LOAN FOR ADDITION TO HOSPITAL NURSES HOME IS SANCTIONED BY CITY

Now that all the tedious red tape in connection with the sanction for a loan by the city to the Vancouver General Hospital of the sum of $30,000 for the construction of a much-needed addition to the nurses' home has been officially disposed of, it is expected that an early start will be made on the structure.

Official sanction for the loan of the $30,000 to the hospital directorate on first mortgage security on an estate worth about $40,000 recently donated to the board, was given by the city council at its meeting on Monday. This removes the last obstacle to proceeding with the building, which is needed to relieve the congestion which exists

CONTRACT AWARDED FOR FALSE CREEK TERMINAL WORK TO COST $350,000

The Canadian National Railways has awarded a contract to the Pacific Construction Company of this city, for the completion of various projects in connection with the False Creek railway terminal development of the system, at a cost of $350,000, according to an announcement by Mr. Thos. W. White, chief engineer of the C.N.R.

Messrs. Cameron and Davidson, heads of the Pacific Construction Company, have already made a start on the work by preparing for the necessary dredging operations which will be in progress in a few days. The contract involves the installation of two large

FORTY BUNGALOWS TO BE CONSTRUCTED

Canadian Financiers Trust Co. to Start Building Operations at University Heights

VICTORIA—The Canadian Financiers Trust Company, of Vancouver, through their agents here, Gillespie, Hart & Todd, Ltd., have placed the first constract incident to the proposed construction of a large number of wooden bungalows in one of the finest residential sections of the city.

It is proposed to develop the University Heights subdivision in the Mt. Tolmie district by building anywhere up to forty high-class bungalows to cost between $2,500 and $3,000 each and disposing of the dwellings to prospective purchasers at favorable terms.

Mr. Henry Emert has been awarded the contract to erect the first bungalow and preliminary work has already been commenced at the intersection of Shelbourne Street and Cedar Avenue. Specifications for the first bungalow call for high grade materials and will conform to the popular demand for a five-roomed dwelling, comprising living room, dining room, kitchen and two bedrooms, also entrance hall, pantry, separate bathroom and toilet, with enamel fixtures and high class plumbing. There will be an open fireplace in the living-room and piping will be installed for furnace. The foundations will be of concrete and a three-quarter cement basement is specified. In architectural design the exterior will be particularly attractive, embracing alcove windows, gabled verandas and rustic siding. The contractor expects to complete the first dwelling in about two months.

CITY TO ASK BIDS SOON ON 16-INCH STEEL PIPE

With a view to meeting requirements for future waterworks extensions, the city council, acting on the recommendation of City Engineer Fellowes, has decided to invite bids soon for the supply of 2,650 feet of 16-inch steel riveted pipe. The amount required will run into a considerable sum in five figures and the city will also be lucky, with the present condition of the steel market, if it gets delivery within six months.

Particulars and specifications of the steel main required can be obtained from the office of City Engineer F. L. Fellowes, city hall. No date has yet been set for the closing of tenders.

CALGARY'S BUILDING LIST.

CALGARY, Alta.—The value of building permits issued during the month of September was $96,000. Permits for buildings for the first nine months of the year aggregate $2,114,200.

H.P.LECK IS AWARDED CONTRACT FOR BANK

New Branch of Royal Bank at Langley Prairie Will Cost About $11,500.00

Lowest of a number of close bids on the erection of the new Langley Prairie branch of the Royal Bank of Canada was the tender of Mr. H. P. Leck, 1861 Tolmie street, who has been awarded the contract, according to an announcement by Architects Gardiner & Mercer, 827 Birks Building, who prepared the plans for the new bank structure.

The building will be a two-story one of frame construction with a frontage of 24 feet and a depth of 45 feet. The entire lower floor will be laid out for banking accommodation while the upper floor is designed for living quarters for the staff. There wil be a small annex adjoining which will contain the heating equipment and lavatory. Contractor Leck intends to start work on the building at once.

SUB-CONTRACTS LET ON SHATFORD RESIDENCE

Work is now well advanced on the new residence for Mr. B. A. Shatford of Penticton, which is being erected at the corner of Thirty-third and Connaught Avenues, Shaughnessy Heights. Messrs. Faulds, McQueen & Pearce, who have the general contract for the erection of this handsome bungalow, will have the roofing completed in a few days, and announce the award of a number of sub-contracts in connection with the new home.

The sub-contracts awarded so far are as follows:

Plumbing—Mr. Edward Stopforth, 3543 Clark Drive.

Electrical—Andrew Buck & Co., 2616 Main street.

Planting—Davis & McLean, North Vancouver.

