PUBLISHED WEEKLY IN THE INTERESTS OF THE BOUNDARY CREEK MINING DISTRICT.

Vol. VI. GREENWOOD, B. C., SATURDAY, JULY 1, 1899. No. 9

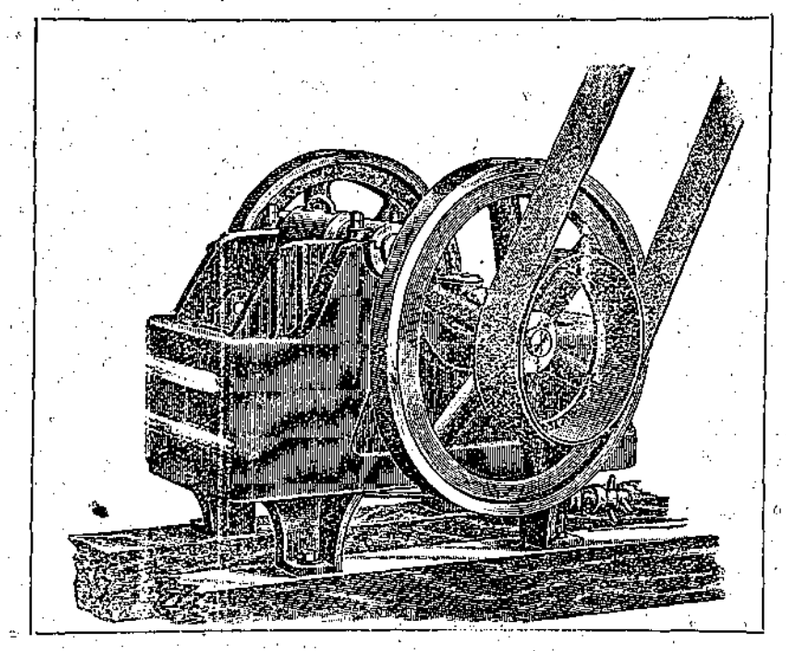
The Wm. Hamilton Manufacturing Co. Ltd.

BUILDERS OF

MODERN MACHINERY MINING

Contractors for the design and construction of complete Stamp Mills, Concentration, Chlorination, Cyanide and Smelter Equipments.

Sole Agents for British Columbia for John Bertram & Sons' Iron Working Machinery. MacGregor, Gourlay Co.'s Wood Working Machinery.



Sole Agents for British Columbia for R. Hoe & Co.'s Celebrated Inserted Tooth Saws. M. Beatty & Sons' Dredging Machinery.

Head Office and Works:
PETERBORO, ONT.

Branch Offices:
Vancouver, B. C., Rossland, B. C.,
And Greenwood, B.C. HARRY HOWSON, Agent.

Put up in 400 Barrels and 200 lbs. Sacks.

PORTLAND CEMENT.

Manufactured by the B. C., Portland Cement Co. at Vancouver and guaranteed equal to any imported cement in the country

Agents for British Columbia
BOYD BURNS & Co. Vancouver, B.C
Wholesale Dealers in Plumbing and Engineering Supplies

Used Largely by C.P.R. and by Contractors Generally.

IS THE BEST HOTEL IN GREENWOOD. A New Building, well furnished. First-class Service in all departments. Choice, Wines, Liquors and Cigars. Headquarters for Mining and Commercial Men.

Copper Street, Greenwood.

THE BONDS ARE SOLD

CITY BONDS PURCHASED FOR 101

The Manufacturers' Life Association of Toronto are the Purchasers.—The Price Considered a High One by Financial Men.

The city loan for 1899 has been floated. The purchasers of the bonds are the Manufacturers' Life Association of Toronto and the price paid is 101. The deal was arranged by R. L. Paterson General Manager for Miller and Richards who visited the city some time ago. Mr Paterson was greatly impressed with the substantial appearance of the city and his attention having been called to the loan he at once placed himself in communication with the head office with a view to securing the debentures for the Manufacturers Life. The Manufacturers Life offered 101 and this offer was accepted by the City Council. The amount is to be borrowed is $30.000 made up as follows: Municipal Buildings and Lot $3650; Cemetery $3250, Streets $15000 Waterworks $8100.

The price offered for the debentures is considered a high one for a young city. Last years' debentures were sold at 92 or 9 cents less than this year. Last years' loan had also the advantage of being the first bonded indebtedness of the city.

CITY COUNCIL.

A meeting of the city council was held on Wednesday evening, at which Mayor Hardy and Aldermen Galloway, Sutherland and Wood were present.

A letter from M. E. Miller; secretary of the celebration committee, requesting that several of the streets be cleared for the 3rd and 4th, was received and filed.

A communication from Dr Schon, medical officer of health, was received and it was decided that the salary of that official be $25 per month.

A telegram to the mayor, from J. F. Junkin of Toronto, was read, offering 101 for city debentures. The offer was accepted.

Harry Howson, representing sports committee, asked for use of corner of Greenwood and Copper streets on afternoon of 4th for drilling contest. Request granted.

By-law 24 rate by.law was reconsidered and finally passed. The rate for this year will be 14 mills general and 11 mills special tax.

Aldermen Galloway and Sutherland, were appointed a committee to see representative of The Wave, a San Francisco publication, which purposes issuing a special addition descriptive of Greenwood and district, and were ordered to purchase 500 copies of the paper if they deemed it advisable.

Nominations for the vacancy in south ward, caused by the resignation of Alderman Cropley, were ordered to be held on the 12th of July and election, if necessary, on the 15th.

Aldermen Cameron, Wood and Galloway were appointed a special committee to look into matters connected with street improvements, etc. The clerk was ordered to get debentures printed.

Council adjourned to Wednesday 5th inst.

WALL PAPER.

We have just received a large shipment replete in various shades and tints, in Ingrains gilt, etc., etc.

FLAGS

Union Jacks, Stars and Stripes, Red Ensign, White Ensign, Canadian, Cuban, Phillipino, Royal Standard, Irish and Scotch, in a variety of sizes.

Smith & McRae,
Copper St. Greenwood

DEATH OF MRS. HARDY.

The Wife of Mayor Hardy Passes Away on Sunday Last.

On Sunday, June 25, Margaret Curry Hardy, wife of Mayor Hardy of Greenwood, died after a short illness at the age of 36 years. Mrs. Hardy was the daughter of A. B. and Mary Curry, of Kintyre, Alborogh township, Elgin county, Ontario, and was married in 1891. In that year Mr. and Mrs. Hardy settled on a ranch at Grand Prairie. In 1893 they moved to Boundary Falls, and afterwards to Anaconda. In 1898, Mr. and Mrs. Hardy took up their residence in Greenwood. Mrs. Hardy was the first white woman to settle in the district, and was highly respected by all who had the pleasure of her acquaintance. Two children, one 6 years and the other an infant—only a few days old—are left to mourn her decease.

The funeral took place on Tuesday afternoon, and was attended by a large number of people from all parts of the district. Impressive services were conducted at the cemetery by Rev. Mr. Dunn. The deceased was a member of the Rebecca Lodge of New Westminster, who ordered a beautiful wreath to be placed on the coffin along with the many other floral offerings.

