A. E. FOREMAN RESIGNS AS CHIEF ENGINEER TO ENTER BUSINESS HERE

Victoria (Special)—A. E. Foreman, chief engineer, Department of Public Works, has placed his resignation in the hands of Hon. Dr. J. H. King, Minister of Public Works, the resignation to become effective November 1st.

Mr. Foreman has severed his connection with the Department to enter business in Vancouver.

Alvah Ernest Foreman, B. Sc., M.E.I.C., was born at Cheapside, Ont., December 28, 1878, and is the son of Christopher F. and Elizabeth Ann Foreman, came to British Columbia in 1890, and was educated at the public and high schools, and Whetham College, Vancouver. He graduated from McGill University in 1903; medalist, leading class each of four years

MANY NEW HOMES BEING BUILT AT WHITE ROCK TO MEET SUMMER'S DEMAND

WHITE ROCK, B. C. (Special)—Home building operations promise to be decidedly brisk here all winter and when the summer influx of visitors arrive next year they will find many new houses added to the community.

Mr. C. E. Helin, a local contractor, is erecting a fine house on Victoria Avenue for Mr. W. J. Lloyd of the Vancouver school teaching staff. In addition to this Mr. Helin is also building another house on the opposite side of the road from the one being erected for Mr. Lloyd. As soon as he gets these two new dwellings completed, Mr. Helin plans to go into the house-building more extensively, for he and his partner recently purchased

VICTORIA BANKS TO ENLARGE PREMISES

Four Financial Institutions Planning Additions To Existing Building Soon

VICTORIA (Special)—At an estimated outlay of several hundred thousand dollars, no fewer than four Victoria banks are planning extensions to their existing premises to meet the pressing demands for increased accommodation for the rapidly growing business. While the plans for these extensions are not all complete yet, it is understood that most of the work will be under way before the beginning of the New Year, as a large part of the work will be remodelling, and being under cover, can be carried out during the winter months.

Architect J. M. C. Keith is already engaged under instructions from the Douglas street branch of the Royal Bank of Canada, for the extensive addition which is to be made to that bank's premises. In view of the opening in the near future of the Hudson's Bay Company's big new store close by this bank, a considerable increase of business is expected and the plans to handle it are being made accordingly. The addition will comprise the absorption of the real estate offices of

(Continued on Page 2)

LOWEST TENDER ON MARKET IS $37,665

Dominion Construction Company Successful Bidder on Royal City's New Mart

NEW WESTMINSTER (Special)—Tenders for the construction of the new city market buildings and plant on the Tenth street site recently chosen by the ratepayers, were opened by the city council on Monday evening. From a number of local and outside bids on the work, it was found that the tender of the Dominion Construction Company of Vancouver, was the lowest. This company tendered $37,665 for the erection of complete plant, and $19,500 for the construction of the main building alone, in which is to be used all of the salvaged material of the present market building on Lytton Square.

A couple of the aldermen suddenly remembered that the question of provision for the weigh scales at the new market building had been overlooked, and as the weigh scales are a very important item in any public market equipment, the question of whether or no this would be considered an extra or new tenders called for to include the removal of the market scales, was left to the civic market committee which will hold a meeting this week to consider this question and award the contract.

NEED $130,352 MORE FOR PENTICTON IRRIGATION

PENTICTON (Special)—According to a report submitted by City Engineer, J. C. Dufresne, an additional sum of at least $130,352 is needed in order to bring the Ellis and Penticton creek mains and reservoirs up to their proper efficiency and provide an adequate supply during the dry spell in the summer months. The reeve and council will meet shortly to consider the report and the advisability of submitting a bylaw to the ratepayers at the coming annual elections.

CONTRACT AWARDED FOR LOGGING RAILWAY

NEW WESTMINSTER — Monday morning in Vancouver the contract was let for the construction of five miles of logging railway in the Port Haney section of Maple Ridge municipality. The successful tender was from the Northern Construction Co., of Vancouver, the contract being signed on behalf of the Miami Corporation, owners of valuable timber limits in the Lillooet district of Maple Ridge, known as Limit "W." The headquarters of the Miami Corporation is Chicago. The company was represented in the closing of the railway construction contract by Mr. H. M. Johnston, their western representative, and associated with Mr. Johnston was Mr. Nels Lougheed, of Abernethy and Lougheed, logging operators, Port Haney.

