Cattle in Far North

Mackenzie River District Suitable for Grazing Cattle and Production of Vegetables

Edmonton, April 9—Mr. Angus Brabant, inspector of the Hudsons's Bay Company's trading posts in the Mackenzie River district, which annually send more than $1,000,000 worth of fine furs to the marts of the world, announced on his arrival at Edmonton, that large crops of potatoes, beets, turnips and other garden vegetables were harvested last season at the 18 posts. Most of these are well within the Arctic circle, from 1,500 to 2,100 miles north of Edmonton. He reports that there are not less than 500 buffaloes in the two herds seen recently in the North country, besides hundreds of Cariboo and deer of all varieties. Mr. Brabant is of the opinion that thousands of beef cattle could be raised in the northern latitudes, and with that end in view he will take a small herd into "the farthest north" district as soon as river navigation opens this spring. He will also experiment with grains for feeding purposes.

Money In Letters

Ottawa, April 9.—"We are going to modify the regulations recently passed prohibiting the transmission of coin or bank notes in unregistered letters, so that people will be able to send through the ordinary mail amounts not exceeding a dollar," said Dr. Coulter, deputy-postmaster-general.

Naturalization Bill

London, April 9—The Imperial Naturalization Bill unifying the law relating to naturalized subjects throughout the Empire, has had its third reading in the House of Lords, and special facilities will be extended for expediting the measure through the lower House.

Hudson's Bay Land Sales

London, April 9.—Official returns of land sales by the Hudson's Bay Company for the past twelve months show a serious falling off. The sales of farm lands declined by, £115,000, or nearly 50 per cent., and town lots decreased by £1,247,200, or more than 90 per cent. The total receipts for the past twelve months were £458,000 as against £705,600 in the preceding period.

Naval Reciprocity

London, April 9.—A Melbourne dispatch to the Chronicle says that the Borden Government has been approached by Australia with a suggestion of naval reciprocity.

Help Reaches General Velasco From Saltillo

Washington, April 9.—Federal reinforcements from Saltillo have reached Torreon, according to a telegram to the Mexican embassy here from the Mexican consul at El Paso. The message adds that there seemed to be little danger of the city being taken by Villa. The number of federal troops was not given.

Still Fighting at Torreon.

Juarez, April 9.—Out of the maze of reports and counter reports concerning the activity of General Francisco Villa at Torreon, the assumption was drawn that fighting continues. This was based on a telegram from Villa to General Carranza. Interest here also centered on the reported movements of reinforcements for the federal troops of General Velasco at Torren.

Coxey to Lead Half a Million Men to Capital

New York, April 9.—Jacob S. Coxey, leader of the "army" which bore his name and marched on Washington in 1894, established headquarters here. He said he would spend several days looking after plans for the mobilization of the New York wing of an army of 500,000 men which he intends to lead into the national capital some time this month. The main division of the army, he said, would leave Massilon, Ohio, on April 16 and be joined outside Washington by the eastern division.

Strong Opposition to Projected All Red Line

Ottawa, April 9.—Strong opposition to another transcontinental railway scheme has been voiced in the railway committee when the bill to incorporate the All Red Line Railway Company came before it. The projected line is from Cape St. Charles, Labrador, to the Pacific Coast, north of the N. T. R. line. The incorporators are, Edward Holland of Prescott, F. H. Palmer and W. F. Stafford of Buffalo, and G. F. Hope and G. A. White of Toronto.

Order Extended Prohibiting Entrance of Artisans

Ottawa, April 9.—At a meeting of the Cabinet Council the order-in-council prohibiting the landing of all laborers on the Pacific Coast for a period of six months in view of the congestion in the labor market in British Columbia, and also with a view to stopping Oriental immigration, was renewed for another six months. There is no change in the term of the order.

Prince Rupert Booms

Population Now 6000 and Stated to Be Growing Rapidly

Prince Rupert, April 9.—A census of the city is now being taken by the officials of the police department. The population is in the neighborhood of 6000 people, and in recent weeks has been growing rapidly. Houses are at a premium and the hotel accommodation taxed to capacity. Several apartment houses are about to be erected and in Section Eight, twelve residences are under construction. A very lively year of building activity is assured. Weather conditions are superb.

