A.W. PEMBERTON GETS CONTRACT FOR NEW TILE HOME FOR B.A. RHODES

From among a number of close tenders submitted, the bid of Mr. A. W. Pemberton, 1521 Arbutus street, has been accepted by Architects Maclure & Lort, Credit Foncier building, for the construction of a handsome terra cotta and tile bungalow for Mr. B. A. Rhodes. The new home is to be erected at the corner of Nelson & Gifford streets, and is to be one and a half stories in height. The exterior will be finished in rough cast and will be of handsome appearance and striking design, according to the plans prepared by Architects Maclure & Lort.

Separate tenders are being received for the heating, the sub-contract for which will be awarded shortly. Contractor Pemberton intends to start work at once on the new residence.

ACCEPT $310,000 BID ON NEW SCHOOL WAREHOUSE BUILDING IN SEATTLE

SEATTLE (Special)—The contract for the construction of the new three-story and basement building, involving an expenditure of $310,000 to be used for a warehouse and erected at Eighth avenue and Valley street for the Seattle school district was awarded to the Puget Sound Bridge & Dredging company, Central building, on a bid of $247,380. The structure was designed by School Architect F. A. Naramore. All bids for the heating, plumbing and electrical contracts were rejected by the board.

Bids were opened three weeks ago for the erection of the new warehouse, but the award of the contracts was de-

BIDS ARE INVITED ON INDIAN SCHOOL

Dominion Government Calls For Tenders On New Day Institution at Nanaimo

Mr. Duncan C. Scott, deputy superintendent of Indian Affairs, is calling for tenders for the construction of an Indian day school near Nanaimo, to fill the demands for improved educational facilities among the younger generation of the natives in the vicinity of the coal city. Tenders will be received up to noon of November 15, and one of the terms of the contract will be that the building must be fully completed and ready for occupation by June 1, 1921.

Plans and specifications may be seen at the local office of Mr. R. H. Cairns, inspector of Indian schools for B. C., at the post office, Nanaimo, at the offices of Mr. W. R. Robertson, Indian Agent, Duncan station, and Mr. W. E. Ditchburn, chief inspector for Victoria. Each tender must be accompanied by the usual check for ten per cent. of the amount of the bid.

The new school will be a one story frame structure 26 by 60 feet in size and for the present will have accommodation for one class of about 30 pupils, students.

TENDERS CLOSE TODAY ON VANDERHOOF SCHOOL

Tenders close at noon today with Mr. A. E. Foreman, provincial government engineer, for the construction of a four-room, frame school and outbuildings at Vanderhoof in the Fort George electoral district. Plans and specifications for the new school have been on display in the local court house and several local contractors are understood to have put in bids for the project. It is expected the award of the contract will be announced next week.

REPORTS ON COST OF NEW HASTINGS ST. WATER MAIN

City Engineer Fellowes, in a report to the city council, gives the estimated cost of laying a new 16-inch steel water main on Hastings street, from Cambie to Abbott, at $12,600, including the repairs to the pavement. He also stated that if lap-welded steel pipe were used the main could be laid for $8,500, but it would use up practically all of the city's stock of this size of pipe, and the city could not get delivery or any more under 18 months.

The report was referred to the civic waterworks committee, which at its meeting next week will probably order the work done as the old cast-iron main now laid there has been down for nearly 30 years and was never intended to carry the present heavy pressure. It is badly pitted by electrolysis and is leaking badly, as several of the merchants along that side of the street know to their cost.

MILITARY BUILDING PLANS COMING WEST

Designs For New Structure at West Point Barracks Are Approved At Ottawa

VICTORIA (Special)—Having been approved by the military authorities at Ottawa, the plans for the new $20,000 administration building at the Work Point Barracks are now on their way west and are expected to arrive here by the end of this week. This new military administration building is intended to replace the one destroyed by fire about four years ago.

The new headquarters building was designed by local architects of the Dominion Government and the plans sent to Ottawa for approval. The building will be of brick construction with stone trimmings and laid out for offices and officer's quarters along the lines of the usual type of modern military structure.

It is expected that with the arrival of the plans and specifications here that all the formalities can be concluded in time for construction to start early next month.

SEWER EXTENSIONS TO COST $3,200 APPROVED

The city council has approved of two short sewer extensions recommended by the civic board of works, which will cost about $3,200. One of these is an extension of the existing Pender street sewer for some 115 feet east of Seymour street at an estimated cost of $2,000, and the other is a short extension of Fifth Avenue, west of Waterloo, to cost about $1,200. Work on both of these extensions is to start at once by city workmen.

