the taxation of improvements. These latter were taxed at 25 per cent. of their value last year after seven years of so-called single tax in which the revenue was raised on land values alone.

It is believed in city hall circles that the aldermen will adopt the easiest way out of the problem by acting on the recommendation of Ald. Kirk, finance chairman, and tax all improvements at 50 per cent. of their value, as predicted a couple of months ago in these columns. It has been estimated that owing to increased costs of operating, the expenses of the city will be at least $450,000 higher than last year, which will necessitate the increase in taxation.

IRON AND STEEL PRODUCTS

Iron mines are running at considerably less than their capacity. In common with most industries, steel and iron production has declined considerably since the cessation of the war because government demands largely were withdrawn. The output of the mills is estimated at from 60 to 70 per cent. of the production of some six months ago. Railroad buying is light. Shipyards are ordering heavily. There has been distinct improvement as regards the domestic distributing business. Orders have been coming in. Stocks of wire and sheet products in the hands of dealers have been light and badly broken and the gaps are to be filled. Declines in prices are continuous. They seem to have stimulated rather than to have checked demand.

Among the many industries largely dependent upon steel and iron few seem to have the assured future that falls to the lot of automobiles.

A NEW IDEA

After the smoke has all cleared away and we look back upon things calmly, what a splendid example of salesmanship was the part that our army played in the war. The Germans didn't like our style; they didn't believe we were sincere; they didn't believe that we had the real "stand-up-face-the-music" quality in us.

We had talked a great deal without achieving a good impression.

Yet, a little demonstration and what a change there was! The word of Canada is heeded, not only in Germany, but in all countries today, not because of what we "might" do, but because of what we did.

ARCHITECT PREPARES PLANS FOR TWO HOMES

Working drawings are being prepared by Architect Edwards Sproatt, Duncan Building, for a 7-roomed house to be erected on 14th Ave. West, also for a 5-roomed bungalow for West Vancouver. Plans will be in shape to accept tenders about May 15.

Men with backbone never back down.

NOTICE TO CONTRACTORS

Sealed whole tenders will be received by the undersigned up to 12 noon, May 22nd, 1919, for the addition to Magee School for the Board of School Trustees, Point Grey, B. C.

Contractors submitting tenders will be required to enclose a marked cheque for a sum equal to 5 per cent. of the amount of tender, which will be forfeited should the contractor fail to enter into a contract when called upon. Copies of plans and specifications and forms of tender may be obtained at the office of the architect on the deposit of $10.00, which will be refunded when plans and specifications are returned in good order.

The lowest or any tender not necessarily accepted.

TWIZELL & TWIZELL,
Architects.
Metropolitan Bldg.,
Vancouver, B. C.

NOTICE TO CONTRACTORS

Sealed Tenders superscribed "Tender for Liquor Warehouse" will be received by the Hon. the Minister of Public Works up to 12 o'clock noon of Tuesday, May 20th, 1919, for the execution of alterations to the Liquor Vendor's Warehouse, Beatty Street, Vancouver.

Plans and specifications may be seen at the office of the Government Agent, Court House, Vancouver, and the Department of Public Works, Victoria.

The lowest or any tender not necessarily accepted.

A. E. FOREMAN,
Public Works Engineer.
May 5th, 1919.

SOLDIERS' HOUSING SCHEME NOTICE TO CONTRACTORS.

Sealed tenders, superscribed "Tender for Four and Five Room Bungalows" will be received by the Honourable the Minister of Public Works up to 12 o'clock noon of Wednesday, the 14th day of May, for erection of a Four and Five Room Bungalow on Lots 33, 34, Block 2, Prince Albert Street and Lots 11, 12, Block 5. Plans and specifications can now be seen at the office of Government Agent, Court House, Vancouver, or Department of Public Works, Victoria, B. C.

Lowest or any tender not necessarily accepted.
