PUBLISHED WEEKLY IN THE INTERESTS OF THE BOUNDARY CREEK MINING DISTRICT.

Vol. VI. GREENWOOD, B. C., SATURDAY, AUGUST 12, 1899. No. 15

Legislature Library

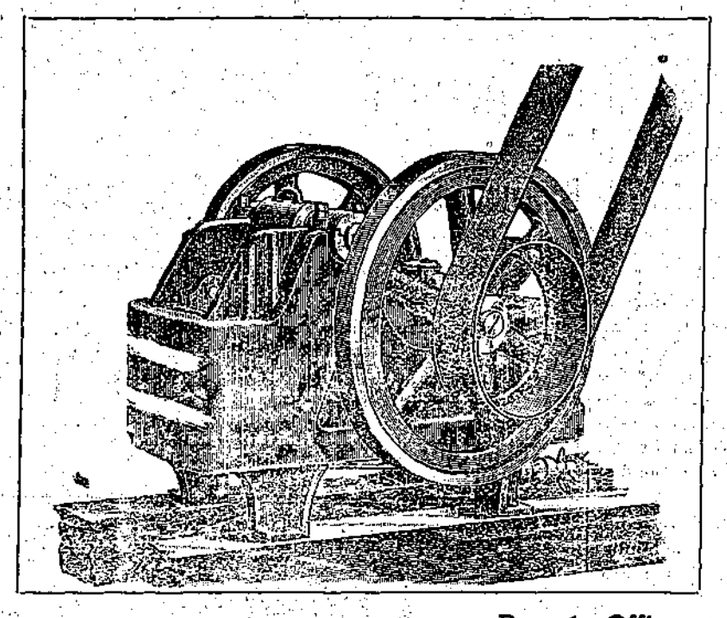
The Wm. Hamilton Manufacturing Co. Ltd.

BUILDERS OF

MODERN MACHINERY. MINING

Contractors for the design and construction of complete Stamp Mills, Concentration, Chlorination, Cyanide and Smelter Equipments.

Sole Agents for British Columbia for John Bertram & Sons' Iron Working Machinery, MacGregor, Gourlay Co.'s Wood Working Machinery.



Sole Agents for British Columbia for R. Hoe & Co.'s Celebrated Inserted Tooth Saws, M. Beatty & Sons' Dredging Machinery.

Head Office and Works: PETERBORO, ONT.

Branch Offices: Vancouver, B. C., Rossland, B. C., And Greenwood, B.C. HARRY HOWSON, Agent.

Put up in 400 Barrels and 200 lbs. Sacks.

PORTLAND CEMENT.

Manufactured by the B. C. Portland Cement Co. at Vancouver and guaranteed equal to any imported cement in the country

Agents for British Columbia, BOYD BURNS & Co. Vancouver, B.C. Wholesale Dealers in Plumbing and Engineering Supplies

HARRY HOWSON Local Agent GREENWOOD, B. C.

Used Largely by C.P.R. and by Contractors Generally.

..CAULFIELD & LAMONT..

DEALERS IN SHELF AND HEAVY HARDWARE

The Imperial Hotel

IS THE BEST HOTEL IN GREENWOOD. A New Building, well furnished. First-class Service in all departments. Choice, Wines, Liquors and Cigars. Headquarters for Mining and Commercial Men.

Copper Street, Greenwood.

A FATAL ACCIDENT.

MATELLO KILLED IN MOTHER LODE

He Fell Down the Shaft a Distance of 215 Feet—He and Other Muckers Failed to Give the Engineer Proper Signals—Jumped From the Bucket.

For the first time the Mother Lode mine was the scene of a fatal accident. Dom. Matello, a mucker, lost his life by falling to the bottom of the shaft, a distance of 215 feet. The accident happened Monday afternoon. It was the result of carelessness on the part of Matello and the other muckers who were in the shaft with him. The engineer had been hoisting ore during the afternoon. The signal for hoisting ore is one bell, while for hoisting men is 3-1. Matello and two other muckers got on the bucket, each thinking the other gave the proper signal to the engineer for hoisting men. But the engineer received only one ring—the signal for hoisting ore and the bucket came up at a much faster rate than is usual with men on. When it reached the top of the shaft the men became excited. The bucket went higher as is necessary to allow dumping the ore. Matello and one of his companions jumped, the other remained in the backet. While his companion escaped clear of shaft, poor Matello slipped and fell in, plunging to his death 215 feet below. He was frightfully mangled and death must have been instantaneous.

Matello was an Italian about 40 years of age. He has a cousin working on the railway grade and another in Idaho.

Provincial Constable McMynn visited the Mother Lode and made inquiries, but did not consider an inquest necessary. The remains were interred in the Greenwood cemetery, the funeral taking place from Gulley's undertaking parlors on Wednesday.

LAYING THE CORNER STONE.

Interesting Ceremony in Connection With the New Baptist Church.

There was a very large congregation present to witness the interesting ceremony of laying the corner stone of the Methodist church on Monday evening last. Mayor Hardy presided, and the members of the city council, together with the clergymen of other denominations, were on the platform. Brif addresses were delivered by Rev. Mr. Balperston and Rev. Mr. Fortune; representing the Methodist and Presbyterians. Rev. Mr. Stackhouse representing the B. C. Baptist conference, and Rev. Mr. Trotter: Then Ald. Wood, laid the corner stone accompanied by the reading of the beautiful Masonic lecture. Mr. Wood used the trowel like an adept, and the stone was declared well and truly laid. "God Save the Queen," brought the pleasing evening to a close.

The Baptist church will be, when completed, a very imposing edifice. The situation is Long Lake street below Mineral street. The contractors for the building are Smith Bros. & Travis.

PROPERTIES BONDED

By Messrs. Naden and Ceperely on Kruger Mountain—Mother Lode Smelter—Notes.

G. R. Naden, managing director of the Bealey Investment and Trust company, and H. T. Ceperley, the well known insurance and financial man of Vancouver, made a flying trip to Camp McKinney, Fairview and Kruger mountain, returning to the city on Wednesday, They succeeded in bonding two Kruger mountain properties of great promise. The bond was drawn up and signed under peculiar circumstances. The properties were visited and the showing being satisfactory Messrs. Naden and Ceperley made an effort to find the owners. They were told that all had left to attend the funeral of the late Mr. Kruger. Thither they proceeded and found their men. While the funeral service was proceeding in the residence, Mr. Ceperley turned his valise into a temporary writing desk for the use of Mr. Naden who drew up the bond. The signatures were then and there secured and the deal was made. The properties bonded are the Anaconda Dividend and the Gold Dust, owned by Fisher, et al. The figures mentioned in the bond are high, but as the properties contain big ledges that give high gold values, Messrs. Naden and Ceperley are delighted with the deal. Work will be started on the properties in a short time.