Plastering—Mr. L. Yarchow, 1117 Keefer street.

Hardwood Floors—The B. C. Hardwood Floor Co., 2635 Granville street.

FINE CAFE CONTRACT IS CREDIT TO METAL FIRM

The finishing touches are now being given to one of the most elaborate cafe equipments in the sheet metal line that has yet been installed in the city. Mr. Nick Kolgas, of the new Broadway Cafe, at 105 Hastings street, east, planned something extra fine in the way of restaurant equipment and awarded the contract for all the sheet metal work to the Central Sheet Metal Works, 560 Cambie street, with instructions to Manager E. E. Elliott to spare no pains or expense in putting in the best equipment possible.

On the exterior of the new cafe the sheet metal firm have erected a fine marquee, which will carry brilliant illumination in addition to affording shelter. In the interior the fine mahogany and tile finish of the public portion of

BUILDING COSTS NOT COMING DOWN IN VANCOUVER FOR YEARS?

Are building costs going to come down?

Are you going to be able to build that bungalow, factory or warehouse at the old prices?

The majority of builders, architects and contractors of Vancouver state emphatically: "Not for years."

One prominent firm of local architects stated the present position of the building situation as follows:

Since the first of September there has been a pronounced depression in the building industry, as in many other industries. But it has not reduced prices of either materials or labor. If anything, materials are a little higher. We are convinced that there is to be no material decrease in the cost of building. Those clients whom we have advised to delay a few months to see if prices would break, we are now advising to accept modern costs and to go ahead and build. That is all we can do; recognize these new costs and proceed with building, which is at least three years behind in Vancouver as well as all through the west.

Builders and achitects might be expected in their own interests to encourage building by declaring present costs to be permanent. But the Record asked several prominent builders and contractors if a general depression with unemployment would not ease up the building labor market toward lower wages. They replied that it would not. The present supply of labor in Vancouver was, until recently, quite fully utilized even during the quiet times of the past two years. If there was a very marked degree of unemployment in the city, it might increase the supply of ordinary laborers, but it would not increase the number of skilled carpenters, bricklayers and plasterers or expert cement workers.

It is claimed by those in a position to know that there are just so many of these skilled tradesmen in the city. A great army of mechanics out of work would not make a cheaper market for the building trade. A few weeks ago there was a sudden drop in the price of lumber and a slight drop in bricks. This drop in price was hailed as the beginning of a fall in general building prices. Then, almost immediately came the new freight rates, which put both brick, tile and lumber back at their old prices.

"So, if it isn't one thing to keep up building costs, it is anotner," said a well-known contractor and member of the Builders' Association.

AT present increase in price of paper, a dollar bill in time will be worth $2.

USE AYRES PAINTS

(Continued from Page 1)

trunk sewers through the reclaimed portion of the upper basin of False Creek to connect with the China Creek sewer. A number of smaller lateral sewers will also be constructed and the remaining gap in the False Creek sea-wall completed. When that is done the filling in of the area under and to the west of the Main street bridge up to the sea-wall will be undertaken and after that will come the task of removing thet Main street bascule lift bridge. Meanwhile an early start is also to be made on the demolition of the old Globe hotel, which is another item in the general contract. The final stage will be the converting of the whole area around the Main street bridge to the sea-wall into a park-like area before turning it over to the city. This will also involve the lowering of the existing grade on Main street where the bridge is located, by nearly two feet. The work is expected to be finished in four months, but is liable to take longer owing to the season of the year and the problem of avoiding interfering with street car and vehicular traffic over such an important artery.

MINING.

The Mansfield Mining company, operating in the Lardeau district, near Trout Lake, B. C., reports that a 7-foot ledge of silver-lead ore has been struck at a depth of 350 feet and is near the main lead of the mine, which is a high-grade silver-lead ore running $150 a ton. A concentrator will be built next spring so tnat the ore can be mined at a profit.

On the Titan Group, also up Fish Creek, there is one of the biggest showings in the country. A diamond drill is now being moved to the property, and about 600 feet of drilling will be done. The main showing is about a quarter of a mile from the international border on the Alaskan side. It consists of a quartz ledge extending for 3,000 feet, with a width of ten feet. S. P. Fitzgerald, John Fitzgerald and J. Jessen are the owners.

the new cafe are more than matched by the very elaborate kitchen equipment, the feature of which is an all-aluminum steam table—something new in local restaurant equipment.

The Central Sheet Metal Works have also built the large range, the canopy which covers it, together with the ventilators, chimney stack and system of ventilation, which is designed to carry off absolutely all odors of cooked food. The entire equipment is conceded to be the most complete and modern for its size in the city.