The pall-bearers were Ald. Sutherland and Cameron, and Messrs. Cropley, Campbell, Phelan, and Russell.

THE CELEBRATION.

Committee has Made Final Arrangements for Two Days Carnival.

The final meeting of the Celebration Committee was held on Wednesday evening when arrangements were perfected for the two days' carnival of Sports.

Everything points to a succesful celebration. The carnival will be opened by a wood chopping contest Monday at 11. a. m. It will be held at the corner of Copper and Deadwood Streets. The first prize is $25 and the second prize $10. In the afternoon a Lacrosse match between two local teams will be held on the Athletic grounds. Horse racing will also be held Monday afternoon on the Athletic Grounds. The tug of war will take place the same afternoon at 5.30 at the Pioneer hotel corner. A grand ball under the auspices of the Volunteer Fire Department will be held monday evening. Tuesday morning the small sports will be held on Silver street. There will also be a bicycle race. The horse racing will be concluded Monday afternoon and the same afternoon the baseball match will be played between Greenwood and Grand Forks. The drill contest will take place at 5 oclock Tuesday afternoon at the corner of Copper and Greenwood streets. There will be a grand pyrotechnic display on Jubilee mountain Tuesday evening and the celebration will be concluded by a ball to be given under the direction of Mrs. H. A. Foreman. Residents are again requested to decorate their houses and business blocks. A prize of $25 will be given for the best decorated building in the city.

SPECIAL PRIZES.

E. Parry, proprietor of the Imperial Hotel, has offered a special prize of $50 to the Boundary Creek team drilling the deepest hole in the match on the 4th, and $75 extra has been subscribed by the remaining hotels to the winners in this contest. The Hunter-Kendrick company will give two suits of clothes, valued at $75, to the team from Boundary Creek district drilling the greatest number of inches. This makes a total of $500 for the drilling contest.

The Greenwood Miner offers a special prize of one year's subscription to the winner of the chopping contest, and also to each of the winners in the drilling contest.

M. E. Miller, returned from a trip to Spokane and Walla Walla on Thursday last. While in Spokane he made purchases for the fire works display on the evening of the 4th.

Thos. Hogan has completed assessment on the General Shafter, a claim adjoining the Sapho, near Midway. The work done consisted of an open cut uncovering a quartz ledge giving copper and gold values,

PARIS EXHIBITION.

The Provincial Mineralogist is Arranging for a British Columbia Representation.

Mr. William Fleet Robertson, provincial mineralogist, has been deputed by the Hon. J. Fred. Hume, minister of mines, to look after the proper representation of British Columbia's mineral wealth at the Paris Exposition. The minister could hardly have chosen a better man for the task. Mr. Robertson will go up the Coast in a few days to obtain specimens, and will then leave for the Interior to get samples of Rossland, Nelson, Ymir, Slocan, and East Kootenay ores.

It must not be supposed that the provincial mineralogist is confining his attention to ore samples. He stated yesterday to the News-Advertiser that he had been to see sawmill men regarding 7,000 feet of choice lumber for the interior of the Colonial Building at Paris. It will be fitted up at Ottawa. He said:—

"We have managed to get the Paris Exhibition Commission to take British Columbia lumber for the interior fittings of the exhibition buildings. This is entirely separate from forestry exhibit; it is simply for use in the inside. The Hastings Mill did not have quite the particular stock that it thought was good enough, so we have managed to get a couple of weeks extra time and the mill will provide the stuff for us, for which the Provincial Government will pay."

"You will go up the Coast shortly?"

"Yes. I have made arrangements here for building-stones to be cut and prepared by Mr. Bradbury. He will prepare them all of a uniform description. Everybody is meeting us very fairly, and none are trying to make any profit. As far as I have gone, every quarryman is turning in his stone, and we are having it cut the uniform shape."

Mr. Robertson also stated that the Canadian Pacific Railway company was giving a very cheap freight rate for all stuff for the Paris Exhibition.—News-Advertiser.

POSTOFFICE ACT AMENDMENT.

Mr. Mulock has introduced the bill to further amend the postoffice act. In explanation of the measure he said that the first section proposes to extend the privileges now enjoyed of enclosing accounts and circulars in copies of newspapers sent to regular subscribers, so that similar documents may be enclosed in sample copies sent to those who are not subscribers. The second section makes eligible for the position of superintendent of railway mail service, clerks who have been ten years in the railway mail service, whether in the office or on the trains, or both. At present only those who have been ten years on the trains are eligible, which provision rather lessens the choice, as many railway mail clerks who are brought into the office as assistants to the superintendent, are thereby rendered ineligible under the existing regulations for promotion. The third section provides for the establishment of a late fee for mailable matter, mailed after regular hours for closing the mails, by which to enable the postoffice to forward to the trains matter that would ordinarily have to await the next train. This system is in force in Great Britain. The last provision enables the department to indemnify and make indemnity with respect to lost registered mail matter, to the extent of $25, or whatever less sum is actually lost, and to charge fees for an insurance fund from which to make good the loss to the department. Mr. Mulock also submitted a return of the appointments made at the Toronto postoffice, and copies of correspondence and papers connected with the contract with the British American Bank Note company respecting the printing of stamps.

ITALIAN LABOR FOR BRITISH COLUMBIA.

The Montreal Witness is in a recent issue responsible for the announcement that Italian workers are entering that city by hundreds daily from New York en route to work on mines and railroads in British Columbia. It is under existing circumstances to be hoped that the suggested influx is not nearly so large as the Witness reports, for the advisability of a big present immigration of Italian cheap labor into our province is questionable. The average remuneration of labor in British Columbia may conceivably be reduced without much difficulty to a point below that which it is advisable to maintain in the general interest of the community, this being one strong point in our objection—though there are, of course, others—to an undue influx of Mongolian labor.

A general maintenance of fair living wage conditions in a country will usually mark that country as one in which the aggregate of prosperity ranks fairly high, and it is certainly better for a land to claim a population, most of whose industrious able-bodied members earn a fairly comfortable livelihood for themselves and those dependent upon them, than for a country to claim at its social apex a number of millionaires, or even multi-millionaires, with a proletariat at the foot which has a hard struggle to earn a livelihood under civilized conditions. The inevitable outcome of such inequality is serious social unrest which, sooner or later, in a self-governing democratic community causes the uprise of dangerous movements in the direction of social revolution.

We are fortunately not threatened immediately by any such danger, but in view of such a possibility of the future, would regard with some natural apprehension organized efforts to bring into our labor market any large numbers of the cheapest workers in the world.

It is possible of course—and we hope this may prove to be the case—that the several hundred Italians who are stated by the Witness to be arriving in Montreal daily en route for British Columbia, may really be men who are making, via Vancouver, for Hawaii, into whose island plantations a large importation of Italian workers is about to be introduced.—News-Advertiser.

WAR EAGLE INQUEST.