Work will shortly be started on the Red Rock, a Greenwood camp property, recenty bonded by Mr. F. P. Buck, of Sherbrooke, Que. The Red Rock was owned by the Bealey Investment and Trust company, the British America Development company of New York, represented by Mr. Ceperley and J. C. Haas. It has been developed to a considerable extent and has a strong showing. The price mentioned in the bond is $25,000, 10 per cent having been paid in cash; the balance is to be paid in six months and the original owners are to receive 10 per cent of the stock in the company to be organized by Mr. Buck.

E. G. Warren, of Rossland, who has charge of several properties in Camp McKinney, was in the city this week. They visited several properties including those in which they are financially interested. They met members of the board of trade in reference to plans for bringing the business of their properties into closer touch with the city. Mr. Jaffray stated that Dominion Copper company, which had securied Mackenzie, Mann & Co.'s properties, were disposed to do everything possible to make Greenwood a large commercial and mning center.

Mr. Paul Johnson, the well known smelter expert, has arrived in Nelson from California and will reach Greenwood in a few days. Mr. Johnson will consult with Mr. Keffer, the manager of the B. C. Copper company, relative to the selection of a site for a smelter. The report in Tuesday's News-Advertiser that the smelter will be built at Cascade, nine miles distant from the Mother Lode mine, is palpably inaccurate. The smelter will be built on Boundary creek, probably at the mouth of Copper creek.

R. J. Cawston, the well known Similkameen cattle man, was in Greenwood, this week.

FOR SALE—An organ nearly new. A bargain. Apply A. Palmer, Greenwood, B. C.

Dermody-Punch.

Mr. Pat Dermody, the foreman at the Old Ironsides mine, and Miss Catherine Punch, daughter of Mr. James Punch, of Phoenix, and formerly of New Westminister, were married in Spokane on Tuesday, August 1st. The happy couple after spending several days in Spokane, returned to Phoenix where they will make their home. Both are well and popularly known in the district and the Times joins their many friends in extending congratulations.

BOARDS OF TRADE MEET.

Successful Conference of the Kootenay Boards of Trade Held in Rossland Last Week. Many Subjects Relating to Mining Regions of Southern B. C. Considered.

Boundary Creek District not Neglected by Conference—The Trail Smelter Visited by Delegates—Mr. Aldridge's Intentions Regarding Boundary Creek Ores.

The Rossland Board of Trade is to be congratulated upon being instrumental in securing the conference of the boards of trade of the Kootenays and Boundary Creek. When the idea was suggested to the different boards, it was favorably considered because it was felt that there were many matters of public interest upon which the different boards could agree and that an organization representing the different sections of the province would have greater weight than an individual board. The conference could not be a greater success. Every board of trade in East and West Kootenay and Boundary Creek district was represented. When the conference was opened in the rooms of J. S. C. Fraser the president of the Bank of Montreal the following delegates were present:

Moyie, J. P. Farrell; Grand Forks, W. B. Cochrane and Smith Curtis; Fort Steele, J. A. Harvey and E. J. Walsh; Cascade, Stanley Mayall; Revelstoke, T. L. Haig and J. T. Brewster; Trail, Col. E. S. Topping and W. H. Aldridge; Greenwood, A. J. McMillan and Duncan Ross, and Rossland, Hon. T. Mayne Daly, and J. S. C. Fraser. Subsequently, during the afternoon session, Messrs. Roderick Robertson and Frank Fletcher, and Messrs. G. O. Buchanan and H. Giegerich, representing Nelson and Kaslo respectively, arrived and took part in the proceedings.

Mr. Fraser the president of the Rossland board was appointed chairman of the conference, Duncan Ross was appointed vice-chairman and H. W. C. Jackson secretary, with Fred C. Moffatt of the Rossland Miner as his assistant.

Messrs. Daly, McMillan, Haig and Harvey were appointed a committee to outline a plan of procedure. They recommended that an association be formed to be known as the Associated Boards of Trade of Eastern British Columbia, the membership to be composed of two delegates from each of the boards of trade now existing or hereafter organized in the mining districts of Yale, East and West Kootenay and Cariboo. That the annual meeting be held on the first Thursday in August the place of next meeting to be decided by a majority vote at each annual meeting, emergency meetings to be called by the executive committee, who will decide time and place; that the purpose of this organization shall be to discuss and take action upon all questions affecting the general welfare of the people residing within the jurisdiction of the association, and more particularly all matters affecting the mining industry, the officers of the board to consist of a president, two vice-presidents, secretary and an executive committee of six members representing the various mining districts, each board to pay an annual fee of $15 for general expenses, each delegate present to have a vote. The order of business and regulations for discussion was also provided.

From the different suggestions offered by different boards, the committee also prepared a programme of 18 subjects to be considered but as these subjects are referred to as they were discussed a list is not necessary here.

MINING BULLETINS.

A. J. McMillan one of the Greenwood delegates introduced the first resolution. Mr. McMillan was one of the most useful members of the conference. He was always ready to urge anything relating to the district he represented and his knowledge of all parts of the province and London was of the greatest value to the conference. The first resolution which he introduced and which was seconded by Hon. Mr. Daly was as follows:

That this meeting of the Associated Board of Trade of Eastern British Columbia hereby urges upon the provincial government the desirability of issuing quarterly bulletins, giving information with reference to the output of the mines of the province and such other general information on mining matters as may be of public interest.

BETTER MAIL SERVICE.

After a brief discussion a committee consisting of Messrs. Ross, Harvey, Curtis and Mayall were appointed for the purpose of drafting a resolution dealing with the mail service. On Friday morning Mr. Ross moved the following resolution. It was seconded by Mr. Harvey and carried unanimously:

Whereas, the attention of the associated Boards of Trade of Eastern British Columbia has been directed to numerous complaints in regard to the irregularities in the mail service in various parts of the Kootenays and Yale district, to delay in securing adequate postal facilities for new and rapid growing mining districts, to the insufficient salaries paid to the postmasters in towns and cities which have sprung into prominence during recent years; to carelessness on the part of stage companies having contracts for the conveyance of the mails, to delays in forwarding mails to points adjacent to main lines of railway and generally to insufficient and unsatisfactory mail service in the districts mentioned:

And whereas, particulars of complaints will be furnished to the honorable, the postmaster-general, should he so desire:

Therefore be it resolved, that this association desire to respectfully call the attention of the honorable, the postmaster-general, to the complaints referred to and to urge upon him to take such steps as will place the postal service in Eastern and Southern British Columbia on a basis more suited to the requirements of the mining country which is being rapidly developed, which consequently demands speedier and closer attention from the postoffice department than old established districts in the east. And the associaiton desire to particularly urge upon the honorable the postmaster-general, the necessity of providing a daily mail service for all towns which have daily communication by railway, steamers or stages.

