IS THE BEST HOTEL IN GREENWOOD. A New Building, well furnished. First-class Service in all departments. Choice, Wines, Liquors and Cigars. Headquarters for Mining and Commercial Men.

Copper Street, Greenwood.

## CHANGING THE ACT.

*AMENDMENTS INTRODUCED.*

**By The Mining Committee of The Provincial Legislature. The Annual Meeting of The Minnehaha Company--The Development of Local Mines.**

The recommendations of the mining committee of the provincial legislature are not many but they are important and in accordance with the resolutions of different public bodies in the mining districts. A number of new regulations have been added to further protect miners working in metalliferous mine. Better ventilation will be insisted upon. Every shaft 50 feet deep must be provided with bulkheads and bulkhead must be within 30 feet of the bottom. Seventy-five cubic feet of air per minute must be circulated through the workings.

Much of the litigation arising in connection with the location and holding of claims has been caused by miners and prospectors neglecting to renew their licenses at the date of expiration. In order to secure uniformity and to fix the date of expiration prominently in the minds of the holders of licenses, the act is to be changed so that all licenses expire on May 31. Provision is made to issue temporary licenses covering the interval between the expiring of present licenses and that date.

Another amendment is introduced to make it illegal to store powder or thaw powder in a mine.

The cost of abandoning a claim is to be increased to $10.

### MINING NOTES.

The annual meeting of the Minnehaha Company was held in Toronto recently. President Montgomery who had visited the property recommended the purchase of a five-drill compressor, and also a stamp mill after the property was a little further developed. The shareholders adopted the president's recommendations. Directors were elected for the current year.

This has been a fairly quiet week in mining circles. There are plenty of mining men and capitalists in the camp inquiring for good mining properties and negotiating deals but no sales were consummated. There are one or two big sales being negotiated however with good prospects of a successful termination.

Manager MacFarlane has several men doing good work on the Sunset. Mr. W. L. Hogg one of the owners of this mine is expected from Montreal in a few days. A big plant will be installed on the Sunset in early spring.

The big properties are being rapidly developed and more men are being employed in order that the mines may be placed on a shipping basis as soon as the railway is completed.

The Jewel Syndicate have twenty-two men at work on the Jewel. They are making good progress.

Snow Shoes!

Klondike and Shanty Pattern.

GREENWOOD, B.C.

At the Old Ironsides the air shaft is being sunk from the 200 to the 300-foot level and exploratory work is being carried out from the working shaft. An upraise is being cut from the 136 foot drift west from the tunnel. The upraise is now in 40 feet and has about another 100 feet to run. The drift from which the upraise has been started leaves the tunnel at a distance of 340 feet from the mouth. The tunnel is in ore 340 feet, the drift is in ore 136 feet, the upraise is still in ore 40 feet. The tunnel crosscuts the ledge, the drift runs at right angles to the tunnel and the upraise when completed will probably be all in ore 140 feet to the surface. It is interesting to calculate the number of tons that are in the block, of which the tunnel, drift and upraise are three of its dimensions.

J. B. Moody of Camp McKinney was in the city for a few days this week. He leaves to-day for the East to float some Camp McKinney and Boundary Creek properties in which he is interested. Mr. Moody reports that Camp McKinney properties are being rapidly developed and the outlook for the camp is of a most encouraging nature.

Alexander Dick has been experting the Ruby this week. This property was bonded to him a few weeks ago and since then the property has been steadily developed. There are two shafts, one 30 and the other 50 feet, a drift 60 feet in length from which a winze is being sunk.

Fitz Cirkle, the mining expert has examined the B. C., Winnipeg and Golden Crown mines. He intends visiting all the working properties in the district.

At the Mother Lode, the big well timbered working shaft is rapidly increasing in depth. The big plant is working smoothly.

J. M. Scrafford has everything in ship-shape at the B. C. and his eighteen miners are doing good work on the property.

The Messrs. Camerson's are still developing the Lakeside. They have uncovered strong veins of rich free milling ore.