The Jury Say that the Men did not Use Proper Care in the Mine.

The further sitting of the jury summoned to enquire into the recent accident at the War Eagle mine, whereby four miners lost their lives, commenced yesterday at 2 p.m. A. C. Galt appeared on behalf of the company. Provincial Inspector of Mines Macgregor, who had viewed the scene of the disaster during the morning, was present and put several questions to the witnesses. John B. Hastings, superintendent of the War Eagle mine, was in attendance but was not asked to give any evidence.

Charles Coulson, the sole survivor of the shift at work, was the first witness. Beyond having his arm in a sling and complaining of deafness, the witness seems to have completely recovered. He told of the explosion and what happened just before and what he did afterwards. He said that if the dirt had been cleared from the face of the drift the men at work might have seen the hole and the accident might have been avoided. He understood that it was the duty of the on coming shift to clean away the muck for their own protection and he could not say why this was not done. The cause of the accident was the running of the drill into the missed hole Lee and Griffin had drilled the fatal hole and the 11 o'clock shift on Wednesday night had fired it.

Dr. Angus Kenning testified as to the services he rendered at the time of the accident and to the death of the four men.

John Fitzwilliams, general foreman at the War Eagle, said he at once went to the scene of the accident when informed about it. The witness said that the men's own carelessness caused the explosion. They should have examined the face of the drift before commencing work, to see if there were any missed holes. It is customary among miners for the outgoing shift to report to the incoming one if there is a missed shot. Part of the powder in question had exploded leaving some still remaining in the hole. The witness said that he knew of only one way to avoid the reoccurrence of such accidents, and that was for the men to use proper care and inspection before proceeding with their drilling.

Inspector Macgregor asked the witness several questions, but elicited nothing that had not already been touched on.

As the jury intimated that they did not require any further evidence the coroner gave the case to them on the conclusion of Fitzwilliams' testimony and in about 30 minutes they returned with the following verdict:

We, the undersigned jury summoned to enquire into the cause of the deaths of Daniel Green, Charles Sturgess, Charles Lee and Michael Griffin, after viewing the bodies and the spot where the deceased were at work when they received the fatal injuries, and carefully listened to and reviewing the evidence find that the aforesaid men lost their lives from being struck with rock thrown out by an explosion, said explosion being caused by a drill (operated by two of the deceased) striking powder which had missed fire in what is called a "cut hole" in the face of the drift in which these men were at work.

We are of the opinion that the accident could have been avoided by the exercise of proper care on the part of these men in making a thorough examination of the holes previously made and supposed to have been properly exploded by the workmen on one of the shifts preceding them. It appears to us in view of the fact that the nature of the work necessitates a succession, or following one another of different shifts or gangs of men that such accidents can only be avoided by a thorough examination of the face of any drift to ascertain if there are any holes which are not fully exploded before drilling others which may come in contact with them.

The failure of these men to take this precaution was evidently the primary cause of the accident. We are also of the opinion that there should be co-operation for mutual protection on the part of the various shifts working in the same face or drift, in making careful reports to succeeding shifts of the condition in which they leave their work, especially with reference to any shots that may not have exploded.

(Signed): John Dean (foreman), Thos. Brownlee, J. E. Thomas, W. A. Blair, W. S. Heron, Henry Roy.

Coroner Bowes then informed the jury that they were discharged from further attendance.

R. G. Gardom has been appointed customs collector at Midway. Mr. Gardom is now with Mr. Gilpin, the collector at Grand Forks, but he will take charge of the Midway office the first of July.

Midway, B. C., May 20th, 1899.

To THE EDITOR,
Boundary Creek Times,
Greenwood, B. C.

Dear Sir:

I have recently learned since my partial recovery from illness of long duration that during the recent visit of Mr. Leonard Norris, assistant commissioner of Land and Works, several land cases in regard to the town of Beaverton or the pre-emption of W. T. Thompson were tried.

I never heard of them!! They were never tried!! simple for the reason that they never existed, Then why? Because the title to Beaverton is perfect.

Who owns Beaverton? The trading men in Greenwood mostly! Bankers, the townsite owners of Greenwood, your leading brokers, assayers, merchants, mining men, and citizens.

Why do they own property in Beaverton? Because they know a good thing when they see it. That is what is building Greenwood city up so fast, and besides they have been on the ground and have seen it themselves.

Beaverton is the terminus of the West Fork branch of the Canadian Pacific Railway, there are no other branches in that part of the country.

Why is Beaverton going to be prosperous and a large and thriving centre? Because it is the key to the entire mining district, and running right up to, in fact right into the town, are some of the largest and richest surface showings of mineral on the continent. Ask such experienced men in these matters as Robt. Wood, George Guess, C. Scott Galloway, J. C. Haas, James Sutherland, C. Æ. Shaw, or in fact anyone who has been at Beaverton what he thinks of it?

Yours truly,
W. T. THOMPSON.

SATURDAY, JULY 1, 1899.

WESTERN RAILWAY RATES.

MANY western papers have taken up the question of excessive rates charged by the C. P. R. and other companies in the west. In reference to this matter the Toronto Globe says:

It is announced from Winnipeg that the Northern Pacific Railway has made a reduction in fares on its Manitoba system from four to three cents a mile. If the Canadian Pacific will follow this example over a wider field the change will no doubt serve its own interest as well as that of the general public. No course could be more popular than a general overhauling of freight and passenger tariffs on the western sections of the transcontinental road. That there is abundant room for improvement no one will deny, and it cannot be ultimately profitable for the railway to pursue a policy certain to foster discontent. The present rate from Winnipeg to Brandon over the main line of the Canadian Pacific, 133 miles, is three cents per mile. From Brandon to Calgary, some 700 miles, and to all intermediate points, it is four cents per mile, and from Calgary to the Pacific terminus and on all traffic between these points the rate is five cents. No return tickets are issued at reduced fares except to Calgary to the Pacific terminus, and on all traffic between these points the rate is five cents. No return tickets are issued at reduced fares except to Calgary, which is but one of many features of the present policy which has the appearance of a monopolistic advantage.

Many western papers are complaining loudly of existing rates and methods, and the comparisons instituted with other British colonies are not always favorable to the Canadian northwest. The fare from Winnipeg to Calgary, 840 miles, is $32.50, while in New South Wales it would be $17 for the same distance. A return ticket to Calgary, the only point to which a reduced rate can be secured, is $50, while in New South Wales it would be $29. In the Australasian colonies there are many other features especially advantageous to the public. Not only are ordinary fares lower than in Canada, but there are special reductions on a sliding scale for long distances, regular reductions on return tickets, and provisions by which school children travel at one-fourth the usual rate, the age limit for that favor being eighteen years. This railway policy in the southern colonies has resulted in a great volume of traffic and in many general economic advantages. In addition to these favors to the public there is no charge for carrying the mails nor for Government business. It would be unfair to compare the Australian conditions with those surrounding the operation of the Canadian Pacific Railway. The Government railways in the southern colonies are not operated for profit but for the benefit of the public. They are not made tax-collecting institutions. Some of them have been subject to error on the other side and have had deficits to be made good by taxation. But while a comparison with Australia may be unfair to the Canadian Pacific, there are many features in the western management of that road which call for reform. Local rates in many instances are unreasonably heavy. The railway has more power and more authority than can safely be conferred on any private corporation, and the result is a condition certain to provoke discontent.