THE BOUNDARY COUNTRY.

Mr. Ross seconded by Mr. Smith Curtis representing Grand Forks introduced a resolution in reference to the official recognition of the Boundary country. After a brief discussion the resolution passed as follows:

Whereas, the present Canadian and mining journals have frequent references to the marvelous richness of the mineral resources of that part of British Columbia popularly known as the Boundary country:

And whereas, the general public outside of the provinces have a vague or erroneous impression as to its location, since it is not indicated upon the provincial maps:

Therefore be it resolved that this association urge upon the provincial government the desirability of designating the mineral region occupying the Kettle River basin, as "The Boundary District," and of having this district defined and named on all maps of the province.

JUSTICE FOR MINING DISTRICTS

One of the most important questions that came before the conference was that introduced by Mr. Buchanan of Kaslo. It related to the injustice done the mining districts in the matter of appropriations and suggested as a remedy the organization of municipalities. Mr. Buchanan who is an excellent speaker delivered an interesting address full of facts and figures. He said the chief end sought by the resolution was to secure the roads that were so very urgently needed in every mining section in the province at the present time. A million dollars worth of roads were needed in the Kootenay alone. The present system of attempting to obtain from the provincial government the necessary appropriations to construct roads to open up the districts, had broken down so completely that he had no further use for it. In his own immediate district of Kaslo they had made out a good case for the immediate expenditure of $75,000 for roads urgently needed for mining purposes, and the grant given had been only $15,000. The government receipts from all sources last year were something over $2,000,000, made up of

Board of Trade Meets.

(Continued From Page 2.)

$561,000, borrowed $451,000 from general receipts, and the balance of $1,023,000 from taxation in one form or another. West Kootenay had collected and contributed to Victoria the sum of $293,000, and East Kootenay $58,000, or a total of $350,000; yet for all purposes these districts only obtained back $11,000 for West Kootenay, and $21,000 for East Kootenay, a total of $132,000. Indirectly Kootenay had contributed a much larger sum than that mentioned, and when the government was asked for appropriations such totally inadequate aid was given that he for one was ready to break the existing partnership and try some other method. He was not wedded to a system of municipalities, but if a better scheme was suggested, would gladly support it. The speaker went very fully into the whole question, and concluded an eloquent appeal to the convention, with the suggestion that this resolution might prove a solution of the difficulties heretofore encountered. (Applause.)

Mr. Ross and Col. Topping asked where the proposed municipalities would obtain their revenue. Hon. Mr. Daly very warmly congratulated Mr. Buchanan upon his excellent presentation of the question. He thought a scheme of taxation for revenue purposes could readily be worked out and the municipalities could fairly ask the government for a fair share of the large amount contributed every year by them and for which they got so little in return. He condemned the present system as most unfair and inadequate and instanced the grant of $15,000 for Trail Creek and the Boundary combined. Mr. Harvey, Mr. Haig and other speakers all agreed that a great injustice was perperated by the present system, and the development of the province seriously retarded, but expressed some doubts as to the working out of the scheme in detail.

Mr. Ross said there was no guarantee that municipalities would make a better distribution than the government. He would favor any plan that would give a fairer share of the appropriation than that at present obtained. After Mr. Curtis had spoken in favor of some new system Mr. Daly moved a resolution which carried, referring the motion offered to a committee composed of Messrs. Buchanan, Curtis, Harvey, Ross and the mover, to consider and report in the morning. This committee reported Mr. Buchanan's resolution with some slight amendments and it was carried as follows:

Whereas. there is many parts of Kootenay, Yale and Cariboo urgent need for the construction of wagon roads and trails in order that mining properties now being rapidly developed can be reached by pack trains and wagons so that machinery and supplies can be readily and cheaply got in to the same:

And whereas, the immediate expenditure of a large amount of money in the construction of said roads and trails is an urgent necessity and would prove a judicious and remunerative investment:

And whereas, the present scale of appropriation for this purpose is not in any way commensurate with the large revenue yearly collected by the provincial government from the mining ing districts of the province and is barely sufficient for the repair of existing roads and trails, and is such as to give no warrant for the hope that with in any reasonable time the needs of these districts, which are now imperative and pressing, will receive due consideration at the hands of the government:

And whereas, the system under which the provincial grants for road construction are expended is not such as to secure results commensurate with the outlay, but is inferior in economy and efficiency to a system under which such work would have the benefit of local supervision and control:

Therefore be it resolved, that it is the sense of this convention that the government should borrow on the credit of the province a sum of money sufficient to build and maintain the roads and bridges which are at present urgently needed throughout the mining districts in the province, and here after they should adopt a system under which provincial grants for road construction in the mining districts of the province will be more largely increased, the same to be commensurate with the revenue derived therefrom and the expenditure of the same to be made under the supervision and control of commissioners elected by the people, and following the adoption of some such new and adequate system that provisions should be made by provincial enactment for a form of district or country organization by which any of the districts or counties in the province could if the residents therein see fit, be organized into municipalities either on the lines adopted by the older provinces of Canada or otherwise with the right in such municipalities of collecting and appropriating for this use an equitable proportion for the revenue and taxes at present levied and collected by the provincial government, and particularly such as is derived from the mining industry, including the recording fees, free miners' license and a percentage of the royalty on the output of the mines.

DOMINION REPRESENTATION.

The conference endorsed the memorials of the Rossland and Kaslo boards of trade in reference to representation in the Dominion parliament.

PROVINCIAL REPRESENTATION

Mr. Ross moved, seconded by Mr. McMillian, that, in the opinion of the associated Boards of Trade of Eastern British Columbia the time has arrived when the Boundary district should be given seperate representation in the provincial legislature, and the members of the associated Boards heartily urge upon the British Columbia government the desirability of giving said district such representation without delay. Carried.

SILVER-LEAD QUESTION.

The most interesting discussion of the conference was that in connection with the silver-lead question. There were two stalwarts who discussed the question from separate standpoints. Mr. Buchanan made a powerful speech in favor of urging upon the Commission negotiating a treaty with United States, to secure the removal of the U. S. duty of 1¼ cents per pound on silver-lead ore going into United States. His argument was directed towards the interests of the silver-lead miner. On the other hand Mr. W. H. Aldrige manager of the Trail smelter made a strong plea for the encouragement of the lead smelting industry. He stated that under exisiing tariff duties the Canadian smelters were shut out of the U. S. market and denied the Canadian markets. Mr. Buchanan's

SATURDAY, AUGUST 12 1899.