CITY AWARDS CONTRACT FOR NEXT YEAR'S TAGS

Acting on the recommendation of City License Inspector Chas. Jones, the city council has accepted the tender of George H. Hewitt & Co., for the supply of the city's tags and license plates for 1921. The successful bid was $677. The next lowest was that of Houghton & Evans at $719.95, while J. R. Tacey & Sons tender was considered as incomplete, they having tendered on the license plates but supplied no figures on the tags.

TO BUILD FACTORY EXTENSION

VICTORIA—Lemon, Gonnason & Company, whose business in their sash and door factory has largely increased of late, were granted permission by the city council this week to erect a frame addition to their factory. The addition to their plant on Government street will be 40 by 80 feet in size and will be used for a stock warehouse.

WELDING OF ALUMINUM IS NOW QUITE PRACTICABLE BY ELECTRICITY

Providing it is all done in the thousandth part of a second, exactly as if by lightning, aluminum can now be welded perfectly. This late discovery of an American research laboratory has a wide practical value, most of all in the electrical and building supply industries, where aluminum is adopted as a substitute for copper. The application of electrical welding of aluminum also has vast manufacturing possibilities, ranging from jewelry to cutlery, because the idea to the welding of almost any kind of metal.

Aluminum welds are an old story, scores being announced every year, but the experts have not conceded complete success to any of them. Usually these welds have seemed fine at first, but have displayed weakness after a few months. Aluminum in air forms almost instantly a thin coat of what may be called rust, and the presence of this rust surface blocks the complete welding of two pieces of the metal. The new welding idea is to have the operation all over before the air can get in and do the damage.

Under this new system the two aluminum pieces—wire, for instance—are placed under a drop hammer. One end is held stationery at the base of the hammer and the other wire is attached to the drop, so that when the hammer drops the two ends will jam together. An electrical apparatus is attached which will send through the wires a very heavy charge of electricity exactly at the instant that they touch, but which will not last much more than the ten-thousandth part of a second. This is a close imitation of ordinary lighting.

Thus when the hammer drops the wires come together with a bang, the electricity shoots through, and the ends of the two wires are instantly melted into a vapor. The melting however, applies only to the very ends of the wires, and as the current does not continue, the melting stops in the fraction of a second.

USE AYRES PAINTS

SEES BRIGHT FUTURE IN BUILDING WORK HERE

Mr. John A. Gorman, general manager of the firm of Gorman, Clancy & Grindley, Ltd., with headquarters at Edmonton, Alta., spent several days in the city last week with Mr. T. M. Grindley, resident manager of the firm's local branch. Mr. Gorman was decidedly impressed with the building activity and progress in Vancouver during the past year, since his last visit, and is confident that the city has a bright future ahead in view of the amount of construction work that is pending and planned for the next few years. He reports conditions in the western prairie provinces as generally very encouraging and that the housing shortage in Calgary and Edmonton is bound to create a lot of building work during the coming year. Aside from the bumper crops, there is considerable development work in mining and other projects under way in Alberta. The coal mines of that province are now shipping coal eastward and supplying communities as far east as Winnipeg, which promises to be a big factor in the solution of the winter fuel problem on the prairies.

(Continued from Page 1)

layed because of protest heard by prominent citizens, who objected to spending the money on this sort of structure, contending that new schools and additional rooms were needed to take care of the needs of the district. At the meeting held to determine whether or not the project would pass successfully, it was voted 4 to 1 for the construction of the warehouse.

PEOPLE continue having trouble with the well-known and highly-esteemed English language. A placard in a shop window runs: "Don't fail to miss this sale of shoes."

AIRY PERSIFLAGE

"I WANT a mattress that is cool to sleep on in hot weather."

"One of these air mattresse, madam, you will find just the thing; they were filled during the cold weather."

"How clever! And I suppose their resilient qualities are due to their being filled with spring air."

A SUPER-SALESMAN

"ARE you an expert salesman?" asked the manager.

"Can sell anything from an ice pick to an automobile. For instance, that car of yours outside—"

"Yes, yes."

"Well, I sold it to a guy who was passing."

MacLean REPORTS

INVITING TENDERS FOR NEW WESTMINSTER MARKET

NEW WESTMINSTER — Tenders are now being called by City Clerk W. A. Duncan for the erection of the first unit of the new city market building on the site on Tenth street recently sanctioned by the ratepayers. The tenders for this undertaking will close on Monday next, October 25, or a week earlier than originally planned, in order to give the successful tenderer as much time as possible to have the main building of the new market ready for use for sure by Friday, December 10.