Indian Lands Commission

Victoria, April 9.—A Montreal lawyer, Mr. J. Carmichael, has been appointed to the Indian lands commission to fill the vacancy created by the resignation of Hon. E. L. Wetmore, whose position as chairman is to be filled by the promotion of Mr. N. W. White, of Shelbourne, N. S.

Federalism Proposed For British Isles

Meets With Approval on Both Sides in Britain

London, April 9 The proposal of Sir Edward Grey to the House of Commons of a federal system of government for the British Isles, as a solution of the difficulty, which he put forward in a conciliatory speech, has been received on both sides of the House with great sympathy, and it is believed it will lead to a renewal of the negotiations between the two front benches for the arrangement of a suitable compromise. The large body of opinion, both inside and outside parliament, supports a settlement on the federal basis and a meeting of about fifty members of the House, representing the two parties, was held to discuss such a settlement.

Jottings of Bella Coola and District

The S. S. Camosun made her usual weekly call at this port on Sunday, bringing a large number of passengers.

Mr. G. K. Burnett has returned to personally supervise survey work in this neighborhood.

Mr. T. Murray, late representative of the well known firm of Mackay Smith, Blair & Co., of Vancouver, is in town. Mr. Murray is now a free lance. As a manufacturers agent he can supply anything from a needle to an anchor. Having already acquired the habit of making good, there is little doubt as to his success in his new enterprise.

E. Gordon and C. Skjepstad have returned after a short visit to the State of Washington, where they have arranged to take up land. They have no intention of deserting Bella Coola valley, being too well aware of the prospects of early development.

F. Sagar arrived in town by the last steamer. Mr. Sagar is engaged in surveying the extensive holdings of Messrs. Field Brothers, the well known timber firm of Victoria.

Martin Nygaard arrived by the Camosun last Sunday from the Manitou cannery, Kimsquit, for a visit of a couple of weeks.

Mr. and Mrs. J. W. Macfarlane left for Victoria by the last south bound steamer.

Messrs. A. C. Christenson, J. Forsyth and J. Johnson left here on Sunday for Takoosh harbor, where Mr. Christenson has intentions of opening a branch of his mercantile business.

Geo. Dagg left for the south by Sunday's steamer after spending several weeks in the town.

Sportsman's Mysterious Disappearance

A sad calamity has cast a gloom over Bella Coola Valley. On Wednesday night word reached the town that Colonel Robert F. Lindsell, C. B., had disappeared, and in spite of a thorough search of the vicinity by the neighboring settlers no trace of him could be found.

It appears that Col. Lindsell, who was an ardent sportsman, had taken his rod and line and gone to the river to enjoy the excellent trout fishing which these waters provide. When he failed to appear at the home of Mr. S. Le C. Grant, where he was making his temporary residence, at his accustomed time, some anxiety arose as to his whereabouts, which rapidly increased when it was found that he was not to be located at the homes of any of the neighbors, where it was hoped he had gone to pay a friendly visit.

On word of his disappearance reaching town, constable Broughton left for the spot and continued the search but without avail. Returning to town, he engaged Indians with canoes and all day Thursday the search was continued.

It is stated that the Colonel can be traced to the river, where it seems likely that he waded out to a large flat rock on which he took up his position in order to pursue his favorite sport. It is assumed that he either overbalanced and fell from this rock, or that being tempted to cross the river he was swept off his feet by the rapidly running stream and carried under one of the numerous log-jams in this part of the river.

Colonel Lindsell, who had for some years retired from the British army, had spent several months visiting his son, Mr. G. Lindsell, and by his genial manner had won many friends who will deeply regret his sad death.

Much sympathy is being expressed with Mr. and Mrs. G. Lindsell and son in their sad bereavement.

W. H. Mackay and Karl W. Brink, of Hagensborg, visited town on Thursday last.

Minstrels Visit Hagensborg

On Tuesday last the Bella Coola Minstrels visited Hagensborg and repeated the performance of the previous week.

The various solos and choruses were excellently rendered, to the obvious enjoyment of a large audience, who were most appreciative, every item being applauded and encored.

The Troupe on this occasion was augmented by the inclusion of Mr. G. S. Lindsell, whose banjo turns rounded out the program to great effect.

The choruses were well received, the "coons" giving tongue like hounds on a hot scent.

Where every member of the company did so well it would be invidious to mention individual turns, but particular thanks are due to Mr. E. R. A. Russell, the musical director, to whose patience and untiring efforts most of the success is due.