PURE WATER SUPPLY.

THE rapid development of the mineral resources and consequent rapid growth of towns in the immediate vicinity of the mines, brings new duties and responsibilities upon the municipal fathers in the metropolis of the district. It is of the utmost importance in the public interest and for the safety of the citizens that those new duties should be energetically undertaken and the responsibilities promptly faced. The rapid growth of the town of Phoenix must be viewed with concern by residents of the city; not because of the town itself, for if Greenwood is to be a city of any importance, the big bodies in the different mining camps must be developed. This development means the employment of men and men mean small towns in each camp. Every one of these towns will bring its quota of trade to the metropolis; consequently Greenwood welcomes their existence and rapid growth.

The danger to which we refer lies in the fact that Phoenix is being built along Twin creek. Hotels and restaurants have their back yards drained by this stream and every sort of contamination finds its way into the water. It would be idle to suppose that Twin creek water could remain pure under those conditions. The danger increases as the new town grows. It is a danger that was not unexpected from the very first. Twin creek was never intended as a suitable source of water for domestic purposes. No better source for fire protection could be secured.

Before residents are allowed to make connections with the mains, the city council should seriously consider the situation. To keep Twin creek pure is an impossibility. The town must look to Boundary creek for a supply of pure water.

There is nothing more detrimental to the interests of a city than an epidemic and nothing more likely to bring an epidemic than the use of impure water. Impure water will cost the city more than will a pumping station on Boundary creek.

POOR ADVERTISING.

A BUSINESS man can waste good money by injudicious advertising; so can a city. It is idle to suppose that the city is being well advertised, if the city council succumbs to the blandishment of every fakir who is anxious to get his fingers on some of the city funds. Every city should advertise, but it should advertise judiciously. It should see that a quid pro quo is received for every dollar expended. The San Francisco Wave secured $200 from the city. We would not give $25 for service given in return. For $200 the Wave published execrable photographs of good looking Greenwood citizens and certain articles regarding the city and district. Of these articles two are particularly well written—indeed they are so well written that papers having much larger circulations than the Wave and which are in closer touch with mining men and capitalists would be glad to pay the authors for them.

The position is a simple one. An obscure 'Frisco publication sends an agent to Boundary Creek. He induces well known residents to write free of charge articles regarding the city and district. He holds up the city for $200 to secure the publication of those articles. The Toronto Globe or World or Montreal Star or any other reputable eastern journal would be glad to publish the same articles, and instead of holding up the city council would pay the authors for writing them.

For $200 a lot of effective and legitimate advertising could be secured. If the city council have any more money to expend in advertising, would it not be well to refer the matter to those who know something about the busines?

ROSSLAND.

A VISITOR from Greenwood to the city of Rossland is at once impressed by the very cordial feeling that exists in the Kootenay metropolis towards the Boundary Creek country and Greenwood in particular. The business men, the mining experts, indeed every one with whom one comes in contact, appears to have every confidence in this city and are always ready to sound its praises. Greenwood is to be congratulated upon this friendly feeling and should feel deeply grateful to the citizens of Rossland. It is impossible to estimate the advantage gained by the good will of Rossland. One has only to examine the hotel registers to become convinced that Rossland is the mecca of the very men that are needed to build up this Boundary Creek country. Men of capital and mining experienc, make Rossland their home during their sojourn in the province. It is the centre from which they operate and the good wishes of the people with whom they come into daily contact must have their influence.

We feel sure that Greenwood will reciprocate this feeling in every way, and when the opportunities present themselves, the people here will not be slow in taking advantage of them to assist her friendly sister. There is no reason why one should not assist the other to become two of the largest cities in the province; one the metropolis of Kootenay and the other the metropolis of Boundary Creek.

THE RECENT FIRE.

IF THE recent fire was the work of an incendiary and strong suspicion points in that direction, every effort should be made to bring the culprit that punishment he so richly merits. If there be a miscreant who would deliberately start a fire in the centre of the business portion of the city there is no punishment too severe for him.

It is quite possible, notwithstanding the rumors, that the fire was accidental. There is this to be said about the matter, however, that there is altogether too much carelessness shown by residents of the city. One has to visit only the backs of the business blocks in the city to find shavings, papers and every kind of ignitibles. Basements are left unboarded so that drunks and tramps can wander underneath buildings. We fear that the authorities are not stringent enough about such matters. Every business man should be forced to keep his place in such a condition that a fire would be almost an impossibility unless by design.

All honor to the brave fire boys for their good work with the limited apparatus at their disposal; but the great desideratum is such a condition that fires are not likely to occur.

Boards of Trade Meet.

(Continued From Page 3.)

resolution if carried into effect would kill the Canadian smelters and place the lead ore producers at the mercy of the smelting trust of United States. Finally after a lengthy discussion the following resolution was offered in lieu of Mr. Buchanan's and accepted by the meeting:

Resolved, that it is the sense of this association that the largest possible amount of relief would be given to the lead mining industry in British Columbia by a reciprocal arrangement with the United States by which lead in bullion and in ore would be admitted free of duty into the market of the United States and that we shall continue to urge upon the Canadian commissioners to the international conference the paramount importance of using every effort to secure such an arrangement.

That pending the conclusion of such a treaty or in event of the final failure of negotiations for such a treaty it is the sense of this association:

(a). That lead smelted in Canada and refined abroad should be readmitted duty free into Canada:

(b). That import duties upon manufactured lead coming into Canada should be increased to a parity with the duties levied upon other lines of manufactured goods.

(c). That the bounties already earned by Canadian smelters under the act for the encouratement of silver-lead smelting, 1895, should be immediately adjusted and paid.

ELECTION OF OFFICERS.

The conference decided to meeting at Nelson on the first Thursday of August next year. The following officers were elected for the ensuing year: President, J. S. C. Fraser; vice presidents, Roderick Robertson and G. O. Buchanan; executive, Duncan Ross, J. A. Harvey, T. M. Daly, E. S. Topping, T. L. Haig and Smith Curtis; H. W. C. Jackson, secretary-treasurer.

MANY SUBJECTS.

Many subjects were referred to a committee to draft resolutions covering the same. The committee reported Friday evening.

The reso.utions which were endorsed by the conference, were as follows:

Whereas, owing to the rapid development of the mineral resources towns and cities have sprung into prominence in the Kootenay and Yale districts, and whereas the provincial government has failed to afford those towns and cities such facilities for the transaction of public and court business as the importance of their mining, legal and general business demands. Be it resolved that in the opinion of this association special effort should be made by the provincial government in providing such government offices and officers and sittings of the supreme and county county courts as are required to expedite the mining and legal business of the cities referred to, and the mineral regions tributary thereto.