GREAT NORTHERN IS COMING.

THE intentions of a big railway company are always matters for conjecture. Railway magnates do not usually make public their intentions unless it is in their interests to do so. It is therefore difficult to determine the meaning of so much surveying by the Great Northern engineers on the reservation. It is surmised that the Great Northern company intends getting into Republic at an early date, the road to start from Davenport—about 40 miles west of Spokane. From Davenport to Republic is about 80 miles. But apparently the Great Northern is also anxious to tap the Boundary Creek country, and is surveying routes to Midway and Carson. It is quite possible that the C. P. R. and the Great Northern have decided to work together. It is definitely announced that the spur from Columbia to Carson will be built by the C. P. R. this summer. There is absolutely no business for this spur unless connection is secured with the American side. Mr. Graves is also giving the knowing ones plenty to think about. It has been definitely announced that the smelter is to be built on the North Fork, but Mr. Graves has purchased the Carson townsite, Spraggett's ranch, and a portion of McInnes & Vaughan's ranch. The latter properties adjoin the Carson townsite. Railways or smelters are not built in a day, and it will be extremely interesting to watch the future movements of the big companies.

BOARD OF TRADE.

THERE is no good reason why Greenwood should not have a live and vigorous board of trade. There are so many matters of importance to the city that require organized action, that a board of trade is a necessity. Every business man should become a member, and give a little of his time towards promoting the interests of the city.

SIDLEY NOTES.

At about 4 o'clock Tuesday evening between Johnston Creek and Rock Creek on the government road, two half-drunken Siwashes, named Norris and Johnnie, from the head of Okanagan Lake, assaulted and robbed George Cawston. Cawston was riding, and leading a pack-horse, when the two Indians rode up, and demanded his money. While he was struggling with one of them, the other nearly tore his pants off, and succeeded in tearing the pocket out. After securing $40 in cash and a $40 cheque, they decamped. Charles Winters, the Camp McKinney constable, is now in pursuit of the robbers, and it is expected that they will soon be in custody.

The Granite & Banner stamp-mill is expected to be dropping on ore this week.

AN IMPORTANT BILL.

Provisions for Regulating Railway and Telegraph Companies.

An Ottawa dispatch says: A bill of considerable importance will be taken up by Mr. Blair at the next meeting of the railway committee. Its provisions will deal with the building of telegraph and telephone lines; public bridges and the operation and control of railways. Perhaps the most important is that which refers to the operating rules for railways. It is provided that the railway committee of the privy council may make rules and regulations for all railways within the jurisdiction of the Dominion parliament. These rules supercede all previous ones. Such rules will be subject to the approval of the governor in council. Another provision in the bill is to give power to the railway committee of the privy council to order railway companies to erect and maintain stations at given points. The bill provides that anyone destroying the gates, fences or buildings of the company or entering a train with the idea of defrauding companies of fare, will be liable to fine and imprisonment.

The telegraph and telephone companies incorporated by act of parliament are empowered to break up or open any highway subject to the jurisdiction of the municipal council. Travel is not to be obstructed, and companies are not heedlessly to destroy shade trees. The surface of the street must be restored to its former state. In case parliament shall order at any future time wires to be placed under ground, the companies now entitled to carry them on their poles will not be able to recover damages. In case of companies incorporated to construct railway and general traffic bridges, no discrimination for transportation can be made against any company.

NOTICE TO CONTRACTORS.

SEALED TENDERS, properly indorsed, whole or separate, will be received by the Honourable the Chief Commissioner of Lands and Works up to Friday the 7th July, for the erection and completion of School Buildings at the following places, viz:—

Greenwood, Ashcroft, Slocan, Revelstoke and Fernie, B. C.

Specifications, drawings and conditions of tender and contract may be seen at the Government Offices, at Victoria, Vancouver, Ashcroft, Revelstoke, Vernon, Greenwood, Nelson, Slocan, Fort Steele and Fernie, B. C., on and after the 23rd June.

Tenders will not be considered unless made out on the forms supplied, and signed with the actual signature of the tenders.

The lowest or any tender not necessarily accepted.

W. S. GORE,
Deputy Commissioder of Lands & Works.
Lands and Works Department,
Victoria, B. C., 7th June, 1899.

THE WINNIPEG MINE

SHORT DESCRIPTION OF PROPERTY

A Large Amount of Development Carried Out at a Low Cost.—Good Values at Different Levels.—A Rich Chute at 300 Feet.—Good Smelting Ore and High Values.—The Plant.

When the absence of transportation facilities, the excessive cost of the necessaries of life, and the difficulties in securing mining supplies, are considered, the transformation in the Winnipeg mine from the time of its location to the present state of development is a remarkable one. The Winnipeg was located in June, 1895, by Duncan McIntosh, who stuck to the property, and is now president of and one of the principal holders in the company which is developing it. Nature has been generous to the Winnipeg, furnishing it with ledges of rich ore, but the credit for making the Winnipeg a big mine is due to Mr. McIntosh. Single-handed, he went to work to develop the property at a time when there was but little encouragement for the expenditure of energy or money in the Boundary Creek district. He soon demonstrated that the Winnipeg was a property of unusual merit. Mining men made flattering offers to purchase the Winnipeg, but with the stubbornness and canniness of a Highland Scotsman Mr. McIntosh refused. He believed that the original locator of the property, who bore all the hardships of the prospect stage, could well afford to take chances of making a larger stake than that offered by the capitalists. In July 1897, he succeeded in organizing the Winnipeg Mining & Smelting company with himself as president and managing-director, D. H. Beecher—a prominent North Dakota banker—treasurer, and W. F. Honey secretary. Sufficient of the treasury stock was sold to place ample funds at the disposal of the company for development purposes. The new company began work in November 1897. Today the Winnipeg has more development work than any other mine in the district, and it has been carried on at a less cost. A double compartment shaft—4 x 8½—runs to the 300-foot level; at the 50-foot level there is a 74-foot drift run west from the shaft, and a 36-foot crosscut. There is 500 feet of drifts and crosscuts at the 100-foot level, and 360 feet at the 300-foot level, making nearly 1,300 feet of work in all. All this work has been done under the personal supervision of Mr. McIntosh, and this probably accounts for the exceptionally low cost. A record has been kept of the cost of work, including outlay for labor, timber, powder, candles, and fuel. For $6.72 per foot, 579 feet of work was run during five months of last year. The ground is, of course, favorable to cheap work, but careful management is primarily responsible for the low cost.