The proceeds of this latter concert are divided between two very worthy objects, the clearing of the hospital grounds and the building of a public hall.

Mr. Chas. Draney called here on Monday last en route to Kimsquit. He took with him Gus. Pearson, who is to be netman at the Kimsquit cannery during the coming season.

Messrs. W. and H. Sutherland and L. Calnan left on Wednesday last for Bachelor Bay.

Mr. and Mrs. W. Sutherland are having a large addition built to their charming bungalow "The Shack." The work is in the hands of F. G. Hagan.

Mr. and Mrs. T. P. Saugstad and daughter arrived from Kimsquit on Wednesday last, by the power-launch Kimsquit.

S. S. Celtic called at this port on Monday last with a large consignment of tin and gasoline.

Alf. Saugstad, late resident of Hagensborg, who is first mate of the Celtic, took the opportunity of visiting his relatives and friends in the valley.

Rumor has it that the local minstrel troupe were supplied with shoe-blacking instead of the regulation burnt-cork on the occasion of their recent performance at Hagensborg. At any-rate some of the "coons" looked suspiciously dark for several days after.

The work of clearing and leveling the hospital grounds is proceding apace, and the grounds already present a very altered appearance.

The men responsible for the work of protecting the town from a re-occurrence of the flood which caused so much damage last fall, are to be congratulated on the substantial nature of their work. Anything but cribbing of the most substantial nature would have been a mere waste of money, and it is gratifying to know that this work is in capable hands.

Arrangements for annual Empire Day celebrations have already been commenced by the Development League, and there is every prospect that the proceedings this year will outclass anything of the nature in the history of the valley.

The celebration will take place on Saturday, May 23rd, and every effort will be made to attract a large number of people from the neighboring ports.

The Union Steamship Company have been requested to have their steamer arrive in the early morning of that day and remain until late at night, which will give passengers an opportunity of spending a full day in the valley.

The annual meeting of the Development League will be held at the Mackenzie School on Saturday, 18th inst., at 7:30 o'clock. A full attendance is requested.

The Clayton Bridge

The new Clayton bridge over the Bella Coola River is being rushed along, and under the able supervision of R. O. N. Ellison, the public will soon be able to cross over to the Clayton side of the river without running the risk of taking an involuntary bath from an upturned canoe.

The big 154 foot span on the north side of the river is now in place and solid on its piers, and before the end of the month it is hoped that the smaller 130 foot span will also be placed and the bridge practically completed.

On Sunday next a special Easter service of song will be held in the Indian mission church at 2:30 p. m. All are cordially invited.

Our old friend Alf. Blakemore has the honor of securing the first bear of the season.

To see is to secure with Alf. Spotting his game on the wild hillside by the aid of his trusty telescope, he seized his rifle and took to the trail, with the result that two excellent yearling bear pelts now grace his wigwam. Mama bear was too wise for Alf even, and lives to fight another day.

$100 REWARD

Will be paid by the undersigned for the recovery of the body of Colonel R. F. Lindsell.

G. LINDSELL,
Hagensborg, B. C.

"Salus populi suprema est lex."

SATURDAY, APRIL 11, 1914.

Ours the Responsibility.

"It is for the electors of this and every other constituency to do their duty by their country and themselves, to recognize their personal responsibility."—John Oliver at Hagensborg.

Ask any settler in Bella Coola on what he bases his hopes for his future prosperity, and you will be told on the early commencement of railroad construction.

There is not a single settler in the whole valley who has not for years held on to his land, in spite of inconveniences and even hardships, in the hope of some day having a railroad passing his door.

On this and this alone are the present prices of land based.

Yet, when given the alternative of a railroad from Bella Coola to Fort Fraser or a railroad paralleling an existing road to Vancouver, these same men, or many of them, deliberately supported the statement of Premier McBride that such a line was impracticable, impossible and preposterous.

The people of Bella Coola, in electing Wm. Manson as their representative, deliberately hired a man to combat the scheme of a Bella Coola railway.

Wm. Manson as representative of this district only carried out the wishes of the people in supporting the McBride railway policy.

Is Wm. Manson doing his duty by his vast constituency when he sits quietly by and hears the statement of the premier that public works are to be curtailed, PARTICULARLY IN THE NORTH? Is this the man of all others fitted to represent you in the legislature?

Are the people of Bella Coola happy in the knowledge that Wm. Manson has allowed the grant to the resident physician to be reduced by nearly half?

