HALF-MILLION DOLLAR HOTEL TO BE BUILT AT ENGLISH BAY

Architects Twizell, Birds & Twizell Commissioned By Local Syndicate to Prepare Plans for Modern Seaside Hostelry.

EVIDENCING the unbounded faith which a syndicate of well known local capitalists have in the future of Vancouver generally and the popularity of English Bay in particular, comes the announcement that a fine, half-million dollar hotel is to be erected on a commanding site at English Bay. The new hostelry is to be a modern and up-to-the minute one in every respect, and will occupy the triangular section of land embracing four large lots at the junction of Denman street and Beach avenue, English Bay.

With the crowds that throng English Bay not only during the summer months but all the year round, the projected new hotel is assured of a capacity patronage right from the day it first opens its doors. The site, which was occupied some years ago by a large roller rink that was afterwards destroyed by fire was spoken of several times for an addition to the park accommodation at English Bay. Negotiations were opened with the owners a couple of years ago with a view to its acquirement by the city for park purposes. But the city did not have any funds available for that purpose during war times and the deal fell through. The plans for the erection of a splendid hotel on the site have been under way quietly for some time and are now practically completed.

No seaside hotel in Canada will be able to boast of a more conveniently situated or commanding site, especially from a scenic standpoint. Two of the city's principal car lines run right by the door. The site has a frontage of nearly 300 feet on Denman street, while there is no less than 416 feet frontage along Beach avenue, which gives not only a wonderful view of that magnificent panorama of English Bay, the Gulf of Georgia and the surrounding mountains, but has the additional advantage of being scarcely 100 feet from what is conceded to be the finest bathing beach in Western Canada.

Architects Twizell, Birds & Twizell,

$8,000 RESIDENCE FOR SHAUGHNESSY HEIGHTS

Architect James A. Benzie, 725 Standard Bank Building has awarded a contract to E. Chrystal & Co., 219 Keefer street for the construction of a new home to be erected on the corner of Hudson and 27th Avenue, Shaughnessy, for Mrs. E. B. Bliss. The new home will cost $8,000 and will have all of the modern conveniences.

CHEAKAMUS BRIDGE ON P.G.E. TO BE REBUILT

The provincial department of railways has a gang of men at work building a temporary trestle over the Cheakamus Canyon to allow of the resumption of rail traffic over that stream following the destruction of the big trestle bridge by the fierce forest fire which raged through the Squamish Valley last week.

As soon as the temporary trestle bridge is finished, and plans prepared for a new bridge, it is expected that tenders will be called for its construction.

OFFICIAL ORGAN.
The British Columbia Record is the official organ of The Architectural Institute of British Columbia, federated with The Royal Architectural Institute of Canada, and The Engineering & Technical Institute of British Columbia, and as such is used by them as the medium through which to make their official announcements to the general public.
By such selection the British Columbia Record is no wise pledged to editorial support of any policy advanced by these societies, but maintains an absolutely independent position on all matters subject to editorial opinion.

DEFEAT OF BYLAWS MAY MEAN EXPENDITURE OF LARGER SUMS LATER

By turning down in such a decisive manner the seven money bylaws submitted to them at the polls on Tuesday by the city council and the school board, the ratepayers of the city expressed in an unmistakable manner their aversion to increasing the present burden of taxation by even the fraction of a mill. The negative majorities registered against six out of the seven bylaws and the lack of the necessary registered three-fifths majority for the technical school bylaw could not be taken as the real expression of opinion of the great majority of the ratepayers, however. When considerably less than 3,000 property owners out of some 23,000 on the assessment roll go to the polls to register their views on questions involving the expenditure of over three-quarters of a million dollars it can hardly be taken as a real, representative expression of opinion on the subject.

It would perhaps have been wiser action on the part of the school board to have waited until the annual civic elections in January to submit these school bylaws, when a much larger and more representative vote would have been assured. This course was recommended to the school board by the city council, but was ignored. As the school trustees insisted on the school bylaws being submitted at the earliest possible date, the city council also took advantage of the opportunity to also submit a couple of urgently needed bylaws, but these, apparently, proved even more unpopular with such of the ratepayers as went to the polls, than the school board money bylaws. For despite the universally acknowledged need for new roads and improvements to existing roads in the city, the bylaw for $110,000 for streets was turned down by a larger adverse vote than any of the others. The result in the case of this particular bylaw as well as that providing for $170,000 for the repair of Connaught bridge, is much to be regretted—with all due deference to the verdict of the electors—for if there was ever an eyesore, a hindrance to transportation as well as a public menace in its present damaged condition it is the Connaught bridge with its patchwork repairs after the fire damage of a few years ago.