The ore is a rich pyrrhotite. At the 50-foot level two ledges were crosscut; one is 2 to 6 feet wide, and the other 5 to 8 feet wide. The work at the 100-foot level crosscuts several chutes of rich ore. At the 300-foot level, the drift runs through a new chute 90 feet in length. The ore gives high gold values. Five tons sent to the North Port smelter gave $74.41 in gold and 44 cents in silver. This is above the average value, but there are 1,500 tons of ore on the dump which will average not less than $30 to the ton. The ore is an excellent smelting ore, and a very low rate has already been offered for transportation and treatment. Although no effort has been made to stope out the ore, there are already 6,000 tons in sight without considering the new chute at the 300-foot level. An upraise will be run in this chute at an early date, and the 200-foot level will be driven.

The plant at the Winnipeg includes a 6-drill compressor, one 60-horse-power boiler and another 35-horse-power boiler, a 6x8 hoist, a No. 5 Cameron pump, and 2 machine drills. The buildings include a frame shafthouse—24x50 feet, a comfortable office, a bunkhouse, messroom, and stables. The branch railway to Greenwood and Wellington Camps from the main line will pass through the Winnipeg, affording good facilities for shipping the ore. The property is situated about 10 miles from Greenwood.

High values, good ore bodies, low cost of minining and treatment, are striking characteristics of the mine. It has passed beyond the doubtful development stage, and is sure to become a big shipper and big dividend-payer. Those who take an interest in mining investments appreciate this fact. Less than six months ago, the stock was quoted at 17 cents. Today it is up to 35, and hard to get at this figure.

EDUCATING THE EAST.

Mr. C. D. Porter Has a Good Word to Say For The Boundary Creek District.

C. D. Porter, representative of the Kansas City Refining & Smelting company, who visited Greenwood last week, has been doing good work during his visit to the city in advertising the mineral resources of British Columbia. Last week the TIMES republished an interview with the New York Commercial Advertiser. A lengthier interview appeared in the Montreal Herald of recent date. Speaking of the Boundary Creek country, Mr. Porter said:—

"Going from the west to Rossland, you enter what is known as the Boundary Creek country, which lies between Christina Lake and Midway, a distance of about 60 miles. In this area are situated many mining camps, which are named after the individuals who located the claims, and the names, were I to repeat them to you—some hundred of them—would be too tedious reading in a newspaper article, but I may mention that here you have such well-known properties as Knob Hill, Old Ironsides, Mother Lode, Brooklyn, Stemwinder, and B. C.—all of which are sufficiently developed to prove that they are exceedingly valuable properties; and they will in the near future very materially increase the production of both gold and copper in British Columbia.

"Pursuing our way still further west we come to the Camp McKinney district, in which is situated the Cariboo mine, which is also well known in Montreal as a dividend payer. From there out west to the sea, and even to the islands of the sea, the country is in a measure undeveloped, but every mountain range shows promising veins, many of which will, no doubt, when developed, make profitable mines. Taking the country I have briefly described to you as a whole, I do not hesitate to say that it is one of the greatest, biggest, and best mineral fields for investment and development known in the world today.

"The new line of railway from Robson to Midway will be completed some time during this year, and many short branches, or spurs I ought rather to say, will be constructed to different mines throughout the Boundary Creek country. In fact, the facilities which will be given by the Canadian Pacific Railway company for the handling of large bodies of low grade ores will be practically all that anyone could wish, and it will enable these ores to be marketed in the near future, and thus the mines will become not only self-sustaining, but dividend-paying.

WILL MAKE A FEATURE OF MINERALS.

L. K. Armstrong, secretary of the mineral division of the Spokane Industrial Exhibition, has issued a circular, from which the following is taken:—

"The annual Spokane Fruit Fair has been merged into an event of broader scope than heretofore, and this—its sixth year—is to be known as the Spokane Industrial Exposition, with mining as its most important feature. Extensive exhibits are expected from all the camps of this state, and those sections of British Columbia, Idaho, Montana, and Oregon heretofore represented, with the addition of all other camps available.

"Additional features are to be added in the exhibition of mining machinery, and awards will be made on the merits of the exhibits upon the recommendation of a competent jury.

"A special excursion of mining investors from eastern cities is to be undertaken. From the present outlook it is expected that such excursion will be made, and that several hundred eastern people will participate.

"The American Institute of Mining Engineers will hold their annual convention in San Francisco in October, and negotiations are already started to induce those from the east to return via Spokane, where they can stop over for a few days, and after examining the exhibits in the exposition, visit some of the outlying camps. This organization is composed of the leading mining men and engineers of this country, and will probably number three hundred in attendance.

"Parties have been selected in nearly all the mining camps who are urged to see that creditable exhibits are made from their sections.

"Every effort will be bent to make this the greatest mineral exhibition ever shown in this country; it only remains for those who are chosen to represent the camps to make it such."

Three men are at work on the Tiger adjoining the R. Bell. There is a shaft on this property 56 feet deep. The shaft will be sunk to the 100-foot level, and a crosscut will be run from the present level. The Tiger has the same showing as the R. Bell on the surface, and stands a splendid chance of developing into a big mining property. It is owned by Fred Munns and G. Goodhue of Greenwood, Alex. Owen and Joe Baron.

Goupil & Holden, signwriters, painters, paperhangers, etc., etc., etc.

THE CELLAR . . .

SINKS, Garbage Boxes and Cesspools need attention now. Sometimes sickness in the summer months is due to lack of disinfectants. Be on the safe side—use CREOLIN now.

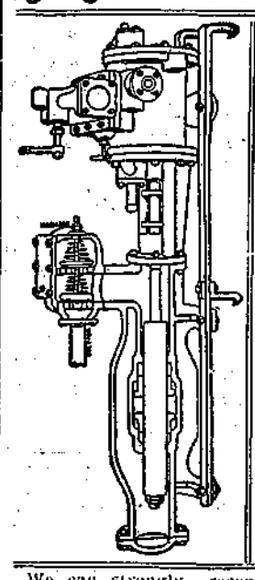
CREOLIN is a prompt, reliable and safe disinfectant. It is not poisonous, and that is one of the reasons why it is in such demand. Death through carbolic acid is frequent.

IN addition to its use as a general disinfectant, Creolin is an agreeable deodorizer for the sick room, an effective home remedy for burns, cuts and other hurts; and a useful application in treating skin blemishes and parasitic diseases of animals.

THREE table spoonfuls of Creolin mixed with a gallon of water makes a good disinfectant

MILLER BROS.
Druggists and Jewelers.

VERTICAL SINKING PUMPS



For Mine Duties.

We can strongly recommend this Pump to those requiring its special type. The extreme convenience of the outside packed form enables it to be readily packed and taken up. The absence of the projecting valve gear etc. is a feature in avoiding breakages during hoisting and lowering in the conferred space where these pumps are used. It is fitted with convenient suspending hooks and the piping arrangement takes up the least possible space. Mining superintendents and those interested in Mining Machinery would consult their interests by sending for catalogue and quotations before installing their plants. We manufacture Pumping Machinery for every conceivable duty.

THAT

THE TOWN OF RENDELL

.....OFFERS A SAFE, SURE AND RELIABLE SPECULATION.....