The contract calls for the expenditure of $400,000, the building of five miles of logging railway.

NEW WESTMINSTER PLANS MUNICIPAL GAS PLANT

NEW WESTMINSTER—The city council will be called on to decide at an early date whether the city will build a municipal gas plant or offer some inducements to the Vancouver Gas Company, or the B. C. Electric to erect a modern plant in the Royal city. The ratepayers some time ago voted in favor of the establishment of a municipal gas plant, and the city sold municipal bonds amount to some $60,000 for that purpose. But since then the situation has been somewhat complicated by the fact that during the war years the money obtained from the sale of the gas plant bonds has been used up for urgent local improvements.

Several of the aldermen are strongly in favor of giving a private company some inducement in the way of a franchise to come in and build a gas plant, thereby relieving the city of the necessity of raising further funds for that purpose, as it is conceded that the original sum voted for that purpose and raised by debenture sale would not be sufficient now, in view of the much increased cost of building materials. A decision as to the council's policy in this respect will probably be made at the next meeting of the city council, and it is possible some arrangements may be made with a private company in time to submit a franchise agreement to the ratepayers at the coming annual civic elections.

OFFICIAL ORGAN.
The British Columbia Record is the official organ of The Architectural Institute of British Columbia, federated with The Royal Architectural Institute of Canada and as such is used by them as the medium through which to make their official announcements to the general public.
By such selection the British Columbia Record is no wise pledged to editorial support of any policy advanced by these societies, but maintains an absolutely independent position on all matters subject to editorial opinion.

B. C. ATTRACTING MUCH MONEY AS WELL AS MANY NEW SETTLERS

One of the factors which will increase British Columbia's prosperity during the next decade or more will be the number of new settlers from Great Britain. And whatever the increase in the prosperity of the province from this cause, Vancouver will share to a very large extent.

There will be two main classes of the new settlers: Those with a substantial amount of capital for investment in industry or business, and those who intend to make their way without much capital to begin with. It is significant of the heavy immigration which is to be expected that records kept in London, England, show that during the last 18 months wealthy settlers came to this province from the mother country with capital aggregating more than $12,000,000, while hundreds emigrated to British Columbia with capital less than $5,000 each.

Immigration to this province of settlers with large sums of money to invest is due in some measure to the heavy burden of taxation which has to be carried in Great Britain, but to a still greater extent to the fact that it has become pretty generally recognized that British Columbia offers exceptional opportunities to the man with either small or large capital; opportunities not only to make money but to make it under the most desirable of living conditions. That British Columbia's opportunities are now so well known is to a very large extent due to the manner in which the 40,000 soldiers who went from west of the Rockies talked of their home province. Every British Columbian was a booster for the province.

There is another angle to the immediate future of the province that promises a large influx of visitors and tourists, not only from the Canadian middle-west but also from all Western American states. That is the fact that as a result of the voting last Monday in three western and one eastern Canadian provinces, British Columbia is now the only prospectively "wet" oasis in a continent-wide "dry" Sahara, as far as the official and legal sale of liquor is concerned. Some will perhaps consider this a very doubtful sort of an attraction for tourists and visitors, but the fact remains that the wise ones among transportation officials and tourist-handling concerns are making their preparations for handling crowds next summer that will surpass anything in pre-war days or any other period in the history of the province. one thing is certain, the vote of the people on October 20 will form an added incentive to many of the prairie visitors to stay in B. C. and spend their money rather than to go down to California for the winter months.

(Continued from Page 1)

with thirty-four first prizes, including the Scott Exhibition and Prize, Mathematical Exhibition and Prize, General Electric Scholarship and Prize, British Association Exhibition and British Association Medal and Prize.