While these latter two bylaws can and probably will be submitted again at the annual civic elections in January, the school board bylaws, according to the regulations, cannot be submitted again for at least six months. This means that it will be next March, or later, before these same school bylaws can again be submitted to the ratepayers. Members of the school board already predict that all available school accommodation in the city will be so congested by that time that it will be necessary to submit bylaws for additional schools that may aggregate several million.

Meantime the city faces the regrettable fact that it has probably lost its last chance to secure the technical school here. Either New Westminster, Burnaby or Victoria will probably take steps now to secure the Dominion and Provincial grants for such a school and go ahead with it. The short-sighted policy of a minority of the Vancouver ratepayers will then be quite apparent.

WIRE ROPE COMPANY TO BUILD FACTORY HERE

Through an amalgamation of interests which was recntly concluded between the Britannia Wire Rope Co., a big English concern, and the local firm of Gibson's, Limited, another new industry is assured for the city. This will be a wire rope factory which is to be located on Industrial Island where a waterfront site has already been secured and arrangements practically completed to erect a large factory and plant soon. The new company has already been incorporated with a capital of $100,000, but it is expected that this will be increased shortly if the business expands, as it is expected to.

of 1019 Metropolitan building, acting under instructions from the local syndicate which will erect the hotel, have prepared sketch plans for the structure already. These call for a building to accommodate no fewer than 300 guests. And the accommodation for these 300 guests will not be in the least stinted, for all rooms are to be outside ones, and will be 14 feet by 12 in size, and each will be equipped with a private bath adjoining.

The building will be nine storeys in height and of absolute fireproof construction throughout. The exterior facings will be of a pleasing combination of Haddington Island stone and pressed brick. The main front of the hotel will face directly on the bathing beach and Beach avenue. There will also be a public entrance on the Denman street side, looking up Davie street. The hotel building will stand within its own grounds and have its own boulevard and garden at the front and sides laid out in lawn and shrubbery, while the space at the rear will be utilized as a commodious yard that will contain an automobile garage as well as a liberal amount of parking space.

Provision will be made on the top floor for a large roof garden and a promenade that will be 250 yards long. The usual lounge rooms, dining, reception and writing rooms are provided for on the ground or public floor, while in the basement accommodation is designed on the plans for an up-to-date and firstclass Turkish bath with sea water plunge and also modern dressing room accommodation as well as facilities for sea bathers.

This modern structure, the present estimated cost of which is $500,000, will be in thorough keeping with the general and extensive scheme of development and improvement which is being planned for the whole city-owned area of English Bay by the board of park commissioners.

Further information and details of the new hotel, as well as reproductions of the plans will be published in The B. C. Record later.

TO CALL TENDERS NEXT WEEK FOR ROUND HOUSE

VICTORIA — Thirty-six thousand yards of material have been removed from the Canadian National Railways terminal site on the Songhees Reserve by the contractors, Palmer Bros., and it is expected that within a short time the remaining 10,000 yards will have been shifted. Work will then commence on laying the three miles of trackage. Tenders for the construction of a round house will be called for next week.

DRYDOCK CONTRACT MAY BE AWARDED SHORTLY

VICTORIA.—It was announced at the meeting of the council of the Board of Trade that according to a telegram received from Mr. J. C. McIntosh, M.P. for Victoria, the contract for the new Esquimalt graving dock is expected to be awarded about the end of October. The department of public works is now engaged in examining the reports covering the alternative sites at the base of Signal Hill and at Skinner's Cove, and which ever is considered to offer the best facilities and foundation for work of such magnitude will be chosen as the ultimate site.

START WORK NEXT WEEK ON NEW MARINE WAYS

Announcement is made by the firm of J. Coughlan & Sons that work is to be started next Monday on the clearing of the site for the new marine ways and ship repair plant which the firm is to construct on a site just east of the P. Burns abattoir plant, which was recently purchased by the firm.

Advices have been received by the Coughlan firm from Ottawa that contracts for four more government ships are to be awarded to local shipyards soon, which will keep the yards busy until well on in next year.

MINING

Elmer J. Edwards, of Spokane, who last fall obtained an option on the Index on the south fork of Kaslo Creek, is installing a water power plant for operating the property.

Joseph Errington, M.E., who holds the bonds on the property of the Aspen Grove Amalgamated Mines, Limited, returned to the coast a few days ago. Diamond drilling operations will commence at an early date.

NOTICE TO CONTRACTORS.

SOUTH VANCOUVER HOUSING.