There is no surer thing on earth than that Rendell is located in the most natural position to command the trade of the rich mining section of the West Fork country. Located at the confluence of Beaver Creek and West Fork of Kettle river at the Junction of the two railways and main line of the C. P. R. nothing can change its natural location. **TO THE MANY BUYERS** Eager to get in on the ground floor of Rendell we beg to say lots will be on the market as soon as the survey is completed. We prefer to complete the survey in preference to selling paper lots. In the meantime don't be decoyed.

NOTICE

TO BUSINESS FIRMS...

In Connection with "THE TIMES" we have one of the most complete

JOB PRINTING OUTFITS

In the interior of the Province. With new power Presses, new Type, and a stock of modern Printers' Stationery, we ars in a position to fill any orders for Job Printing as reasonably, as satsfactorily, and as expeditiously as can be done in Spokane or on the coast.

A merchant who uses "cheap and nasty" Stationery and Printing does his business a serious injury-it is dear at a gift. Let us fill your next order for Letterheads, Billheads or Envelopes; then compare our work and prices with others'. We guarantee you satisfaction.

THE BOUNDARY CREEK TIMES

COPPER ST. - - GREENWOO B. C.

130

THE CHAMPION OF BOUNDARY CREEK.

Alex. Dick Eloquently Describes The Great Possibilities of This District.

At the McIntosh banquet held recently in Rossland, Alexander Dick responded to the toast "adjacent camps." He confined his remarks to the Boundary Creek district, and said in part:—

"Let us pass lightly over the corporate pride displayed, mixed be it said with a slight tinge of modesty, in claiming Rossland as the greatest mining center in British Columbia—a proud distinction, conceded, I believe, by every fair-minded man who listened to Mr. Fraser's speech (hear! hear!), but it would be unfair to the people of Rossland if we did not here utter a note of warning and remind them that the great Boundary district, on which a bountiful Providence lavished great mineral resources, may, within a comparatively short time, prove a rival for the distinction of being called, not only the greatest mining center of British Columbia, but the greatest mining center of Canada. (Prolonged applause.) Sir, the healthy rivalry of opening the greatest number of mines, and extracting the greatest quantity of ore, is a task so vast and so absorbing that it leaves no room for selfishness. Those who know Mr. Fraser will at once acquit him of harboring in his large heart any but the best wishes for the success and expansion not only of the Boundary, but of the whole province. (Applause.) This feeling, I am sure, is general in Rossland (hear! hear!), and you may be assured, Mr. Chairman, it is heartily reciprocated by the residents of the Boundary district. It has been truthfully said that there is no competition in the mining business, and an American senator, possessed of a keen sense of humor, who amassed a large fortune in mining, explained that after failing in other business he took up mining because he had no competitors to fight in selling gold bricks. (Laughter.) Be this as it may, it is an undoubted fact that among men engaged in mining there is always the best of good feeling and good fellowship, which invariably crops out on such occasions as this, when busy men assemble from all parts of the province to honor one of their own number. (Applause.)

"When we stop to consider that the great Boundary district extends 150 miles westward, and contains within its borders mountains full of minerals, and ore deposits on a majestic scale, it will be seen that the colossal task of opening up these extensive low grade ore bodies is as yet hardly realized. Over there we have the North Fork of the Kettle River and Summit camps in the neighborhood of Greenwood and Midway, a little further south the Republic camp, Camp McKinney, and the Similkameen, with ores of gold, silver, and copper. The people waited long and patiently for a railway, and they now feel that with the completion of the C. P. R. extension within the next two months, their fondest hope will be realized and a new era of prosperity will begin. The great possibilities of the district will then be better understood. Blast furnaces will belch forth smoke from their tall chimneys, and the busy hum of industry will be heard in the peaceful hills and valleys. Thousands of Canadian workmen will find profitable employment, and best of all, the ores will be reduced on Canadian soil, thus adding to the prosperity and wealth of our own country. (Applause.)

"Apart from its vast mineral resources, the Boundary district has exceptional advantages in possessing stretches of territory capable of yielding the food stuffs required by a large population. There, too, may be seen the beautiful flower-spangled valleys of the Kettle River and the Okanagan, surrounded by a thousand hills, their slopes clothed in nutritious bunchgrass, and dotted with herds and flocks of the prosperous ranchers."

Goupil & Holden, signwriters, painters, paperhangers, etc., etc., etc.

POLITICS AT A BANQUET.

The great McIntosh banquet had its unpleasant side, judging from the following editorial in the Rossland Record:

"It is a grave mistake to introduce politics into a banquet, which is, or should be, non-political. This fact was vividly illustrated last night when Hon. Joseph Martin was hissed and hooted from the hall for persisting in answering what he deemed political in the address of Hon. T. Mayne Daly. Of course Mr. Martin, as attorney-general of the province, will not attempt to carry out his threat to deprive Rossland of her rights to a $40,000 courthouse on account of any differences he may have had with the few who took part in the disreputable row last night. Aside from this, Mr. Martin had better send his regrets and apologies to the gentlemen there who took no part in the affair for including them with the "hoboes in dress suits." Mr. Martin said many things for which he will no doubt be sorry, and those who provoked his remarks owe an apology not only to Mr. Martin, but to Mr. Mackintosh and the people of Rossland. If banquets cannot be conducted in this city upon more gentlemanly lines than the one last evening and one previously given, it is fully time to 'cut them out' in the future."

Midway, June 2nd, 1899.

Licence Authorising an Extra-Provincial Company to Carry on Business."

"COMPANIES ACT, 1897."

CANADA:
PROVINCE OF BRITISH COLUMBIA.
No. 150.

THIS IS TO CERTIFY that "The Montreal Boundary Creek Mining Company, Limited," is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects hereinafter set forth, to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in the City of Saint John, Province of New Brunswick, Dominion of Canada.

The amount of the capital of the Company is $2,000,000, divided into 2,000,000 shares of $1 each.

The head office of the Company in this Province is situate at the City of Greenwood, and Clive Pringle, Barrister-at-Law, whose address is Greenwood aforesaid, is the attorney for the Company.