TENDERS INVITED FOR POWELL RIVER SCHOOL

Tenders are now being called by Mr. A. E. Foreman, provincial government engineer, for the erection of a two-room addition to the present school at Powell River, in the Comox electoral district. Tenders will close for this project at noon on Wednesday, November 10.

Plans and specifications for the school addition can be seen any time after October 21, at the office of Mr. J. Hahony, government agent, court house, Vancouver, or from Mr. H. R. McIntyre, architect, for the Powell River Pulp Company, Powell River, B. C., or the department of Public works, Victoria.

The marked increased in the number of families in the busy paper-making town has made an increase in the school accommodation there imperative and one of the conditions of the contract is that the addition shall be commenced at once and rushed through to completion.

BIDS ARE INVITED FOR VANDERHOOF SCHOOL

Mr. A. E. Foreman, provincial public works engineer, is calling for tenders on the construction of a four-room frame school and out-buildings at Vanderhoof, in the Fort George electoral district. Tenders will be received up to noon of Friday, October 22. Plans and specifications can be seen at the offices of the government agents in the court houses at Vancouver and Fort George, or from A. E. Mitchell, secretary of the school board at Vanderhoof.

TENDERS ASKED ON NEW GABRIOLA ISD. WHARF

The Dominion department of public works, of which Mr. R. C. Desrochers is secretary, is calling for tenders on the construction of a wharf at South Gabriola Island, Nanaimo district. Tenders will be received up to noon of Wednesday, November 10, by Mr. Desrochers at Ottawa.

Plans and specifications for the wharf can be seen at the office of the district engineer at Victoria, or at the post office on Gabriola Island. The usual ten per cent. check must accompany all tenders which must also be submitted on the forms supplied for that purpose.

ARCHITECTS REGISTER AT ONCE.

Architects Act of B. C. 1920

To all Architects practicing in the Province of British Columbia. Take notice that the organization of the Council of the Architectural Institute has been completed and notice thereof has been published in the British Columbia Gazette in accordance with the Act. Now, therefor, it is necessary for all persons practicing Architecture to cause his or her name to be registered with the Secretary of the Institute, together with credentials satisfactory to the council of being competent and in practice and by paying to the secretary the fees made payable in that behalf.

Forms of application for registration can be obtained from the secretary.

All communications, requests for forms or information must be made in writing addressed to the secretary.

Absolutely no information will be given by telephone.

By order of the Council,
F. L. TOWNLEY,
Secretary.

WANTED.—Responsible position in Construction Coy., Lumber or Woodworking Coy., or Building Supplies. All round building experience. Excellent references. Fair. 3987 R or Box 100, Record Office.

NOTICE TO CONTRACTORS

Sealed tenders addressed to the undersigned and endorsed "Tender for Dry Dock at Esquimalt, British Columbia," will be received at this office until 12 o'clock noon, Thursday, Dec. 9, 1920, for the construction of a Dry Dock at Esquimalt, British Columbia.

Plans and forms of contract can be seen and specification and forms of tender obtained at this Department, at the offices of the District Engineers at Victoria, B. C.; Equity Building, Toronto, Ont.; Shaughnessy Building, Montreal, P.Q., and at the Post Office, Vancouver, B. C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to five per cent. of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security or War Bonds and cheques if required to make up an odd amount.

Note.—Blue prints can be obtained at this Department by depositing an accepted bank cheque for the sum of $50, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works, Ottawa.
Sept. 14, 1920.

NOTICE TO CONTRACTORS.

Sealed tenders addressed to the undersigned and endorsed "Tender wharf at Alice Arm, B. C.," will be received at this office until **12 o'clock noon, Tuesday, October 26, 1920,** for the construction of a wharf at Alice Arm, Skeena District, B. C.

Plans and forms of contract can be seen and specifications and forms of tender obtained at this Department, at the office of the District Engineer at Prince Rupert, B. C., and at the Post Office, Vancouver, B. C., and Alice Arm, B. C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 p.c. of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security, or War Bonds and cheques if required to make up an odd amount.

NOTE—Blue prints can be obtained at this Department by depositing an accepted bank cheque for the sum of $10, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works, Ottawa.
September 22, 1920

ASK BIDS ON ADDITION FOR PROCTOR SCHOOL

Tenders are now being invited by the provincial department of public works for construction of a one-room addition to the present public school at Proctor, in the Trail electoral district. Tenders will be received up to noon of Friday, October 29. Plans and specifications may be seen at the court houses, Vancouver and Nelson, or from Mr. F. G. Sammons, secretary of the school board at Nelson, or from the department of public works at Victoria. Tenders should be addressed to Mr. A. E. Foreman, provincial government engineer, and each tender must be accompanied by the usual ten per cent. cheque.