Did you send Wm. Manson to Victoria that he might help to enact iniquitous legislation whereby unjust and unpatriotic distinction is made between the British born and the naturalized citizen of Canada?

Wm. Manson has done that which as your representative he should not have done, and he has consistently left undone those things which he should have done. He has proven himself unworthy of the trust which you reposed in him.

It is for the people of Skeena district to see that they are represented by a man with the moral courage to stand up for his district. Wm. Manson has no moral courage. He is a rubber-stamp of the cheapest kind. It is full time he was put on the shelf among the useless bric-a-brac of those who have been weighed in the balance and found wanting.

° ° ° ° °

They Squeal When the Trough Is Empty.

The reduction in appropriations for public works is bringing a groan of protest from nearly every part of the province. The West Yale Review, a Conservative newspaper, seems to have a grouch. Speaking of the Hope-Popcum road this paper says: "There is no single piece of road in the province that would gratify more people. And yet the unanimous wish of all concerned seems to have no weight. . . . . The officials of the Public Works Department know the requirements and the failure to provide for them at once is inexplicable."

It is surprising how the faithful start to squeal as soon as the trough is empty.

Perhaps the people of Hope, like ourselves, were promised a huge appropriation this year. Maybe their representative told them what Wm. Manson told us last fall, that there were millions of a surplus laying in the treasury to be had for the asking.

Maybe the people of Hope like the people of Bella Coola believed all this twaddle, and find themselves fooled. If so, no wonder they have a grouch.

° ° ° ° °

It seems just possible that the huge appropriation promised last fall by Wm. Manson will amount to the cost of his election, nearly $12,000.

° ° ° ° °

The people of Terrace are on to Wm. Manson's curves. A recent meeting at which our representative endeavored to apologise for his failure to do his duty by his constituency terminated with a vote of censure, which only narrowly escaped being carried.

Mr. Manson admitted that Mackenzie and Mann had the province in a corner when he said: "If we didn't further guarantee their bonds, we would probably be called upon to make good our guarantees of the past."

° ° ° ° °

Wait till you hear Wm. Manson tell you that your oath as a naturalized British subject is not sufficient to obtain for yourself a vote, unless backed by documentary evidence that you are telling the truth.

Mr. Manson acting in your name and in your interests supported Mr. Bowser's shameful amendment to the Elections Act. What have you to say?

° ° ° ° °

HAVE YOU GOT YOUR NATURALIZATION CERTIFICATE? YOU WILL UNDOUBTEDLY NEED IT, PERHAPS SOONER THAN YOU EXPECT. IF YOU CANNOT FIND IT, GET A COPY AT ONCE.

DON'T LET BOWSER BEAT YOU OUT OF YOUR VOTE.

° ° ° ° °

While the Courier has, on occasions, been sharp to criticise the wasteful expenditure on public works throughout the valley, we are always prepared to give credit where credit is due.

In the cribbing on the Necleetsconnay River, we have a piece of work which is a credit to the foreman concerned and to the public works department. In foreman Ellison we have a man who has already amply demonstrated the fact that he understands his work from a to z. Foreman McCloskey who has charge of the gang employed on the crib-work is a man of experience as his work shows. With such men as these in charge of public works in the valley, we can look with confidence to obtaining adequate value for money expended.

The bridge over the Bella Coola River is another example of good work by good men. We will deal with this later at more length.

° ° ° ° °

Mr. Bowser says as far as the law is concerned British Columbia is fairly bristling with constitutional problems. The Attorney-General would have been nearer the truth if he had put it another way. He might have said he had created many bristling constitutional problems and impaled himself on every one of them.

° ° ° ° °

The Victoria Times draws attention to what it describes as the miraculous feat of a man who staked an area of 40,000 acres of land on one day and another 45,000 acres on the next day, although the two areas were seventy-five miles apart. Lucky we are that this man was pressed for time. Given a week he would have staked the whole province.

According to official returns and practical experience, nothing within the boundaries of Canada is increasing under the Borden regime save Dominion expenditures and the cost of living.

° ° ° ° °

If D. A. Thomas, the Welsh coal baron, builds that railway from the Naas to the Groundhog district without seeking a subsidy from the federal or provincial governments statues in his honor should be erected in every city, town and hamlet in the Dominion, and every child born from now to the end of 1914 should be named after him. In fact, the circumstance would be so unusual that even girl babies should be called Thomas.—Victoria Times.