Mr. Foreman had a distinguished athletic career, and after graduating he travelled for one year, getting business education in Toronto, 1904-1907. He became Secretary and Manager Concrete Engineering and Construction Co., Vancouver, 1907-1909; then member of the firm of Dutcher & Foreman, Consulting Engineers, Vancouver, 1909-1910. He was Resident Engineer in charge of Construction of Hydro Electric Power Development at Revelstoke, B. C., 1910, and Supervising Engineer Dallas Road Seawall for City of Victoria and Provincial Government, 1910; Construction Engineer on Smith's Hill Reservoir, Victoria, 1912; Assistant City Engineer, Victoria, 1912-1916.

Mr. Foreman is well known in connection with Canadian Club work, and was first Vice-President Canadian Club for two years, 1918-19 and 1919-20.

At present Mr. Foreman is President of Canadian Goods Roads Association; Chairman Victoria Branch Enginering Institute of Canada; member of Council of the Association of Profesional Engineers of the Province; member of Council McGill Graduates Society, Montreal, and member of Executive of Convocation of the University.

WINNIPEG BUILDING PERMITS

WINNIPEG—Building permits issued in Winnipeg in September by City Building Inspector E. H. Hodgers totalled $595,800, a gain of $99,750 over the August total of $496,050. Permits issued in September 1919 amounted to $624,450. The totals of permits issued from January 1 to September 30, inclusive, was $7,678,750, as compared with $2,115,900 for the corresponding period in 1919.

WAR MEMORIAL TO COST $25,000 AT COMOX SOON

COMOX (Special)—A very representative attendance comprising delegates from every organization and public body in the entire Comox-Courtenay district, at a meeting on Tuesday evening, pledged itself unanimously to raise the sum of $30,000 for the erection of a new war memorial building for the Comox district to perpetuate the names of the soldiers from Comox who made the supreme sacrifice in the great war. Of this sum $25,000 is to be for the club or community building proper, and an additional $5,000 is to be for the suitable furnishing and equipment of the premises as a community club structure.

All the organizations represented pledged themselves to assist in the raising of this sum. It was explained that the $25,000 is the outside figure for the erection of the club building on the site already provided, and this sum would assure the very best of materials and finish for the structure. Arrangements will probably be made in the near future to have plans prepared along the lines outlined at the meeting for a club or community building, for which there exists a strong need.

Executing the right movement is close to the kill.

(Continued from Page 1)

Grant & Lineham, and the remodelling will include the entire front of the block to conform more nearly to accepted ideas of bank architecture.

The Imperial Bank of Canada at the corner of Yates and Government st., will shortly increase its floor space by taking in part of the adjoining building occupied by the J. N. Harvey clothing firm on Yates street. It is expected that a local architect will be commissioned shortly to prepare these plans.

The Merchants Bank of Canada at the corner of Yates and Douglas streets, is also contemplating an extension of some kind in the near future. The exact plans for this have not been decided on yet but will be arranged in the near future.

Plans are now nearing completion for the addition to the premises of the Canadian Bank of Commerce at the southwest corner of Government and Fort streets. The new addition will run right through to Langley street on the west, and both floors of the annex will be used by the bank, the upper floor being devoted to accommodations for the bank employees.

All these additions to existing extensive bank premises point unmistakably to the faith which these financial institutions have in the future of Victoria.

COURTENAY MILLS SHUTS DOWN UNTIL JANUARY

COURTENAY (Special)—In compliance with the policy and announced intentions of a number of the leading mills of the province, the Courtenay Lumber Company closed down their mill last week, having ceased cutting last Monday week. It is the company's intention to recommence operations on January 1.

According to the lumber operators in this Province the situation was none too rosy before the increase in freights of a third; that was the deciding factor. Consequently very largely on the extraordinarily high prices of lumber in the Spring and Summer the demand has fallen off; even at present prices the market is very sluggish and yards are full. There are today three million feet of cedar logs at Vancouver that have been offered at fourteen to fifteen dollars a thousand; and even at that price did not find a market.

Another important change in the lumber situation is that Mr. Thomas Gwilt has purchased Mr. Dan Kilpatrick's interest in the Bevan Lumber Company, Limited, at Bevan, and will co-operate with Major Hilton in running that business.

