LOOKING AHEAD

Every issue the Record is reaching a class of business and professional men who are not only contemplating building improvement work in this section, but who are directly responsible for work that is actually being done. The Industry is becoming more active each day. There is more building improvement work under way and in prospect in Vancouver and British Columbia general than in several years past and every indication points to the fact that fall will see even greater activity. This means the buying of a vast amount of Equipment and Materials.

Are you getting your share of the business this field offers you? The Record will place the merits of your products before the men who have the authority to buy. Now is the time to reach them.

ROBERT MONCREIFF GETS CONTRACT FOR VICTORIA HOME

Architects Maclure & Lort, 405 Credit Foncier Bldg. have awarded a contract to Robert Moncreiff, for the construction of a residence to be erected in Victoria for Mr. R. W. Gibson at a cost of $50,000.

The contract is the largest of its kind let for a residence in Victoria since the outbreak of the war and will be erected on one of the most commanding sites in the capital, overlooking Oak Bay. The plans provide for concrete blocks, rough-casted for the walls, tile roof, terracec, etc. These terraces will be of stone with sandstone caps and tiled floors on three sides of the house, which is to be erected in a garden that has been already carefully made.

The basement contains a full-sized billiard room and the usual heating and domestic accommodation. The ground floor has in addition to the dining room, drawing room, library, etc., an unusually large living hall and tiled sun room, and also generous-sized quarters for the domestic staff. The wall will be carried up two stories with a gallery, and like the rest of the interior, is to be finished in Georgian style.

Tenders are being invited by Architects Maclure & Lort for the Electrical work and heating which was not included in Mr. Moncreiff's contract. Mr. Moncreiff is at present making his home at the Kent Hotel, Victoria or may be gotten in touch with by mail through P. O. Box 1394, Vancouver.

REMODELLED BRICK PLANT IS AGAIN OPEN

OFFICIAL ORGAN.
The British Columbia Record is the official organ of The Architectural Institute of British Columbia, Federated with The Royal Architectural Institute of Canada, and The Engineering & Technical Institute of British Columbia, and as such is used by them as the medium through which to make their official announcements to the general public.
By such selection the British Columbia Record is no wise pledged to editorial support of any policy advanced by these societies, but maintains an absolutely independent position on all matters subject to editorial opinion.

PATRONIZING HOME PRODUCTS

Is it not a truism that the wealth of country is in its products, whether of farm, or of factory? A country to retain its wealth must export more than it imports, otherwise the balance of trade is against it and it is a natural sequence that with the balance of trade against the country, then its wealth diminished instead of increasing. Therefore, there is every reason for supporting and living up to the slogan; Patronize Home Products. By doing so, through the greater use of our own products we stimulate the vitality of our farms and factories, resulting in increased production and consequently increasing the wealth of the country.

No apology is therefore considered necessary for urging upon our citizens, in season and out of season, that buying home products is to the advantage of all and sundry, both of buyers and sellers, and above all to the country at large. But at the same time we should not forget that "Home Products" does not consist merely of our manufacturers, nor of the produce of our farms and orchards, but also of the work of our fellow citizens, whether they happen to be brain workers, mechanics or laborers.

Have our manufacturers a cause of complaint against our citizens as a whole when the general public do not give them their whole hearted support by buying of their products instead of imported goods? No doubt the manufacturers think so, but sometimes—too often, in fact—the shoe is on the other foot. Do our manufacturers always practice what they preach? Do they always buy these home products in the shape of technical brains and services from our citizens who have special training and study on technical lines? Are not some of them only too prone when requiring such services, to send outside the province of British Columbia for men who possess—or are supposed to possess—such technical knowledge and experience. And be it said with regret; too often they find that the distant fields were not so green and fair as they appeared to be; that the "rara avis" they were after had veritable feet of clay, and these imported specialists did not prove of such value as was fondly expected

The Record has consistently contended that it is the duty of one and all to patronize home products first, last and all the time. This should be not only the duty of the "buying public," but also that of the "producing public." If you require anything at any time, try and get it in Vancouver first.

Build up our home town and we will all prosper.

MINING

The Index Mining Company has completed a building that will shelter a compressor, at its mine, on the south fork of Kaslo creek. The compressor will generate power for machine drills to be used in driving a long tunnel.

Work will be resumed shortly on the Soho property in the Slocan district. A force of 26 men wil be employed and shipping will begin at once. The ore will average about 200 ounces of silver to the ton and 50 per cent. lead.

Buildings and towers destroyed by fire are being repaired and rebuilt at the North Star mine at Kimberley. The resumption of shipments at the rate of a carload a day is expected soon after the arrival of a cable for the tramway.