There are several men at work on the King Solomon, Copperopolis, Magnolia and other Copper camp properties.

At the Winnipeg, the men are drifting on the big ore chute recently discovered at the 300 foot level.

E. C. Brown will shortly apply for a crown grant for the properties in the Marguerite group.

There are three men sinking a shaft on a vein of rich ore on the Helen adjoining the city.

Work will shortly be resumed on the Last Chance in Skylark camp.

### CIVIL SERVANTS.

**Government Employes Will be Kept Out of Politics in The Future.**

The government has introduced an act to amend the provincial elections act. The principal amendment is one which bars civil servants and others from exercising the right to vote. The clause reads as follows:

"No Judge of the Supreme or Country Court, no Sheriff or Deputy Sheriff, no employe of the Provincial Government who is in receipt of salary of at least twenty-five dollars per month, no sailor, marine or soldier in the Imperial service, and no officer in the Imperial service on full pay shall be entitled to have his name placed upon the Register of Voters for any Electoral district."

This does not include school teachers. They will still have the right to vote.

### A BIG REAL ESTATE DEAL.

**Three Copper Street Lots Sold Yesterday For a Large Figure.**

Each succeeding day brings a new record as far as the sale of Greenwood real estate is concerned. W. G. Gaunce negotiated a sale yesterday which carries the biggest prices yet paid for Greenwood lots. The purchasers are Messrs. Wallace and Miller of Nelson, B. C. The lots acquired by them are 1,2 and 3, Block 3 at the corner of Copper and Centre street. The two corner lots were owned by W. B. Paton and the adjoining lot by W. G. Gaunce. The price paid was $5,450. Mr. Paton purchased his lots a few months ago for $1,700. His share of yesterday's sale is $4,000.

## THE PEOPLE'S RIGHTS.

THE principle of responsible government which has been violated by the appointment of M. J. Phelan to the vacant aldermanic seat is more important than the appointment itself. In the good old days when the people were struggling to establish the right to elect their own representatives, men were gibbeted for a less serious violation of those rights than that perpetrated by Mayor Hardy and his supporters at Monday night's meeting. It is unfortunate that the representatives elected by the people should be so ignorant of the rights of the people as to make a barefaced attempt to usurp those rights; but when this is the case strong measures are needed. It would be discreditable to the people to allow a bold invasion of their rights to go unchallenged. The electors who are more anxious to maintain these rights than they are to see Mayor Hardy with a working majority of his own creation, may rest assured that civilized methods will be adopted in lieu of the sterner measures of by gone days and that no bobrish autocrat who mistakes obstinacy for stern intelligence will be allowed to foist an alderman of his own making upon the electors.

If no action were taken because Mr. Phelan has made a good alderman there is no saying where the evil would end. There is the strongest probability that Mr. Nelson will be unseated by the courts, or that he will voluntarily resign. Mr. Hardy and his subservient followers in the council have made for themselves a precedent under which they can disregard the rights of the people of the South ward and appoint a man of their own choosing to fill the vacant seat.

It is time Mr. Hardy called a halt. He is ignorant of the law which regulates the affairs of the city and his supporters who are as spineless as any two men who ever sat at a council board are still more ignorant. Instead of retaining or appointing a solicitor who would insist upon the affairs of the city being conducted in a legal manner they have appointed a man who advises to meet the wishes of those to whom he owes his appointment. We feel sure that Mr. Leamy has too much respect for his standing as a lawyer to maintain that the advice he gave the council relative to filling the vacancy in the North ward was sound. Any one outside of Mr. Hardy and Aldermen Sutherland and Campbell and those who are entirely ignorant of the fixed principles upon which all governments in free countries are based recognize the fact that no law will tolerate the mayor, and two aldermen representing one ward, electing an alderman for another ward.

The people who are to conduct the business of the city must be armed with proper credentials from the people and not take their seats under an ukase issue by a mayor who is laboring under the hallucination that he is endowed with sufficient ability to properly conduct municipal affairs.