Whereas, the population and wealth of the districts of Yale and Kootenay have been advancing by leaps and bounds in the past few years and whereas several towns have in that time developed into important residential centers, and others are constantly being added to the list, and whereas the lack of such educational facilities as is to be obtained in places of similar size in the older settled sections of the Dominion or in the adjoining state of Washington, greatly militate against the securing or retaining the better class of residents for such towns.

Therefore be it resolved, that at least one high school should be provided for the district, to be located at the point which can show the most qualified pupils; and

Be it further resolved, That the provincial government should hereafter provide appropriations for the maintenance of the common schools of these districts commensurate with the constantly increasing school population.

Whereas, great inconvenience is experienced in determining the location of occupied lands in the outlying districts of the province;

Be it resolved, That the government be requested to furnish a map of each district, showing the position of such lands. A copy of said map to be on exhibition in the government office of each district and to be kept corrected up to date.

Whereas, the provincial government aids in the construction and maintenance of roads to mines whenever such roads are situated outside the incorporated limits of any city or town.

Therefore be it resolved, That wherever mines paying royalty on output are situated within the incorporated limits of any city 20 per cent. of said royalty should be paid over to such municipality by the provincial government to aid in the construction and maintenance of roads to mines within the limits of such municipality.

Whereas, while this association is desirous of recording its appreciation of the government's action in locating and erecting a land registry office at Nelson. This association would at the same time urge upon the government the necessity of extending this system of erecting local registry offices to other districts in order to facilitate the large increase of transfers of property. The want of such facilities at present greatly retarding the transaction of business in the outlying districts of Kootenay and Yale.

That it is the opinion of this association that the government establish a school of mines at some central point in the district of Kootenay or Yale.

Whereas, it having been brought to the notice of this association that owners of mineral claims have of late been compelled on the demand of the government inspector to pay a royalty upon all timber cut upon crown granted mineral claims, whether such timber has been used for mining purposes or otherwise.

Be it resolved, That in the opinion of this association such action upon the part of the government is an infringement upon the rights granted to the owners of mineral claims under the provisions of the mineral act, and is calculated to work a hardship upon companies or individuals developing mineral claims, and the same should be discontinued.

Whereas, the question has lately been raised as to the absolute right of holders of mineral claims to purchase the surface rights of such claims.

Be it resolved, That in the opinion of the association that the right of the holder of a mineral claim to purchase the surface rights thereof shall become absolute upon his obtaining a crown grant thereof.

Whereas, it is the opinion of this board that very serious harm has resulted in the past from the frequency with which at short notice the mining laws of this province have been subjected to far reaching changes by the provincial legislature.

Be it therefore resolved, That this board respectfully suggest to the government whenever any material changes in the mineral laws are contemplated to give early notice of their intention so to do, in such manner that those portions of the province vitally interested in mining may have time to consider and make due representations concerning the proposed changes before the same are brought before the local legislature.

Whereas, the association regrets that the minister of railways has been unable to secure the passage of such legislation in reference to the location of stations along the lines of government aided railways in course of construction.

Be it therefore resolved, That in the opinion of this association the subject of the location of stations by railway companies along their lines of railway is one that should receive the immediate and earnest attention of the minister of railways and calls for early legislation.

Whereas, it is extremely desirable that this province be properly represented in London. And, whereas, the grant for this purpose is inadequate. Therefore be it

Resolved, That this convention respectfully suggest that the provincial government should immediately place the position of the British Columbia agency in London on a more satisfactory footing by appropriating an annual sum of not less than $25,000 for this purpose, by appointing a properly paid agent-general and by securing an office in the business heart of London.

A special committee was appointed to memoralize the government upon the eight-hour law.

THE SMOKING CONCERT.

On Thursday evening the citizens of Rossland tendered the visiting delegates a complimentary smoker. Mayor Goodeve, in a neat speech, welcomed the visitors to the city. He pointed out the importance of the conference, inasmuch as every board of trade in Kootenay and Boundary Creek were represented. There was an excellent programme rendered by the Rossland people. Short speeches were delivered by the delegates.

THE TRAIL SMELTER.

On Saturday the delegates visited the leading mines, accompanied by members of the Rossland board of trade. In the afternoon they were the guests of Mr. W. H. Aldridge at the Trail smelter. Mr. Aldridge is continually enlarging the plant. The writer had a lengthy conversation with him relative to the treatment of Boundary Creek ores. Mr. Aldridge was quite frank regarding the intentions of the Canadian Pacific Railway company. They had their experts in the district and were pretty thoroughly acquainted with the value and character of Boundary Creek ore. Some ores they were sure could pay all charges and leave a big profit. But there were large bodies of low grade ore that they were not so sure of. Now the Canadian Pacific Railway company had invested a large sum in building a road into Boundary Creek. To secure a return on the money invested a large amount of ore must be transported. So far as the smelter is concerned, its policy will be to treat Boundary ores at a sufficiently low rate to make profitable the mining of low grade ores. Ores will be treated at Trail first until a more accurate knowledge is attained when a smelter will be built in the heart of Boundary district, most probably on Boundary creek.

The big smelting works running full blast are well worth a visit and the visitors were deeply interested in Mr. Aldridge's lucid explanations regarding the treatment ore.

RICH MYERS GREEK.

DESCRIBED BY PERCY GODERNATH

Big Ledges of Rich Ore Being Developed—Canadian Capital Largely Interested in Some of the Leading Properties.

"There is every indication that the Myers Creek Mining district will have as big a boom as Republic," said Percy F. Godernath, who returned here the first of the week, after a three weeks visit to the district. "Already Canadian capital is interested there, and when I say Canadian capital, I mean Greenwood too. It was a Greenwood mining brokerage firm, Messrs. McEntire& McDonnell, who secured the Review mine on Percy mountain. I understand that eastern Canadian investors are interested in the deal also, and some days back Prof. Montgomery, the well known mining expert, examined the property and expressed himself highly satisfied with the result —no doubt he examined the mine for eastern parties.

"The Review is developed by a 250-foot tunnel on the ledge, following the trend of the footwall. When in this distance a crosscut was run from the footwall to the hanging wall and the vein measures at this point 46 feet of ore. The tunnel is now being extended into the hill. The management also propose sinking a 100-foot winze and opening up another level. The ore is a bluish-white quartz, and I was informed that the whole of the ore body would average something above $15 per ton.