ELECTRICAL FIRM HAS MOVED TO LARGER SHOP

Finding their former quarters on Broadway West, far too small for their constantly increasing business, the Richardson Electric Company has just moved into larger and more centrally located premises at 923 Georgia St. West. The new shop, the firm points out, will not only enable them to carry a larger and more complete stock of electrical goods, but with an increased staff, they will be in a position to offer superior service to their patrons.

The firm has also undergone a change to taking in Mr. M. D. Rushforth, a former partner of Mr. Richardson. Mr. Rushforth has just recently returned from four years service overseas with the Canadian Engineering Anti-Aircraft Searchlight Company.

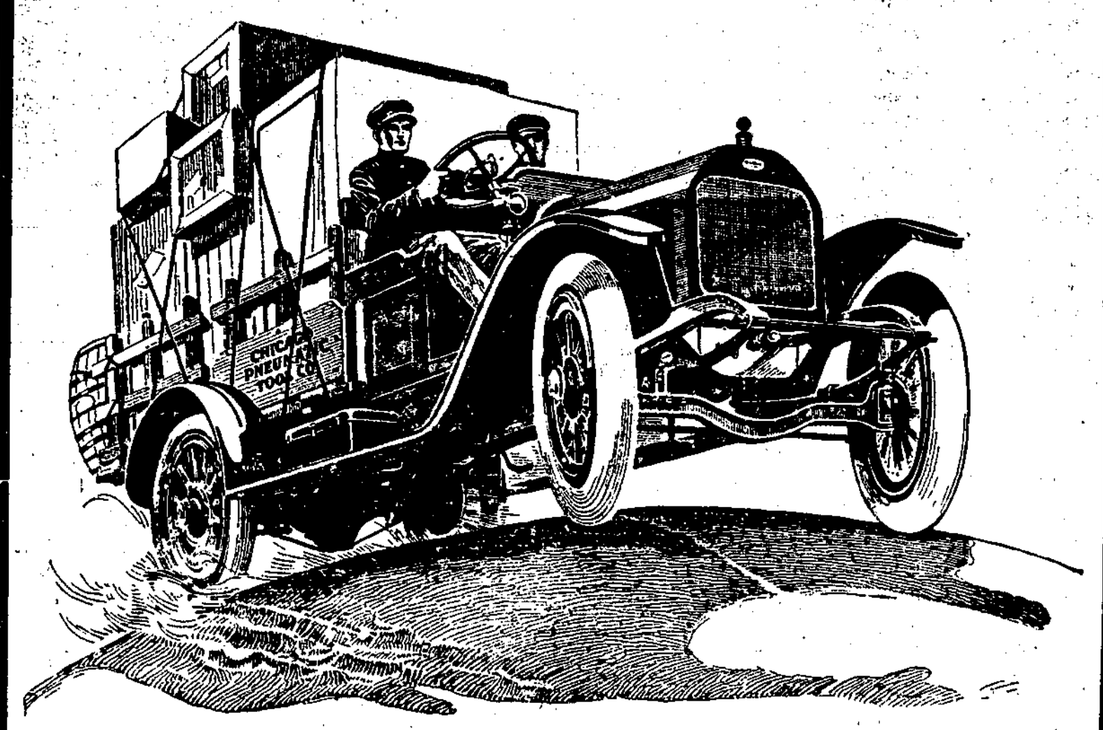
GIANT TRUCKS



1--2--3½ TON CAPACITIES
are a perfect assembly of highly standardized units, to which is added an exclusive feature, viz.: the Duntley Generator, which permits the burning of low-grade fuels. Distillate at 23c per fallon instead of gasoline at 33c per gallon effects a saving that the shrewd buyer will not overlook.
Investigate the merits of this truck; inquire into our "Service" before purchasing.

by the recent labor troubles. Advantage was taken, however, of the period while the plant was closed down to considerably remodel it and some new machinery has also been installed so that the output is considerably increased. The company is now in position to fill all orders for a first class brick.

Mr. J. J. Allan Ritchie, 412 Vancouver block, will have the sale of the entire output of the plant and is ready to take orders from all dealers.

B. C. TECHNICAL ASSOCIATION MEETING

An important general meeting of the B. C. Technical Association will be held this (Monday) evening in the Board of Trade auditorium, when matters of interest to all technical men and their assistants will come up for consideration. The Association has just issued a booklet giving a list of members of the organization together with the aims and objects of the Association. This little booklet is well worthy of careful study by all professional men. An invitation is extended to all technical men to attend tonight's meeting and join the Association.