Unless the conduct of the affairs of the city is to be made a travesty on municipal government, unless the credit city is to be forever viewed by illegal acts, unless the progress of the city is to be retarded on the threshold of what should be the brighest period in its history, these irregularities must cease.

THE calling for tenders for the city scavenger work is unnecessary. No one would find fault with Mr. Hardy for giving the job to one of his supporters.

THE TIMES made the announcement a short time ago that it would cost the city more than $25 a month to have Andrew Leamy for city solicitor.

PRIOR to the passage of the Reform Act of 1832 a member became famous in England because he was nominated and elected for a constituency containing one voter. Mr. Hardy is endeavouring to make Mr. Phelan famous in a similar way.

MR. PHELAN deserves better treatment.

## THE KETTLE RIVER CHARTER.

### A Strong Argument by a Prominent Rossland Barrister.

Mr. Smith Curtis, a prominent Rossland barrister and one of the principal shareholders in the King Company owning the Oro Denoro mine in Summit camp, was interviewed by the Montreal Gazette during his recent visit in the east. Speaking of the Kettle River charter Mr. Curtis said:

"The feeling is very strong in favor of granting the charter to Mr. Corbin. This railway will tap a rich mining region in Washington, notably Republic or Eureka camp, and make it more or less tributary to Canada. With a smelter at Grand Forks, which has in a pre-eminent degree all the natural requirements for large metalurgical works, a very large amount of ore from Washington would be treated in our province. It would also give competition to the entire Boundary country and the value of such competition out there is to be seen at Rossland where Mr. Corbin's Red Mountain Railway, by giving a lower transportation rate for ores and enabling the Le Roi people to erect their smelter, was an important factor in saving the situation when the mining share collapse came twenty months ago.

"The promoters of the Kettle River Valley Railway offer to expend for labor a million dollars in our province, and a half a million more in equipping it with steel rails—a permanent addition of $1,500,000 to our wealth and give us the admittedly great benefit of competition."

"But don't you think it will be defeated?"

"Well, if it is, a very bad impression will be created in the West, for it would be of great benefit to Montreal and other eastern wholesalers and mine owners. Assuming that it enables some American goods to be sold in the Boundary country, this will be far more than counterbalanced by the greatly increased consumption due to increased population which will accrue from this competition."

## REAL ESTATE TRANSFERS.

### Several Lots Were Sold During The Past Week.

Real estate has been very active during the week. In addition to the Barrett block, J. R. Miller purchased H. R. Eliott's house and lot on Silver street for $1,450. E. A. Bielenberg purchased from E. Moulton-Barrett the two storey-log dwelling in the Sutherland addition. Messrs. Smith & McRae sold their Copper street lot to Doc. Raymond. The price paid was $2,100. This is the highest price yet paid for a Greenwood business lot.

Mr. Miller also purchased a few lots in Midway and six lots in McKinney.

M. W. F. Smith of the firm of Smith & McRae has purchased a lot near the court house on which he will erect a dwelling.

W. J. Harris and A. H. Black have been working on the Don't Know claim in Smith's camp. They have sunk an eighteen foot shaft on an eighteen inch vein of rich copper and silver ore.

M. Gully & Co., have purchased a 50 foot lot on Silver street at the rear of furniture store.

## KETTLE RIVER MINING DIVISION.

### Record of Mineral Locations for the Week Ending February 14, 1899.

February 8

### GREENWOOD AND DISTRICT.

Mr. Rolt the well known Rossland real estate man was in the city this week.

Ralph Smailes of the firm of Rendell & Co., is expected from the East tomorrow.

There are four new hotels to be erected in the city during the next month.

Okanagan lake is still frozen from Kelowna to Penticton and the prospects of navigation opening before spring are not encouraging.

Mr. Manchester and wife of Michigan have leased a lot on Copper street near Sproule's blacksmith shop on which they will erect an hotel.

J. W. Nelson of the Pioneer hotel has taken a sub-contract from P. Welch on the work of cutting a new channel for Boundary creek.