"With 46 feet of a vein the Review mine leads the camp. Two miles west of the Review is another promising mine, the War Eagle. This is at present a sinking proposition. The shaft is down 70 feet. For the first 55 feet it passed through a broken up quartz formation when it encountered the hanging wall of the ledge and for the past 15 feet the shaft has been sunk through a curly-blew quartz and the footwall is yet to be reached. Two samplings of this ore body gave an average value of $16.50 per ton in gold and silver.

"Adjoining and paralleling this promising mine is the Wisconsin group that has some immense showings. The War Eagle shaft is about 75 feet from the west side line of the Wisconsin and the strike of their vein would indicate that the apex of the War Eagle ledge will be found on the Wisconsin ground. The development so far has only been assessment work. From a sample of the ore taken out of a 10-foot shaft on the center quartz lead of the Wisconsin, F. N. Cummings, the Greenwood engineer, obtained $41 in gold and silver, and this only at such a slight depth. I mention this as one of a number of instances coming under my own notice of claims showing well defined ledges that 'stand up' when sampled. The Wisconsin group is being acquired by a company in which a number of Greenwood parties have become interested.

"On Percy mountain, which by the way, the boys were kind enough to name after myself, there are a number of properties undergoing development. Stewart & Knowles have interested Spokane capital in the development of several claims. The Strawberry, owned by Smith & Newcomb has also a good quartz showing.

"On the east side of Myers creek, 2½ miles south of Chesaw, is the mill of the Crystal Butte mine. The mill is rapidly nearing completion and will be crushing ore before the first of next month. Also on this side of the creek but three miles north from the mill is the King Solomon mine. The original development of the mine consisted of an incline shaft sunk on a small stringer of quartz, about three inches in width. The shaft followed it down about 35 feet, in which distance it had widened out to 2½ feet. The management then let a contract for a 200-foot tunnel that will, when completed, encounter the vein at a depth of 130 feet. At the time of my visit to the mine the tunnel had been driven in a distance of 150 feet.

"It would require much more space to mention many other promising prospects that I visited. There are numbers of people going into that district and many small deals have been consumated. In the heart of the Myers Creek valley is the new and bustling town of Chesaw. It is prettily situated on the right bank of the creek. The Chesaw Improvement company owns the land and has had same surveyed and laid out in blocks and lots. J. Shroder, well known here, is the hustling townsite agent. With so many promising properties surrounding Chesaw, I have ever belief that it will in the course of a few years be as big a camp as Republic. At the present time, with the amount of work done on the claims, it beats Republic at an equal stage of the game. Of course Republic has produced some sensational mines—Myers creek may produce in time just as many. It is a young camp, only slightly developed but of great promise. The next big boom will in all probability be in the Myers Creek mining district.

"The camp is easy of access, from Greenwood by wagon road it is 28 miles. From Republic by trail it is 35 miles. It is a bunch grass country over which a buckboard can be driven anywhere. Old timers say it greatly resembles Cripple Creek and with development it may turn out to be the case both in appearance and in production."

Messrs. Holbrook, Keen & Co. have been appointed Greenwood agents for the Chesaw townsite. The lots were placed on the market on Tuesday morning and before noon 32 lots were sold. Chesaw is growing rapidly. Last week contracts were let for the erection of 26 new buildings. Two Indian ranches near the town were rented by enterprising ranchers last week.

License Authorizing an Extra-Provinicial Company to Carry on Business.

"COMPANIES' ACT, 1897."

CANADA
PROVINCE OF BRITISH COLUMBIA.
No. 156.

THIS IS TO CERTIFY that the "Jewel Gold Mines, Limited," is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects hereinafter set forth to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate at 15, Philpot Lane, London, England.

The amount of the capital of the Company is £80,000, divided into 80,000 shares of £1 each.

The head office of this Company in this Province is situate in Rossland, and Gilbert Malion, agent for the Company, whose address is Rossland aforesaid, is the attorney for the Company.

The objects for which the Company has been established are:—

(1.) To purchase, take on lease, or otherwise acquire any mines, mining rights and metalliferous land in British Columbia or elsewhere, and any interest therein, or to acquire any options to purchase the same or any interest therein, and to explore, work, exercise, develop, and turn to account the same, and in connection therewith to enter into and carry into effect, with or without modification, the agreement referred to in clause 3 of the Articles of Association of this Company:

(2.) To search for, prospect, examine and explore mines and ground supposed to contain minerals or precious stones and to obtain information in regard to the same:

(3.) To search for, crush, win, get, quarry, calcine, reduce, amalgamate, dress, refine, manipulate and prepare for market, auriferous quartz and ore, and other mineral substances (whether auriferous or not) and precious stones, and generally to carry on any metallurgical operations which may seem conducive to any of the Company's objects, and to buy, sell and deal in bullion, specie, coin and precious metals:

(4.) To buy, sell, manufacture and deal in plant, machinery, implements, conveniences, provisions, articles and things capable of being used in connection with metallurgical operations or required by workmen and others employed by the Company:

(5.) To carry on all kinds of promotion business, and in particular form, constitute and promote companies, syndicates or associations with objects similar or akin to the objects or some of the objects of the Company, and to take or otherwise acquire, hold, deal in, traffic with or underwrite any shares in the capital or any debentures, debenture stock or other interests of or in such companies, syndicates or associations:

(6.) To carry on business as financiers and concessionaries, and as underwriters of shares and securities of companies:

(7.) Generally to undertake and carry out all such business and operations (except the issuing of policies of assurance upon human life) as may be legally underteken by an individual capitalist:

(8.) To purchase or otherwise acquire and undertake all or any part of the business property and liabilities of any person or company carrying on any business which this Company is authorized to carry on or possessed of property suitable for the purposes of the Company:

(9.) To construct, carry out, maintain, improve, manage, work, control and superintend any roads, ways, tramways, branches or sidings, bridges, reservoirs, canals, docks, wharves, water-course, hydraulic works, gas works, electric works, factories, warehouses and other works and conveniences, which may seem directly or indirectly conducive to any of the Company's objects, and to contribute to, subsidize or otherwise assist or take part in any such operations:

(10.) To enter into any agreement with any Government or authorities, supreme, municipal, local or otherwise, and to obtain from any such government or authority all rights, concessions and privileges that may seem conducive to the Company's objects or any of them:

(11.) To enter into partnership, or into any arrangement for sharing profits, union of interests, joint adventure, reciprocal concessions or co-operation with any person or company carrying on, or engaged in, or about to carry on or engage in, any business or transaction which this Company is authorized to carry on or engage in, or any business or transaction capable of being conducted so as directly or indirectly to benefit this Company, and to take or otherwise acquire and hold shares or stock in or securities of, and to subsidize or otherwise assist any such company, and to sell, hold, re-issue with or without guarantee or otherwise deal with such shares or securities:

(12.) Generally to purchase, take on lease, or in exchange, hire or otherwise acquire any real or personal property, and any rights or privileges which the Company may think necessary or convenient with reference to any of these objects, or capable of being profitably dealt with in connection with any of the Company's property or rights for the time being, and in particular, any land, buildings, easements, licenses, patents, ships, barges, rolling stock, and stock-in-trade:

(13.) To sell the undertaking of the Company, or any part thereof, for such consideration as the Company may think fit, and in particular for shares, debentures, or securities of any other company having objects altogether or in part similar to those of this Company:

(14.) To invest and deal with the moneys of the Company not immediately required, upon such securities, and in such manner as may from time to time be determined:

(15.) To lend money to such persons and on such terms as may seem expedient, and in particular to customers of and persons having dealings with the Company, and to guarantee the performance of contracts by members of, or persons having dealings with the Company:

(16.) To raise or borrow or secure the payment of money in such manner and on such terms as may seem expedient, and particular by the issue of debentures or debenture stock, whether perpetual or otherwise, and charged or not charged upon the whole or any part of the property of the Company, both present and future, including its uncalled capital:

(17.) To draw, accept, indorse, discount, execute and issue bills of exchange, promissory notes, debentures, bills of lading, and other negotiable or transferable instruments or securities:

(18.) To remunerate any parties for services rendered, or to be rendered, in placing or assisting to place any shares in the Company's capital, or any debentures, debenture stock, or other securities of the Company, or in or about the formation or promotion of the Company or the conduct of its business:

(19.) To do all or any of the above things in any part of the world, and either as principals, agents, trustees, contractors, or otherwise, and either alone or in conjunction with others, and either by or through agents, sub contractors, trustees or otherwise:

(20.) To distribute any of the assets of the Company in specie among the members, or any class of members, or any individual members of the Company:

(21.) To procure the Company to be registered or recognized in British Columbia or elsewhere abroad:

(22.) To sell, improve, manage, develop exchange, enfranchise, lease, mortgage, dispose of, turn to account, or otherwise deal with all or any part of the property and rights of the Company:

(23.) To do all such other things as are incidental or conducive to the attainment of the above objects, and so that the word "Company," "Syndicate," or "Association," in this clause shall be deemed to include any partnership or other body of persons, whether incorporated or not incorporated, and whether domiciled in the United Kingdom or elsewhere, and the intention is that the objects specified in each paragraph of this clause, shall, unless otherwise expressed in such paragraph, be in nowise limited or restricted by reference to or inference from the terms of any other paragraph or the name of the Company.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 1st day of August, one thousand eight hundred and ninety-nine. S. Y. WOOTTON,
[L.S.] Registrar of Joint Stock Companies.

LOST—A silver watch between Greenwood and Phoenix, Finder will be rewarded by leaving same at Boundary Creek Times office.

Licence Authorising an Extra-Provincial Company to Carry on Business.

"COMPANIES ACT, 1897."

CANADA:
PROVINCE OF BRITISH COLUMBIA.
No. 150.

THIS IS TO CERTIFY that "The Montreal Boundary Creek Mining Company Limited," is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects hereinafter set forth, to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in the City of Saint John, Province of New Brunswick, Dominion of Canada.

The amount of the capital of the Company is $2,000,000, divided into 2,000,000 shares of $1 each.

The head office of the Company in this Province is situate at the City of Greenwood, and Clive Pringle, Barrister-at-Law, whose address is Greenwood aforesaid, is the attorney for the Company.

The objects for which the Company has been established are:—

To prospect and search for, explore, open, develop, work and maintain gold, silver, copper, coal and iron mines, and mines of every other description, and to carry on the business of mining of every description, including crushing washing, smelting, reducing, and otherwise treating the products of mines, and to acquire by purchase or otherwise, mine and work, manufacture and make merchantable, gold, silver, and other ores and deposits and other minerals and metallic substances and compounds of all kinds, stone, oil, coal, earth or matters or things whatsoever, and to sell and dispose of the same, or any of the same:

To purchase and acquire certain mineral lands, leases, licenses, and rights over minerals in the Province of New Brunswick, and also to purchase and acquire lands and properties situate in British Columbia and any other Province or District in the Dominion of Canada:

To purchase and otherwise acquire and deal in real and personal property of all kinds, and in grants, concessions, leases, options, licences or authorities of and over lands, mines, ores, mineral rights, mineral properties, surveys and timber rights, mineral properties, surveys and timber rights, buildings, factories, furnaces, plant, and machinery, trade marks, easements and privileges, rights-of-way, water and other rights in New Brunswick and in British Columbia, and elsewhere in the Dominion of Canada, and any claims against any property, or against any person or company, and either solely or jointly with others to pay for any such properties and things either in shares, of the Company or partly in cash and partly in shares, or otherwise:

To construct, carry out, maintain, improve, alter, manage, work, control and superintend any trails, roads, ways, tramways, bridges, walls, reservoirs, water-courses, aqueducts, wharves, furnaces, sawmills, crush works, hydraulic works, telegraphs, telephones, gas works, factories, machinery, warehouses, ships, vessels, and other works and conveniences, except railways, which may seem directly or indirectly conducive to or expedient and useful for any of the purposes of the Company, and to contribute to, subsidize, or otherwise aid or take part in any such operations:

To use steam, water, electricity, or any other power as a motive power or otherwise:

To improve, manage, develop, lease, mortgage, sell, dispose of, or otherwise deal with all or any part of the property and rights of the Company (including the granting of powers to work any mines or claims or patents of the Company), upon any terms and with power, subject to the provisions of section 73 of the above-mentioned Act, to accept as a consideration therefore, any shares, stocks, debentures or securities of any other company:

To acquire by purchase, lease, licence, or otherwise, absolutely or conditionally, the rights of, either generally or exclusively, over any area or areas of or in all any patent-rights or processes or mechanical or other contrivances useful, or supposed to be useful, for any of the purposes of the Company, and to deal with or dispose of the same, or any interest therein, respectively:

To enter into any agreement for sharing profits, union of interests, or co-operation with any person or company carrying on, or about to carry on, any business or transaction capable of being conducted so as to benefit the said Company:

To purchase or otherwise acquire and undertake all or any part of the business, property and liabilities of any person or company carrying on any business which this Company is authorized to carry on, or possessed of property suitable for the purposes of this Company:

To pay out of the funds of the Company all expenses of or incidental to the formation, registration and advertising of the Company, and to remunerate any person or company for services rendered, or to be rendered, in placing of the shares in the Company's capital, or any debentures or other securities of the Company, in or about the formation or promotion of the Company, or the conduct of its business.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 12th day of June, one thousand eight hundred and ninety-nine. S. Y. WOOTTON,
[L.S.] Registrar of Joint Stock Companies.