° ° ° ° °

Sir Richard has made a speech in the east. His subject was the conservation of natural resources. When we think of what Sir Richard has done to the natural resources of British Columbia, if we did not know the man and remember his "undertakings" we should be constrained to wonder at his effrontery.—Victoria Times

° ° ° ° °

OUR SUPERB CLIMATE.

Speaking of healthy regions, how can Canada be beaten? It has developed that of 28,000 men who served to repel Fenian raids in 1866 and 1870 applications for bounties under recent legislation already number 30,000.—Buffalo Courier.

° ° ° ° °

Sir Wilfrid on Home Rule.

"Canada is today what it is because British statesmen of the past were wise enough to give the Dominion home government.

"I am firm in my belief that when the day comes when Ireland has a government responsible to the people, as the government of Canada is, the result will be the same as it has been in Canada. As far as I myself am concerned, I am satisfied, just as I am satisfied of my own existence, that the progress and future of Ireland will rest on the same basis as that on which rests Canadian liberty, and that is all you Irishmen can ask for." Sir Wilfrid Laurier at banquet of St. Patrick's Literary and Scientific Association, Ottawa.

FOURTEEN TO ONE.

Prairie, Farm and Home, a western periodical, has a cartoon representing a farmer wearing a huge busby labelled $14,000,000 for militia, and carrying a tiny bundle marked $1,000,000 for agriculture. It is entitled "Jack Canuck's March of Progress." They seem to be getting on to the curves of our own dear Colonel Sam.—Ottawa Free Press.

Quaint Methods of Telling Time.

To ascertain the time at night, the Apache Indians employed a gourd, on which the stars of heaven were marked. As the constellations rose in the sky the Indian referred to his gourd and found out the hour. By turning the gourd around he could tell the order in which the constellations might be expected to appear.

The hill people of Assam reckon time and distance by the number of quids of betel nuts chewed. It will be remembered how, according to Washington Irving, the Dutch Colonial Assembly was invariably dismissed at the last puff of the third pipe of tobacco of Governor Wouter Van Twiller.

A Montagnis Indian of Canada will set up a tall stick in the snow when travelling ahead of his friends who are to follow. He marks with his foot the line of shadow cast, and by the change in the angle of the shadow the oncoming party can tell, on arriving at the spot, about how far ahead the leader is.

SYNOPSIS OF COAL MINING REGULATIONS

COAL MINING RIGHTS of the Dominion, in MANITOBA, SASKATCHEWAN and ALBERTA, the YUKON TERRITORY, the NORTH-WEST TERRITORIES and in a portion of the PROVINCE of BRITISH COLUMBIA, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

VANCOUVER LAND DISTRICT

DISTRICT OF COAST—RANGE III.

TAKE NOTICE that Walter F. Brydon of Schooner Passage, occupation engineer, intends to apply for permission to purchase the following described land:

Commencing at a post planted at the south-west corner of an Island situate about one mile distant and in a westerly direction from East Bella Bella Cannery, Bella Bella, B. C., thence north five chains, thence east ten chains, thence south five chains, thence west ten chains along shore line to point of commencement, including whole Island.

WALTER F. BRYDON.

Date, 4th March, 1914. March 14—May 16.

An Irishman wrote home to his family in the Old Country that the people in this country were so honest that they had to offer a reward for theives.

VANCOUVER LAND DISTRICT

DISTRICT OF COAST—RANGE II.

TAKE NOTICE that George Simpson McTavish, of Victoria, B. C., occupation canneryman, intends to apply for permission to purchase the following described land:

Commencing at a post planted about ten chains distant in a westerly direction from an unnamed creek emptying in Victoria Cove, Rivers Inlet, thence south 20 chains, thence east 40 chains, thence north 20 chains, thence west 40 chains following shore to point of commencement, containing 80 acres, more or less.

GEORGE SIMPSON McTAVISH.

Date, 28th February, 1914. Mar. 7—May 9.

The young man in the parlor scene may lose sight of the girl's mother, but it doesn't follow that she has lost sight of him—if there's a convenient keyhole.

Mrs. Scrouch—Is Mrs. Gabber an interesting talker?

Mrs. Grouch—Oh, yes, she don't know nothing about nobody, but she suspects so much about everybody.