Orders You Should Have Had
Jim Hill said success is due to "facts and foresight." There is no use getting news of a nice fat contract after all the bids are in—but yours. MacLean gives you DAILY a batch of live, timely reports on
Building & Engineering
contracts that will result in a keener sales force, more orders, and in cutting down selling expenses for you. We are serving hundreds of the more aggressive houses year after year. Why not you?

(Continued from Page 1)

a block of 36 residential lots and on these he plans to erect at least half a dozen houses during the winter, and will be prepared to continued building operations well on into the spring and summer, according as the demand for summer homes continues.

Two more dwellings have just been commenced in the east end of the town by Mr. T. Zingg, foreman at the Campbell River mill. As soon as these are completed he plans to commence work on a more pretentious home to cost about $6,000, in the west end on the Buena Vista road, one of the lots in the Thrift sub-division.

Several other new houses are also in prospect and there is every indication that the scarcity of houses which was the only thing that prevented a much larger summer population from coming here last summer, will be remedied to a great extent for the 1921 season.

ARCHITECTS REGISTER AT ONCE.
Architects Act of B. C. 1920

To all Architects practicing in the Province of British Columbia. Take notice that the organization of the Council of the Architectural Institute has been completed and notice thereof has been published in the British Columbia Gazette in accordance with the Act. Now, therefor, it is necessary for all persons practicing Architecture to cause his or her name to be registered with the Secretary of the Institute, together with credentials satisfactory to the council of being competent and in practice and by paying to the secretary the fees made payable in that behalf.

Forms of application for registration can be obtained from the secretary.

All communications, requests for forms or information must be made in writing addressed to the secretary.

Absolutely no information will be given by telephone.

By order of the Council,
F. L. TOWNLEY,
Secretary.

CONTRACT NO. 1.

Sealed Tenders, addressed to the City Clerk, either on a lump sum or schedule basis, for the construction of the greater part of the substructure, will be received up to noon on November 22, 1920. Plans and specifications may be obtained from the City Engineer, on and after October 29, 1920, by depositing the sum of ten dollars ($10.00), which will be returned upon receipt of a bona fide tender.

The lowest or any tender will not necessarily be accepted.

J. L. BAYMUR,
Purchasing Agent.
City Hall, Victoria, B. C.

NOTICE TO CONTRACTORS

Sealed tenders addressed to the undersigned and endorsed "Tender for Dry Dock at Esquimalt, British Columbia," will be received at this office until 12 o'clock noon, Thursday, Dec. 9, 1920, for the construction of a Dry Dock at Esquimalt, British Columbia.

Plans and forms of contract can be seen and specification and forms of tender obtained at this Department, at the offices of the District Engineers at Victoria, B. C.; Equity Building, Toronto, Ont.; Shaughnessy Building, Montreal, P.Q., and at the Post Office, Vancouver, B. C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to five per cent. of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security or War Bonds and cheques if required to make up an odd amount.

Note.—Blue prints can be obtained at this Department by depositing an accepted bank cheque for the sum of $50, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works, Ottawa.
Sept. 14, 1920.

ASK BIDS ON ADDITION FOR PROCTOR SCHOOL

Tenders are now being invited by the provincial department of public works for construction of a one-room addition to the present public school at Proctor, in the Trail electoral district. Tenders will be received up to noon of Friday, October 29. Plans and specifications may be seen at the court houses, Vancouver and Nelson, or from Mr. F. G. Sammons, secretary of the school board at Nelson, or from the department of public works at Victoria. Tenders should be addressed to Mr. A. E. Foreman, provincial government engineer, and each tender must be accompanied by the usual ten per cent. cheque.

The Great Lakes have 4,000 times as great tonnage as they had sixty years ago.

The largest room without coloumns is said to be in a solid concrete building of the mosque in Lucknow, India. It is 162 feet long, 54 feet wide, and 53 feet high. The timber mould was left a year for the concrete to set, and the building, 125 years old, is still unimpaired.