A dining room lamp started a blaze at the Pioneer hotel on Thursday evening. The fire department with the assistance of Munroe's fire extinguisher succeeded in checking the fire before much damage was done.

Those who intend to extensively develop mining properties would do well to read Mr. Kirkwood's advertisement appearing in this issue. He offers to supply and erect a complete mining and smelting plant at a reasonable figure.

Mr. W. W. Howe has joined Mr. McCreath in the proprietorship of the Greenwood Bottling Works. They are enlarging their plant and will supply the trade with all kinds of ale, beer, porter, aerated water, wines and cigars.

Pipe laying has begun in connection with the waterworks. As soon as the the pipe is laid from the dam to the end of the flume a hydrant will be placed in position and a test made in order to determine the merits of the dam and the hose recently received from the Gutta Percha Rubber Company.

There are now a large force of men working between Greenwood and Midway on the line of railway. The railway encroaches upon and will destroy the wagon road in a number of places. It will be necessary to build two bridges across Boundary creek and grade a new wagon road unless a large amount of traffic is to be stopped.

John M. White of the Greenwood Pharmacy reports a record breaking freight shipment. A shipment of drugs sent by the American lines to Marcus and from there by freight teams reached Greenwood within ten days of the date of shipment. The experience of most shippers has been that goods generally take ten weeks to reach here.

H. A. Boss of Trail is in the city.

D. McDuff of Camp McKinney was in the city on business this week.

The work on the Golden Crown, Old Ironsides and Knob Hill and the Brooklyn is being vigorously prosecuted and a good showing made each week.

At a meeting of the firemen, held Thursday evening, it was decided to ask the council to exempt volunteer firemen from the payment of the road tax.

H. E. McDonnell, the general freight agent for the C. P. R. and W. E. E. Koch freight contractor from Brooklyn to Boundary Creek reached Greenwood yesterday. They saw all the Brooklyn freight loaded before leaving there. One six and two four horse teams reached Greenwood yesterday with freight from Brooklyn. Mr. McDonnell stated that the road was in good condition and that all freight routed this way would be handled promptly.

### THE BY-LAW ENDORSED.

**The Ratepayers Are in Favor of Competition in Telephones.**

The by-law confirming the agreement between the City and the Boundary Creek Telegraph and Telephone Company was endorsed by the ratepayers Wednesday. Considerable interest was taken in the voting. A few of the electors believed a twenty-five years' franchise too long and voted against the by-law but the majority of the ratepayers believed that it was in the interests of the city to encourage a new company to enter into competition with the Nelson & Vernon company which had unusual privileges granted to them by the legislature before the city was incorporated. The by-law was carried by a vote of 39 to 13.

The company intend to give a contract for the poles immediately and expect to have their system extended to all the camps within six months.

Should Mr. Corbin receive the charter from the Dominion parliament for a telegraph line, the Boundary Creek Telegraph & Telephone Company's lines will be worked in connection with his, affording communication with the outside world.

### CORRESPONDENCE.

THE BOUNDARY CREEK TIMES publishes communications on matters of public interest, but disclaims any responsibility for the opinions expressed in this column.

**Raising Revenue.**

To the EDITOR: Being a "tenderfoot" therefore not "up to the ways that are dark" I read with surprise, in your report of the last meeting of the city council amongst other matters the following: "The securing of revenue from houses of ill fame was then considered and the police commissioners will be asked to set the law in motion with this object in view." Now Mr. Editor who ever heard of a body of aldermen discussing the "ways and means" in such a manner. Their action surely was most inconsistent as gentlemen making the laws of this city. Are not the police commissioners and police competent to deal with the law and law breakers. Are the police only figure heads, till called on by the council, to jump, when they pull the string. Such seemingly being the case I am afraid we do not deserve the name of free and independant citizens, when tolerating such abuses of our rights and previleges.

We surely want something we do not have, that is men in our public offices that know their business. JUSTITIA.