NOTICE TO PRE-EMPTORS OF LAND.

NOTICE is hereby given that all pre-emptors or purchasers of Crown lands from whom the purchase money remaining unpaid on such lands is overdue, are required to make full payment of such balance, together with interest thereon, if any is due, within twelve months from the date of this notice, failing which their records or agreements concerning such lands are liable to cancellation, as provided by section 38 of the "Land Act."

F. CARTER-COTTON,
Chief Commissioner of Lands and Works.
Lands and Works Department,
Victoria, B. C., 22nd June, 1899.

NOTICE.

SALE OF CROWN LANDS BY TENDER.

SEALED tenders will be received by the Honourable the Chief Commissioner of Lands and Works up to noon of Monday, 14th August, 1899, for the purchase of the "Wee Mite" fractional mineral claim, situated near Greenwood, and known as Lot 1,465, Group 1, Osoyoos Division of Yale District, containing 1 42-100 acres, more or less.

W. S. GORE,
Deputy Commissioner of Lands & Works,
Lands and Works Department.
Victoria, B. C., 24th July, 1899.

NOTICE.

NOTICE is hereby given that the partnership subsisting between us, the undersigned, as brokers and general agents in the City of Greenwood in the Province of British Columbia, has been this day dissolved by mutual consent. All debts owing to the said partnership are to be paid to Arthur Mowat at the City of Greenwood aforesaid, and all claims against the said partnership are to be presented to the said Arthur Mowat, by whom the same will be settled. The business of the firm of Mowat & Palmer will be hereafter conducted by Arthur Mowat.

ARTHUR MOWAT
ROBERT H. PALMER

Witness: P. P. SHARPE.

Dated at Greenwood, B. C., this 31st day of July, A. D. 1899.

WANTED—A chambermaid and a dining room girl. Apply P. O. Box 112, city.

GREENWOOD AND DISTRICT.

T. A. Winter, of Colville, was in the city this week.

A. B. Clabon, of Rossland, was in the city this week.

Harry Rose and J. A. Schubert of Penticton, were in the city this week.

R. J. Coulter, of Rossland, arrived last week to accept the position of ledger keeper in the Bank of B. N. A.

T. A. Garland, the owner of the Anaconda townsite, left last week on a visit to Portage La Prairie where he will remain with his family for several weeks.

Dr. G. M. Foster and F. Lewin of the Bank of B. N. A., have fully recovered from their recent illness. F. B. Smith is convalescent. N. H. Lamont is rather seriously ill.

David Beath and R. D. Brock have started a draying business in the city. Both are reliable men and as they are well equipped with heavy horses and drays should do a large business.

The revival of the boom in real estate is coming sooner than was expected. Already negotiations are in progress for the purchase of several Greenwood lots at large figures.

G. Lablane, of Quebec, who is interested in the Montreal Boundary Creek company, spent several days in the city. He visited the Sunset mine and was well satisfied with the property.

Albert Uhls, of Spokane, Mrs. Foreman's pianist during the entertainments given last spring, has returned to the city and will take charge of the music for Mrs. Foreman's summer entertainments and class work.

R. Hutchins, formerly shift boss at the Le Roi mine, has scceeded H. Johns as foreman at the Mother Lode. Mr. and Mrs. Johns left this week for a short visit to Spokane and Rossland. Upon his return Mr. Johns will assume charge of the Sunset mine.

The $1,5000 voted by the provincial government for a road from Greenwood to White's camp, will be be augmented by $1,500 subscribed by Greenwood business men and mine owners. Mr. Keffer, the manager of the No. 7 mine, heads the list with $500.

Robert Jaffray, A. A. Cox and Major Pellatt were the only members of the Mackenzie, Mann & Co. party who were able to visit Greenwood. Senator Cox and Wm. McKenzie fully intended to come but were called east by a dispatch. Messrs. Jaffray, Cox and Pellatt arrived here on Tuesday.

Ald. Fisher and W. F. Fletcher returned on Tuesday from Rossland where they attended the meeting of the saw mill men. The details of the lumber trust were perfected. The lumber business of Greenwood will be carried on from the Boundary Creek Milling and Lumber company's office.

R. G. Wynkoop, representing the Might Directory company, of Toronto, Ont., was in the city this week. The directory which will contain a complete list of every person in every line of business in Canada and Newfoundland, will be published about October 1.

A meeting of the members of the Church of England, Midway, was held Wednesday evening last, at which a committee was appointed to see residents of town regarding stipend, of Rev. Mr. Gover, resident clergyman. At noon Thursday a sufficient amount had been subscribed to guarantee stipend. There is also a strong probability that a church will be erected in the near future.

A. B. McKenzie, C. P. R. ticket agent in Rossland, and G. E. Townsend reached Greenwood on Tuesday after an exciting trip. They started from Robson on a flat car, slept at the Summit with the blue canopy of heaven for a covering, were transferred to a coal car, slept on big lumps of Crow's Nest coal, and reached Cascade on Monday. They were both so delighted with Greenwood that they almost reached the determination to remain here until they could return to Rossland on a Pullman car.

Mr. F. T. Short, Mrs. Short and Mastsr Roy, left on Monday for Midland, Ont., where Mr. Short has been appointed manager of the Bank of B. N. A. During their residence here Mr. and Mrs. Short made a host of friends who sincerely regret their departure. The management of the Greenwood branch is now in charge of Mr. John W. Smith, and his many friends hope that the promotion will be made permanent.

ALDERMEN NAMED.

A. Fisher and David Beath Appointed By the City Council to Fill Vacancies.

The electors having failed to nominate persons properly qualified to fill the vacancies in the city council, that body appointed at its last meeting A. Fisher as alderman for Fourth Ward, and D. Beath for the North Ward. These appointed fill all the vacancies in the council. A committee from the volunteer fire department, composed of W. S. Keith, W. M. Law, A. Hallett and J. C. Goupil waited upon the council and told of their requirements.

Mayor Hardy in reply to the delegation stated that the council fully appreciated the necessity for properly equipping the department and as soon as funds were available their demands would receive prompt attention.

PRESCRIPTIONS

Need special care in compounding as well as pure drugs. "Many a broth is spoiled in the making." Any cook may make rich, light pastry with the same materials that another converts into a soggy mass. A skillful diamond cutter may quadruple the value of a gem by artistic cutting. Care in handling and good material go hand in hand. That is what we assure you of when you bring or send in prescriptions to us.

BRUSHES.