(Continued from Page 1)

in the present overcrowded nurses' present heating plant of the main home where three and four nurses are compelled to occupy one room that was originally only designed for two.

The addition will be of frame construction and will comprise an extension in a northerly direction of the present nurses' home building. It will have 25 rooms and accommodation for 50 nurses, besides a rest room and offices. The heating will be from the building.

CITY MAY DEMOLISH OLD POLICE STATION SOON

City Building Inspector Bird has been instructed to report on the advisability of demolishing the old city police station building on Powell St., and will submit a recommendation to the city council at its meeting today. What the recommendation will be it is not hard to guess, as Dr. F. T. Underhill, city medical health officer, has already condemned the building as unfit for human habitation, and from the many peculiar exterior angles shown in the walls and roof of the structure that some 33 years ago was the city's second city hall, the city will have to start demolition work soon on it or the building will fall down itself.

The only problem in connection with the building which confronts the city council is the fact that the ancient structure has been used for storage purposes. Tools and equipment for street cleaning and waterworks shop plant are stored there. Where to find storage space when the building is razed is all that has prevented demolition being ordered long ago. It is probable that a suggestion made by Ald Joe Hoskin will be adopted and storage space secured under a portion of the Georgia viaduct by closing up the sides under the bridge in a section near the east or Main street end.

Nelson's improved boiler for power or heat, either for steam or hot water. Manufactured in Canada under Canadian patents No. 174916 and 174917, may be had by applying to The T. L. PECK CO., LTD., Vancouver, B. C.

ARCHITECTS REGISTER AT ONCE.

Architects Act of B. C. 1920

To all Architects practicing in the Province of British Columbia. Take notice that the organization of the Council of the Architectural Institute has been completed and notice thereof has been published in the British Columbia Gazette in accordance with the Act. Now, therefor, it is necessary for all persons practicing Architecture to cause his or her name to be registered with the Secretary of the Institute, together with credentials satisfactory to the council of being competent and in practice and by paying to the secretary the fees made payable in that behalf.

Forms of application for registration can be obtained from the secretary.

All communications, requests for forms or information must be made in writing addressed to the secretary.

Absolutely no information will be given by telephone.

By order of the Council,
F. L. TOWNLEY,
Secretary.

PRINCE RUPERT COURT HOUSE. NOTICE TO CONTRACTORS.

Sealed tenders, superscribed "Tender for Prince Rupert Court House and Heating Prince Rupert Court House," will be received by the Honorable the Minister of Public Works up to 12 o'clock noon of Thursday, the 25th day of November, 1920, for the erection and completion of a Court House at Prince Rupert and the heating arrangements in connection therewith, in the Prince Rupert Electoral District, B. C.

Plans and specifications, contract and forms of tender may be seen on and after the 4th day of November, 1920, at the office of J. Mahony, Esq., Government Agent, Court House, Vancouver; J. H. McMullin, Esq., Government Agent, Court House, Prince Rupert; or the Department of Public Works, Victoria, B. C.

The lowest or any tender not necessarily accepted.

A. E. FOREMAN,
Public Works Engineer.
Public Works Department,
Victoria, B. C., October 26, 1920.

NOTICE TO CONTRACTORS

CITY OF VICTORIA, B. C.
JOHNSON STREET BRIDGE.
CONTRACT NO. 1.

Sealed Tenders, addressed to the City Clerk, either on a lump sum or schedule basis, for the construction of the greater part of the substructure, will be received up to noon on November 22, 1920. Plans and specifications may be obtained from the City Engineer, on and after October 29, 1920, by depositing the sum of ten dollars ($10.00), which will be returned upon receipt of a bona fide tender.

The lowest or any tender will not necessarily be accepted.

J. L. BAYMUR,
Purchasing Agent.
City Hall, Victoria, B. C.

NOTICE TO CONTRACTORS

Sealed tenders addressed to the undersigned and endorsed "Tender for Dry Dock at Esquimalt, British Columbia," will be received at this office until 12 o'clock noon, Thursday, Dec. 9, 1920, for the construction of a Dry Dock at Esquimalt, British Columbia.

Plans and forms of contract can be seen and specification and forms of tender obtained at this Department, at the offices of the District Engineers at Victoria, B. C.; Equity Building, Toronto, Ont.; Shaughnessy Building, Montreal, P.Q., and at the Post Office, Vancouver, B. C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to five per cent. of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security or War Bonds and cheques if required to make up an odd amount.

Note.—Blue prints can be obtained at this Department by depositing an accepted bank cheque for the sum of $50, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works, Ottawa,
Sept. 14, 1920.