The objects for which the Company has been established are:—

To prospect and search for, explore, open, develop, work and maintain gold, silver, copper, coal and iron mines, and mines of every other description, and to carry on the business of mining of every description, including crushing wasting, smelting, reducing, and otherwise treating the products of mines, and to acquire by purchase or otherwise, mine and work, manufacture and make merchantable, gold, silver, and other ores and deposits and other minerals and metallic substances and compounds of all kinds, stone, oil, coal, earth or matters or things whatsoever, and to sell and dispose of the same, or any of the same:

To purchase and acquire certain mineral lands, leases, licenses, and rights over minerals in the Province of New Brunswick, and also to purchase and acquire lands and properties situate in British Columbia and any other Province or District in the Dominion of Canada:

To purchase and otherwise acquire and deal in real and personal property of all kinds, and in grants, concessions, leases, options, licences or authorities of and over lands, mines, ores, mineral rights, mineral properties, surveys and timber rights, mineral properties, surveys and timber rights, buildings, factories, furnaces, plant, and machinery, trade marks, easements and privileges, rights-of-way, water and other rights in New Brunswick and in British Columbia, and elsewhere in the Dominion of Canada, and any claims against any property, or against any person or company, and either solely or jointly with others to pay for any such properties and things either in shares, of the Company or partly in cash and partly in shares, or otherwise:

To construct, carry out, maintain, improve, alter, manage, work, control and superintend any trails, roads, ways, tramways, bridges, walls, reservoirs, water-courses, aqueducts, wharves, furnaces, sawmills, crush works, hydraulic works, telegraphs, telephones, gas works, factories, machinery, warehouses, ships, vessels, and other works and conveniences, except railways, which may seem directly or indirectly conducive to or expedient and useful for any of the purposes of the Company, and to contribute to, subsidize, or otherwise aid or take part in any such operations;

To use steam, water, electricity, or any other power as a motive power or otherwise:

To improve, manage, develop, lease, mortgage, sell, dispose of, or otherwise deal with all or any part of the property and rights of the Company (including the granting of powers to work any mines or claims or patents of the Company), upon any terms and with power, subject to the provisions of section 73 of the above-mentioned Act, to accept as a consideration therefore, any shares, stocks, debentures or securities of any other company:

To acquire by purchase, lease, licence, or otherwise, absolutely or conditionally, the rights of, either generally or exclusively, over any area or areas of or in all any patent-rights or processes or mechanical or other contrivances useful, or supposed to be useful, for any of the purposes of the Company, and to deal with or dispose of the same, or any interest therein, respectively:

To enter into any agreement for sharing profits, union of interests, or co-operation with any person or company carrying on, or about to carry on, any business or transaction capable of being conducted so as to benefit the said Company:

To purchase or otherwise acquire and undertake all or any part of the business, property and liabilities of any person or company carrying on any business which this Company is authorized to carry on, or possessed of property suitable for the purposes of this Company:

To pay out of the funds of the Company all expenses of or incidental to the formation, registration and advertising of the Company, and to remunerate any person or company for services rendered, or to be rendered, in placing of the shares in the Company's capital, or any debentures or other securities of the Company, in or about the formation or promotion of the Company, or the conduct of its business.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 12th day of June, one thousand eight hundred and ninety-nine.

S. Y. WOOTTON,
[L.S.] Registrar of Joint Stock Companies.

CERTIFICATE OF THE REGISTRATION

— OF AN —

Extra - Provincial Company

"COMPANIES ACT, 1897."

"Waterloo No. 2 Gold Mining Company."

REGISTERED THE 11TH DAY OF APRL, A.D. 1899

I HEREBY CERTIFY that I have this day registered the "Waterloo No. 2 Gold Mining Company" as an Extra-Provincial Company under the "Companies Act 1897" to carry out or effect all or any of the objects hereinafter set forth to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in the city of Spokane, State of Washington.

The amount of the capital of the company is $50,000, divided into 1,000,000 shares of five cents each.

The head office of the company in this Province is situate at Greenwood, and D. C. Cameron, cashier, Canadian Bank of Commerce, whose address is Greenwood aforesaid, is the attorney for the company.

The time of the existence of the company is 50 years.

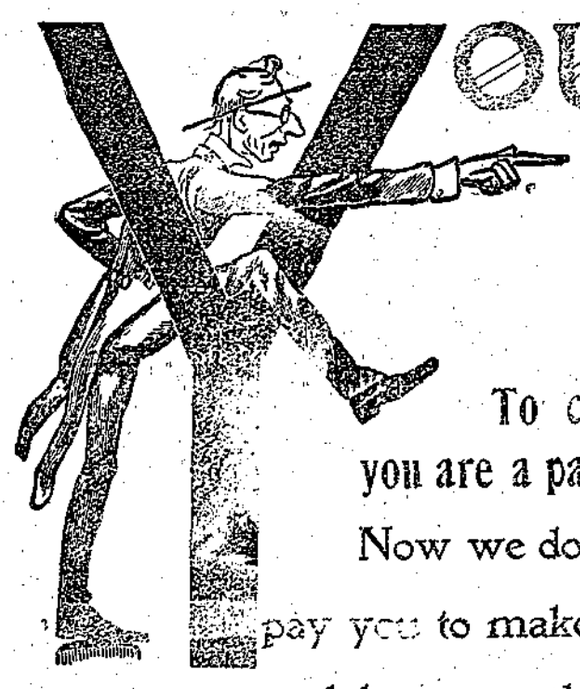
The object for which the company has been established are:

To work, operate, buy, sell, lease, locate, acquire, procure, hold and deal in generally mines, metals, mineral claims of every kind and description within the United States of America and British Columbia; to carry on and conduct a general mining, smelting, milling, and reduction business; to purchase, acquire, hold, erect, and operate electric light and power plants for the purpose of mining and treating ores, and for the purpose of furnishing lights and creating power for all purposes; to buy, bond, lease, locate, and hold ditches, flumes, and water rights; to construct, lease, buy, sell, and operate railroads, ferries, tramways, or other means of transporation, for transporting ore, mining and other materials; to own, bond, buy, sell, lease, locate timber and timber claims; to do and conduct a general mercantile business; and finally to do anything consistent, proper, and requisite for the carrying out of the objects and purposes aforesaid in their fullest and broadest sense, within the territory aforesaid.

Given under my hand and Seal of Office at Victoria, Province of British Columbia, this eleventh day of April, one thousand eight hundred and ninety-nine.

[L.S.] S. Y. WOOTTON,
17-5 Registrar of Joint Stock Companies.

Your house needs a coat of paint. Goupil & Holden.



YOU MAY BE INTENDING PURCHASING ..A NEW SUIT..

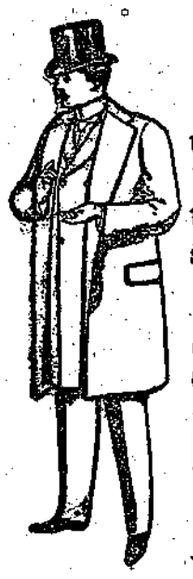
CLOTHING,
MEN'S FURNISHINGS,
NECKWEAR, ETC.

To be seen in the Boundary district. If you need a stylish Hat, a Nobby Neck Tie, a fancy shirt the best pair of Shoes in the Dominion, Slater, or suit of

UP-TO-DATE CLOTHING

Call on us and we will fit you out as

A Man Cannot Look At You . . .
Without Seeing Your Clothing.



If it is neat and becoming **he notices it.**

If it is ill fitting **you look seedy to him**—no matter how pleasant a smile you may wear.

We sell

Shorey's . . .
Ready Tailored Clothing

Our Spring Suits are **high grade** workmanship; well shaped shoulders the collar that hugs closely to the neck; well stayed and substantially sewed.

Handsome **all Wool** fabrics, and every garment has a **Shorey's Guarantee Card** in the pocket.

RENDELL & CO., GREENWOOD

GREENWOOD AND DISTRICT.

Ralph Smailes, manager for Rendell & Co., returned from the Coast on Monday.

J. D. Murray, provincial timber inspector, has been in the district for a week collecting timber dues.

D. McLeod, chief of the Commissary Department of Maun, Foley Bros., & Larsen, was in the city this week.

Dr Stevenson, a prominent physician of Oshawa, Ont. is visiting the district. He is a shareholder in the Winnipeg.

Mrs. H. S. Wallace, Rossland, is visiting with Mrs. Geo. R. Naden. Mr. Wallace accompanied Mrs. Wallace as far as Grand Forks.

The King Solomon mine has been closed down on account of the eight-hour law. The men had been working ten hours, and rather than have any trouble, the owners decided to close down the property.

Greenwood has now a brass band. The instruments arrived last week, and the boys have been practising ever since. Indeed, the man who blows the big trumpet has been sued for damages by his legal neighbor.

Rendell & Co. have removed their dry goods to their new store on Copper street. The new store has been handsomely fitted up. It is conveniently arranged, and has in every respect the appearance of a first-class store in a large city. The old dry-goods store will be used for the liquor department.

Joseph Stanton died at the Greenwood hospital on Friday, June 23. The deceased contracted pneumonia, which was responsible for his death. Mr. Stanton was born at Mayville, Maryland, about 50 years ago. He was a printer by trade, but ran the sawmill boardinghouse at the time of his death. The deceased left a wife and one child. The funeral, which took place on Monday, was largely attended. The services were conducted by Rev. Father Palmer.

On the Globe, Canyon Creek a 25-foot shaft has been sunk, and a crosscut is being run to tap the ledge.

W. F. Tye, chief engineer for the Columbia & Western Railway, was in Greenwood for several days this week.

R. Robertson and Sam Strong returned from the West Fork on Thursday, where they have been prospecting for the past month.

On Sunday next, July 2, there will be service in the Roman Catholic church as follows: Mass at 10 a.m., Evening Devotions at 7:30.

H. T. Wilgress, the right-of-way agent for the Canadian Pacific Railway company, left on Tuesday for a two-weeks visit to the Coast.

Jay P. Graves and his mining superintendent W. B. Hodges are in Grand Forks. Active preparations are being made to begin work on the smelter.

Rufus Pope, M. P., J. R. Allan, and W. T. McDonald left on Monday for Grand Forks. Messrs. Pope and Allan will go east via the Crow's Nest road.

Miller Bros. have placed a large sign on the top of Jubilee mountain. It can be distinctly seen from the road on the opposite hill leading to Greenwood Camp.

E. Escalet has taken the Columbia Hotel in Columbia. He and family left for there on Monday. D. W. Morgan intends reopening his business in the city.

Frank R. Mendenhall, the general agent for the Jenckes Machine company, paid Greenwood a business visit last week. He sold an auxiliary hoist for the Mother Lode mine.

Phœnix is growing! Harry Nash's new hotel is nearing completion. The Old Ironsides company is building several residences and an office near Wynkoop & Stephen's hotel.

The Cascade Power & Light company is clearing the right-of-way for their electric line to Wellington and Greenwood camps. The company intends furnishing the mines with electrical power.

Sidewalks are being laid on Copper street.

John Keough arrived in the city on Saturday.

Tenders are being asked for the sinking of a 100-foot shaft on the Four Hundred, a claim west of Fourth of July Creek.

Peterson and Newman have made a new and rich strike on the Silver Dollar Canyon Creek. The ledge is 20 feet in width.

Forbes M. Kerby has completed the survey of Canyon City, Fletcher's new Townsite, near the mouth of Canyon Creek.

The wagon road from the West Fork to Canyon Creek is now under construction, and will be completed in the course of a few weeks.

The wagon road between Anaconda and the Fourth of July creek is in a very bad condition—worse than it has been siene its construction.

Arch. Jackson, an old-time resident of Boundary district, arrived from Nicola on Wednesday, and will remain a couple of weeks, visiting friends.

Jas. Fisher has been doing assessment work on the Three Kings group in Central camp. The King of Spades, King of Hearts and King of Diamonds. The claims are near the Lincoln and City of Paris. The work was done on the King of Spades and consisted of a 33-foot crosscut. The assay values on gold and silver.

GREENWOOD BOARD OF TRADE.

To be Incorporated with a Large Membership of Delegates to Rossland.

A well attended meeting of the Mining and Commercial association was held in Rendell's hall on Wednesday evening. The special committee to whom the matter was referred reported that they had succeeded in securing Anthony J. McMillen and Clive Pringle as the representatives of Greenwood at the boards of trade conference to be held in Rossland at an early date. The delegates were instructed to attempt if possible to stop further agitation by discouraging any discussion on the eight-hour law. They were also requested to ask the cooperation of the boards in attempting to secure Government offices for the city and also fair treatment in the matter of representation.

The Committee in the organization of a board of trade reported that they had met with every encouragement. Over 40 business men have signified their willingness to join and encourage a board of trade. The matter of securing incorporation was left in the hands of R. B. Kerr.

MYER'S CREEK.

Considerable activity in that section—Stamp mill on The Crystal Butte.

W. Fohsbender arrived in the city on Thursday from Myers Creek, where he has a number of mining interests. He said that he did not bond a claim for $6000, and that he has no $6000 wild-cats. After a few casual remarks about "silver tips" and newspapers generally, Mr. Fohsbender stated that considerable work was being done on the claims of Myers Creek.

The 10-stamp mill on the Crystal Butte will be running next week. The sawmill is already running, a boarding house and bunk houses have been built and a chute from the mine to the wagon road is under course of construction. There is sufficient ore blocked out and on the dump to keep the mill running for six months.

The parties who recently bonded the Review, an adjoining claim to the Crystal Butte, are developing the claim by a 100-foot shaft and a 200-foot tunnel. The ledge is from 6 to 8 feet in width and is a free gold proposition.

John O'Hearn has bonded his properties, adjoining the Review, to Republic parties. The ore is galena running about $40 in gold and $20 in silver. John McEchen has bonded the Yamhill to the same parties. On this property there is 30-foot shaft, with a good ore body.

On the Yakima a rich strike has been made, giving good values in silver gold and copper, some of the ore running as high as 10 per cent in copper, but the principal values are in silver. The property is being developed by a Yakima company.

A tunnel is being run on the Philadelphia, lying north of the Crystal Butte. The tunnell is now in 60 feet, and will tap the ledge at about 80 feet. The ore gives good values in both copper and gold.

Harry Morgan and C. Brown are working on the Cariboo and Rumbler in the same camp, and have uncovered some very rich ore, giving values in copper gold and silver. Development done so far is surface work.

A. Hutchinson and John Grant are sinking on a good body of ore in the Umatilla.

MacKay Ingrim is developing the Racer, another promising claim.

GREAT WEST FORK COUNTRY

Prospectors save packing by buying your outfits at Westbridge 10 miles above Rock Creek.

NOTE A FEW OF OUR PRICES.

Hams	17½ cts.	Rice	10 lbs for $1
